Louis Stout will present the fifth annual Brass Performance Seminar March 7. He will be joined by guest artist Steven Mumford.

digitaries and anonymous citizens of the Roman Empire. It will be on display through April 22.

In his lecture, Mr. De Puma will address how these portraits were used to influence the public's perception of emperors and digitaries.

Guitarist to perform

Christopher Parkening, the renowned classical guitarist twice nominated for Grammy Awards, will play a concert of traditional Spanish dances and some classical pieces at 8 p.m. Friday, March 9, in Schwab Auditorium at University Park.

Mr. Parkening began studying the guitar at the age of 11 and was selected only four years later for the first master class given in the United States by the famed flamenco guitarist, Andres Segovia. Today, he performs all over the world as a soloist and also with many of the world's leading orchestras. In addition to giving recitals in North America, Europe and Japan, Mr. Parkening has recorded nine albums.

Mr. Parkening dedicates his Penn State performance to Segovia, his late mentor, and will play two pieces written by him. He will be joined for part of his performance by a former student, David Brandon.

The performance is supported jointly by grants from the Pennsylvania Council on the Arts and the National Endowment for the Arts.

Choirs to perform

The Penn State University Choir and the Bucknell University Choir Choral will present a joint concert at 8 p.m. Saturday, March 10, in the Recital Hall of the Music Building at University Park.

Together the two choirs will perform the Vaughan Williams "Te Deum in G" and selections by Luboff and Wilkousky.

The University Choir, directed by Daniel Danner, faculty member in the School of Music, and assistant conductor Russell Shelley, will feature selections by Dello Joio, Brahms and varied arrangements of love songs.

The Concert Choral, conducted by William Payne, faculty member in Bucknell's Music Department, will perform a three-movement work by Landes in jazz style and other works by Hogenson, Larsen and Halloran.

The University Choir Chamber Ensemble also will take part in the program, featuring madrigals and folk songs by Morley, Dowland and Seiber.

The concert is free to the public.

The arts on Channel 3

WPSX-TV will present three spectacular

Great Performances programs on Sunday, March 11, during its 25th Anniversary Festival.

Maestri in Salzburg, an all-star musical salute to the beloved composer in the city of his birth, airs at 12:55 p.m. James Levine leads the Vienna Philharmonic Orchestra, soprano Jessye Norman, violinist Anne-Sophie Mutter and pianist Murray Perahia in the gala performance, taped at the 1989 Salzburg Festival.

"Julie Andrews in Concert," airing at 8 p.m., features the singer performing such favorites as "I Could Have Danced All Night," "The Sound of Music" and "Come Rain or Come Shine." The concert was taped at the conclusion of her standing-room-only national tour last summer at the historic Wilmette Theater in Los Angeles.

Shirley Jones hosts and performs in "Music by Richard Rodgers," a salute to the composer of "Oklahoma!," "Carousel," "The Sound of Music" and "Pal Joey" at 9:35 p.m.

Miss Jones, who was discovered by Rodgers and Hammerstein in the early 1950s and chosen by them to star in the film versions of "Oklahoma!" and "Carousel," is joined in the performance part of the program by Richard Kiley, with whom she sings "The Sweetest Sounds" from Rodgers' "No Strings."

Trumpeter to play

Trumpeter Robert Howard, faculty member in the School of Music, will present a recital at 8 p.m. Monday, March 12, in the Recital Hall of the Music Building at University Park.

Pianist Timothy Shaffer, music faculty member, will assist Mr. Howard in the recital. The program will include the music of Scheidt, Hindemith and Altenburg.

The recital is free to the public.

Art history lecture

Dorothy Metzger Habel, associate professor in the Department of Art at the University of Tennessee, will give the lecture "Architects or Clods? The Profession of Architecture and the Emergence of Planning in 17th-Century Rome" at 8 p.m. Tuesday, March 13, in 112 Walker Building at University Park.

The lecture is part of "The World and the Italian Architect: Native Images and Reflections Abroad" 1989-90 lecture series, co-sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies. The series is dedicated to Helmut Hager, head of art history.

An architectural historian, Dr. Habel's major research interest is Roman Baroque and Rococo architecture, with a concentration in the work of Filippo Raguzzini and the Roman planning of Pope

Alexander VII

Dr. Habel received her doctorate in history of art from the University of Michigan and has taught at the University of Nebraska in Omaha. Her research specialties also include European and American prints and old master drawings, for which she has curated several exhibitions and prepared accompanying catalogues.

The lectures in this series will be published as Volume VIII of the "Papers in Art History from The Pennsylvania State University." The volume will be presented as a "Festschrift" to Professor Hager upon his 65th birthday in March 1991.

The lecture is free to the public. A reception will be held after the lecture in the lobby of Walker Building.

Soprano to perform

Soprano Suzanne Roy, a veteran performer and associate professor of music, will present a lecture/recital of songs written for her at 8 p.m. Wednesday, March 14, in the Recital Hall of the Music Building at University Park.

Steven Smith, an internationally acclaimed solo pianist and faculty member in the School of Music, will assist Dr. Roy.

The program will feature "Two Songs on Anonymous English Ballads" by James Hopkins, 1962; Edna St. Vincent Millay songs by Jack Jarrett, as well as excerpts from his mass, "Missa Pro Tempore Mortis," 1966; the premiere of selections written for Dr. Roy by Bruce Trinkley; and "Eleven Voodoo Songs" by Bert Fennel.

In her lecture, Dr. Roy will discuss works by two other composers whose works are not on the program.

Noted for her work in 19th-century French song and 20th-century voice compositions, Dr. Roy has performed throughout the United States and France, as well as on radio and public television. Her academic and performing careers have emphasized her interest in the relationship of words to music.

Dr. Smith, a veteran performer of concertos and chamber music, has given solo performances throughout the United States, Western Europe and Africa, as well as on European radio and PBS television in the United States.

Flute ensemble

The Penn State Flute Ensemble will perform in concert at 12:10 p.m. Thursday, March 15, in Eisenhower Chapel at University Park. The 20-minute concert is part of the Spring Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include selections by J.S. Bach, "Monochrome for Eight Flutes" by Peter Schickele and selections by Bozza and Casterede, both 20th-century French composers. Works performed will be scored for the full flute family, including piccolo, C flute and alto flute.

The flute ensemble is directed by Eleanor Armstrong, faculty member in the School of Music, and assisted by Elizabeth Sharp, a teaching assistant in flute. It consists of 10 flute majors in the School of Music.

Museum lecture

Elizabeth Walters, associate professor of art history, will give the lecture "Roman Imperial Art: The Empress's New Clothes" at 12:10 p.m. Thursday, March 15, in the Palmer Museum of Art at University Park. She will discuss the representation of Roman empresses in sculpture. Her lecture complements the "Roman Portraits" exhibition currently on display at the museum through April 22.

Dr. Walters received a bachelor's degree in art history from Vassar College and her master's and doctoral degrees from New York University's Institute of Fine Arts. Her doctoral work emphasized Greek and

University Park Calendar

March 8— March 18 Special Events

Thursday, March 8

National Women of Color Day, Nittany Lion Inn.
Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel.
Center for Women Students, open house, 4-6 p.m., 101 Old 120 Boucke.
Lesbian and Gay Film Festival, 7 p.m., HUB Assembly Room. *Don't Tell If You Don't*.
Gallery Talk, 8 p.m., Palmer Museum of Art. Richard De Puma, Univ. of Iowa, on "Portraits and Politics: Imperial Images as Propaganda."
English Dept., reading, 8 p.m., 112 Walker.
Richard Stern, Univ. of Chicago, will give a reading of his fiction.
German Dept., lecture, 8 p.m., 124 Sparks.
Hilfrud Hantzschel, Universität München, on "Frauen und Pazifismus in der Weimarer Republik."

Friday, March 9

Geog. Coffee Hour, 4 p.m., 319 Walker. Dale White, U.S. Geological Survey, on "Spatial Analysis of Statewide Water Quality."
Center for the Performing Arts, 8 p.m., Schwab Auditor. Christopher Parkening, classical guitarist.

Saturday, March 10

Shaver's Creek, Dried Flower Arranging, 1-3:30 p.m., Call 683-2000.
Center for the Performing Arts, 8 p.m., Eisenhower Aud. *Squal Theatre*.
School of Music, 8 p.m., Recital Hall. Penn State Univ. Choir, Bucknell Univ. Choir.

Sunday, March 11

Shaver's Creek, Kitchen Cabinet Herbolology, 1-5 p.m., Call 683-2000.
Carnegie Hall Film Series, 7 p.m., Superfly (1972); 8:45 p.m., *Suzanne (Vie Notre Dame Nune)* (1988); 4 Carnegie. Free.

Monday, March 12

Ebony and Ivory Week, through March 17.
Lesbian and Gay Film Festival, noon-1 p.m., 120 Boucke. *Just Between of Who You Are*.
Comp. Lit. Luncheon, 12:15 p.m., 101 Kern.
James Berlin, Purdue Univ., on "The Collapsing Boundaries of Cultural Studies and English Studies."
School of Music, 8 p.m., Recital Hall. Robert Howard, trumpet.

Austrian Film Week, 8 p.m., 101 Chambers. *Whiskey Operation Hydral*. Free.

Tuesday, March 13

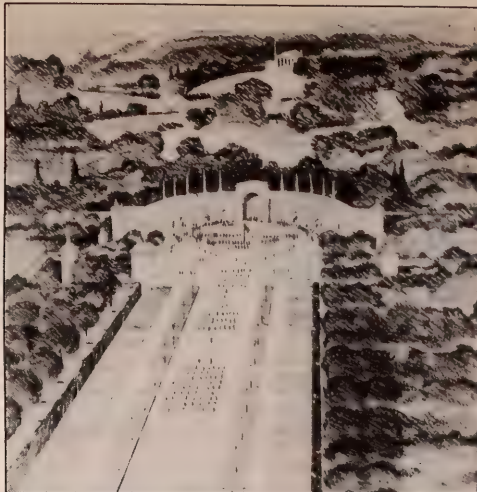

German Department, lecture, 8 p.m., Rare Books Room, W342 Pattee Library. Donald E. Pitzer, Univ. of Southern Indiana, on "German Secular Communal Settlements in America."
Art History Lecture Series, 8 p.m., 112 Walker.
Donnelly Metzger Habel, Univ. of Tennessee, on "Architects or Clods? The Profession of Architecture and the Emergence of Planning in 17th-Century Rome."

Wednesday, March 14

Lesbian and Gay Film Festival, noon, 120 Boucke. *Just Between of Who You Are*.
Carnegie Lecture Series, 4 p.m., 112 Kern.
Kenneth P. Wilkinson on "Rural Development Research and Policy in the United States."
Austrian Film Week, 8 p.m., 101 Chambers. *Invisible Opponents (Unsichtbare Gegner)*. Free.
School of Music, 8 p.m., Recital Hall. Suzanne Roy, voice.

Thursday, March 15

Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel.
Brown Bag Lunch/Lecture, 12:10-12:50 p.m., Palmer Museum of Art. Elizabeth Walters on "Kaiser Emperor Art. The Empress's New Clothes."
Office of Religious Affairs, Ethics in America.

The winning entry in the Women in Military Service for America Memorial is included in an exhibition in the Formal Gallery of the HUB.

videotape presentation and discussion, 3 p.m., Eisenhower Chapel. "Trafficking: Truth on Trial—Ethics in Public Relations."
Austrian Film Week, 8 p.m., 101 Chambers. *Callaghan (Kannenberg)*. Free.
Six Feminist Scholars Lecture Series, 8 p.m., HUB Gallery. Lin Nelson, Central N.Y. Council on Occupational Safety and Health, on "A Matter of Survival: Every Woman's Science and Social Ecology."
School of Music, 8 p.m., Recital Hall. Michael Ericson, oboe.

Friday, March 16

Trustees meet at Hershey, through March 17.
Geog. Coffee Hour, 4 p.m., 319 Walker. Peter Webster on "Exploring Earth's Boiler Box."
Austrian Film Week, 8 p.m., 110 Wartik. *Desire (Dammert)*. Free.
Saturday, March 17
School of Music, 10 a.m.-4 p.m., Recital Hall. Brass Performance seminar, registration, 865-3221; 10:30 a.m., Louis J. Stout on "The Horn: From the Forest to the Concert Hall."
Shaver's Creek, Maple Harvest Festival, 11 a.m.-4 p.m. Also March 18. Call 863-2000.
Austrian Film Week, 8 p.m., 110 Wartik. *Melanie und Student Gertrud*. Free.

Sunday, March 18

Janet Berliozian, mezzo-soprano: on "Dall'antipato al dolce." 2 p.m., Palmer Museum of Art.
School of Music, 2 p.m., Recital Hall. Ononta Chamber Players.
Center for the Performing Arts, 3 and 8 p.m., Eisenhower Aud. *Bag River*.
Carnegie Hall Film Series, 7 p.m., Bad Timing: *A Serious Obsession* (1980), 9:15 p.m., *Hospital* (1970), 4 Carnegie. Free.
School of Music, 8 p.m., Recital Hall. Marylene Dosse, piano.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-6:30

p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.
"Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.
"Perspectives," 6:10 p.m. Wednesdays, with Jeff Ballou. "Creative License," 12:30 p.m. Thursdays, with Asa Berlin and Pam Sautier

Conferences

Continuing Education

Keller Building

March 9-10. Microcomputer Information Exchange Conference. Kyle Peck, assistant professor of education, chair. Donna Ricketts, coordinator.

March 12-14. Mining Instructor Training Short Course. Mark C. Radomsky, director of field services and instructor in mining engineering, director. Eric Loop, coordinator.

March 13-15. Troubleshooting O and M Problems in Activated Sludge Wastewater Treatment. David A. Long, professor of civil engineering, instructor; Eric Loop, coordinator.
March 16-17. American Society for Aesthetics Eastern Division. Chuck Herd, coordinator.

Seminars

Thursday, March 8

Polymer Science, 9 a.m., 301 Steidle. S.J. Kurtz, Union Carbide, on "State-of-the-art in Polymer Processing."
Ecology, 3:45 p.m., 111 Wartik. Robert Loeb, Altona, on "The European Settlement of Forest Composition and Structure in Eastern New Jersey and Southwestern New York."
E.W. Mueller Memorial Lecture, 8 p.m., 119 Osmond Lab. Klaus V. Kitzing, Max-Planck-Institute, on "Physius and Application of the Quantum Hall Effect." Also March 9, 11 a.m. S5 Osmond Lab. on "Basic Research on Microelectronic Devices."

p.m. Saturday, March 24.

Enrico Aukso, Graduate Council Research Committee chair and director of the Institute for the Study of Adult Literacy, said that students will use prize money for their research.

Judges will select first, second, and third place winners within each of five categories. They will base their decision on intellectual content and visual appeal of exhibits, as well as the verbal presentation of the student.

The exhibition will be open for viewing from 10 a.m. to 4 p.m. both days.

Friday, March 9

McKinley Research Conference II, 2:40-4 p.m., 333 Beam. Robert Sullivan, Univ. of Texas/Austin, on "Recent Directions in Manufacturing Research."

Monday, March 12

Entomology, 3:45 p.m., 204 Patterson. James R. Miller, Michigan State Univ., on "Oviposition Behavior of Onion Fly."

Russell Marker Lectures in Genetic Engineering, Hugh McDevitt, Stanford Univ. School of Medicine, 8 p.m., 117 Osmond Lab. on "How MHC Molecules Function in the Immune Response." Also March 13, 8 p.m., 117 Osmond Lab. "MHC Structure and Antigen Presentation." March 14, 8 p.m., 117 Osmond Lab. "Self-NonSelf Discrimination." March 15, 11:15 a.m., 101 Althouse Lab. "New Insights and New Strategies."

Tuesday, March 13

Gerontology, noon-1 p.m., 101 Health and Human Dev. Bldg. East. Donald Kunze on "Mechanization of Memory and Therapeutic Environments."

History Colloquium, 4 p.m., Memorial Lounge. Eisenhower Chapel. On cho Ng on "The Socio-cultural Milieu and the Historian: The Study of Modern China in America."

Wednesday, March 14

Slave Center Luncheon Seminar, noon, 124 Sparks. Jim Drews, on "Forthcoming Elections in East Germany."

Library Faculty Organization Research Committee, colloquium, 1 p.m., 105 East Pattee Library. Dennis Phillips, Allentown, on "Game, Set, Publication: Reflections of a Tennis Bibliophile."

Thursday, March 15

Ecology, 3:35 p.m., 111 Wartik. Warren Abrahamson, Bucknell Univ., on "Elements of Holocene-Plant Evolution: Goldenrod-Bullgrass System."

Exhibits

Chambers Gallery

School of Visual Arts. Undergraduate Graphic Design and Metals Exhibition, through April 6.

HUB Galleries

Formal Gallery:

Dept. of Landscape Architecture. To Design a Monument: Three Design Competitions, through March 25.

Kern Galleries

College of Science Research Exhibitions, through March 20.

Palmer Museum of Art

The Avant-Garde and the Text, through March 11.

Roman Portraits, through April 22.
Figurative Drawings of the 17th and 18th Centuries from the Accademia Nazionale di San Luca in Rome, through May 20.

Pattee Library

East Corridor Gallery: Jean Thomas Forsberg landscape paintings, through March 9.

Zoller Gallery

Undergraduate Junior Exhibition, through March 30.

Obituaries

Thomas W. Minkus, retired associate professor at the Ogonic Campus, died Jan. 17 at the age of 69. He joined the faculty July 1, 1948, and retired July 1, 1970.

Francis W. Kramer, baker-utility in Housing and Food Services, from Sept. 9, 1959, until retirement Aug. 15, 1972, died Feb. 16. He was 77.

Albert G. Neidrick, family housing project worker, Housing and Food Services, from Feb. 8, 1971, until his retirement March 1, 1981, died Feb. 19 at the age of 74.

Grafius S. Greenawald, assistant supervisor, Housing and Food Services from Oct. 1, 1954, until retirement Feb. 1, 1969, died Feb. 25 at the age of 83.

Grad students present research at exhibition

Some 100 graduate students will illustrate and describe their thesis research at the fifth annual Graduate Research Exhibition March 23 and 24 in the Kern Graduate Building at University Park. The exhibition is co-sponsored by the Graduate Council and the Office of the Senior Vice President for Research and Dean of the Graduate School.

According to Charles Hostler, senior vice president for research and dean of the Graduate School, Penn State graduate students hold 10 of the prestigious NSF fellowships won in national competition.

and the University ranks 15th nationally in research expenditures and third nationally in industrial support for research.

"We should soon be among the top 10 in overall expenditures," he said, "Penn State is growing faster in research support than any other U.S. university."
Since graduate students at Penn State and at most other large research universities shoulder much of the research effort, Dr. Hostler added, the exhibition was organized to showcase their intellectual achievements.

Prize money of \$10,000 will be awarded, with the winners to be announced at

Appointments

Jay S. Cox, former team physician and director of sports medicine at the U.S. Naval Academy, has been appointed director of clinical services for the Center for Sports Medicine.

The center, established in Spring, 1989 and located at University Park, represents a collaborative effort among the College of Health and Human Development, College of Medicine and Department of Intercollegiate Athletics.

Dr. Cox is responsible for the center's clinical services, which include the prevention, evaluation, treatment and rehabilitation of sports injuries for Penn State's varsity student-athletes. He also will collaborate with the center's director of research, William Kraemer, in a major study of the epidemiology of sports injuries.

In addition to clinical services, the center engages in research to examine the causes and effects of injuries, and it provides continuing education programs for professionals.

Dr. Cox is professor of surgery in the College of Medicine and has a joint appointment as professor of exercise and sport science in the College of Health and Human Development.

Before joining Penn State, he was an orthopaedic consultant for a private practice in Arlington, Va. He had been the team physician and director of sports medicine at the U.S. Naval Academy from 1974 to 1984 and was the chief of orthopaedic surgery at the Naval Hospital and Naval Regional Medical Clinic in Annapolis, Md. He was on the Summer Olympic Games medical staff in 1984 and has served as orthopaedic consultant for the Oakland Raiders, the Baltimore Bullets and several high school and college athletic teams.

Dr. Cox has published widely on aspects of ankle sprains and other athletic injuries and serves on the editorial board of *Orthopaedics*, the *Journal of the Orthopaedic Association*, the *Journal of Orthopaedic and Sports Physical Therapy*. He is president of the American Orthopaedic

Society for Sports Medicine and past president of the Herodius Sports Medicine Society. He holds Fellow status in the American College of Sports Medicine.

He earned his bachelor's degree at the College of Wooster, in Ohio, and holds an M.D. degree from Jefferson Medical College.

Peter J. Potter has been appointed acquiring editor in history and social science at the Penn State Press.

Previously, he had served as an editorial assistant (1986-87), assistant editor (1987-88) and associate editor (1988-89) at Wesleyan University. Since last summer, he has been acting director of Wesleyan's press, overseeing the process of integrating its program into the University Press of New England's operation.

He is completing a master's thesis in medieval history for the University of Virginia.

Jay S. Cox

Human resources center has course openings

Courses for employees

The Human Resources Development Center, 319 Rider Building, has openings in the following courses. Call the Center at 865-3410 for registration information.

Sexual Harassment – Intent vs. Impact

Learn to identify the differences between friendly behavior and subtle sexual harassment in the workplace. Meets from 1:15 to 4:30 p.m. Monday, March 12; cost: none.

Customer Service Introducing *Legendary Service*, a fast-paced, three-part video

program that pinpoints the 10 fundamentals to becoming a service legend. You'll learn what providing legendary service really means and how your organization can get there; meets for three half-day sessions March 13, 10 and 20 from 9 to 11:30 a.m.; cost: \$75.

Time Management Recognize time management as a primary element in effective performance, and improve your own management of time; meets Wednesday, March 14, from 9 a.m. to noon for staff and from 1 to 4 p.m. for

clerical; cost: \$35.

Employment Interviews Learn how to conduct an employment interview; meets from 1:30 to 3:30 p.m. Thursday, March 15; cost: none.

Faculty honored

Four University faculty members have been named fellows of the American Society for the Advancement of Science.

The award of Fellow is presented to a

member whose efforts on behalf of the advancement of science or its applications are scientifically or socially distinguished. The AAAS elected 310 individuals as fellows of the association on Feb. 19.

Penn State's new AAAS Fellows are **Lloyd Miles Jackman**, professor of chemistry, College of Science; **William B. Lacy**, assistant dean for research and professor of rural sociology, College of Agriculture; **John R. Nesselroade**, professor of human development, College of Health and Human Development; and **Elliott S. Vesell**, Evan Pugh professor of chemistry, Hershey Medical Center.

News in Brief

Deadline extended

The deadline for filing applications for the Administrative Fellows Program has been extended to March 15, until the original application deadline coincided with the Spring Semester break.

Brown bag lecture

The Faculty Women's Club will sponsor a brown bag lecture for faculty women, their spouses and friends at 11:30 a.m. Wednesday, March 21 in Room 301 Hetzel Union Building, at University Park.

Michael A. Smyer, associate dean for research and graduate studies in the College of Health and Human Development, will discuss "What is the Key to Surviving Aging? Can We All Avoid Aging?"

Libraries' colloquium

Dennis Phillips of Penn State Allentown Campus will discuss "Game Set Publication: Reflections of a Tennis Bibliophile" at 1 p.m. Wednesday, March 14, in 105 East Patten Library at University Park.

His talk is part of the Colloquium Series of the Library Faculty Organization's Research Committee. For more information, call Amy Paster at 865-3713.

Research subjects needed

Evaluations are sought for a study evaluating five user-friendly consumer electronic products. They are a voice-controlled microwave, a remote-controlled vacuum cleaner, a TV-VCR with memory, a remote-controlled movable and tiltable TV, and six-speaker audio system with memory. Subjects will be paid \$5 for less than one hour of participation time. If interested, contact

Andris Freivalds or Donghyun Park at 865-2740.

Penn State Golf Courses

Following are opening dates for the Penn State Golf Courses:

The White Shop in Recreation Building is now open seven days a week, 7 a.m. to 6 p.m. The White Course will open for play Monday, March 12, from 7 a.m. until dark.

The new lighted practice range at the Blue Course Shop will open March 12 from 11 a.m. to 8 p.m. Expanded hours of 7 a.m. to 9 p.m. will go into effect Friday, March 23. The Blue Course will open for play March 23, 7 a.m. until dark.

Openings are dependent on weather and turf conditions. For verification, contact the White Shop 865-6231, or the Blue Shop, 865-7462. No play is permitted on facilities prior to opening dates.

Child care specialist program

The Department of Human Development and Family Studies is offering, for the fourth year, the summer certificate program to train Family Child Care Specialists—better known as "Nannies."

During the program (June 3 through Aug. 25) students are housed with host families in the community. In exchange for free room and board, students provide part-time child care and, for the month of August, full-time child care.

Interested families are required to live in or near State College. Within the CATA service area, have a private bedroom for the student; agree to home visits for student supervision by program supervisors; attend two orientation meetings.

Families who have hosted before need to attend only one meeting. Interested families should contact Elizabeth Barker or Tearesa French at 863-0241 for an application.

Phi Kappa Phi initiation

The Penn State Chapter of The Honor Society of Phi Kappa Phi will induct 204 University juniors at 2 p.m. Sunday, March 11, in Schwab Auditorium at University Park.

President Jordan, a member of the society, will address the initiates.

The ceremony will result in a total of 340 Penn State juniors and seniors recognized for their academic excellence during 1989-90. More than 250 students became society members in 1988-89.

Phi Kappa Phi is unique in that it recognized scholarship in all academic disciplines. At Penn State, juniors and seniors who are in the top 5 percent of students in each of the academic colleges, and whose grade point averages are 3.50 or higher, are eligible for membership.

For more information about the Penn State Chapter, contact Linda Hugginson, 865-2150, or Tom Eakin, 863-4920.

Graduate Lecture

Kenneth P. Wilkinson, professor of rural sociology, will speak on "Rural Development Research and Policy in the United States" at 4 p.m. Wednesday, March 14, in 112 Kent Building at University Park as part of the Graduate Lecture Series. Dr. Wilkinson will discuss survey conditions that define the needs, review efforts to establish a research-based federal policy, and appraise the role of social science in these efforts. He also will present an agenda that applies research to rural problems.

Bike auction

The annual bike auction is being held from noon to 1 p.m. Friday, March 9, at the Surplus Warehouse behind lot 83, North at University Park.

Robert McNichol, police supervisor for University Police Services, says, "The bikes for the auction have been abandoned on campus. We try to locate the owner by matching serial numbers and notifying the owner to pick it up within 90 days. Those that are left are sold."

Proceeds from the auction go into a student fund. The auction is open to the public.

Cooperative Extension opens new office

Penn State Cooperative Extension opened the new headquarters of its Capital Region, located at Penn State Harrisburg in Middletown, on March 2. The ribbon-cutting ceremony completed the recent restructuring that separated the former Southeast Region into two administrative areas.

"We formed two regions in this part of the state to better serve the area's diverse needs," Lamartine B. Hood, dean, College of Agriculture, and director of cooperative extension, said.

The seven counties in the Capital Region are Adams, Cumberland, Dauphin, Franklin, Lancaster, Lebanon and York. The new Southeast Region includes Berks, Bucks, Chester, Delaware, Lehigh, Montgomery, Northampton, Philadelphia and Schuylkill counties.

The office's address is: Penn State Cooperative Extension, Capital Region Office, Penn State Harrisburg, 64 CRAGS Building, U.S. Route 230, Middletown, Pa. 17057; (717) 948-6326.

Partings

John Kolesar, professor of engineering at the Penn State Wilkes-Barre Campus, has retired after 34 years service.

A 1952 graduate of Penn State, Professor Kolesar joined the Wilkes-Barre Campus faculty as an instructor in engineering in 1955. He was promoted to assistant professor of engineering in 1960, associate professor in 1963, and professor in 1973.

Professor Kolesar developed and headed the associate degree programs in surveying technology, highway technology and railroad engineering technology at Wilkes-Barre. He most recently served as special assistant to the director of engineering technology at University Park.

He was a member of the University Faculty Senate for eight years and served on a number of University committees. From 1985 to 1988, he was acting head of the Department of General Engineering, overseeing all associate degree engineering programs at the University.

He is the recipient of the 1984

Pennsylvania Society of Land Surveyors Outstanding Service to Surveyors Award, the 1985 Outstanding Adviser Award of the College of Engineering, the Hayfield Teaching Award and the Wilkes-Barre Campus 1989 Excellence in Performance Award.

A registered land surveyor, Professor Kolesar is a member of the American Congress of Surveying and Mapping, the American Society for Engineering Education, Pennsylvania Society of Land Surveyors, and the American Railway Engineering Association.

A Jack Kolesar Scholarship Fund has been established in his honor at the Wilkes-Barre Campus.

John Kolesar

Jo Ann H. West, clerk typist B, Housing and Food Services, from Nov. 21, 1946, until Jan. 31, 1949, and from May 29, 1979, until Jan. 27.

Tana L. Lingo, clerk records A, Academic Services, from Oct. 1, 1978, until Jan. 1.

Faculty/Staff Alerts

Smoking policy

The University's policy on smoking, which went into effect April 3, 1989, is aimed at promoting a more healthful environment for the Penn State community and protecting the health of nonsmokers at all University locations.

Except for private residences, smoking of any material is prohibited in all facilities. Exceptions have been granted to limited areas. For example, smoking is permitted in the public dining area on the porch off the main dining room at the Nittany Lion Inn. A restricted smoking area also can be established in residence halls to accommodate a smoker who shares a residence room with a nonsmoker.

A Smoking Policy Review Committee has been established to oversee and evaluate compliance with the policy and make recommendations regarding requests for exceptions. The committee members are representative of faculty, staff, clerical and technical-service employees and students. The current committee chair is Thomas L. Merritt, professor of animal science, who expressed his pleasure with the cooperation shown by everyone in complying with the new policy in spirit and in practice.

"We have had very few difficulties," he said. "People for the most part seem to understand the importance of the policy

and are doing their part to ensure its success."

Billie S. Willis, assistant vice president for human resources, indicated the University's intention to provide support for smokers who desire to quit.

"To that end," Dr. Willis said, "we have sponsored many American Cancer Society Fresh Start smoking cessation programs, and we currently are assessing possible additional such programs to be available throughout the University."

Dr. Willis also noted that the Milton S. Henshey Medical Center pharmacy will make Nicorette available to faculty and staff members. In order to receive this prescription drug, the written prescription should be sent to the Medical Center pharmacy with a check for \$22.00 (to cover the cost and postage) made out to Penn State University. The name and address of the faculty or staff member should accompany the request.

Questions about this service may be directed to the Medical Center pharmacy, Network 454-6927, or the Employee Benefits Division, 865-1473 (Network 475-1473).

Health promotion survey

Surveys for the Faculty/Staff Health Promotion Program needs assessment have

been mailed. Faculty and staff are encouraged to participate in the development of this program by completing and returning the questionnaires when they arrive this week.

For more information about this project, refer to the Feb. 22 issue of the *Intercom* or contact Nancy Saisano, Office of Human Resources, at 865-3085 (Network 475-3085).

Center for Academic Computing

Telephone changes at the University's Center for Academic Computing are scheduled to go into effect March 10. Improved telephone service will allow direct dialing to the following areas.

Monday through Friday, 8 a.m. to 5 p.m.: Operations, 865-0800; User Support Group, 865-0812; Software or Accounts, 865-4772; Seminars and Publications, 863-6113; Advanced Projects, 865-0830; Business Office, 863-0427; Director's Office, 863-0421; Mainframe Consulting, 863-2494; Microcomputer Consulting, 863-1035; Student Consulting, 865-2100.

For further information regarding consulting hours and appointments, call 865-0812. For assistance during non-business hours, call 865-0800.

SERS annual statements

Annual retirement account statements have been distributed to faculty and staff members who are members of the State

Bookshelf

John R. Kaiser, coordinator for collection development, University Libraries, has compiled two major bibliographies on the works of English poets Tony Harrison and Peter Porter.

These publications, *Tony Harrison: A Bibliography 1957-1987* and *Peter Porter: A Bibliography 1954-1986*, are an attempt to provide a comprehensive list of each poet's books, pamphlets and broadsheets, and contributions to periodicals and newspapers, as well as interviews, radio and television appearances by the poets.

Among other audiences, the publications are intended for those individuals interested in modern English poetry. Also, because of the extensive descriptions of first editions (i.e., transcription and description of the design of the title page, collation, binding, dust jacket; publication date; price at publication; number of copies printed; pagination and contents), the publications are valuable references to book collectors and dealers.

Employees' Retirement System (SERS). These statements provide information about retirement accounts as of Dec. 31.

Many of the statements contain either current retirement estimates (as of the end of last year) and/or projected retirement estimates to normal retirement age. The member's age, years of service and proximity to the normal retirement date determine the type of estimate(s) which are provided.

Faculty and staff members with questions about retirement account statements should contact the Employee Benefits Division at 865-1473 (Network 475-1473).

Tuition Reduction

This is a reminder that the 75% tuition reduction for graduate study for employees and spouses is taxable as ordinary income. Ordinary income is subject to withholding of all payroll-related taxes.

For the Spring Semester, these taxes will be withheld from the March, April, and May monthly payroll checks and from the five bi-weekly pays beginning April 6 and ending June 1.

Office moves

Energy Technology Projects, a part of the Department of Nuclear Engineering, has moved from 321 Sackett Building to Suite B in Barbara Building. The phone number remains the same: 863-2133.

Focus on the arts

(Continued from page 4)

Roman art and archaeology, with a minor in Egyptian art.

The lecture is free to the public. The audience is invited to bring their own brown bag lunch.

Undergraduate exhibit

The "Undergraduate Juried Exhibition" of students' work will be on display Thursday, March 15, through Friday, March 30, in the Zollner Gallery at University Park.

Scott Pfaffman, curator of the Fulton Ferry Sculpture Exhibitions in Brooklyn, selected 70 works, including paintings, drawings, ceramics, metal sculptures, photographs and graphic designs created by students in the School of Visual Arts at the University Park and Commonwealth campuses.

An opening reception will be held from 2 to 4 p.m. Thursday, March 15. Zollner Gallery is located in the Visual Arts Building adjacent to the Palmer Museum of Art. The gallery is open Monday through Friday 9 a.m. to 5 p.m., Saturday 11 a.m. to 4:30 p.m., and Sunday noon to 4 p.m.

Oboe recital

Guest oboist Michael Ericson will give a recital at 8 p.m. Thursday, March 15, in the Recital Hall of the Music Building at University Park.

The concert will include works by Reinecke, Saint-Saens and Fiala. Mr. Ericson will be accompanied by pianist and Penn State faculty member Timothy Shafer.

Mr. Ericson is the principal oboist of the Knox-Galesburg Symphony and has toured throughout the United States and Europe as a member of the Camerata Woodwind Quintet. He has performed extensively with the Indianapolis Symphony Orchestra as well as several midwest area recording studios.

Design exhibit

An exhibition of entries from three recent design competitions for memorials in Washington, D.C., is on display through March 25 in the Formal Gallery of the HUB at University Park.

"Competitions X 3" includes the winning designs, representative entries and design programs from the Korean War Veterans

Memorial Competition, the Women in Military Service for America Memorial Competition and the National Peace Garden Competition.

The winning design for the Korean War Veterans Memorial was submitted by Penn State professors Veronica Bucus Lucas and Eliza Pennypacker of the Department of Landscape Architecture, and Don Leon and John Lucas of the Department of Architecture.

Sponsors of the exhibition include the Department of Landscape Architecture, the Women in Military Service for America Memorial Foundation, Skidmore Owings and Merrill, the National Peace Garden Project and Virginia Polytechnic Institute.

HUB Gallery is open noon to 7 p.m. Monday through Thursday and noon to 5 p.m. Friday through Sunday.

Squat Theatre

The Squat Theatre Company, known for its unusual approach to theater space and aesthetics, will bring its award-winning entertainment to Eisenhower Auditorium at University Park at 8 p.m. Saturday, March 10.

"Dreamland Burns" an avant-garde production for mature audiences only, is sponsored by the Center for the Performing Arts.

Using film, live performers, brash dialogue, animated mannequins and even fire, "Dreamland Burns" transforms the stage into a surreal representation of city life. The loose plot is about a broken-hearted woman named Alexandra, who consults a palm-reading cab driver to engineer the murder of her estranged lover.

Prior to the March 10 performance, Squat will be in residence at the University. An open forum will be held at 7:30 p.m. Thursday, March 8, in the Eisenhower Greenroom. Squat members will discuss their new work "Killing Time," which is being commissioned by Penn State, to conclude the trilogy beginning with "Dreamland Burns" and "L Train to Eldorado."

Tickets for the March 10 performance are available at the Eisenhower Ticket Center weekdays from 9 a.m. to 4 p.m. and at the Playhouse Box Office. Tuesday to Friday from 11:30 a.m. to 5:30 p.m.

Sidney Topol will present Palmer lecture

Sidney Topol, chairman of the board of ScientificAtlanta, will deliver the first Palmer Lecture on Telecommunications Studies at 4 p.m. Wednesday, March 21, in the Kern Auditorium at University Park.

The public lecture, "Post-Broadcast Television: HDTV and Industrial Policy," will focus on challenges presented to policy-makers by the new and controversial technology of high definition television.

"We are delighted to have someone of

Sidney Topol's stature deliver this premier lecture on a subject of increasing importance to telecommunications policy makers," says Richard D. Taylor, the first Palmer Professor in the School of Communications, which is hosting Mr. Topol.

Mr. Topol has worked with ScientificAtlanta, an Atlanta, Ga.-based communications firm, for 18 years, including service as president and chief

executive officer. He has been chairman of the board since 1978 and seen annual sales to defense, corporate and private concerns grow to more than \$500 million.

His lecture is the first of an annual series funded through James R. and Barbara R. Palmer, friends of Penn State. The couple endowed the Palmer Chair in Telecommunications Studies with a million-dollar gift to the School of Communications in 1987.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. The announcement is made so that all University employees who are interested in promotion MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 865-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until March 15. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law) sex, or status as a disabled or Vietnam era veteran.

*** Textbook Assistant, Penn State Bookstore, University Park Campus** - Responsible to the textbook specialist for the textbook operation, maintain current pricing information on all titles purchased-develop and maintain list of universities and wholesale houses to be sought, and sell used books, review need for textbooks with textbook specialist, interview new train and supervise full-time and part-time employees. Requires high school graduation or equivalent, plus one to two years of effective experience. Knowledge of bookstore policies, practices and operations highly desirable. STAFF GRADE 4.

*** Biosafety Officer, Environmental Health and Safety, University Park Campus** - Responsible to the manager of environmental health for assisting in the development and implementation of a biological and laboratory safety program for recombinant DNA, chemical carcinogens, biohazardous agents, and infectious waste management. Requires bachelor's degree in a biological science, plus one to two years of effective experience in a laboratory environment or master's degree in a biological science with up to one year effective experience. Experience in developing an infectious waste management program in compliance with D.E.R. regulations is required. STAFF GRADE 4.

*** Laboratory Safety and Waste Disposal Specialist, Environmental Health and Safety, University Park Campus** - Responsible to the manager of environmental health for developing, organizing and implementing laboratory safety and hazardous and infectious waste programs, conduct training programs and data management. Requires bachelor's degree in environmental health or a science related discipline such as chemistry, biology, biochemistry, microbiology or chemical engineering, plus one to two years of effective experience working in a health and safety office or in a laboratory environment. A broad knowledge of laboratory practice and chemical handling and storage is required. STAFF GRADE 4.

*** Copy Editor, University Press, Senior Vice President for Research and Dean of the Graduate**

School, University Park Campus - Responsible to the production manager for copyediting scholarly book manuscripts in the humanities and social sciences in accordance with standard usage and press style, and for proofreading and seeing projects through production. Requires bachelor's degree or equivalent in arts, sciences, journalism or related field with evidence of facility in written expression and critical analysis. One to two years of effective experience in editorial practices is required, preferably in the area of scholarly book publishing. Reading knowledge of French and/or German or other languages desirable. STAFF GRADE 5.

*** Graphic Designer, University Art Services, Center for the Performing Arts, University Park Campus** - Responsible to the graphic design supervisor for the design and preparation of artwork for a wide variety of materials adhering to established time limits and maintaining the highest quality standards possible. Requires bachelor's degree, or equivalent, in graphic design, plus one to two years of effective experience in graphic design. Excellent communication and organizational skills required. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH EXCELLENT POSSIBILITY OF REFUNDING. STAFF GRADE 5.

*** Electrical Designer, Office of Physical Plant, Facilities Planning and Design Division, University Park Campus** - Responsible to the senior electrical engineer for the design and development of drawings and specifications for electrical systems for new structures and remodeling of existing structures at University Park and the Commonwealth Campuses. Requires associate degree in electrical engineering, or equivalent, plus two to four years of effective experience in building system electrical design and drafting. STAFF GRADE 5.

*** Research Aide, Poultry Science, College of Agriculture, University Park Campus** - Responsible for collecting tissues and body fluids and properly preparing for analysis. Isolate and maintain cells in tissue culture. Perform histological analysis for various animal tissues, tissue fractions, body fluids, and tissue culture fluids. Conduct procedures such as immunocytochemistry, electrophoresis and protein separations using liquid chromatography. Requires bachelor's degree or equivalent in science preferably in chemistry or biochemistry, plus six to 12 months of effective experience. STAFF GRADE 4.

*** Grants and Contracts Accountant, Corporate Controller, University Park Campus** - Responsible to the assistant director research accounting, for auditing and accounting functions required by research contracts, financial analysis, interpretation of contract provisions and the resolution of problems associated with contract accounting. Requires bachelor's degree, or equivalent in accounting, plus one year and up to and including two years of effective experience in accounting work. STAFF GRADE 5.

*** Medical Social Worker I, College of Medicine, Department of Social Services, The Milton S.**

Hershey Medical Center - Responsible to the social services coordinator to serve as part of the health care team in providing practical help and emotional support to patients and their families, and assume teaching consultation function. Requires bachelor's degree in social work from an accredited college or university, or a bachelor's degree with emphasis in human services field with one to two years' experience in social work, or equivalent. STAFF GRADE 5.

*** Telecommunications Specialist, College of Medicine, The Department of Telephone Services, The Milton S. Hershey Medical Center** - Responsible to the telecommunications analyst for telephone system upkeep and the testing and analysis of system problems which may arise on a day-to-day basis. Requires associate degree, or equivalent, in electrical engineering, plus one to two years of effective experience, which must include experience working primarily as an SL-1 technician after SL-1 training school. STAFF GRADE 5.

*** Student Activities Assistant, Wilkes-Barre Campus, Student Affairs** - Responsible to the assistant director of student programs and services for assisting in the planning and development of student programs and activities and for the coordination and implementation of those activities and programs. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in student activities student personnel services, counseling or related field. STAFF GRADE 5.

*** Coordinator, Student Organizations and Program Development, Penn State Erie** - Responsible to the assistant dean of student services for assistance in the development and implementation of a comprehensive student activities

Affirmative action officer being sought

A search and screening committee has been formed to solicit nominations and applications for the position of affirmative action officer at the University.

The affirmative action officer is responsible to the Office of the President through the vice president and vice provost, Robert E. Dunham, for the administration and effectiveness of the University's Equal Employment Opportunity/Affirmative Action program for all faculty and staff members at all campus locations.

Patricia Farrell, associate professor of leisure studies, will chair the search committee.

Other members are Deborah E. Atwater, senior faculty member, Office of Minority Faculty Development; Robert W. Evans, assistant vice president, student financial aid; Vicki Y. Fong, news bureau manager, Public Information Department;

Beverly M. Laddico, secretary, Center for the Study of Higher Education; Don Alvaro Leon, associate professor of architecture; Ruth Leventhal, provost and dean of Penn State Harrisburg; Stephen M. Mitchell, undergraduate student, and Billie S. Willett, assistant vice president for human resources and acting affirmative officer.

Applicants should have an advanced degree and demonstrate excellent written and oral communication skills, interpersonal skills, research and analytical skills and extensive administrative experience. All applicants should include a current resume and the names of at least three references.

Please send nominations and applications to the chairperson, Affirmative Action Officer, 417 Old Main, University Park, PA 16802. The deadline for applications/nominations is March 15, or until a candidate has been selected.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Information submitted for publication in *Intercom* is due by noon on the Thursday before publication.

Two Alumni Fellows scheduled to visit University Park

Carole L. Anderson, president and chief executive officer of Maryland National Investment Bank in Greenbelt, Md., and Murray L. Schwartz, executive vice chancellor of the UCLA School of Law, will visit the University as Liberal Arts Alumni Fellows March 21 to 23.

The title of Alumni Fellow, one of the University's highest distinctions, is given for life to outstanding alumni.

Ms. Anderson's visit is sponsored by the College of the Liberal Arts, and Mr. Schwartz' visit is co-sponsored by the colleges of the Liberal Arts and Science.

Ms. Anderson, a resident of Washington, D.C., received a bachelor's degree in political science from Penn State (1966) and a master's degree in business administration from New York University (1976). A member of the New York University Board of Directors and the Investment Association of New York, she formerly served on the New York Advisory Committee to the U.S. Commission on Civil Rights.

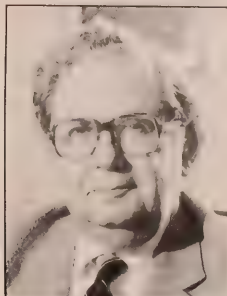

She has been featured in *Fortune* magazine as one of the "Dealmakers of the Year." A past managing director of Blythe Eastman Paine Webber, she formed a group of 20 women corporate board members in order

Carole L. Anderson

to advance knowledge of financial management. She was named to the WYCA Academy of Women Achievers in 1983.

A life member of the Penn State Alumni Association, she was the invited speaker at

Murray L. Schwartz

the annual Awards Convocation in 1986 and was named a Distinguished Alumna in 1987. She is a member of the Alumni Council and a volunteer for the Campaign for Penn State.

Mr. Schwartz, who lives in Pacific

Palisades, Calif., graduated from Penn State in 1942 with a bachelor's degree in chemistry/science.

Serving in the U.S. Navy during World War II, he rose to the rank of lieutenant. He received a bachelor of laws degree magna cum laude from the University of Pennsylvania in 1949.

After practicing law in both the private and public sectors, he joined the UCLA law faculty in 1958 and was promoted to professor in 1959. He was dean of the Law School from 1969-75, and in 1986 he received the Rutter Award for Excellence in Teaching at the law school. He was named executive vice chancellor in 1988.

He chaired the Los Angeles Division of the Academic Senate and in 1987-88 led the University of California Academic Council, serving as representative of the faculty of the nine campuses to the University of California Board of Regents. From 1974-84, he was a member of the Mattel Inc. board of directors.

He received the University's Distinguished Alumni Award in 1983.

More University Park buildings will start recycling

March 19 marks the seventh group of University Park buildings to start the campuswide recycling program.

The buildings are: Biomechanics Lab, Burrowes, Carnegie, Carpenter, Deike, Eisenhower Chapel, Electrical Engineering East, Electrical Engineering West, Engineering Units A, B, C, D and E, Engineering Services, Hallowell, Ithling Cottage.

Kern, Maintenance Landscape Depot 2, Mechanical Engineering, Mineral Science, Noll Lab, Old Botany, Old Main, Rec Hall, Sackett, Steidle, University House, Walker, West Campus Steam Plant, Willard, West Halls: Hamilton, Irvin, Jordan, McKee, Thompson, Waring, Watts, and North Halls: Holmes, Leete, Runkle, Warnock.

However, people are reminded that not all waste is acceptable for recycling.

There are two separations: one for paper and one for containers. Other material is

considered non-recyclable trash and should be discarded as usual.

Recyclable paper includes white ledger paper (writing, typing and copy), newspaper, computer printout and corrugated cardboard.

"We cannot accept paperboard boxes like cereal boxes, or other paper items such as envelopes, post-it notes, paper plates, cups or towels, or colored paper," Phil Melnick, manager of support operations and special programs for Physical Plant, said.

Paper must be dry and not contaminated by food. Pizza boxes are not to be recycled.

Containers include clear, green and amber food and beverage container glass, aluminum cans, plastic soda bottles without caps, plastic milk and water jugs (no caps), steel and tin metal cans. All containers should be rinsed.

"Some of the more common errors being made in the disposal of containers are

unacceptable items, such as mixed plastics like detergent and shampoo bottles, lab glass (tempered) and chemical containers, yogurt containers, drinking glasses and bottle caps," Mr. Melnick noted.

The janitorial employees and a network of select individuals in each building have had a more detailed orientation, and they

will be assisting with the program in their departments.

With 35 percent of the buildings on-line, about 60 tons of paper and eight tons of containers have been collected. Additional information on the University Park Campus program is available by calling the Recycling Hotline, (614) 865-8000.

Group to review undergraduate bulletins

A task force to review Penn State's undergraduate bulletins has been appointed by William C. Richardson, executive vice president and provost of the University.

The task force, chaired by Jerry B. Covert and Louis F. Geschwindner Jr., has been charged to review the content, format, general inclusiveness, and publication schedule of the Baccalaureate and Associate Degree Bulletins and the General Education booklet.

"It was through discussions of the Office of Undergraduate Education and the Senate Committee on Curricular Affairs that the need for a coordinated University-wide review of these publications became apparent," Dr. Covert said.

Members of the task force are Judd B. Arnold, Stephanie A. Bozym, William M. Farnsworth, Sally A. Heffentreyer, Jeffrey T. Hermann, James J. Kelly, James

(Continued on page 3)

Faculty Senate News

The University Faculty Senate will meet at 1:30 p.m. Tuesday, March 20, in Room 112 Kern Graduate Building at University Park.

Items discussed at the Feb. 20 Senate meeting:

- Proposed Change in *Constitution*, Article II, Section 1
- Report on Programs for Parents/Families of Undergraduate Students
- Penn State Vision Care Program
- Review of the Supreme Court Ruling on Tenure Documents
- Cultural Diversity Requirement (forensic discussion)

At the next meeting:

- Status of Construction Projects
- University Writing Subcommittee

Legislation

- Revision of *Standing Rules*, Article II, Section 6(g)
- Proposed Change in *Standing Rules*, Article II, Section 6(e)
- Penn State Economic Impact Model for Pennsylvania
- "Stopping Out" for Tenure-PS-23
- Affirmative Action Report
- Update on the University Libraries
- Basic Skills Update Report
- Cultural Diversity Requirement
- Roster of Senators for 1990-91
- Senate Council Nominating Committee Report
- Committees and Rules Nominating Committee Report
- Proposed Change in *Constitution*, Article II, Section 1

Sculptures in the "Roman Portraits" exhibit on view at the Palmer Museum of Art through April 22 are highlighted in this triple exposure photograph by Scott Johnson. See other photo on page 5.

Focus on Diversity

Commission for Women to hold spring banquet

Donna Shavlik, director of the Office of Women in Higher Education of the American Council on Education (ACE), will be the guest speaker for the fifth annual spring banquet of the Commission for Women.

The dinner will be held Monday, March 26, in the Hertz Union Building at University Park. A reception is at 6 p.m. in the HUB Fighbowl, and the dinner will start at 7 p.m. in the ballroom.

Ms. Shavlik has played a major role in coordinating efforts among higher education associations relative to women's equity and leadership.

Since she began as director in 1981, ACE's Office of Women in Higher Education has provided a national voice for women in higher education, with special focus on the advancement of women leaders.

Ms. Shavlik currently is the vice chair of the Board of Trustees of Gettysburg College. She is a founding member and

former chair of the National Coalition for Women and Girls in Education, serves as vice chair of the Executive Board of the National Council for Research on Women and was national conference chair for the National Association of Women Deans, Administrators and Counselors.

For many years, she has been an active member of the American Association for Higher Education.

In 1983, she was awarded an Honorary Doctorate of Human Letters from Marymount Manhattan College, and in 1990, she was awarded an Honorary Doctorate of Letters from Alverno College. She recently has been appointed to the National Board of Distinguished Women of the Mississippi University for Women.

A special guest of honor at the dinner will be Jacqueline Schoch, campus executive officer at the Penn State DuBois Campus, who will be retiring in September.

Tickets are \$10 for students and \$15 for non-students. For more information, contact

Donna Shavlik

the Commission for Women, 405 Old Main, University Park, Pa. 16802.

Diversity Calendar

Saturday, March 17
Office of Minority Faculty Development, 9 a.m. to noon, 101 Kern. "Promotion and Tenure Roundtable," fifth in a series of faculty development workshops. Harold Cheatham, associate professor of education, will lead open discussion. Reservations: Leah Witzig, 863-1663.

Monday, March 19
Center for Women Students, 7 p.m., HUB Assembly Room. Rich Savin-Williams on "Gay and Lesbian Youth: Expressions of Identity."

Project Growth, 7 p.m., HUB Ballroom. Film: "Lean on Me."

Tuesday, March 20
Lesbian and Gay Student Alliance, 7 p.m., Sparks. Film: "Susana."

Wednesday, March 21
Penn State Worthington Scranton Campus, 8 p.m. Phyllis Mansfield on "Critical Issues in Women's Health." Also March 22, 3 p.m., Penn State Berks Campus.

Penn State New Kensington Campus, 1:30 p.m. Leola Johnson on "Representation of Black Women in Popular Culture."

Gloria Steinem

Gloria Steinem set to speak at Behrend

Well-known author and feminist Gloria Steinem will speak at Penn State Erie, The Behrend College, at 8 p.m. Thursday, March 22, in Erie Hall. Her speech, "Women: The New Immigrants," will be broadcast live, via satellite, to most University campuses.

Since her first article was published in *Esquire* in 1962, Ms. Steinem's work has appeared in many magazines and newspapers in the United States and Europe. An editor and writer for the now defunct *Ms.* magazine, she also has written for television and for several political campaigns for such notables as Robert Kennedy, George McGovern, Cesar Chavez' United Farm Workers and Shirley Chisholm. She was one of the founders of *New York* magazine and was its political

columnist until 1971.

After graduating Phi Beta Kappa and magna cum laude from Smith College, she studied in India for a year on a Chester Bowles Asian Fellowship. In 1970, she was named *McCall's* Woman of the Year. She was the first recipient of Simmons College's Doctor of Human Justice degree in 1973. She also received the 1974 National Fellowship Award and was honored by the American Civil Liberties Union of Southern California with the 1975 Bill of Rights Award.

Her most frequent writing subjects are politics, current sociology and profiles, with special emphasis on political movements among women and minority groups. Her latest book is *Outrageous Acts and Everyday Rebellions*.

Women in Business

Gender communication, stress management and the "mommy track" will be among the topics explored when the 12th annual National Network of Graduate Business School Women conference meets at University Park March 23-25.

The conference, "Women in Business: Reaching New Heights," is hosted by Penn State's Graduate Women in Business program and will be held at the Keller Conference Center and the Atherton Hilton.

Speakers from the University will include Barbara Gray, associate director of the Center for Research in Conflict and Negotiation, on negotiating; and Linda K. Trevino, assistant professor of organizational behavior, on ethics.

Promotions

Staff Exempt

Sтивен A. Claar to customer service representative in Office of Physical Plant
Grace E. Condo to administrative services coordinator and personnel officer in Research and Graduate School.
Susan M. Frandsen to special events associate in Division of Development and University Relations.
Gregory A. Ingram to assistant to director of business services in Office of Business Services.
Mary A. Knovich to research support assistant at Hershey.
Sherri Letterman to support center consultant in Commonwealth Educational System.
Patricia J. Long to external relations assistant in Engineering.
Debra A. O'Connell to coordinator, rehabilitation billing at Hershey.
Brenda L. Pavone to administrative assistant at Hershey.
Lloyd Rhodes to manager, building trades in Office of Physical Plant.
Patricia Rizzolo to coordinator of learning center and student development and retention at Ogonitz Campus.
Del Sweeney to special assistant to the executive vice president and provost in President's Office.
Donald W. Turner to director, management development programs and services in Commonwealth Educational System.
Debra L. Wolfe to retirement counselor in Office of Human Resources.

Staff Non-Exempt

Pamela A. Albert to coordinator, lab support service at Hershey.
Paul J. Cassel to financial counselor at Hershey.
Linda A. Clotfelter to research technician at Hershey.
Carnie A. Grier to respiratory therapist at Hershey.
Daniel V. McClain to respiratory therapist at Hershey.
Sharon M. Smith to coordinator, financial aide at Hershey.

Clerical

Eileen A. Gallagher to secretary B in Intercollegiate Athletics.
Joyce Gettig to accounting clerk in Commonwealth Educational System.
J. Mary Hoke to clerk, accounting A at York Campus.
Susan J. King to senior accounting clerk in Education.
Winifred F. Monsell to secretary B in Office of Human Resources.
Sue E. Myers to secretary B at Hershey.
Susan L. Skiba to clerk A in University Libraries.
Gretchen Wallander to secretary B in Agriculture.
Martha R. Bowman to senior auditing clerk in Controller's Office.
Doris Davis to employee benefits clerk in Office of Human Resources.
Linda G. Doyle to secretary A at Hershey.
Sandra A. Edkins to conference secretary in Commonwealth Educational System.
Tyshanda Emeigh to secretary B in Office

of Human Resources.
Cheryl Hatch to secretary C at Altoona Campus.
Michelle L. Lauzon to senior manuscript typist at Hershey.
Isabel Link to secretary B at Ogonitz Campus.
Jodi R. Meyer to clerk, accounting A in Science.
Kristin M. Patishnock to clerk, records A in Academic Services.
Vickie R. Price to secretary in President's Office.
Donna J. Rentzel to secretary A at Hershey.
Mary Ann Romig to secretary in Earth and Mineral Sciences.
Sharon L. Schaack to senior clerk at Hershey.
Janet L. Smith to secretary C in Engineering.
Sherry F. Walk to secretary B in President's Office.

Technical Service

Thomas I. Cox to lead, power plant operation and maintenance in Office of Physical Plant.
Dennis G. George to mechanic, metal shop at Hershey.
Phyllis K. Heeman to dining hall worker A in Housing and Food Services.
Catherine A. Jury to dining hall worker A in Housing and Food Services.
Susan C. Kretzter to equipment and locker room attendant in Intercollegiate Athletics.
Donna C. Kline to food preparer B in Housing and Food Services.

Theodore E. Kolbe Jr. to heat and vent technician in Office of Physical Plant.
Sтивен R. Wallace to maintenance worker B at Hershey.
Russell L. Witherite to resident hall preventative maintenance worker in Housing and Food Services.
Connie L. Barger to janitorial worker in Office of Physical Plant.
Patricia Carmichael to food service worker B in Housing and Food Services.
Mary Cicarella to sign painter A in Office of Physical Plant.
Jane M. Hartsock to dining hall worker A in Housing and Food Services.
J. Denise Hosterman to group leader, photo-typesetting in Office of Business Services.
William T. McClain to group leader, press in Office of Business Services.
Foster J. Sayers to maintenance worker, utility in Office of Physical Plant.
Paul B. Shank to athletic equipment and facilities worker at Altoona Campus.
Jan J. Shutt to operating room assistant at Hershey.
Michelle M. Shutter to senior instrument processing aide at Hershey.
Rose M. Stuby to food service worker A in Housing and Food Services.
Leonard M. White to preventative maintenance mechanic and plumber in Office of Physical Plant.

Obituary

Wallace R. Youson, janitor foreman, Office of Physical Plant, from Jan. 22, 1968, until his retirement July 24, 1979, died Feb. 26 at the age of 72.

Schuykill gets library grant

Lt. Gov. Mark S. Singel has awarded \$267,000 to the Penn State Schuykill Campus for the design of a long-awaited \$2.6 million library project.

In a check presentation ceremony at the campus, Lt. Gov. Singel called the award a commitment by Gov. Robert P. Casey that the campus will be awarded the remaining portion of the \$1.6 million once the design is completed.

"The state is standing behind you with a commitment to enhance the level of education in this state, and I have the check to prove it," he said.

The \$1.6 million from the Commonwealth will be added to the \$1.1 million in gifts and pledges received from

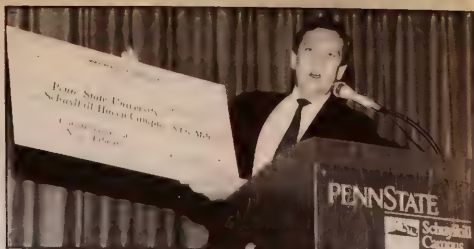

private businesses, area residents and campus alumni.

Lt. Gov. Singel said financial support from the community helped make the library project a greater concern for the Casey administration.

"The overwhelming support the project had locally from the private sector make it a top priority for us, too."

The design phase of the project is expected to take about 12 months, with construction another 18 to 24 months.

The library will be located at the south end of the campus, beyond the Multi-Purpose Building. It will include a learning center, reference areas, study and seminar rooms, and classroom space.

Lt. Gov. Mark Singel makes an award for design of \$2.6 million library project during ceremonies at the Penn State Schuykill Campus.

Center establishes Apple Faculty Loaner Program

The Center for Academic Computing (CAC) has established an Apple Faculty Loaner Program designed to provide University academic departments with a risk-free faculty Macintosh evaluation.

Under the program, made possible by an equipment donation from Apple Computer Inc., academic departments considering the purchase of a Macintosh for faculty instruction or research may submit a proposal for a loaner system.

The loaner will be provided for a period of from 30 to 90 days. At the end of the loan period, the recipient department must

either purchase the system or return it to the CAC.

According to Gerald M. Santoro, assistant director of microcomputer applications, the Apple Faculty Loaner program is available to all full-time University faculty members considering institutional purchase of Apple Macintosh systems and software.

"There is a limited number of Macintosh systems available for use in the program," he said. "As a result, the CAC cannot guarantee that all proposals will be accepted or that, once accepted, a

Macintosh system will be immediately available.

"Consideration will be given to those proposals which seem to make best advantage of the infusion of Macintosh technology into the Penn State computing environment."

Applications for a loaner system should be in the form of a brief (maximum three pages) proposal that must include the following: name, campus address, campus phone and department/college affiliation of the applicant faculty member; purpose for which the system is being acquired; address where it will be located; desired loan

period; a memo from the faculty member's current department head/chairperson stating that the department is prepared to purchase the system if the evaluation is positive; the minimum hardware/software configuration required.

More information on the loaner program may be obtained by contacting Jeff Rich (JER@PSUVM), Polly Reese (PER@PSUVM) or Gerry Santoro (GMS) at the Center for Academic Computing, 12 Willard Building, University Park, telephone 863-4356.

Faculty/Staff Alerts

Courses for faculty and staff

The Human Resource Development Center has openings in the following courses being offered in March. Call the center at 865-3410 for registration information.

Training for Trainers If you train others in any capacity, join a group of other employees in improving Human Resource Development skills; meets from 9 a.m. to 4 p.m. Monday, March 19; cost: \$55.

Intergroup Relations I Program goal is the development of a personal commitment to understand and reevaluate individual interpersonal relation skills in dealing with culturally diverse individuals; meets from 9 a.m. to 4 p.m. Friday, March 23; cost: none.

Supervision in the Office Learn skills essential to being an effective supervisor. Identify your leadership strengths and shortcomings; meets from 9 a.m. to 4 p.m., Monday, March 26; cost: \$55.

Understanding Yourself as a Manager Designed to explore the importance of values, abilities and attitudes, as well as

management's influence upon the work climate; meets from 9 a.m. to 4 p.m. Wednesday, March 28; cost: \$55.

Managing Cultural Diversity Practice decision-making related to cultural diversity, and challenge and develop your managerial skills; meets from 9 a.m. to 4 p.m. Friday, March 30; cost: none.

Bruce Lindsay receives Humboldt award

Bruce Lindsay, professor of statistics, has received an Alexander von Humboldt Senior Research Scientist Award from the Federal Republic of Germany.

According to the Humboldt Foundation, the awards are granted to outstanding U.S. scientists to promote closer scientific cooperation between the United States and West Germany.

Lt. Dr. Lindsay will spend 10 months at the Free University of Berlin conducting research in algorithms, minimum distance methods, and likelihood methods with

Task force

(Continued from page 1)

S. McCoy, Eugene R. Melander, and Patricia C. Peterson.

The task force has been asked to forward recommendations to the executive vice president and provost of the University prior to the end of Spring Semester, 1990. Suggestions and comments from the University community can be forwarded to Dr. Covert at 207 Old Main, University Park.

particular emphasis on applications of geometry in mixture models.

A University faculty member since 1979, Dr. Lindsay is a Fellow of the Institute of Mathematical Statistics and a member of the American Statistical Association and the Mathematical Association of America.

Following his graduation from the University of Oregon in 1969, he earned a doctoral degree in biomathematics at the University of Washington and then held a National Science Foundation NATO postdoctoral fellowship at Imperial College.

News in Brief

Dotterer Lecture

The 20th annual Dotterer Lecture will be presented at 4 p.m. Friday, March 16, in Room 101 Kern Building at University Park by Professor Jeanne Hersch of the University of Geneva, Switzerland. She will discuss "The Time of Consciousness, the Time of Nature, and the Time of History."

Fulbright Informal Lecture Series

William Pencak, associate professor of history at Penn State Ogonitz Campus, will discuss "Mexican Perspectives on American Foreign Policy: The View from Monterrey" from 4 to 5 p.m. Tuesday, March 27, in 222 Bouck Building, University Park. His lecture is part of the Fulbright Informal Lecture Series sponsored by the University Office of International Programs.

Book award

Lord Byron's Doctor, a novel by Paul West, professor of English, has been chosen as one of the Notable Books of 1989 by *The New York Times Book Review* and one of the best books of 1989 by the *San Francisco Chronicle*.

Ben Franklin challenge grants available

Ben Franklin Partnership challenge grants are available to local businesses, entrepreneurs and economic development organizations for a wide array of technology projects in 1990-91, but the deadline for proposals is quickly approaching.

"We have matching funds available for projects in research and development, education and training, entrepreneurial assistance, technology transfer, small business incubators, and centers of excellence," John Werner, president of the Ben Franklin Technology Center of Central and Northern Pennsylvania Inc., said.

"But we must have proposals submitted to us by April 23."

The primary objective of the Ben Franklin Partnership, an economic development program of the state Department of Commerce, is to promote partnerships among universities, government and the private sector for joint research and development projects leading

to commercialization. In this way, innovations for new or improved products and manufacturing process technologies can more quickly be brought out of the laboratory and into the factory and marketplace.

The Ben Franklin Partnership also helps to support technical assistance to entrepreneurs and selected projects in education and training that will help the region's workforce to prepare for jobs in new and revitalized industries.

Inquiries and proposals may be directed to the nearest center: BFTC/CNP, Rider Building, Fifth Floor, 120 S. Burrowes St., University Park, 16803, (614) 863-4558; Satellite BFTC/Northeast, Behrend College, Station Road, Erie, 16563, (814) 898-6114; Satellite BFTC/South Central, Penn State Harrisburg, CRAGS Building, Middletown, 17057, (717) 948-6339; Ben Franklin Technology Center, P.O. Box 158, Montoursville, 17754, (717) 368-3153.

On Sunday, March 25 Penn College to hold open house

Pennsylvania College of Technology will host its annual Open House from noon to 4 p.m. Sunday, March 25.

The College's Main Campus in Williamsport, Earth Science Center, along Route 15 in the Montgomery/Allenwood area, and Aviation Center, at the Williamsport-Lycum County Airport in Montoursville, all will be open to the public during the Open House.

This is the College's first Open House since it became affiliated with Penn State on July 1, 1989. Its forerunner, The Williamsport Area Community College, attracted a record number 14,500 guests to last year's event.

Open House exhibits and activities highlight opportunities in programs offered at the College, including many advanced technology and traditional career areas. Information tables will be located throughout campus to assist visitors. The

College's Susquehanna Room dining facility and the Le Jeune Chef, a student-run campus restaurant, will be open for service.

Among the highlights of this year's Open House, which features the theme "Link to a Star," will be displays and demonstrations prepared by faculty and students in the College's postsecondary and secondary divisions.

Students and parents interested in learning more about the College's admissions procedure are invited to attend one of three special information sessions being hosted by Admissions Office staff in the Academic Center Auditorium.

Sessions will begin at 11 a.m., noon, and 1 p.m. Career services program personnel will be on hand in the Learning Resources Center to assist any Open House guests who might be interested in exploring career and educational opportunities available to them.

Focus on the arts

Pattee exhibit

An exhibit of books about the Aborigines, the original people of Australia, is now being featured in the Black Studies Room in Pattee Library. The books cover such topics as aboriginal poetry, politics and law, and rock paintings.

Also included in the exhibit are posters from Penn State's Australia-New Zealand Studies Center and from the Australia Information Center of the Australian Embassy depicting aboriginal culture and "x-ray" style rock paintings.

The exhibit will continue through the end of Spring Semester.

Featured author

The Penn State Bookstore on Campus is hosting author **J. Madison Davis**, associate professor of English composition, Penn State Erie, The Behrend College, at a book-signing session for his newest novel *White Rook* from noon to 2 p.m. March 16.

White Rook is a mystery novel dealing with white supremacists in the United States and a Northern detective's attempt to uncover a murder plot and come to grips with his past. Dr. Davis also is the author of *The Murder of Frau Schutz*, which was chosen for an Edgar Allen Poe Scroll Award as one of the five best first mystery novels of 1988. He has published more than 30 short stories.

A 20-percent discount will be offered during the time of the book signing.

Contemporary Dance Co.

The 17th annual Contemporary Dance Company concert, presented at Eisenhower Auditorium, University Park, will include four new works for the company, as well as several repertory pieces. Five choreographers have created the eight dances which will be shown at 8 p.m. Thursday and Friday, March 15 and 16.

Patricia Heigel-Tanner is the artistic director of the company and the choreographer of "Dance Suite." Originally performed in 1989, this confining and flirtatious dance is set to three songs by Frank Sinatra.

The two assistant artistic directors of the company, Elizabeth Limons and Susan Koff, are each presenting several works. Ms. Limons will present "G Song," a new piece with a theme and variation structure, and "Strong Women," a dramatic piece revealing the special preserving strength of women, a personal fortitude which ultimately provides self-fulfillment.

Ms. Koff will present three dances representing her choreographic work over the past two years: "Plateas Majestas" is about strong feelings for a place, culminating in celebration for that majestic location, "Parallel Lives" juxtaposes the lives of a couple with that of a single woman, and "A Little Bach" is a pure movement study exploring elements of the Limon technique.

The Oneota Chamber Players of Iowa will present a concert at 2 p.m. March 18 in Recital Hall of the Music Building.

Casey Sams Bealer is a guest artist working with the company. Her new piece, "Oblations," evokes a ritualistic quality and celebrates the joyful aspects of both awakening self-reliance and group interdependence.

Myra Munchus-Bullock, an artist-in-residence this semester, originally choreographed "A Movement Prayer" in 1978. It is set to a contemporary hymn.

Tickets for the performance are available at the Eisenhower Auditorium Ticket Center, open Monday through Friday from 9 a.m. to 4 p.m. A 15-percent discount is available for groups of 10 or more.

Brass seminar

One of the country's most distinguished hornists will be at University Park Saturday, March 17, to present the University's fifth-annual Brass Performance Seminar.

Louis Stout will headline "A Festival of Horns," which is designed for brass players and enthusiasts, music educators and community members. The program will begin at 9-45 a.m. and end at 6 p.m. in the Recital Hall of the School of Music.

Mr. Stout has played with such leading orchestras as Radio City Music Hall, the Chicago Symphony, the Kansas City Philharmonic and the New Orleans Symphony. He has taught at the Kansas School of Music, the Kansas City Conservatory, the University of Michigan and the New England Music Camp.

In a lecture/demonstration, "The Horn: From the Past to the Concert Hall," at 10-30 a.m., the guest artist will trace the history and development of the French

horn with the aid of his extensive antique horn collection. He also will perform orchestral and solo excerpts on the instruments.

Mr. Stout will perform Hubler's Concerto for Four Horns in an afternoon concert. He will be joined by guest artist Steven Mumford, Penn State faculty member Lisa Bontrager and Penn State alumnus Marti Fucile. Also making an appearance at the recital will be the Penn State Horn Ensemble.

A brass chamber music concert is an additional attraction of the day-long program. Included are performances by the Penn State Trombone Choir, the Nittany Trombone Quartet and Quintessent Brass Quintet.

Sponsored by the School of Music and the International Horn Society, "A Festival of Horns" is free to the public. Registration for the day's activities will be held on site March 17. For more information, call Lisa Bontrager at 865-3221.

Ideal gardens exhibit

Ideal gardens created by a group of landscape architects will go on display at the Palmer Museum of Art on Sunday, March 18, "Transforming the American Garden" will remain at the University Park museum through May 13.

Landscape architect Michael Van Valkenburgh asked professional colleagues to submit a conceptual plan of an ideal garden, reflecting a personal philosophy or particular theme. The exercise brought to reality the dream of many landscape architects—to design a garden free from the constraints of a client or of topography.

The exhibition was organized by the Harvard Graduate School of Design and was made possible, in part, by funds from the George Gund Foundation.

It is free to the public. The museum is open Tuesday through Friday from 10 a.m. to 4:30 p.m., Saturday from 11:30 a.m. to 4:30 p.m. and Sunday from noon to 4 p.m.

Iowa chamber ensemble

The Oneota Chamber Players, in residence at Luther College, Decorah, Iowa, will present a concert at 2 p.m. Sunday, March 18, in the Recital Hall of the Music Building at University Park.

The program will include Walter Rabel's Quartet, Ludwig van Beethoven's Trio for Clarinet, Cello, and Piano, Opus 38, and George Frederick Fuchs's Trio for Clarinet, Violin and Cello.

The four-member ensemble consists of Luther College music faculty Virginia Strauss, violin; Julia Heinen, clarinet; Edward Gant, cello; and John Strauss, piano.

Pianist to perform

Marylene Dosse, concert pianist and associate professor in the School of Music, will give a solo concert at 8 p.m. Sunday, March 18, in the Recital Hall of the Music Building at University Park.

The program will include Gabriel Fauré's Nocturne in D flat major, and Robert Schumann's "Carnaval" in the first half. The second half of the concert will be an all Spanish program. Professor Dosse will perform three pieces from "Iberia" by Isaac Albeniz, "Evocation," "El Puerto" and El Albacin and The Maiden and the Nightingale and El Pelele from the Goyescas by Enrique Granados.

Professor Dosse graduated from the Paris Conservatory with first prizes in performance and chamber music and was awarded a scholarship to study in Vienna with Alfred Brendel and Paul Badura-Skoda.

Prior to joining the Penn State faculty in 1987, she was an artist-in-resident at the University of Wisconsin and taught piano at Indiana University, Bloomington.

18th century music

Mezzo-soprano Janet Berberian will present a recital of 18th-century vocal compositions at 2 p.m. Sunday, March 18, at the Palmer Museum of Art at University Park.

For "Dall'antipasto al dolce," Ms. Berberian will be accompanied by Robert Wilder. The recital complements the current exhibition of 17th- and 18th-century Italian drawings from the Accademia Nazionale di San Luca on display through May 20.

Ms. Berberian's program will include works by Vivaldi, Pergolesi, Handel, Piccini, Paisiello and Cimarosa.

The performance is free to the public.

'Big River'

"Big River" the musical version of Mark Twain's "The Adventures of Huckleberry Finn," will be presented at 3 and 8 p.m. on Sunday, March 18, in Eisenhower Auditorium at University Park.

The musical swept the Tony Awards in 1985, winning seven, including best musical, best score, best book, best direction, best sets and best lighting.

Considered one of the most unforgettable shows in recent Broadway history, the music and lyrics were written by country music composer Roger Miller, following an adaptation of the novel by William Hauptman.

The national touring company coming to Penn State also has received excellent reviews during its year and a half tour. The singing cast will be accompanied by a high-spirited country music band. Along with guitars and keyboards will be a fiddle, harmonica and banjo.

The performance is co-sponsored by WTJ-TV, Channel 10. It is also supported by a grant from the National Endowment for the Arts.

Tickets are available from the Eisenhower Auditorium Ticket Center, open weekdays, 9 a.m. to 4 p.m., or from the Playhouse Box Office, open Tuesday through Friday, 11:30 a.m. to 5:30 p.m.

The arts on Channel 3

Although George Gershwin was only 39 years old when he died in 1937, he left a rich legacy of classical and popular music. *Great Performances* honors that legacy with a special two-part, star-studded salute, "Celebrating Gershwin," airing at 8 p.m. Sunday, March 18.

Mikhail Baryshnikov, Bob Dylan, Liza Minnelli, Madeline Kahn, Julia Migenes, Maureen McCormick, Bobby Shore, Drew Barrymore, Rosemary Clooney, Tommy Tune and Christopher Walken are among the stars singing and dancing to the rhythm of this famous American composer.

Great Performances also presents "Bernstein (Continued on page 5)

The arts at...

Altoona Campus

"Ms. . Conceptions" and "Selections from Three Dimensional Design and Ceramic Arts" are on display through Saturday, March 24, in the McLanahan and Sheetz Galleries of the Community Arts Center at the Penn State Altoona Campus.

"Ms. . Conceptions" brings together the work of Alyce Ritti and Kathleen Fox Ragusa. The second exhibit features selected projects from students of Roger R. Zeller, associate professor of art education at the Altoona Campus.

Great Valley

Penn State Great Valley is hosting "Twelve Paintings by Tim Mark," the first exhibit of talented Delaware County artist Tim Mark,

through April 12 in the main reception area.

Mr. Mark's large canvases include natural scenes from Chester and Delaware counties. Most are oils in the impressionist style and show a high sensitivity to the colors and lighting of the changing seasons.

York Campus

John Waters, acclaimed filmmaker of "Pink Flamingos," "Hairpray" and "Cry Baby," will be featured in "Shock Value: An Evening with John Waters" at 7:30 p.m. Thursday, April 26, in the Conference Center at Penn State York Campus.

His appearance is part of the EXPOSITIONS Lecture Series at the campus.

University Park Calendar

March 15— March 25 Special Events

Thursday, March 15
Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel. Penn State Flute Ensemble.
Brown Bag Lunch/Lecture, 12:10-12:50 p.m., Palmer Museum of Art. Elizabeth Walters on "Roman Emperor Art: The Empress' New Clothes."

Office of Religious Affairs, Ethics in America, videotape presentation and discussion, 3 p.m., Eisenhower Chapel. "Truth-telling: Truth on Trial—Ethics in Public Relations."

Austrian Film Week, 8 p.m., 101 Chambers. *Colossus (Kammler)*. Free.

Six Feminist Scholars Lecture Series, 8 p.m., HUB Gallery. Lin Nelson, Central N.Y. Council on Occupational Safety and Health, on "A Matter of Survival: Every Woman's Science and Social Ecology."

School of Music, 8 p.m., Recital Hall. Michael Ericson, oboe.

Friday, March 16
Trustees meet at Hershey, through March 17. *Coffee Hour*, 4 p.m., 319 Walker. Peter Webster on "Exploring Earth's Boiler Cook." German Films, 8 p.m., 101 Chambers. *Der Kommissar und sein Narr* (1981).

Austrian Film Week, 8 p.m., 110 Wartik. *Damsch* (1970). Free.

Saturday, March 17
School of Music, 10 a.m.-4 p.m., Recital Hall. Brass Performance seminar, registration, 865-3221; 10:30 a.m., Louis J. Stout on "The Horn: From the Forest to the Concert Hall." Shaver's Creek, Maple Harvest Festival, 11 a.m.-4 p.m., also March 18. Call 863-2000.

Austrian Film Week, 8 p.m., 110 Wartik. *Malambo und Student Gerber*. Free.

Sunday, March 18
Janet Berberian, mezzo-soprano, on "Dall'antipasto al dolce," 2 p.m., Palmer Museum of Art.
School of Music, 8 p.m., Recital Hall. Onesto Chamber Players.

Center for the Performing Arts, 3 and 8 p.m., Eisenhower Aud. "Big River."
Carnegie Hall Film Series, 7 p.m., *Bad Timing: A Sexual Obsession* (1980); 9:15 p.m., *Hospital* (1970). 4 Carnegie. Free.
School of Music, 8 p.m., Recital Hall. Marylene Dosse, piano.

Monday, March 19
Kern Graduate Commons, noontime concerts.
Robert Lobby. State College Suzuki performance.
Comp. Lit. Luncheon, 12:15 p.m., 101 Kern.
Daniel Walden on "Chain Potok's New Book: *The Gift of Asher Lev*—A Preview."
Contemporary Scholarship on Lesbian and Gay Lives Speaker Series, 7 p.m., HUB Assembly Room. Rich Savin-Williams, Cornell Univ., on "Gay and Lesbian Youth: Expressions of Identity."

School of Music, 8 p.m., Recital Hall. Thaddeus Brys, cello.
German, lecture, 8 p.m., Rare Books Room, W342 Palmetto. Don Yoder on "Fraktur: The Manuscript Art of the Pennsylvania Germans."

Tuesday, March 20
Lesbian and Gay Film Festival, 7 p.m., 12 Sparks. *Scissors*.

'Roman Portraits,' an exhibit of sculptures depicting Roman leaders of long ago, is on display in the Palmer Museum of Art through April 22. (Photo: Scott Johnson)

Wednesday, March 21
Faculty Women's Club. Brown Bag Lunch, 11:30 a.m.-1:30 p.m., Room 301 HUB. Mick Snyder on "What is the Key to Surviving Aging? Can We All Avoid Aging? What Can We Do?"

American Studies Program, 12:30 p.m., 305 HUB. Chaim Potok on "A Multicultural Modernist: Exploring a Contradiction." Also 8 p.m., Schwab Aud., on "In Quest of Asher Lev."

Gallery Talk, 8 p.m., Palmer Museum of Art. Jeanne Chesnut-Foster on "Drawings of the International Baroque at the Accademia Nazionale di San Luca in Rome."

Thursday, March 22
Careers in the Visual Arts, 10 a.m., Palmer Museum of Art. Dan Brody.
Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel. Penn State Concert Choir.
Photography Lecture Series, 8 p.m., Rare Books Room. Pattee Library. Audrey Linkman, Documentary Photography Archive, Manchester, England, on "The Inherent Photographer in 19th Century Britain."

John R. Bracken Lecture Series, 8 p.m., Schwab Aud. A.E. Bye on "Abstracting the Landscape."

Friday, March 23
Coffee Hour, 4 p.m., 319 Walker. Chris Justice, NASA's Goddard Space Flight Center, on "Remote Sensing Environmental Degradation in Sub-Saharan Africa."

School of Music, 8 p.m., Recital Hall. Philharmonic Concerto Concert.

Saturday, March 24
Shaver's Creek, 9:30 a.m.-5 p.m., Potato Basket Workshop. Call 863-2000.
School of Music, 8 p.m., Recital Hall. Penn State Hom Ensemble.

University Concert Committee, 9 p.m., Eisenhower Aud. Al Di Meola and Stanley Jordan.

Sunday, March 25
Shaver's Creek, 2-4 p.m., Bringing Wildlife to "Your Back Yard." Call 863-2000.
Central Pennsylvania Society, American Institute of Archaeology, 2:30 p.m., Palmer Museum of Art. Ross Holloway, Brown Univ., on "Architecture and Politics in Early Greek Sicily."

Carnegie Hall Film Series, 7 p.m., *Balloon* (1943); 9 p.m., *The Forest of Bliss* (1987). 4 Carnegie. Free.

Center for the Performing Arts, 8 p.m., Eisenhower Aud. The Academy of St. Martin in the Fields Octet.

International Events

Fullbright Informal Lecture
William Pencak, Cuyamaca Campus, will speak on "Mexican Perspectives on American Foreign Policy: The View from Monterrey" from 4 to 5 p.m. Tuesday, March 27, in 222 Boucke.

Public Radio

WPSU-FM 91.1
"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.
"Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Robinson.
"Perspectives," 6:30 p.m. Wednesdays, with Jeff Ballou. "Creative License," 12:30 p.m. Thursdays, with Aaa Berlin and Pam Saulnier.

Conferences

Continuing Education
Killer Building
March 20-23. Fermentation Methods and Scale-Up Strategies Workshop. Jim Shillenn, coordinator, energy technology project, in charge. Eric Logo, coordinator.
March 21. Effective People Management. Jerri Milson, coordinator.
March 22-23. Rural Transportation Assistance Program. James H. Miller, associate professor of business logistics, chairman; Barbara Impellitteri, coordinator.
March 22-25. LABASH '90. Kelleann Foster, assistant professor of landscape architecture, chairman; Jack Sinclair, coordinator.

Seminars

Thursday, March 15
Ecology, 3:35 p.m., 111 Wartik. Warren Abrahamson, Bucknell Univ., on "Elements of

Herbivore-Plant Evolution: Goldenrod-Bullgall System."

Friday, March 16
Dotterer Lecture, 4 p.m., 101 Kern. Jeanne Hersch, Univ. of Geneva, Switzerland, on "The Time of Consciousness: the Time of Nature, and the Time of History."

Monday, March 19
Entomology, 3:45 p.m., 204 Patterson. Colin Nichols-Orlans on "Interactions Among Environment, Foliar Tars, and Leaf Selection by Leaf-cutter Ants in Costa Rica."

Tuesday, March 20
Gerontology Center Colloquia, noon-1 p.m., 101 Health and Human Dev. Bldg. East. Mary Ann Paris Stephens, Kent State Univ., on "The Role of Family Caregiver: Its Rewards and Costs."

Chemistry Colloquium, 3:30 p.m., 55 Osmond Lab. Tobin Marks, Northwestern Univ., on "Rational Design and Synthesis of Polymers with Unusual Optical and Electrical Properties."

Wednesday, March 21
Accounting and MIS Research Colloquium, 3-5 p.m., 333 Beam. Steve Penman, Univ. of California-Berkeley, on "Financial Statement Analysis and the Pricing of Earnings."

Thursday, March 22
Polymer Science, 9 a.m., 101 Steidle. W.J. MacKnight, Univ. of Massachusetts, on "Liquid Crystal Polyurethanes: Structure and Properties." Physics Colloquium, 3:30 p.m., 55 Osmond Lab. Sally Dawson on "Higgs Boson and Standard Model Physics."

Ecology, 3:45 p.m., 111 Wartik. Charles Yohn on "Seed Predation in Amazonian Forests." Mechanical Engineering, 4 p.m., 103 Mechanical Engineering. Robert F. Boehm, Univ. of Utah, on "Flow Problems in Porous Media." Social History Colloquium, 4 p.m., Rare Books Room. Pattee Library. Benjamin Johnson, Univ. of Iowa, on "Free Time and the Right to Work: The New Deal and After." Art History, history of photography lecture, 8 p.m., Rare Books Room, Pattee Library.

Exhibits

Chambers Gallery:
School of Visual Arts, Undergraduate Graphic Design and Metals Exhibition, through April 6.
HUB Galleries
Federal Gallery
Dept. of Landscape Architecture, To Design a Monument: Three Design Competitions, through March 25.

Kern Galleries
College of Science Research Exhibitions, through March 20.
Graduate Research Exhibition, March 23-24.
Palmer Museum of Art
Roman Portraits, through April 22.
Figurative Drawings of the 17th and 18th Centuries from the Accademia Nazionale di San Luca in Rome, through May 20.
Transforming the American Garden, from March 18 through May 13.
Zoller Gallery
Undergraduate Juried Exhibition, through March 30.

Focus on the arts

(Continued from page 4)

at 70" airing at 9 p.m. Monday, March 19. Stars from Broadway, classical and pop music join the Boston Symphony Orchestra at its summer home, the Tanglewood Music Festival, in a gala 70th birthday salute to the legendary American composer and conductor.

Playing to Win, airing at 10:30 p.m. Wednesday, March 21, documents from start to finish the four-day D'Angelo Young Artist Competition.

Under the direction of Sam Rotman, director of the D'Angelo School of Music at Mercyhurst College, Erie, Pa., the competition has been a stepping stone for a number of artists, including sopranos Susan Dunn and Barbara Kiddoff and violinist Paul Neubauer.

Joint concert

Cello Thaddeus Brys, professor emeritus of cell and chamber music at Louisiana State University, and pianist Susan Brys will present a concert at 8 p.m. Monday, March 19, in Recital Hall of the Music Building at University Park.

The program will include works by Stravinsky, Chopin, Shostakovich and Casacco.

Mr. Brys has performed throughout the United States and in Europe, Canada, Mexico and South America. He has been a soloist with The Little Orchestra Society of New York and with numerous symphonies in the South.

Ms. Brys has toured as an accompanist and chamber player throughout the United States and Europe. A former member of the Baton Rouge Symphony, she studied

piano with Nadia Reisenberg and Arthur Balsam in New York City and Blue Hill, Maine.

Mixed media artist

Mixed media artist Petah Coyne will be at University Park March 19-21.

She will present a public lecture on her work at 12:30 p.m. Tuesday, March 20, at the Palmer Museum of Art. As part of the School of Visual Arts' Visiting Artist Program, she will give seminar talks at 7:30 p.m. Monday and Tuesday, March 19 and 20, in 215 Willard Building Scholars Lounge.

Committed to establishing intimacy with her audience, Ms. Coyne believes that "really good work will hit a core inside anybody."

She uses a mixture of materials, including

mud, roots, twigs, clumps of earth, rope, tar, wire, resin and wax to evoke a swampy, almost claustrophobic sense of instinct that is free from the constraints of reason and morality, yet open to wildness and violence.

Ms. Coyne has been the recipient of many grants and awards, including a Guggenheim Fellowship, a Massachusetts Arts Council Award and a New York State Arts Fellowship. Her talks are free and open to the public.

Chaim Potok

Noted author Chaim Potok will visit University Park Tuesday and Wednesday, March 20 and 21, giving talks and meeting with students. He previously visited in 1985.

(Continued on page 7)

Partings

John H. Doolittle, associate professor of exercise and sport science in the College of Health and Human Development, has retired after 26 years service.

Professor Doolittle joined the University in 1963 as instructor and assistant track coach in the former College of Health, Physical Education and Recreation. He was promoted to assistant professor in 1966 and has been associate professor since 1971.

While at Penn State, Professor Doolittle chaired the President's Commission on the Physically Handicapped Student and coordinated a comprehensive report on Penn State students who are physically disabled. He also co-founded and advised the Penn State Wheelchair Sports Club and the disabled student group ABLED.

A nationally known specialist in adapted physical education, Professor Doolittle was project director and host for 17 half-hour television shows on that subject. He has written numerous research articles and two books, including *Challenging to Change and The New Challenger*, published by the Pennsylvania Department of Education.

His commitment to volunteer service has been recognized by many organizations, including the Pennsylvania Association for Retarded Citizens, which named him its Volunteer of the Year in 1989. He also served as president of the board of directors of the Pennsylvania Easter Seal Society and was a member of its National House of Delegates.

He organized Centre County's first Special Olympics competition in 1969 and served as director of the Pennsylvania Summer Games of the Special Olympics in 1988.

Prior to coming to Penn State, he was athletic director, assistant professor, basketball and track coach for Panzer College in East Orange, NJ. He holds a bachelor's degree in health and physical education from Panzer College and a master's degree in adapted physical education from New York University.

Ruth F. Funk, regional director for the Northeast Extension Region of Pennsylvania, has retired after 31 years service with Penn State Cooperative

John H. Doolittle

Extension.

She was promoted to her current position in 1987 from assistant director for the Northeast Region, a position she had held since 1972. Since her original director's appointment, the Northeast Region has increased from seven to 17 counties.

"A new reorganization plan has been initiated about every five to six years during my tenure, but our mission of 'helping people to help themselves' has remained the main focus for extension's existence," she says. "It's the people that make the difference. The rewards for me have been watching people develop and grow in their leadership skills."

"Unlike production agriculture, development of people cannot be measured in monetary terms. I deem it a privilege to have spent the last years of my career in the Northeast Region working with the staff and clientele."

Mrs. Funk also worked closely with the Pennsylvania Association of Extension Home Economists and Penn State administrators in establishing the Pennsylvania Extension Paraprofessional Association. Previously, she taught home economics in Beaver Area Senior High School.

Mrs. Funk received a bachelor of science

Ruth F. Funk

degree in vocational home economics from Indiana University of Pennsylvania and a master of education degree in secondary education from Penn State.

In 1973, she was awarded a Farm Foundation Scholarship to attend Colorado State University. She also has received Distinguished Service Awards from the National Association of Extension Home Economists and Epsilon Sigma Phi, an extension honorary society.

She resides in Pennsylvania Furnace.

Donald Krebs has retired from the University following 31 years of service as a photographer in the College of Earth and Mineral Sciences.

A native of State College, Mr. Krebs received his training at the Baltimore Institute of Photography and through apprenticeship with the late Robert Breon Sr., a well-known local photographer. He operated Breon's studio in Lock Haven for two years, before returning to the Penn State Photo Shop -- Breon's portrait and commercial photography studio.

In 1958, he joined the University as a professional photographer on the staff of the newly established Coal Research Section in the College of Earth and Mineral Sciences. By 1987, when the Coal Research

Donald Krebs

Section was expanded and reconstructed as the Energy and Fuels Research Center, Mr. Krebs was not only photographer and artistic adviser to the Center, but also in many respects photographer to the college.

Over the years, Mr. Krebs created a valuable photomicrograph collection for illustrating the vast variety of color and form assumed by coal when viewed in thin section.

In the 1960s, he was a member of a film team using time-lapse cine-photomicrography and other creative techniques to show how coal particles behave when heated in an electric furnace: the 30-minute film, "Thermal Behavior of Coal Constituents," is still used around the world today.

Mr. Krebs has assisted graduate students and faculty throughout the college with technical help and artistic advice on the preparation of these, presentations, and research publications.

Away from the studio, he is well-known locally as a musician. He has played drums since high school and has played frequently on campus and at fraternities. In retirement, he will still be based in State College and continue his interests in photography and music.

Penn Staters

Howard G. Knuttgen, director of the Center for Sports Medicine, presented a lecture on "Physiological Adaptations of Skeletal Muscle to Physical Exercise" for the faculty of medicine at the University of Amsterdam, Netherlands.

Rustum Roy, Evn Pugh professor of the solid state at the Materials Research Laboratory and director of the Science Technology and Society Program, was one of five foreign experts who addressed the International Symposium on Advanced Materials and Issues of Science/Technology Policy in Tokyo. The symposium was organized by the International Technology Forum in cooperation with the Engineering Academy of Japan.

Inyong Ham, FANUC professor in the College of Engineering, presented the keynote address for the Science and Technology Promotion Conference in Seoul, Korea. Dr. Ham also has been selected to receive the 1990 Albert M. Sargent Progress Award, one of seven international honor awards presented annually by the Society of Manufacturing Engineers.

Gordon Hamilton, professor of chemistry, gave an invited plenary lecture and an invited symposium lecture at the Australian Biochemical Society meeting in Queensland.

Australia. He also gave an invited plenary lecture at the International Symposium on Biological Oxidation Systems in Bangalore, India.

Howard F. Kingsbury, associate professor of architectural engineering, has been elected a Fellow of the Acoustical Society of America for his contributions to architectural and mechanical systems acoustics and acoustical education.

Angharad N. Valdivia, instructor in mass communications, presented a paper titled "Women and the Press: A Comparative Analysis of Nicaragua and the U.S." at a meeting of the American Studies Association in Toronto, Canada.

Daniel Walden, professor of American studies, English and comparative literature, gave a talk titled "Ethnic Formation in the United States" at the American Studies Association Conference in Toronto, Canada.

Joseph A. Dixon, professor emeritus and former head of the Department of Chemistry, has been elected chairman of the Board of Directors of the American Chemical Society. The American Chemical Society, with approximately 140,000 members, is the world's largest scientific professional organization.

David Charney, assistant professor of English, was among the winners of the 1989 Awards for Excellence in Technical and Scientific Writing, sponsored by the National Council of Teachers of English. An article co-written by Dr. Charney, "Studies of Elaboration in Instructional Texts," was named Best Article Reporting Formal Research in Technical or Scientific Communication.

Vicki L. Golich, assistant professor of political science, has been appointed a member of the Aviation Economics and Forecasting Committee of the National Research Council's Transportation Research Board.

Edward Allen Brawley and **Emilia E. Martinez-Brawley**, professors of social work, conducted research on the social services in Spain and presented papers at the Escola Universitaria de Treball Social, Barcelona; Consejo Superior de Investigaciones Cientificas, Madrid; Centro de Estudios de las Cinco Villas, Zaragoza, and the Institut Catala de Assists i Serveis Socials, Girona.

Judith Kelly, assistant director in the Department of Independent Learning, has been elected secretary of the Division of Independent Study, National University Continuing Education Association, for 1990.

Edward S. Beck, coordinator of counseling programs and affiliate assistant professor of psychology at Penn State Harrisburg, has been elected to a three-year term on the Directorate Body of the Commission on Counseling of the American College Personnel Association.

Linda Maxson, professor and head of the Department of Biology, has been elected 1990-91 president-elect of the Society for the Study of Amphibians and Reptiles (SSAR).

Lyle Merriman, director of the School of Music, has been re-elected to a three-year term on the Graduate Commission of the National Association of Schools of Music.

C.R. Rao, professor of statistics and holder of the Eberly Chair in the College of Science, received D.Sc. honoris causa of the Indian Statistical Institute and delivered the convocation address titled "Taming of Uncertainty: A Triumph of the Present Century."

John Riew, professor of economics, presented a co-authored paper, "Tax Policy and Business Investments: The Case of Manufacturing Industry in Taiwan," at the Conference on Tax Policy and Economic Development among Pacific Asian Countries held in Taipei.

Richard Frautschi is honored by government of France

Richard L. Frautschi, professor of French, has been awarded the title of Officer of the Order of the Academic Palms by the government of France.

The *palmes academiques* decoration was presented to Dr. Frautschi by Michel Oriano, cultural counselor at the French Embassy in Washington, D.C., and professor of American studies at the University of Paris VII, who conferred the award on behalf of the French minister of national education.

The ceremony took place at University Park on Feb. 20. Mr. Oriano conducted the ceremony in front of the University and community friends, colleagues and students attending. Dr. Frautschi was nominated for the award by Gerard J. Brault, acting head of the French Department and holder of the *palmes academiques*. The award was instituted under Napoleon in 1808.

Dr. Frautschi was honored for his

achievements as a scholar of French Renaissance and Enlightenment. He formerly headed the French Department for 19 years and now is an active member of the department.

The special ceremony was conducted in conjunction with activities planned by the University's Ad Hoc Intercollegiate Committee on the Bicentennial of the French Revolution, chaired by Monique Yaari, associate professor of French.

The committee arranged a number of events to celebrate the bicentennial at Penn State. Among them were the planting of a "Liberty Tree" in front of the Art Education Crafts Building at University Park, lectures and films. Mr. Oriano dedicated a plaque that will be affixed to the ground next to the crabapple tree.

In addition, a University team lead by Donald Kunst, assistant professor of architecture, constructed "The Revolution

Richard L. Frautschi (left) and Michel Oriano

Machine," an architectural machine designed to allow viewers to experience the French Revolution. On display in Kern Building, "The Revolution Machine" is seeking a permanent display in a museum. The machine's creators presented Mr.

Oriano with a plaque reading: "The Revolution Machine; dedicated to the people of France on the occasion of the Bicentennial of the Fall of the Bastille, July 14, 1789."

Focus on the arts

(Continued from page 5)

On Wednesday at 12:30 p.m., he will speak on "A Multicultural Modernist: Exploring a Contradiction" during the Comparative Literature Luncheon in 305 Hetzel Union Building. At 3:30 p.m., he will be available for an open discussion with graduate students in the Rare Books Room in Pattee Library. At 8 p.m. in Schwab Auditorium, he will discuss "In Quest of Asher Lev."

He also will give a lecture at 8 p.m. Tuesday on "A Writer in Two Cultures" at the Jewish Community Center, 620 E. Hamilton Ave., State College.

All events are free to the public. His visit is sponsored by the American Studies Program, the departments of English and Comparative Literature, Colloquy, the College of the Liberal Arts, the School of Communications, the Jewish Community Center and the Hillel Foundation.

Mr. Potok is author of the novels *The Chosen*, *My Name is Asher Lev*, and *David's Run*. His *Chosen*, published in 1967, is perhaps his best known work and was made into a movie starring Robbie Benson in 1981. His newest book, *The Gift of Asher Lev*, will be published in May.

An ordained rabbi since 1954, he writes novels examining the conflicts of Jews caught between the orthodox bonds of their religion and the demands of modern society.

Odyssey on WPSU

Comparative Literature graduate student Charles Kraszewski presents his translations of modern Polish and Czech poems on "Artificial Respiration," the next episode of "Odyssey Through Literature" on WPSU.

Mr. Kraszewski follows George Steiner's theory of translation, that the translator's aim is to recreate the original verse. The translation is a new poem: Not an equation but an equivalent. "It is a betrayal of the translator's work if he tries to bring over the music of the original language," he says. But a successful translation should have the same effect on the person reading it in English as the original had in Polish or Czech.

On "Odyssey Through Literature," Mr. Kraszewski reads his translations of parts of Stanislaw Baranczak's 27-canto cycle, "Artificial Respiration," a poem written in the 1970s ("a very hectic period in Polish history") which was officially censored and became known only by being passed from hand to hand. Mr. Kraszewski also reads from Jan Zahradnicki's "The Sign of Power." Zahradnicki, a modern Czech mystic, was imprisoned as a danger to the state because of his poetry.

"Odyssey Through Literature" is produced by the Comparative Literature Department and airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Art lecture

Jeanne Chenuat Porter, associate professor of art history, will give the lecture "Drawings of the International Baroque at the Accademia Nazionale di San Luca in Rome" at 8 p.m. Wednesday, March 21, at the Palmer Museum of Art at University Park.

The lecture complements the current exhibition at the museum, "Figurative Drawings of the 17th and 18th Centuries from the Accademia di San Luca in Rome," which will be on display until May 20, when it will move to the National Academy of Design.

The exhibition is a collection of works from student competitions held at the Accademia di San Luca every 70 years period. Students were required to submit drawings on assigned themes, usually historical, mythological or religious in nature.

Greek poet to visit

Katerina Angelaki-Rooke, Greek poet and lecturer, will visit University Park Thursday and Friday, March 22 and 23.

Ms. Angelaki-Rooke will give a poetry reading in the Rare Books Room in Pattee Library at 4 p.m. March 22, followed by a reception at 4 p.m. On March 23 at 4 p.m., she will lecture on "Contemporary Greek Women Writers" in the Women's Studies Lounge, followed by a reception. The reading and lecture are open to the public.

The author of nine books of poetry, Ms. Angelaki-Rooke has won the Greek National Poetry Award twice, has received Ford Foundation grants, and was a Fulbright Visiting Lecturer to the United States in 1980-81.

Her visit is sponsored by Women's Studies, the Comparative Literature Department and the Institute for the Arts and Humanistic Studies.

Museum lecture

State College photographer Dan Brody will discuss career opportunities for photographers at 10 a.m. Thursday, March 22, at the Palmer Museum of Art at University Park. His talk is part of the continuing series "Careers in the Visual Arts."

Concert choir

The Penn State Concert Choir will perform in concert at 12:10 p.m. Thursday, March 22, in Eisenhower Chapel at University Park. The 20-minute concert is part of the spring Back's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include a transcription for voices of *Adagio for Strings* by Samuel Barber. The text set to this piece is the Agnus Dei.

The Concert Choir is composed of 70 voices and is directed by D. Douglas Miller, faculty member in the School of Music. Both music and non-music majors sing in the choir.

Bracken Lecture

Arthur Edwin Bye Jr., Fellow of the American Society of Landscape Architecture, will be the final speaker in the Department of Landscape Architecture's 1989-90 Bracken Lecture Series.

His talk, "Abstracting the Landscape," will be presented at 8 p.m. Thursday, March 22, in Schwab Auditorium at University Park.

Mr. Bye graduated from Penn State in 1942 with a degree in landscape architecture and established his own firm, A.E. Bye and Associates, in 1951. During his career he has worked on private, public and corporate commissions often with America's most prominent architects. Today he is widely recognized as one of the leading contemporary landscape architects.

In addition to his practice, Mr. Bye has taught landscape architecture at The Cooper Union in New York, Columbia University and the University of Pennsylvania. A major exhibition of his work will open at the Palmer Museum of Art in January 1991.

Mr. Bye will be honored by the Department of Landscape Architecture as the 1990 Bracken Fellow. The Bracken Lecture Series are made possible by an endowment created by former department head John R. Bracken.

Illustrated lecture

Audrey Linkman of Manchester, England, will present an illustrated lecture titled "Itinerant Photographers of the 19th Century" at 8 p.m. Thursday, March 22, in the Rare Books Room of Pattee Library at University Park.

Ms. Linkman will trace the emergence of itinerant photographers, who modeled their work on that of itinerant traders and entertainers, and who introduced instant photographs at centers of popular entertainment, such as fairsgrounds, racetracks, parks and beaches.

The lecture is co-sponsored by the Institute for the Arts and Humanistic Studies and the Department of Art History.

Concerto competition

The Penn State Philharmonic will present its annual Concerto Competition Concert at 8 p.m. Friday, March 23, in the Recital Hall of the Music Building at University Park.

The concert will feature winners of a competition held in January among Penn State students studying with faculty members in the School of Music. Winners

include Richard Frankenthal, piano, student of Marylene Dosse; Jeff Parker, tuba, student of Mark Lusk; and Janet Louise Smith, flute, student of Eleanor Armstrong.

The concert program will include a movement of Saint-Saens' Piano Concerto No. 2 by Mr. Frankenthal; two movements of Vaughan Williams' Tuba Concerto, by Mr. Parker and conducted by Alex Hill; and a movement of Mozart's Flute Concerto No. 2 by Ms. Smith. The concert will conclude with the final movements of Tchaikovsky's Symphony No. 4.

The Philharmonic is conducted and directed by Douglas Meyer, faculty member in the School of Music.

Slavic Folk Festival

The 12th annual Penn State Slavic Folk Festival will be held from 10 a.m. to 10 p.m. Friday, March 23, and Saturday, March 24, and from 1 to 6 p.m. Sunday, March 25, in the ballroom of the Hetzel Union Building at University Park.

There will be exhibits and demonstrations of folk arts and live performing groups, as well as book, souvenir and artifact booths. A snack bar will serve ethnic foods.

Special events for children are scheduled for Friday morning. The Polka Players will present music for listening and dancing from 8 to 10 p.m., and several dance contests will be held during the evening.

The Saturday show will start at 1 p.m. with Czechoslovak dancers from Endicott, N.Y. "Slavjane," a Carpatho-Rusyn troupe from Pittsburgh, will perform a suite of dances, and a Byelorussian vocal soloist from New York City will be featured. The "Kazka" Ukrainian dancers from Wilkes-Barre and "Seemadjia," a Serbian ensemble from Cleveland, Ohio, will round out the performance.

Saturday evening will feature a Polish dance ensemble from Houtzdale, Pa., at 6:30 p.m. followed by the Penn State International Dancers. "Zima" East European Ensemble will play for dancing and listening from 8 to 10 p.m.

The Sunday program begins at 1 p.m. and features "Limboza," a Slovak dance troupe from New York City. Also performing will be the St. Michael's Ukrainian dancers from Frackville, Pa., and the Serbian ensemble.

Hot foods will be available on Friday and Saturday from 11 a.m. to 2 p.m. and 5 to 8 p.m. Hot and cold beverages and pastries will be available throughout the festival.

The event is co-sponsored by the Department of Slavic Languages, headed by William R. Schmalstieg, and Kappa Kappa chapter of Dobro Slovo, the national Slavic studies honor society. Lorraine Kapitaniou, chapter adviser, is the festival coordinator.

There is no admission charge, and the public is welcome.

Ground broken at York Campus

President Jordan joined University and community officials in groundbreaking ceremonies March 8 for a new academic building at the Penn State York Campus. The event culminated more than two years of capital fund raising in the community to provide the \$2 million required to fund the project.

The new building will include two mainframe laboratories connected with the University's mainframe computers, one personal computing classroom, a consultant's office and appropriate support facilities. In addition to the computer facilities, the first floor of the building will include two critically needed lecture classrooms, both able to accommodate 35 students along with a student study and vending machines.

On the second floor, 25 single, two double and four triple faculty offices will be constructed, eliminating a long-standing

need to improve the working environment for full-time faculty. There also will be a faculty lounge and a student study/waiting area.

A new campus bookstore will be attached to the new building and will share entrance and vestibule areas. The bookstore portion of the new structure will be funded by the University's bookstores.

The \$2 million campaign was the third successful fund raising effort the Penn State York Campus has conducted in the community in the past 25 years. The last project, a \$750,000 campaign for the construction of a Student Center, was from 1974-76 with dedication of the center in 1977.

Construction on the new building is expected to start in late March or early April with completion expected by early spring 1991.

York Campus ground breaking participants are, from left, President Jordan, SGA President T.J. Brightman, Ralph Swenson, campaign chairman, and John J. Romano, campus executive officer.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in promotion may APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0004, NETWORK LINE 435-0304. Applications for these staff vacancies will be accepted until March 22. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (PE-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

• Undergraduate Studies Writer/Advisor, Undergraduate Education, Division of Undergraduate Studies (DUS), University Park

Campus - Responsible to the assistant director for organizing and coordinating DUS communications activities consistent with DUS goals and objectives, for providing advice and assistance to DUS staff concerning communications programs and for providing academic and educational advising to undergraduate students. Requires master's degree, or equivalent, and one to two years of effective experience. Excellent verbal and written communication skills and knowledge relevant to academic advising are required. STAFF GRADE 7.

• **Administrative Aide, Arts and Architecture, Department of Theatre Arts, University Park Campus** - Responsible to the head, Department of Theatre Arts, for handling a wide range of administrative responsibilities relating to the academic and production programs of the department, including support services of the department and its programs, special projects, communications, public relations, University Resident Theatre Co. and Pennsylvania Centre Stage. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in

administration. Theater administration work preferred. Excellent communication and interpersonal skills required. EVENING AND WEEKEND HOURS MAY BE REQUIRED. STAFF GRADE 5.

• **Support Center Specialist, CES, Management Systems, University Park Campus** - Responsible to the coordinator, Support Center, for providing first-line liaison with and assistance to CES personnel using data processing systems. Duties include assisting in planning and conducting training sessions and helping to resolve hardware and software problems. Occasional travel to CES locations required. Requires associate degree, or equivalent, in computer science or related field and two to four years of effective experience in a data processing/telecommunications environment, and the ability to communicate technical information and relate in a positive manner to diverse clientele. STAFF GRADE 5.

• **Assistant Manager, Ice Pavilion, Auxiliary Recreation Services, University Park Campus** -

Responsible to the manager, Ice Pavilion, for providing managerial assistance in the operation of the Ice Pavilion. Develop, maintain and/or conduct ice hockey programs for University and non-University participants. Responsible for all publicity, advertising, public relations programs and records for the Ice Pavilion hockey program. Requires bachelor's degree, or equivalent, in recreation and parks, physical education or business administration, as well as two years of effective experience in ice rink operations and ice hockey program administration. STAFF GRADE 5.

• **Network Support Specialist, College of Medicine, The Department of Surgery, The Milton S. Hensley Medical Center** - Responsible to the director of administration/surgery for installation and operation of departmental computer network systems, training of departmental support staff, as well as hardware and software solutions for the department. A working knowledge of various software programs such as Lotus 1-2-3, WordPerfect and/or D-Base III is required. Requires bachelor's degree, or equivalent, in computer science, plus one to two years of effective experience. STAFF GRADE 6.

• **Coordinator, Academic Support Services, Shenango Campus** - Coordinate all Learning Center operations. Work with faculty to integrate computer education into the curriculum. Work with remedial/developmental faculty to integrate computer-assisted instruction into developmental courses. Serve as primary resource person researching and recommending academic computer and related hardware/software acquisitions. Requires master's degree, or equivalent, in computer-based or developmental education or related field, plus three to four years effective experience. Doctorate preferred. THIS IS A RE-ANNOUNCEMENT. STAFF GRADE 7.

• **Maintenance Foreman, Schuylkill Campus, Physical Plant** - Responsible to the assistant to the director of business services for planning, scheduling and supervising maintenance, repair and upkeep activities of the Schuylkill Campus physical plant and facilities, including Advisory Board Apartments. Requires high school graduate, or equivalent, plus three to four years of effective experience in building and grounds maintenance and/or construction. Must possess good interpersonal skills; supervisory experience is highly desirable. STAFF GRADE 5.

Nominations sought for Nittany Lion Inn post

Applications and nominations are being requested for the position of general manager of The Nittany Lion Inn to replace James J. Raytek who announced his plans to leave his position at the Inn as of April 30 to pursue other professional and business interests.

Mr. Raytek served the Inn for 22 years and in various capacities. As a student in Penn State's Hotel Management Program, he worked throughout the Inn's food service areas.

After graduation with B.S. and M.S. degrees in 1965 and 1967 respectively, he spent five years during the VietNam conflict as a registered dietitian in the Army Medical Specialist Corps, attaining the rank of captain. Following his military service, he returned to the University and The Nittany Lion Inn as food and beverage manager, a position he held until 1984

when he was named general manager.

Reflecting on his years at The Nittany Lion Inn, Mr. Raytek said, "To have graduated from Penn State and to have had the opportunity to serve the University and its guests for over 20 years has been a privilege."

"Jim Raytek has devoted a major portion of his professional career to Penn State," said Steve Garban, senior vice president for finance and operations, as he announced Mr. Raytek's resignation. "Most recently, Jim has been instrumental in the development of the plans for the expansion of The Nittany Lion Inn, and we thank him for his very valuable input."

In addition, Mr. Raytek was responsible for initiating a number of improvements throughout the Inn, including the installation of automated systems to enhance guest services in the food service,

telephone, office and accounting operation areas, and he instituted various programs to recognize current and former employees, as well as the needs of students in HRIM.

Additionally, he designed programs in quality assurance, customer service, marketing and human relations.

Applicants and nominees should have significant previous experience related to hotel operations, including budgeting, forecasting, operations management, marketing, and personnel management. Excellent interpersonal, oral and written communications skills, and a bachelor's degree, or equivalent, in hotel, restaurant, and institutional management, or related field required.

Applications and nominations should be sent to the Employment Division, Box 6, Rider Building, University Park, Pa. 16802.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Trustees approve name change for College of Science

The Board of Trustees at its meeting March 17 approved renaming the University's College of Science to honor one of its most generous benefactors.

The new name, the Eberly College of Science, recognizes the outstanding support given to the college and the University by the Eberly Family Charitable Trust of Uniontown, according to President Jordan.

"The Eberly family has helped Penn State to make unprecedented strides in strengthening the quality of its programs in the biological, mathematical and physical sciences," Dr. Jordan said. "The University is delighted to extend this permanent recognition of their philanthropy."

The Trustees' action marks the first time that Penn State has changed the name of an academic college to honor a benefactor.

"This is a milestone in our University's history, one that calls attention to the critical role that private support plays in

our efforts to secure Penn State's place as one of America's best public research universities," Dr. Jordan noted.

Penn State is the first public research university in the United States to name its basic science college for a benefactor or philanthropist, according to a survey of institutions belonging to the Association of American Universities.

In 1986, the Eberly trust gave the University \$10 million. The gift established eight faculty chairs, one in each of the college's academic departments. It was the first time in higher education philanthropy that an academic college received, in a single gift, an endowed chair for every department.

In addition, \$1 million was designated for programs at the Biotechnology Institute, and \$1 million created an endowment for instruction and research in science at Penn State Fayette Campus.

The gift was part of The Campaign for Penn State, the University's successful \$300 million fund-raising effort. Robert Eberly, a 1939 Penn State graduate in chemistry and trust manager of the family trust, serves as campaign treasurer. He also is chairman of the board of Gallatin National Bank of Uniontown.

"The Eberly Family Chairs are enabling our college to attract and retain faculty whose achievements have been recognized worldwide," Dean Gregory L. Geoffroy said. "Their presence makes Penn State more competitive in attracting high-quality students and major research grants and contracts."

The Eberly Family Chairs in astronomy, biology, chemistry, statistics and mathematics have been filled. Searches are under way for appointees to the chairs in computer science, physics and molecular and cell biology.

The Eberly College of Science enrolls about 3,600 undergraduates and 700 graduate students and ranks fifth among Penn State's 11 academic colleges and schools in total enrollment. It has 525 faculty members, and in 1988-89, it spent nearly \$25.7 million on organized research—third-highest among the colleges.

The college was formed in 1962 by combining the College of Chemistry and Physics with academic units from several other colleges.

The Eberly Family Charitable Trust is composed of the children of the late Ruth R. and Orville Eberly of Uniontown. The trustees are Robert Eberly and his sisters, Carolyn E. Blaney and Margaret E. George, all of Uniontown.

The Eberly gift is the largest donation received thus far by The Campaign for Penn State from a foundation or trust.

Annual awards convocation is scheduled for April 8

The annual Penn State Awards Convocation to honor outstanding students, faculty and staff will be held at 2 p.m. Sunday, April 8, in Eisenhower Auditorium at University Park.

The ceremony is open to the public and will feature Penn State Head Football Coach Joe Paterno as special speaker.

In addition to his coaching activities, Mr. Paterno is a vice chairman of The Campaign for Penn State, the successful \$300-million fund drive to enhance University academic programs. In 1986, he contributed \$150,000 to the campaign for a library endowment fund and minority student scholarships.

He is a graduate of Brown University, where he was quarterback of the football team and majored in English literature. He has been awarded the Pennsylvania Award for Excellence in Athletics, and honorary degrees from Brown University, Gettysburg

College, and Allegheny College.

President Jordan and William C. Richardson, executive vice president and provost of the University, will officiate and make presentations.

Dr. Richardson will present the following undergraduate scholastic awards: the President's Freshman Award, the President Sparks Award for sophomores and the Even Pugh Scholar Award for juniors and seniors.

In addition, he will present the 1990 John W. White Graduate Fellowships and a series of faculty teaching awards. Faculty awards include the Christian R. and Mary F. Lindback Award for Distinguished Teaching, the George W. Atherton Award for Excellence in Teaching, and the Penn State Teaching Fellow and Excellence in Advising awards.

William W. Asbury, vice president for student services, will present the following

student achievement awards: the Ralph Dorn Hietzel Memorial Award, the Eric A. Walker Award, the John W. Oswald Award, the Ernest B. McCoy Memorial Award and the Outstanding Adult Student Award for University Park.

Charles L. Hosler, senior vice president for research and dean of the Graduate School, will present faculty scholar medals for life and health sciences, arts and humanities, physical science and engineering, and social and behavioral sciences.

Dr. Jordan will present the faculty-staff achievement awards: the Barash Award for Human Service, the McKay Donkin Award, the John E. Wilkinson Award for Administrative Excellence, and the Equal Opportunity Award.

Wilkes-Barre CEO appointed to Continuing Education post

James H. Ryan, campus executive officer of the Penn State Wilkes-Barre Campus, has been named vice president for continuing education, effective July 1.

Dr. Ryan was appointed to the position during the Board of Trustees' meeting March 17 at the Hershey Medical Center.

"Dr. Ryan has exceptional administrative insight and leadership abilities for the position," President Jordan told the Trustees. "He has exhibited a keen grasp of the complexity of the University system and has a successful background in continuing education, community and economic development."

Dr. Ryan has served as CEO at Penn State Wilkes-Barre since 1981. During that time, the campus has realized a doubling of credit enrollments while also experiencing a 10-fold increase in the number of non-credit enrollments.

"Dr. Ryan is a man of integrity and high principles, and I believe he is an outstanding choice for the position," Dr. Jordan said.

During his tenure, the Wilkes-Barre Campus increased its physical facilities by \$8 million, raised \$2.5 million for a Center for Technology and received a \$1 million grant from Bell of Pennsylvania to support

In news magazine survey Graduate program highly ranked

The University's graduate programs in business and engineering have been listed among the top 20 programs in the nation by a U.S. News and World Report survey. The College of Business Administration was one of three Pennsylvania institutions ranked among the top 25 graduate business schools. In ratings published in this week's edition of the news magazine, Penn State was eighth among public business schools nationally and 20th overall.

The College of Engineering was one of two Pennsylvania institutions ranked among the top 25 graduate engineering programs. Penn State was 11th among public engineering schools nationally and 18th overall.

"We are extremely pleased by this news," J.D. Hammond, dean of the College of Business Administration and holder of the William Elliott Chair in Insurance, said. "It places us in the company of some very fine institutions."

"However, there is much we need to accomplish—the internationalization of our curriculum, continuous program innovation and increased support for quality students. Our goals are high. This ranking will

provide us an important independent benchmark against which we can measure our progress."

John Brighton, dean of the College of Engineering, said, "It's always satisfying to have the excellence of our programs recognized. Among engineers in the field and our alumni, Penn State's engineering programs are always highly ranked and respected."

"I think the college should be ranked higher than 18th," Dr. Brighton said. "Our goal is to break the top 10."

Other Pennsylvania business schools listed among the U.S. News top 25 were the Wharton School at the University of Pennsylvania, ranked third overall, and the Graduate School of Industrial Administration at Carnegie Mellon University, ranked 14th overall.

Carnegie Mellon University, ranked seventh, was the only other Pennsylvania school ranked in the survey.

Topping the list for business was Stanford University's Graduate School of Business, followed by the Harvard University Graduate School of Business

More Native Americans earning doctoral degrees

Because of strong support systems, nearly twice as many Native American Indians earned doctoral degrees in 1987 compared to 1977, while the number of non-minorities earning similar degrees decreased during the same period.

According to G. Mike Charleston, associate professor of education and director of the University's American Indian Education Policy Center, 65 Native American Indians earned doctorates nationwide in 1977, compared to 116 in 1987, which is the latest information available.

Active recruiting networks among Native American Indians enrolled in colleges and graduate schools and support programs at those universities have aided in that graduation increase, he said.

Penn State has two special graduate programs in its College of Education for Native American Indian students and is among the nation's top producers of Native American Indian doctorates. During the University's 20 years of conducting Native American Indian graduate programs, 29 doctoral degrees and 119 master's degrees have been awarded.

For Native American Indians, merely the act of going to college means dealing with many obstacles, besides those that are financial," said Dr. Charleston, a member of the Choctaw Nation of Oklahoma.

"For example, many Native American

Indian students also must cope with breaking away from family, holidays, diet and overall cultural activities.

"Many Native American Indians observe social and religious practices that are considered unusual by non-Indians. Certain foods are unavailable at the locations of various universities; and without a family life, a very important aspect of tribal life, students can feel very lonely."

Despite these obstacles, 81 percent of the Native American Indians who enter Penn State's graduate degree programs graduate. This statistic is similar to the national figure of 80 percent for other universities that

have programs designed specifically to support Native American Indians, according to Dr. Charleston.

Nationwide, an average of 50 percent of the Native American Indians who enter graduate schools graduate, according to 1982 statistics. The national average for African Americans/Black Americans and Hispanics is 50 percent and 64 percent for non-minority students.

"At Penn State and other universities with programs for Native American Indians, numerous academic and social support systems really are beneficial," Dr. Charleston added. "In addition, Native

American Indian students assist each other in many ways such as getting together to study and provide familiar social environments."

Until about 1969, few Native American Indians graduated from college and fewer enrolled in graduate schools. But many individuals in the Indian and non-Indian academic and governmental communities grew concerned about having more Native American Indians in leadership positions.

"The U.S. Bureau of Indian Affairs was run by non-Indians, and even though it had Indian employees, they were in low-level positions," Dr. Charleston said. "In addition, the Indian employees with college degrees did not have the additional credentials to compete with those non-Indians for leadership positions. So a few universities began to set up special programs, and they have been very successful."

Originally, government-related careers were the choice of the majority of Native American Indians entering graduate schools. But Dr. Charleston notes that the trend has changed to education, business and health-related fields as Native American Indians are more concerned with helping make their tribes more self-sufficient.

Almost all Native American Indians return to assist their tribes after attaining their doctoral degree. They work in tribal, state or federal positions and contribute to the development of Indian communities.

Commission for Women seeks members

The Commission for Women is seeking new members.

The Commission for Women serves as an advisory group to the president on any matter that may affect women of the University. It promotes the efforts of women of the University in their various roles and activities and serves as a forum for the exchange of ideas.

Members include administrators, faculty, staff, clerical workers, technical service employees, and two undergraduate and graduate students. Women from locations other than University Park also must be

represented.

To nominate oneself or others, request a nomination form by calling the Commission Office at 865-1683. The Commission actively seeks nominees from all categories of University women, including those of differing cultural, racial or ethnic backgrounds.

Forms must be returned to the Commission for Women, Nominating Committee, 405 Old Main, no later than Monday, April 16. Further information may be obtained by calling the Commission Office.

The Campaign for Penn State

Fund created in College of Education

Dorothy Mistisier, '54, '76, '76g, has established the Robert Mistisier Memorial Fund in the College of Education. Named in memory of her husband, Robert Mistisier, '56g, '71g, the fund, in excess of \$15,000, is designated for use within the Educational Administration Program.

"I wanted to establish a legacy for my husband who worked in educational administration for most of his career," Dr. Mistisier said. "He firmly believed that excellence in administrative leadership is vital to the success of any school system, and he lived that belief. This fund will carry on his commitment to the field of education."

William Caldwell, head of the Educational Administration Program, notes, "This gift represents a unique contribution to our program. It will enable us to initiate

an annual or biannual conference featuring national leaders in educational administration." According to Dr. Caldwell, the fund is a welcome addition to the program in increasing the quality of student experiences and opportunities.

Dorothy Mistisier is a two-time graduate of the College of Education, with an M.Ed. and Ph.D., both in home economics education. She currently is executive director of Kappa Omicron Phi/Omicron Nu, in Hazlet, Mich.

She also is executive director of the Michigan Home Economics Association, editor of *Home Economics Forum*, and secretary-treasurer of the Association of College Honor Societies. In the College of Education, she has served on the Alumni Society Board of Directors since 1980, being president from 1986-88.

Knight Foundation gift

Knight-Ridder Newspapers' Knight Foundation has donated \$25,000 to establish scholarships and internships for minorities in the School of Communications.

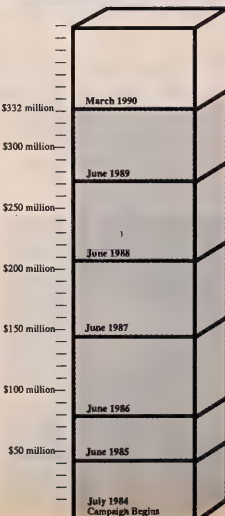

James A. Moss, publisher of the *Centre Daily Times*, a Knight-Ridder newspaper based in State College, presented the donation during a ceremony at University Park.

"The newspaper industry must encourage and fund university programs to recruit and prepare minorities for careers in communications," Mr. Moss said. "At Knight-Ridder, we take that responsibility seriously."

"As much as anything, it was the ceaseless and untiring efforts of former *Centre Daily Times* publisher Chris Harte that made this grant possible."

Accepting the check on behalf of the school's students was journalism major Patrick Evans, president of the Penn State Association of College Journalists.

Brian Winston, dean of the School, welcomed the grant, saying, "We are not doing justice to the University's multicultural goals if we do not expose them in our classrooms. This gift is a welcome addition to the school's goal of developing sensitivity to multiculturalism in every one of its courses."

Obituary

Maurice B. Cramer, professor emeritus of English, died Feb. 26. He was 79.

Dr. Cramer received his bachelor of arts, master's and Ph.D. degrees from Princeton University. He began his career as an instructor in the English Department at Mt. Holyoke College in 1934 and remained there six years.

He served as chairman of the English Department at the University of Tampa and as a lecturer at Princeton before becoming assistant professor of humanities at the University of Chicago in 1945.

Dr. Cramer joined the Penn State faculty July 1, 1959, and retired July 1, 1972. His research centered around the British Romantic and Victorian poets, principally Robert Browning.

From the Trustee Docket

Room and board rates

The Board of Trustees has approved rate increases for room and board for 1990-91. Room and board rates for the standard double room and meal plan 3 will increase 5.6 percent, beginning in fall 1990.

More than 78 percent of the undergraduate on-campus population at Penn State is housed in the standard double room. Rate increases for other types of accommodations, which include singles,

doubles, triples, single student apartments and suites, will vary from \$35 to \$50 a semester. Family apartment rates will increase \$10 to \$20 per month, depending on the type of apartment.

"The University is anticipating higher costs in areas such as food, salaries, benefits and utilities," Steve A. Garban, senior vice president for finance and operations and treasurer, said. "The Residence Hall and Dining Commons program is completely self-supporting," he notes. "State funds are

not used for the operation or the construction and maintenance of facilities."

The standard double room and board rate for 1990-91 will increase by \$90 per semester.

New double room and board rates per semester are:

- \$1,585, including Meal Plan 1 (20,500 points); \$1,635, including Meal Plan 2 (25,500 points); \$1,685, including Meal Plan 3 (30,500 points); \$1,725, including Meal Plan 4 (34,500 points); \$1,755,

including Meal Plan 5 (37,500 points).

Currently, students may choose from five meal plans offering from 20,500 to 37,500 points. Points are deducted from the plan, based on each meal eaten in a dining hall or foods selected in other campus eateries.

Plan 1 translates into seven to eight meals a week; Plan 2 -- nine to 10 meals a week; Plan 3 -- 11 to 12 meals a week; Plan 4 -- 13 to 14 meals a week; and Plan 5 -- up to 16 meals a week.

Study group

The number of women in leadership positions at Penn State is slowly increasing, as are programs to improve the environment for all faculty and staff members at the University, according to a report made to the Board of Trustees.

Jill Findeis, chairperson, Commission for Women, and Billie Willis, assistant vice president for human resources, presented a progress report on the University's efforts to implement recommendations from the Strategic Study Group on the Status of Women.

"The number of women holding positions in four categories of focus -- executive, administrator, academic administrator and faculty -- has increased from 1985 to 1989, but in some cases the proportion of women in each category has

only increased slightly," Dr. Findeis said.

"We want to continue to enhance the hiring of women in these categories and continue to encourage the Office of Human Resources to implement the study group recommendations affecting employment."

Dr. Willis outlined some of the changes made by the University as a result of the study group recommendations.

"We're seeing steady progress in the number of women being brought into leadership positions," she noted. "Penn State is ahead of other universities in addressing some of these issues."

Penn State's response to the study group's recommendations includes:

- expansion of the use of exit interviews University-wide for faculty and staff members.
- addition of more ways to advertise jobs available at Penn State.

- creation of a victim/witness advocate position in the Department of Safety and Environmental Services.
- institution of a project to review job evaluation and compensation programs.
- examination of the possibility of offering prorated time off to regular, part-time staff.
- creation of a flexible benefits component enabling faculty/staff to use pre-federal tax dollars to pay for eligible dependent care expenses.
- implementation of a policy, now in final draft form, to allow staff to move some of their sick days into an account for use for family and immediate household illnesses.
- creation of a policy, now in final draft form, to allow for a one-year leave without pay for women and men for childcare and adoption.

- establishment of a task force to study the University's benefits program and advise on future needs.
- establishment of career counseling opportunities for faculty/staff, offered jointly by the Office of Human Resources and Career Development and Placement Services.
- creation of a committee to advise the Office of Human Resources on faculty/staff professional development.
- enhancement of the dual career employment assistance program.
- creation of a policy, now being circulated for comment, on flexible work schedules. Dr. Willis said.

The Commission for Women advises the president regarding the implementation of the recommendations.

Election of directors

Trustees have elected a new Board of Directors for The Corporation for Penn State.

The corporation was established in 1985 "for the purpose of conducting certain support activities on behalf of the University."

The Trustees have established the corporation's Board as the president and vice president of the Board of Trustees; the chairs of the trustee committees on educational policy, physical plant and finance; and the University president, executive vice president and provost, senior vice president for finance and operations-treasurer, and senior vice president for health affairs and dean of the College of Medicine.

Elected to the corporation's board by holding the appropriate Trustee and University positions were H. Jesse Anelle, Marian Coppersmith Fredman, C. McCollister Everts, Steve A. Garban, Bernard Hankin, J. Lloyd Huck, Dr. Jordan, Edward P. Junker III and William C. Richardson.

Nittany Lion Inn

The Board of Trustees has approved final plans and authorized the bidding and award of contracts for a \$15 million addition and renovations to the Nittany Lion Inn on the University Park Campus.

The expansion will provide space for 136 more guest rooms, bringing the total number of rooms to 265, according to James Wagner, vice president for business and operations.

The 136,000-square-foot addition also will include a board room, a 500-seat ballroom for Penn State alumni meetings and social gatherings, and an enclosed dining pavilion in the new courtyard, which will be located between the current building and the addition, Mr. Wagner said.

Williams, Trebilcock, Whitehead of Pittsburgh designed the expansion and renovations project, which will be bid this spring. Construction is expected to take 16 to 20 months. Financing will come from a loan taken by the Nittany Lion Inn and will be repaid from future income over the next 25 years, Mr. Wagner said.

The long-range plan includes major renovations to the existing 129 guest rooms. When that work is completed, the total number of guest rooms will be reduced to approximately 250, because some of the smaller rooms will be combined during the renovations.

The original portion of the inn was built in 1930 and the last expansion was in 1957. The Georgian-style interior and exterior will be maintained in the addition, Mr. Wagner said.

Academic programs

A new graduate program in journalism and 13 changes in undergraduate majors and options have been reviewed by the Board of Trustees.

The new master of journalism program in the School of Communications is designed for students who have completed undergraduate programs in fields other than journalism.

In undergraduate programs, a soil science major has been added in the College of Agriculture.

At Penn State Erie, The Behrend College, a new interdisciplinary major combines both a business major in the College of the Liberal Arts and a science major in the School of Business. Penn State-Behrend also will drop the major in business and behavioral sciences and the major in general business, which will be replaced by the new interdisciplinary major.

The College of Health and Human Development will drop the community studies major. The college also will add a new minor in gerontology, which prepares students for entry-level human service positions working with the elderly, or for graduate or professional-school programs.

The College of Arts and Architecture will create two new minors -- one in architectural history and one in theater arts. The College of Engineering has included a new option in food engineering in the agricultural engineering major. The college also will add the new general option to the agricultural engineering major.

The College of the Liberal Arts will offer three new options in the psychology major: business, health science and quantification.

State releases funds for Engineering renovations

Lt. Gov. Mark S. Singel has announced the release of \$7.9 million in state capital budget funds for construction work involving renovations to the Mechanical Engineering and Electrical Engineering West buildings at University Park.

"The center section of the Mechanical Engineering Building dates to 1920, with the north and south wings added in 1950, and the Electrical Engineering West building dates to 1936," Lt. Gov. Singel said at a mock check presentation ceremony during the Board of Trustees meeting. "The proposed remodeling of these two buildings has become a desirable and achievable goal, and I am here to say that we are going to get the job done."

"This project is especially important to the continuing progress of the College of Engineering and to the college's ability to contribute to the continuing progress of the state," President Jordan said. "As the College of Engineering has moved forward in recent years to strengthen academic quality, the matter of facilities has become

a critical question.

A recent survey by U.S. News and World Report ranked the College of Engineering graduate program 18th in the country.

Currently, Penn State educates approximately 9,400 engineering students, an increase of almost 60 percent over 1971. Renovation to the buildings includes new lighting, new laboratory equipment,

insulation, new energy efficient windows, new roofs, new partitions, installation of an elevator in Electrical Engineering West and replacement of the elevator in the Mechanical Engineering Laboratory.

"Several years ago, we recognized the unprecedented growth which was occurring in the engineering program, growth which placed severe strains on existing facilities at the University Park Campus," the lieutenant governor said.

"The growth was occurring despite the construction of no new buildings for the program, no additions to existing buildings and no major remodeling projects. In 1984, a panel reviewed the state of the College of

Engineering and recommended a major renovation program on site. Our actions today clear the way for the state Department of General Services to formally seek bids for construction of this project."

Lt. Gov. Singel said the project will permit more efficient and effective use of existing space at the two buildings and

"provide a much-needed improvement to an engineering program which has become a vital resource to Pennsylvania."

He praised the University's Board of Trustees, Sen. Doyle Corman, Rep. Lynn Herman and the late Rep. Russell Lettermann for their assistance with the capital budget initiative.

Senator to visit

U.S. Sen. Bob Packwood of Oregon, the ranking Republican and former chairman, Senate Finance Committee, will be guest lecturer at the University Park Campus on Monday, March 26.

Sen. Packwood will be the guest of the Graduate Program in Policy Analysis, the College of Business Administration, and the Department of Political Science. He will speak to undergraduate and graduate classes in these departments focusing on federal tax policy issues, the legislative policy process, and current legislative initiatives of

the second session of the 101st Congress.

Sen. Packwood is one of the senior members of the U.S. Senate with 22 years of service and was one of the principal architects of the Tax Reform Act of 1986, which overhauled the nation's federal tax policy.

He is the direct link between the White House and the Senate on tax policy initiatives, serving as the chief spokesman on such issues as the capital gains tax and Medicare reform.

Sen. Packwood's visit to University Park was arranged and coordinated through the Office of Governmental Affairs.

Focus on the arts

The arts on Channel 3

Sir George Solti, music director of the Chicago Symphony Orchestra and one of the world's most honored and respected conductors, will present a new interpretation of Ludwig van Beethoven's Symphony in C Minor in "Solti's Beethoven - The Fifth Symphony Revisited," premiering on *Great Performances* at 9 p.m. Friday, March 23.

The program features the conductor as he explains his new approach and conducts highlights from the score in rehearsal with the Chicago Symphony.

Masterpiece Theatre presents "The Real Charlotte" at 9 p.m. Sunday, March 25. This three-part series is an adaptation from a novel by Edith Somerville and Martin Ross, the authors of *The Irish R.M.*

Set in western Ireland, the series tells the story of young Francis Fitzpatrick who comes to live with her cousin Charlotte Mullen, an ambitious, middle-aged, and iron-willed woman.

"Ray's Male Heterosexual Dance Hall," winner of the 1987 Academy Award for Best Short Film, is one of three critically acclaimed short films to be shown on *American Playhouse* at 9 p.m. Wednesday, March 28, as part of a 90-minute program titled "Triple Play."

The other two films on the telecast are "Homesick," winner of the Silver Award for Original Comedy at the 1989 Houston International Film Festival, and "Teach 109," a Bronze Award Winner for Live Action at the same competition.

'LABASH 1990'

The Landscape Architecture Student Conference, "LABASH 1990," a national conference organized and funded by University students, is being held today through March 25.

Students from the Department of Landscape Architecture organized and are hosting this year's conference, which is expected to have more than 500 participants.

The theme for "LABASH 1990" is "Challenges of the New Decade," and will focus on design issues of collaboration, urban design, career options and environmental issues.

French Horn Ensemble

The Penn State French Horn Ensemble will present a concert at 8 p.m. Saturday, March 24, in the Recital Hall of the Music Building at University Park.

The ensemble's program will include arrangements of works by Gabrieli, Verdi and Schubert, as well as original works by Lowell Shaw and Arne Oldberg.

The New Decade Horn Quartet, featuring Carla Beahm, Lisa Bevan, Andrew Carroll and Dawn Fowler, also will perform at the concert.

A 14-member group comprised of undergraduate and graduate music majors, the ensemble is directed by Lisa Bontrager, faculty member in the School of Music. She will be assisted by graduate students Andrew Carroll and Charles Moritz.

Jazz concert

Solo acoustic artist Al Di Meola and EMI recording artist Stanley Jordan will present a concert at 9 p.m. Saturday, March 24, in Eisenhower Auditorium, University Park. The concert is sponsored by the University Center Committee.

Mr. Di Meola's newest record is "Cielo e Terra." The work involves a new direction for the electric guitarist who performed with the jazz-fusion revolutionaries Return to Forever. Four of the nine songs on the album showcase the artist on solo acoustic guitar.

Mr. Jordan's latest EMI album, "Flying Home," combines rock, pop, jazz and rhythm and blues with classical music influences. The Grammy-nominated instrumental guitarist firmly established his

The Penn State French Horn Ensemble will present a concert at 8 p.m. March 24 in the Recital Hall of the Music Building.

popularity with "Magic Touch" in 1985. Tickets are \$15, and they are available from Eisenhower Auditorium box office, 9 a.m. to 4 p.m. weekdays or by mail: Ticket Center, Center for the Performing Arts, 102 Eisenhower Auditorium.

Joint concert

The Penn State Trombone Choir and Tuba/Euphonium Ensemble will give a joint concert at 8 p.m. Monday, March 26, in the Recital Hall of the Music Building at University Park.

Both ensembles are directed by Mark L. Lusk, faculty member in the School of Music, and are comprised mainly of undergraduate and graduate music majors.

Scholars to lecture

Two internationally known art historians will present complementary lectures at 8 p.m. March 26 and 27, in 112 Walker Building at University Park.

Irving Lavin, professor of art history in the School of Historical Studies at the Institute for Advanced Study at Princeton, will give the lecture "Fischer von Erlach, Tiepolo and the Unity of the Visual Arts" on Monday. Helmut Lorenz, professor of art history at the Freie Universität in Berlin, will present the lecture "Domenico Martinelli: A Roman Architect in Central Europe" on Tuesday. Following Dr. Lorenz's lecture, the two art historians will discuss questions raised by their presentations.

The lectures are part of the series "The World and the Italian Architect, Native Images and Reflections Abroad," sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Drs. Lavin and Lorenz will examine the work of two architects, Fischer von Erlach and Domenico Martinelli, who were both students of Carlo Fontana in Rome in the 1680s. The lectures will shed new light on the artistic relations between Italy and Central Europe during the early years of the 17th century.

A reception will follow both lectures in the lobby of Walker Building.

Odyssey on WPSU

The Battle of Clontarf, fought near Dublin in 1014, is not only important because it decided who would rule Ireland, the Vikings or the Irish. It is important, says historian Ben Hudson on the next "Odyssey Through Literature" broadcast, for the way in which the story of the battle was transmitted.

"It's one of those few battles that's mentioned in both Viking and Irish sources. We know that both the Irish and the Vikings had planted observers there, people whose job was actually to witness the battle and then use what they had witnessed to fashion an account for public recitation.

"The Irish author of *The Way of the Irish Against the Foreigners* specifically states that he got bits and pieces of his information from the Viking women. The Irish poets and the Viking poets must have sat down, exchanged notes, filled in the gaps in each other's log books, and gone off to compose their own materials."

"Odyssey Through Literature" is produced by the Comparative Literature

Department and airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Murray labor lecture

The AFL-CIO's Secretary-Treasurer Thomas Donahue will present the fourth annual Philip Murray Memorial Labor Lecture in Kern Auditorium at University Park at 8 p.m. Wednesday, March 28. The title of his talk is "The AFL-CIO in the 1990s."

Mr. Donahue has served as international vice president of the Service Employees International Union, assistant secretary of labor during the Johnson Administration, and executive assistant to the president of the AFL-CIO prior to his election to his present post in 1979.

The Philip Murray Memorial Labor Lecture is presented annually by a distinguished member of the labor movement in memory of Philip Murray (1886-1952), first president of the United Steel Workers of America and second president of the Congress of Industrial Organizations.

The lecture provides a forum for the exchange of ideas between the members of the University community and leaders in the labor movement. Labor leaders hope the interchange will help people better understand the importance of the labor movement in a democratic society.

The lecture series is jointly sponsored by the Department of Labor Studies and Historical Relations, the Labor Archives and Historical Collections, the Labor Studies Club at Penn State and the United Steel Workers of America. The lecture is open to the public.

Jazz ensemble

The Inner Dimensions and Outer Dimensions jazz ensembles, Penn State's second and third jazz bands, will give a concert at 8 p.m. Wednesday, March 28, in the Recital Hall of the Music Building at University Park.

Outer Dimensions will open the program with music by Art Dedicck, Sammy Nestico, Frank Mantooth and others. Featured soloists will include Mike Pistone, alto sax, and Karen Winer, piano. The trombone section will perform a special number. A guest soloist will be announced at the concert.

Inner Dimensions will present the second half of the program and will feature music from the libraries of Bob Mintzer, Phil Woods and Gil Evans. Featured soloists will include Tom Snively, alto sax, on the Woods number and Marc Koble, trumpet, on his own version of the Miles Davis/Gil Evans classic "Maidens of Cadiz."

Author to give reading

Noted author David Slavitt will give a fiction reading at 8 p.m. Wednesday, March 28, in Room 112 Walker Building at University Park.

Mr. Slavitt is this year's featured reader in preparation for the Kate Lehman Writing Awards banquet on March 29. He is a judge in the fiction category of the competition.

An associate editor and for the past two years movie editor at *Newsweek*, he has published 30 works of fiction and poetry, nine novels under pseudonyms, two plays and several magazine articles.

A magna cum laude graduate of Yale, he received his master's in English with honors from Columbia University. He has taught, lectured, given poetry readings and led workshops at such institutions as Yale, Harvard, Bennington, American University and the Library of Congress. He has been visiting professor at several universities and is an associate fellow of Trumbull College at Yale.

Mr. Slavitt received the National Endowment for the Arts Fellowship in Translation in 1988 and two Pennsylvania Council on the Arts Individual Artist Fellowships, in 1985 for fiction and in 1987 for poetry.

Percussion ensemble

The Penn State Percussion Ensemble will perform in concert at 12:10 p.m. Thursday, March 29, in Eisenhower Chapel at University Park. The 20-minute concert is part of the spring Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include an arrangement of "Valse Triste" by G. Werdesheim and some traditional Mexican folk songs.

The Percussion Ensemble is a group of eight players, mostly percussion majors in the School of Music. The ensemble is directed by Dan Armstrong of the School of Music faculty.

Exhibit discussion

Michael Tomor, a graduate student in the Department of Art History, will discuss works from two student art competitions of the Accademia di San Luca in Rome at 12:10 p.m. Thursday, March 29, at the Palmer Museum of Art at University Park.

The talk complements the museum's current exhibition "Figurative Drawings of the 17th and 18th Centuries from the Accademia di San Luca in Rome," on view through May 20.

Museum lecture

Warren T. Byrd Jr. will give a talk on American gardens at 8 p.m. Thursday, March 29, at the Palmer Museum of Art at University Park.

The talk complements the museum's current exhibition "Transforming the American Garden," on view through May 13.

Mr. Byrd's work, "Tidal Garden: Eastern Shore of Virginia," is included in "Transforming the American Garden." He is one of the 12 landscape architects whose models of the ideal garden, free from constraints of clients or topography, are represented in the exhibition.

HUB exhibit

Andy Jones, a former Penn State student, is exhibiting his works of art in the HUB Showing Gallery at University Park. The show is titled "Doom and Gloom: Cavalcade of Fears and Facades."

Thematically, his work questions self and structure, exploits universal excess and digression, fingers hypocrisy (and ultimately, the structure of our surroundings, especially in terms of greed, manipulative programming).

Batman's editor to speak

The man who makes sure Batman is armed with perfect grammar, as well as all the right Bat-gear for his battle against crime is coming to University Park.

No, it's not Bruce Wayne's loyal butler, Alfred, but comic book author Dennis O'Neil, who edits Batman's myriad adventures for DC Comics. His public talk, "Superheroes: Yesterday, Today and Tomorrow," will be given at 3 p.m. Friday, March 30, in Room 121 Sparks Building.

Although not associated with Batman as long as Robin, the Boy Wonder, Mr. O'Neil began writing the Caped Crusader's

(Continued on page 7)

University Park Calendar

March 22— April 1 Special Events

Thursday, March 22

Careers in the Visual Arts, 10 a.m., Palmer Museum of Art, Dan Brody.
Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel, Penn State Concert Choir.
Photography Lecture Series, 8 p.m., Rare Books Room, Pattee Library, Audrey Linkman, Documentary Photography Archive, Manchester, England, on "The Itinerant Photographer in 19th Century Britain."
John R. Bracken Lecture Series, 8 p.m., Schwab Aud., A.E. Bye on "Abstracting the Landscape."
German Dept., lecture, 8 p.m., 124 Sparks.
Steven Paul Scher on "List and Literature."

Friday, March 23

Geog. Coffee Hour, 4 p.m., 319 Walker. Chris Justice, NASA Goddard Space Flight Center, on "Remote Sensing Environmental Degradation in Sub-Saharan Africa."
School of Music, 8 p.m., Recital Hall. Philharmonic Concerto Concert.

Saturday, March 24

Shaver's Creek, 9:30 a.m.-5 p.m., Potato Basket Workshop, Call 863-2000.
School of Music, 8 p.m., Recital Hall. Penn State Horn Ensemble.
University Concert Committee, 9 p.m., Eisenhower Aud. Al Di Meola and Stanley Jordan.

Sunday, March 25

Shaver's Creek, 2-4 p.m., Bringing Wildlife to Your Back Yard, Call 863-2000.
Central Pennsylvania Society, American Institute of Archaeology, 2:30 p.m., Palmer Museum of Art. Ross Holloway, Brown Univ., on "Architecture and Politics in Early Greek Sicily."

Carnegie Hall Film Series, 7 p.m., *Balcan* (1943); 9 p.m., *The Forest of Bile* (1987), 4 Carnegie, Free.
Center for the Performing Arts, 8 p.m., Eisenhower Aud. The Academy of St. Martin in the Fields Octet.

Monday, March 26

Comp. Lit. Luncheon, 12:15 p.m., 101 Kern.
Tatiana Tolstaya.
School of Music, 8 p.m., Recital Hall. Trombone Choir/Tuba Euphonium Ensemble.

Tuesday, March 27

Commission for Women, 8:30-11 a.m., Assembly Room, Nittany Lion Inn.
Women's History Month Film Series, 7 p.m., 12 Sparks, Mandala.

Art History Lecture Series, 8 p.m., 112 Walker. Hellmut Lütke, Freie Universität Berlin, on "Domenico Martelli (1650-1718): A Roman Architect in Central Europe."

Wednesday, March 28

Graduate Student Association, blood drive, 10 a.m.-4 p.m., 101 Kern. Appointments, 865-4211.
College of Bus. Admin., teleconference, 2 p.m., Kern Aud. "Europe '92: The Making of People-1992: People, Taxes and Money."

URTC, 5 p.m., 119 Arts Bldg. New Play Workshop #5, through March 30.
Philip Murray Memorial Labor Lecture, 8 p.m., Kern Aud. Thomas Donahue, AFL-CIO secretary-treasurer, on "The AFL-CIO in the 1990s."

Gallery Talk, 8 p.m., Palmer Museum of Art. Barbara Stauffacher Solomon, landscape architect/author, on "Green Architecture."

School of Music, 8 p.m., Recital Hall. Jazz II and III.
Fiction Reading, 8 p.m., 112 Walker. David Slavitt.

Thursday, March 29

Brown Bag Lunch/Lecture, 12:10-12:50 p.m., Palmer Museum of Art. Michael Tomor on "Charles Natoire and Carlo Van Loo at the Accademia Nazionale di San Luca: 1725 and 1728."

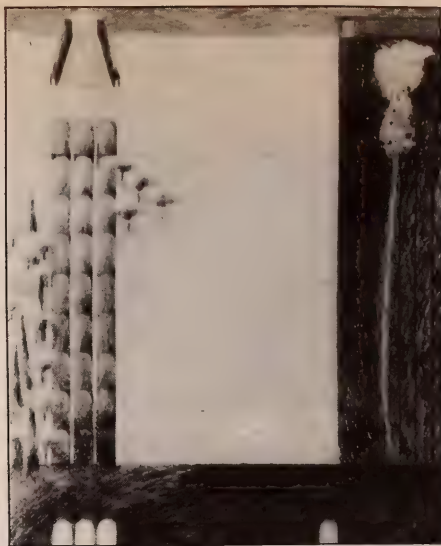

Bach's Lunch, 12:10 p.m., Eisenhower Chapel. Penn State Percussion Ensemble.
Ethics in America, Ethics in Medical Research, videotape presentation and discussion, 3 p.m., Eisenhower Chapel. "Ethics and Harm: The Human Experiment."

Lesbian and Gay Film Festival, 7 p.m., HUB Assembly Room. *Veronica 4 Rose* or *Veronica Loves Rose*.

Center for the Performing Arts, 8 p.m., Eisenhower Aud. Paul Winter Consort.

Friday, March 30

Geog. Coffee Hour, 4 p.m., 319 Walker. Ed Soja, UCLA, on "Taking Geographies Apart: A Critical Reading."

'2 Fields plus 3 Houses equals A Landscape' by Barbara Stauffacher is in the exhibit 'Transforming the American Garden' at the Palmer Museum of Art.

Shaver's Creek, Old Maple Sugar Camp, Grades 5 and 6, 6 p.m.-10 a.m., through March 31. Call 863-2000.

Saturday, March 31

Medieval Agriculture Fair, 1-5 p.m., Intramural Bldg. Also 10 a.m.-3 p.m. April 1. Free.
Shaver's Creek, Woodcock Walk, 5:30-7:30 p.m. Call 863-2000.

Sunday, April 1

Shaver's Creek, 8 a.m.-noon, Pledge A-Bird; 2-4:30 p.m., Digging Massey's Past. Call 863-2000.
School of Music, 3 p.m., Eisenhower Aud. Ned Deihl, Penn State Symphonic Blue Band. Carnegie Hall Film Series, 7 p.m., *China Gate* (1957); 8:45 p.m., *Seventies* (1982), 4 Carnegie, Free.

International Events

Fulbright Informal Lecture

William Pencak, Ogontz Campus, will speak on "Mexican Perspectives on American Foreign Policy: The View from Monterrey" from 4 to 5 p.m. Tuesday, March 27, in 222 Bouckee.

Public Radio

WPSU-FM 91.1

"All Things Considered" Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein. "Perspectives," 6:30 p.m. Wednesdays, with Jeff Balow. "Creative License," 12:30 p.m. Thursdays, with Asa Berlin and Pam Saulnier.

Conferences

Continuing Education

Keller Building

March 26, PC-A Spring Seminar. Bob Intriari, golf professional, chair; Jeri Milson, coordinator.

March 26-27, 16th Annual Northeast Bioengineering Conference. Robert P. Gaumond, associate professor of bioengineering, chair; Donna Ricketts, coordinator.

March 26, Fundamentals of Surface Mining. L. Barry Phelps, associate professor of mining engineering, chair; Barbara Impellitteri, coordinator.

March 27, Pennsylvania Bar Institute: Estate, Financial and Lifetime Care Planning. Jeri Milson, coordinator.

March 28, Dental Seminar. Eric Loop, coordinator.

March 28-31, American Comparative Literature Association. Gerhard F. Strasser, associate professor of German and comparative literature, director; Barbara Impellitteri, coordinator.

March 29, The Football Coach and Sports Medicine. John Bove, instructor in physical education, chair; Kathy Karchner, coordinator.

March 30-31, Medieval and Renaissance Cultures: People of the Plough, Land and Labor in Medieval Europe. Vickie L. Ziegler, associate professor of German, chair; Bill Sterner, coordinator.

March 30-31, Penn State Football Coaches Clinic. John Bove, instructor in physical education, chair; Kathy Karchner, coordinator.

Seminars

Thursday, March 29, 9 a.m., 301 Steidle. W.J. MacKnight, Univ. of Massachusetts, on "Liquid Crystal Polyurethanes: Structure and Properties." Physics Colloquium, 3:30 p.m., SS Osmond Lab. Sally Dawson on "Higgs Boson and Standard Model Physics."

Dr. Ryan

(Continued from page 1)

telecommunications engineering. External funding for the campus increased through grants, annual giving and specialized endowments.

In addition, Dr. Ryan helped to substantially increase community participation in campus development, including the successful revitalization of the Campus Advisory Board.

Before coming to Penn State, Dr. Ryan served as director of the division of continuing studies and associate professor of continuing studies and public and environmental affairs at Indiana University in South Bend.

Prior to that, he served in a number of academic and staff positions at the State University of New York at Buffalo. These included associate director of the Council on Urban and Regional Affairs and coordinator of the Urban Studies Special Major; special assistant to the vice president for student affairs and director of the Office of Off-Campus Housing; and associate director of alumni affairs.

Ecology, 3:45 p.m., 111 Wartik. Charles Yohn on "Seed Predation in Amazonian Forests."

Mechanical Engineering, 4 p.m., 103 Mechanical Engineering. Robert F. Boehm, Univ. of Utah, on "Flow Problems in Porous Media."

Social History Colloquium, 4 p.m., Rare Books Room, Pattee Library. Benjamin Hinnicutt, Univ. of Iowa, on "Free Time and the Right to Work: The New Deal and After."

Monday, March 26

Entomology, 3:45 p.m., 204 Patterson. Nancy Beckage, Univ. of Calif., Riverside, on "Biochemical Strategies of Insect Host-Parasite Interactions."

Tuesday, March 27

Gerontology Colloquium, noon-1 p.m., 101 Health and Human Dev. Bldg. East Jay Sokolovsky, Univ. of Maryland, on "The Community Context of Aging in Yugoslavia: Socialist Organization vs. Cultural Tradition."

History Colloquium, 4 p.m., Memorial Lounge. Eisenhower Chapel. Susan E.M. Shirk, history, on "Pastoral Counselors and the Construction of a Psychology for Women in 1950's America."

Thursday, March 29

Polymer Science, 9 a.m., 301 Steidle. K. Levon, Polytechnic Univ., on "Liquid-Liquid Phase Separation in Thermally Reversible Gels."

Physics Colloquium, 3:30 P.M., SS Osmond Lab. Gabriel Barton, Univ. of Sussex, on "Temperature Dependent Effects in QED."

Ecology, 3:45 p.m., 111 Wartik. Elaine Keihann, Bucknell Univ., on "Algal Production and Herbicides."

Exhibits

Chambers Gallery

School of Visual Arts, Undergraduate Graphic Design and Metals Exhibition, through April 6.

HUB Galleries

Formal Gallery: Dept. of Landscape Architecture, To Design a Monument: Three Design Competitions, through March 25.

Kern Galleries

Graduate Research Exhibition, March 23-24. Selections from the Graduate Research Exhibition, March 30-May 15. The Fresh Revolution, Collections Postcards, April 1-30.

Denise Arieu, Jewellery, April 1-30.

Palmer Museum of Art

Roman Portraits, through April 22. Figurative Drawings of the 17th and 18th Centuries from the Accademia Nazionale di San Luca in Rome, through May 20.

Transforming the American Garden, through May 13.

Zoller Gallery

Undergraduate Juried Exhibition, through March 30.

Graduate programs

(Continued from page 1)

Administration. The University of Michigan's School of Business Administration was the top rated public business school, coming in seventh overall.

The Massachusetts Institute of Technology headed the list for engineering schools, followed by Stanford University. The University of Illinois was the top rated public engineering school and was ranked third.

For business schools, U.S. News rated approximately 100 accredited institutions that enrolled 200 or more full-time MBA candidates. In engineering, 192 accredited schools offering the master's degree and doctoral degrees were included.

The rankings were based on a subjective survey of academic reputation and objective information relating to the institution's selectivity in admissions, graduate rate and job placement for degree-recipients.

Four faculty receive Atherton award for teaching

Four University faculty members have been named recipients of the George W. Atherton Award for Excellence in Teaching. This award, now in its second year, recognizes excellence in undergraduate teaching.

Recipients must have been full-time faculty members for the past three years and teach primarily undergraduate courses.

The winners this year are **Ayoub B. Ayoub**, assistant professor of mathematics at the Ogontz Campus; **James H. Burness**, assistant professor of chemistry at the York Campus; **George W. Franz**, assistant professor of history at the Delaware County Campus, and **Bruce R. Shobaken**, professor of art, University Park.

Dr. Ayoub has been on the faculty of the College of Science since 1983. He received the 1988 Outstanding Teacher Award at the Penn State Ogontz Campus.

According to one former student, Dr. Ayoub "makes math more coherent and enjoyable than any teacher I've had in the past. He calls on some of the quieter students who may be struggling a little with the problems. He very patiently encourages them to think and to speak aloud in class."

Ayoub B. Ayoub

Dr. Ayoub serves on several campus committees, including the Committee for Prevention of Acts of Intolerance and the Student Affairs Committee. He recently was chair of the Campus's United Way campaign, which enjoyed a record year under his leadership. He also has judged numerous science fairs throughout the region.

Dr. Burness, assistant professor of chemistry at the York Campus since 1976, spent the 1983-85 academic years in Munich, where he taught for the University of Maryland's Munich Campus and was a guest researcher at the Inorganic Chemistry Institute of the Technical University of Munich.

Listed in *American Men and Women of Science*, he has published numerous articles in professional journals and has presented a number of papers, at the national and international levels. In 1986, he received the York Campus Annual Teaching Award.

A former student writes, "Dr. Burness was the most dedicated professor I have had throughout my four years of college. He taught me the importance of chemistry, but, more importantly, he taught me to want to learn."

James H. Burness

Dr. Franz, a Delaware County Campus faculty member for 22 years, received the Campus's 1989 Outstanding Teaching Award. In 1972, he developed the first experimental course at a Commonwealth Campus that became a regular catalog course. This course (History 198) eventually evolved into History 150 (Colonial Pennsylvania) and History 200 (American Local History).

Dr. Franz chaired the University Faculty Senate from 1980 to 1981 and the Campus Faculty Senate from 1969 to 1971, and he has served as Delaware County coordinator of the Honors and University Scholars programs for the last 10 years. For the past nine years, Dr. Franz also has been faculty adviser to the Keystone Society, the campus honorary society which recognizes student leadership and involvement in campus and community service.

He says of his teaching philosophy: "I attempt to inculcate in the students an appreciation that their education is a participatory activity and not a spectator sport. By the end of the semester, the students know that they cannot just come into the room and expect to have the material poured into their heads."

George W. Franz

Professor Shobaken, a printmaker and Penn State faculty member since 1958, has been a professor of art for the past 21 years. He has served on numerous University and college committees, most recently on the Core College Committee and the College Screening Committee for Membership in Graduate Faculty.

His prints have appeared in art exhibitions across the country, and he often has served as art juror and visiting artist at other colleges and universities. He initiated the printmaking program in the School of Visual Arts in 1959 and has been responsible for developing many of the printmaking courses.

A former student says, "As a teacher Bruce Shobaken does not settle for meager effort, but is instead a constant force of encouragement for the hard work needed for one to develop as an artist. His criticism comes out of a lifetime of acquired understanding and experience. He lives by his convictions."

Announcements of faculty and staff awards will appear in upcoming issues of Intercom.

Bruce R. Shobaken

Obituaries

Edward Sichi Jr., associate professor of English at Penn State McKeesport since Sept. 1, 1969, died March 7 at the age of 48.

Dr. Sichi is widely published, particularly on John Milton. *Milton's Legacy in the Arts*, a volume he co-edited, has been nominated by the Milton Society as the best 1988 work on that author. Other publications include works on authors Spenser, Shakespeare, Donne and Dryden.

Donald E. Hardenbergh, professor emeritus of engineering mechanics, died March 4. He was 72.

Mr. Hardenbergh, a 1939 graduate of Penn State with a bachelor of science degree in civil engineering, came to University Park as an instructor in the Department of Civil Engineering and soon after transferred to Engineering Mechanics. In 1946, he received his master of science degree in engineering mechanics and was appointed an assistant professor in that department.

During his career at Penn State, Mr. Hardenbergh taught courses for the departments of Physics, Mathematics, Civil Engineering and Engineering Science and Mechanics.

He was the author of a textbook, *Introduction to Dynamics*, and co-author of another textbook, *Introduction to Statics* which serves as a text for the first course in Dynamics for engineering students.

From 1956 to 1980, Mr. Hardenbergh directed research on a project design for the U.S. Atomic Energy Commission, testing

stresses at nozzle connections in pressure vessels. He retired in 1976.

Geraldine A. Pavone, food service worker, Housing and Food Services, from Sept. 20, 1972, until her retirement June 15, 1984, died March 12. She was 68.

Robert F. Dreibeis, agronomy technician, College of Agriculture, from Feb. 16, 1950, until his retirement Jan. 1, 1985, died March 7 at the age of 61.

News in Brief

Blood drive

On Wednesday, March 28, the Graduate Student Association will sponsor a blood drive from 10 a.m. to 4 p.m. in Room 101 Kern Building at University Park.

You can make an appointment for a specific time by stopping by 111B Kern, or calling the GSA at 865-4211.

Consumer panelists needed

Subjects are sought for a Home Use Test for reduced calorie cheese substitute products which contain no cholesterol and no lactose. Participants will be paid \$5. If interested, contact Ruth Hollender or Lisa Mamana at 863-2971 between 10 a.m. and 2 p.m.

Roundtable series

France Cordova, head of the Department of Astronomy, will lead a luncheon roundtable sponsored by the Penn State Chapter of the National

Association of Science Writers at 11:45 a.m. Wednesday, March 28, in Room 313 Kern Building at University Park.

Dr. Cordova, who joined the University faculty last year, will lead a discussion of "Science Coverage in the Local Media."

The Penn State Chapter of the National Association of Science Writers meets for lunch and discussion on the last Wednesday of each month. The brown bag lunchtime roundtable series is open to anyone interested in science communication.

Humanities project

Pennsylvania College of Technology has been selected as one of 25 colleges nationwide to participate in the second year of the American Association of Community and Junior College's "Advancing the Humanities" project. Funded by the National Endowment for the Humanities, the project is designed

to strengthen humanities programs at community, technical, and junior colleges.

Lecture scheduled

Henrik Galbo, associate professor in the Institute of Medical Physiology-B of the Panum Institute in Copenhagen, Denmark, will present a lecture on "Hormonal and Metabolic Adaptations to Exercise" at 11:15 a.m. Friday, April 6, in 121 Noll Laboratory at University Park.

Dr. Galbo, an internationally recognized expert on hormone regulation of metabolism during exercise, received his medical degree as well as the doctor of medical sciences degree from the University of Copenhagen, Denmark. He has conducted extensive studies on how the body attempts to meet the increased requirements for carbohydrates during exercise.

DuBois grant

The Penn State DuBois Campus has received a Title III grant from the federal government. The first-year funding of \$132,000 principally was used to provide a modern, highly versatile computer classroom.

"We're very proud of the work that has been done by our campus faculty and staff," Jacqueline Schoch, campus executive officer, said.

"This was the third year we had applied for such a grant, and with each previous unsuccessful application, we learned more about the process. We applied what we learned each year to assemble this successful application. DuBois was the only campus in the Penn State system to receive a Title III grant this year."

With the grant money, Room 103 Swift Building, an auditorium-type room, has been transformed into an interactive computer classroom.

Pollock Road to be closed for traffic impact study

As part of an impact study of traffic, Penn State will close Pollock Road between Fraser Road and Schwab Auditorium, starting March 20 until the end of the spring semester.

"The conflict between vehicles and pedestrians on Pollock Road is extremely heavy during class changes," says David E. Stormer, assistant vice president for safety services.

"Currently, the pedestrian conflict occurs from Willard Building to Boucke Building, but we expect it to extend to Shortlidge, with the addition of a new classroom building at the intersection of Pollock and Shortlidge."

The study will measure traffic volumes and trips to determine the primary impact of displaced traffic on alternate streets such as Curtin and Burrowes roads and Park and College avenues.

All parking lots will be accessible, however, users of certain lots may have to change their entry routes. People using Yellow H and Brown D and H lots must enter from Shortlidge road; people using Green E and Brown A must come by Burrowes Road.

Appropriate warning signs will be in place at the intersections of Pollock and Shortlidge, and Pollock and Burrowes.

"This study will help us determine if a permanent closing is feasible," Mr. Stormer notes.

Pedestrian and vehicle traffic greatly increases on Pollock Road at University Park when classes change. (Photo: Scott Johnson)

Faculty/Staff Alerts

Courses for faculty and staff

The Human Resource Development Center has openings in the following courses being offered in March and April. Call the center at 865-3410 for registration information.

Defensive Driving The National Safety Council's Defensive Driving Course is designed to help you save your time, money, and life; meets from 9 a.m. to noon Thursday, March 29; cost: \$35.

Managing Cultural Diversity Practice decision-making related to cultural diversity, and challenge and develop your managerial skills; from 9 a.m. to 4 p.m. Friday, March 30; cost: none.

Acquiring Staff Diversity: "Why and How" Six national leaders in higher education will describe the kinds of strategies necessary to recruit and retain faculty and staff diversity in a live

interactive teleconference in Room 106 Mitchell Building from noon to 1:30 p.m. Friday, March 30; cost: none.

Affirmative Action Learn about the University's affirmative action goals and objectives and our commitment to equal opportunity for all; meets from 1:15 to 4:30 p.m. Monday, April 2; cost: none.

Report Writing Designed to give administrators, managers, and other professional employees practical instruction in the fundamentals of report writing, including preparation and organization; meets from 9:30 a.m. to noon every

Tuesday and Friday, for eight sessions, beginning April 3; cost: \$95.

Telephone Techniques Designed to help you turn your office telephone into one of your most effective business tools; meets from 1:15 to 4:30 p.m. Tuesday, April 3; cost: none.

Conflict Resolution Focus is on theories of anger, different reactions to anger, and implementation of techniques and skills to use in conflict resolution; meets from 9 a.m. to 4 p.m. Wednesday, April 11; cost: \$55.

Focus on the arts

(Continued from page 4)

adventures in the late 1960s. A former crime reporter, he is credited with returning Batman to his detective roots at a time when the character's popularity was waning.

Lately, he has overseen many landmark series, including a retelling of Batman's first year in costume, and a controversial tale in which the second Robin died following a phone-in reader's poll.

Mr. O'Neil's visit is hosted by the School of Communications and arranged by faculty members William Uricchio and Roberta Pearson, associate and assistant professors of communications and film/video, respectively. They have edited a book of essays on Batman's comic book, television, and movie incarnations to be published this fall by Routledge in the United States and the British Film Institute in the United Kingdom.

Women's Studies

For National Women's History Month during March, the Penn State Bookstore on Campus is displaying more than 300 books written by and about women and the issues facing society today in regard to the women's movement.

In honor of the "51% Minority," the Bookstore has assembled a large collection of books, from novels to social commentary, politics, nature, the arts, poetry, psychology, philosophy, science, books for children and others relating to women's studies.

Pawl Winter Consort

The Paul Winter Consort will present its unique combination of rhythms and natural

themes at 8 p.m. Thursday, March 29, in Eisenhower Auditorium at University Park. Their special sound contains musical influences, ranging from classical chamber melody to sophisticated "new age" jazz, from humpback whale songs to timber wolf howls.

The program for the evening will be a potpourri of consort compositions from past albums such as "Earth Beat," "Canyon," and the innovative "Whales Alive," as well as several selections from Winter's latest - "Earth, Voices of a Planet."

Members of the consort include: Paul Halley, renowned piano and pipe organ player; cellist Eugene Friesen, who just released his second album called "Arms Around You"; percussionist Glen Velez, who plays a variety of hand instruments; and flutist Rhonda Larson, who recently won a national award from the Flute Association.

As part of the Artistic Viewpoint lecture series, Julian Thayer, jazz musician and professor of psychology, will discuss Winter's unique music at 7 p.m. March 29 in the Greenroom of Eisenhower Auditorium.

Pottery exhibit

An exhibit of pottery by Pat Wolfe is on display until March 27 at the Art Alley Cases on the first floor of the Hetzel Union Building at University Park.

Over the past 20 years, clay work has become a meaningful channel for self-expression, as well as a serene and "centering" influence upon the life of Ms. Wolfe. She tries to reflect in her work a combining of form and function, with a reflection of earth colors and tone in the glazes applied.

Greek architecture

R. Ross Holloway, professor of central Mediterranean archaeology at Brown University, will give the lecture "Architecture and Politics in Early Greek Sicily" at 2:30 p.m. Sunday, March 25, at the Palmer Museum of Art at University Park.

Dr. Holloway's lecture will address the panorama of Greek politics and temple building in Greek Sicily. The lecture is the Norton Lecture of the Archaeological Institute of America and is sponsored by the Central Pennsylvania Society of the Archaeological Institute of America. It is co-sponsored by the Institute for the Arts and Humanistic Studies and the College of the Liberal Arts.

Octet to perform

The Academy of St. Martin in the Fields Octet will play three rarely heard chamber pieces at 8 p.m. Sunday, March 25, in

Eisenhower Auditorium at University Park. Dubbed a "chip off the old block" by the Washington Post, the Academy of St. Martin in the Fields Octet continues the orchestra's exciting and polished performances.

The Academy Octet repertoire includes classical and contemporary chamber works for six and eight instruments. The program for the March 25 concert will be Brahms' Sextet in G-Major, Opus 36; Shostakovich's Prelude and Scherzo, Opus 11; and Mendelssohn's Octet for Strings in E-Major.

The string ensemble consists of: Kenneth Sillito, Malcolm Latchem, Josef Frohlich, Robert Heard, violins; Robert Smisen, Stephen Tees, violas; and Stephen Orton and Roger Smith, cellos.

As a part of Artistic Viewpoints lecture series, Taylor Greer, assistant professor of music, will provide background on the pieces and the composers at 7 p.m. in the Greenroom in Eisenhower Auditorium.

The arts at...

Penn State Harrisburg

Student artwork from the Drokia region of Moldavia in the Soviet Union is being featured in the Humanities Gallery of Penn State Harrisburg until March 30.

The mostly realistic art work was created by students between the ages of 10 and 17 who are enrolled in special programs for the artistically gifted. There are 22 works, mostly done in watercolor or tempera paint, on exhibit.

Penn College

The ultimate pop musician-pianist, arranger and composer Peter Nero will perform at 8 p.m. Saturday, April 7, in the Capitol Theatre, Williamsport. His performance is being sponsored by Pennsylvania College of Technology.

Tickets are on sale at the Capitol Theatre Box Office. For further information, call (717) 326-2424.

Staff position evaluation open forums attract 1,960

More than 1,900 persons attended 29 open forums on designing a new staff position evaluation and compensation program (SPEC) for clerical, staff exempt and staff nonexempt positions.

The open meetings, which were completed March 16, were held at all locations of the Commonwealth Educational System, Penn State Harrisburg, Penn State Erie, Hershey Medical Center and University Park.

The agenda included a slide presentation which outlined the project phases, work plan and projected end results. The majority of time given to the session was dedicated to an open discussion for staff to provide comments, opinions and suggestions, and to ask questions on the subject of position evaluation and compensation and the SPEC program in general.

A total of 1,960 individuals attended at all locations, which is 27 percent of the total group of clerical, staff exempt and staff nonexempt members of the University.

Meetings were scheduled and conducted by the Office of Human Resources and the Project Team working on the development of the Staff Position Evaluation and Compensation Project. Rachel Miller, manager of salary administration, attended

each session along with members of the Classification/Evaluation System Review Committee, a committee of faculty and staff charged with monitoring the progress of the project.

"The open forums were spirited, dynamic and creative, with staff members presenting comments and ideas in a positive manner," Ms. Miller said.

They laid the groundwork for the theme of participation, involvement and

open communication which is a major goal of the Staff Position Evaluation and Compensation Program."

At each session, participants were asked to document ideas, comments and suggestions in writing so a record would exist for review by the Project Team and consultants from Mercer Meidinger Hansen. To date 650 responses have been received by the Project Team.

"The responses are photocopied and are

forwarded in their original form to the consultant for their attention," Bill Walsh, director of salary administration and benefits and chair of the Classification/Evaluation System Review Committee, said. "We do not want any of the thoughts or opinions screened or edited. All responses are being thoughtfully considered. Many of them will be incorporated into the design of the new position evaluation and compensation program."

"The subjects covered in the questionnaire responses mirror the discussions held during the open forums," Ms. Miller added. "Themes and concerns such as pay for performance, and/or longevity, geographic salary differentials, measuring jobs that are generalized in nature versus specialized in nature, the need for more grades and the need for more communication on the compensation programs appear to be expressed more than other subjects."

During the meetings, the Project Team cited an earlier commitment that feedback will be provided to the University staff on the issues and opinions identified. A future edition of *Intercom* will include a complete summary of the issues identified during the open forums and from the questionnaire responses.

Draft report on space planning developed

The staff of the Office of Facilities Resources Management has developed a draft report on space and facilities planning at the University Park Campus.

James R. Dungan is director of Facilities Resources Management. Members of the Facilities Resources Committee (FRC) are William C. Richardson, executive vice president and provost of the University, who serves as committee chair; Steve A. Garban, senior vice president for finance and operations and treasurer; Charles L. Hosler, senior vice president for research and dean of the Graduate School; Richard E. Grubb, senior vice president and dean of the Commonwealth Educational System, and James M. Wagner, vice president for

business and operations.

The draft report has been forwarded to the Council of Academic Deans and to the President's Faculty Advisory Committee for their input.

It has been made available as well to the University Faculty Senate Committee on Academic and Physical Planning and will be discussed at the committee's meeting Tuesday, March 20. Dr. Dungan also has met with the student group that advises the FRC.

The report also is expected to be presented to the Board of Trustees Committee on Physical Plant at its May meeting.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in promotion MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304.

NETWORK LINE 433-0304. Applications for these staff vacancies will be accepted until March 29. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment Practices (FEP-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

* **Associate Director of Undergraduate Admissions, Undergraduate Admissions Office, Division of Undergraduate Education, University Park Campus** - Responsible to the director of undergraduate admissions for the coordination, planning, and management of a major admissions function relating to admissions' system and recruitment activities. Requires master's degree, or equivalent, plus two to three years of effective experience, or bachelor's degree, or equivalent, plus four to five years of effective experience in the administration of higher education. Must have strong oral and written communication and interpersonal skills, complete understanding of the role of volunteers in recruitment, strong organizational skills, and supervisory experience. TRAVEL TO VARIOUS UNIVERSITIES. LOCATIONS IS REQUIRED. STAFF GRADE 8.

* **Microcomputer Systems Consultant, Center for Academic Computing, Computer and**

Information Systems, University Park Campus - Responsible to the manager of Microcomputer and Personal Workstation Support for providing consultative support services regarding the selection, installation and implementation of microcomputer systems. Requires bachelor's degree, or equivalent, in computer science, electrical engineering or related fields, and one to two years of effective experience. In-depth knowledge of high-level, assembler and/or application programming languages also required. Excellent verbal and written communication skills, including the ability to communicate technical information to non-technical audiences, and demonstrated organizational abilities are essential. STAFF GRADE 6.

* **Assistant to the Dean, Office of the Dean, College of Engineering, University Park Campus** - Responsible to the dean for researching, analyzing, writing, and editing various reports, studies, proposals and planning documents. Follow trends, maintain information and data, prepare written or statistical reports, plan and supervise data development and preparation of special analyses, research and proposals. Requires bachelor's degree, or equivalent, with two to three years of effective experience and knowledge of proposal preparation, statistical techniques as well as analytical writing skills. STAFF GRADE 7.

* **Executive Director of Development, University Development, Division of Development and University Relations, University Park Campus** - Responsible to the associate vice president for development and university relations for the overall management and direction of constituent development staff and prospect management systems. Requires bachelor's degree, or equivalent, plus seven to 10 years of successful university experience in a development setting. Proven performance in fund-raising, good organizational, writing and speaking skills and a strong background

in administrative leadership are essential ingredients for the candidate. STAFF GRADE 10.

* **Assistant Women's Field Hockey Coach, Intercollegiate Athletics, University Park Campus** - Responsible for assisting with coaching the Intercollegiate Field Hockey program and for scheduling contacts; planning, organizing, and conducting recruiting campaigns; coordinating game and tournament arrangements; and assisting in conducting clinics and workshops. Requires bachelor's degree, or equivalent, plus one to one year of effective coaching experience in field hockey competition at the national level. Division I college level experience preferred. This is a 12-month standing position. STAFF GRADE 5.

* **Assistant Business Operations Analyst, Budget and Financial Operations, Commonwealth Educational System, University Park Campus** - Responsible to the assistant director for assisting in data analysis for planning, operational review, and policy studies and in the development and analysis of workload and financial indicators. Requires bachelor's degree, or equivalent, in business administration, finance, economics, statistics or related field with operational knowledge of business statistical analysis software, plus one to two years of effective experience. Experience in research data retrieval and analysis and report writing is preferred. STAFF GRADE 6.

* **Coordinator, Support Center, Management Systems, Commonwealth Educational System, University Park Campus** - Responsible to the assistant director, Management Systems, for the development and delivery of training and assistance to support CES administrative system users of Management Systems software tools and data. Provide technical and administrative direction to the development of standards and procedures within the Support Center. Requires bachelor's degree, or

equivalent, in computer science or related field, plus two to four years of effective experience involving both data processing and training activities. STAFF GRADE 7.

* **Surgical Technician, Nursing/OR, University Hospital, Hershey Medical Center** - Responsible to the RN circulating nurse/nurse manager for providing a sterile patient care operating room setting, for equipment and instrumentation set-up and operation, and providing surgical assistance during the operating room procedure. Requires graduate of an approved school of surgical technology with up to and including 12 months of effective experience. STAFF GRADE 3.

* **Nursing Manager, Nursing Administration, College of Medicine, Hershey Medical Center** - Responsible to the assistant hospital director/director of nursing services or the assistant director of nursing services as designated for the operation of the patient care unit. Requires a bachelor of science degree in nursing, or equivalent, plus three to four years of effective experience and licensed to practice as a registered nurse by the Pennsylvania State Board of Nursing. STAFF GRADE 7.

* **Coordinator, Campus Residential Life, Student Programs and Services, Altoona Campus** - Assist supervisor in determining policies and procedures for the supervision and coordination of the residence hall area. Conduct discipline hearings and issue sanctions for minor violations of the student code. Inquire on going communications with supervisor in the Office of Conduct Standards. Oversee the daily organization and operation of the residence hall area and staff. Requires bachelor's degree, or equivalent, plus at least one to two years of effective experience or a master's degree, or equivalent, in student personnel or related field with three to six months residence hall experience. This is a continuous 10-month live-in position. STAFF GRADE 6.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

By the University Faculty Senate

Diversity requirement approved

The University Faculty Senate approved legislation mandating a cultural diversity requirement for undergraduate students at all University locations at its March 20 meeting.

William C. Richardson, executive vice president and provost of the University, told the senators he and President Jordan wholeheartedly support the Senate's efforts to integrate cultural diversity into the curriculum.

"While I had hoped that it might be feasible to implement the requirement for freshmen entering this coming academic year, the realities of implementation suggest that we implement it for freshmen entering the 1991-92 academic year," he said.

The Senate legislation will require all baccalaureate degree students to take either three credits of "diversity" courses or 12 credits of "diversity enhanced" courses. All associate degree students would be required to take either three credits of "diversity" courses or six credits of "diversity enhanced" courses. Courses which would satisfy the "diversity" requirement must focus on race, ethnicity, religion, gender, sexual orientation and/or global perspectives. "Diversity enhanced" courses would devote at least 25 percent of the time to these issues.

Students will be able to meet the requirement by taking the "diversity" or "diversity enhanced" credits in their major, minor, elective or general education courses. The

requirement should not increase a student's credit load.

The cultural diversity requirement was proposed by the Senate Committee on Undergraduate Instruction and was discussed at the Feb. 20 Senate meeting. In addition, students, faculty and staff members University-wide participated in a live teleconference on the cultural diversity requirement on March 12.

The University already offers a variety of general education courses which could satisfy the new cultural diversity requirement. The Undergraduate Instruction Committee has identified 49 courses listed in the breadth category of the "General Education" booklet which give substantial consideration to diversity topics.

Other existing courses may be revised to reflect the contributions of people of other cultures, and new courses may be developed in the future.

The Senate Committee on Academic and Physical Planning, which did a cost analysis for implementing the cultural diversity requirement, recommended that 15 curriculum development programs per year be offered at University Park and other campus locations to assist faculty in curriculum revision activities.

The committee, working from some broad assumptions, projects that from \$1 million to \$4.2 million will be needed University-wide to support the development and offering of "diversity" and "diversity enhanced" courses, G.

Gregory Lozier, committee member, said.

Some of the additional funds would be used for a half-time curriculum development coordinator in the Office of the Dean for Undergraduate Education and for release time for faculty members who would serve as resource personnel and program leaders.

During the debate on the proposal, which lasted one hour and 15 minutes, three amendments were offered.

One submitted by Ronald P. Danney, engineering senator, would have changed the amount of time devoted to diversity issues in "diversity enhanced" courses from one-fourth to one-third, thereby reducing the requirement for "diversity enhanced" courses from 12 to nine credits. It also took a credits, rather than courses, approach to the requirement, leaving room for the development of one- and two-credit "diversity" courses.

The amendment, which received support during the debate from other College of Engineering faculty members, was defeated 71-60. Peter C. Jurs, science senator, re-introduced the amendment, changing the requirement from nine to 12 credits. This amendment passed.

A third amendment offered by Jovita M. Ross, education senator, would have included the categories of "language minority" and "differently abled" among the topics considered part of the "diversity" requirement. It failed.

Faculty Senate approves tenure clock legislation

Tenure-eligible faculty members will have the option of requesting a temporary stopping of the tenure clock to deal with special circumstances, following passage of legislation by the University Faculty Senate 20.

A proposal by the Senate Committee on Faculty Affairs was approved for inclusion in PS-23, the promotion and tenure policy. The new guidelines, which will be developed by the University administration, will permit a special exemption to be granted for one academic year. During that period, a faculty member would not be evaluated for tenure, and the year would not count toward tenure eligibility.

Examples of circumstances which would be considered for stopping the tenure clock are birth or adoption of a child, serious personal illness or seriously ill family member requiring care.

A written request would be made to executive vice president and provost. At the end of the one-year period, the faculty member would continue on the tenure track.

The proposal was first recommended by the Strategic Study Group on the Status of Women. The University Child Care Task Force recently recommended that a similar

policy be adopted.

In other action,

the Senate Committee on External Affairs presented an advisory and consultative report proposing the appointment of a task force to study the feasibility of creating and applying an economic impact model for Pennsylvania. The proposal was approved.

The committee's report notes that many state universities provide impact assessment services for their states. If Penn State developed such a model, it could assist local and state governments, planning/development agencies, businesses and environmental groups, while also fulfilling its service mission.

The Committee on Faculty Affairs presented a five-part annual affirmative action report from the Campus Environment Team, Affirmative Action Office, Commission on Racial/Ethnic Diversity, Commission for Women and Search Committee for Vice Provost for Underrepresented Groups.

The Committee on Libraries presented an update on the University Libraries from Nancy Cline, dean, University Libraries.

Dean Cline noted that in 1988-89 more than 2.6 million patrons used the University Libraries at University Park, enough to fill Beaver Stadium 31 times. Yet the Libraries have only 45 volumes per full-time equivalent student, spend \$76 on library materials per FTE student and have an FTE student/librarian ratio of \$90 to 1. In addition, facilities can seat only 0.6 percent of the University population, compared with a national average of 20 to 30 percent.

The Committee on Committees and Rules presented three proposals dealing with Senate subcommittees, which were approved. A fourth proposal on including senior lecturers and lecturers in the Senate electorate also was passed.

The University Writing Subcommittee was made a standing committee within the Committee on Curricular Affairs, and Curricular Affairs was given oversight responsibility for the writing and general education subcommittees. In addition, the vice provost and dean for undergraduate education was made a member of the Committee on Commonwealth/Continuing Education.

Two Alumni Fellows are scheduled to visit University

Edivaldo Machado Boaventura, professor of educational administration, Federal University of Bahia, Brazil, and John H. Stanford, director of plans and resources, U.S. Transportation Command, Scott Air Force Base, Belleville, Ill., will visit the University as Alumni Fellows in April.

Dr. Boaventura will visit the College of Education April 2 to 5, and Maj. Gen. Stanford will visit the College of the Liberal Arts April 3 to 6.

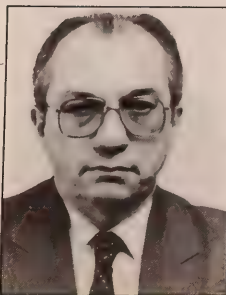

The Alumni Fellow award, presented by the Penn State Alumni Association, is the most prestigious of the association's awards. It is administered in cooperation with the colleges. The Board of Trustees has designated the Alumni Fellow title as permanent and lifelong.

Dr. Boaventura, a resident of Salvador, Bahia, Brazil, received his bachelor's degree in law and social science from the Universidade Federal da Bahia and his

master's (1980) and doctorate (1981) in advanced study in educational administration from Penn State.

A member and past president of the Bahia chapter of the Partners of Americas, he was instrumental in establishing links with Pennsylvania as a sister State. He also is a member and former president of the organizing board of the Brazilian National Eucharistic Congress and vice president of the French-Brazilian Cultural Center, Alliance Francaise, Bahia.

Maj. Gen. Stanford, a native of Yendon, Pa., received his bachelor's degree in political science from Penn State (1961) and master's degree in personnel management and administration from Central Michigan University (1975). Previously, he was commanding general of the U.S. Army Military Traffic Management Command in Falls Church, Va.

Edivaldo M. Boaventura

John H. Stanford

Focus on Diversity

Women's Studies Program celebrates 10th anniversary

The 1980-90 academic year marks the 10th anniversary of the Women's Studies Program. To highlight this milestone, the week of April 2 to 6 has been designated Women's Studies Week.

Women's Studies Week events began Monday, April 2, with a dinner at the Atherton Hilton. Marian U. Coppersmith, president, The Barash Group, and vice chairperson, University Board of Trustees, will be the keynote speaker.

In addition to her continued support of the Women's Studies Program, the Mimi Barash Coppersmith Endowed Scholarship in Women's Studies has been created to honor Mrs. Coppersmith. The purpose of this scholarship will be to provide

recognition and financial assistance to outstanding students in the College of the Liberal Arts who are minoring in women's studies.

A Celebration of Global Feminism will be held at 7 p.m. Tuesday, April 3, in the HUB Gallery at University Park. It will provide an opportunity to celebrate the achievements of women from around the world, including South Africa, Greece, Puerto Rico, Chile, Nicaragua and Ghana, through poetry readings, music and dance.

On Wednesday, April 4, a speakout on contemporary issues facing women will be held at 7 p.m. in the Living Center, Henderson Human Development. Scheduled speakers and topics include:

Phyllis Mansfield, associate professor, health education and women's studies, on critical issues in women's health; Donna Hughes, lecturer, women's studies, and co-facilitator of a Sexual Assault Survival Group, Centre County Women's Resource Center, on battering within relationships; and Alnisa Allgood, educational co-director, Lesbian and Gay Student Alliance.

The final lecture of the 1989-90 Six Feminist Scholars Lecture Series will be held at 8 p.m. Thursday, April 5, in the HUB Gallery. Margaret Rossiter will speak on "Women Scientists: 1940-70." In addition to being a Rockefeller Foundation Fellow, professor of history of science and faculty associate, Science, Technology and Society Program at Cornell University, she is the recent recipient of the MacArthur Award and the author of several books. The lecture is co-sponsored by the departments of History and Health Education, colleges of Science, Engineering and the Liberal Arts, Institute for the Arts and Humanistic Studies and the Center for Women Studies.

Women's Studies Week concludes on Friday, April 6, with the eighth annual Women's Studies Student/Faculty Colloquium Day devoted to gender-related research interests. Among the scheduled papers to be presented are: "Women's Roles

Marian U. Coppersmith

and Education in Rural Guatemala," "The Portrayal of Women in Fairy Tales" and "The Search for the Self in Non-Western Women's Writing." The conference will be held from 9:30 a.m. to 4:30 p.m. in 305 HUB.

All events, except the dinner, are free to the public.

For more information, contact the Women's Studies office, 13 Sparks Building, 863-4025.

Women's studies conference is scheduled

The eighth annual Women's Studies Student/Faculty Conference will be held from 9 a.m. to 4:30 p.m. Friday, April 6, in 305 Hetzel Union Building at University Park.

The conference offers students and faculty members an opportunity to share their research on gender-related topics with the University community.

Some of the topics to be discussed include the portrayal of women in fairy

tales, mother/daughter perceptions of women's roles, women's roles and education in Guatemala, gender differences among the Kalahari !Kung, Margaret Thatcher's rhetoric, as well as studies of women in literature.

The daylong conference will include two roundtable discussions: at 11:30 a.m. on women and science and at 3:30 p.m. on "The Search for the Self in Non-Western Women's Writings."

Women of Color sponsoring panel

A panel on Asian Pacific American issues will be held at 7:30 p.m. Thursday, April 5, in 305 HUB at University Park.

Speakers will be Tommy Woon, assistant dean of student support services and director of Asian American affairs at Oberlin College, Ohio, and Caroline Chang, Region I manager of the Department of Health and Human Services, Office for Civil Rights in Boston.

The sponsor is the Central Pennsylvania Women of Color, with funding from Penn State's Equal Opportunity Planning Committee.

Mr. Woon will speak on "Deconstructing the Model Minority Myth." A consultant in race awareness training, he is a professional counselor and has taught courses in Asian American studies, counseling and interpersonal communications.

He has a bachelor's degree from University of California at Davis and a master's degree from California State University at Sacramento.

Ms. Chang started with the U.S. Department of Health and Human Services' Office for Civil Rights as a civil rights investigator and later became region I manager in 1982. Prior to that, she was the first manager of Boston's Chinatown Little

Caroline Chang

City Hall, where she helped develop community service organizations.

Her activities include serving as a board member of the Asian Community Development Corporation and of the National Institute for Women of Color. She has a bachelor's degree from Boston University and a J.D. degree from Suffolk University Law School.

Schedule for Spring Holy Days

The following information on Spring Holy Days has been provided by the Office of Religious Affairs:

Ramadan: The month-long celebration of Ramadan is one of the central holidays in the Muslim faith. During this whole month, it is obligatory for every Muslim (with a few exceptions) to fast from the first light of dawn until sunset. The purpose of the fast is to generate and foster one's spiritual and moral consciousness, and one's commitment to obey the Divine law. This celebration takes place during the ninth month of the Muslim calendar (lunar), that time when the revelation of the Qur'an began, and concludes with the festival of the Eid ul-Fitr. This year Ramadan will begin on March 25 or 26.

Holy Weeks: Holy Week is observed in the Christian faith. It begins 40 days after Ash Wednesday on Palm Sunday, the day which marks Jesus' entry into Jerusalem during the last week of his life. Maundy Thursday marks the night of the Last

Supper and betrayal of Jesus by Judas. Good Friday commemorates the crucifixion. Holy Week culminates with the celebration of Jesus' resurrection on Easter Sunday. This year Holy Week begins on April 8.

Passover: The eight-day Jewish festival of Passover commemorates the exodus of the ancient Israelites from Egypt. Its name is derived from the passing over or sparing of the houses of the children of Israel during the plague of the first-born (book of Exodus 12:13). The festival begins with the celebration of the ritual Seder meal, the most important home ceremony in the liturgical year. This year Passover begins on April 9 at sundown.

Ridvan: Ridvan is celebrated in the Baha'i faith which originated in the mid-19th century. It marks the date when Baha'u'llah declared himself to be the "prophet-whowas-to-come" of whom Bab-ul-Din had spoken. It is after this prophet that the Baha'i faith is named. This year Ridvan is April 21.

Mitch Walking Elk

The Native American Indian Student Association is sponsoring Mitch Walking Elk in concert at 7:30 p.m. Friday, March 30, in the Hetzel Union Building Fishbowl at University Park.

Musician Mitch Walking Elk is famous for songs that identify with the Indians' struggle to keep their spiritual and religious traditions while living in a world of conflicting values. He combines Indian, country, rock and blues in his albums "Dreamer" and "Indians."

Descendant from the Cheyenne, Hopi, Arapaho and Choctaw tribes, Elk relates to the difficulty many Indians have living in two worlds. As a troubled teenager, Elk's lyrics send messages of hope to help other Indian people.

Walking Elk has performed with Michael Johnson, Leo Kottke and Ritchie Davis and has shared the stage with Kris Kristofferson and Angela Davis. The concert is free and open to the public.

Diversity Calendar

Monday, April 2

Human Resources Development Courses, 1:15 p.m. to 4:30 p.m., Rider Building. Course on affirmative action. No cost.

Tuesday, April 3

Women Studies, 7 p.m., HUB Gallery. Women's Studies Week open "Speak Out" discussion.

Project Growth, 8 p.m., HUB Ballroom. Informative discussion about Passover.

Wednesday, April 4

Paul Robeson Cultural Center, 7 p.m., Paul Robeson Cultural Center Conference Room. A 22nd Annual Black Arts Festival Invention Film and Discussion program. Film to be announced.

Lesbian Gay Student Alliance, 7 p.m., HUB Gallery Lounge, Lesbian and Gay Film Festival film titled, "Labor More Than Once."

Thursday, April 5

Women Studies, 8 p.m., HUB Gallery. Lecture titled, "Women Scientists: 1940-1970."

'Touch of Africa'

Penn State African students will sponsor "Touch of Africa," an annual celebration featuring African food and a live band with African music, from 5:30 p.m. to midnight Friday, April 7, in the HUB Ballroom at University Park. The cost of \$9 for adults and \$4 for children under 12 also includes dances and a fashion show. Tickets are on sale in the Paul Robeson Cultural Center.

This year's president of Penn State African students is Dekote Woods of Liberia. Salif of Niger is secretary; Peter Gitau Kimani of Kenya is treasurer; and Maurice Mangoli of Kenya is serving as public relations officer.

For more information about African Student activities, contact Maurice Mangoli at (814) 865-3776.

Women's Alliance

Corene Johnston, a nurse practitioner with Family Health Services Inc., will discuss "You, Me, and Tina Turner: A Look at Women's Health Issues" at a meeting of the Women's Alliance at 4:30 p.m. Wednesday, April 4, in the community room of Schlow Library, State College.

Her presentation will include a consideration of nutrition and exercise, sexuality, menopause, osteoporosis, and the politics of women's health care.

The Women's Alliance provides opportunities for community and campus-affiliated women to meet on a regular basis for discussion, networking, and advocacy activities.

For further information, contact Deborah Klevans, 865-6769.

Wilkes-Barre Center for Technology to be dedicated

President Jordan will be the special guest at the Penn State Wilkes-Barre Campus Thursday, April 5, for the dedication of the new Center for Technology in the Bell Atlantic/Bell of PA building.

The campus is planning a three-day series of events April 5, 6 and 7 to celebrate the dedication, including a symposium on the relationship of Science, Technology and Society, a Science Fair for high school students, and an address by futurist and author, Marvin J. Cetron.

Among the featured speakers will be Dr. Rustum Roy, director of the Science, Technology and Society SIS program at Penn State, and representatives of the

College of Engineering, including Joseph DiGregorio, associate dean; Wayne Hager, department head; George McMurtry, associate dean; and William Welsh, associate professor of engineering, Penn State Harrisburg.

"We are calling the three days of special events TECH EXPO '90," said James H. Ryan, campus executive officer at Penn State Wilkes-Barre, "and we are providing a program that will interest all ages."

TECH EXPO '90 will begin with the dedication of the new building at a public ceremony at 1:30 p.m. Thursday by President Jordan, William Harral, vice president of external affairs and chief

financial officer for Bell of PA, will be the other featured speaker.

The Center for Technology opened for classes in January, and has laboratories in biomedical equipment technology, electrical and mechanical engineering technology, surveying technology, and telecommunications technology. It also houses a teleconference auditorium for satellite conferences and an astronomy dome. A community campaign raised \$2.8 million of the \$5.8 million construction cost.

An open house for the public from 2:30 to 4 p.m. will include guided tours by the Student Government Association.

Penn State alumnus Marvin J. Cetron will give the keynote address on "Educational Renaissance: How to Improve Our Schools by the 21st Century" at 7:30 p.m. Thursday, in the Tech Center Auditorium. TECH EXPO '90 will continue Friday, April 6, with the STS symposium, beginning at 9 a.m.

The symposium will continue on Saturday, April 7, with the reading of relettered papers and a luncheon for Penn State engineering and engineering technology alumni and members of the Pennsylvania Society of Professional Engineers.

Faculty/Staff Alerts

U.S. Savings Bond program

The University is again participating in the U.S. Savings Bond program. The 1990 campaign emphasizes that purchasing U.S. Savings Bonds through payroll deduction is "The Main Street of the American Dream."

The focus of this year's promotion is on the new "tax-free for education" feature. An information packet regarding U.S. Savings Bonds is being sent to all full-time Penn State faculty and staff members the last week of March.

Not only are bonds an investment of unmatched security, they also are -- thanks to a market-based interest rate -- highly competitive with other savings and investment vehicles. Earning interest at a rate based on 85 percent of the average yield on five-year Treasury securities, compounded semiannually, bonds are as profitable as they are patriotic.

Beginning with savings bonds purchased in 1990, the interest earned on Series EE bonds, already exempt from state and local taxes, may be completely tax free when used to pay tuition and fees at colleges, universities and qualified technical schools during the year they are redeemed. To qualify, bonds must be purchased by parents in their own names, and certain income limitations must be met at the time of redemption.

Bonds are guaranteed as to principal and

interest by the U.S. government and can be replaced without charge by the Treasury Department if lost, stolen, or destroyed. Payroll deduction offers an easy and convenient method of systematic saving. Bonds are available by payroll deduction in denominations of \$100, \$200, \$500, and \$1,000, each costing one-half of its face value.

Questions regarding the U.S. Savings Bond program should be directed to the Employee Benefits Division, 205 Rider Building, (814) 865-1473 or Network 475-1473.

Audio-Visual Services

Audio-Visual Services has made the decision to discontinue support of 3 1/4" U-Matic videotape and playback equipment. AVS will provide a free transfer service for faculty who hold personal copies of 3 1/4" videotape until Aug. 3, 1990.

U-matic 3 1/4" tapes may be submitted for transfer to VHS at 26 Willard Building, 1 Health and Human Development East, and 6 Sparks Building. For additional information, call 865-5400.

PSEOP established the award to give recognition to University staff who have provided exceptional meritorious service on behalf of Penn State.

For a nomination form, contact your Personnel Representative or either Virginia Struble, 865-7515, or Kathy House, 863-3668, co-chairs.

News in Brief

Spring Week

The annual Spring Week at University Park has been expanded this year to a University-wide event.

Theme of the event, which will feature a number of new attractions including a carnival, is "PS&U-The '80s in Review." Proceeds from Spring Week will go to the Big Brothers/Big Sisters organization, coordinated by the Centre County Youth Service Bureau.

Among Spring Week attractions are: March 31, Spring Week Carnival, IM fields near Beaver Stadium; Sunday, April 1, ice skating night, Ice Pavilion; Monday, Tuesday, April 2, spring games, HUB lawn; Tuesday, April 3, chariot races, Fairmount Street, State College; Wednesday, spaghetti eating contest, HUB lawn; Thursday, April 5, laser show, HUB lawn; Friday, April 6, first annual benefit show, Eisenhower Auditorium; Saturday, April 7, Phi Sig Suppers.

Old Main open house

The Lion Ambassadors will host the 1990 Old Main Open House from 9 a.m. to 4 p.m. Thursday, April 5. Students, faculty, and the general public will be able to tour the building.

As part of the Open House, visitors will have an opportunity to view the

campus and valley from the Old Main bell tower.

The Lion Ambassadors are sponsored by the Penn State Alumni Association and the Office of University Development.

Office personnel award

April 11 is the deadline for submission of nominations for the fifth annual Outstanding Office Personnel Award sponsored by the Penn State Chapter of Educational Office Personnel (PSEOP).

PSEOP established the award to give recognition to University staff who have provided exceptional meritorious service on behalf of Penn State.

For a nomination form, contact your Personnel Representative or either Virginia Struble, 865-7515, or Kathy House, 863-3668, co-chairs.

Stone Valley

The Stone Valley Recreation area, located 14 miles south of University Park off Route 26, will open for the 1990 season on Saturday, April 7. Activities available include boat rentals, boating, picnicking, hiking, and fishing (season opens April 14). Rental cabins, which are available year-round, and group rental facilities also are featured.

Special programs for individuals and

Physicist to present Waynick lecture

Friedrich Ulf von Zahn will present the seventh annual Arthur H. Waynick Memorial Lecture at 8 p.m. Saturday, April 7, in 112 Walker Building at University Park.

Dr. von Zahn, professor of physics at the University of Bonn, Germany, is well known for his work on the structure and composition of the atmosphere above 75 km altitude, as measured by ground-based laser, surrounding rockets, and satellites. He also has investigated the upper atmosphere of the planet Venus by means of a gas analyzer aboard the NASA pioneer Venus Multiprobe.

Dr. von Zahn, currently visiting professor in the College of Engineering and distinguished associate member of the Communications and Space Sciences Laboratory, will discuss the atmospheres of Earth, Venus, and Mars.

Research of the past three decades has revealed that, although the three atmospheres all originated from a common source of gas and grain particles, they actually differ substantially from each other. The atmospheres of these three planets are serving scientists today as a laboratory for testing theories on processes acting in these atmospheres.

Lecture on Japan

Mineo Nakajima, professor of international relations at Tokyo University of Foreign Studies, will discuss "How Japan sees the U.S., China, and Taiwan" at 7:30 p.m. Wednesday, April 4, in Room 214 Bouckle Building at University Park. A reception will follow in the International Lounge, Room 222 Bouckle.

The lecture, which is free and open to the public, is part of the Distinguished Lecture Series on Japan sponsored by the Center for East Asian Studies and the East Asian Studies Society.

Dr. Nakajima is one of the most prolific writers in Japan and a well-known commentator on Japanese television. He has written more than 100 books and 100

articles on subjects such as Japan's foreign policy, U.S.-Japan relations, Japanese-Soviet relations, Sino-Japanese relations, and political/economic developments in Taiwan, Korea, and the People's Republic of China. Dr. Nakajima received his B.A. in 1960 and his Ph.D. in sociology and international relations in 1965, both from Tokyo University.

Alumni Fellows

(Continued from page 1)

A veteran of the Vietnam conflict, he was the administrative assistant to Defense Secretary Casper Weinberger during the Reagan administration.

HUB blood drive

The American Red Cross will be conducting its last blood drive in the Hetzel Union Building this semester on Wednesday, April 4, and Thursday, April 5. It will be held in the HUB Ballroom from 10 a.m. to 4 p.m. both days.

Faculty and staff are asked to support this important activity by coming to donate their pint of blood. The entire donation process takes about an hour, and this includes the mini-physics and refreshments afterwards.

Though "walk-ins" are welcome, appointments help with for planning purposes, and traffic flow. To make an appointment, or for more information, please call Connie Schroeder, Red Cross campus coordinator, at 237-2713.

Textbook deadlines

Faculty members are reminded of the following deadlines for textbook submission to the Penn State Bookstore: Summer Intercession, April 1; Summer Session, April 1; Fall Semester, April 15; and Spring Semester, Oct. 15.

Textbook submissions should be sent to the Penn State Bookstore at University Park Campus. For more information, contact David Mullerberger at 863-4373 or Barbara Crowley at 863-3277.

groups are offered on a regular basis or by appointment throughout the spring and summer. An outdoor recreation day camp program for elementary school age children will be offered this summer.

For program details and general information, contact the Stone Valley Recreation Area at (814) 863-0762 or (814) 667-3792.

York Campus acquires land

The Penn State York Campus nearly tripled its campus size this month when the York City Council passed a resolution approving the sale of 33 acres of park land to the campus for \$1. The area, known as "Rotary Woods," is adjacent to the campus and has not been developed by the city.

Penn State York's initial plans include removing trash and debris from the area, developing trails and paths in and through the wooded areas, constructing a regulation size soccer field with appropriate bleachers and other equipment, as well as two youth soccer fields.

Long-range plans include constructing an auditorium for the joint use of the campus and general public, as well as an open air facility for the summer use of the York Symphony Orchestra.

Focus on the arts

The arts on Channel 3

In 1557 a young peasant named Martin Guerre returned to his wife and family in a French village after an absence of nine years. "The Return of Martin Guerre," airing at 9 p.m. Friday, March 30, on WFSX-TV, is an engaging drama of love, greed, revenge and justice that has become a cause celebre. The romantic tale of Martin Guerre and his young wife, Bertrande de Rols is told against the backdrop of a 16th-century peasant village. "Navajo," airing at 2:30 p.m. Sunday, April 1, on *Art Underfoot*, travels to the Navajo reservations of Arizona and New Mexico, to the 19th-century trading posts still operating today and to a Navajo woman who sits on the plain, weaving in a centuries-old manner she predicts will soon be a lost art.

Medieval Fair

Rare livestock breeds, food of the times, music, dance, educational exhibits and demonstrations of medieval agricultural practices will highlight the Medieval Agricultural Fair March 31 and April 1 at University Park.

Visitors are invited to see the continuity and change in life and agricultural practices from the 1200s to today. The fair, which is free to the public, will be held from 1 to 5 p.m. on Saturday and 10 a.m. to 3 p.m. on Sunday in the Intramural Building at the corner of Curtin Road and University Drive.

Vickie Ziegler, chair of medieval studies, says "The fair addresses on a more concrete and visual level themes of the 1990 Medieval Studies conference, People of the Plough: Land and Labor in Medieval Europe, which begins Friday, March 30."

Faculty in the College of Agriculture will be on hand in the animal tent outside the IM Building to discuss medieval breeds and breeding practices that have applications today. Inside will be educational and commercial exhibits and demonstrations on medieval food and modern adaptations.

Craft displays will include spinning techniques from medieval to colonial times, medieval articles made of horn and vegetable drying. In addition, students in the Food Science Club will have sausages and other foods of the period on sale, and music and dances will be performed throughout the two-day fair.

The public also is invited to attend the Friday evening medieval banquet at Tussey Mountain Inn on Route 322 in Boalsburg. The medieval dinner features period foods, decorations, music and the performance of a medieval play, based on the Book of Ruth and lost for more than 500 years.

Reservations for the banquet are accepted on first-come basis and must be made through the Keller Conference Center (814) 865-4564. The cost is \$17.50.

Those who would like to learn more about agricultural practices in medieval times and those that are applicable today, may register to attend conference sessions on Friday and Saturday morning, March 30 and 31.

For information about the fair and the banquet, contact Dr. Ziegler, 5323 Burrows Building, University Park, (814) 865-5481. For conference and banquet registration, contact Bill Sterner, Keller Conference Center (814) 865-9173.

Symphonic Blue Band

Dale Underwood, an internationally known saxophone soloist and master chief musician with the United States Navy Band, will join the Penn State Symphonic Blue Band for its annual spring concert at 3 p.m. Sunday, April 1, in the Eisenhower Auditorium at University Park.

Mr. Underwood, known for his expressive tone and virtuosic technique, will perform several selections, including Claude Smith's "Fantasia for Saxophone," written for Underwood, and "Oodles of Noodles."

From left are Mimi Coppersmith, Samuel Fredman, Michele Fredman and Kahren Arblman, director, Palmer Museum of Art, with an Agam serigraph presented to the Museum by the Fredman family.

The Symphonic Blue Band will perform a variety of music, including the classic "Capriccio Italiane" by Tchaikovsky and the modern "Tribute" by Mark Camphouse. The entire flute section will perform "Canticle" by the neo-romantic Del Borgo. The trumpet trio will play "Bugler's Holiday" in memory of John Scott, a fellow trumpet player who died this year.

A member of the Navy Band since 1968, Mr. Underwood travels throughout the country as a performer, recitalist and clinician. He has been featured with the Boston Pops Orchestra; the Scarborough Orchestra, Canada; and the Cascade Music Festival, Oregon.

The Symphonic Blue Band is conducted by Ned C. Dehl, professor of music education in the School of Music. He is assisted by Brad Townsend.

Mr. Underwood also will conduct a saxophone clinic at 1:30 p.m. Saturday, March 31, on the stage of Eisenhower Auditorium. Both the concert and clinic are free to the public.

Ensemble honored

Centre Dimensions, the top jazz ensemble from the School of Music, has been selected the outstanding big band at the Elmhurst Jazz Festival in Chicago.

Bands representing 29 colleges and universities from states including Ohio, Illinois, Indiana, Missouri, Michigan and Wisconsin participated in the festival.

Under the direction of University faculty member Dan Yoder, Centre Dimensions was invited to perform in the final concert of the festival.

In addition to the band's award, 12 individuals were cited for outstanding performances, including Jeffrey Kunkel, Greg Hardner, Jeff Parker, Anthony Zugel, Brian Watson, Terry Rowlyck, Erik McDonough, Tom Riccobono, Mark Nef, Duane Shimmel, Jose Carrera and Deena Walters.

Issac Stern to perform

Issac Stern, one of the most distinguished musicians of our time, will be the featured soloist when the Baltimore Symphony Orchestra plays at 8 p.m. Tuesday, April 3, in Eisenhower Auditorium at University Park.

The special program will include a concerto for violin and orchestra written especially for Mr. Stern by the preeminent French composer Henri Dutilleul.

Leading the Baltimore Symphony Orchestra is David Zinman, who has conducted all the major ensembles in the United States and Canada. In the past five years as music director, he has brought the Baltimore Symphony to national and international attention.

Mr. Stern, who will be 70 years old this July, has been awarded honors from around the world including Musician of the Year, Artist Laureate, Grammy Lifetime Achievement Award and the Albert Schweitzer Music Award. A master

violinist and humanitarian, he epitomizes excellence in performing.

For the first half of the evening, he will play two pieces by Mozart for violin and orchestra, Adagio in E Major and Rondo in C Major. Then Mr. Stern will perform Dutilleul's "L'Arbre des songes" (The Tree of Dreams) written for him in 1985.

The second half of the concert will be filled by Berlioz' masterpiece "Symphonie fantastique" with its myriad of tonal colors and orchestral effects. Under Mr. Zinman's direction, the orchestra has recorded an all-Berlioz album for Telarc.

Tickets are available from the Eisenhower Auditorium Ticket Center, open weekdays, 8:30 a.m. to 4:30 p.m. For more information, call (814) 863-0255.

Work donated to museum

A serigraph by Israeli artist Yaacov Agam has been presented to the Palmer Museum of Art by the family of Samuel G. Fredman in honor of the marriage of Mimi Ungar Barash Coppersmith and Samuel Fredman, which took place Feb. 24. The print, "Integrated Rainbow," was on display in the second-floor Stairwell Gallery of the museum.

The work is Mr. Agam's artistic expression of his belief that God appears in elusive, fleeting images, such as a rainbow.

Mr. Agam is Israel's most famous contemporary artist. Best known for his kinetic and optical works begun in the 1950s, he uses color strips from the entire color spectrum in his works. These strips often change into patterns or objects, depending on where the viewer stands.

Zoller exhibit

Works inspired by abandoned collieries and disintegrating factories and created by mixed media sculptor Allen C. Topolski will be on display April 3-13 in the Zoller Gallery at University Park.

Mr. Topolski is a master of fine arts candidate in the School of Visual Arts. Many of the images of Mr. Topolski's work emerge from his birthplace, Shamokin.

Altoona Campus

"Selections from Ten Years of Drawing," a one-man show of work by Michael Lucas, is on display in the Sheetz and McLanahan Galleries at the Penn State Altoona Campus through Friday, April 6.

DuBois Campus

The Bert Seager Jazz Quintet, a Boston-based, mainstream, modern bebop quintet,

The exhibition is free to the public. Zoller Gallery is open 9 a.m. through 5 p.m. Monday through Friday, 11 a.m. through 4:30 p.m. Saturday and noon through 4 p.m. Sunday.

Women's Chorus

The Penn State Women's Chorus will present its annual spring concert at 8 p.m. Wednesday, April 4, in the Recital Hall in the School of Music at University Park.

The 75-voice group will perform "Four Songs" for women's voices, two horns and harp by Johannes Brahms and other selections for women's voices.

The Keynotes, a 14-voice specialty group selected from the Women's Chorus, will be joined by the Hi-Lo's from the Penn State Glee Club for the premiere of an arrangement of "Seven Chopin Songs" by Glee Club Director Bruce Trunkley.

The Keynotes also will sing "Someone to Watch Over Me" and "I've Got a Crush on You" written by George and Ira Gershwin.

The Women's Chorus and Keynotes are directed by Russell Bloom, graduate student in the music education program.

Jane Austen lecture

Marilyn Butler, King Edward VII professor of English literature and chair of the English Department at Cambridge University, will present a lecture on "Gender and Class in Jane Austen" at 8 p.m. Wednesday, April 4, in 101 Kern Graduate Building at University Park.

A leading authority on the relationship between English literature and society in the 18th and 19th centuries, Professor Butler has written extensively on Jane Austen and other women novelists of the Romantic period, and has recently co-edited, with Janet Todd, the collected works of pioneer feminist Mary Wollstonecraft.

In her provocative study of "Jane Austen and the War of Ideas," published in 1975 and reissued with a new introduction in 1987, Professor Butler challenges the traditional notion that the novelist took no interest in the public events and political issues of her time. By placing the novels in the context of contemporary fiction, she reveals Austen as a partisan writer on the conservative side in the ideologically charged atmosphere of the French Revolution and the Napoleonic Wars.

Professor Butler's lecture, sponsored by the English Department and the Institute for the Arts and Humanistic Studies, is free and open to the public.

Odyssey on WPSU

In the eighth or ninth century, the Celts in Ireland, like most of their European neighbors, decided that they wanted to be descended from the great Classical and Biblical heroes. So they created such a history for themselves, explains Proincais Ni Chathain on the next "Odyssey Through Literature" episode, "Celtic Paths."

Ni Chathain is professor of early Irish

(Continued on page 7)

The arts at...

will perform at 7:30 p.m. Wednesday, April 4, in the Multipurpose Building Gymnasium at the Penn State DuBois Campus.

Penn College

Joy Harjo, a Native American poet of the Creek Tribe, will give a reading of her poetry in the Academic Center Auditorium at the Pennsylvania College of Technology at 7 p.m. Thursday, April 19, as part of the College's Women's Series.

University Park Calendar

March 29— April 8 Special Events

Thursday, March 29

1990 Meeting of the American Comp. Lit. Assoc., Keller Conference Center, through March 31.

Brown Bag Lunch/Lecture, 12:10-12:50 p.m., Palmer Museum of Art, Michael Tomor on "Charles Natoire and Carlo Van Loo at the Accademia Nazionale di San Luca. 1725 and 1728."

Bach's Lunch, 12:10 p.m., Eisenhower Chapel, Penn State Percussion Ensemble.

Ethics in America, Ethics in Medical Research, videotape presentation and discussion, 3 p.m., Eisenhower Chapel, "Ethics and Harm: The Human Experiment."

Center for the Performing Arts, Artistic Viewpoints Lecture Series, 7 p.m., Greenroom, Eisenhower Aud. Julian Thayer on Paul Winter Consort.

Lebanian and Gay Film Festival, 7 p.m., HUB Assembly Room. *Veronica 4 Rose* or *Veronica Lives Rose*.

Center for the Performing Arts, 7 p.m., Eisenhower Aud. Paul Winter Consort.

Friday, March 30

Geog. Coffee Hour, 4 p.m., 319 Walker. Ed. Soja, UCLA, on "Taking Geographies Apart: A Critical Reading."

Shaver's Creek, Old Maple Sugar Camp, Grades 5 and 6, 6 p.m.-10 a.m., through March 31. Call 863-2000.

Medieval Banquet, 6:45 p.m., Tussey Mountain Inn. Music by the Nova Consort, Medieval Drama, "The Marriage of Ruth and Boaz," translated by Alan E. Knight, produced and directed by Michael P. Bernosky.

Saturday, March 31

Center for East Asian Studies, luncheon lecture, 12:30-1:30 p.m., Kern Graduate Center Cafeteria. Frank B. Gibney on "A New Japanese Translation Project: Correcting the Cultural Trade Imbalance."

Medieval Fair with talks and demonstrations, Intramural Building, 1 p.m., Morris dancing by the Society for Creative Anachronism; 1:30 p.m., Melvin K. Dutrow and Gary Homan on hog butchering.

Shaver's Creek, Woodcock Walk, 5:30-7:30 p.m. Call 863-2000.

Sunday, April 1

Shaver's Creek, 8 a.m.-noon, Pledge-A-Bird; 2-4:30 p.m., Digging Massenburg's Past. Call 863-2000.

Medieval Fair with talks and demonstrations, Intramural Building, 10:30 a.m., Bill Russell on herbs; 11:30 a.m., Loren Tukey on espaliered and trellised apples; 1 p.m., Morris dancing by the Society for Creative Anachronism; 1 p.m., horse shoeing in the animal tent; 3 p.m., dances and songs with Nova Consort.

School of Music, 3 p.m., Eisenhower Aud. Ned Deihl, Penn State Symphonic Blue Band. Carnegie Hall Film Series, 7 p.m., *Chinua Achebe* (1957); 8:45 p.m., *Seventeen* (1982); 4 Carnegie Free.

Monday, April 2

Comp. Lit. Luncheon, 12:15 p.m., 101 Kern. Susan Puvacic, Univ. of London, on "Ivo Andric and the Jews."

Honorary Engineering Lecture, 4 p.m., 104 Keller. Donald M. Alstath, Lord Corp., on "The Role of Corporate American Interrelationship in the Promotion of Legitimate Purpose of the Corporation." Free. School of Music, 8 p.m., Recital Hall. University Brass.

Tuesday, April 3

Shaver's Creek, Mini-Natural History Course, 6-9 p.m. Call 863-2000.

Women Studies Week, 7 p.m., HUB Gallery. Presentation on "Global Feminism." Also April 4, 7 p.m., Living Center, Health/Human Dev. "Contemporary Issues Facing Women." April 5, 8 p.m., HUB Gallery, Margaret Rositer. Cornell on "Women Scientists: 1940-70." April 6, 9:30 a.m.-4:30 p.m., 305 HUB, Women's Studies Student/Faculty Conference.

Center for the Performing Arts, 8 p.m., Eisenhower Aud. Isaac Stern with the Baltimore Symphony Orchestra.

Wednesday, April 4

Distinguished Lecture Series on Japan, 7:30 p.m., 214 Boucke. Mineo Nakajima, Tokyo Univ., on "How Japan Sees the U.S., China and Taiwan."

School of Music, 8 p.m., Recital Hall. Women's Chorus.

Isaac Stern will be the soloist for the Baltimore Symphony performance at 8 p.m. April 3 in Eisenhower Auditorium.

English Dept., lecture, 8 p.m., 101 Kern. Marilyn Butler, Cambridge Univ., on "Gender and Class in Jane Austen."

Thursday, April 5

Lion Ambassadors host Old Main open house, 9 a.m.-4 p.m.

Women of Color, luncheon, noon-1 p.m., Hotel State College.

Bach's Lunch, 12:10 p.m., Eisenhower Chapel. Penn State Horn Ensemble.

Social History Colloquium, 4 p.m., Rare Books Reading Room. Patrice Library. Charles Hartsoe, Virginia Commonwealth Univ., on "The Recreation and Parks Movement: A Response to Urbanization."

English, Slavic Languages, IAHS, play, 8 p.m., 112 Kern. Maria Mamona, one-woman show. The Kern.

Friday, April 6

Geog. Coffee Hour, 4 p.m., 319 Walker. Olga and Yuri Medvedkov, Ohio State Univ., on "Geography of Underdevelopment in the U.S.S.R."

University Readers Performance, 8 p.m., 112 Kern. Free. Also April 7.

Contemporary Scholarship on Lesbian and Gay Lives Speaker Series, 8 p.m., HUB Assembly Room. John E. Miller, Univ. of N.C., on "Lesbian and Gay Studies. New Kid on the Block."

Saturday, April 7

School of Music, 8 p.m., Schwab Aud. Penn State Singing Lions.

Arthur H. Wainwright Memorial Lecture, 8 p.m., 110 Walker. Friedrich Ulf von Zahn, Univ. of Bonn, on "The Atmospheres of Jove. Venus and Mars."

Sunday, April 8

Carnegie Hall Film Series, 7 p.m., *Duel in the Sun* (1946); 9:15 p.m., *Sins Sold* (1982); 4 Carnegie Free.

School of Music, 8 p.m., Recital Hall. Opera Workshop.

International Events

Friday, March 29

Education Abroad Programs, brown bag slide presentation, noon, 222 Boucke. Chris Johnston on Athens, Greece.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5:30-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.

"Perspectives," 6:30 p.m. Wednesdays, with Jeff Bullard. "Creative License," 12:30 p.m. Thursdays, with Asa Berlin and Pam Saulnier.

Conferences

Continuing Education

Keller Building

March 30-31, People of the Plough: Land and Labor in Medieval Europe. James Sweeney,

associate professor of history, chair. Bill Steiner, coordinator.

April 2-6, Administration of a Domestic Relations Agency. James R. Horner, professor-in-charge. Cont. Ed. administration of justice dept., chair: Kathy Karchner, coordinator.

April 3-5, Maintenance of Commercial Vehicles. Eric Loop, coordinator.

April 4-6, Trade Union and Employee Involvement: Directions for the 1990s. Richard Z. Hinde, associate professor of labor studies, chair; Chuck Herd, coordinator.

April 6-7, Pa. High School Speech League. Jeanne Lutz, instructor of speech, chair; Jerri Milcom, coordinator.

April 6-7, Math Association of America. Nicholas Ford, assistant professor of math, chair; Norman Lathbury, coordinator.

April 7, Women in Educational Leadership: Challenges and Choices. Barbara Impellitteri, coordinator.

April 7-8, American Mathematic Society. Richard Herman, head and professor of math, chair; Norman Lathbury, coordinator.

Seminars

Thursday, March 29

Polytechnic Union, 9 a.m., 301 Steidle. K. Levon, Polytechnic Union, on "Liquid-Liquid Phase Separation in Thermally Reversible Gels."

Physics Colloquium, 3:30 P.M., S5 Osmond Lab. Gabriel Barton, Univ. of Sussex, on "Temperature Dependent Effects in QED."

Ecology, 3:45 p.m., 111 Warkit. Elaine Keithan, Bucknell Univ., on "Algal Production and Herbicides."

Friday, March 30

Medieval Agriculture Conference, 8:45 a.m., 402 Keller. Karl Brunner on "Continuity and Discontinuity of Roman Agricultural Knowledge in the Early Middle Ages."

Andrew M. Watson on "The Agricultural Contacts Between Medieval Europe and the Arab World: A Case of Distal Diffusion."

Robert W. Frank on "Idealization of the Medieval Farmer: Piers Plowman and Everyman."

Medieval Agriculture Conference, 1:30 p.m., 402 Keller. Sandor Bokonyi on "The Development of Stockbreeding and Herding in Medieval Europe." Bruce M.S. Campbell on "Ecology Versus Economics in Late 13th-Century and Early 14th-Century English Agriculture."

Michael Camille on "When Adam Delved" Labouring on the Land in English Medieval Art."

Saturday, March 31

Medieval Agriculture Conference, 8:30 a.m., 402 Keller. Bridget A. Henich on "In Due Season: Farmwork in the Medieval Calendar."

Tradition: Ludolf Kuchenbuch on "Links within the Village: Evidence from 14th-Century Eastphalia." Alfred W. Crosby on "Ecological Imperialism and the Medieval Farm."

Monday, April 2

Education, 1:30 p.m., 276 Chambers. Donald J. Willoway on "Schools as Organizations and School Improvement."

Entomology, 3:45 p.m., 204 Patterson. Randy Higgins on "Minimizing Horse Deaths from Blister Beetles Present in Kansas Alfalfa."

EPF, 4 p.m., 339 Davey Lab. William A. Westell, Boston Univ., on "Precision Measurement at the Moon's g."

Tuesday, April 3

Gerontology Center Colloquia, noon-1 p.m., 101 Health and Human Dev. Bldg., East. Michael

Levensgood, exec. dir., Foxdale Village, State College, on "Meeting the Chronic Care Needs of the Elderly: A Continuing Care Retirement Community."

Chemistry Colloquium, 3:30 p.m., S5 Osmond Lab. Nicholas Turro, Columbia Univ., on "Chemical, Spin and Molecular Dynamics in Microscopic Reactors."

Physics Colloquium, 3:30 p.m., 101 Osmond Lab. Robert Dynes, AT&T Bell, on "Bad Metals, Superconductors and Insulators."

Wednesday, April 4

Analytical Chemistry, 11:15 a.m., S5 Osmond Lab. Richard Hartwick, Rutgers Univ., on "Control of Electroosmotic Flow in Capillary Zone Electrophoresis."

Thursday, April 5

Polymer Science, 9 a.m., 301 Steidle. R.D. Lundberg, Exxon Chem.

Physics Colloquium, 3:30 p.m., S5 Osmond Lab. John McGervey on "Physics and the Cosmos: A New Freshman Course."

Ecology, 3:45 p.m., 111 Warkit. Robert Koide on "Effects of Mycorrhizae on Plant Growth and Reproduction."

Mechanical Engineering, 4 p.m., 103 Mechanical Engineering. Hans Moravetz, Carnegie Mellon Univ., on "Long Waves Instability in Thin Films."

Friday, April 6

Human Performance Lab, lecture, 11:15 a.m., 121 Noll Lab. Henrik Gabbe, Univ. of Copenhagen, on "Hormonal and Metabolic Adaptations to Exercise."

Saturday, April 7

German, lecture, 10:45 a.m., 124 Sparks. Gunter Hantschell on "Hebbels Lyrik in illustrierten Ausgaben und Anthologien."

Exhibits

Chambers Gallery

School of Visual Arts, Undergraduate Graphic Design and Metals Exhibition, through April 6.

HUB Galleries

Formal Gallery: Bicentennial of the French Revolution, "The French Revolution as Portrayed in Collector's Postcards." April 4-April 30.

Kern Galleries

Selections from the Graduate Research Exhibition, through May 15.

The French Revolution, Collector's Postcards, April 30.

Denise Arieu, Jewelry, April 30.

Alice Ritti, Paintings and Drawings, April 6-30. College Research Exhibitions, College of Business Administration, April 2-27.

Palmer Museum of Art

Roman Portraits, through April 22. Figurative Drawings of the 17th and 18th Centuries from the Accademia Nazionale di San Luca in Rome, through May 20.

Transforming the American Garden, through May 13.

Zoller Gallery

Undergraduate Juried Exhibition, through March 30.

M.F.A. Thesis Exhibition, April 1-14.

Ballot drawing held

A drawing has been held at the University to determine positions on the ballot for the 1990 election of trustees by alumni.

Grace T. Younginger, associate secretary of the board, conducted the drawing and said ballots for the trustee election will be mailed to University alumni by April 9. All ballots must be received by the close of the election at 5 a.m. May 10.

Names of the six candidates for three positions on the board in alumni balloting are as follows:

Mary Greedy Beahn, 1981 and 1987 graduate degree, compensation analyst, Westinghouse Electric Co., Pittsburgh.

Phoebe Forrest Link, 1947 and 1952 graduate degree, educator, State College Area School District, State College.

John D. Vairo, 1961 graduate degree,

emeritus campus executive officer of the Delaware County Campus.

Mark H. Smith of DuBois, 1984 graduate degree, involved in real estate development and management.

H. Jesse Arnelles, 1955, senior partner of Arnelles and Hastie civil litigation and public finance firm of San Francisco.

Forrest N. Myers, 1961, 1963 and 1971 graduate degrees, founder, president and chairman of Accu-Weather Inc. of State College.

Incumbent board member Helen D. Wise received the required number of votes; however, after 21 years on the Board of Trustees, she chose not to seek reelection, commenting: "It is time to make room for others to serve." Arthur W.

Nesbitt also received the required number of votes, but declined the nomination.

Faculty and staff members are honored with awards

Equal Opportunity Award

Alphonse E. Leure-duPree, associate dean of academic achievement and director of special programs in the College of Medicine at the Hershey Medical Center, has been named the 1990 winner of the University's Equal Opportunity Award.

The honor, which consists of a certificate and a \$1,500 check, will be presented 2 p.m. Sunday, April 8, in Eisenhower Auditorium at University Park.

Created in 1988 by the University, the award is designed to recognize a Penn State faculty or staff member who promotes the concept of equal opportunity through affirmative action and contributes to enhancing the educational environment of the University through improving cross-cultural understanding.

Dr. Leure-duPree, professor of anatomy and neuroscience and interim chairman of anatomy, has been instrumental in the University's efforts to recruit and retain Black/African American, Hispanic, Native American, and Asian American students at the College of Medicine for nearly 20 years.

Dr. Leure-duPree received his education at Rutgers University, McGill University, the University of Rome and the Institute of Ophthalmology at the University of London, prior to joining the University as an instructor of anatomy in 1973. During his tenure at the College of Medicine, he received the Josiah Macy Faculty Award and the Ford Foundation Award.

He is a member of the Medical Student Selection Committee, the University Faculty Senate, Faculty Organization at Hershey, an Equal Opportunity Planning Committee Task Force, and numerous other committees, both national and international.

Dr. Leure-duPree has contributed significantly to the structuring of the College of Medicine's minority recruitment program. In the initial days of minority recruitment planning, he made recruitment visits through personal contacts and, sometimes at his own expense, travel, with the assistance of C. N. Collier, Everts, senior vice president for health affairs and the College of Medicine, and the EOPE, he helped establish scholarships, tutoring, counseling and outreach programs.

As a result of Dr. Leure-duPree's efforts, minority enrollment at the College of Medicine has doubled since his initial involvement. In addition, he has helped establish an EOPE summer program that has enabled the University to attract undergraduate minority students from Lincoln and Cheyenne universities.

Barash Award

James H. Miller, associate professor of business logistics and associate director of the Pennsylvania Transportation Institute, is the 1990 recipient of the Barash Award for Human Services.

The honor, which consists of a certificate and a \$1,000 check, will be presented at the University Awards Convocation at 2 p.m., Sunday, April 8, in Eisenhower Auditorium.

The family of the late Sy Barash created the annual award in 1975. It recognizes a full-time member of the Penn State faculty,

James H. Miller

staff or student body who has contributed most, apart from regular duties, to human causes, public service activities and organizations or welfare of fellow humans.

Mr. Barash, a Penn State graduate, was a State College businessman from 1953 until his death in 1975. Over the years, he devoted much time, energy and leadership to humanitarian causes on and off campus.

"Dr. Miller's guidance and leadership have played a leading role in the formation and continuing development of the Centre Area Transportation Authority," Gary C. Schulte, assistant vice president for operations and services and chairman of the 1990 awards committee, said.

As a CATA board member for all but one year from the mid 1970s to present, no one has served on the board longer than Dr. Miller. His technical expertise in urban transportation, wisdom and perseverance were critical to CATA's success in meeting several formidable challenges in management of its activities and in its relationships with Centre region government units.

CATA has two operating units, the Centre Line, which provides fixed route transit service, and Centre Ride, which provides paratransit service for elderly and disabled persons. Because of Dr. Miller's contributions, CATA has grown to provide the Borough of State College and Ferguson, College, Harris and Patton Townships with service unsurpassed by few public transportation systems for municipalities of their size.

Dr. Miller joined Penn State in 1971 and has been a faculty member since 1976. His teaching responsibilities include urban transportation, transportation planning and transportation economics and policy.

Dr. Miller earned his B.A. degree in economics from University of Cincinnati in 1967, M.B.A. from Penn State in 1969 and Ph.D. in business administration from Penn State in 1976.

John E. Wilkinson Award

Jacqueline L. Schoch, campus executive officer at the Penn State DuBois Campus, is the 1990 recipient of the John E. Wilkinson Award for Administrative Excellence.

The Wilkinson Award was established in 1970 by friends of Wilkinson, a lifelong Centre County businessman. Now

Jacqueline L. Schoch

supported by Mr. Wilkinson, the award is presented annually to a member of the Penn State staff whose performance methods and achievements exemplify administrative excellence.

The Wilkinson Award also is presented at Bucknell University in Lewisburg. Each award carries a \$500 stipend. Dr. Schoch will receive the award at the University Awards Convocation at 2 p.m. Sunday, April 8, in Eisenhower Auditorium.

Dr. Schoch was appointed CEO at the DuBois Campus in the fall of 1978, following the retirement of now Director Emeritus Donald S. Hiller. She joined the Penn State staff in 1970 as assistant director of resident instruction and later was promoted to associate director.

Prior to coming to Penn State, she served as director of instruction, director of guidance, guidance counselor, dean of girls and as a history and physical education teacher for the DuBois Area School District. She also taught girls' phys-ed in the Ford City Area Schools.

She has announced her plans to retire Sept. 30, after completing 20 years of service to the campus.

During her years at Penn State, Dr. Schoch worked to expand and enrich academic programming both on and off-campus. Complete degree programs are now offered at Curwensville and St. Marys sites as well as at DuBois. The addition of an extended degree in general arts and sciences, the first four-year degree to be offered at DuBois, is the most significant academic accomplishment for the campus in recent years.

Dr. Schoch earned a bachelor's degree in health, physical education and recreation and masters and doctorate degrees in counselor education and psychology from Penn State.

She is a life member of the Penn State Alumni Association, and has served on 14 different committees of the University Faculty Senate.

She is a member of the DuBois Regional Medical Center Development Council, has served as vice president of the Clearfield County Area Agency on Aging, a member of the Pennsylvania Electric Company's Educational Committee and chaired Penelec's Consumer Advisory Committee.

Marie J. Secor

Alumni/Student Award

Marie J. Secor, associate professor of English, is the 1990 recipient of the Penn State Teaching Fellow: The Alumni/Student Award for Excellence in Teaching.

The award, which includes a \$3,000 honorarium, will be presented at the Awards Convocation at 2 p.m. Sunday, April 8, in Eisenhower Auditorium. Dr. Secor was selected for the honor by a committee of alumni, faculty and student representatives.

"From the beginning of our work together, it was clear Marie combined in one person all of the qualities that make a teacher great," wrote a colleague in a nominating letter. "It is a delight to watch student after student rise to the standards that she demands."

A lecture with Dr. Secor is as refreshing as it is enlightening, one of her former students noted. "Like no other teacher I've had, she is able to combine the seriousness of a senior-level course with the candor of a midnight dorm chat."

A Penn State faculty member since 1978, Dr. Secor has taught a wide range of composition, rhetoric, and literature courses. She was part of a successful faculty trio who taught a "cluster course" — a combination of English, geography and political science instruction — in the University Scholars program.

She is the co-author of *A Rhetoric of Argument* with Jeanne Fahnestock; *The Return of the Good Soldier: Ford Madox Ford and Violet Hunt's 1917 Diary* with Robert Secor, and *Readings in Argument*, also with Jeanne Fahnestock.

She currently is editing a collection of essays on rhetorical education and working on a book on style. She also is the author of many articles on both rhetoric and literature.

Dr. Secor received the Liberal Arts Distinguished Teaching Award in 1985 and was named as Outstanding Woman Faculty by the Pan-Hellenic Council for 1990. She is a member and past president of the Association of Teachers of Advanced Composition, and belongs to the National Council of Teachers of English and the Rhetoric Society of America, among other organizations.

She holds a bachelor's degree from the College of New Rochelle and master's and doctoral degrees from Brown University.

Bookshelf

John W. Bagby, associate professor of business law, is the co-author of *The Legal Environment of Business*.

Published by Richard D. Irwin of Homewood, Ill., the text creates an economic, social and political context for the study of business law, covers business ethics and corporate social responsibility and delves into such current issues as product safety, insider trading, consumer credit laws, tender offers and takeovers, mergers, the new plant closing law, immigration reform and the impact of the

Racketeer-Influenced and Corrupt Organizations provisions.

Legal Environment of Business was written with F. William McCarthy, chairman of the finance and commercial law department at Western Michigan University and a professor of business law.

The book is Dr. Bagby's second. Another, *Legal Aspects of the Management Process*, is expected to be published in the spring. He is the author or co-author of some 30 articles and reviews.

Ronald L. Filippelli, head of the Labor Studies and Industrial Relations Department, is the author of *American Labor*

and *Postwar Italy, 1943-1953: A Study of Cold War Politics*, published by Stanford University Press.

"Since becoming a global power, the U.S. government has viewed U.S. labor unions as key to winning support among the workers of other nations," Dr. Filippelli said.

"Labor as a major concern in American foreign policy began with the collapse of the Fascist government in Italy in 1943," he says. "As the first Axis nation to fall in World War II, Italy provided American policy-makers with their first opportunity to reconstruct a nation on the basis of political democracy and market capitalism, while protecting American strategic and

economic interests.

"As the Cold War intensified, Italy became a necessary strategic and psychological anchor for an American policy based on stabilizing Western Europe in the face of Soviet hostility."

According to Dr. Filippelli, Communists and other leftists often play an important role in the formation of unions in many developing countries, and because the American government fears that Communist-led unions will undermine friendly governments, the United States often enlists the support of the AFL-CIO to help create rival anti-Communist or non-Communist unions.

Appointments

Ernest K. Dishner, dean of the School of Education at Southwest Texas State University, has been appointed associate provost and dean of faculty at Penn State Harrisburg.

"Dr. Dishner brings important experience and a breadth of scholarly perspective and administrative skills to this position," Ruth Leventhal, provost and dean of Penn State Harrisburg, said.

Dr. Dishner holds a bachelor's and a master's degree from East Tennessee State University and a doctorate in reading education from the University of Georgia. He has co-authored a widely used textbook on the teaching of reading, now in its third edition and published nationally by Allyn and Bacon Inc.

In addition to publishing numerous professional articles in national and international journals, Dr. Dishner currently serves as editor of *Teacher Education and Practice*, the journal of the Texas Association of Colleges for Teacher Education. He is a member of the American Association of Colleges for Teacher Education Task Force on Elementary Education and the Executive Board of the Teacher Education Council of State Colleges and Universities.

During his six-year tenure as dean of Southwest Texas State University's School of Education, Dr. Dishner coordinated major revisions of that institution's teacher education program, implemented higher standards for the admission of students into the program, and established a monitoring system for evaluating students as they progressed through the program.

Arthur A. Heim, director of training and new business for the Ben Franklin Technology Center of Central and Northern Pennsylvania, Inc., has been appointed director of industrial research in the Office of Research and Technology Transfer at Penn State.

Joining the BFTC/CNP early in the life of the then-new program, Mr. Heim played a major role in the development of a wide-spread, community- and industry-based initiative.

Before coming to the BFTC/CNP, he served as director of continuing education at the Worthington Scranton Campus and area representative at the Berks Campus, in addition to positions of increasing responsibility with GE, Re-entry & Environmental Systems Division, Operational Systems Department.

He holds a B.S. in environmental resource management and an M.Ed. in

Ernest K. Dishner

industrial vocational education from Penn State. He is pursuing a Ph.D. in education at Penn State.

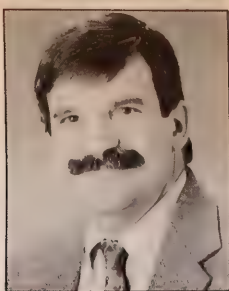

In his new position, Mr. Heim is responsible for establishing and maintaining long-term cooperative research and development efforts between industry and the university.

The objectives of the Industrial Research Office are assessment of the R&D and technology transfer needs of industry and linkage of appropriate university resources to them; continued development of an industry-driven technology transfer network throughout the Penn State system; encouragement of a "Pennsylvania First" emphasis on research developments with commercial potential, and facilitation of seminars to showcase major university intercollege centers and research programs.

ValaRay Irvin has been appointed staff psychologist and coordinator of minority student services and programs at the Center for Counseling and Psychological Services.

Dr. Irvin received her Ph.D. in counseling psychology from the University of North Carolina at Chapel Hill and B.S. and M.Ed. degrees from Southern University in Baton Rouge, La. Her internship was completed at the George Washington University in Washington, D.C., where she counseled students.

In addition to providing individual and group psychological services to University students, Dr. Irvin will plan and facilitate outreach and consultation services to University minority students.

Arthur A. Heim

Charles F. Coleman, has been appointed director of student programs and services at the Penn State Delaware County Campus. Mr. Coleman previously served at the Delaware Technical and Community College where he held a variety of student affairs posts, each with increasing responsibility.

His last position at Delaware Technical had been assistant director of continuing education. He previously had been assistant dean of student services, athletic director, counselor and basketball coach.

Mr. Coleman holds a master of education degree in counselor education from Antioch University. He received his undergraduate degree in business administration from Villanova University.

Mary Kay Cote, director of continuing education at the Delaware County Campus, has been named regional director of Continuing Education for the Greater Philadelphia area.

In addition to continuing her responsibilities at the Delaware County Campus, Ms. Cote is assuming responsibility for coordination and oversight of the continuing education operations at the Ogonz Campus and the Great Valley Center.

Ms. Cote has more than 10 years experience as director of continuing education at the Delaware County Campus and previously was involved in continuing education at two other University locations.

She earned a bachelor's degree at Seton Hill College in home economics education and a master's degree, also in home

ValaRay Irvin

economics education, from Penn State. She is completing a Ph.D. in higher education at the University of Pennsylvania.

Susan E. Lewis, manuscript editor with Penn State Press, has been named to the newly created position of assistant marketing manager for the Press.

Ms. Lewis will work with Kate Capps in the Penn State Press Marketing Department. Among her responsibilities will be contributing to sales efforts and fully computerizing the department.

Ms. Lewis was a technical writer/editor for the Institute for Research (1986-88) and a free-lance editor for Venture Publishing Inc., State College; the Pennsylvania Transportation Institute and the Graduate School at Penn State.

From 1984 to 1986, she was editor coordinator for HRB-Singer Inc., and from 1983 to 1984, she was a writer/editor for Barash Advertising, both in State College. She was a lecturer and teaching assistant with the University's Department of English from 1980 to 1986.

A recipient of a B.A. degree in American studies (1974) and an M.A. in English (1983) from Penn State, she has written many feature articles and publications and edited more than 30 books.

Obituary

Quentin M. Frankenberger, helper, Swine Center, College of Agriculture, from Sept. 16, 1966, until his retirement Oct. 1, 1978, died March 7 at the age of 63.

Focus on the arts

(Continued from page 4)

literature at University College, Dublin, and an expert on early Irish liturgy. She also has taken part in characterizing the Derrynaval treasure trove, discovered in 1980.

This Celtic pseudo-history, says guest host Michael Bernosky, is cause for reflection on the making of history. "Very frequently," he notes, "we recreate the past to serve our own needs."

"It's a universal of literature and history," agrees Nt Chathain, "but there must be a sort of matrix, a core that has some truth." If, like the Celts, she says, "you have had your particular civilization condemned and despised and annihilated, presumably you're going to react in your treatment of the civilization that has just walked on top of you."

"Odyssey Through Literature" is produced by the Comparative Literature Department and airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Centre Stage

The 1990 summer season of Pennsylvania Centre Stage, the regional professional

theater located at University Park, has been announced by Carole Brandt, artistic director. This year's productions will include the inspiring drama, "A Shynna Maide!" the lively musical, "1776," and the suspense-filled mystery, "Sleuth."

Pennsylvania Centre Stage will begin its fifth season on June 20 and run through Aug. 4 with performances held in both the Pavilion Theatre as well as The Playhouse Theater at University Park.

The season starts off with "A Shynna Maide!" (yiddish for a pretty girl), written by Barbara Lebow. It tells the poignant story of a family ripped apart by the terror of the Holocaust and then reunited years later.

Set in New York City in 1946, this emotionally gripping drama reveals the true meaning of family and the strength of the human spirit. "A Shynna Maide!" runs June 22-24, 26-30 and July 1 and 3-7 with preview performances on June 20 and 21 in the Pavilion Theatre.

The award-winning "1776," written by Peter Stone with music and lyrics by Sherman Edwards, turns back the clock to the days of our country's forefathers. Prominent historical figures such as Ben

Franklin, Thomas Jefferson and John Adams sing the praises of democracy, and are seen as genuine people filled with enthusiasm and the deep-felt love for freedom and independence.

"1776" runs July 6-8, 10-15 and 17-21 with preview performances on July 4 and 5 in The Playhouse Theatre.

The season closes with "Sleuth," written by Peter Shaffer, a cunning suspense thriller about deception, jealousy and murder with some amusing surprises! Shocking secrets and unexpected twists turn "Sleuth" into a deadly game of cat and mouse that truly keeps you wondering "who's got who?" "Sleuth" runs July 30-32, 24-29, 31 and Aug. 1-4 with preview performances on July 18 and 19 in the Pavilion Theatre.

Season subscriptions now are available. For ticket information or reservations, call the Eisenhower Auditorium Ticket Center at (814) 863-0255; open weekdays 8:30 a.m. to 4:30 p.m.

Singing Lions

The Penn State Singing Lions will perform their 1990 spring concert, "One Voice," at 7:30 p.m. Saturday, April 7, in Schwab Auditorium at University Park.

The 90-minute show will consist of a variety of choreographed and staged music

from big-band classics, movie favorites and Grammy-winning hits. The group is directed by Peter Kiefer, faculty member in the School of Music.

Several of the Singing Lion's 22 members will be featured in solos or duets. Alumni members also will join the group to sing two songs. An instrumental ensemble will provide accompaniment for the group.

The concert is free to the public.

Horn Ensemble

The Penn State Horn Ensemble will perform in concert at 12:10 p.m. Thursday, April 5, in Eisenhower Chapel at University Park. The 20-minute concert is part of the spring Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include antiphonal music by Gabrieli, an arrangement of Verdi's "Manzoni Requiem" and an arrangement of Schubert's "Die Nachtigall."

The Horn Ensemble is composed of 15 members, including undergraduate music majors and three graduate students. It is directed by Lisa Bontrager, faculty member in the School of Music.

The audience is invited to bring a bag lunch to eat after the concert. Coffee and tea will be provided.

Annual honorary engineering lecture scheduled

Public lecture set

Donald M. Alstadi, an internationally known management expert and top Lord Corporation executive, will discuss corporate involvement in university education and research in the 24th annual College of Engineering Honorary Engineering Lecture at 4 p.m. Monday, April 2, in the Keller Conference Center Auditorium at University Park.

Mr. Alstadi, chairman of the board and chief executive officer of Lord Corporation, will discuss "The Role of Corporate Academic Interrelationship in the Promotion of Legitimate Purpose of the Corporation." The lecture is free to the public.

Mr. Alstadi, an expert in the dynamics of the management of change in business and social institutions and the technical innovations process in industry, is active in the professional community, both nationally and internationally.

He is a member of the Policy Committee of the Pennsylvania Business Council, the Pennsylvania Council on Economic Education and is chairman of the Science and Technology Task Force of the Pennsylvania Economic Development Corporation.

A member of the Academy of Applied Science, he was the Academy's 1983 Francis Wright Davis Distinguished

Donald M. Alstadi

Lecturer. He is a Fellow of the American Institute of Chemists and a member of the American Physical Society, the American Chemical Society, the Faraday Society of England, the Electrochemical Society, the Institute of Management Science, the Swedish Royal Academy of Engineering Science and a Corporate Member of the Conference Board.

Mr. Alstadi is involved in advisory

councils of several universities, including Penn State, The Behrend College, MIT, Carnegie Mellon University and the University of Southern California.

The Engineering Honorary Lecture series, co-sponsored by PSES, the Penn State Engineering Society, brings outstanding engineers in business, education and government to University Park.

This year's lecture coincides with the College of Engineering Key Executive Seminar. This invited, two-day seminar will bring corporate leaders from across the United States to campus to discuss "Human Resources in Engineering and Technology: How Will We Meet the Nation's Requirements?"

Bookshelf

Modern Egypt: The Formation of a Nation State, written by **Arthur Goldschmidt Jr.**, professor of Middle East history, has been selected as an outstanding book of 1989 by *Choice* magazine. The publisher is Westview Press of Boulder, Colo.

Dr. Goldschmidt's book includes thorough coverage of the presidencies of Gamal Abd al-Nasir (1954-70) and Anwar Al-Sadat (1970-81).

Frank Gibney, vice chairman of the Board of Editors, *Encyclopaedia Britannica*, will discuss "A New Japanese Translation Project: Correcting the Cultural Trade Imbalance" at 12:30 p.m. Saturday, March 31, in the Kern Graduate Center cafeteria at University Park.

The public lecture, sponsored by the Center for East Asian Studies in cooperation with the American Comparative Literature Association, is part of the Association's annual conference.

In addition to his position with the *Encyclopaedia Britannica*, Mr. Gibney is vice-chairman of TRS-Britannica Co. in Tokyo. In that capacity, he directed the translation of the 28-volume *Britannica International Encyclopaedia* into Japanese and of the *Concise Encyclopaedia Britannica* into Chinese.

Before joining Britannica, Mr. Gibney was a *Time-Life* correspondent and editor and senior editor of *Newsweek*. He is president of the Pacific Basin Institute and vice-chairman of the Japan-U.S. Friendship Commission.

Mr. Gibney has written nine books and numerous articles on Asian affairs, and teaches as an adjunct professor of Far Eastern Studies at the University of California, Santa Barbara.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling.

The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in promotion **MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304.**

NETWORK LINE 433-0304. Applications for these staff vacancies will be accepted until April 5. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (FES-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

*** Engineering Support Specialist, Management and Systems Engineering, University Park Campus** - Responsible to a senior systems analyst for providing technical assistance on computer and data communication services to include installation of data communications systems, special purpose data lines, LANs, gateways, networks and maintenance. An associate degree, or equivalent, in computer science or electronics engineering, plus two to three years of effective experience in programming, data processing, microcomputer operation and a knowledge of programming languages is desirable. **STAFF GRADE 5.** This is a fixed term position funded through June 30, 1990, with excellent possibility of re-funding.

*** Technical Writer/Editor, Computer and Information Systems - Executive Director, University Park Campus** - Responsible to the executive director of Computer and Information Systems for organizing and conducting effective

programs for information dissemination on the activities, resources and services of C&IS. Prepare reports, press releases, guides and speeches, etc. Requires bachelor's degree, or equivalent, plus one to two years of effective experience. Strong technical writing skills and excellent written and verbal communication skills are required, as well as experience in a data processing environment. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH DECEMBER 1990. STAFF GRADE 6.**

*** Applications Programmer/Analyst, Office of Budget and Resource Analysis, University Park Campus** - Responsible to a lead applications programmer/analyst in the Decision Support Systems group for conducting analyses of data processing and customer data problems, determining detailed requirements to solve problems, formulating logical statements of systems problems and preparing computer programs to produce desired results. Requires bachelor's degree, or equivalent, in computer science or related field, plus one to two years of effective experience in computer programming and analyses. **STAFF GRADE 6.**

*** Clinical Nurse Specialist - Pediatric, CT Surgery, University Hospital, Nursing Administration, The Milton S. Hershey Medical Center** - Responsible to the surgery chief of a defined section and an assistant director of nursing for providing nursing expertise within his/her clinical specialty and for managing and providing care for the surgical patient using collaborative consultation with team members and written protocols. Requires master's degree in nursing, plus one to two years of effective clinical experience in area of expertise and current licensure by Pennsylvania State Board of Nursing as a nurse practitioner. Certification in specialty area is desirable. **STAFF GRADE 7.**

*** Medical Social Worker II, College of Medicine, The Department of Social Services,**

The Milton S. Hershey Medical Center - Responsible to the social services coordinator for providing inpatient and outpatient medical social services and providing practical help and emotional support to patients and their families. Requires master of social work degree from an accredited college or university and equivalent one to two years effective experience. **STAFF GRADE 6.**

*** Nursing Manager - Evenings, University Hospital, Nursing Administration, The Milton S. Hershey Medical Center** - Responsible to the assistant hospital director/director of nursing services for directing, supervising, coordinating and evaluating all activities of the Department of Nursing on assigned shifts and/or area of responsibility. Requires master's degree, plus one to two years of effective hospital nursing experience, or bachelor's degree with two to four years of effective hospital nursing experience, plus registered professional nurse currently licensed by the Pennsylvania Board of Nursing. **STAFF GRADE 7.**

*** Operations Center Coordinator, College of Medicine, The Department of Physical Plant, The Milton S. Hershey Medical Center** - Responsible to the assistant director of physical plant, utilities and energy, for monitoring, adjustment and change functions for the automatic temperature control systems serve as Department of Physical Plant representative at night. Requires high school education, plus training in air conditioning, heating and ventilating equipment, and pneumatic and electronic temperature controls. No less than two to three years of effective experience. Experience in a supervisory capacity highly desirable. **THIS POSITION WORKS ANY OF THREE SHIFTS, INCLUDING WEEKENDS AND HOLIDAYS. STAFF GRADE 5.**

*** Enterostomal Therapist, University Hospital, Nursing Administration, The Milton S. Hershey**

Medical Center - Responsible to the director of nursing services and/or an assistant director of nursing services for the preoperative preparation and teaching of patients requiring surgery resulting in the patient having a stoma. Requires a registered nurse currently licensed by the Pennsylvania Board of Nursing to practice nursing and successful completion of an accredited school for Enterostomal Therapy (accreditation by the International Association for Enterostomal Therapy) and one to two years effective experience and personal certification or working toward permanent certification by the IAET. **STAFF GRADE 5.**

*** Development Assistant, Division of Development and University Relations, Penn State Erie, The Behrend College** - Responsible to the director of development, senior development officer, for assistance in the organization and implementation of fund-raising programs and related activities at Penn State-Behrend. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in public relations, fund raising or related field. Proficiency in verbal and written communication skills is highly desirable. Willingness to travel is essential. **THIS IS A FIXED TERM POSITION, FUNDED THROUGH JUNE 30, 1990, WITH EXCELLENT POSSIBILITY OF RE-FUNDING FOR ONE YEAR. STAFF GRADE 6.**

*** Nurse/Health Services Coordinator, Student Affairs, Penn State Harrisburg** - Responsible to the director of student affairs for the coordination of the college Health Services Program and for providing health care to students and emergency treatment to faculty, staff and students. Requires bachelor's degree in nursing, or equivalent, and current licensure in Pennsylvania as a registered nurse, plus two years of effective experience in emergency room or family practice nursing. **STAFF GRADE 5.**

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 863-7517.

Four faculty will receive Lindback teaching award

Four faculty members have been selected to receive the Christian R. and Mary F. Lindback Award for Distinguished Teaching at the University Awards Convocation at 2 p.m. Sunday, April 8, in Eisenhower Auditorium at University Park.

Recipients are **Edward W. Bittner**, associate professor of chemistry, Penn State McKeesport Campus; **Dennis F. Brestensky**, associate professor of English, Penn State Fayette Campus; and **James M. Rambeau**, associate professor of English, and **Harry H. West**, professor of civil engineering, University Park.

The Lindback Award, presented annually since 1958, honors faculty members whose main responsibility is teaching undergraduate students. Each recipient will receive a certificate and \$1,000.

Dr. Bittner, a member of the McKeesport Campus faculty for more than 19 years, "is without a doubt one of the most popular

and effective teachers at McKeesport," according to a colleague. Dr. Bittner consistently receives 6.0 and higher ratings (out of a possible 7.0) for his teaching from students.

He describes the major aspect of his philosophy of teaching as caring. "Of highest consideration for one to be an effective teacher is that of caring, caring that the students are properly motivated to enter the learning process. A teacher who cares about students will make the adjustments necessary to promote active learning," he says.

One student writes: "The teacher cared about us learning. He presented the material in an easy, understandable manner. He used the board to show everything we needed to know. He learned all of our names. And most of all, he made it interesting and fun to learn."

Dr. Bittner received a B.S. in chemistry

from Penn State in 1960 and a Ph.D. in physical organic and bio-organic chemistry from the University of California, Santa Barbara, in 1970, and did postdoctoral work at the University of Pittsburgh.

Dr. Brestensky, a member of the Fayette Campus faculty for more than 24 years, "exhibits an extraordinary dedication to giving personal attention to his students," a colleague writes.

"The basic philosophical assumption underlying my teaching," he says, "is that the whole person needs to be educated. For the student, we need to emphasize not only the knowledge of subject matter, but also awareness and understanding of self, others and the world."

One of his students writes: "Dr. Brestensky is a natural instructor. Students sense and respect his knowledge of English composition, grammar and literature. He encourages and challenges a person to think

not so much in a memorization fashion, but in an active, creative way."

Three-time recipient of Fayette Campus teaching awards, Dr. Brestensky earned a B.A. degree in English from St. Joseph College, Rensselaer, Ind., in 1963, an M.A. in English from Duquesne University in 1965 and an Ed.D. in English curriculum and instruction from West Virginia University in 1975.

Dr. Rambeau has been a member of the English Department faculty since 1970. During that time, he has directed 32 undergraduate honors theses, more than any other department faculty member. He was director of the Composition Program from 1984 to 1986 and he has been associate head since 1987.

He is described by one colleague as "a superior teacher of composition courses from the introductory freshman level

Instructor in Agriculture is being honored for advising

A faculty member in the College of Agriculture will receive the 1990 Excellence in Advising Award at the upcoming Awards Convocation.

David E. Hall, instructor in agricultural and extension education, will receive a plaque and cash gift at the convocation at 2 p.m. Sunday, April 8, in Eisenhower Auditorium.

The award was established by the Undergraduate Student Government's Academic Assembly and is sponsored by each college. It annually honors full-time faculty based on excellence in general advising, academic and career guidance, enthusiasm, and assistance in decision-making and goal-setting.

"I try to look at advising on an individual level," Mr. Hall said. "In a large university, you can get caught up in large-scale activities, but advisers have to remember each student is an individual with a unique background."

"I base my advice on where the students have been and where they want to go, and then give them the freedom to make their own decisions."

Mr. Hall has taught agricultural and extension education at the University Park Campus since 1986, and coordinates the department's occupational competency

evaluations for assessing students' teaching competencies. He advises nearly one-third of the University's "ag ed" majors, the Collegiate FFA Chapter, and the Sigma Phi Epsilon fraternity.

"He has a keen interest in helping his students achieve the goals they have set for themselves," wrote one student in

David E. Hall

Smicklas-Wright to receive the 1990 McKay Donkin Award

Helen Smicklas-Wright, professor of Nutrition in the College of Health and Human Development, is the 1990 recipient of the McKay Donkin Award.

The Donkin Award recognizes the full-time faculty or staff member or retiree who has contributed the most to the "economic, physical, mental or social welfare of the

faculty" of the University. It will be presented during the Awards Convocation at 2 p.m. Sunday, April 8, in Eisenhower Auditorium.

Established in 1969 in honor of the late McKay Donkin, who served as vice president for finance and treasurer of the University from 1957 to 1968, the award consists of a certificate and a \$500 check.

Dr. Wright came to Penn State in 1965 as a graduate assistant. In 1969 she became a research assistant in the postdoctoral program. She was named assistant professor of nutrition in the Division of Biological Health the following year and in 1975 began 10 years as associate professor in the Nutrition Program. She was named stet professor in 1983.

She earned a bachelor of arts degree in home economics and a master's degree in nutrition from the University of Toronto and her doctorate in nutrition from Penn State.

Dr. Wright has written or co-written more than 40 published articles and has written five books or parts of books.

"I feel her contributions have been above and beyond her regularly scheduled duties and are outstanding and exemplary of the spirit of the McKay Donkin Award," writes

Helen Smicklas-Wright

Focus on Diversity

Diversity Opportunities Calendar

Saturday, April 7

Paul Robeson Cultural Center 5:30 p.m.
Robeson Center "A Touch of Africa"
(dinner, show, dance).

Sunday, April 8

Penn State NAACP chapter, 5 p.m.,
Eisenhower Auditorium. Public lecture:
Filmmaker Spike Lee
NAACP, 5 p.m., Days Inn Penn State
Annual Achievement Awards banquet
Guest speaker Spike Lee

Monday, April 9

The Lesbian and Gay Alliance, HUB
Assembly Room. Film: "Witches, Dykes,
Faggots and Poofers."

Tuesday, April 10

Women's Studies, Penn State Berks
Campus. Jo Searies on "Women Making
Waves: Changes in Women and Writings."
Also April 11, Penn State Worthington
Saratoga.

Wednesday, April 11

Penn State Erie, The Behrend College, 8
p.m., Wintergreen Cafe. Cultural Festival.

Thursday, April 12

Women's Studies 1:30 to 3:30 p.m., 12
Sparks. Women's Studies Faculty/Advisory
Committee meeting. Faculty and students
invited.

Workshop on Latin America is scheduled

The Central Pennsylvania Collaborative for
International Education will present a
workshop on Latin America Monday, April
9, at the Keller Conference Center at
University Park. The workshop is based on
a Tinker Foundation-funded social studies
mini-course developed by Tulane
University's Latin American Curriculum
Resource Center.

The purpose of the workshop, which will
be held from 9 a.m. to 3:30 p.m., is to
encourage an interdisciplinary approach to
teaching about Latin America, using up-to-
date and creative materials. It is designed
for teachers of various disciplines in upper
elementary through high school grades who
want to integrate Latin America into their

curricula.

A major focus of the workshop will be
the 20-unit course developed from the
Tinker Foundation grant. Four complete
units on Pre-Columbian civilization, African
American tradition, environmental issues
and narco-trafficking will be showcased.
Linda Curcio-Nagy, director of Tulane's
Latin American Curriculum Resource
Center, will be workshop leader.

The University Office of International
Programs is sponsoring the workshop in
cooperation with Juniata College and local
school districts.

For more information, write or phone
Jack Sinclair, 409 Keller Conference Center,
(814) 863-2035.

Spike Lee will be guest speaker at NAACP banquet

Award-winning writer-director and film star
Spike Lee will be the guest speaker at the
Penn State NAACP chapter's Third Annual
Award Banquet Sunday, April 8.

The filmmaker also will speak about his
films, the racial climate in America, his
personal experiences and victories over the
Hollywood system to the general public at
5 p.m. in Eisenhower Auditorium at
University Park.

Tickets for the public presentation are
free, but are available only at the Center

for the Performing Arts Ticket Center in
Eisenhower Auditorium.

University faculty, staff and local
community ticket distribution will be from
1 to 4:30 p.m. today and 8:30 a.m. to 4:30
p.m. Friday, April 6. No telephone
reservations will be accepted.

The banquet will begin at 6 p.m. in the
Parliament Square Ballroom of the Days
Inn Penn State Hotel. Tickets may be
obtained by calling (814) 867-8694.

Recently nominated for an Academy
Award for his 1989 blockbuster movie "Do
The Right Thing," Mr. Lee surged to the

'Black Wings' exhibit is on display

"Black Wings," now on display in the HUB
Formal Gallery, University Park, is a
presentation of African-American men and
women who participated in aviation
history.

The SITES (Smithsonian) exhibition
includes "Headwinds" on black flight
schools, "Flight Line" on blacks' changing

role just prior to WW II, "Wings for War"
covering 1941-45 and the black role during
the war effort, and "Era of Change"
concentrating on aspects of black influences
in commercial aviation.

Gallery hours are noon to 7 p.m.
Monday through Thursday and noon to 5
p.m. Friday and Saturday.

477th Bombardment Group

forefront of the independent film
movement in 1986 for his movie "She's
Gotta Have It," which depicts the
relationships and sexual attitudes of a
young independent woman. The movie
won the Best New Director award at the
Cannes Film Festival that year.

Mr. Lee shot the film in just 12 days
with a budget of about \$175,000 and
created the character of Mars Blackman. He
still plays that character today in the
famous Nike Air Jordan commercials with
Chicago Bulls superstar Michael Jordan. Mr.
Lee also directs the commercials.

In 1988, his second feature film "School
Daze," which looked at black college and
fraternity life, became Columbia Pictures'
most profitable film of that year.

Organized in 1909, the National
Association for the Advancement of
Colored People is an inter-racial, interfaith,
nonpartisan and social action organization.
The Penn State Chapter, chartered July 5,
1987, has more than 200 members and has
won numerous national honors including
the recent Northeast Region Director's
Programmatic Striving for Excellence
Award.

Lecture series

Linda Curcio-Nagy, director, Latin
American Curriculum Resource Center,
Tulane University, will discuss "Funding
Opportunities for Projects with Latin
America" from 2:30 to 4 p.m. Tuesday,
April 10, in 222 Boucke Building,
University Park. Her lecture is part of the
University Office of International Programs'
International Lecture Series.

WPSX-TV programs

"Break of Dawn," the remarkable true story
of America's first Spanish-language radio
and recording star, who was eventually sent
to jail by corrupt politicians on false
charges of rape, will have its television
premier on *American Playhouse* at 9 p.m.
Wednesday, April 11, on Channel 3.

Written and directed by Isaac Arstenstein,
"Break of Dawn" is the story of Pedro J.
Gonzalez who, during the Depression years
in southern California, hosted the first
Spanish-language daily radio show in the
United States.

Mr. Arstenstein, who was born in San
Diego of Mexican parents and grew up in
Tijuana, originally filmed the story of
Pedro J. Gonzalez as a documentary in
1983, receiving numerous honors including
an Emmy, the Cine Golden Eagle, the
Golden Mike Award and the Blue Ribbon
at the American Film Festival.

"Break of Dawn" sheds light on the

subterranean nature of culture and politics
in Los Angeles of the 1930s, while
recounting the compelling true story of a
man's struggle against a powerful and
corrupt system.

Ogontz festival

Penn State Ogontz Campus will host a
Multicultural Festival from 12:30 to 1:30
p.m. Wednesday, April 18, in 112 Lares
Building.

The festival, a combined effort of the
Ogontz Cross Cultural Connection Club
and students/faculty/staff, will feature an
exchange of international foods, cultural
displays (decorations, dress, holidays and
rituals, music, language) and group
presentations. Lee Downing, assistant to the
director of student programs and services,
said.

The goal of the festival is to foster a
"sharing and understanding through the
college life experience." For many students,
college is the first opportunity to interact
with people of other races, Mr. Downing
noted.

Each ethnic representation in the festival
will include a flag highlighting the group's
nationality. In addition, a "Best Cultural
Display" award will be presented to the
first- and second-place winners in the
cultural exchange portion of the festival.

The "Make a Change Award" will honor
an individual or group of individuals who
represent a positive role model for students

to emulate, make an outstanding
contribution in improving cross-cultural
relations, promote and advocate improved
race relations or demonstrate a commitment
to the spirit of encouraging understanding
between persons of different races, sexes,
religious heritage and ethnicity.

Exchange project

The U.S. Information Agency has selected
Penn State as one of three universities
nationwide to participate in the African
Studies/American Studies Youth Exchange
Project.

The project, designed to enhance already
existing linkages between the African and
American institutions, offers graduate-level
students and beginning teachers of English,
French, African, American studies and
related subjects an opportunity for a direct
exchange of ideas, M. Marlene Ramirez
explains.

Dr. Ramirez, coordinator of
interdisciplinary international opportunities
for the University Office of International
Programs and International Programs in
Agriculture, organized the recent visit of
Jacqueline Manirakiza, Aloys Nduwayo,
Fabienne Jeanne Gomis, El Hadi Malick
Mbaye, Kadiotou Sow and Jean-Pierre
Mouriba of the University of Bujumbura,
Burundi.

Two Penn State students will visit the
University of Bujumbura this summer as
part of the exchange program.

While at Penn State, the six visitors
attended classes in American studies,
roundtables and informal discussions with
members of the Black Studies Program and
graduate students in French and
comparative literature. They stayed with
local families and were escorted to various
activities by Penn State student hosts.

The other universities participating in the
youth exchange program are the University
of Iowa/University of Ouagadougou,
Burkina Faso, and Michigan State
University/University of Dakar, Senegal.

Guest speaker

Sue Kennitzler, a member of the
engineering directorate at NSF and former
chair of the congressional task force on the
status of women, minorities and the
handicapped in science and technology, will
speak at 8 p.m. Tuesday, April 10, in 101
Kern Building at University Park.

She will present the results of her study,
"Changing America: The New Face of
Science and Engineering."

The event is co-sponsored by the
Women's Studies Program, No Chapter of
Sigma Delta Epsilon (Graduate Women in
Science), the Women in Engineering
Program, and the Office of the Senior Vice
President for Research and Dean of the
Graduate School.

Advising Award

(Continued from page 1)

nominating Mr. Hall for the award. "Despite all the demands of his family, the department, and his graduate studies, he is always there for students if they should have a problem."

A native of Oregon, he has worked there as a vocational agriculture instructor and a game bird farm and shooting preserve manager. He also has worked in Oregon State University's Cooperative Extension Service Horticulture Department.

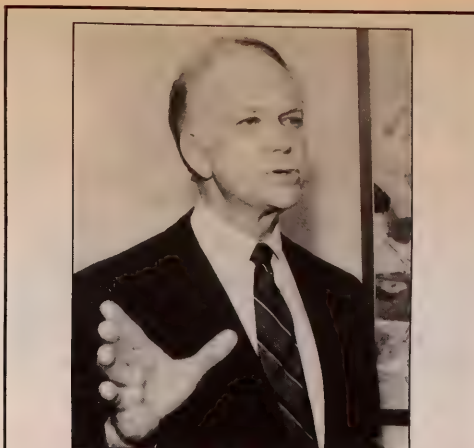

Among other organizations, he is a member of the American Association of Teacher Educators in Agriculture and the American Vocational Association.

Also a member of the National Vocational Agriculture Teachers' Association, he won its Teacher of Teachers Award in 1987 and was named the Nation's Outstanding Young Ag Teacher in 1980.

Other honors include receiving Penn State's Kozak Fellowship Award in 1987, and the Oregon Agriculture Teacher of the Year award in 1986. He was named Oregon's Outstanding Teacher of Vocational Agriculture an unprecedented four years in a row, 1983-86.

He has published a record book and instructor's manual for the Pennsylvania Vocational Agriculture Supervised Occupational Experience program, and *A Handbook for Undergraduate Students in Agricultural Education*.

Mr. Hall received his bachelor's and master's degrees from Oregon State University, and will complete doctoral work at Penn State this summer.

Bob Packwood

Sen. Bob Packwood, R-Ore., visited the University Park Campus on March 26. Sen. Packwood, ranking Republican and former chairman of the Senate Finance Committee, held a news conference and spoke to undergraduate and graduate classes on federal tax policy and other issues facing Congress. The senator, whose son, Bill, is a senior at Penn State, was a guest of the graduate program in policy analysis, the College of Business Administration, and the Department of Political Science. (Photo: Dave Shelly)

Donkin Award

(Continued from page 1)

a colleague.

In 1979 Dr. Wright was a co-recipent of the National University Extension Association Meritorious Award for Independent Study course, and in 1982 she was given the Evelyn R. Saubel Faculty Award in the College of Human Development for commitment to human service and advising of students.

She served three terms on the college tenure and promotion committee and currently is in the second year of a two-year term on the University tenure and promotion committee. She is a member of the Gerontology Center's advisory board and was instrumental in the formation of the Intercollege Graduate Program in Nutrition and served for three terms on that program's steering committee.

At the University level, Dr. Wright served on the human subjects research review committee from 1979 to 1986, on the University Faculty Senate from 1976 to 1978 and 1981 to 1984 and on the University Graduate Council from 1985 to 1989.

Dr. Wright's expertise in dietary assessment led to her appointment to the coordinating committee on evaluation of food consumption surveys, Food and Nutrition Board, National Academy of Sciences, from 1983 to 1985 and her appointment as chairman of the Pennsylvania Public Health Nutrition Workgroup by the Pennsylvania Department of Health in 1989.

Task Force to consider issues facing adult students

A Task Force on Adult Student Life and Learning has been appointed to consider problems and issues facing adult students at Penn State.

The task force, appointed by Janet Atwood, chair, University Faculty Senate,

and William C. Richardson, executive vice president and provost of the University, is to review recommendations made in two earlier studies on adult students and to assess: the feasibility of each recommendation; what would be required

for implementation, and the implementation steps that already have been taken.

The task force also is charged with: "Developing recommendations for a program to help sensitize faculty to the challenges and opportunities of working with adult students in both the instructional and research environments."

"Recommending steps to ensure that administrative and financial systems are sensitive to the characteristics of adult students."

"Developing criteria for a plan of advising which addresses the special needs of adult students."

"Making recommendations for an ongoing system to provide the services needed by adult students."

"Recommending ways to enhance the campus/student life of adult students."

Eric R. White, director of the Division of Undergraduate Studies, is task force chair. Members are: Brian C. Clark, Barbara A. Copland, Fred Ehrhart, Robert W. Evans, Warren R. Haffner, Charlene H. Harrison, Evelyn A.

Hovanec, Daniel Maier-Katkin, John C. Marshall, James T. McKee, James Mortensen, Judith L. Newman.

Larry R. Pollock, Carolyn Prager, June P. Roarabaugh, Jovita Ross-Gordon, John R. Saunders, Gaye W. Sheffield, Brian B. Torney, Kenneth E. Varcoe, and Carol L. Everett, staff.

The chair invites comments regarding adult students from the University community. Input may be provided in writing to Dr. White, 117 Grange Building, University Park.

Dr. Murphy receives NATO fellowship

Susan A. Murphy, associate professor of statistics in the Eberly College of Science, was among 55 young scientists awarded NATO Postdoctoral Fellowships by the National Science Foundation.

Dr. Murphy was selected from 246 applicants for the awards, which enable young scientists to pursue full-time postgraduate study abroad at institutions and laboratories in NATO countries or in neighboring countries that cooperate with NATO.

During summer and fall semester, she will conduct research in survival analysis and counting processes at the University of Utrecht, the Netherlands, with Richard Gill as her scientific adviser.

Dr. Murphy earned her doctoral degree in statistics last year at the University of North Carolina, Chapel Hill. A 1980 graduate of Louisiana State University, Baton Rouge, with a bachelor's degree in mathematics, she earned a master's degree in applied statistics at Tulane University, New Orleans, in 1983. While at the University of North Carolina, she held a Limited Service Graduate School Assistantship from 1984-85 and a George E. Nicholson Jr. Fellowship from 1985-86.

A member of the Institute of Mathematical Statistics, she also is a member of the Bernoulli Society and the American Statistical Association.

Lindback

(Continued from page 1)

through honors to the most advanced composition at the 400-level. He has excelled in teaching every era and every genre of American literature, his specialty, at every level, and he has created more new undergraduate courses than any of his colleagues."

Another colleague writes: "Stimulating his students to strive for excellence, demanding that excellence in performance and caring for his students, all mark Dr. Rameau as a distinguished teacher."

One of Dr. Rameau's students credits him with a "genuine, irrepresible and enduring" interest in his students. Another writes: "He respected his students and made it clear that he valued our opinions. He didn't try to impose a pet critical theory on discussions; he didn't tell us how to read a poem. He seemed to believe that there were as many readings of a work as there

were students in a class."

Dr. Rameau earned an A.B. degree from Kenyon College in 1960 and a Ph.D. from Rutgers University in 1971.

Dr. West joined the College of Engineering faculty as an assistant professor of civil engineering in 1967. He has been awarded the college's Outstanding Teaching Award (1975) and Premier Teacher Award (1986), as well as the Western Electric Award for excellence in teaching (1977) from the American Society of Engineering Education.

He explains his philosophy of teaching as "giving students a sense that you care, that you feel teaching is important and that you like doing it." He believes in being well prepared before entering the classroom and uses a teaching strategy that involves the students.

One student writes: "His command of the subject area is exemplified by his various activities in the field of structural engineering, including research, publications and consulting." Another notes: "His

teaching methods are superior. He has a full command of the subject and continually displays a genuine concern for his students."

Dr. West earned B.S. (1958) and M.S.

(1961) degrees in civil engineering from Penn State and a Ph.D. in civil engineering from the University of Illinois, Urbana, in 1967.

Bookshelf

Allan Quigley, assistant professor of education, has edited a book titled *Fulfilling the Promise of Adult and Continuing Education*. Included in the book, published by Josey-Bass, is an authored chapter, "Influencing Social Policy."

Jovita Ross-Gordon, assistant professor of education, authored a chapter in the book titled "Reaching and Involving Multicultural Groups."

Dr. Merritt to assist committee

Thomas L. Merritt, chair of the University Presidential Search and Screen Committee, has agreed to a request from J. Lloyd Huck, chair of the Trustee Presidential Selection Committee, to participate in an advisory capacity during the interview process for candidates being considered for Penn State's next president.

"I am very pleased that Dr. Merritt is able to devote his time to this important task," Mr. Huck said. Mr. Huck, who also serves as chairman of Penn State's Board of Trustees, said Dr. Merritt's

views will be helpful to the Board as it meets its responsibility to select Penn State's 15th president.

Dr. Merritt, professor of animal science and immediate past chairperson of the University Faculty Senate, said he welcomed the opportunity to assist the trustees in any way they deem appropriate throughout the presidential search. "We want to do all we can to attract a new president who will build on and continue the progress registered by the current administration," he said.

Focus on the arts

Book-signings

The Penn State Bookstore on Campus will sponsor four book-signings for local authors during the next week.

Charles Meek is the featured author from noon to 2 p.m. Friday, April 6. He will sign and discuss his new books: *Pennsylvania Trout Streams and Their Habitats* and *Meeting and Fishing the Habitats*. A noted fly fisherman and outdoors writer, he was a director and later regional director for the Continuing Education Department before retiring with 25 years service. He also will take part in a book-signing from 9 to 11 a.m. Saturday, April 7, at the Fireside Room in the Nittany Lion Inn.

Jim Morrow, guest lecturer in the English Department and local science fiction writer, will be featured at the bookstore from noon to 2 p.m. April 9. When he will sign copies of his new book *Only Begotten Daughter*. He is the winner of the 1988 Nebula Award for his short story "Bible Stories for Adults No. 17, The Deluge."

Joe Humphreys, instructor of fly-fishing for 13 years and internationally renowned fisherman, will be the featured author from noon to 2 p.m. April 10. He will sign and discuss his latest book *On The Trout Stream With Joe Humphreys*.

Local author Linda Rivers will be featured at the bookstore from noon to 2 p.m. April 11. Mrs. Rivers will sign and discuss her non-fiction book *Through Her Eyes, A True Story of Love, Miracles and Realities*. Originally published in a condensed version for *Reader's Digest Magazine*, her book is an inspirational account of her daughter's life and death at age 14; and as a consequence, how special programs for disabled children were developed. A portion of the proceeds from the sale of the book will go to the Lions Club Sight and/or Eyebank Programs.

All of the authors' books will be offered at a 20-percent savings during the book-signing sessions. For more information, call Elizabeth Wilson at 863-3250.

University Readers

Adapting to change will be the theme when the University Readers present two Eddie Nichol Award-winning stories at 8 p.m. Friday and Saturday, April 6 and 7, in 112 Kern Building at University Park.

"Later That Summer..." by Mariska van Aalst will be directed by Nicole Brown, and "Making the Cut in Cattail, Pa." by Dan Vergano will be directed by T.D. Pignetti. The other winner of the Nichol Award for his year was Sean Murray for his "Shelter from a Storm."

Cast members for "Later That Summer..." include Jay Biondi as the narrator; Abby Thompson as Mieke; Mark Shapiro as Gina; and Michael Segan as Joost. Michael Schlesinger will assist director Brown.

The cast of "Making the Cut in Cattail, Pa." will include Jeff Cole as narrator;

Jane Bastien is one of the guest artists at the Piano Weekend at Penn State April 6 and April 7 at University Park.

The University Resident Theatre Company will present Peter Weiss's French Revolutionary play "Marat/Sade" at 8 p.m. April 13 to 21 in the Playhouse Theatre.

David Lioen as Shunk; John Penkrat as Bobby; and Angie Orlando as the girl. "Later That Summer..." is about a young woman's adjustment to the imminent divorce of her parents, while "Making the Cut in Cattail, Pa." concerns a young boy's adjustment to life as a new resident of rural Pennsylvania.

The arts on Channel 3

"Uncommon Women and Others," Pulitzer Prize-winning playwright Wendy Wasserstein's highly acclaimed exploration of the choices and challenges facing modern women, encores on *Great Performances* at 9 p.m. Friday, April 6.

The play, starring Meryl Streep, Swoosie Kurtz and Jill Eikenberry, focuses on five graduates of Mount Holyoke, a prestigious college for women, who meet in a restaurant to evaluate their lives and careers.

A plethora of mandolin virtuosos, featuring music from Bach and Stravinsky to bluegrass, jazz and ragtime, kicks off the fourth season of *The Lonesome Pine Specials* airing at 9 p.m. Saturday, April 7.

"Mando Magnifica" is a summit meeting of excellent mandolin players with a kaleidoscope of musical styles.

'Piano Weekend'

The School of Music will sponsor a "Piano Weekend at Penn State" for independent and college piano teachers April 6 and 7 at University Park. The program will open at 3:30 p.m. Friday and end at 3:30 p.m. on Saturday.

Guest artists will include Barry Snyder from the Eastman School of Music and Jane Bastien, an internationally renowned composer, author and piano teacher.

Mr. Snyder will present a master class for piano majors in the School of Music. Ms. Bastien will present a seminar describing her teaching approach, as well as a master class with children in the local area.

Registration fee for the weekend is \$25. For more information, contact Timothy Shafer at (814) 863-4413.

Patee exhibit

The West Lobby Gallery and the Lending Services Gallery of Patee Library at University Park are hosting works for art education graduate students through April 23.

The annual show includes paintings, drawings, ceramics, computer graphics, and more. The show reflects a wide variety of student interests, as well as the cultural backgrounds of the participants.

'Endangered Imagination'

The East Corridor Gallery of Patee Library at University Park will feature "Beasties" (ceramic animals) as created by Susan Harter in an exhibit titled "Endangered Imagination," through April 20.

Ms. Harter's "Beasties" are constructed from thrown clay forms and hand-built slabs. They are fired using a variety of techniques, such as pit firing, raku, and salt firing. Several of the creatures are adorned with neck ties, hats, aprons, etc.

Ms. Harter received her B.A. in natural science from Lock Haven University and her B.A. in art from Penn State. Currently, she teaches art in the State College School District. Her purpose for the exhibit is to remind people of the variety of creatures that enrich our world, and the importance of conserving natural resources to ensure the future existence of these creatures.

History colloquium

Dale B. Light Jr., assistant professor of history at the Penn State Schuylkill Campus, will discuss "Rome and the Republic: Protestant-Catholic Conflict in Antebellum Philadelphia" at 4 p.m., Tuesday, April 10, in the Memorial Lounge of Eisenhower Chapel at University Park.

Dr. Light's presentation is part of the ongoing Department of History Colloquium.

Art history lecture

A specialist in early European urban development and city planning will present the lecture "Architects of Power: Castellamonte, The Savoy and the Dynastic Edification of Turin" at 8 p.m. Tuesday, April 10, in 112 Walker Building at University Park.

The lecture is the fourth in the spring semester series "The World and the Italian Architect: Native Images and Reflections Abroad," sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Martha Pollak, assistant professor of the history of architecture at the University of Illinois, Chicago, has focused her recent research on the city of Turin; the history of its planning and the role of leading architects and patrons in its design.

Ms. Pollak will discuss the influence of the family dynasty, the kings of Savoy, who ruled Piedmont during the 17th century in the precarious position between France and Spain.

Author of numerous articles and reviews, including two major studies on Turin in the *Journal of the Society of Architectural Historians* and the *Art Bulletin*, Ms. Pollak has become a recognized specialist on ideal cities, fortresses, city planning, cartography and urban development from the Renaissance through the Baroque periods.

The lecture is free to the public. A reception will be held in the lobby of Walker Building after the presentation.

Odyssey on WPSU

The Bari Indians of Venezuela and Colombia live in a world of concentric rings: their houses are oval, surrounded by the rings of crops in their fields, and the

rainforest at the edge of the clearing.

On "The Bari's World of Rings," the next edition of "Odyssey Through Literature," anthropologist Stephen Beckerman explores with host Leonard Rubinstein what thinking of the world as a series of circles might mean to the Bari.

"What I'm curious about," Professor Rubinstein says, "is why this particular civilization prefers to remain with that particular geometric design." Bari culture, he discovers, is graceful and smooth, with no harsh angles even in its social relationships.

"I never so much as heard an adult raise his voice to another adult," Professor Beckerman says. "They enjoyed a civil peace that was absolutely astonishing. When two people are not getting along, one of them just picks up and leaves."

"The moment that a collision -- which is an intersection -- threatens to happen," Professor Rubinstein comments, "they simply move away."

"Odyssey Through Literature" is produced by the Comparative Literature Department and airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Pennsylvania Quintet

The Pennsylvania Quintet will present its spring concert at 8 p.m. Wednesday, April 11, at Recital Hall in the Music Building at University Park.

The program will include the "Six Bagatelles" (1933) by Transylvanian composer Gyorgy Ligeti, the "Eight Studies and a Fantasy" (1950) by Elliott Carter and the "Quintet in D minor," Op. 88, No. 4, by Anton Reicha, a contemporary of Beethoven.

The Pennsylvania Quintet, composed of faculty members in the School of Music, was founded in 1984 and has concertized throughout the East and Midwest. Members include Eleanor Duncan Armstrong, flute; Barry Kroeker, oboe; Smith Toulson, clarinet; Lisa J. Bontrager, horn; and Daryl Durran, bassoon.

Lenten music

Five students from the voice studio of Suzanne Roy, faculty member in the School of Music, will perform in concert at 12:10 p.m. Thursday, April 12, in Eisenhower Chapel at University Park. The 20-minute concert is part of the spring Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will consist of music for Lent and Holy Week, including selections by Handel, G. Faure and Ned Rorem.

The performers will be Huang Yi-Te Hong and Lisa Ikin, graduate students in the School of Music, and Lisa Delbert, Michele Morreale and Patti Valle, undergraduate voice majors in the music education program.

The audience is invited to bring their own brown bag lunch to eat after the performance. Coffee and tea will be provided.

URTC production

The University Resident Theatre Company (URTC) will present Peter Weiss' French Revolutionary play "Marat/Sade" at 8 p.m. Friday, April 13, at the Playhouse Theatre at University Park. The production closes the URTC 1989-90 season. Performances will continue through Saturday, April 21. The production, directed by John Neville-Andrews, exposes the contemporary parallels of the revolutionary ideals in Weiss' play. The audience, as part of the production, may experience anger, disenchantment and alienation, according to Professor Neville-Andrews.

The cast for "Marat/Sade" includes 38 actors and musicians. The artistic staff includes choreographer Sara Eichmiller, music director Pamela J. Nunneley, scenic designer Terry Gipson, costume designer

University Park Calendar

April 5— April 15 Special Events

Thursday, April 5

Lion Ambassadors, Old Main open house, 9 a.m.-4 p.m.
Women of Color, luncheon, noon-1 p.m., Hotel State College.

Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Penn State Horn Ensemble.
Social History Colloquium, 4 p.m., Rare Books Reading Room, Pattee Library, Charles Hartsoe, Virginia Commonwealth Univ., on "The Recreation and Parks Movement: A Response to Urbanization."
English, Slavic Languages, IAHS, play, 8 p.m., 112 Kern. Maria Mamona, one-woman show, "The Nun."

Women's Studies, Six Feminist Scholars, 8 p.m., HUB Gallery, Margaret Rossiter on "Women Scientists: 1940-70."

Friday, April 6

Women's Studies student/faculty conference, 9:30 a.m.-4 p.m., 305 HUB Gallery.

School of Music, "Piano Weekend at Penn State" workshop, 3:30 p.m. Also April 7, 3:30 p.m.
Geog. Coffee Hour, 4 p.m., 319 Walker. Olga and Yuri Medvedkov, Ohio State Univ., on "Geography of Underdevelopment in the U.S.S.R."

University Readers Performance, 8 p.m., 112 Kern. Free. Also April 7.

Contemporary Scholarship on Lesbian and Gay Lives Speaker Series, 8 p.m., HUB Assembly Room, John E. Mills, Univ. of N.C., on "Lesbian and Gay Studies: New Kid on the Block."

Saturday, April 7

School of Music, 7:30 p.m., Schwab Aud. Penn State Singing Lions.

Arthur H. Waynick Memorial Lecture, 8 p.m., 112 Walker. Friedrich Uff of Zahn, Univ. of Bonn, on "The Atmospheres of Earth, Venus and Mars."
Sunday, April 8
Carnegie Hall Film Series, 7 p.m., *Duel in the Sun* (1946); 9:15 p.m., *Sans Soleil* (1962), 4 Carnegie. Free.

Monday, April 9

Comp. Lit. Luncheon, 12:15 p.m., 101 Kern. Aida Beupied, Spanish Dept., on "Latin-American Myth of the Beginning: The Conqueror and the Conquered."
LGSA Film Series, 7:30 p.m., HUB Assembly Room. *Winch, Dyes, Faggots, and Poofers*.

Tuesday, April 10

Institute for the Study of Adult Literacy, brown bag lunch, noon-1 p.m., 101 Kern.
"Development of Video Instruction in Adult Literacy," on "Your Own," with Eunice Askov, Glen Blume, Debra Shafer.

History Colloquium, 4 p.m., Memorial Lounge. Eisenhower Chapel. Dale B. Light Jr., Schuykill, on "Rome and the Republic: Protestant-Catholic Conflict in Antebellum Philadelphia."

Shaver's Creek. Mini Natural History Course: Mammals, 6-9 p.m., Call 863-2000.
German Dept., 8 p.m., Rare Books Room, W342.
Pattee Library. Donald B. Kraybill, Elizabethtown College, on "The Riddle of Amish Culture."

Art History Lecture Series, 8 p.m., 112 Walker. Martha Pollak, Univ. of Chicago, on "Architects of Power: Castellamonte, the Savoy, and the Dynastic Edification of Turin."
Lecture, 8 p.m., 101 Kern. Sue Kemnitz, Congressional Task Force on Status of Women, Minorities and Handicapped in Science and Technology, on the results of her study, "Changing America: The New Face of Science and Engineering."

Wednesday, April 11

Slavic Center luncheon seminar, noon, 114 Burrows. Marie Bednar, Pattee Library, on "Czechoslovakia's Gentle Revolution and its Aftermath."
School of Music, 8 p.m., Recital Hall. The Pennsylvania Quintet.

Thursday, April 12
Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Voice Studies of Suzanne Roy. Lenten Music. Women's Studies faculty/advisory committee meeting, 1:30-3:30 p.m., 12 Sparks.

Ethics in America, videotape presentation/discussion, 3 p.m., Eisenhower Chapel. "Ethics in Journalism, Privacy, Politics, Privacy and the Press."

Martha Pollak will talk about architects of Turin, as illustrated in this engraving, at 8 p.m. April 10 in 112 Walker Building.

Friday, April 13

Geog. Coffee Hour, 4 p.m., 319 Walker. Joel Garreau, *The Washington Post*, on "Edge Cities and American Values."

Bicentennial of the French Revolution, URTC, 8 p.m., Pavilion Theatre. Peter Weiss, *Mami/Saudi*, through April 20.

Saturday, April 14

AAUW, used book sale, 3-9 p.m., HUB Ballroom. Also April 15, 9 a.m.-9 p.m., HUB Ballroom.
Center for the Performing Arts, 8 p.m., Eisenhower Aud. Ballet du Nord.

Sunday, April 15

Carnegie Hall Film Series, 6:45 p.m., *The Survivors* (1956); 9 p.m., *This Is Our Home, It Is Not For Sale* (1987), 4 Carnegie. Free.

International Events

Tuesday, April 10

Linda Curcio-Nagy, director, Latin American Curriculum Resource Center, Tulane Univ., will discuss "Funding Opportunities for Projects with Latin America" from 2:30 to 4 p.m. in 222 Boucke.

Education Abroad Programs

The following programs for Spring 1991 are available until Oct. 1: Athens, Exeter, Kiel, Manchester, Nice, Rome, San German, Tel Aviv.

Public Radio

WPSU-FM 91.1 "All Things Considered,"

Monday-Friday, 5-6:30 p.m. Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein. "Perspectives," 6:30 p.m. Wednesdays, with Jeff Ballou. "Creative License," 12:30 p.m. Thursdays, with Asa Berlin and Pam Salmier.

Conferences

Continuing Education

Keller Building

April 9, Central Pa. Collaborative for International Education, Jack Sinclair, coordinator.
April 10-11, Visible Emissions Training Program, Robert Heinsdorf, professor of mechanical engineering, chair; Barb Impellitteri, coordinator.
April 9-12, Radon Technology for Mitigators, Bonnie Ford, technical education specialist, chair; Norman Lathbury, coordinator.

April 10-11, Visible Emissions Training Program, Robert Heinsdorf, professor of mechanical engineering, director; Bill Sterner, coordinator.
April 11, FAA Accident Prevention Seminar, Paul Homack, chief flight instructor, chair; Eric Loop, coordinator.

Seminars

Thursday, April 5

Polymer Science, 9 a.m., 301 Steidle, R.D. Lundberg, Exxon Chem.

Physics Colloquium, 3:30 p.m., S5 Osmond Lab. John McGervy, Case Western Reserve, on "Physics and the Cosmos: A New Freshman Course."

Ecology, 3:45 p.m., 111 Wartik. Robert Koide on "Effects of Mycorrhizae on Plant Growth and Reproduction."

Mechanical Engineering, 4 p.m., 103 Mechanical Engineering, Hans Moravec, Carnegie Mellon Univ., on "Long Waves Instability in Thin Films."

Friday, April 6

Human Performance Lab, lecture, 11:15 a.m., 121 Noll Lab. Henrik Carbo, Univ. of Copenhagen, on "Hormonal and Metabolic Adaptations to Exercise."

Saturday, April 7

German, lecture, 10:45 a.m., 124 Sparks. Gunter Hantschel on "Hebbels Lyrik in illustrierten Ausgaben und Anthologien."

Monday, April 9

Physics Colloquium, 11 a.m., 339 Davey Lab. Robert Dyer, AT&T Bell, on "Bad Metals, Superconductors and Insulators."
Entomology, 3:45 p.m., 204 Patterson. Leigh English, Ecogen Inc., on "Bi Model of Action." EPF, 4 p.m., 339 Davey Lab. N. Reshetikhin, Harvard Univ., on "Quantum Integrable Systems."

Tuesday, April 10

Gerontology Center Colloquia, noon-1 p.m., 101 Health and Human Dev. Bldg. East. Cynthia Bergeman on "Behavioral Genetics and Aging." Condensed Matter Physics, 4 p.m., 339 Davey Lab. Anil Khurana, *Physics Today*, on "The Metal Insulator Transition."

Wednesday, April 11

Analytical Chemistry, 11:15 a.m., S5 Osmond Lab. Marc Porter, Iowa State, on "Monomolecular Assemblies: Structure-Reactivity Relationships at Liquid Solid Interfaces." Graduate Lecture, 4 p.m., 112 Kern. Leonard S. Jefferson Jr., Hershey, on "Diabetes Mellitus."

More buildings will start recycling

April 9 kicks off the eighth group of University Park buildings to start the campuswide recycling program.

People are reminded that not all waste is acceptable for recycling. There are two separations: one for paper and one for containers. Other material is considered non-recyclable trash and should be discarded as usual.

Recyclable paper includes white ledger paper (writing, typing and copy), newspaper, computer printout and corrugated cardboard.

"We cannot accept regular cardboard, such as cereal boxes, or envelopes, post-it notes, paper plates, cups, towels or colored paper," Phil Melnick, manager of support operations and special programs for the Physical Plant, said.

"Paper must be dry and not contaminated by food. Also, containers should be rinsed before depositing in the

Highlights of Research Progress During the Last Decade."

Thursday, April 12

Polymer Science, 9 a.m., 301 Steidle. S.J. Huang, Univ. of Connecticut, on "Biodegradable Polymers."

Physics Colloquium, 3:30 p.m., 101 Osmond Lab. John Cardy, Berkeley, Calif.

Ecology, 3:45 p.m., 111 Wartik. Oscar Rocha on "Non-Random Fertilization and Seed Abortion."

German Dept., 4 p.m., Frizzell Room, Eisenhower Chapel. Otto Ennenberg, East German writer, on "Post-Election Perspectives on East Germany and Re-Unification."

Mechanical Engineering, 4 p.m., 103 Mechanical Engineering, Hans Moravec, Carnegie Mellon Univ., on "After Life: Robots."

Exhibits

Chambers Gallery

School of Visual Arts, Undergraduate Graphic Design and Metals Exhibition, through April 6.

HUB Galleries

Formal Gallery: Bicentennial of the French Revolution. "The French Revolution as Portrayed in Collector's Postcards," through April 30.

Black Wings: The American Black in Aviation, through April 29.
Art Alley Panels and Cases: The Central Pa. Guild of Craftsmen annual member exhibit/through April 27.

Browsing Gallery:

Pa. Department of Corrections, art contest, through April 27.

Kern Galleries

Selections from the Graduate Research Exhibition, through May 15.
The French Revolution, Collector's Postcards, through April 30.

Denise Arner, Jewelry, through April 30.
Alice Rice, Paintings and Drawings, through April 30.

College Research Exhibitions, College of Business Administration, through April 27.

Palmer Museum of Art

Roman Portraits, through April 22.
Figurative Drawings of the 17th and 18th Centuries from the Accademia Nazionale di San Luca in Rome, through May 20.
Transforming the American Garden, through May 13.

Pattee Library

East Corridor Gallery: Susan Harter, Endangered Imagination, through April 20.

West Lobby and Lending Services Gallery: Works by at education graduate students, through April 23.

Zoller Gallery

M.F.A. Thesis Exhibition, through April 14.

TIPS

Information Penn State

Call 863-1234, press 1 and enter the number of the message you wish to hear. Messages are listed in the front of the telephone directories. Other messages are Weather-234; Arts Line-345; University Calendar-456.

collection boxes."

Containers include clear, green and amber glass, aluminum cans, plastic soda bottles without caps, plastic milk and water jugs (no caps), steel and tin metal cans.

"Some of the more common errors being made in the disposal of containers are unacceptable items, such as mixed plastics like detergent and shampoo bottles, lab glass (tempered), yogurt containers, drinking glasses and bottle caps," Mr. Melnick noted.

To date, 125 tons of paper and 15 tons of containers have been collected for recycling.

The buildings that are to begin recycling include East Hall residence halls: Sprout, Pinchot, Tener, Brumbaugh, Fisher, Stuart, Hastings, Snyder, Stone, Findlay, McKean, Pennypacker, Curtin, Bigler, George, Packer and Johnston; leased space buildings: Blair, George, James, Rider and Rose.

Penn Staters

Rustum Roy, Evan Pugh professor of the solid state and director of the Science, Technology and Society Program, spoke on "U.S. Scientists as Citizens" at the International Conference on Low-Energy Delocalized Structures held at the University of Virginia, Charlottesville.

Roy Olafson, professor of chemistry, gave an invited lecture titled "New Regioselective Syntheses of Benzoannulated o-Membered Rings" at the Ecole Polytechnique of France and another titled "Newer Uses of Novel Haloformates and Related Reagents" at Oxford University, the University of Manchester, and the College de France.

George Andrews, Evan Pugh professor of mathematics, has been named the University of Wisconsin-Madison's 1989-90 Hilldale Lecturer in Physical Sciences. Dr. Andrews will lecture on the turn of the century Indian mathematical genius Srinivasa Ramanujan and also will give a mathematics colloquium titled "Partition Identities and Group Theory."

Mary Dupuis, director of teacher education and professor of education, has been elected president of the Pennsylvania Association of Colleges and Teacher Educators (PACTE) for 1990-92.

Michael Moore, associate professor of education, presented the paper "Distance Education in the U.S.A." to the Norwegian Institute for Distance Education in Oslo, Norway.

James Ratcliff, director of the Center for the Study of Higher Education, has received a \$50,000 grant from the Exxon Educational Foundation to continue research on "The Effect of Coursework Patterns and Course Selections on the Development of General Learned Abilities" among college undergraduates.

William A. Steele, professor of chemistry, has been named editor of the American Chemical Society journal *Langmuir*. *Langmuir* covers the entire range of surface and colloid chemistry, which deals with emulsions, membranes, films, electrode processes, catalysis, and many other basic areas of chemistry.

Fredrick Welch, professor-in-charge, Vocational Industrial Education, has received the Sol Hoberman Award from the National Cooperative Education Association. It is given annually to an individual who has contributed significantly to and enhanced cooperative vocational education throughout the world.

Jean Brechley, director of the Biotechnology Institute, has been elected to the Committee on Nominations for the American Association for the Advancement of Science.

Robert Light, acting associate dean of research and continuing education, Penn State Erie, The Behrend College, has been named a member of the Growth Initiative for Teachers Program, a nationwide grant program of GTE Corp. that provides grant opportunities to secondary and science teachers.

Wolfgang E. Meyer, professor emeritus of mechanical engineering, is the 1989 recipient of the American Society for Testing and Materials' H.W. Kummer Lecture Award. He was cited for his paper on "Pavement Texture Significance and Measurement."

P.E. Sokol, associate professor of physics, is co-editor of the newly published "Momentum Distributions," the proceedings of the Workshop on Momentum Distributions held at Argonne National Laboratory in October 1988.

Monty L. Christiansen, associate professor of recreation and parks, has been named to the National Certification Board for Leisure Professionals.

Elbert D. Glover, professor of health education and director of the Centre for Tobacco Studies, presented two papers at the 14th Commonwealth and International Conference of Physical Education, Sport, Health, Dance, Recreation and Leisure in Auckland, New Zealand.

Raja V. Ramani, professor of mining engineering and head of the Department of Mineral Engineering, has been named recipient of the 1990 Environmental Conservation Award of the American Institute of Mining, Metallurgical, and Petroleum Engineers (AIME) for "his several and diverse contributions to environmental conservation in surface and underground mine planning and design."

Wilbur Zelinsky, professor emeritus of geography, has been appointed Visiting W. Harold and Martha Welch Professor of American Studies at the University of Notre Dame for the 1990-91 academic year.

Nermal K. Bose, Singer professor of electrical engineering, has been named editor-in-chief of *Multidimensional Systems and Signal Processing*, a new journal in electronic engineering.

David A. Kurtz, analytical chemist in pesticide research in the Department of Entomology, presented a paper titled "Pesticide Content on the Northern Fur Seal" at the Comite Arctique International Conference on "Global Significance of the Transport and Accumulation of Polychlorinated Hydrocarbons in the Arctic" in Oslo, Norway.

Samuel Levine, professor of nuclear engineering, delivered a series of six lectures on basic reactor physics and supervised the associated computer exercises at the Workshop on Reactor Physics Calculations for Applications in Nuclear Technology in Trieste, Italy.

Richard E. Tressler, professor of materials science and engineering and director of the Center for Advanced Materials, has been elected vice president of the American Ceramic Society, the leading (and largest) professional society in the world in the ceramics field with a total membership of 15,000.

Carl H. Wolgemuth, engineering associate dean for undergraduate studies in the College of Engineering, has been elected a Fellow of the Society of Automotive Engineers.

John Wyckoff, assistant director of the Division of Undergraduate Studies, and **James Levin**, academic adviser and affiliate assistant professor of education, have received a Phi Delta Kappa, district 6, research grant to study "Attitudes Towards Mathematics and Their Relationship to Persistence and Success in College." Phi Delta Kappa is the largest professional education organization in the world.

Bruce Lindsay, professor of statistics, College of Science, has been selected as one of eight Institute of Mathematical Statistics (IMS) Special Invited Lecturers.

Robert D. Shipman, professor of forest ecology in the School of Forest Resources, has received the 1989 Outstanding Service to Forestry Award at a recent meeting of the Allegheny Society of American Foresters.

Richard Whitten, assistant professor of art in the School of Visual Arts, has been awarded a \$3,500 grant from the Graham Foundation for Advanced Studies in the Fine Arts to support his research, "Paintings of Imaginary Architectural Interiors."

Archie Loss, professor of English, Penn State Erie, The Behrend College, presented a paper on "The Automobile in American Literature: Directions for

Research" at the Popular Culture Association in Toronto, Canada.

Steven Gordon, assistant professor of education, has received the 1989 Outstanding Dissertation Award in the Supervision category from the Association for Supervision and Curriculum Development. The award is given each year to the dissertation that most significantly advances the knowledge and understanding of educational theories, concepts and practices.

Kathleen Barry, associate professor of human development in the College of Health and Human Development, led the Ninth Delegation of U.S. Women Leaders to the Republic of China.

Regina Bircham, associate professor of biology at the Penn State McKeesport Campus, presented a paper and participated in an International Women's Conference on the "Health and Environmental Effects of Radiation Due to Nuclear Weapons Testing and Production" at the Palais des Nations, United Nations, Geneva, Switzerland.

Inyong Ham, FANUC professor of industrial engineering, has received the Albert M. Sargent Progress Award of the Society of Manufacturing Engineers.

Robert L. Kabel, professor of chemical engineering, served as visiting professor at the University of New South Wales, Sydney, Australia; as an Erskine Fellow at the University of Canterbury, Christchurch, New Zealand, and as visiting professor at Chulalongkorn University, Bangkok, Thailand.

Amir Khalilollahi, assistant professor of mechanical engineering, Penn State Erie, The Behrend College, presented a paper on "Code Development and Analysis of Combined Radiation and Conduction Through Multiple Shields" at the ISMM International Symposium on Computer Applications in Design, Simulation and Analysis, in New Orleans.

Les E. Lanyon, associate professor of soil fertility, presented a paper "Tools for Sustainable Land Use Analysis," at the International Workshop on Sustainable Land Use Systems in New Delhi, India.

"Field Observations of Truck Operational Characteristics Related to Intersection Sight Distance," by **John M. Mason Jr.**, associate professor, and **Kay Fitzpatrick**, research assistant, both in civil engineering, was selected as the 1990 Outstanding Paper on the Operational Effects of Geometrics by the Transportation Board, a division of the National Research Council.

News in Brief

Center moves

The offices of the Center for Cell Research have been moved to 205 through 210 South Frear Building. The Center's telephone number remains the same, 865-2407.

AAUW annual used book sale

The 29th annual AAUW used book sale sponsored by the State College Branch of the American Association of University Women will open on Saturday, April 14, from 3 to 9 p.m. The sale will continue Sunday, April 15, through Wednesday, April 18, from 9 a.m. to 9 p.m. in the Ballroom of the Hetzel Union Building at University

Park.

More than 80,000 books have been sorted into 30 categories and on each table of books will be a sign designating the category of material to be found on that table.

Books are sold as priced the first three days of the sale. Books that remain on Tuesday, April 17, will be sold at half of the marked price. On Wednesday, April 18, customers will be given large grocery bags which they may fill with books for \$4 per bag.

Proceeds from the sale are used to support the AAUW Educational Foundation Program and local educational projects.

Graduate Lecture Series

Leonard S. Jefferson Jr., professor and chair, Department of Cellular and Molecular Physiology, Hershey Medical Center, will speak on "Diabetes Mellitus: Highlights of Research Progress During the Last Decade" at 4 p.m. Wednesday, April 11, in 112 Kern at University Park. Refreshments and a reception will be at 3:30 p.m.

Dr. Jefferson is co-author of more than 100 papers reporting research into causes of diabetes. Study topics include the action of insulin on protein synthesis and changes in RNA in skeletal muscle as a function of diabetes and insulin treatments.

He was honored by the American Diabetes Association in 1974 and 1976 and by the National Institutes of Health (MERIT Award) in 1986. He holds a Ph.D. in physiology from Vanderbilt University.

His talk is part of the Graduate Lecture Series.

Consumer panelists needed

Subjects are sought to participate in a home use test for reduced calorie cheese substitute products which contain no cholesterol or lactose. Participants will be paid \$5. If interested, contact Ruth Hollender or Lisa Mamana between 10 a.m. and 2 p.m. at 863-2971.

25-year award recipients

Observing 25 years of service are, from left, Gloria Briggs, assistant to the vice president, personnel and administrative services; Gloria Wiser McNeal, secretary A in the School of

Music; James Southard, truck driver janitorial, Office of Physical Plant, and Rebecca Taranto, college health nurse, University Health Services.

Faculty/Staff Alerts

Courses for faculty and staff

The Human Resource Development Center has openings in the following courses being offered in April and May. Call the center at 865-3410 for registration information.

Oral Communications A basic course in improving oral communication effectiveness is offered to employees who seek to improve their verbal effectiveness in areas related to their jobs; meets Mondays, April 16, 23 and 30, from 9 a.m. to noon; cost: \$75.

Improving Communications Between

Supervisor and Employee Learn how career stages and differing behavioral styles influence communication; and learn how to give positive and negative feedback; meets from 9 a.m. to 4 p.m. Wednesday, April 25; cost: \$55.

Making Successful Presentations Designed to help participants develop an effective speaking style for clear, dynamic public speaking; from 9 a.m. to 4 p.m. Wednesday, May 2; cost: \$55.

Burnout Burnout can include anything from "feeling burned around the edges" to

physical and emotional exhaustion and disillusionment. Workshop will explore possible alternatives and solutions; meets from 9 a.m. to 4 p.m. Thursday, May 3; cost: \$55.

A Woman's Guide to Acquiring Positions of Leadership For women who are career oriented and want to advance to positions of leadership; meets from 9 a.m. to 4 p.m. Wednesday, May 9; cost: \$55.

Stress Management Identifies stressors and their effects and develops a realistic individualized plan to cope with stress; meets from 9 a.m. to 4 p.m. Wednesday, May 16; cost: \$55.

Profoamatics Developed to help

eliminate communication errors through proofreading. This class meets for six sessions, every Tuesday and Thursday beginning May 15, from 1:15 to 3:30 p.m.; cost: \$125.

Obituary

Earl N. Grove, supervisor of Engineering Shop Services, College of Engineering, from Jan. 1, 1936, until his retirement Oct. 1, 1974, died March 17 at the age of 80.

Focus on the arts

(Continued from page 4)

JoAnna Schmink, lighting designer Jackie Bauer, dramaturg Kevin Fry, stage manager Suzie Newbury, and assistant director Dick Caram.

The production also will feature the last URTC performances by Bill Gabelhausen, Richard Bradbury, Bob Clendenin, Joseph A. Blotner, Drew Ebersole, Kathleen Cullen, Bill Mulvey and Fred Schleicher.

Tickets for "Marat/Sade" are available at the Playhouse and Eisenhower Box Offices or by calling 863-0255. "Marat/Sade" is recommended for mature audiences only.

East Germany

Otto Emsleben, an East German writer and participant in the Democratic Reform Movement, will speak on "Post-Election Perspectives on East Germany and Re-Unification" at 4 p.m. Thursday, April 12, in the Frizzell Room, Eisenhower Chapel, University Park.

His visit is sponsored by the Department of German. Mr. Emsleben was an International Visitor at Bowdoin College in 1988-89 and is writing a biography of Bowdoin alumnus Robert E. Peary.

Born in Berlin, he grew up in the American sector of West Berlin, then moved to the East, where he studied physics in Greifswald and Sofia. He worked for the German Democratic Republic film manufacturing company ORWO. In 1976, he became a free lance writer.

A member of the GDR Writers' Union and the Hukluyt Society, he is the author of *Papierstein*, a novel on the contemporary GDR, as well as several historical novels and numerous nonfiction works on the history of geography, short stories, reviews and essays.

Ballet du Nord

Ballet brings its international style to Eisenhower Auditorium at University Park at 8 p.m. Saturday, April 14. The ballet will perform two of its dances,

"Celebration" and "Piaf-Les Mots D'Amour."

The 30-member group, created in 1983, is one of Europe's youngest ballet companies. Yet in that short time, it has established itself as an important part of French culture and has captivated audiences throughout Europe.

Under the direction of Alfonso Cato, Ballet du Nord is known for its large repertoire of Balanchine works. Ballet du Nord also mixes European and American styles to create its own unique personality. True to its homeland, the company often uses French music and works.

The performance is supported jointly by grants from the Pennsylvania Council on the Arts and the National Endowment for the Arts.

Tickets are available from the Eisenhower Ticket Center, open from 8:30 a.m. to 4:30 p.m. weekdays.

WPSX short of goal

Public television station WPSX-TV fell short of its Festival fund-raising goal as it wound up the 19-day event with a total pledged amount of nearly \$144,000. The station had set a \$200,000 goal for the campaign.

John Grant, manager for WPSX-TV, said that while the final figure is expected to rise somewhat with contributions that are mailed in after the on-air campaign, the final amount will still fall short of the goal.

"We plan to take a hard look at our on-air fund-raising approach," he said. "We hope that this drive is an aberration and not a trend."

The funds raised during the twice-yearly Festivals go towards the purchase and production of programming for the station.

The outlay for this year's program acquisitions is pegged at over \$435,000.

Viewers who would like to contribute to the station can mail their check to WPSX-TV at Wagner Annex, University Park. Pa.

16802. Basic membership is \$35, \$25 for senior citizens and students.

Fine arts videos

University students and faculty are spending time with literary giants and experiencing the world's finest operas and ballets without setting foot off the University Park Campus, thanks to a cooperative media venture of the College of Arts and Architecture and the University Division of Media and Learning Resources.

A collection of fine arts videos, featuring works by such writers as Luigi Pirandello, T.S. Eliot, Henrik Ibsen, and Jean Cocteau, and performances of such works as *Midsommer Night's Dream*, *Carmen*, *Marriage of Figaro*, and *An Evening with the Bolshoi*, has been established at the Theatre Arts Library in the Arts Building.

The Theatre Video Reference Library is available to students and faculty involved in related instructional activities and/or research, according to project coordinator Douglas N. Cook, professor of theatre arts.

"The core collection of videotapes will be expanded as usage patterns develop and demand dictates," Professor Cook said. "This provides the University with yet another cultural and educational resource, and we welcome the opportunity to explore its potential."

The Theatre Arts Library, under the supervision of Thomas J. Foral, library chairman, Department of Theatre Arts, will serve as the site of the screening facility. Arrangements can be made to view the tapes by visiting the departmental office in 103 Arts Building or by calling 865-7586. A list of the tapes currently available will be posted in both the library and the office.

The Theatre Video Reference Library is one of two components in a media project developed by the Department of Theatre Arts with the Division of Media and Learning Resources. The second is the distribution of the fine arts videos to alumni and friends of the University.

Institute fellowships

Stanley Weintraub, director of the Institute for the Arts and Humanistic Studies, has announced the most recent recipients of Institute Faculty Research Fellowships. The recipients and their projects are:

-- **Albert Anderson**, associate professor of art education, to prepare a book dealing with the origins, evolution and cultural impact of America's non-profit craft schools.

-- **Philip Baldi**, professor of linguistics and classics, to complete a book, *The Foundations of Latin*.

-- **Leslie Brown**, associate professor of musicology at the Beaver Campus, to continue a study of the science of music in the Scottish Enlightenment; theory, aesthetics and criticism.

-- **Charles Cantalupo**, associate professor of English at the Schuylkill Campus, to support a production of "Colonial/Neo-Colonial: An Ode to Performance."

-- **Robert Edwards**, professor of English and comparative literature, to edit and interpret medieval Latin poems representing a close relationship between poetic invention and traditions of legal training and reasoning in the Middle Ages.

-- **Raymond Fleming**, professor of comparative literature and Italian, to prepare the Thomas Mann chapter for a book in progress, *The Continuity of Fear in Western Literature*.

-- **Taylor Greist**, assistant professor of music, to conduct research on American composer Charles Seeger.

-- **Jeanne Kowchalski**, assistant professor of English at the New Kensington Campus, to study the day-book of Santa Reparata, Florence and related documents.

-- **Jane C. Rice**, assistant professor of German, to study the reception of Shakespeare in the German Democratic Republic and the changing contours in that discourse from 1949 to 1989.

-- **Martin Stabb**, professor of Spanish, to complete a book, *The Contemporary Spanish American Essay: 1960-85*.

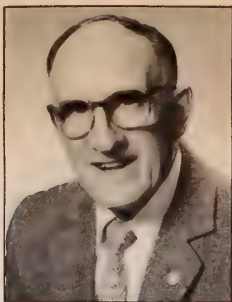

Research award recipient will present lecture

John A. Lucas, recipient of the Pauline Schmitt Russell Distinguished Research Career Award, will present a lecture titled "Sound and Fury: A Dozen Cities Vie for the Olympic Games of 1992 through 2004" at 8 p.m. Thursday, April 12, in the HUB Assembly Room at University Park.

The award is given by the College of Health and Human Development to senior faculty members who have made outstanding research contributions throughout their careers.

Dr. Lucas, professor of exercise and sport science, is a sport historian whose research has focused particularly on the Olympic Games. An Olympic historian, observer, researcher, and teacher, he has lectured widely in the United States and overseas on sport and on the Olympic movement.

He is author of *The Modern Olympic Games*, co-author (with Ronald A. Smith, professor of exercise and sport science) of *Saga of American Sport*, and author of several monographs and more than 160 scholarly articles on sport and sport history. He has served as special consultant to the U.S.

John A. Lucas

Olympic Committee and the International Olympic Committee.
In 1975 he was named to the American

Academy of Physical Education, an honor limited to the 125 most eminent scholars in the field. Recently he was one of 10 persons from 10 nations selected to evaluate the 1988 Summer Games at Seoul.
The Distinguished Research Career

Award was endowed by Leo P. Russell, a 1941 industrial engineering graduate of Penn State, in honor of his late wife, Pauline Schmitt Russell, who earned a degree in home economics in 1948.

Communications expert to give lecture

International mass communications expert Tamas Szecsko will deliver the second Robert M. Pockrass Memorial Lecture at 8 p.m. Thursday, April 26, in the HUB Auditorium at University Park.

Dr. Szecsko, general director of the Hungarian Institute for Public Opinion Research, will speak on "East European Media on the Move: the Case of Hungary." The lecture is free to the public and is sponsored by the School of Communications. It is named for the late Dr. Pockrass, a member of the journalism faculty from 1948 to 1977.

Dr. Szecsko, Hungary's long-time

representative at UNESCO communications debates, is spending a year with the University of Pennsylvania on a Fulbright Fellowship. He is a graduate of Karl Marx University of Economics, where he is now an honorary associate professor, and received his doctorate in sociology from the Hungarian Academy of Sciences.

He also is founder and editor-in-chief of the quarterly communications journal *Jel-Kép*, and general secretary of the International Association for Mass Communication Research. His publications include seven books and numerous articles.

Staff Vacancies

The following vacancies for positions classified as exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in positions may APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until April 12. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment Practices (PSS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

• **Director, Child Care Program Services, Office of Human Resources, University Park Campus**—Responsible to the assistant vice president for human resources for the development of a University-wide child care program service at Penn State. Requires a master's degree, or equivalent, with evidence of training in child care program development, child care program administration, federal and state laws associated with child care programs and safety and health issues associated with child care programs. A minimum of three years effective experience in the delivery of such programs is necessary with a portion of that experience at an administrative level in prior employment in an agency which had a substantive clientele in its programs. Candidates for this position must have demonstrated success in earlier work history directly related to this field. STAFF GRADE 8.

• **Junior Research Aide, Agriculture, Veterinary Science, University Park Campus**—Responsible to faculty member at Animal Disease Lab for performing a variety of routine laboratory and veterinary procedures associated with animal necropsy. Requires associate degree, or equivalent, preferably in animal pathology, medical technology, veterinary technology or related field, plus three to

six months of effective experience. THIS IS A FIXED-TERM POSITION FUNDED THROUGH SEPT. 30, 1990, WITH GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 3.

• **Design Engineer and Machine Shop Supervisor, Science, Physics, University Park Campus**—Responsible for the supervision of the Machine Shop and for providing thorough consultation design engineering services. Advise faculty and graduate students in the design of specialized instruments and critically assess and assist in the design process. Direct personnel in creating instruments from well-constructed blueprints. Prepare shop work orders and maintain and process time and materials records for billing purposes. Requires bachelor's degree, or equivalent, in engineering or related field, plus two to four years of effective experience, including supervision of machine shop. STAFF GRADE 7.

• **Director of Governmental Health Relations, Office of the President, Office of Governmental Affairs, The Milton S. Henery Medical Center**—Responsible to the special assistant to the president for governmental affairs, in conjunction with the senior vice president for health affairs and dean of the College of Medicine at Hershey, for serving as the Hershey Medical Center's principal governmental liaison officer with the Commonwealth. Solicit testimony and information involving medical and health related matters. Requires bachelor's degree, or equivalent, with six to seven years of effective experience. Work in government health relations or similar background in health related experience preferred. STAFF GRADE 9.

• **Technical Illustrator, Applied Research Laboratory, University Park Campus**—Responsible to the manager, Communications Support Services, for the preparation of drawings and illustrations of electronic, electromechanical, hydraulic and acoustic equipment and devices intended for use in reports, publications, engineering drawings and presentations. Requires associate degree or completion of a two-year program in graphic arts or drafting, plus one to two years of effective experience. U.S. citizenship required. THIS IS A FIXED-TERM POSITION

FUNDED FOR SIX MONTHS. STAFF GRADE 4.

• **Programmer/Analyst B, Vice President for Business and Operations, Management and Systems Engineering, University Park Campus**—Apply modern, structured design and programming techniques to design and develop new programs and modify and maintain existing programs for business applications. Requires bachelor's degree, or equivalent, in a computer related field and one to two years of effective experience in programming and systems design. The ability to communicate orally and in writing also is required. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1990, WITH GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 6.

• **Surgical Technician, University Hospital, Nursing/OR, The Milton S. Henery Medical Center**—Responsible to the RN circulating nurse/nurse manager for providing a sterile patient care operating room setting, for equipment and instrumentation set-up and operation and providing surgical assistance during the operating room procedure. Requires graduate of an approved school of surgical technology with up to and including 12 months of effective experience. STAFF GRADE 3.

• **Manager, Social Services, College of Medicine, The Department of Social Services, The Milton S. Henery Medical Center**—Responsible to the director, Inpatient Operations, for the development, implementation and evaluation of the total social services program in accordance with accepted social work practice and Medical Center policies and procedures. Requires master's degree in social work, or equivalent, plus four to five years of effective experience in a hospital setting. STAFF GRADE 8.

• **Network Support Specialist, College of Medicine, The Department of Medicine, The Milton S. Henery Medical Center**—Responsible to the director of administration/medicine for installation and operation of departmental computer network systems, training of departmental support staff, as well as hardware and software solutions for the department. Requires bachelor's degree, or equivalent, in computer science, plus one to two

years of effective experience. A working knowledge of various software programs such as Lotus 1-2-3, WordPerfect and/or D-Base III is required. STAFF GRADE 6.

• **Computer Center and Technical Service Specialist, Delaware County Campus**—Responsible to the directors of academic affairs/business services for the supervision and scheduling of day-to-day operation of the Campus Computation Centers and for providing advice and assistance to the faculty, staff and students. Requires bachelor's degree in computer science or an equivalent field of study or training, plus over one to two years of effective experience. Experience in programming, data processing, microcomputer operation and knowledge of programming languages such as FORTRAN, Pascal and Basic are essential. Some telecommunications experience preferred. STAFF GRADE 6.

• **Junior Engineering Aide, Applied Research Laboratory, University Park Campus**—Responsible to the project engineer or designated senior engineering aide for assistance in the fabrication, testing, installation, operation and maintenance of nonstandard electronic or mechanical parts, components and equipment. Requires associate degree, or equivalent, in electrical or mechanical engineering technology program and more than three months of effective experience. Position may require travel on field assignments including assignments aboard ships at sea. U.S. citizenship required. STAFF GRADE 3.

• **Engineering Aide, Applied Research Laboratory, University Park Campus**—Responsible to the project engineer or senior engineering aide for the layout, design, fabrication and construction of standard electronic or mechanical components and equipment. Assist in conducting tests and with the collection, compilation and analysis of test data. Requires associate degree, or equivalent, plus two to four years of effective experience in the design and fabrication of experimental equipment. Position may require travel on field assignments including assignments aboard ships at sea. U.S. citizenship required. STAFF GRADE 5.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Five faculty honored for outstanding achievement

Five University professors received 1990 Faculty Scholar Medals for Outstanding Achievement during the University Awards Convocation April 8 in Eisenhower Auditorium.

They are **Roland E. Fleischer**, professor of art history and Fellow, Institute for the Arts and Humanistic Studies, for the arts and humanities medal; **John W. Kreider**, professor of pathology and microbiology and immunology, Milton S. Henshey Medical Center, and **Wesley C. Hymer**, professor of biochemistry, director, Center for Cell Research, and director, Penn State Space College Grant Program, for the life and health sciences medal; **Barbara J. Garrison**, professor of chemistry and head of the Department of Chemistry, for the physical sciences and engineering medal, and **T.D. Borkovec**, professor of

psychology, for the social and behavioral sciences medal.

Established in 1980, the Penn State award recognizes scholarly or creative excellence represented by a single contribution or a series of contributions around a coherent theme. A committee of faculty peers reviews nominations and selects candidates. The recipients are approved by President Jordan.

The faculty members will receive engraved medals and \$1,000 checks.

Drs. Kreider and Hymer will share the prize for the life and health sciences.

Dr. Fleischer's long-term interest and research in the tradition of Northern European Baroque painting in the Netherlands and manifestations of that tradition in colonial America recently culminated in the publication of three

important works in the area. The singular insights he brings to his work as a result of his dual specialization make these publications important for scholars of both Dutch and colonial American art.

Dr. Fleischer is the author of numerous books, exhibition catalogs and papers including *Ludolf de Jongh: Painter of Retardation*, which disentangles de Jongh from his contemporaries; *Gisbertus Hevelius: Two Painters to the Middle Colonies*, which is now the standard work on the famous Swedish-American painter, and *Emblems and Colonial American Painting*, the first study ever devoted to the influence of emblematic literature on the painting of colonial America.

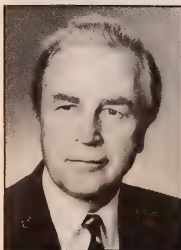

Dr. Kreider, a member of the College of Medicine faculty since 1968, is internationally recognized for his

contributions to cancer research, especially for his discovery of the only system currently available for the experimental propagation of cancer-associated papillomaviruses.

Dr. Kreider developed a method to infect normal human tissues with papillomavirus, using the renal capsule of "nude" mice. This method is now widely accepted and is considered a breakthrough that should permit improved understanding of the carcinogenic process and ultimately may lead to better therapy.

Dr. Hymer's investigation of the way pituitary cells secrete hormones has put him at the forefront of research on the hormone prolactin, which plays a role in breast cancer, and growth hormone, which regulates growth and metabolism. His early

Convocation participation urged

Executive Vice President and Provost William C. Richardson urges all University faculty members to participate in the Academic Convocation to be held Saturday, April 28.

Faculty members should bring their academic regalia to the rotunda of Old Main by 9 a.m. that day. They will robe and then proceed to Schwab Auditorium, where the convocation will begin at 10 a.m.

The convocation will celebrate the success of The Campaign for Penn State, the University's six-year, \$300-million

private fund-raising drive. The Campaign, which concludes June 30, had secured more than \$338 million in gifts and pledges as of March 31.

The convocation, which will last about an hour, will include remarks by President Jordan, Dr. Richardson, Campaign Chairman William A. Schreyer and faculty and student representatives.

Faculty members who have questions about the convocation should phone Karen Rugh, director of university relations, at 865-0248.

At Penn State Ogonitz

Campus executive officer named

Anthony Fusaro, assistant provost at Northern Illinois University, has been named campus executive officer at the Penn State Ogonitz Campus, effective July 1.

"We are pleased to welcome Dr. Fusaro to the Penn State system," President Jordan said. "His leadership and experience in academic administration will be valuable assets to the University and to Ogonitz Campus."

Dr. Fusaro's responsibilities at Northern Illinois include the administration of the academic budget, management of academic

space, supervision of the director of the University's Oregon campus and of the director of media services.

His degrees are a B.A. in political science and economics and an M.A. in American government and public administration, both from University of Rhode Island, and a Ph.D. in comparative politics and American government from Penn State.

In 1962, he was an instructor at Penn State and, from 1964 to 1966, he was an assistant professor of political science at Ogonitz and University Park.

President Jordan addresses House Education Committee

Higher education, and society, are facing critical issues that need to be addressed to move the United States competitively into the next millennium, President Jordan told the state House Education Committee April 6.

Dr. Jordan told the legislators, meeting at the Nittany Lion Inn, that a serious shortage of individuals with doctoral degrees and an urgent need for higher education could cripple efforts to move the state and national economy forward.

"At a time when fundamental changes are rapidly occurring around the globe, this country is facing a number of problems that jeopardize its historic leadership role," he said. "If we cannot provide facilities to educate the leaders of tomorrow, and if we cannot meet the need for people with

advanced degrees, the competitiveness of the United States will suffer.

"In the sciences and engineering, an annual shortage of 7,500 Ph.D.s is expected to occur in the first years of the next century across higher education, industry and government. And in the humanities and social sciences, it is predicted that there will be only seven candidates to fill every 10 faculty positions in the period from 1997-2002."

Dr. Jordan indicated the forecast of Ph.D. shortages is attributed to an unusually large wave of faculty retirements during the 1990s coupled with a surge in the traditional college age population in the years just before 2000.

"There also has been a significant decline in the number of United States citizens

earning Ph.D.s in the past decade," he said.

Dr. Jordan noted that with inadequate numbers of Ph.D.s in the available pool, competition for those individuals will drive faculty salaries upward.

Another "time bomb" facing higher education throughout Pennsylvania is a need for funding of capital projects. "Institutions throughout the state are facing difficulties," Dr. Jordan said, "and in Penn State's case alone we have had nearly \$300 million in capital projects approved by the Commonwealth, for which funds have not yet been released, and another \$177 million in capital projects requested in 1990-91."

"We cannot move forward to meet even the most critical of our capital needs without those dollars," He urged the

legislators to establish a task force, either within its own ranks or through the higher education community, to look at this problem statewide.

"We would estimate that the capital needs for higher education in Pennsylvania to be a minimum of \$1 billion. And that does not begin to address the question of deferred maintenance which presents a challenge of its own."

Dr. Jordan also told the legislators that Penn State, like many other institutions in Pennsylvania, has kept a tenuous hold on quality because the state has not supported higher education with the level of enthusiasm of most other states.

"From 1976 to 1986 - the most recent 10-year period for which data are available

Focus on Diversity

Conference dealing with women in business scheduled

At a time when women have more opportunities than ever for starting their own businesses, they often encounter many problems, including trouble getting loans because of lenders' biases and difficulty in overcoming gender stereotypes and dealing with "old boy" networks.

A University conference being planned for April 19 is designed to help women overcome these and other problems as they develop their own businesses.

The conference, titled "Women Business Owners and Professionals" will be held at the Keller Conference Center, University Park, and will feature a number of nationally known businesswomen.

Included among the speakers are Maggie Rinaldi, director of the National Chamber of Commerce for Women, who will discuss various sources of financing to develop a business, and Laura Sachs, president of her own consulting company and author of the book *Do-It-Yourself Marketing for the Professional Practitioner*.

A clinical psychologist will speak to the group on how women business-owners can overcome the fear of risk-taking and other external and internal barriers.

Other speakers will focus on the legal issues women face in operating a company, in addition to accounting topics, financial issues such as insurance and investments and advertising techniques.

Speakers from State College area businesses participating in the program include Mary Ann Miller, vice president of budgeting and planning for Uni-Marts Inc.; Melinda Harr Curley, associate with the Pennsylvania Financial Group; Kathy A. Davidson, vice president, National Retirement Plan Services; Kitty Patterson, owner of Graphics and Design, and Marion Gindes, clinical psychologist and consultant.

For information regarding conference registration, contact Kathy Karchner, 410 Keller Conference Center, University Park, phone 865-8820.

Local businesswomen, from left, Kitty Patterson, owner, Graphics & Design; Melinda Harr Curley, associate, Pennsylvania Financial Group; and Kathy A. Davidson, vice president, National Retirement Plan Services, are planning a women's business conference.

Women of Color honor Martinez-Brawley and Freeland

Central Pennsylvania Women of Color Achievement Awards have been given to two members of the University community.

The 1990 Women of Color Professional Achievement Awards were presented to Emilia Martinez-Brawley, professor of social work, and Margaret A. Moore, superintendent of the State Correctional Institution at Smithfield in Huntingdon.

Raguel Gonzalez Freeland, coordinator of minority student services in the College of Education and an instructor in education,

received the Women of Color Humanitarian/Personal Achievement Award.

Dr. Martinez-Brawley is an international scholar, specializing in rural social welfare issues. She has published four books, 13 book chapters and more than 40 journal articles on her research.

A native of Argentina, she has been a Fulbright Senior Scholar to Israel and Australia, and received in 1988 the Ida Beam Distinguished Visiting Professor Award from the University of Iowa. She

was a recent recipient of a research award from Comite Conjunto Hispano-Norteamericano to work in Spain as a visiting fellow in the School of Economics and Social Studies in University of East Anglia, Norwich, England.

Her many accomplishments include membership on the University's Commission on Racial/Ethnic Diversity, the Black Studies Committee, the Women of Color and the Strategic Study Group on the Status of Women.

Ms. Freeland's many duties include

chairing the college's Committee on Equal Opportunity, organizing its efforts to retain minority and non-minority undergraduate and graduate students, and serving as a resource for students, parents and faculty.

A member of WOC's Representative Council, she also was active in the planning for last year's Kaleidescope festival and the recent Festival of Cultures. She also is a member of the Governor's Advisory Commission on Latino Affairs and the state Department of Education Bilingual Certification Task Force.

'Make a Joyful Noise' to air on WPSX-TV

The soul-stirring, hand-clapping jubilation of gospel music along with a mime group whose silent songs of praise are accompanied by well-known artists will be featured on *Make a Joyful Noise*, airing at 9 p.m. Friday, April 13, on Channel 3.

The special will feature several well-known Western Pennsylvania ensembles and artists including Creative Expressions,

God's Special Edition, Barbara Lumberger and The Simon Sisters. Host Christopher Moore will be joined by Rev. Richard Allen Farmer, a noted musicologist who contributes informative commentary in addition to singing and playing songs that illustrate the development of gospel music and how it continues to evolve in the black church.

Diversity Calendar

Tuesday, April 17
Women's Studies, 8 p.m., McKeesport Campus. Lecture by Phyllis Mansfield on "Critical Issues in Women's Health."

Wednesday, April 18
Center for Women Studies, 8 p.m., HUB Assembly Room. Lecture, "Lesbian and Gay Studies: New Kid on the Block."

Thursday, April 19
Pennsylvania College of Technology, 7 p.m., Academic Center Auditorium. Joy Harjo, Native American poet.

Friday, April 20
Center for Women Studies, 3 to 5 p.m., Paul Robeson Cultural Center. Presentation "Healing the Disembodied World," by Starhawk, a peace activist.

The Campaign for Penn State

Walker gift endows faculty fellowship

Philip L. Walker Jr., Evan Pugh professor emeritus of materials science, and his wife, Virginia, have donated \$129,000 to the College of Earth and Mineral Sciences.

The State College couple designated \$100,000 to endow the Philip L. Walker Jr. Faculty Fellowship in Materials Science and Engineering. The fellowship will provide supplementary funds to further the teaching, research or public service programs of an outstanding faculty member.

The remainder of the gift will create a scholarship to benefit undergraduates in the Department of Materials Science and Engineering. Candidates for the award must have superior academic records.

Philip Walker retired from his full-time duties at Penn State in 1983 after having served on the faculty for 33 years. During that time, he held many administrative positions, including first head of the Department of Materials Science and Engineering, first chairman of the polymer

science section and chairman of the fuel science program.

He was named Evan Pugh Professor -- the highest recognition the University can bestow on its faculty -- in 1974.

The Walkers are members of the Mount Nittany Society, which recognizes the highest level of individual support to the University. Their gift is part of the Campaign for Penn State, a six-year effort to raise \$300 million in private support for academic programs.

Business Administration gets new computer laboratory

The accounting firm of KPMG Peat Marwick has joined with Apple Computer Inc. to provide the College of Business Administration with a new computer laboratory valued at \$250,000. "Penn State has an exceptional business school and an exceptional accounting department," said Bernard J. Milano, partner in charge of recruiting and personnel administration at KPMG Peat Marwick's executive offices in Montvale, N.J. "The program has been one of our largest sources of recruiting over the past 12 to 15 years."

Penn State's accounting and MIS faculty

is very strong, and the school is unique in its ability to balance the importance of teaching and research, he said.

"The department provides a special blend of accounting and management information systems. A computer laboratory of the power of this one will enhance that combination," he said. Charles H. Smith, chairman of the Department of Accounting and Management Information Systems, said, "This laboratory will fill a very real need in the research programs of those faculty members who do behavioral studies in the various dimensions of business."

"Individuals in marketing, management information systems and organizational behavior will find this facility particularly beneficial," he added, noting that faculty research helps assure that Penn State students benefit from the most up-to-date information and curricula.

The new computer laboratory, which will be available for both students and faculty members, was dedicated in ceremonies on March 27. The facility, which will be located in Room 11 of the Business Administration Building at University Park, will contain 30 Macintosh

2/40 computers, one Macintosh SE 30 and one Macintosh IIfx; two Apple Laserwriter laser printers; three Apple Imagerwriter dot-matrix printers, modems, and a file-server with tape backup. All the equipment will be networked through a Hayes Interbridge. Along with the hardware, Peat Marwick and Apple are providing these software packages: PageMaker (desktop publishing), Excel (spread-sheet), Microsoft Word (wordprocessing), Superpaint (graphics) and Claris Filemaker II (database). Auditing software developed by Peat Marwick also is included.

Australia-New Zealand center plays key research role

The University's Australia-New Zealand Studies Center is a leading source of research information in the United States.

Henry S. Albinski, center director and professor of political science, notes, "The center has played a catalytic role in educating U.S. policymakers about the substantial security and economic significance of Australia and New Zealand in their own right in their wider Pacific context."

"At the same time we have greatly enhanced the visibility of Penn State within U.S., Australian and New Zealand government circles, as well, of course, throughout academic and other communities."

For example, he and associate director **Robert A. Brand** credit the center with helping to dissuade the Reagan administration from adopting economic sanctions against New Zealand after it declared itself "nuclear-free" and denied U.S. Navy ships access to its ports.

"To some degree, we, at the same time,

have convinced certain parties in Australia and New Zealand to be less suspicious of the United States," Mr. Brand said.

"Our main goal is to initiate ideas that foster a better understanding of Australia and New Zealand. Our activities include sponsoring expert visits and conferences, facilitating research and sponsoring cultural events," Dr. Albinski said.

The center, as part of the University's Intercollegiate Research Programs, draws upon faculty from all the academic colleges.

In addition, Penn State houses the finest collection of Australian and New Zealand materials of any American university. Its holdings include a substantial collection of Australian art and documentary films, and special strength in literature and exploration. The University's extensive library on these countries is a valuable resource always available to the international community of scholars.

The center has established memorandums of understanding with Australian and New Zealand universities and has formed

working relationships with government bodies such as the Australian and New Zealand embassies, consulates and bilateral associations.

Other activities include setting up study-abroad programs for Penn State undergraduate students at the Australian National University and the University of Melbourne; promoting the formal teaching of Australian and New Zealand subject matter at Penn State; attracting Australian and New Zealand academics to teach and conduct research at Penn State; and assisting graduate student research.

The center also has organized eight major conferences, which have attracted academics, government officials and business representatives.

"Our conferences result in publications of measurable research value which influence policy-makers and other specialists both in the United States and in Australia and New Zealand," Dr. Albinski said.

The span of Australian-New Zealand cultural events includes Australian film

festivals, plays, readings by Australian poets, concert performances by Australian musicians, and exhibitions of indigenous and conventional art forms.

"As a regional Pacific Rim power, Australia in particular is growing in importance on international economic, as well as domestic, issues," Mr. Brand added. "Thus, we can't afford to have second-hand information about that area."

Dr. Albinski feels that the roles played by Australia and, to a lesser degree, New Zealand, will continue to be salient to U.S. interests, despite the fundamental dispute with New Zealand over its decision to be nuclear free. Australia and New Zealand know the South Pacific especially well, and are known and disproportionately influential there."

The Australia Studies Center was established in 1982 and was redesignated the Australia-New Zealand Studies Center five years later.

Dr. Jordan

(Continued from page 1)

-- the Commonwealth's rank among the 50 states for appropriations per full-time-equivalent student dropped from 23rd to 47th," he said.

"A report on factors affecting college tuition published just a few weeks ago by the American Association of State Colleges and Universities calls attention to the fact that students across the nation are paying an increasing share of their college costs because other sources of revenue have failed to keep up."

Dr. Jordan urged the legislators to provide flexibility on the tuition end of the state's proposed appropriation plan.

The Commonwealth's Tuition Challenge Grant Program proposed for next year would impose a flat \$100 increase in tuition -- an increase of only 2.6 percent in Penn State tuition. Coupled with a proposed basic appropriations increase of only 2.8

percent, the University would be left with a serious shortfall to meet its budget requirements.

Dr. Jordan also cited the need to make the Tuition Challenge Grant Program funds a permanent part of the base appropriation for participating universities to avoid the possibility of artificially high tuition increases, should the program be discontinued in the future.

The House Education Committee met at University Park as part of a series of six meetings being held across the state on Gov. Robert P. Casey's proposed 1990-91 education budget.

Scholar Medals

(Continued from page 1)

seminal papers demonstrated that granules within the pituitary gland contained pituitary hormones, opening the door for future research into the mechanisms by

which protein hormones are stored and released.

His pioneering work in the development of cell separation methodologies has led to an appreciation and understanding of the biologically significant differences in activity of hormones released from cell subpopulations of the same gland.

Dr. Garrison, who joined the faculty in 1979, has pioneered in developing mathematical models describing microscopic mechanisms of the chemical reactions that occur at solid surfaces. She has emphasized quantitative calculations that can be compared with experimental data, validating her predicted mechanisms.

Her recent work has focused on a detailed description of the growth of semiconductor thin films by molecular beam epitaxy, an important process in the semiconductor industry. This research models, for the first time, the details of true chemical reactions at surfaces.

Dr. Borkovec's research focuses on the causal components and treatment of anxiety disorders. He is one of the leading clinical researchers in the study of worry as a component of anxiety and has developed methods to aid in the alleviation of worry.

His unusual breakthrough in what had been an intractable problem for clinicians and researchers would appear to have considerable long-term applicability to the treatment of general anxiety disorders.

Ogontz CEO

(Continued from page 1)

In 1960, Dr. Fusaro joined the Department of Political Science at Northern Illinois University. He later served as assistant chair of the department from 1969 to 1978 and acting chair from 1971 to 1972. In 1978, he was appointed assistant provost.

Dr. Fusaro has published many articles on Australian governmental affairs, and has spoken on professional and career placement for undergraduate students.

Dr. Fusaro will succeed Robert A. Bernoff, who is returning to his faculty position as professor of science and general chemistry at the Ogontz Campus after serving 11 years as campus executive officer.

Judge will present Shoemaker talk

U.S. District Judge Stanley Sporkin will be the keynote speaker for the Fourth Annual G. Albert Shoemaker Program in Business Ethics at University Park, Monday, April 16.

Judge Sporkin's speech, titled "Just Do the Right Thing," is open to the public and will be delivered in the Keller Building Auditorium at 7:30 p.m.

Judge Sporkin, appointed to the federal bench in 1986 by former President Ronald Reagan, currently is hearing the Charles H. Keating Jr. Lincoln Savings and Loan case in Washington, D.C.

He formerly held the post of general counsel to the Central Intelligence Agency under the late William J. Casey and was head of the Securities and Exchange

Commission's enforcement division from 1974 to 1981.

The son of former Philadelphia Common Pleas Judge Maurice Sporkin, he is a 1953 Phi Beta Kappa graduate of Penn State with a degree in commerce. He earned his law degree from Yale University in 1957 and is a certified public accountant.

The Shoemaker Program in Business Ethics was created in 1986 through a \$100,000 gift from G. Albert and Mercedes Shoemaker of Pittsburgh.

G. Albert Shoemaker is the retired president of the Consolidation Coal Co. and president emeritus of the Penn State Board of Trustees. A 1923 graduate of the University, he served with the Board for 21 years and was named a Distinguished Alumnus of Penn State in 1965.

published a collection of his writings, *A Taste of the Country*, edited by Peter A. Morrison. Drawing upon his studies since the 1950s, Mr. Beale writes about places many Americans have neither seen nor know exist: the Mississippi Delta, the Ozark, Ouachita uplands, Appalachia, and the Corn, Cotton, Tobacco, and Peanut Belts of the nation.

The annual M.E. John Lecture is in honor of Macklin E. John (1906-1983), who was head of the Department of Agricultural Economics and Rural Sociology for 23 years beginning in 1946.

For more information about the M.E. John Lecture Series or the 1990 lecture, contact Donald M. Cridler, professor of rural sociology, at (814) 865-0455.

Nutrition videoconference scheduled

Penn State Cooperative Extension, the Department of Food Science in the College of Agriculture and the Department of Nutrition in the College of Health and Human Development are presenting the Videoconference "Eating for Health: Implementing Dietary Guidelines."

Originating from Iowa State University, the videoconference will be held at University Park and four other campuses from 11 a.m. to 5:30 p.m. Thursday, April 19.

The topics to be covered include: "Incorporating Dietary Guidelines into Public Policy" by Linda Meyers, Office of Disease Prevention and Health Promotion, Washington, D.C.; "Transforming Dietary Guidelines into Marketplace Realities" by

Jayne Hurley, Center for Science in the Public Interest, Washington, D.C.; "Changing Animals and Animal Products to Meet Dietary Guidelines" by Donald C. Beitz, Charles F. Curtis distinguished professor, Iowa State University; and "Making Food Selections that Follow Dietary Guidelines" by Dale Terry and Mary Jane Oakland, Department of Food and Nutrition, Iowa State.

To register, call: Audrey Maretzki, University Park, (814) 865-5444; Eileen Smith, York Campus, (717) 757-9637; Margaret Malehorn, Penn State Harrisburg, (717) 249-7220; Marcia Woodward, Ogontz Campus, (215) 489-4315; or Robin Murray, Hazleton Campus, (717) 825-1701.

USDA demographer to give annual lecture

The 1990 M.E. John Lecture, sponsored by the Department of Agricultural Economics and Rural Sociology, will be held at 3:30 p.m. Thursday, April 19, at the Nittany Lion Inn at University Park.

The speaker, Calvin Beale, is a senior demographer in the Economic Research Service of the U.S. Department of Agriculture. Before joining the USDA in 1953, Mr. Beale was on the staff of the Bureau of the Census. His research has focused on the farm and rural population, rural-urban migration, ethnic minorities, and regional studies.

A native of the District of Columbia, Mr. Beale received his education at Wilson Teachers College and the University of Wisconsin.

The Penn State Press, recently has

Professor will discuss 'Debbie Letter'

Michael J. Hyde, professor of communication studies at Northwestern University, will discuss "Rhetoric, Medicine and Euthanasia: A Case Study in the Workings of Postmodern Discourse" at 4 p.m. Tuesday, April 17, in 111 Chambers at University Park.

His visit, part of the Speech Communication Colloquium, is sponsored by the Department of Speech Communication and the Institute for the Arts and Humanistic Studies.

Using the "Debbie Letter" as a case study, Dr. Hyde will trace the development of the rhetoric of euthanasia from Plato and

the ancient Greeks to the postmodern, pluralistic world.

The "Debbie Letter" is an anonymous letter from a hospital resident published in the Jan. 8, 1988, issue of the *Journal of the American Medical Association*.

In the letter, the resident describes how he administered a fatal injection of morphine sulfate to a 20-year-old patient dying of ovarian cancer. Publication of this letter caused a national furor within the medical community and has raised several important issues for students of medical ethics, rhetoric and social theory.

Focus on the arts

Art contest exhibit

"Art contest, Pennsylvania Department of Correction" is on display in the Browning Gallery of the HUB Galleries at University Park until April 27. The exhibit consists of the winners of the Pennsylvania Department of Corrections calendar art contest for 1990.

The Pennsylvania State Correctional System has produced wall calendars since 1970, as a way of getting useful and educational information to the public via a functional publication. This year, the selections comprising the calendar and this exhibit were chosen by a panel of three judges.

The arts on Channel 3

World-renowned soprano Dame Kiri Te Kanawa joins the Mormon Tabernacle Choir and the Utah Symphony conducted by Julius Rudel for a unique Easter special of classical and popular favorites that will air at 10 p.m. Good Friday, April 13, on WPSX-TV.

The gifted international soprano alternates with and joins the choir in a program of sacred, operatic and musical theater selections with emphasis on the inspirational and spiritual.

Mezzo-soprano Frederica von Stade will star in "Flicka and Friends: From Rossini to Show Boat with Frederica von Stade, Jerry Hadley and Samuel Ramey," on the *Live from Lincoln Center* presentation at 8 p.m. Wednesday, April 18.

Miss von Stade, tenor Hadley and bass Ramey have each made their marks on the great opera stages of the world and share an interest in American musical theater. The first part of the program will feature them in a concert of arias and ensembles from the repertory of great French and Italian opera. The evening will continue with selections from Show Boat, the classic American musical with music by Jerome Kern and book and lyrics by Oscar Hammerstein II. The telecast will be hosted by Hugh Downs.

Chambers Gallery

Paintings and ceramics by students in the School of Visual Arts will be on display Monday, April 16 through Thursday, May 3, in Chambers Gallery at University Park.

Paintings in the exhibition represent a cross-section of works completed by bachelor of fine arts painting majors during the spring 1990 semester. Ceramics in the exhibition include both functional and sculptural works with a variety of glazing and firing techniques.

Chambers Gallery is located on the second floor of Chambers Building. The gallery is open 8 a.m. to 5 p.m. Monday through Friday.

Piano recital

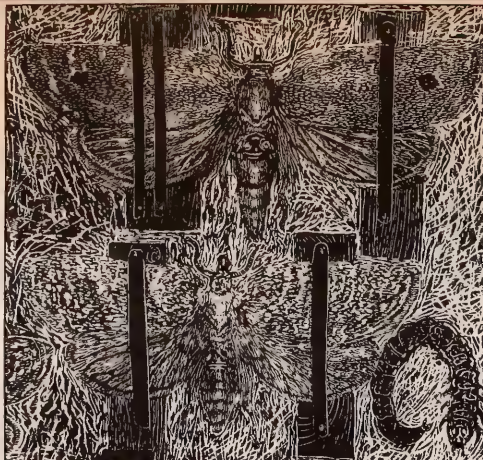

Pianist Timothy Shafer, faculty member in the School of Music, will present a solo piano recital at 8 p.m. Monday, April 16, at the Recital Hall in the Music Building at University Park.

The program will include works for piano by Franz Joseph Haydn, Johann Sebastian Bach and Franz Liszt. The featured work, Liszt's "Tarantella," is a virtuosic tour de force in the literature and represents some of Liszt's finest idiomatic writing for the piano.

Jazz performer

Claude Bolling, who redefined crossover classical music with his 1976 release of "Suite for Flute and Jazz Piano," will perform in Eisenhower Auditorium at University Park at 8 p.m. Tuesday, April 17. The concert, presented by the Center for the Performing Arts, will highlight Mr. Bolling's own brand of jazz and his skill as a jazz performer.

The concert will feature special guests

'An Apple Budmoth and a Codling Moth' by Chris Jung is on display April 18 to 29 in Zoller Gallery in the Visual Arts Building.

Eric Franceries on guitar, Pamela Sklar on flute, Pierre Yves Sorin on bass and Vincent Cordelette on drums.

Immediately before the concert, there will be a free lecture at 7 p.m. in the Greenroom of Eisenhower Auditorium.

HUB exhibit

"The Central Pennsylvania Guild of Craftsmen Annual Member Exhibit" is on display in the Art Alley of the HUB Galleries until April 28.

The Central Pennsylvania Guild of Craftsmen aims to promote and encourage quality crafts in the community and to help members strive for excellence in workmanship and design. Membership is open to all who enjoy the beauty of hand-crafted work and includes professionals, novices, hobbyists, and patrons of the arts.

For more information about the C.P.C.C., contact Helen Neuhard, president, at 237-1174, or Anne-Lise Deering, the chapter representative, at 238-4110.

For additional information concerning the exhibit, including purchase procedures, contact the HUB Galleries and Craft Centre, 312 HUB, at 863-0611.

Ensemble concert

Smith Toulson, faculty member in the School of Music, will conduct the Penn State Symphonic Wind Ensemble in its final concert of the year at 8 p.m. Wednesday, April 18, in the Recital Hall of the Music Building at University Park.

The program will feature trombonist Matt Neff, winner of this year's Phi Mu Alpha Wind and Percussion Contest, in a performance of *Rhapsody for Bass Trombone* by the Hungarian composer Frigyes Hidas.

In addition to the *Rhapsody*, the Symphonic Wind Ensemble will perform the *Overture to Cola Bruggnon* by Dmitri Kabalevsky, a *Suite* based on scenes from Shakespeare's *Hamlet* by Alfred Reed, a movement from the *West Point Symphony* by Morton Gould, and an arrangement of excerpts from the music of Sir Arthur Sullivan titled *Pinnacle Pail*.

Baroque scholars

Professors George and Linda Bauer, from the Department of Art History at the University of California at Irvine, will present lectures at 8 p.m. Tuesday, April 17, and Thursday, April 19, in 112 Walker Building at University Park.

The lectures are the fifth and sixth presentations in the series, "The World and

the Italian Architect: Native Images and Reflections Abroad," sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies. The series this year is dedicated to Professor Hellmut Hager.

An internationally known Baroque architecture scholar, George Bauer is a specialist on the Italian architect and sculptor Gian Lorenzo Bernini. His lecture on Tuesday, "Bernini in Paris," will examine Bernini's relationship with France during the reign of Louis XIV.

A Baroque painting specialist, Linda Bauer will lecture on Peter Paul Ruben's wealth of diverse works. Her lecture on Thursday, "Rubens' Oil Sketches for Architecture," will focus on a little known aspect of the Flemish Baroque painter's work, his architectural designs.

Odyssey on WPSU

On "The Mystery of Moral Indignation," in the "Odyssey Through Literature" series, host S. Leonard Rubinstein talks with J. Madison Davis, associate professor of English at the Penn State Erie, The Behrend College, about his two mystery novels. *The Master of Fine Schute*, says Professor Rubinstein, reveals a fascination with the extremes of cruelty, with evil inside of everyone.

Its historical context "excuses the reader from any responsibility." But *White Rock*, Dr. Davis's second novel, speaks of "a current frightening phenomenon," the Ku Klux Klan. "You are not now excusing us from responsibility," says Professor Rubinstein. "Is this some calculated plot on your part?"

"If I were to make it simple," says Dr. Davis about the moral content of his novels, "the idea would be that it's too easy to look the other way, that it's too easy in these circumstances to deceive yourself."

"Odyssey Through Literature" is produced by the Comparative Literature Department and airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Print exhibit

Prints by Chris Jung and Nobuko Kita, master of fine arts candidates in the School of Visual Arts, will be exhibited from Wednesday, April 18, through Sunday, April 29, in the Zoller Gallery of the Visual Arts Building at University Park.

Ms. Jung's prints explore the use of animal imagery in woodcuts, etchings, collagraphs and lithographs. Her images raise the issues of physiology and how

animals move in time, ecology and how all life is interrelated, and morality and how animals are used by people.

Ms. Kita's woodcuts and lithographs focus on the visualization of unseen subjects, such as noise, insect sounds, wind and human emotion. A new series of prints inspired by the cityscapes of New York also will be included.

The exhibition is free to the public.

Solid Brass

Solid Brass will perform in concert at 12:10 p.m. Thursday, April 19, in Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include compositions by Jack End and J.S. Bach, an arrangement of a spiritual and selections from Bernstein's "West Side Story."

Museum lecture

Kay Wagenknecht-Harte will discuss the placement of site-specific sculpture in the environment from 12:10 to 12:50 p.m. Thursday, April 19, at the Palmer Museum of Art at University Park.

Her talk will complement the museum's current exhibition, "Transforming the American Garden," on display through May 13.

A registered landscape architect in Pennsylvania and Texas, Ms. Wagenknecht-Harte will discuss the creation of perceptual experiences illuminated in her recently published book, *Site & Sculpture: The Collaborative Design Process*.

The "Transforming the American Garden" exhibition was organized by the Harvard Graduate School of Design and made possible in part with funds from the George Gund Foundation.

Night of opera

Nearly 300 University students will present a night of opera at 8 p.m. Friday, April 20, in Eisenhower Auditorium at University Park.

The program will include portions of classical, realistic and romantic operas performed by ensemble groups from the School of Music and the Contemporary Dance Company.

This is the first time that the music and dance programs have collaborated on a production. Music groups performing include the Penn State Philharmonic, the Concert Choir and Chamber Singers, the University Choir and the Opera Workshop.

The first half of the two-hour program will be Henry Purcell's "Dido and Aeneas." The Contemporary Dance Company members will recreate three court dances for the opera, which is entirely choreographed by the faculty in the dance program.

After the intermission, the choir and orchestra will perform selections from two operas. They will perform the Easter scene from "Cavalleria Rusticana" by Pietro Mascagni and the "Polovetzian Dances" and chorus from "Prince Igor" by Alexander Borodin. Members of the Contemporary Dance Company will perform the "Polovetzian Dances."

Performance set

"Implement," a pyrotechnic performance by Minnesota artist David Hall, will be presented at 9 p.m. Friday, April 20, in the Visual Arts Building area at University Park.

The premier performance of "Implement" will focus on the connection between land, farm tools and machinery, complementing Penn State, which is a land grant university offering agricultural education.

Mr. Hall has built several farm tools, such as plows and windmills, that will be manipulated in "Implement" and act as holders for Class C sparklers and spinners

(Continued on page 7)

University Park Calendar

April 12— April 22 Special Events

Thursday, April 12
Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Voice Students of Suzanne Roy: Lenten Music.
Women's Studies faculty/advisory committee meeting, 1:30-3:30 p.m., 12 Sparks.
Ethics in America, videotape presentation/discussion, 3 p.m., Eisenhower Chapel. "Ethics in Journalism, Privacy: Politics, Privacy and the Press."

Friday, April 13
Geop. Coffee Hour, 4 p.m., 319 Walker, Joel Carreau, *The Washington Post*, on "Edge Cities and American Values."
Bicentennial of the French Revolution, UTRC, 8 p.m., Pavilion Theatre. Peter Weiss, *Marat/Sade*, through April 20.

Saturday, April 14
AAUW, used book sale, 3-9 p.m., HUB Ballroom. Also April 15-18, 9 a.m.-9 p.m., HUB Ballroom.
Center for the Performing Arts, 8 p.m., Eisenhower Aud. Ballet du Nord.

Sunday, April 15
Carnegie Hall Film Series, 6:45 p.m., *The Searchers* (1956); 9 p.m., *This Is Our Home, It Is Not Far* (1987), 4 Carnegie. Free.

Monday, April 16
Comp. Lit. Luncheon, 12:15 p.m., 101 Kern. Jürgen Kamm, Universität Wuppertal, West Germany, on "Versions of Moby Dick as German Children's Classics."
School of Music, 8 p.m., Recital Hall. Timothy Slater, piano.
German Dept., film, 8 p.m., 101 Chambers. *Der König und sein Narr* (1981).

Tuesday, April 17
School of Visual Arts, noon, Palmer Museum of Art. Visiting Artist Program: a student response.
Institute for the Study of Adult Literacy, brown bag lunch, 12:15-1 p.m., 254 Chambers. Sheila Sherow, director, on "Pa. Literacy Corps."
Shaver's Creek, 6-9 p.m., Mini Natural History Course: Birds of Prey. Call 863-2000.
Center for the Performing Arts, 8 p.m., Eisenhower Aud. "An Evening With Claude Bolling."

Wednesday, April 18
UTRC, 5 p.m., 119 Arts. New Play Workshop #6, through April 20.
School of Music, 8 p.m., Recital Hall. Penn State Symphonic Wind Ensemble.
School of Visual Arts, 8 p.m., Zoller Gallery. David Hall, "Tirewells."

Contemporary Scholarship on Lesbian and Gay Lives Speaker Series, 8 p.m., HUB Assembly Room. John D'Emilio, Univ. of N.C., on "Lesbian and Gay Studies: New Kid on the Block."

Thursday, April 19
Bach's Lunch, 12:10 p.m., Eisenhower Chapel. Brass Quintet: Solid Brass.
Brown Bag Lunch/Lecture, 12:10-12:50 p.m., Palmer Museum of Art. Kay Wagenknecht-Harte on "Site & Sculpture: The Collaborative Design Process."
Art History, 8 p.m., 112 Walker. Linda Bauer, Univ. of Calif., on "Rubens' Oil Sketches for Architecture."

Friday, April 20
Eco-Action, Earth Day lecture, 3-5 p.m., Paul Robeson Cultural Center. Starhawk, author/eco-feminist/peace activist, on "Healing the Disembodied World."
Shaver's Creek, 7 p.m., Adventure Series: *Wonders* (Grades 2-4). Call 863-2000. Also April 21 at 11 a.m.
"Ice Rhythms", 7:30 p.m., Ice Pavilion. Also, April 21, 7:30 p.m.
School of Music, 8 p.m., Eisenhower Aud. Philharmonic Orchestra, Concert Hour.
University Choir and Opera Workshop.
School of Visual Arts, 9 p.m., outside Visual Arts Bldg. David Hall, pyrotechnic performance artist, on "Implement."

Saturday, April 21
Blue-White football game.
ARIS, "Movin' On," noon-10 p.m., HUB Lawn.
School of Visual Arts, 7 & 8:30 p.m., Keller Conference Center Aud. Graphic Design Film Festival.

A drawing for the equestrian statue of Louis XIV will be discussed by George Bauer at 8 p.m. April 17 in 112 Walker Building.

School of Music, 7:30 p.m., Schwab Aud. Penn State Glee Club.
Sunday, April 22
Earth Day, 9 a.m. Barash Regatta, 10 a.m.-5 p.m., Bald Eagle State Park.
Shaver's Creek, 1-5 p.m., Learning to Identify Wild Mushrooms. Call 863-2000.
Group Discussion, 2:30 p.m., Palmer Museum of Art. Robert G. Preston, landscape architect, on "Careers in the Visual Arts."
Carnegie Hall Film Series, 6:45 p.m., *Buffalo Bill and the Indians, or Sitting Bull's History Lesson* (1976), 9 p.m., *The Thin Blue Line* (1987), 4 Carnegie. Free.

International Events

Wednesday, April 18
Brown bag meeting, noon-1 p.m., 222 Boucke. Showing of student-made video on San German, Puerto Rico, education abroad program available Spring 1991.
Education Abroad Programs
The following programs for Spring 1991 are available until Oct. 1: Athens, Exeter, Kiel, Manchester, Nice, Rome, San German, Tel Aviv.

Public Radio

WPSU-FM 91.1
"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.
"Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.
"Perspectives," 6:30 p.m. Wednesdays, with Jeff Ballou. "Creative License," 12:30 p.m. Thursdays, with Asa Berlin and Pam Sautner.

Conferences

Continuing Education
Keller Building
April 18-20. Computational Fluid Mechanics and Heat Transfer. Frank Schmidt, professor of mechanical engineering, chair; Barb Impellitteri, coordinator.

April 18-20. Computer Modeling of Subidence with SPASID. Eric Albert, assistant professor of mining engineering, chair; Eric Loop, coordinator.
April 19. Women Business Owners and Professionals. Shirley Hendrick, director of continuing education, College of Business Administration, and assistant professor of business administration, chair; Kathy Karchner, coordinator.
April 20-21. Statewide Future Planning. Robert Nicely, assistant dean of continuing education and community relations, College of Education, and professor of education, chair; Chuck Herd, coordinator.
April 21-23. Pharmacy/Football Spring Weekend. Jern Milson, coordinator.

Seminars

Thursday, April 12
Polymer Science, 9 a.m., 301 Steidle. S.J. Huang, Univ. of Connecticut, on "Biodegradable Polymers."
Physics Colloquium, 3:30 p.m., 101 Osmond Lab. John Carley, Berkeley, Calif.
Ecology, 3:45 p.m., 111 Warkit. Oscar Rocha on "Non-Random Fertilization and Seed Abortion."
German Dept., 4 p.m., Frizzell Room, Eisenhower Chapel. Otto Ennsleben, East German writer, on "Post-Election Perspectives on East Germany and Re-Unification."
Mechanical Engineering, 4 p.m., 103 Mechanical Engineering. Hans Moravec, Carnegie Mellon Univ., on "After Life: Robots."

Bookshelf

Gideon S. Golany, research professor of urban design and planning, is the author of the recently published *Design and Thermal Performance: Below-Ground Duellings in China*. The fourth book on earth-sheltered habitats by Dr. Golany focuses on the pit-type and cliff-type of subterranean Chinese dwellings.
A product of the author's field studies in China from 1984 to 1985, *Design and*

Monday, April 16
Entomology, 3:45 p.m., 204 Patterson. Vera Kriskich, Univ. of Maryland, on "Generalized Plant Defense: Reciprocal Effects of Herbivores and Pathogens."
Tuesday, April 17
Gerontology Colloquia, noon-1 p.m., Living Center, Henderson. Deborah J. Walker on "Grandparental Investment among Mexican Americans from an Evolutionary Perspective."
Wednesday, April 18
Analytical Chemistry, 11:15 a.m., SS Osmond Lab. George Morrison, Cornell, on "Ton Microscopy in Biology and Medicine."
Accounting and MIS Research Colloquium, 3-5 p.m., 333 Beam. Robert B. Botrum, Univ. of Georgia, on "An Empirical Investigation of the Impact of Computer Support on Group Development."
Thursday, April 19
Polymer Science, 9 a.m., 301 Steidle. J.L. Hedrick, IBM, on "Synthesis of Imide-Aryl Ether Phenylquinoxaline Block Copolymers."
Chemistry Colloquium, 12:30 p.m., SS Osmond Lab. Christopher Walsh, Harvard Medical School, on "Molecular Studies on the Vitamin K-Dependent Post Translational Carboxylation of Protein Glutamate Residues."
Physics Colloquium, 3:30 p.m., SS Osmond Lab. Stuart Solin, NEC Research Institute, on "Novel Properties of Intercalated Layered Solids."
Ecology, 3:45 p.m., 111 Warkit. Joseph Balaban on "Responses of Two Microcosms to Copper Stress."

Exhibits

HUB Galleries
Formal Gallery
Bicentennial of the French Revolution, "The French Revolution as Portrayed in Collector's Postcards," through April 30.
Black Wings: The American Black in Aviation, through April 29.
Art Alley Panels and Cases:
The Central Pa. Guild of Craftsmen annual member exhibit, through April 27.
Browsing Gallery:
Pa. Department of Corrections, art contest, through April 27.
Kern Galleries
Selections from the Graduate Research Exhibition, through May 15.
The French Revolution, Collector's Postcards, through April 30.
Denise Arieu, Jewelry, through April 30.
Alice Ritti, Paintings and Drawings, through April 30.
College Research Exhibitions, College of Business Administration, through April 27.
Palmer Museum of Art
Roman Portraits, through April 22.
Figurative Drawings of the 17th and 18th Centuries from the Accademia Nazionale di San Luca in Rome, through April 22.
Transforming the American Garden, through May 13.
Patee Library
East Corridor Gallery:
Susan Harter, Endangered Imagination, through April 20.
West Lobby and Lending Services Gallery:
Works by art education graduate students, through April 23.
Raw Books Room:
Photography: A 150th Anniversary Exhibit, April 20-May 31.
Zoller Gallery
M.F.A. Thesis Exhibition, April 18-29.

TIPS

Information Penn State
Call 1-812-24, press 1 and enter the number of the message you wish to hear. Messages are listed in the front of the telephone directories. Other messages are Weather-234; Arts Line-345; University Calendar-456.

Thermal Performance is one of the most influential Western studies on Asian underground dwellings. The work provides support and guidance for the United States and Japan with their increasing interest in the use of earth-sheltered spaces.
Dr. Golany also discusses the cultural and social implications of these habitats by way of interviews with the residents, who gave their own perspectives on life in a subterranean environment.

Alumni Fellows will visit School of Communications

Annette Capone, vice president and editor-in-chief of *Rolltop*, Arthur M. Cooper editor-in-chief of *Gentlemen Quarterly* and Rod Nordland, Rome bureau chief for *Newsweek*, will visit the School of Communications as Alumni Fellows April 12 to 21.

The trio will participate in a journalism roundtable, "High Profile Magazines in the Age of High Definition TV," at 4 p.m. Wednesday, April 18, in 102 Forum Building at University Park.

The Alumni Fellow award, presented by the Penn State Alumni Association, is the most prestigious of the association's awards. It is administered in cooperation with the academic units. The Board of Trustees has designated the Alumni Fellow title as permanent and lifelong.

Ms. Capone, a native New Yorker and resident of Brooklyn, N.Y., received a bachelor's degree in journalism from Penn State in 1960. She began her magazine career with *Seventeen*, working as a writer and editor from 1972-76.

She was then associate articles editor for the *Ladies Home Journal* for two years and associate editor for three years of *Madam*. In 1983, she became editor-in-chief of *Rolltop*. She has written four self-help books for teen-agers, published by Scholastic, and numerous articles for women's magazines. She is on the board of directors of the School of Communications Alumni Society.

Annette Capone

Mr. Cooper of New York City received a bachelor's degree in advertising from Penn State in 1959. After service in the U.S. Navy, he joined the *Harrisburg Patriot* as a political reporter.

Later reporting and editing jobs took him to *Time*, *Newsweek*, *Parade*, and *Family Weekly* before he was named editor-in-chief of the men's fashion magazine *GQ* in 1983.

He was *Adweek's* 1986 Editor of the Year and a 1970-71 Professional Journalism Fellow at Stanford University. He is a member of the American Society of

Arthur M. Cooper

Newspaper Editors and the Communications Advisory Committee to The Campaign for Penn State.

Mr. Nordland, a native of Philadelphia, received a bachelor's degree in journalism from Penn State in 1972. A 1978 Pulitzer Prize co-winner for his coverage of the Three Mile Island crisis for *The Philadelphia Inquirer*, he has been deputy foreign editor and senior writer with *Newsweek* since 1986.

His cover story on international terrorism, "America is our Target," earned him a Citation of Excellence from the

Rod Nordland

Overseas Press Club and helped *Newsweek* win the George Polk Award for Foreign Reporting. He served as *Newsweek's* Beirut chief in 1985 and was a Nieman Fellow at Harvard University from 1988-89.

He is the author of *Names and Numbers: A Journalist's Guide to the Most Needed Information Sources and Contacts* (John Wiley & Sons, 1978) and editor of *The Watergate Files* (Flash Books, 1973).

CES Student Enhancement Fund aids campus life

When President Jordan arrived at Penn State in 1983, he traveled to the University's Commonwealth Campuses, meeting with students, administrators, faculty and staff.

A recurring theme was a desire by students to have available at their campuses more of the services and facilities offered at University Park. As a result of Dr. Jordan's meetings with these students, the Commonwealth Educational System Student Enhancement Fund was created in 1985. The goal of the fund was to enhance the quality of life for Commonwealth Campus students.

"Dr. Jordan recognized the need for improvement in student services at the Commonwealth Campuses and believed that more could be done to assist these students in academic and extracurricular areas," Richard E. Grubb, senior vice president and dean for the Commonwealth Educational System, said.

Traditionally, the more than 25,000 students at the Commonwealth Campuses have paid less tuition than University Park

students to partially compensate for the differences in environment and facilities.

With the establishment of the Enhancement Fund in July 1985, the tuition differential between University Park and the Commonwealth Campuses was reduced by \$50 during three consecutive budget years, with monies being allocated to the fund.

With the 1989-90 budget, \$2,123,850 has been allocated on a permanent basis to enhance the "collegiate" environment by improving co-curricular opportunities and activities; to improve academic and student support services designed to increase student retention and satisfaction; to assist in providing specialized services for special populations on a student needs basis, and to enrich the campus environment and encourage the involvement of students, thereby promoting academic achievement and development of student potential.

The Enhancement Fund is administered by the campus executive officers through their directors of student programs and services. In addition, each campus has

formed a committee to review funds and proposals. Dr. Grubb said.

In 1988-89, 47 percent of funds were used for academic-related services, such as extending library and learning center access, increasing staff and services of counseling/advising/learning centers, and assisting honors/cultural/orientation programs.

Sixteen percent of funds went for improvements in athletics and recreational activities, such as funding intramurals, buying equipment, extending gym hours; 28 percent of funds were spent on campus activities to enhance clubs, organizations, publications, and 10 percent of funds were devoted to health services, work study, equipment and facilities.

More than 40 positions were funded, in part, by the Enhancement Fund.

Carpooler

A vanpool is looking for one rider from Aaronsburg to University Park. Hours are a.m. to 5 p.m. Call 863-1393.

New radio service will make its debut

The Center Area Radio Educational Service (CARES), the area's first radio reading service, will debut from Penn State's WPSU-Radio and TCI Cable of Pennsylvania on Sunday, April 15.

"CARES news and entertainment programming is ideal for persons who are unable to read printed information because of physical or visual impairment," Milford R. Heddleson, professor emeritus of agronomy and vice president of the Sight Loss Support Group of Central Pennsylvania, said. "It also can be enjoyed by those who simply have little time for reading."

The service is a cooperative venture of the Sight Loss Support Group of Central Pennsylvania, WPSU-Radio, TCI Cable of Pennsylvania, and WPSX-TV.

Coordination of the various activities necessary to bring the service to the Centre Region was provided by Marlowe Froke, general manager of the University Division of Media and Learning Resources (WPSX-TV).

Initial CARES offerings will include programming from the In Touch Network, Inc. radio reading service of New York, N.Y.

In Touch will be fed via satellite to WPSX-TV on campus, which will relay the signal to WPSU-Radio, also on campus. In turn, WPSU will broadcast to home receivers on a subcarrier frequency and to TCI Cable of Pennsylvania for transmission over its Cable FM Service. The WPSU and TCI broadcasts will be identical.

TCI will broadcast the service on 105.5 FM. To receive CARES through TCI, listeners must have their cable properly connected to an FM radio. According to Mr. Froke, TCI Cable of Pennsylvania has offered to make the connections at no charge in qualified homes which already have TCI Cable Service.

In certain instances, TCI also may install cable at little or no charge to qualified homes with no cable service.

WPSU-Radio will broadcast CARES programs at 67 KHz, not over its regular channel at 91.1 FM. Listeners wishing to receive CARES in this manner must have special receivers which will be made available for sale or rent through the Sight Loss Support Group of Central Pennsylvania. For more information, please call the Group at (614) 238-0132.

News in Brief

Educational Office Personnel

The Penn State Chapter of Educational Office Personnel is sponsoring a Brown Bag Lunch at 12:10 p.m. Wednesday, April 18, in W343 Pattee Library-West Wing Staff Lounge-at University Park. Ellen Spinelli, placement officer for South Hills Business School, will present a program titled "Resume Writing."

The Penn State Chapter of Educational Office Personnel is a professional organization whose membership consists of staff, staff non-exempt, clerical and technical service employees. For information, please call Sharon Rolley, president, or Lois Summers, membership chair, at 863-2211.

Elder adults sought for study

Verneda P. Hamm, a post-doctoral fellow in the College of Health and Human Development, is seeking older adults for a study on reading

comprehension.

People between 60 and 85 years of age who enjoy reading are eligible. Participants will read short stories and answer one question about each story. A single one-hour session on campus is required.

Each participant will receive \$10 and parking permits will be issued to those who drive to campus. Interested persons should call Tina Meyers at 865-3253 and leave a name and phone number.

Graduate Research Exhibition

First prize winners in the 1990 Graduate Research Exhibition held March 23-24 at University Park are:

Deborah J. Walker, "Grandparental Investment Among Mexican Americans: An Evolutionary Perspective;" Yu Tong Morton and Qibao Zhou, "Incoherent Scatter Radar Probing of Ionosphere;" Young-Hoo Kwon, "3-Dimensional Analysis of Yurchenko Vaults

Performed by Elite Female Gymnasts During the 1988 Seoul Olympic Games;" Ursula M. Graham, "The Effects of Elemental Sulfur on the Kinetic Pathways of FeS₂ Formation at Low pH."

Education Abroad Programs

The Office of Education Abroad Programs will host an informal brown-bag meeting and showing of a student-made video about the San German, Puerto Rico, program from noon to 1 p.m. Wednesday, April 18, in 222 Boucke, University Park. The intensive Spanish program still has openings for Spring Semester 1991. Applications are being accepted until Oct. 1.

Office move

Materials Procurement's new office address is Materials Procurement, Barbara Building, University Park.

Partings

Forrest J. Remick, associate vice president for research and graduate studies and professor of nuclear engineering, has retired after 33 years of service.

He currently is a member of the U.S. Nuclear Regulatory Commission, appointed by President George Bush for a five-year term ending in 1994. In 1989 he was appointed chair of the NRC's Advisory Committee on Reactor Safeguards, on which he had served since 1982.

Since beginning his career at Penn State in 1956, Dr. Remick has held numerous research and administrative positions in the University.

He has served as acting director for Air Environmental Studies and as director for the Nuclear Reactor facility, the Curtis-Wright Nuclear Research Laboratory, the Institute for Science and Engineering, and the Intercollegiate Research Programs.

In addition, he has held many national positions in nuclear research, training and regulation including administrative judge with the NRC's Atomic Safety and Licensing Board, director of the NRC Office of Policy Evaluation and member of the National Nuclear Accrediting Board.

A Lock Haven native, Dr. Remick received his bachelor's, master's, and doctoral degrees in mechanical engineering from Penn State and is a graduate of the Oak Ridge School of Reactor Technology.

Forrest J. Remick

Evelyn M. Trimble, head cook of Dobbins Hall at Penn State Erie, The Behrend College, has retired after 23 years service. She began working in the cafeteria in 1967.

Mrs. Trimble, a widow, is a native of Erie and the mother of six boys, five of whom attended Penn State. One of her sons, Patrick Trimble, currently is an instructor there. She has 10 grandchildren and is eagerly awaiting the graduation of one of her grandsons, Matthew Trimble,

from Penn State-Behrend in May. Mrs. Trimble's retirement plans include traveling across the United States and possibly a cruise or two.

Linda Linnon, assistant professor at Fayette Campus, from Sept. 1, 1968, until Jan. 1.

Betty Wilcox, secretary at Penn State Harrisburg, from Sept. 1, 1969, until Jan. 3.

Aida J. Stahlman, nutrition advisor, Agriculture, from July 1, 1977, until Feb. 8.

Joyce L. Sellers, janitorial worker, Office of Physical Plant, from Sept. 1, 1976, until Feb. 8.

Vivian D. Beckenbaugh, nutrition advisor, Agriculture, from July 1, 1977, until March 1.

Robert E. Smeltzer, research technician, dairy science, Agriculture, from April 5, 1971, until March 24.

Glen R. Braucht, maintenance worker, utility, Office of Physical Plant, from July 2, 1979, until March 31.

Wayne D. Holler, maintenance mechanic utilities piping, Office of Physical Plant, from Dec. 18, 1972, until March 31.

Patricia A. Pontosi, senior clerk at Ogonz Campus, from Dec. 1, 1977, until March 31.

Ephraim L. Wilson, stock truck driver, Office of Physical Plant, from Sept. 17, 1972, until March 31.

Jane M. Cartwright, secretary B, Commonwealth Educational System, from

Aug. 26, 1974, until April 1.

Leland B. Eminhizer, electron microscopist analyst, Earth and Mineral Sciences, from Jan. 11, 1971, until April 1.

Patricia E. McMullen, secretary B, Health and Human Development, from Nov. 9, 1970, until April 1.

Kathryn I. Meyer, inventory control clerk, Commonwealth Educational System, from Dec. 1, 1971, until April 1.

Kazimierz J. Okoniewski, waste water treatment plant worker, Office of Physical Plant, from Oct. 14, 1979, until April 1.

Mary L. Longenecker, patient service aide at Hershey, from May 9, 1977, until Jan. 5.

Robert V. Hagerty, janitorial worker at Altoona Campus, from Sept. 5, 1978, until Feb. 1.

Carol A. McElroy, secretary B at New Kensington Campus, from Feb. 1, 1978, until Feb. 1.

Elmor R. Snow, PENNTAP information coordinator, Continuing Education, from July 1, 1972, until Feb. 6.

Lorna J. Davis, senior staff nurse at Hershey, from Oct. 10, 1977, until Feb. 10.

Lois M. Addelman, residence hall utility worker, Housing and Food Services, from Feb. 17, 1980, until March 1.

Beverly J. Seaward, janitorial worker, Office of Physical Plant, from March 5, 1979, until March 17.

Faculty/Staff Alerts

Tax deferred annuities

Regular, full-time faculty and staff members are reminded that one of many benefits available to them is the tax deferred annuity.

Section 403(b) of the Internal Revenue Code permits some employers such as colleges and universities, to make these programs available. Tax deferred annuities make it possible for employees to save part of their salary for future needs and, at the same time, defer federal income tax. Contributions must be in the form of payroll deductions.

At the present time approximately 2,900 full-time faculty and staff members participate in the program.

Tax deferred annuities for faculty and staff at Penn State are available through The Equitable Life Assurance Society, Teachers' Insurance and Annuity Association (TIAA) and the Variable Life Insurance Company (VALIC).

Additional information may be obtained from representatives of The Equitable, VALIC or the Employee Benefits Division, 865-1473; network 475-1473.

Health coverage

Faculty and staff members with children are reminded that dependent children are covered under the University's health insurance program until the age of 19, unless they are full-time students. Those who are full-time students continue to be covered until age 23.

Therefore, it may be desirable to seek other health insurance coverage in advance for dependent children approaching age 19 or 23, as applicable.

The University does offer the opportunity to continue the hospital/surgical/major medical plan or Healthpass when a dependent child reaches age 23 or is no longer a full-time student. An individual also may elect to convert the group plan to an individual policy through the University's insurance carrier. If continuation of coverage is desired, information and application forms may be obtained from the Employee Benefits Division, 205 Rider Building (865-1473 or network 475-1473).

Information about other, private insurance coverage can be obtained from

representatives or salespersons of commercial insurance companies.

Health care coverage review

Regular University faculty and staff members are urged to review periodically the deductions being taken for their health care coverage (hospital/surgical/major medical, dental and vision) to be certain that they are paying for the correct coverage.

A change in family status may affect your cost and your coverage. For example, when you get married, when you have a first child, or when your spouse stops working for the University, you run the risk of having inadequate dependent coverage, if you haven't taken steps to indicate the change in coverage desired.

Consideration should be given to changing coverage if any of the following circumstances arises: You get married, you get divorced (or separated and no longer wish to provide spouse dependent coverage); you become the parent of a first child (note: a baby is covered automatically for 31 days following birth; however, to provide coverage beyond that time for a child, a coverage form must be completed); your only dependent child reaches age 19 (or 23 in the case of a full-time student);

your only dependent child gets married; your spouse begins or ceases working for the University as a regular employee; your only dependent child begins or ceases working for the University as a regular employee; your spouse enters military service; your spouse dies; your only dependent child dies.

If you feel a change should be made, call, write or visit the Employee Benefits Division, Room 205 Rider Building, 865-1473. Faculty or staff members located away from University Park may receive assistance by contacting the appropriate Director of Business Services or Human Resource Office.

The University has no way of knowing whether a change should be made, so it is the responsibility of the individual faculty or staff member to keep his or her records up to date. No refunds for overpayment will be made, unless it can be shown that the University was in error.

Obituary

Joann A. Wilson, clerk typist A, Commonwealth Educational System, since Dec. 18, 1989, died April 1 at the age of 60.

Focus on the arts

(Continued from page 4)

that will finish the performance. Original music and agricultural sounds will accompany the performance.

Dance concert

Anton Gitsov, cultural attache for the Embassy of the Peoples Republic of Bulgaria in Washington, D.C., will attend the 12th Annual Spring Concert of the Penn State Internationale Dancers at 7:30 p.m. Saturday, April 21, in Eisenhower Auditorium, University Park.

This marks the first time an embassy official has accepted the invitation to attend the ensemble's Spring Concert.

A sampling of Bulgarian folklore will be presented by the ensemble as members perform songs from the Pirin Mountains and a suite of dances from the Shope region.

According to Elizabeth Hanley, director of the ensemble, Mr. Gitsov and his wife will arrive on campus the afternoon of

April 20 to meet with members of the University community regarding the possibility of student exchanges between institutions of higher learning in Bulgaria and Penn State.

Tickets for the concert are available at the Eisenhower Auditorium Box Office, 8:30 a.m. to 4:30 p.m. General administration is \$5, and student/senior citizen tickets are \$4.

Zoller exhibit

Works by graduate students in studio and art education in the School of Visual Arts will be on exhibit Tuesday, May 1, through Friday, May 4, in the Zoller Gallery of the Visual Arts Building at University Park.

Works on display include a variety of ceramics, printmaking, sculpture, drawing, painting, photography and metals completed during the spring 1990 semester.

The gallery is open 9 a.m. to 5 p.m. Monday through Friday, 11 a.m. to 4:30 p.m. Saturday, and noon to 4 p.m. Sunday.

Glee Club

The Penn State Glee Club will dedicate the Blue and White Concert at 8 p.m. Saturday, April 21, to President and Mrs. Jordan. The concert will be presented in Schwab Auditorium at University Park.

Hazleton Campus

Five prints by Georgia O'Keeffe are on display at the Penn State Hazleton Campus library through the month of April. The prints, including "Red Poppy," "Light Iris," and "Ram's Head With Hollyhock," can be seen on the upper level of the library.

The prints were loaned to the library for the display by Richard Tye, head librarian at the campus. Kathleen Stone, assistant librarian; Lisa Mainiero, library staff assistant; and Stuart J. Erwin, instructor in French.

An exhibit of 12 landscape and nature

The program will include performances by the Hi-Lo's, the Varsity Quartet and After Hours, as well as special guest performances by pianist Marylene Dosse, tenor Richard Kennedy and baritone Robert Trehy.

The arts at...

paintings by artist Tim Mark is on display in the library at the Penn State Hazleton Campus through May 29.

Penn State Harrisburg

Inspired by Earth Day, Penn State Harrisburg is hosting an outdoor sculpture exhibit by nine Pennsylvania artists during the month of April.

Participating sculptors include Linda Cunningham, John Diamond-Nigh, Jeremy Jernigan, Duane McDiarmid, John Monckach, Michael Pascucci, Alan Paulson, Herbert Simon, and Peter Jon Snyder.

Blue, White courses will be open during entire season

Good news for University golfers: The Blue and White golf courses will both be open during the entire 1990 season. **Bob Intrieri** reports.

"The redesign and construction planned for the golf courses in 1990 is taking longer than anticipated. As a result, the planned reduction from 30 to 27 holes for the Blue and White courses this season will not take place as previously announced," Mr. Intrieri, manager of the golf facilities and head golf professional, says.

In the meantime, membership fees will remain the same as in 1989, when more than 80,000 rounds of golf were played on

both courses, he notes.

Mr. Intrieri stressed that the delay in plans for the redesign and construction on the golf courses does not affect "the University's commitment to making qualitative improvements in the entire golf operation. Our goal is to enhance the golf operation and to make it one of the finest University golf facilities in the country."

The 1990 season will be devoted to planning and design by Arnold Palmer and his staff and the Office of Physical Plant staff, to the completion of engineering studies and to infrastructure work on wells, pumps and landscaping. In addition, a new

course maintenance compound will be built this year.

In early spring 1991, construction and groundbreaking for the new clubhouse (on the site of the existing Blue Course golf shop) will begin. These activities will result in the loss of nine holes.

The delays in the project are related to the large number of engineering studies being done, including a soil profile, water resource project to locate a new well, test boring project to determine the location of lake areas, land surveys and stormwater management study, Mr. Intrieri says.

In anticipation of the reduction in the

size of the courses, a lighted practice range was constructed in 1989. It now is open for business (until 9:30 p.m., weather permitting), Mr. Intrieri says.

Other services currently available to users of both courses are instruction programs for juniors (ages 7 and 8) through adults by the staff of seven golf professionals, club repair and custom club assembly by trained staff and an expanded merchandising program.

Mr. Intrieri says that new maintenance equipment and additional full-time staff also have been added to the crew managing the turf conditions of the courses.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in promotion MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 865-8304 (NETWORK LINE 433-0304). Applications for those staff vacancies will be accepted until April 19, DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment Practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

• Senior Applications Programmer/Analyst, Development and University Relations, Alumni Association, University Park Campus - Responsible to the assistant executive director, Alumni Services for the analysis, programming, testing, design and implementation of information system. Provide training and support to users; suggest and discuss development of new system and/or evaluate existing systems and problems. Requires bachelor's degree, or equivalent, in computer science or related field, plus two to four years of effective

experience in programming and analysis. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1990, WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 7.

• Athletic Concessions Assistant, Intercollegiate Athletics, University Park Campus - Responsible to the building coordinator and the supervisor, Outdoor Athletic Fields, for coordination of concession activities for home events held at the University. Responsible for inventory accountability and control and for supervision of wage payroll employees and groups assigned to sell products. Requires high school education, or equivalent, plus one to two years of effective experience. STAFF GRADE 4.

• Assistant Accountant, Corporate Controller, University Park Campus - Responsible to the director of accounting operations for assistance in a wide variety of duties, working toward the overall goal of obtaining well rounded accounting experience in all areas within the Office of the Corporate Controller. Requires bachelor's degree, or equivalent, in accounting or related field, and nine to 12 months of effective experience. STAFF GRADE 5.

• Pastry Chef, Housing and Food Services, University Park Campus - Responsible to the manager of the Food Stores Building for directing the operations of the Penn State Specialty Baking

and for providing training to other bakery employees. Requires associate degree, or equivalent, graduate of accredited culinary school, plus three to four years of effective baking experience with demonstrated ability to direct and manage a high quality volume specialty baking operation. STAFF GRADE 6.

• Publications Editor/Designer, CES Publications, Hershey Continuing Education - Responsible to the publications supervisor for performing a variety of editorial design and production duties in support of continuing education publications at Hershey. Requires bachelor's degree, or equivalent, in English, journalism or related field, plus up to two years of effective experience in publications, including editorial and printing-production responsibilities. Excellent writing and communications skills required along with some knowledge of graphics. Experience with electronic publishing preferred. STAFF GRADE 5.

• Assistant Manager, Orthopedic Appliances, University Hospital Rehabilitation Center for Children and Adults, University Hospital Rehabilitation Center, Elizabethtown Hospital - Responsible to the manager, Orthopedic Appliances, for assistance in the day-to-day running of the department, as well as for the construction and application of appliances. Requires bachelor's degree, or equivalent, in physical therapy, occupational therapy or orthopedics/prosthetics, plus one to two years of effective experience. Must possess current orthodontic or prosthetic certification or licensure in physical therapy or occupational therapy. STAFF GRADE 6.

• Administrative Head Nurse, University Hospital, Nursing's Medical-Surgical, Milton S. Hershey Medical Center - Responsible to the nursing manager, assigned nursing unit, for assistance in handling the day-to-day administration of the assigned nursing unit; assume responsibility in her/his absence. Requires bachelor's degree in nursing from an accredited school of nursing, plus one to two years of effective experience and current license to practice as a registered nurse by the Pennsylvania Board of Nursing. STAFF GRADE 6.

• Assistant Manager, Occupational Therapy, University Hospital, Department of Occupational Therapy, Elizabethtown, Milton S. Hershey Medical Center - Responsible to the manager of occupational therapy for day-to-day operation of the pediatric area which includes scheduling, supervision, quality assurance, parent/staff relations and direct supervision of students in pediatric occupational therapy. Requires bachelor's degree, or equivalent, in occupational therapy and certification through the American Occupational Therapy Association, plus one to two years of effective experience. STAFF GRADE 6.

• Assistant Manager, Housing and Food Services, Beaver Campus - Responsible to the manager, Housing and Food Services - Commonwealth Campuses, for all phases of a specific dining commons operation. Requires associate degree, or equivalent, plus one to two years of effective experience. STAFF GRADE 5.

• Assistant Manager, Housing and Food Services, Altoona Campus - Responsible to the manager, Housing and Food Services, for carrying out various responsibilities for the food service operation. Assume responsibility for training and supervising assigned staff, for student food service programs, campus catering and snack bar. Assist with the administration of the total housing and food service operation. Requires bachelor's degree, or equivalent, plus a minimum of one up to two years of effective experience, as well as demonstrated supervisory ability. STAFF GRADE 6.

• Supervisor, Food Services, Housing and Food Services, Penn State Erie, The Behrend College - Responsible to the manager, Housing and Food Services - Commonwealth Campuses, for all phases of a specific dining commons operation. Requires bachelor's degree, or equivalent, plus one to two years of effective experience. STAFF GRADE 5.

• Coordinator, Campus Residential Life, CES, Student Program and Services, McKeesport Campus - Responsible to the director of student programs and services for carrying out specific responsibilities for the residence hall program, including administration of the conduct standards system; selection and supervision of student assistants; developing cultural, social and educational programs and counseling of students. Requires bachelor's degree, or equivalent, plus one to two years of effective experience, or a master's degree, or equivalent, in student personnel or related field with three to six months of residence hall experience. THIS IS A CONTINUING, 10-MONTH LIVE-IN POSITION. STAFF GRADE 6.

• Marketing Specialist, Arts and Architecture, Theatre Arts, Fayette Campus - Responsible to the managing/artsistic director, Great Meadows Summer Theatre, for marketing summer theatre productions, including media relations, assisting in the development and implementation of annual marketing endeavors, implementing of related educational programs and representing the Great Meadows Summer Theatre at civic meetings. Requires bachelor's degree, or equivalent, in theater management, arts administration, communications, marketing or related field, plus one to two years of effective experience. THIS IS A RE-ANNOUNCEMENT, PREVIOUS BIDDERS NEED NOT RE-APPLY. STAFF GRADE 5.

Public policy search group appointed

A search committee has been appointed to identify candidates for the position of director of the Graduate School of Public Policy and Administration. **Robert S. Friedman**, professor of political science, will chair the committee.

Other committee members are **Frank Clemente**, professor and head, Department of Sociology; **Gordon F. De Jong**, professor of sociology; **Mary L. Fennell**, professor of Sociology; **Trond Guberg**, professor and head, Department of Political Science; **Bradley D. Horton**, public administration graduate representative; **Michael R. King**, associate professor of political science; **Shiriki Kumanyika**, associate professor of nutritional epidemiology; **Frank J. Landy**, professor of psychology; **Robert D. Lee Jr.**, professor and head, Department of Public Administration; **Raymond E. Lombra**,

professor of economics; **Thomas F. Luce Jr.**, assistant professor of public administration; **Jeremy F. Plant**, professor and head, Division of Public Affairs; **James D. Rodgers**, professor and head, Department of Economics; **Minora V. Sharpe**, policy analysis graduate student; and **John M. Stevens**, professor of public administration.

The search committee will begin to review applications in mid-May and continue to receive them until a candidate is selected. Nominations and letters of application accompanied by a curriculum vitae and other supporting material should be submitted to Robert S. Friedman, chair, search committee for director of the Graduate School of Public Policy and Administration, Room 201 Old Main, Box I, University Park, Pa. 16802.

ALUMNI FELLOWS

Three Alumni Fellows will visit School of Communications. See story on page 6.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

INTERCOM

April 19, 1990

Volume 19, Number 30

Information submitted for publication in *Intercom* is due by noon on the Thursday before publication.

Dr. Hosler appointed acting executive vice president

Charles L. Hosler Jr., senior vice president for research and dean of the Graduate School, has been named acting executive vice president and provost of the University, effective May 25.

Prior to that date, Dr. Hosler will maintain an office in Old Main to facilitate his spending time with Executive Vice President and Provost William C. Richardson. Before Dr. Richardson assumes the presidency at Johns Hopkins University,

Dr. Hosler will continue to carry the title and administrative responsibilities of senior vice president for research and dean of the Graduate School while serving as acting executive vice president and provost.

President Jordan expressed his pleasure and thanks at the prospect of having Dr. Hosler assume the number two administrative role at the University during this period of transition.

"I am, first of all, grateful to Dr. Hosler for his willingness to take on this tremendous responsibility for Penn State," Dr. Jordan said. "And I am secure in the knowledge that he is a good choice for the job. My consultation with the faculty, with the academic deans, with his administrative colleagues and with the campus executive

officers revealed a great deal of confidence and respect for his abilities as an academic and an administrator."

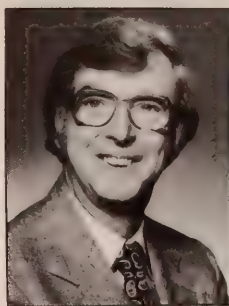

Beyond that, Dr. Jordan said, Dr. Hosler has a broad and deep understanding of Penn State, both its problems and its opportunities.

"And he will be very helpful to the new president when he or she directs the search for a permanent chief academic officer."

"I am honored to have this vote of confidence from the president and my colleagues with whom he has consulted," Dr. Hosler said. "I hope to continue in the tradition Dr. Richardson and Dr. Jordan have developed so well for the past seven years."

Dr. Hosler, who was named vice president for research and dean of the Graduate School in 1985, has been a member of the Penn State faculty and administration since 1951, when he was appointed assistant professor of meteorology. He was promoted to professor in 1960 and served as head of the Department of Meteorology from 1961-65. From 1965-85, he was dean of the College of Earth and Mineral Sciences.

He earned B.S. (1947), M.S. (1948) and

Charles L. Hosler Jr.

Ph.D. (1951) degrees from Penn State.

Under his leadership, the University has steadily increased and enhanced its research rankings in the areas of industrial and governmental grants and contracts, total research expenditures and percentage

increase of research funds, among other areas.

Dr. Hosler's national reputation as a meteorologist has been recognized by appointments to a number of prestigious committees, including the National Science Board. He was reappointed to a six-year term on the board in 1988 at the recommendation of President Ronald Reagan. The board is the policymaking body of the National Science Foundation.

He recently served as chairman of the National Research Council Panel on Meteorological Support for Space Operations that recommended improvements in the gathering and use of meteorological information to improve the safety and efficiency of U.S. space operations. He also represented the United States on education and training matters for the World Meteorological Organization, a United Nations agency.

Dr. Hosler also is a member of the National Academy of Engineering and a fellow and past president of the American Meteorological Society. He currently chairs the National Service Modernization Committee for the National Research Council.

Child care advisory committee named

President Jordan has appointed a University Child Care Advisory Committee. The recommendation to appoint the committee was one of several recommendations in the final report of the University Child Care Task Force, which was recently accepted by Dr. Jordan.

The Child Care Advisory Committee is comprised of 12 members including staff, faculty, clerical, and technical-service employees, and students.

The Committee will advise the director of the New Office of Child Care Services, and oversee the following activities:

- The implementation of a University-wide child care plan of action.

- The review of the status of child-care committees at each campus and support, where needed, for the establishment of such local groups.

- The ongoing appraisal of child-care needs of the University community, and of child-care systems at other relevant institutions that might suggest

improvements at Penn State.

A representative group of the committee will be involved in the search and screening process for the new director.

The committee will be chaired by **Charles M. Super**, head of the Department of Human Development and Family Studies. Dr. Super also chaired the University Child Care Task Force. Other members include Carol Everett, staff, Office of Planning and Analysis;

Christopher Reber, staff, Student Services;

Penn State Erie, staff, The Behrend College; **Jill Findis**, faculty, College of Agriculture;

Linda Shoop, faculty, Penn State New Kensington; **Michelle Martin**, returning adult student; **Win B. Mlambo**, graduate student; **Kathleen Hillegas**, clerical Division of Student Programs; **Mia Kim**, technical service, Office of Physical Plant; **Joanne Darrow**, returning adult student, Penn State Harrisburg; **Greg Gilkes**, armed services veteran, student; and **Connie Moore**, clerical, Department of Psychology.

In Business Administration

Board of Visitors is appointed

Ten distinguished individuals from the business community and the judiciary have agreed to serve on the first Board of Visitors of the College of Business Administration.

According to Dean J.D. Hammond, the board will provide advice of critical importance as the college moves to strengthen its programs and develop strategic ties with executives in both the public and private sectors.

"Business schools serious about building quality cannot move forward without formal access to the thinking of top-level executives," he said.

Frank P. Smeal of Rumson, N.J., a limited partner with the investment firm of Goldman, Sachs and Co., will be chairman of the board. Other board members are:

- **Edward Anchel** of Milford, Pa., chairman and president of Sparkomatic Corp.

- **Richard H. Bard** of Denver, Colo.,

chief executive officer of Computerland International.

- **Louis B. Benzak** of Rye, N.Y., president of Spears, Benzak, Salomon and Farrell Inc.

- **David W. Christopher** of New York, N.Y., world managing partner for audit and business advisory services with Prince Waterhouse.

- **Edward R. Hintz** of Chatham, N.J., president of Hintz, Holman and Hecksher.

- **William A. Schreyer** of Princeton, N.J., chairman and chief executive officer of Merrill Lynch and Co.

- **Robert G. Schwartz** of Princeton, N.J., chairman, president and chief executive officer of Metropolitan Life Insurance Co.

- **Stanley Sporkin** of Chevy Chase, Md., U.S. district judge.

- **L.G. Waterhouse** of Ridgefield, Conn., vice president for academic information systems with IBM Corp.

Arnold Addison

Mayor Addison cited for diversity leadership

State College Mayor **Arnold Addison** was given special recognition for his leadership and support for diversity at Penn State's Awards Convocation.

"The Pennsylvania State University recognizes **Arnold Addison**, professor emeritus and mayor of State College for distinguished leadership and devoted support to welcome and celebrate diversity," President Jordan said.

Mayor Addison has contributed to the community and the University through active participation in support of diversity. He was recognized for his accomplishments in the campaign against racism, including initiating the minority internships program in the mayor's office and serving as a member of the University/Borough liaison committee.

The mayor has participated in the Martin Luther King Day recognitions and has published numerous articles in government

journals highlighting the importance of Town/Gown relationships.

Mayor Addison created a mayor's action network, a coalition of borough and University groups that has heightened community awareness. He also has served as a member of Penn State's Commission on Racial and Ethnic Diversity.

"Much of the efforts under way at Penn State in support of diversity today are the result of the 1985 final report of a Presidents' Community Advisory Committee which Mayor Addison co-chaired," Dr. Jordan said.

Mayor Addison has served in the State College Borough for 37 years. His public service began in 1957 as the chairman of the Police Civil Service Commission. He was a councilman for 18 years, served two years as council president and currently is serving a fourth term as mayor.

The mayor has represented local

government at the state level as president of the Pennsylvania State Association of the Boroughs (1976-77); president of the Intergovernmental Council (1979-80); and president of the Association of Mayors of the Boroughs of Pennsylvania (1985-86).

He is a graduate of the West Virginia University with a B.A. and M.A. in political science. Prior to his retirement from Penn State in 1978, he held a joint appointment as a professor of industrial relations in the Department of Industrial and Management Systems Engineering and as the personnel director of the Applied Research Laboratory.

Dr. Jordan said Mayor Addison's achievements are "a myriad of personal and private involvements in making life fuller for literally hundreds of individuals across all walks of life."

Focus on Diversity

Blylye Avery

Tap dancer, jarocho musician featured

Winners of the National Endowment for the Arts' highest award for traditional artists are featured when *The Lonesome Pine Specials* presents "American Originals in Music" airing at 9 p.m. Saturday, April 21.

Two of the winning performers include tap dancer Howard "Sandman" Sims and jarocho musician Jose Gutierrez.

Sims trained as a boxer, but gave up the ring after breaking his hand twice. It was in the ring, however, that he first hit upon what was to become his specialty: the sand dance. "I used to do some fancy steps in

the rosin box," he says, "and the people liked that better than my fighting."

Venezuelan native Gutierrez became interested in guitar at age 7. At age 15, he took up the requinto, the small, four-string melody guitar that plays off the jarocho harp in explosions of rapid-fire syncopations. His impeccable technique, the depth and solidity of his musical sensibility, and his wide-ranging comprehension of jarocho tradition make him one of the truly remarkable musicians of our nation.

Summer program for minority students

The University will establish a summer program aimed at encouraging minority students in Pennsylvania's high schools to consider careers in science, business and engineering, thanks to a \$40,000 grant from Eastman Kodak.

Students will attend a four-week program at University Park that will include information on career opportunities and the academic preparation students will need to achieve those careers.

The Colleges of Science, Business Administration and Engineering, in collaboration with the University's minority admissions office and high school counselors and teachers, will identify the students.

University faculty will provide intensive

instruction in mathematics, computer science and English. Engineers, scientists, managers and other minority professionals from Eastman Kodak will act as mentors for the students and counsel them on how to apply knowledge gained in the classroom to the work environment. Tours of Eastman Kodak facilities also will be included.

The program is open to high school sophomores and juniors who are Pennsylvania residents.

Eastman Kodak has been providing financial support to a variety of Penn State academic programs since 1956. The company has donated more than \$500,000 to the University since the Campaign for Penn State began in 1984.

Commission for Women cites Dr. Schoch

Jacqueline Schoch, campus executive officer at the Penn State DuBois Campus, received special recognition from the Commission for Women at its recent spring banquet.

She received the book *Pennsylvania*, and monies are being contributed to University Libraries to purchase books on Pennsylvania history in her name.

Retiring on Sept. 30, Dr. Schoch has devoted 40 years to education, including 20 years of service to DuBois Campus and another 20 years in DuBois Area School District.

Her many activities include serving as an active member of the Commission for Women and on 14 different committees of the University Faculty Senate. She recently received the John E. Wilkinson Award for Administrative Excellence.

The Commission also recognized President Jordan and William Richardson, executive vice president and University provost, for their contributions to the advancement of women at Penn State. Monies were contributed to the Libraries to purchase books on music history and health administration in their names.

Carpoolers

Belinda needs a ride from Milesburg to University Park. She works from 8 a.m. to 5 p.m. Call 863-0772 or 355-7661.

Ron would like to carpool from Bellefonte to University Park. His work hours are 7 a.m. to 4 p.m. Call 355-1120 after 5 p.m.

Health project director will speak

Blylye Avery, National Black Women's Health Project executive director, will speak about the problems that affect Black/African American women at 8 p.m. Thursday, April 26, in the Paul Robeson Cultural Center at University Park.

Ms. Avery's speech, titled "Healing Through Empowerment," will focus on the ways in which racism, sexism, and classism affect the Black/African American woman and the process of taking charge and validating one's existence. The speech is part of the Center for Women Students continuing speaker series titled "Interactive Discrimination: The Combined Effects of Racism and Sexism."

Headquartered in Atlanta, the National Black Women's Health Project has chapters in 22 states, Kenya, Barbados and Belize, and is devoted to improving the health and self-esteem of Black/African American women.

A MacArthur Foundation fellow for social contribution, Ms. Avery holds the 1989 Essence award for community service. She currently is a board member of the New World Foundation, International Women's Health Coalition, Committee for Responsive Philanthropy and a Kellogg International Fellowship Program advisory committee member.

The presentation is funded by a special grant to the Center for Women Students from the Equal Opportunity Planning Committee and co-sponsored by the Black Studies Program, the Paul Robeson Cultural Center, the School of Nursing, Women of Color and Women Studies.

Diversity Calendar

Thursday, April 19
Celebrate the Family symposium, 8:30 to 9:30 a.m., Keller Conference Center, Jawanza Kunjufu, African American Images, Chicago, on "Black Families in the 1990s: Their Strengths and Weaknesses." Other sessions run through 5 p.m. and the morning of April 20.

Thursday, April 26
Center for Women Students, 8 p.m., Paul Robeson Cultural Center. Blylye Avery, executive director, National Black Women's Health Project, on "Healing Through Empowerment."

Monday, May 7
Women's Studies, 3:30 to 5 p.m., 13 Sparks Building, Women's Studies Faculty/Advisory Committee meeting. All interested students, faculty and staff are welcome.

'American Success Stories' videotapes

Three biographical videotapes from the *American Success Stories* series are now available for classroom use from Audio-Visual Services.

Jevel Lafontant (24391.VH) is a portrayal of the first black woman graduate of the University of Chicago Law School who went on to achieve many "firsts" during her 40 years in the legal profession. *Yue-Sui Kan* (24389.VH) was born in Guilin, China, and raised in Hong Kong; she became a renowned television producer and

personality. And *Franklin Chang-Diaz* (24401.VH) profiles the Chinese-Hispanic scientist who served as the mission specialist on the six-day flight of the space shuttle Columbia in 1986.

These programs are available at no charge to University faculty and staff members. At University Park, call 865-0913 to make arrangements for a preview showing. At a Commonwealth Campus, contact the campus instructional services specialist for more information.

Diversity Lecture Series presentation

Twila Martin-Kekahbah, tribal chair of the Turtle Mountain Band of Chippewa Indians in North Dakota, will speak on April 23 in the HUB Fishbowl at University Park.

Her talk on "Leadership Among Native American Indian Women" is part of the Diversity Lecture Series, sponsored by Central Pennsylvania Women of Color and funded by the Equal Opportunity Planning Committee.

A Penn State graduate, Ms. Martin-Kekahbah was elected tribal chair in 1988. Prior to her education, she served as consultant to several organizations, including the Fort Peck Assiniboine and

Sioux Transportation Department in Montana, where she assisted in the design of a transportation system for the tribe.

Ms. Martin-Kekahbah received a master's degree in educational administration in 1974 from Penn State and a bachelor's degree in elementary education from University of North Dakota in 1972. From 1984 to 1987, she was a W.K. Kellogg Leadership Fellow, which is given to potential leaders from academe and the public and private sectors.

Her honors include being named to Community Leaders of the World and Who's Who of American Indians.

Student groups recognized for work on Campaign for Penn State

Student organizations and their leaders have been recognized by the University for their work on behalf of The Campaign for Penn State.

These groups, the Student Challenge component of the Campaign, helped to raise more than \$77,000 in gifts and pledges since the Campaign began July 1, 1984.

"These students have set an example of commitment and involvement that is sure to help prepare them for future leadership roles," said President Jordan, who spoke at a reception honoring the volunteers. Cited for their leadership were:

— **Suzanne Cuttice** of Easton, chair of the Student Challenge and committee member for 2.5 years.

— **Renée Stumpf** of DuBois, chair of the

1990 senior class gift committee, which has raised more than \$15,000 for construction of an outdoor courtyard at the University Creamery.

— **Don Savoie** of Lewiston, Maine, past president of the yearbook, "La Vie," for the organization's contribution of \$11,000 for scholarships.

Also honored were presidents of area resident hall governments in Centre, East, Pollock/Nittany, West, South and North Halls for the efforts they organized.

Student fund-raising efforts have benefited a number of areas at the University, including the Office of Disabled Students, University Libraries, the arts, the Career Development and Placement Center, and the residence halls.

To take place this summer Card catalog removal scheduled

The removal of the University Libraries card catalog from Pattee Library will take place this summer.

Setting a national trend, the Libraries officially "closed" the card catalog at the end of 1980, with the implementation of an online, electronic catalog known as LIAS (Library Information Access System). LIAS provides access to the collections in Pattee, all branch libraries at University Park, and libraries of the Commonwealth Educational System, Penn State Erie, The Behrend College, Penn State Harrisburg, and Penn State Great Valley.

Over the years, the card catalog has become a source of inaccurate information for library users. Not only does the card catalog not reflect the books that have been added to the collection since 1981 (approximately 700,000), but it also does not reflect the many books that have been reclassified or lost over the last nine years.

Plans for the much-needed space that the card catalog now occupies are to establish a new books display area and information distribution point.

Realizing the important historical value

of the card catalog, the Libraries has made available a copy of the entire catalog (as frozen in 1980) on microfilm in the Microforms Room of Pattee.

For more information, contact Torre Meringolo, assistant dean and head of Collections and Reference Services, University Libraries, 865-0401.

Obituaries

Robert G. Matthews, research assistant at the Applied Research Laboratory, died April 4. He was 54.

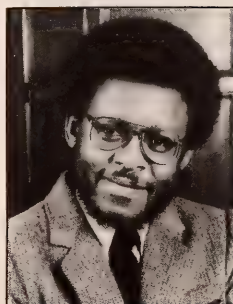

A graduate of Michigan Tech in Houghton, Mich., with a bachelor of science degree in mechanical engineering, he received a master's degree in mechanical engineering at Michigan State University. He joined the University staff Feb. 15, 1965.

Hazel E. Grenoble, housekeeping supervisor, Housing and Food Services, from Oct. 1, 1948, until her retirement Dec. 9, 1964, died March 18 at the age of 81.

Kenyan author visits

Ngugi wa Thiong'o, second from left, prominent Kenyan novelist, playwright and essayist, was keynote speaker at the recent American Comparative Literature Association Conference held at University Park. With him are, from left, Gerhard F. Strasser, conference director; President Jordan; Caroline Eckhardt, chair of the Comparative Literature Department; and Thomas Hale, associate professor of comparative literature and official host for Mr. Ngugi.

James H. Cone

Theologian to speak

James H. Cone, Briggs Distinguished Professor of Systematic Theology at Union Theological Seminary in New York City, will present the 6th annual Martin Luther King Jr. Memorial Lecture at 7:30 tonight in the Paul Robeson Cultural Center at University Park.

Dr. Cone's 1969 book, *Black Theology and Black Power*, the first systematic theology written from the African American perspective, marked a global paradigm shift in theological discourse.

Since then, Dr. Cone, recognized as the father of black theology, has written seven other books and more than 100 articles. He has served as visiting professor at nearly a dozen colleges and universities, and has lectured on five continents.

Institute names first research fellows

The Institute for the Study of Business Markets has named the first ISBM Research Fellows. Each will receive \$1,500 grants from corporate sponsors of the institute. The awardees are:

— **Stephane Gaudin**, doctoral candidate in marketing at Penn State, the Northeastern Telecom Research Fellow; his research has delved into econometric modeling of the behavior of innovative firms.

— **Kathleen Searls**, doctoral candidate in marketing at Penn State, the Aluminum Co. of America Research Fellow; in her association with ISBM, she has designed and coordinated a National Science Foundation-sponsored research project.

— **Valerie Kiewski**, managing director of the ISBM Applications Group at the University of Lowell, the Cahners

Publishing Co. Research Fellow; a member of the marketing faculty at the University of Lowell, she is investigating trade show selection, investment in industrial advertising and how firms become "market-driven."

— **James C. Anderson**, holder of the William L. Ford professorship in marketing and wholesale distribution and an associate professor of behavioral science at Northwestern University, AT&T Bell Laboratories Fellow; his research focuses on relationships between wholesaler-distributors and manufacturers and customers and suppliers.

The ISBM, founded at Penn State in 1983, has as its mission the improvement of the theory and practice of business marketing.

News in Brief

Alumni retreat

The Penn State Alumni Association will hold a three-day retreat April 26-29 at the Tofrees Hotel Resort in State College to help alumni shift from career into retirement. The retreat, titled "Profiles in the Third Age," will focus on life experiences as a key to meaningful retirement. Taking part in the retreat will be Stanley Weintraub, Evan Pugh professor of arts and humanities; Henry C. Harpending, professor of anthropology and human development; and K. Warner Schaie, Evan Pugh professor of human development and psychology.

Also presenting sessions will be Moylan Mills, director of academic affairs at Penn State Ogonz Campus; Michael Smyer, associate dean for research and graduate studies; College of Health and Human Development; Dennis Gingrich, assistant professor of family and community medicine at the Hershey Medical Center; and Michel Pharaud, instructor in comparative literature.

For further information, contact the Alumni Association, 105 Old Main, University Park, phone (814) 865-2651.

University Testing Service

The Spring Semester final exam period is from Monday, April 30, through Saturday, May 5. UTS will be open to receive work from 8 a.m. to 5 p.m. on Monday through Friday. On Saturday, May 5, hours will be 9 a.m. until 1 p.m.

Please submit recording rosters before finals, if possible. Recording rosters submitted during finals will receive a lower work priority than jobs on answer sheets.

Harrisburg center lecture

Beverly A. Cigler, professor of public policy and administration at Penn State Harrisburg, will speak on "Alternative Service Delivery Options for Pennsylvania's Small Governments" at 1:30 p.m. Wednesday, April 25, at the Penn State Downtown Center in Harrisburg.

She will examine initial conclusions from her research funded by the Center for Rural Pennsylvania. The lecture is free to the public. Registration is not mandatory, but is preferred. For registration information, call (717) 783-0433.

Lecture on Bulgaria

Vladimir K. Dobrov, of the Bulgarian Academy of Science, will present a general lecture on "Science and Education in Bulgaria" at 12:30 p.m. Wednesday, April 25, at the Penn State Ogonz Campus.

Professor Dobrov, a member of the Bulgarian Academy's Institute for Nuclear Research and Nuclear Energy in Sofia, will be the guest of the Ogonz Physics Department for several weeks.

The seminar will be conducted in the campus Spring House, 1600 Woodland Road, Abington. It is free to the public.

Arbor Day

On April 26, the Office of Physical Plant will contribute the services of two of its professional arborists to Arbor Day ceremonies at Centre Furnace Mansion.

Jeff Dice and Kris Edson, arborists who have been with OPP for four years, will join a dozen or more other arborists to strengthen the structure and prune the dead wood from the 250-year-old sycamore which graces the lawn of the Mansion.

Penn State Day in Harrisburg

The second annual Penn State Day in Harrisburg will be held from 10 a.m. to 10 p.m. Friday, April 27, at the Penn State Downtown Center, 234 N. Third St.

Activities include an open house and tours of the Downtown Center (through 3 p.m.), a Penn State Fair featuring more than 30 exhibits of University programs in the atrium of Strawberry Square, Third and Walnut streets (10:30 a.m. to 3 p.m.); concerts by the Penn State Pep Band at noon and 2 p.m. in the atrium; and an alumni buffet reception at the Downtown Center, followed by a baseball game at 7:05 p.m. in Riverside Stadium.

For more details, call the Penn State Downtown Center at (717) 783-0433.

College gets grant

The College of Education has received a \$114,804 grant from the U.S.

Department of Education to prepare American Indian special educators who serve American Indian handicapped children.

The American Indian Special Education Teacher Training Program was established in 1982 and has been continuously funded 100 percent by the U.S. Department of Education.

The director of the program is Anna Gajjar, associate professor of special education.

NSF grant

John Lamancusa, associate professor of mechanical engineering, has received a \$100,000 National Science Foundation grant.

The grant, combined with matching funds from the University, will add 24 VAV station machines to the Penn State Mechanical Engineering Computer-Aided Engineering Laboratory. Used for undergraduate design classes, the computers will allow computer-aided engineering, high-quality graphics, finite element analysis and simulation of mechanical systems.

Students will be able to take a design project from initial planning stages to drafting and analyzing of the finished parts, according to Dr. Lamancusa. Also purchased with the grant was a high-resolution color hard copy unit that allows detailed graphics to be transferred to paper.

Focus on the arts

New play

"Breathers," a new play by senior English major Aaron K. Lecon, will be presented by the New Play Workshop at 5:15 p.m. today and tomorrow in 119 Arts Building at University Park.

Director Kristin Graham describes "Breathers" as "a story of two men on death row which reaches out beyond their world and asks the audience to examine its position on the death penalty."

The play originally appeared as a short story last fall in the Penn State literary magazine *Collaps*.

Ukrainian author

Prominent Soviet Ukrainian writer Lina Kostenko will deliver a lecture and poetry reading at 7 p.m. Thursday, April 19, in the Rare Books Reading Room on the third floor of Potter Library at University Park. Ms. Kostenko, visiting post-independence at Penn State, will speak in Ukrainian, and a concurrent English translation will be provided. Her visit is sponsored by the Department of Slavic Languages and the Woskob Fund for Ukrainian Studies.

Ms. Kostenko was among that group of young authors, mostly poets, called "shestidesiatnyky," "Writers of the Sixties," who emerged in the Soviet Union during a time of relaxed censorship (1957-61).

Despite great popularity at home and abroad, they suffered during the renewed crackdown under Leonid Brezhnev (1964-82). With the coming of glasnost, she and her peers have again been allowed to write without official hindrance.

Children's play

The Penn State Thespians and Kern Graduate Commons are presenting the children's play "Androcles and the Lion" at 7 p.m. Friday, April 20, and 10:30 a.m. Saturday, April 21, in Room 112 Kern Building at University Park. Admission is free, but limited to available seating.

Internationale Dancers

In recognition of the 1990's being proclaimed "The Cultural Decade" by UNESCO, the Penn State Internationale Dancers will present a cultural collage of dance, music, and song for their 12th annual Spring Concert at 7:30 p.m. Saturday, April 21, in Eisenhower Auditorium at University Park.

Fourteen different countries will be highlighted this year by the 30-member ensemble as members portray the rich ethnic diversity that has become an integral part of our American heritage.

As events continue to unfold in Eastern Europe, the ensemble will contribute to "The Cultural Decade" by spotlighting Bulgaria, Slovakia, Poland, and the

Alison Saar will discuss her work at 1:30 p.m. April 24 in Palmer Museum of Art.

The Penn State Internationale Dancers will present their Spring Concert at 7:30 p.m. April 21 in Eisenhower Auditorium.

Yugoslav republics of Croatia and Macedonia.

Anton Gitsov, cultural attache for the Embassy of the Peoples Republic of Bulgaria in Washington, D.C., and his wife will attend the concert.

In addition to the countries of Eastern Europe, many other world countries, including India, Egypt, China, Greece, England, Philippine Islands, Israel, and the United States, are included in the two-hour performance.

For its finale, the ensemble has chosen the music and dance of the United States.

The Penn State Internationale Dancers is a performing ensemble sponsored by the Department of Exercise and Sport Science, College of Health and Human Development. Director of the ensemble is Elizabeth Hanley, assistant professor of exercise and sport science.

There will be opportunity to meet the ensemble in Room 133 White Building immediately following the performance. The public is invited to attend.

Tickets for the concert are available from Eisenhower Auditorium Box Office from 8:30 a.m. to 4:40 p.m. General admission is \$5 and students/senior citizens' tickets are \$4. For further information, contact Elizabeth Hanley at 865-2418.

Ice show

National and international figure skating competitors will highlight the eighth annual Ice Rhythms ice show at the Penn State Ice Pavilion at 7:30 p.m. Friday, April 20, and Saturday, April 21.

Featured soloists include Erik Larson, 1990 Senior Mens Pacific Coast champion, and Calla Urbanski and Mark Naylor, 1990 Eastern U.S. Senior Pairs champions. The program also will include 150 skaters in solo and group numbers.

"Cast members range in age from 3 to late 50s," Dena Yeagley, show director, said. "This show is especially nice because it includes college students and townpeople, as well as professionals. There will be lots of superb skating."

The theme of this year's show is an Ice Rhythms review, and it will incorporate music from past years' shows. Performers will skate to such songs as "Axel F" from the movie "Beverly Hills Cop," music from the Broadway play "Starlight Express" and music from "Barnum." A competitive skating student will perform a solo to a piece from "Evita."

Tickets will be on sale through April 19 at the Ice Pavilion or call 865-4102. Student and youth tickets are \$3.25 and adult tickets are \$4.75. Tickets purchased April 20 and 21 will be \$4.25 and \$5.75.

Alumnus to speak

Alumnus Robert C. Preston will discuss a career in landscape architecture and appropriate educational choices at 2:30 p.m. Sunday, April 22, at the Palmer Museum

of Art at University Park.

Mr. Preston has his own design firm, Forrest Associates Limited, in Atlantic City. His lecture is part of the museum's series "Careers in the Visual Arts."

In his lecture, he will address the need to supplement a well-rounded landscape architecture degree with electives in areas such as business and accounting.

The lecture is free to the public.

'Concert in the Park'

The Penn State Nittany Lion Concert Band will present a "Concert in the Park" at 6 p.m. Monday, April 23, in Fisher Plaza outside the Kern Graduate Building at University Park.

Brad Townsend, graduate assistant with the Penn State Blue Band and doctoral candidate in music education in the School of Music, will conduct the band.

Percussion ensemble

The Penn State Percussion Ensemble, directed by Dan C. Armstrong of the School of Music faculty, will present its annual spring concert at 8 p.m. Monday, April 23, in the Recital Hall of the Music Building at University Park.

The concert will feature works by American composers Paul Creston, William Kraft, Barney Childs and H.J. Buss.

The arts on Channel 3

"Robert Yarber Paintings: 1980-1988" airing at 10:30 p.m. Monday, April 23, and "Bellefonte Collects," airing at 8:30 p.m. Wednesday, April 25, on Channel 3, are two exhibitions to be featured on the collaborative WPSX-TV/Palmer Museum of Art series ARTWORKS.

Robert Yarber's large canvas paintings, eclectic in style using vibrant primary colors and tones, have a common trait of human bodies being suspended in the air. As series host Tom Foral notes, the bodies seem to be "flying or falling."

"Bellefonte Collects" looks at the family relics and cultural artifacts of the Victorian era that generations of people in Bellefonte, Pa., have collected, making history a real

part of their lives.

ARTWORKS' camera not only visits the "Bellefonte Collects" exhibit at the museum, but for the first time takes a video riding tour through Bellefonte to show various architectural designs of homes and businesses.

Collage artist

Alison Saar, an artist who creates collages and life-size assemblages, will discuss her work at 1:30 p.m. Tuesday, April 24, in the Palmer Museum of Art at University Park. She is the eighth and final artist in the Visiting Artist Program sponsored by the School of Visual Arts.

Ms. Saar's work represents cultural laminations of her personal beliefs, which include a melange of African and Haitian folklore, voodoo, Catholicism and contemporary African American culture and mythology.

Her work is represented by the Jan Baum Gallery in Los Angeles, and it has been exhibited in the Zeus-Tabia Gallery and Monique Knowlton in New York, the Bronx Museum, the Sculpture Center, The Whitney Museum, the Metropolitan Museum, the Everson Museum and the Sidney Janis Gallery.

Publications such as *Artforum*, *Arts Magazine*, the *Los Angeles Times* and *The New York Times* have reviewed her work.

Ms. Saar, who received a bachelor's degree from Scripps College and a master of fine arts from Otis Art Institute in California, will be at University Park April 23-25. Her visiting artist seminars will be at 7:30 p.m. April 23 and 24 in the Scholars Lounge, 215 Willard Building.

Dance auditions

Contemporary Dance Company will hold open auditions for male and female dancers from 4 to 5:30 p.m. Tuesday and Thursday, April 24 and 26, in Room 132 White Building at University Park.

Founded in 1973 by dance faculty and students, Contemporary Dance Company performs a repertoire of modern dances choreographed by University dance faculty and visiting guest artists. Company members include University students, as well as State College residents. For more information, call 865-2720, 863-1138 or 865-7112.

Film festival

Richard Pena, director of the New York Film Festival, will be a special guest speaker during the Latin American Film Festival April 24-25 at University Park.

Mr. Pena will speak at 8 p.m. Wednesday, April 25, in 112 Kern as part of the festival, which is sponsored by the School of Communications, the Office of International Programs and the Latin American Association.

Films to be shown are: "Life is a Dream" at 8 p.m. Tuesday, April 24, in Room 112 Kern; "Romance" at 11 p.m. Tuesday, April 24, in Room 4 Carnegie; "Hand in the Trap" following Mr. Pena's 8 p.m. talk April 25 in Room 112 Kern; and "Patakin" (Continued on page 7)

The arts at...

Altoona Campus

An exhibition of Penn State Altoona Campus student art work from the spring semester is on display in the Sheets and McLanahan Galleries in the Community Arts Center through May 11.

The musical comedy, "Pippin," opens tomorrow in the Paul R. and Margery Wolf Kuhn Theatre in the Community Arts Center and also will be presented at 8 p.m. April 21, 22, 27, 28 and 29.

Penn College

Singer Judy Collins will perform at 8 p.m. Thursday, April 26, at Williamsport's Capitol Theatre in a concert co-sponsored by the Pennsylvania College of Technology Foundation Inc.

Penn State Erie

Carl Rosen, keyboardist and singer, will perform at 8 p.m. Thursday, April 26, in Wintergreen Cafe.

University Park Calendar

April 19— April 29 Special Events

Thursday, April 19

Celebrate the Family symposium, 8:30-9:30 a.m., Keller Conf. Center, Dr. Jawanza Kunjufu, African American Images, on "Black Families in the 1990s: Their Strengths and Weaknesses." Sessions continue through 5 p.m.
Bach's Lunch, 12:10 p.m., Eisenhower Chapel.
Brass Quintet: Solid Brass.
Brown Bag Lunch/Lecture, 12:10-12:50 p.m., Palmer Museum of Art: Kay Wagenknecht, Harte on "Site + Sculpture: The Collaborative Design Process."
Lecture/poetry reading, 7 p.m., Rare Books Reading Room, Pattee Library, Lina Kostenko, Soviet-Ukrainian writer.
Art History, 8 p.m., 112 Walker: Linda Bauer, Univ. of Calif., on "Rubens' Oil Sketches for Architecture."

Carnegie Hall Film Series, 6:45 p.m., *Buffalo Bill and Indians, or Sitting Bull's History Lesson* (1976), 9 p.m., *The Thin Blue Line* (1987), 4 p.m. Free.

Monday, April 23

Comp. Lit. Luncheon: noon-1 p.m., 101 Kern. Michel Pharaud on "The Dionysian Victorian: Bernard Shaw and Passion."
School of Music, 6:30 p.m., Kern Plaza, Penn State Nittany Lion Concert Band & p.m., Recital Hall, Penn State Percussion Ensemble.

Tuesday, April 24

Commission for Women meeting, 11 a.m.-3 p.m., Schuykill Campus.
School of Visual Arts, Visiting Artist Seminar, 1:30 p.m., Palmer Museum of Art, Allison Saar, artist, N.Y., on "Recent Work."
Shaver's Creek, 6:30 p.m., Mini Natural History Course: Plants. Call 863-2000.
School of Music, 6:30 p.m., HUB Ballroom, Penn State Concert White Band, 8 p.m., Recital Hall, Student Composer's Concert.

Wednesday, April 25

Art History Lecture Series, 8 p.m., 112 Walker. Allan Brahm, National Gallery, London, on "Bernini's Architectural Legacy in Rome."

Thursday, April 26

Bach's Lunch, 12:10 p.m., Eisenhower Chapel. Susan Scott, organ.
Biennial of the French Revolution, lecture, 8 p.m., 112 Kern. Simon Schama, Harvard Univ., on "Trees and Liberty."
Center for Women Students, "Interactive Discrimination: The Combine Effects of Racism and Sexism," 8 p.m., Paul Robeson Cultural Center. Blythe Avery, National Black Women's Health Project, on "Healing Through Empowerment."
Robert M. Pockras Memorial Lecture, 8 p.m., HUB Aud. Dr. Tamas Szecsk, Hungarian Inst. for Public Opinion Research, on "East European Media on the Move: The Case of Hungary."

Santa Maria Maggiore's facade by Bernini is the topic of a lecture by Allan Brahm, who will discuss "Bernini's Architectural Legacy in Rome" at 8 p.m. April 24 in 112 Walker Building.

Friday, April 27

Inst. for the Study of Adult Literacy, open house, 2-5 p.m., 204 Calder Way, Suite 209. Classes end 9:30 p.m.

Saturday, April 28

Shaver's Creek, 1-3 p.m., Pennsylvania Trees. Call 863-2000.

Sunday, April 29

Shaver's Creek, 2-4 p.m., Spring Wildflower Walk. Call 863-2000.

Dulaney, professor of journalism, chair; Jerri Milson, coordinator.

April 26: EPA Radon Contractor Exam. Bonnie Ford, technical education specialist, chair; North Lathbury, coordinator.

April 26-28: Educational Secretaries Conference. Shirley Hendrick, director of continuing education, College of Business Administration, and assistant professor of business administration, chair; Kathy Karchner, coordinator.

April 26-29: Profiles in the Third Age. James Weeks, research project associate, chair; Jack Sinclair, coordinator.

April 28: Zoning Law and Administration. Jack Sinclair, coordinator.

International Events

Education Abroad Programs

The following programs for Spring 1991 are available until Oct. 1: Athens, Exeter, Kiel, Manchester (economics), Nice, Rome, San German, Tel Aviv.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-6:30 p.m., Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.
"Odyssey Through Literature," 12:30-2 p.m. Wednesdays, with S. Leonard Rubinstein.
"Perspectives," 6:30 p.m. Wednesdays, with Jeff Ballou. "Creative License," 12:30 p.m. Thursdays, with Asa Berlin and Pam Saulnier.

Conferences

Continuing Education

Keller Building

April 23-26: Pupil Transportation Supervisors Course. Jerri Milson, coordinator.
April 23-26: Elements of Mine Electrical Systems. Jeffery L. Kohler, associate professor of mining engineering and director of the mine electrical lab, chair; Barb Impellitteri, coordinator.
April 24-27: Bioreactors for Cell Culture. Workshop, Jim Shiellman, manager of training, Biotechnology Institute, chair; Eric Loop, coordinator.
April 25: EPA Radon Contractor Exam Review. Bonnie Ford, technical education specialist, chair; North Lathbury, coordinator.
April 25: High School Yearbook Seminar. William

History Colloquium, 8 p.m., Memorial Lounge, Eisenhower Chapel. Dr. David McBride, State Univ. of N.Y., Binghamton, on "The Afro-American Perspective in Contemporary Historiography."

Wednesday, April 25

Analytical Chemistry, 11:15 a.m., SS Osmond. Dave Hrubowchak.

Thursday, April 26

Physics Colloquium, 3:30 p.m., SS Osmond. Ulf von Zahn, Univ. of Bonn, on "Ion Trapping." Mechanical Engineering, 4 p.m., 101 Mechanical Engineering. Arthur E. Bergles, Rensselaer Polytechnic Inst., on "The Thermal Control of Electronic and Micro-Electronic Equipment - A Challenge for the 1990s."

Friday, April 27

Ecology, 3:45 p.m., 111 Wartik, Julie Downs on "Composition and Structure of a 320-Year-Old Mixed-Oak Forest."

Exhibits

HUB Galleries

Formal Gallery:

Biennial of the French Revolution, "The French Revolution as Portrayed in Collector's Postcards," through April 30.

Black Wings: The American Black in Aviation, through April 29.

Art Alley Panels and Cases:

The Central Pa. Guild of Craftsmen annual member exhibit, through April 27.

Browsing Gallery:

Pa. Department of Corrections, art contest, through April 27.

Kern Galleries

Selections from the Graduate Research Exhibition, through May 15

The French Revolution, Collector's Postcards, through April 30.

Denise Arie, Jewelry, through April 30.

Alice Ritti, Paintings and Drawings, through April 30.

College Research Exhibitions, College of Business Administration, through April 27.

Roman Museum of Art

Roman Portraits, through April 22.
Figurative Drawings of the 17th and 18th Centuries from the Accademia Nazionale di San Luca in Rome, through May 20.
Transforming the American Garden, through May 15.

Pattee Library

East Corridor Gallery:

Susan Harter, Endangered Imagination, through April 20.

West Lobby and Lending Services Gallery: Works by art education graduate students, through April 23.

Rare Books Room:

Photography: A 150th Anniversary Exhibit, through May 31.

Zoller Gallery

M.F.A. Thesis Exhibition, through April 29.

Bookshelf

Dennis P. Hogan, professor of sociology and director of Population Issues Research Center, is the co-author of *Family, Political Economy, and Demographic Change: The Transformation of Life in Casalecchio, Italy, 1861-1921* (University of Wisconsin Press). His co-author is David I. Kertzer, William R. Kenan Jr. professor of anthropology at Bowdoin College.

Family, Political Economy, and Demographic Change represents an unprecedented interdisciplinary effort to discover how changes in family life and demographic behavior actually occurred in this crucial period, and how people's lives were affected.

The book takes issue with a number of the most influential demographic and sociological theories dealing with the evolution of the Western family and the factors responsible for fertility decline.

Seminars

Thursday, April 19

Polymer Science, 9 a.m., 301 Steidle, J.L. Hedrick, IBM, on "Synthesis of Imide-Aryl Ether Phenylquinoxaline Block Copolymers." Chemistry Colloquium, 12:30 p.m., SS Osmond Lab. Christopher Walsh, Harvard Medical School, on "Molecular Studies on the Vitamin K-Dependent Post-Translational Carboxylation of Protein Glutonyl Residues." Physics Colloquium, 3:30 p.m., SS Osmond Lab. Stuart Solin, NEC Research Inst., on "Novel Properties of Interrelated Layered Solids." Ecology, 3:45 p.m., 111 Wartik, Joseph Balczon on "Responses of Two Microecosystems to Copper Stress."

Undergraduate Entomology Club, 7:15 p.m., 105 Chambers Building, Dr. David Fletcher, Bucknell Univ., on "The Africanized Honey Bee Program."

Monday, April 23

Entomology, 3:45 p.m., 204 Patterson. Jesse Logan, Va. Polytechnic Inst. and State Univ., on "The Science of Chaos." German Dept., lecture, 4 p.m., Rare Books Room, W342 Pattee Library. Donald Prater on "Stefan Zweig and the New World."

Tuesday, April 24

Condensed Matter Physics, noon, 339 Davey Lab. Andy Anderson, Univ. of Illinois, Urbana-Champaign, on "Fracturing Glass." Cerontology Colloquium, noon-1 p.m., 101 Health and Human Dev. Bldg., East. Robert B. Mitchell on "Biomarkers of Aging: Homeostatic Measures."

Appointments

Charles F. Coleman has been appointed director of student programs and services at the Penn State Delaware County Campus.

Mr. Coleman, of Wilmington, Del., joins the campus from Delaware Technical and Community College, where he held a variety of student affairs posts, the last of which was as assistant director of continuing education. He previously had been assistant dean of student services, athletic director, counselor and basketball coach.

Mr. Coleman holds a master of education degree in counselor education from Antioch University. He received his undergraduate degree in business administration from Villanova University.

Stephanie D. Johnson has been named events and facilities coordinator for Penn State Great Valley. In his capacity, she will be responsible for marketing and coordinating all facility rentals and usage and for providing logistical and administrative support for seminars, conferences, workshops and other meetings held at the Center.

Prior to joining Penn State Great Valley, Ms. Johnson was sales manager at the (Compro) Hotel in Bensalem and held several positions at the Holiday Inn Penn State in State College.

She is a 1986 graduate of Penn State and holds a B.S. in hotel, restaurant and institutional management.

Edward H. Klevans, professor and head of nuclear engineering, has been named acting dean for graduate studies and research in the College of Engineering.

Dr. Klevans serves as associate dean for research in the College of Engineering from 1980-84. He joined the engineering faculty in 1960 as an assistant professor of nuclear engineering and was promoted to professor in 1976. He was appointed head of nuclear engineering in 1987.

An internationally known expert in nuclear engineering, Dr. Klevans currently

serves on the National Academy of Sciences Committee on Future Nuclear Power Development.

He also continues active research in the areas of computer modeling of fusion devices. As project manager for the analysis of a new light water reactor system design, he directed the modeling and analysis of the Penn State Advanced Light Water Reactor Concept. Currently, he is project manager for a U.S. Department of Energy funded study on intelligent distributed control of power plants.

Dr. Klevans received a B.S. in electrical engineering from Penn State and his M.S. and Ph.D. in nuclear engineering from the University of Michigan. He came to Penn State from the Jet Propulsion Laboratory, Pasadena, Calif., where he was a senior scientist from 1962-66.

He is a Fellow of the American Association for the Advancement of Science and received the American Society for Engineering Education Glenn Murphy Award in 1977 for significant contributions to nuclear engineering education. He is a member of several honoraries, including Sigma Xi, Phi Kappa Phi, Tau Beta Pi, Sigma Tau and Phi Eta Kappa.

Daniel R. Leri has been appointed director of training and new business with the Ben Franklin Technology Center of Central and Northern Pennsylvania Inc.

Mr. Leri has been with the center since May, 1987, as a project director in training and new business. He assumed his new position in an acting capacity in January, replacing Arthur A. Heim, who was named director of industrial research at Penn State.

In his new position, Mr. Leri will develop interest and cooperation between higher education and business; develop education and training programs for business and industry; counsel new and existing businesses on creative financial and business plans, projects and new ventures; solicit colleges and universities to become involved in the center; develop proposals

for funding opportunities, and counsel county and regional industrial development corporations in developing Ben Franklin funding and attracting new technology-based businesses to their areas.

C. Robert Matthews, a member of the chemistry faculty since 1975, has been named the first Eberly Family Professor of Biotechnology, effective immediately.

The professorship was endowed as part of a \$10 million gift made to the University by the Eberly Family Charitable Trust of Uniontown in 1986.

"Professor Matthews is widely recognized for his work in protein engineering — the investigation of structural changes in biological molecules," Gregory L. Geoffroy, dean of the Eberly College of Science, said. "We're pleased that the professorship will give him additional support to pursue his work in this important field."

Dr. Matthews joined the Department of Chemistry in 1975 as assistant professor and was named associate professor in 1981 and professor in 1988. He was visiting professor at Stanford University's School of Medicine in 1983-84.

His research interests include the dynamics of structural changes in biological molecules in solution, particularly the mechanisms by which proteins fold to unique conformations. He also has conducted studies on the effects of single amino acid substitutions on this folding process.

Dr. Matthews earned a bachelor's degree in chemistry from the University of Minnesota in 1968 and holds master's and doctoral degrees in that field from Stanford University. He received the Research Career Development Award from the National Institutes of Health from 1981 to 1986. In 1987, he served as cochair of the Gordon Research Conference on Proteins. He is the author or coauthor of more than 50 articles in scientific journals.

The Eberly trust designated \$1 million to

create endowments supporting biotechnology. The College of Science received million-dollar endowments for an Eberly Family chair in each of its eight departments. The remaining \$1 million was designated to support teaching and research in science at Penn State Fayette Campus.

Janet R. Patterson has been named director of continuing education for Penn State Erie, The Behrend College.

Her responsibilities include extending training and development resources in Erie, Crawford and Warren counties.

She is a graduate of Saint Leo College, where she earned a bachelor's degree in sociology, and currently is a graduate student at Penn State.

Del Sweeney has been appointed special assistant to the executive vice president and provost. In this position, she will provide support to the Office of the President in the area of academic personnel matters, manage a variety of University-wide projects, and conduct special policy studies.

In 1988-89, Dr. Sweeney served as an administrative fellow in the Office of the President under the mentorship of William C. Richardson. From 1984 to 1989, she was a research associate at the Pennsylvania Transportation Institute, where she specialized in traffic safety issues. She joined PTI in 1977 as manager of the library and the publications program.

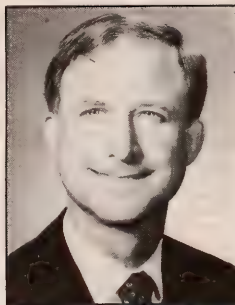

Dr. Sweeney received a B.A. from Brooklyn College, an M.S.L.S. from Wayne State University, and a Ph.D. in medieval history from Cornell University. She has taught at Queens College (CUNY), Winston-Salem State University, the University of Michigan-Flint, and Wayne State University. She has been active in the Special Libraries Association, serving as president of the Central Pennsylvania Chapter and editor of the *Transportation Division Bulletin*.

Del Sweeney

Management Services will host conference

Management Services will host the sixth annual conference of Cooperative ADABAS Users with College and University System (CAUCUS) April 22-25 at the Days Inn Penn State.

CAUCUS is comprised of 105 universities and colleges from the United States and several foreign countries, all of which use software products produced by Software AG, a West German vendor. Purpose of the annual conference is to enable users of SAG products to meet with each other and SAG representatives, to present papers on accomplishments, and to discuss items of mutual concern.

William C. Richardson, executive vice president and provost of the University; J. Gary Auguston, executive director, Computer and Information Systems, and Kenneth C. Blythe, director, Management

Services, will speak at the opening session. Robert W. Evans, director of student aid, will be the keynote speaker.

Management Services, which supports administrative computing at Penn State, uses the Software AG products on its mainframe computer to store, process, and

provide administrative data for departments throughout the University.

To register for the conference or for more information, call Jack Winter, conference coordinator, at Management Services, 863-3645.

IPO news

The Intellectual Property Office has announced that it has obtained patent coverage on a pediatric phototherapy diaper developed by Patricia Milner, nursing manager, Pediatrics/Pediatric Intensive Care Unit, Hershey Medical Center.

The phototherapy diaper is primarily designed to reduce the nursing labor associated with newborn infants having hyperbilirubinemia and to decrease the hospitalization time of such patients. The Hershey Medical Center plans to conduct clinical trials of the diaper to establish its efficacy.

Family issues

Family diversity issues dealing with mixtures of family forms and structures in an age when the traditional family no longer dominates is the theme of the sixth annual Celebrate the Family symposium now under way at Keller Conference Center, University Park.

Today's sessions run through 5 p.m. and include presentations by University faculty members Patricia Leach on celebrating family through stories, Louise Guernsey on being an effective parent educator and Barbara Davis on family issues in the middle years; and by Ron Daly, USDA Extension Service, on increasing personal effectiveness, and Christine Todd, University of Illinois, on the middle childhood years.

The symposium concludes at 12:30 p.m. Friday with a continuation of discussions from Thursday afternoon's sessions.

Promotions

Staff Exempt

Robert S. Barger to designer, electro/mechanical in Applied Research Lab.
Roger A. Garthwaite to senior project associate in research and Graduate School.
Eric E. Gheer to electronic designer in Engineering.
Harold F. Hahn to foreman, trades in Office of Physical Plant.
Ruthanna Hoffer to supervisor, professional billing at Hershey.
Joyce D. Keenan to director, operations and quality assurance in Academic Services.
Daniel D. Klees to designer, electro/mechanical in Applied Research Lab.
Rodney A. Kreuter to research engineer in Science.
Ursula Kulakowski to graphic design supervisor in University Art Services.
Edward E. Mills to director, client and campus services in Academic Services.
Sharon R. Pagano to physical sciences assistant in University Libraries.
Brenda L. Pavone to administrative assistant at Hershey.
Ruth Pfeueger to administrative assistant at Behrend College.
Robert E. Quinn to director of computer

services in Academic Services.
Frank J. Raymond to director, development Central Programs in Division of Development and University Relations.
Leroy M. Siebenrock to manager, physical facilities in Applied Research Lab.
Joseph M. Sindoni to project assistant in Engineering.
Lisa Sprouse to director, administrative service and program management in Academic Services.
Brownen Wagner to director, university scholarships and special programs in Academic Services.

Staff Non-Exempt

Kathleen M. Balz to clinical head nurse/ambulatory services at Hershey.
Rose M. Barnes to office coordinator at Hershey.
Todd K. Fetterolf to drafter/designer, electro/mechanical in Applied Research Lab.
Lee R. Gordon to facilities assistant in Science.
Curtis Krebs to photographer/printer in Commonwealth Educational System.
Carol Kuchta to licensed practical nurse, medicines at Hershey.

Mostafa Sheykhnazari to research technician at Hershey.
Jill A. Wolfgang to research technician at Hershey.
Sandra L. Arnold to licensed practical nurse/medicines at Hershey.
Carolyn H. Bibb to administrative aide at Hershey.
Janet M. Geesaman to licensed practical nurse/medicines at Hershey.
Jane A. Hamp to licensed practical nurse/medicines at Hershey.
Margaret Ann Hibbert to research technologist in Education.

Clerical

B. Jean Courter to secretary B in Liberal Arts.
Tina M. Coval to security clerk in Applied Research Lab.
E. Nan Edmonds to secretary B at Hershey.
Celine M. Gudecki to secretary A at Hershey.
Barbra Klinefelter to technical secretary B in Applied Research Lab.
Pamela S. Konta to clerk, insurance team at Hershey.
Betty Lachowski to secretary B at Behrend College.

Jennifer L. Lansberry to secretary B in Applied Research Lab.
Gloria J. Olson to secretary B in Housing and Food Services.
Judith A. Perry to secretary B at Hershey.
Kimberly A. Ripka to senior accounting clerk in Agriculture.

Technical Service

Kim M. Erb to operating room assistant at Hershey.
Kevin D. Farling to food service worker A in Housing and Food Services.
Carol L. Hulst to photographic reproduction processor in Office of Business Services.
Helen G. Robison to food preparer A in Housing and Food Services.
Margaret A. Rome to escort service aide at Hershey.
Deborah J. Smith to janitorial worker B at Altoona Campus.
Dennis Smith to maintenance mechanic A in research and Graduate School.
James F. Sosa to maintenance mechanic B at Hazleton Campus.
Willie Williams to maintenance worker (general) B at Delaware County Campus.

Faculty/Staff Alerts

Holiday schedule

The Memorial Day Holiday will be observed officially by the University on Monday, May 28. Independence Day falls on Wednesday, July 4. Classes will not be in session on either of those days.

Updating resumes

If you apply for one of the University's listed position vacancies, it is very important that you have an updated resume or biographical data form on file in the

Employment Division. When you apply for a position vacancy, an Employment Specialist will review whatever background data is on file. If the background data is not accurate and up-to-date, you may not receive appropriate consideration.

You can contact the Employment Division at any time and a form will be forwarded to you to update your background information. Or you can submit your own resume, if you wish.

Updating your background information is extremely important.

Obituaries

Helen D. Tunison, senior extension agent with Penn State Cooperative Extension, from August 1957 until her retirement July 1, 1983, died March 22 at the age of 66.

Mrs. Tunison, who served in Adams County, was promoted to senior extension agent in 1976. She earned a B.S. degree from the University of Connecticut, an M.S. in housing and design from Cornell University and an M.Ed. in general family studies from Penn State.

Before joining the Extension staff, she was an Extension home economist in New

York and taught high school in Pennsylvania. She received the Distinguished Service Award from the National Association of Extension Home Economists in 1965.

Margaret E. Stine, food production worker, Housing and Food Services, from May 10, 1956, until her retirement May 1, 1971, died April 3. She was 80.

Cheryl L. Wellar, clerk data processing A, Housing and Food Services, since Nov. 11, 1988, died March 24. She was 29.

Focus on the arts

(Continued from page 4)

at 11 p.m. Wednesday, April 25, in Room 4 Carnegie.

For more information, contact Festival coordinator George Yatchisin at 863-0863.

Art history lecture

Allan Braham from the National Gallery in London will present the lecture "Bernini's Architectural Legacy in Rome" at 8 p.m. Tuesday, April 24, in 112 Walker Building at University Park.

The lecture will be the final presentation in the series "The World and the Italian Architect: Native Images and Reflections Abroad," sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies. The series honors Helmut Hager, head of the Department of Art, and the lectures will be published next year as Volume VII of the Papers in Art History from The Pennsylvania State University.

Mr. Braham will discuss the influence the Italian Baroque architect and sculptor Gian Lorenzo Bernini had on future generations in the century following his death in 1680. Keeper at the National Gallery in London since 1978, Mr. Braham has organized and directed exhibitions on the Working of the National Gallery, Velasquez, Giovanni Battista Moroni, Italian Renaissance Portraits and El Greco to Goya.

Odyssey on WPSU

The science fiction novel *The Calcuthyn* is "an amazing collation of information and imagination," says Leonard Rubinstein on the next edition of "Odyssey Through Literature."

The novel, written by Ernest Pollard, Evan Pugh professor emeritus of biophysics, takes as its premise that a group

of average, ordinary Americans, unusual only in the depth of their fanaticism, is capable of assembling, delivering, and exploding a nuclear bomb over the Tri-Borough Bridge in New York City.

The Calcuthyn then works out, in precise and horrifying detail, the consequences of that action. "I have described what would happen," says Dr. Pollard, whose scientific research centered on the effects of radiation on a cell, "and I haven't pulled back."

"Odyssey Through Literature" is produced by the Comparative Literature Department and airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Concert White Band

The Penn State Concert White Band will present its 14th annual spring concert at 6:30 p.m. Wednesday, April 25, in the Ballroom of the Hertz Union Building at University Park.

The band is conducted by O. Richard Bundy, assistant professor of music education in the School of Music and academic director of the Penn State Blue Band. He will be assisted by Arthur Belfiore, a graduate assistant in the School of Music.

New Music

Penn State composers will present a program of New Music at 8 p.m. Wednesday, April 25, in the Recital Hall of the Music Building at University Park.

The concert will feature world premieres of pieces by Andrew Carroll, Linda Lowe, Philip Silvey and William Tilghman, graduate students in the School of Music, and Kenneth Yarmey, a music undergraduate in the school.

The compositions are scored for a variety of instrumental groups, including two flutes

and two marimbas, and four French horns. Two composers have written settings for voice and piano and voice, violin and piano. The second half of the concert will consist of a cantata for chorus, soloists and orchestra.

Organ performance

Organist Susan Scott will perform in concert at 12:10 p.m. Thursday, April 26, in Eisenhower Chapel at University Park.

The 20-minute performance will be the final concert of the spring Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include works by Buxtehude, J.S. Bach and Alain.

New York play

"My Name is Pablo Picasso," by Australian playwright Moby Gage, who holds a joint appointment in the Department of Theatre Arts and the School of Communications, will preview at the South Street Theatre on 42nd Street West in New York City from April 27 to its opening on May 5. It will run through May 20.

The play encompasses Picasso's life from youth through each of his periods to death. Tickets are \$15 and can be purchased by calling (212) 279-4200, now through May 20.

Two buses will go from New York from State College for the May 6 performance, to return that evening or on May 7. The cost is \$35 to go up and back on May 6; \$40 to return on May 7. The price includes one ticket. Individuals should make their own hotel reservations.

For more information on the bus trip, call Gillian Bibicos-Albinski at (814) 466-2093.

Shakespeare Festival

The Department of English is now accepting reservations for a weekend of plays at the Stratford Shakespeare Festival in Stratford, Canada, July 20-23.

Students, faculty, staff and area residents are welcome to join the excursion.

Theatergoers may purchase Plan A, \$190 for tickets to three plays, or Plan B, \$220 for tickets to four plays. The price of the tickets includes lodging in Stratford and round-trip transportation in University vans.

Vans will leave the Fleet Services Building on the University Park Campus at 7:30 a.m. Friday, July 20, and return to campus at 7 p.m. Monday, July 23.

A down payment of \$25 is required with each reservation, and full payment is required by June 8.

Audio-Visual Services

Two videotapes concerning the history of English script are now available for classroom use from Audio-Visual Services.

English Handwriting in the Dark Ages (24402.VH) is an introduction to English paleography illustrated with manuscript samples from the 7th through 12th centuries. *The Making of a Manuscript* (35919.VH) presents an overview of the materials and processes that were involved in the production of medieval manuscript books.

These programs are available at no charge to University faculty and staff members. At University Park, call 865-0913 to make arrangements for a preview showing. At a Commonwealth Campus, contact the campus instructional services specialist for more information.

New facility is dedicated at Penn State Wilkes-Barre

Northeastern Pennsylvania's economic development progress received a boost April 5 with the formal dedication of the region's newest, state-of-the-art engineering technology education facility - the new Center for Technology at the Penn State Wilkes-Barre Campus.

Understanding and managing technology are among the most important challenges we will face in the next century," President Jordan told the ceremony of more than 300 Penn State supporters at the ribbon cutting. "This new facility, which houses state-of-the-art engineering and engineering technology laboratories, will enhance technology education opportunities for the people of Northeastern Pennsylvania and help them prepare for the future."

Dr. Jordan was joined in the ceremonies by campus executive officer James H. Ryan, William Harral, vice president of external affairs and chief financial officer of Bell of PA; Plymouth attorney Michael Hudacek; and John N. Conyngham III, chairman of the campus Advisory Board.

A community campaign, headed by Mr. Hudacek, raised \$2.8 million toward the \$3.8 million cost of construction. The building is named in honor of Bell Atlantic Bell of PA, which made the lead gift to the

campaign of more than \$600,000.

"The Center is important to all of us in the Wilkes-Barre area and around the state, because it represents an attempt to address problems of vital importance - the challenge of educating today's young people to meet the needs of the future," Mr. Harral said.

Dr. Ryan said the Center for Technology will enable us to improve our delivery of technology courses and also meet the technological needs of the business and industry of Northeastern Pennsylvania.

"I was pleased to learn that this facility and its educational programs were identified as priorities in a study conducted by a committee addressing economic growth in this region," Dr. Jordan added. "We appreciate this recognition that Penn State is an important resource for business and industry and an important partner in the continuing economic development of the state."

The Center for Technology houses laboratories in biomedical equipment technology, telecommunications technology, electrical and mechanical engineering technology and surveying technology. It includes a teleconference auditorium for satellite conferences and an astronomy dome.

Members of the Penn State Wilkes-Barre Advisory Board look on as President Jordan and Penn State Wilkes-Barre Campus Executive Officer James H. Ryan cut the ceremonial ribbon in front of the new Penn State Wilkes-Barre Center for Technology. From left are Mark Sobczek; Thomas Robinson, director of development; Pauly Friedman; John N. Conyngham III, chairman of the campus Advisory Board; Dr. Jordan; William Harral, vice president of external affairs and chief financial officer, Bell of PA; Michael Hudacek, campaign chairman; Dr. Ryan; G. David Gearhart, senior vice president for development and university relations; E. J. Shaffer, Student Government president; Abram Nesbitt III, and Walter Wood.

Obituaries

William E. Kistler, bookstore manager, Penn State Harrisburg, from July 1, 1968, until his retirement June 29, 1985, died

Dec. 28, 1989. He was 66.

Lisa K. Allen, secretary C in the College of Science, since Nov. 19, 1985, died March 20 at the age of 24.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in promotion MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until April 26. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

• **Applications Programmer/Analyst, Computer and Information Systems, Management Services, University Park Campus** - Responsible to the designated project leader for conducting analyses of data processing and customer concerns, determining detailed systems problems, and preparing computer programs to satisfy desired end results. Assist in providing direction and control within specifications of project schedules. Requires bachelor's degree, or equivalent, in basic computer systems plus one to two years of effective experience in computer programming and analysis. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1990, WITH PROBABILITY OF RE-FUNDING. STAFF GRADE 6.

• **Programmer, Computer and Information Systems, Management Services, University Park**

Campus - Principal duties include design, code, test, debug and document new and existing applications programs; provide estimates of time and resources needed to perform programming tasks; prepare program and system test data to validate programs; assist in system implementation. Requires bachelor's degree, or equivalent, in computer science or related field, plus six to nine months of effective experience in computer programming. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1990, WITH PROBABILITY OF RE-FUNDING. STAFF GRADE 5.

• **Assistant Financial Aid Coordinator, Academic Services, Office of Student Aid, University Park Campus** - Responsible to the director, Client and Campus Services, for assisting in designing, creating, and maintaining Client Service procedures, working with students, parents and other offices and agencies with financial aid matters and assuming responsibility for other related aid administration functions. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in area applicable to aid administration. Excellent interpersonal skills are required. STAFF GRADE 5.

• **Admissions Counselor II, Division of Undergraduate Programs, Admissions Office, University Park Campus** - Responsible to the director, Admissions Services and Management, for general assistance in handling of the more complex Admissions matters in an assigned functional area. Participate in and administer admissions activities as assigned. Requires bachelor's degree or equivalent, plus one to two years of effective experience in educational administration or related field. Excellent Spanish and English oral and written communication skills required. STAFF GRADE 6.

• **Producer/Director, Program Production, CE5, University Division of Media and Learning Resources, University Park Campus** - Responsible to the executive producer for public affairs in the production of observational documentaries in WFSX-TV's Rural America Documentary Production unit. Requires bachelor's degree, or equivalent, in television/film production, broadcasting, journalism, or a related area plus one to two years of effective experience in television and film production. Knowledge of location EFP production techniques, one-inch and BET A editing (with time code) is necessary. Knowledge of observational documentary methods is desired. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1990, WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 6.

• **Assistant Director, Religious Affairs, Student Services, Division of Student Programs, University Park Campus** - Responsible to the director, Religious Affairs, for the development and implementation of educational programs that take a non-parochial approach to issues of religion and society; and for the cultivation and coordination of programs and activities which focus on the needs of minority populations at Penn State. Requires master's degree, or equivalent, in divinity, religious studies, or related field with an emphasis in theology or ethics and African American religion plus up to 12 months of effective experience. Seminary background preferred. THIS IS A RE-ANNOUNCEMENT. PREVIOUS BIDDERS NEED NOT RE-APPLY. STAFF GRADE 6.

• **Biostatistician, The College of Medicine, The Center for Biostatistics and Epidemiology, The Milton S. Ewenby Medical Center** - Responsible to the director, Center for Biostatistics and

Epidemiology, for computerized data management and statistical analysis programming in support of the biomedical and biostatistical research activities of the Center. Requires bachelor's degree, or equivalent, in mathematics or statistics plus one to two years of effective experience. STAFF GRADE 5.

• **Director of Student Programs and Services, Shenango Campus** - Responsible to the campus executive officer for the overall organization and administration of the student programs and services at the campus including student activities, student health, placement, career development, recreation/athletics, financial aid, cultural programming, minority programs, retention programs, and others where appropriate. Requires master's degree, or equivalent, in an appropriate discipline, plus three to four years of effective experience with student affairs administration. An earned doctorate preferred. THIS IS A RE-ANNOUNCEMENT. PREVIOUS BIDDERS NEED NOT RE-APPLY. STAFF GRADE 8.

• **Customer Service Representative, Office of Physical Plant, University Park Campus** - Responsible to the senior customer service representative for physical plant/customer liaison. Obtains project details following project requests from customers. Prepares estimates identifying necessary manpower and materials. Coordinate and schedule facilities, designs, materials and trades with both customer and Office of Physical Plant personnel. Requires associate degree or equivalent technical training such as an apprenticeship in a building trade, plus two to three years effective experience in estimating construction and maintenance work for the building trades. Public relations skills essential. STAFF GRADE 6.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

President Jordan's statement on problem of sexual assault

Following is a statement from President Jordan, in conjunction with National Victim's Rights Week being celebrated this week.

The problem of sexual assault is a concern here and on campuses nationwide. Documentation suggests that one woman in eight is sexually assaulted while attending one of our nation's colleges or universities. Most of these assaults are committed by acquaintances of the victim. These behaviors reflect abhorrent attitudes toward women and are especially disturbing and unacceptable in a university environment dedicated to the ideals of collegiality and mutual respect.

The results of such acts are highly disruptive to the academic careers of most victims. However, no member of our University community, regardless of gender, remains unaffected by this problem. As educated individuals, we must share, in common, a concern for

the well-being of other persons, which includes respect for their individual rights and personal dignity.

Penn State's policy on sexual assault and abuse provides that the University will pursue the strongest disciplinary action in any and all instances where it is confirmed that the policy has been violated. We do not tolerate sexual assault or abuse of any kind, including acquaintance rape. Such acts degrade the victims, our campus community, and society in general. While the University cannot control all the factors in society that lead to sexual assault and abuse, the University strives to create an environment that is free of such violence.

Violations of University policy on sexual assault and abuse will result in disciplinary action, which may include suspension, dismissal, or expulsion.

The University response to the sexual assault and abuse problem also has included educational programs for students and support services for victims of sexual

assault. Programs and services provided include fully subsidized medical examinations for assault victims, advocacy services through the Victim/Witness Advocate in the Office of University Safety, counseling services available through Counseling and Psychological Services staff, and counseling services and educational programming through the Center for Women Students.

The University's policy and all related efforts are designed to reduce substantially and — ultimately — eliminate the incidence of sexual assault on campus and ensure a climate of personal safety. The task is a large one and the accomplishment of these aims requires the cooperation of all members of the University community. Please make a personal commitment now to work to create a violence-free environment at Penn State.

— Bryce Jordan

PENN STATE

INTERCOM

April 26, 1990

Volume 19, Number 31

Information submitted for publication in *Intercom* is due by noon on the Thursday before publication.

Dr. Jordan outlines challenges facing next president

President Jordan outlined the challenges facing the University's next president during his last address to the University Faculty Senate on April 17.

Those challenges include continuing the study of the liberal arts and fine and performing arts, carrying on the nurturing of town/gown relations, increasing the level of state funding and continuing to encourage diversity at the University, Dr. Jordan said.

He also pointed to the need for a strategic facilities plan for the state government, which has approved nearly \$300 million in capital projects for the University. However, the state has yet to release the funds. Another \$177 million in requests will be made for 1990-91, Dr. Jordan added.

Another area of concern to the next University president will be striking a balance between teaching and research, both of which are vital components to a great university, Dr. Jordan said.

He noted that a forthcoming Carnegie report will extend the definition of scholarship beyond original research to include organizing, applying and disseminating knowledge.

At the same time, the concept of college teaching is changing as more and more nontraditional students swell the ranks of institutions. By the end of the decade, he said, at least 60 percent of students will be "older."

These nontraditional students often are location-bound, but still require the opportunities for lifelong learning. The University is in an ideal position to respond to these changes through its statewide system of campuses.

Dr. Jordan also talked about the predicted shortages facing facilities and the market pressures that could affect the University's commitment to faculty quality.

He thanked the Senators for their commitment and caring and said Penn State's Senate is "the best I have ever encountered."

Dr. Jordan will retire Aug. 31. The Board of Trustees' Presidential Selection Committee currently is interviewing candidates. Thomas L. Merritt reported.

Dr. Merritt, who chaired the 15-member Presidential Search and Screen Committee, is participating in the selection process, at the invitation of the Board of Trustees.

He said the search and screen committee secured 162 nominations/applications from 42 states, the District of Columbia and Canada. The group included 22 women and seven minority candidates. The committee forwarded five to 10 names to the Board of Trustees March 1, he said.

In other action, the Senate — approved a recommendation to have spring break occur between the eighth and ninth weeks of the semester, rather than between the seventh and eighth weeks as currently scheduled. The Committee on Admissions,

Digital Corp. provides \$2.5 million grant for libraries

Digital Equipment Corp. has made a \$2.5 million grant to the University Libraries for computer equipment that promises to

revolutionize information sharing. The new VAX 9000 mainframe and other equipment will enable the Libraries to

implement a significant upgrade of the Library Information and Access System (LIAS) electronic catalog. With the new computing power, for instance, 800 users will be able to access LIAS simultaneously, compared to the current 320-user capacity.

"We are delighted by this recognition of the strengths and computing potential of our Libraries," President Jordan said. "Digital's valuable contributions are helping to develop the library of the future at Penn State. Massachusetts-based Digital is the leading supplier of networked computer systems and services. Founded in 1957, the company has offices worldwide, including one in State College, and more than 125,000 employees.

"Linking information resources, regardless of their physical location, is critical to the success of all large research universities," William R. Johnson Jr., Digital's vice president of telecommunications and networks, said. "With this grant, Penn State becomes the first educational institution in the world to implement a major administrative application using a Digital VAX 9000 mainframe computer," noted Mr. Johnson, who received a bachelor's degree in electrical engineering from Penn State in 1963.

The company's VAX line is well known to scientific researchers, and Digital computers are used in communications, education, data analysis, commercial data

processing, graphic arts, word processing, personal computing, health care, engineering and simulation.

Penn State's LIAS, made available to the public in 1983, was designed to be used even by people who had minimal computer knowledge. In 1984, "dial-up access" by telephone modem was provided, making LIAS one of the first library systems in the nation to offer online catalog services to users not physically present in the library. "LIAS has become a major information tool for the entire University at all its locations," Nancy Cline, dean of the University Libraries, said. "It is a critical asset to every academic program, every campus and college. As a result of this grant, we envision LIAS expanding to provide greater support for the Libraries' operations and improve user services."

In a related effort, last November, Digital

(Continued on page 3)

Discussing Digital Equipment Corporation's grant to the University Libraries are, from left, Eric Ferrin, director of Libraries Computing Service; William R. Johnson, Digital's vice president of telecommunications and networks; and Nancy Cline, dean of the University Libraries.

Included in this edition of *Intercom* is a special insert devoted to The Campaign for Penn State.

Focus on Diversity

Educational Partnership Program students visit

Twelve-year-old Victor Martinez of Reading, proclaimed last week that he will study hard and never forget his visit to Penn State as Head Football Coach Joe Paterno autographed the sleeve of his baseball jacket.

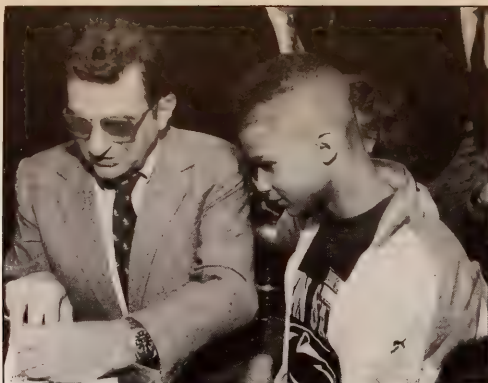

"I'm not wearing this jacket anymore except to show my family, friends and neighbors. I'm going to keep it forever and show my grandchildren," said an inspired Martinez, who was celebrating his 12th birthday.

He was one of 40 Reading and Pittsburgh area students visiting University Park as participants in the University's Educational Partnership Program (PEPP) in Reading and McKeesport. The program is designed to encourage at-risk minority middle-school students to complete high school and set further educational goals.

"This was so interesting and exciting I want to come back to Penn State and study chemistry and science," said Martinez after a brief speech by Coach Paterno.

Coach Paterno took time out from his Blue-White intersquad football game preparations to meet the youths at Penn State's Football Hall of Fame, because encouraging education is a priority, he said.

"I have been fortunate in my life. When I was young, I wasn't interested in an education and going to college. But people told me about the value of an education. I listened and believed them. I think you should believe in what these people are telling you too," he told the youth while

Coach Joe Paterno signs an autograph during a visit by 40 Reading and Pittsburgh area students. Photo: Dave Mengle.

motioning to PEPP counselors.

The students visited campus for three days in an effort to learn about college life. They stayed in residence halls, toured academic facilities, attended a computer workshop and met with several members of the Student Minority Advisory and

Recruitment Team. They also participated in a tailgate and attended the annual Blue-White football game.

"For many of them, this is their first time away from home. And they seem to really enjoy it. They especially like going for seconds in the dining halls," Aida

Rodriguez, Reading PEPP director, said.

"I know I will someday come back and play football," Justin Short, 14, of McKeesport, said. Aspiring to be a poet, Short visited with two of his Cornell Middle School football teammates, Antonio Nesbeth and William Gallagher. They also plan to attend college.

"This trip is a tremendous experience for these kids," Darrell G. Thomas, McKeesport PEPP director, said. "It's going to encourage them to go back to their schools, talk about the visit, set goals and become the envy of their friends."

The PEPP program in McKeesport, near Pittsburgh, was established last July. The University is collaborating with McKeesport Area School District and the Mon Valley Education Consortium to work with students beginning in fifth grade.

The PEPP program in Reading, was established in 1988. The University is collaborating with the Reading School District and Reading New Futures Project Inc. The Reading School District has nearly 12,000 students, 18 percent of whom are black and 33 percent of whom are Hispanic.

The Reading New Futures Project Inc. is comprised of educators and community and business leaders who are working to solve problems of young people at risk of not completing their high school education.

The visit to University Park is one of the many programs offered by the PEPP program.

The Campaign for Penn State

Raymond Shibley provides gift for professorship

University alumnus Raymond N. Shibley has established a \$250,000 professorship in the College of Health and Human Development for unique studies of how biological and behavioral processes together affect health.

The Jean Phillips Shibley Professorship in Behavioral Health is a major opportunity for a new program that will integrate scientific findings from many disciplines. The name honors Mr. Shibley's wife, who died in 1979. Mrs. Shibley graduated from Penn State in 1947 with a degree in health education.

"Ray Shibley has laid the keystone for exciting opportunities at Penn State," Dean Anne C. Petersen said.

"The major causes of death in the United States are no longer infectious diseases, but illnesses influenced by lifestyle and behavior—heart disease, cancer, stroke. The Shibley professor will guide the application of knowledge from the behavioral and biological sciences and help to develop innovative methods to maintain health and prevent illness."

The college, which will be three years old in July, is already a national leader in

Raymond N. Shibley

studies in behavioral health, according to Dean Petersen. Five faculty have been elected to the prestigious Academy of Behavioral Medicine Research. College researchers are mapping the influence of

stress on the body's endocrine system.

Other investigators are probing extraordinarily complex genetic relationships between genetics and behavioral factors in producing health or illness.

"I wanted to be a part of a program that promises to add quality to life. I am hopeful that this professorship will have a significant, long-term impact," said Mr. Shibley, who is a partner in the Washington, D.C., law firm of LeBoeuf, Lamb, Leiby and MacRae.

"I'm confident that the work at Penn State, now and in the future, will result in new discoveries and will enhance health and productivity for people everywhere. I also feel that those who benefited from an education here have an obligation to do what they can to expand the University's opportunities."

Mr. Shibley grew up in State College, where his father was a member of the Mathematics Department and his mother was a librarian at the University Libraries. He graduated from Penn State in 1947 with a bachelor's degree in commercial chemistry. His law degree is from Yale

University.

In 1986, Mr. Shibley gave \$250,000 to endow a professorship in mathematics in honor of his father, and he had previously endowed the Shibley Memorial fund in honor of his parents, wife and sister. This fund supports 12 scholarships in biology, health education, philosophy, theater, Blue Band, choir, psychology, mathematics, Middle East studies, library science, speech communication and preparation for the ministry.

Mr. Shibley received the Alumni Fellow Award in 1987 and the Distinguished Alumni Award in 1989. He serves on the executive committee of The Campaign for Penn State and as chairman of the regional major gifts effort for Washington, Virginia and Maryland.

Funding from such a professorship typically supports the research activities of the faculty member and may be used for such things as graduate assistant salaries, education and travel expenses and a salary supplement. Named faculty positions facilitate the recruitment or retention of eminent scholars who might otherwise accept appointments at another university.

Keck Foundation makes fluid mechanics grant

The W.M. Keck Foundation has granted \$165,000 to support the fluid mechanics laboratory, the only mathematics department-based facility of its type in the United States.

Space for the laboratory will double and new equipment will be installed, enabling it to accommodate a growing research program that includes studies of ocean waves, reservoir dynamics and sediment transport.

The Los Angeles-based W.M. Keck Foundation, one of the nation's largest foundations in terms of annual grants, was established in 1954 by the late William M.

Keck, founder of the Superior Oil Co. Its primary focus is on grants to universities and colleges throughout the United States, with particular emphasis in science, engineering and medical research.

With the foundation's help, the fluid mechanics lab will acquire a high-pressure wave channel to allow researchers to generate water waves. A stratified flow tank that can simulate wave motions beneath the surface in reservoirs and lakes also will be installed.

The laboratory is under the direction of Jerry L. Bona and William G. Pritchard, professors of mathematics, and T. Brooke

Benjamin, adjunct professor of mathematics.

Dr. Pritchard said the wave channel will be about 45 feet long and constructed to millimeter accuracies. It can be equipped with a glass beach and will be used for several studies, including one on how waves lose energy when they run up on beaches.

"Ocean waves lose their energy through the combination of the frictional effects of the sea bottom and breaking before they hit the beach," he said. "But it appears that most of the energy in waves is absorbed through friction on the bottom, which is quite surprising. People hadn't realized this

until a few years ago. Results of the studies could be valuable to engineers trying to find ways to protect harbors and beaches.

The stratified flow tank will enable Dr. Pritchard to expand his studies of internal waves—movements beneath the surface that arise in the presence of different temperatures or densities in lakes or reservoirs. These studies, he said, might be useful in dealing with a reservoir that had been contaminated.

The expanded facility will enable more students to participate in the research program.

Distinguished coal scientist to deliver Given lectures

Anna Marzec, a distinguished coal scientist from the Polish Academy of Sciences, will deliver the inaugural series of Given Memorial Lectures in the College of Earth and Mineral Sciences and meet with faculty and students in fuel science from April 30 to May 4.

Dr. Marzec will speak on "Field Ionization Mass Spectrometry of Complex Biogenic Materials: Inferences for Coal Studies" at 3:30 p.m., April 30, in Room 301 Steidle Building, University Park. She also will lecture on "Mobile Phase: Its Origin, Nature and Role in

Thermoplastic Behavior and Reactivity of Coals" at 9 a.m., Wednesday, May 2, in Room 115 Academic Projects Building, and on "Coal Reactive Sites Involved in Pyrolysis and Liquefaction: A Study of Field Ionization Mass Spectrometry and Statistical Evaluation of Coal Data" at 9 a.m., Friday, May 4, in Room 115 Academic Projects.

Dr. Marzec, professor of fuel science in the Polish Academy's Institute of Petroleum and Coal Chemistry, is internationally noted for her research into the molecular structure of coal. She holds two awards

from the Polish Academy of Sciences for her scientific contributions to coal research and an award from the Polish Ministry of Education for her earlier work in the area of petroleum geochemistry. She holds her graduate degrees from the Silesian Technical University, where she was a member of the faculty from 1954-69. She previously visited Penn State and worked with Peter H. Given in 1975.

The Given Memorial Lectures have been established to honor the memory of Dr. Given, a member of the University faculty from 1961-85 whose research into the

geochemistry, molecular structure and organic reactions of coal gained international recognition. Dr. Given died in England in 1988.

The lecture series, endowed by friends, colleagues and industry, will be administered by the Fuel Science Program in the Department of Materials Science and Engineering. Each year a leader of the coal science community will present open lectures on current research topics and participate in informal discussions of coal science with faculty and students.

Communications Ph.D. program is ranked

The School of Communications offers one of the nation's top 20 Ph.D. programs in communications, according to a newly published survey of Broadcast Education Association members.

Penn State's program rated 19th overall in the survey of communications faculties nationwide, sponsored by the Association for Communication Administration.

The top-rated program was the University of Pennsylvania's Annenberg East School of Communications. Also representing Pennsylvania was Temple

University, which rated 18th overall.

"Given that we have few students in our interdisciplinary Ph.D. program, I view this report as a massive vote of confidence from our colleagues," says Brian N. Winston, dean of the School of Communications. "Our ranking constitutes a welcome reflection of the scholarly reputation of our faculty."

The school ranked seventh in broadcasting and film criticism, 13th in communication research on theory and methodology, and 14th in international communication.

Census director will speak at conference

Barbara E. Bryant, director of the U.S. Bureau of the Census, will be the keynote speaker for the first Pennsylvania State Data Center User Conference and Expo to be held Tuesday, May 22, at the Hershey Lodge and Convention Center.

Dr. Bryant, the first woman to head the Census Bureau, will speak at 12:45 p.m. She was appointed to the post earlier this year, and her first duty was to oversee the operation of the 1990 census.

The Pennsylvania State Data Center, located at Penn State Harrisburg, was

established to improve access to and use of statistical resources available from the Census Bureau and other sources.

Its first user conference will cover such topics as the 1990 census, 1987 economic censuses, foreign trade data, local population estimates and demographics, economic and labor force trends.

University guest speakers include Robert Surridge, Gordon De Jong, William D. Anderson, Berwood Yost and Ron Uroda.

For registration information, call Joan Campbell at (717) 948-0330.

Digital Corp.

(Continued from page 1)

gave Penn State and the University of California a grant to create a link between LIAS and UC's online catalog. The goal of this link is "seamless computing," whereby users can search the records of either system by using the familiar commands of their "home" system.

"In essence, LIAS users will have the resources of two major library systems at their fingertips," Dean Cline said.

While the full use of the VAX 9000's

considerable abilities to store and handle documents that contain text, graphics, images, voice and video is still in the future, the Libraries' computing staff predicts major benefits for academic programs.

On the horizon is a virtual global library that will let any authorized user with a personal computer, a modem, and a telephone "browse" through increasingly versatile and sophisticated university databases. One day soon, a scholar investigating Mozart's music will not only be able to obtain facsimile copies of the original music scores, but also will do so

while listening to computer-generated, CD-quality stereo renditions of the work and viewing life-size holographic images of the composer.

"The technological revolution in computing power, still in its infancy in many ways, doesn't mean books will disappear," Dean Cline said. "But we now know that we will have to balance traditional printed materials with an increasing number of electronic resources."

There are nearly 30 library facilities in the Penn State system. At University Park alone, more than 530,000 library holdings were circulated in 1988-89, a 23 percent

increase over the previous year. LIAS contains records for nearly 1.5 million titles from the Penn State collections, and records are continuously added for books, journals, manuscripts, archives, government publications, microforms, music recordings, audiovisual materials and computer files. On an annual basis, LIAS currently handles more than 10 million searches.

The Digital grant is part of The Campaign for Penn State, a six-year drive to raise \$300 million in private support. The Campaign, which ends June 30, had raised \$338 million as of March 31.

Senate

(Continued from page 1)

Records, Scheduling and Student Aid proposed that the change be made by spring 1992.

-- approved guidelines for consultation for football bowl invitations. The proposal recommends that the chair and vice chair of the Committee on Academic and Athletic Standards be consulted during University deliberation on bowl bids to ensure that conflicts do not arise over exams.

-- heard a report on parking from David E. Stormer, assistant vice president for safety and environmental health, who discussed the transportation and parking master plan prepared by Warren Travers.

Among the planned changes is a rate increase for some parking lots at University Park Campus beginning Sept. 1.

A \$12 fee will be instituted for lots located between Atherton Street and Shortlidge Road, including all Brown, Yellow, Green and Red lots (except for Red A and C lots), as well as for lots Blue C and K and Orange D, E, J, M and K (at Physical Plant Building). The fee increase will affect 44 percent of faculty and staff who park at University Park.

All other lots designated open and/or part-time will remain \$8 per month. Faculty and staff members who park in the areas covered by the fee increase will have the option of moving to an open lot.

In addition, an \$8 fee will be implemented at Penn State Erie, The Behrend College and the Hershey Medical Center in fiscal 1990-91, with other campuses implementing an \$8 fee in January or July 1991, Mr. Stormer said.

The parking registration fee increase at University Park, the first since fees were introduced Sept. 1, 1987, will help the Parking Office to keep pace with parking needs by providing a steady base of financial support for facilities and resources, he added.

The proposed zone parking system, which was criticized by the Committee on Academic and Physical Planning, will not be implemented without further study and consultation, Mr. Stormer said.

-- In response to the proposed zone system for parking, Senators approved a Senate Council resolution condemning the system "as detrimental to academic life at the University, and therefore, unacceptable." The resolution also asks that the Senate be involved in formulating transportation and parking plans.

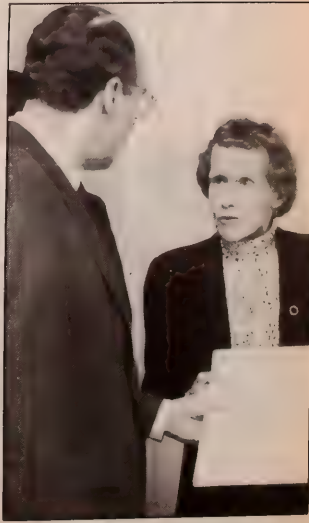

-- announced the results of recent elections for Senate offices and committees. Robert A. Secor, liberal arts Senator, was elected chair-elect, and James F. Smith, Ogontz Senator, was elected secretary.

-- heard a report on a study of promotion and tenure decisions made between 1983-84 and 1988-89 by William C. Richardson, executive vice president and provost.

-- heard a report on changes in the Code of Conduct

Standards by Patricia Peterson, assistant vice president for campus life.

-- approved by acclaim resolutions honoring President Jordan and Provost Richardson for their service to the University and contributions to the Senate during their tenures.

President Jordan (left) and William C. Richardson received gifts of resolutions from the University Faculty Senate at a reception following the April 17 Senate meeting. Making the presentation to Dr. Richardson is Janet Atwood, Senate chair.

University alumni, faculty and staff receive awards

Arts alumni honored

Four University alumni have been selected for the 1990 Alumni Achievement Award given by the Arts and Architecture Performing Arts Alumni Society.

The award honors alumni who have distinguished themselves in their profession. Alumni selected are: **Dianne Houseman Pilgrim**, art history; **Steven Moorehead**, landscape architecture; **Robert Fought**, music; and **Robert W. Wolff**, theater. They were honored April 20 at the college's spring awards ceremony.

Ms. Pilgrim is director of the Cooper-Hewitt National Museum of Design of the Smithsonian Institution in New York. She won the Charles F. Montgomery Prize for the most distinguished contribution to the study of American Decorative Arts published in the English language by a North American scholar for the Machine Age publication. She received her bachelor's in art history from Penn State, a master's degree from New York University, and has worked toward her doctorate at City University of New York.

Mr. Moorehead, principal of the firm Moorehead Fleming Corbin McCarthy in Toronto, Canada, has been involved in major design projects as diverse as Canada's first large-scale theme park, a mining community within the Arctic Circle and university housing in Saudi Arabia. He received his degree in 1962.

Dr. Fought, director of bands and professor of saxophone at the University of Nebraska at Lincoln since 1974, received his bachelor's in 1964 and his doctorate in 1971. He has transcribed works for concert band and appeared as guest conductor, clinician, adjudicator and soloist in the central United States and Canada.

Mr. Wolff is president of Artec Consultants Inc., an international acoustic engineering and consulting firm specializing in theater acoustics. His acoustics theater planning and project manager duties have included the Philadelphia Orchestra Hall, Cornell University Performing Arts Center, Alabama Shakespeare Festival Theatre, Royal Opera House Phase I and II Restoration in Covent Garden, London, and many others. He received his master's in theater in 1963.

Engineers honored

Entrepreneurs, corporate leaders, research engineers, professors and a three-star general are among the 12 engineering graduates who will receive the 1990 Outstanding Engineering Alumni Awards. The 1990 Outstanding Engineering Alumni are:

Eugene M. Bard, president and chief mechanical engineer of Bard, Rao + Athanas Consulting Engineers Inc., Boston,

Mass. Mr. Bard, a 1968 architectural engineering graduate, founded BR+A in 1975. The company designs medical, laboratory and scientific research facilities worldwide.

Michael A. Brunner, executive vice president of AT&T and chief executive officer of the AT&T Federal Systems Division, is a 1955 industrial engineering graduate. The Federal Systems Division, located in Washington, D.C., employs more than 5,000 individuals and generated 7% of the total AT&T revenues in 1988.

Edward B. Bryant is vice president and general manager of the Libbey-Owens Ford Co. Automotive Products Group and chairman of the board and chief executive officer of United L/N Glass Inc., Toledo, Ohio. A 1963 industrial engineering graduate, he oversees an annual budget of \$500 million.

William J. Douglas, vice president of Weston Information Management Practice, Weston Way, West Chester, Pa., received his master's degree in 1962 and his Ph.D. in 1966, both in engineering mechanics. Dr. Douglas develops and applies information management systems and technology to environmental problems.

Benson L. Dutton, a 1933 civil engineering graduate, retired from the U.S. Department of Health, Education and Welfare as director of federally assisted construction in 1970. Mr. Dutton also was a chief design engineer in Philadelphia and the first dean of the Tennessee State University School of Engineering.

Gerard M. Faeth is the Arthur B. Modine professor of aerospace engineering and head of the Gas Dynamics Laboratories at the University of Michigan. Dr. Faeth received his master's degree in 1961 and his Ph.D. in 1964, both in mechanical engineering. An internationally recognized leader in combustion research, he served on the Penn State faculty from 1964-85.

Arthur L. Glenn, a 1956 mechanical engineering graduate, is vice president and general manager of the GE Communications and Strategic Systems Division, King of Prussia, Pa. Mr. Glenn manages six AT&T systems, subsystems and component businesses representing more than 12,300 employees and annual sales of \$1.5 million.

Lee Strohl Gaumer Jr., technical director of Air Products Chemicals Inc., Allentown, Pa., is a 1948 chemical engineering graduate. Mr. Gaumer, a pioneer in cryogenics and provider of technical assistance to approximately 600 individuals, is the recipient of the 1990 Adolph Coors American Ingenuity Award.

Donald W. Hamer is the founder and president of State of the Art Inc., a microelectronics consulting firm in State College, Pa. A 1968 electrical engineering graduate, Mr. Hamer employs 90 people

who produce \$6,500,000 in passive components annually.

Harry C. Schell is president and chief executive officer of CableCor, and chairman of BRIntec Corp., both of New York, N.Y. The 1956 civil engineering graduate led the management buy-out of the Phelps Dodge Cable and Wire Co.'s power cable business to create CableCor, in 1984.

John Walker, associate dean for research in the University of Kentucky's College of Engineering, received his bachelor's and master's degrees in agricultural engineering in 1951 and 1958. Dr. Walker is an expert in environmental control in plant and animal structures.

Li Gen, John Yeosock is commanding general of the U.S. Third Army and deputy commanding general of FORCES Command, Ft. McPherson, Ga. The 1959 industrial engineering graduate is directly responsible to the chairman of the Joint Chiefs of Staff and oversees an annual budget of approximately \$5 billion.

Johnson fellowship

J. Marvin Bentley, associate professor of health economics at Penn State Harrisburg, has received a one-year fellowship from the Robert Wood Johnson Foundation for the program "Faculty Fellowships in Health Care Finance." He will be working at Johns Hopkins University.

"The fellowship is giving me the opportunity to meet people in government and research who are on the cutting edge of health care financing," Dr. Bentley said. "There is a shortage of people who understand how health care is paid for and how it is delivered. This fellowship is enabling me to develop a better understanding of health care financing and to obtain ideas for further research projects."

Dr. Bentley will be funded for research purposes for an additional 18 months upon his return to Penn State Harrisburg. He is among six fellowship recipients.

Dow Chemical award

Lance Collins, assistant professor of chemical engineering, is the first recipient of the Dow Chemical Company's Dow Young Minority Investigator Award.

Dr. Collins, who joined the Penn State faculty in April, will receive \$50,000 a year for three years to support his research in combustion. Prior to joining the faculty, Dr. Collins was a scientist at Los Alamos National Laboratory. He is a graduate of the University of Pennsylvania.

Steven Gordon, assistant professor of

education, has received the 1989 Outstanding Dissertation Award in the Supervision category from the Association for Supervision and Curriculum Development. The award is given each year to the dissertation that significantly advances the knowledge and understanding of educational theories, concepts, and practices.

McFarland Award

The 1990 McFarland Award of the American Society for Metals International has been awarded to **Norris B. McFarlane**, owner and president of the MacAlloy Corp., Charleston, N.C.

The award is presented annually by the Penn State Chapter of ASM to an outstanding alumnus of the Penn State Metals Science and Engineering Program. It was established in 1948 to honor the memory of David Ford McFarlane, head of the Department of Metallurgy from 1920 to 1945.

Dr. McFarlane, a 1934 graduate of metallurgical engineering, has had a long and successful career as innovator and corporate leader in the metal alloys industry. Since 1979, he has been president of MacAlloy, the leading U.S. producer of ferrochromium for the steel and alloys industries. He has been responsible for a number of technological innovations in ferroalloys and provides management and consulting services to ferroalloy industries worldwide through his firm Penn West Mineral Resources Inc.

Continuing education

A continuing education program to provide liberal arts courses, primarily for workers in a factory in rural Central Pennsylvania, has won two awards from the National University Continuing Education Association.

The program, designed for employees at Windfall Products Inc., St. Marys, has provided liberal arts courses to help workers enhance their critical thinking and communication skills. The company manufactures parts for the auto industry. It was coordinated by Jeff Speary, director of continuing education at the DuBois Campus, and William C. Loop, assistant to the dean of the College of the Liberal Arts.

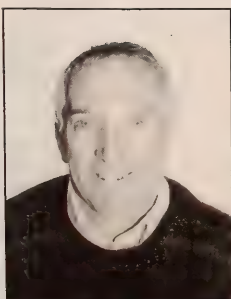

It won the first place award from the NUCEA Division of Rural Continuing Education and was selected as the runner-up for the Philip E. Franson Award for Creative and Innovative Programming.

Both awards will be presented during the national meeting of NUCEA in April in New Orleans.

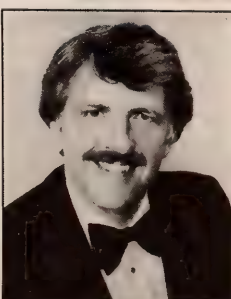

Last fall, the program won a first place award from Region II, NUCEA, for excellence in business/industry linkage.

The Campaign for Penn State

President Jordan: We can all take pride

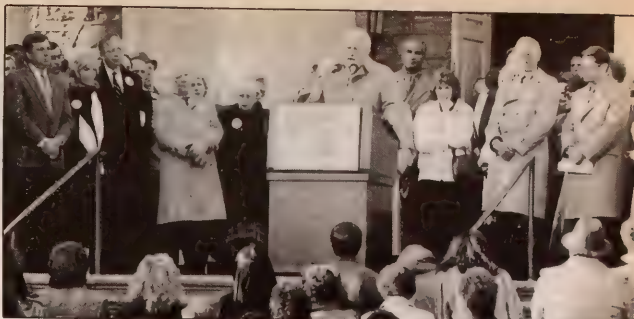

This special *Intercom* supplement surveys the history and results of The Campaign for Penn State. It is a story in which the University community can take considerable pride. The Campaign has had a positive effect on all of us.

We are, of course, indebted to the thousands of alumni and friends — individual and corporate — who have generously given us the resources we need to achieve and maintain academic excellence. Their philanthropy is both a reflection of pride in Penn State's achievements and a vote of confidence in your ability to make the University even greater.

But their generosity also is a response to the wonderful example you have set as faculty and staff donors and volunteers. You have proven that a university that supports itself is able to attract the support of others. Since the Campaign began on July 1, 1984, you have given or pledged more than \$4 million to a diverse array of academic programs. While final figures are not yet available for faculty and staff giving this year, indications are that commitments will exceed \$1 million.

Warmest thanks for your dedication to the University: it has been an inspiration to me. Your efforts have left an imprint that will be visible for generations to come.

Bryce Jordan

President Jordan congratulated Campaign volunteers on surpassing the \$300-million goal during a ceremony on the steps of Old Main Nov. 17, 1989.

More than \$350 million expected to be raised

Campaign is an overwhelming success

The Campaign for Penn State, the University's first comprehensive private fund-raising effort, has met with overwhelming success. By the time it concludes on June 30, the Campaign will have garnered more than \$350 million for scholarships, faculty endowments, teaching and research initiatives and a host of other academic programs. That support — raised over a six-year period — has helped Penn State secure its position as one of America's premier public research universities.

The beginning

In the decade or so prior to the Campaign, Penn State faced accelerating competition from both public and private universities for the best faculty, the ablest students, and the most valuable research contracts. Yet the University experienced chronic underfunding and found itself struggling to fulfill its land-grant obligation to make higher education available to all who qualified.

But there were positive signs. Penn State

developed a long-range plan, "Perspective for the '80s," in 1979 that recognized the need for increased private support. Influential alumni also urged more serious consideration of how philanthropy could help the University.

The selection of Bryce Jordan as Penn State's 14th president in 1983 set the stage for fund raising on a grand scale. Dr. Jordan saw that the University's overarching strategic goal — to rank among the nation's finest public research universities — could be achieved only with assistance from the private sector. Support from the University's many alumni and friends, including corporations, foundations and other organizations, would be used to enhance academic programs for which public appropriations were inadequate or unavailable.

The president coupled his outline of the University's needs to a plan of action: The Campaign for Penn State.

The Campaign

With Dr. Jordan as its architect, The Campaign for Penn State began on July 1, 1984. It aimed to raise \$200 million over five years.

Shortly thereafter occurred a singular act of generosity that foreshadowed its ultimate success — a \$5.5-million bequest from Homer Bradlock '06, to establish scholarships in the College of Science. Fundamental to the Campaign was a group of dedicated and energetic volunteer leaders. This leadership was secured in the fall of 1985 when William A. Schreyer, '48, chairman and chief executive officer of Merrill Lynch & Co. Inc., agreed to serve as Campaign chairman, assisted by vice chairmen Edward R. Hintz, '59, Frank P. Smeal, '42, and Joseph V. Paterno. Robert E. Eberly, '39, served as Campaign treasurer, and Robert W. Moore, '48, headed the Challenge for Annual Support. These leaders, along with Dr. Jordan and 25 distinguished and influential alumni,

formed the Campaign Executive Committee.

The Campaign's day-to-day operations were handled by the professional staff of the Division of Development and University Relations, headed by Senior Vice President G. David Gearhart.

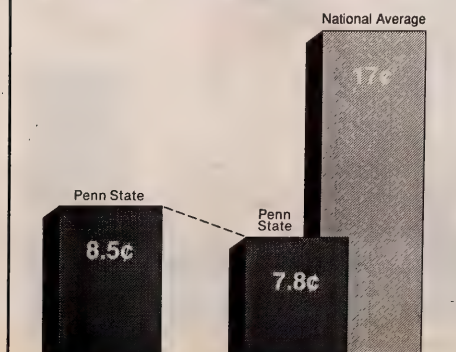

In April 1986, the Campaign received another tremendous boost when longtime Penn State supporters James and Barbara Palmer of State College gave \$3.5 million to expand the Museum of Art and endow a faculty chair in telecommunications.

In September 1986, with \$65 million having been raised in advance gifts, the Campaign was formally launched with a gala celebration for volunteers, donors and prospective donors.

The gala was a fitting prelude to the Nov. 13, 1986, announcement of a \$10 million gift from the Eberly Family Charitable Trust of Uniontown. The contribution included the creation of eight faculty chairs, each with a million-dollar endowment, which were used to recruit

"The Campaign for Penn State" is published by the Office of Public Information as part of the April 26, 1990, edition of *Intercom*, 312 Old Main, 865-7517.

It has been compiled and designed by Michael Dezilla, Doug Stanfield, William E. Campbell and Deborah A. Benedetti.

Campaign for Penn State is successful

(Continued from page 1)

some of the world's leading scholars in such fields as microbiology, astronomy, mathematics, and chemistry. Million-dollar endowments also were designated for biotechnology and Penn State Fayette Campus.

Meanwhile the Campaign began to assert a truly national character. In March 1987, the National Campaign Committee's Regional Major Gifts effort, designed to secure gifts above \$10,000 in 15 geographic regions from coast to coast, was introduced under the direction of Edward R. Hintz. This program involved about 225 volunteers who made personal solicitations on behalf of the Campaign and eventually raised more than \$13 million.

Six months later, the Challenge for Annual Support was launched, led by Robert W. Moore. The Challenge, which aimed to secure gifts up to \$10,000, included a number of components. The Community Challenge enlisted the participation of residents in the State College and Bellefonte areas, while the Faculty and Staff Challenge gave employees at all Penn State campuses the opportunity to participate in the Campaign.

Undergraduates and graduates conducted a variety of fund-raising events as part of the Student Challenge. And through Telefund, student callers invited more than 100,000 alumni and friends annually to join the Campaign.

Still another component, the Regional Challenge, mobilized hundreds of Penn State alumni to lead Campaign efforts in 35 metropolitan areas nationwide.

Giving at the grass-roots level complemented an impressive series of major gifts, highlighted in the spring of 1988 by a \$2 million contribution from Board of Trustees President Lloyd Huck, '43, and his wife, Dorothy, of New Vernon, N.J. They designated their support for biotechnology, the University Libraries and a faculty chair in medicine.

Goal increased

As the Campaign approached the \$200-million threshold more than a year ahead of schedule, its leaders saw an unprecedented opportunity to capitalize on the momentum it had generated. In May 1988, with the approval of the Board of Trustees, the Executive Committee increased the goal to \$300 million and extended fund raising another year. The Campaign for Penn State became one of the five largest capital campaigns ever undertaken by an American public university.

There was seemingly no end to the good news. Early in June 1988 came the \$6 million gift of Deerfield - the Philadelphia-area estate of trustee emeritus H. Thomas

Dr. Jordan told the Campaign Executive Committee in April 1989, including Campaign Chairman William A. Schreyer, left foreground, that "the Campaign is far from over. Much needs to be done in this final year."

Hallowell - to the College of Agriculture. On June 30, Penn State was able to report that for the first year in its history, it had raised more than \$50 million. Having secured \$50.2 million, it also entered the ranks of the "top 10" public universities in total annual philanthropic support.

Contributions increased 10 percent the next fiscal year to \$55.2 million - five times the level of private support Penn State had attracted at the beginning of the decade. Thanks to the dedication of more than a thousand volunteers and the generosity of Penn State alumni and friends, the Campaign was ideally positioned for its sixth and final year.

The long-awaited day arrived - Nov. 17, 1989. Speaking on the steps of Old Main, Chairman Schreyer proudly proclaimed "We did it!" and announced the Campaign had surpassed its goal more than seven months ahead of schedule. Gifts and pledges totaled \$308 million!

The Campaign went over the top in typical Penn State style, roaring past its goal on the strength of a \$10-million commitment from Frank and Mary Jean Smeal of Rumson, N.J., and New York City. The Smeals designated their gift to create endowments in the College of Business Administration.

The Campaign's final months have been anything but anticlimactic. In January, the Hucks made a \$5 million commitment to endow four faculty chairs and a graduate fellowship fund. In February came news of a \$7 million gift from Executive Committee member William E. Leonhard, '36, and his wife, Wyllis, of Los Angeles, to be used in part to establish a center for engineering education in the College of Engineering. These and the more than 570,000 other gifts and pledges Penn State had received

during the life of the Campaign assured the University of a bright future.

Results

The Campaign's success is best measured not by the gifts it received, but rather by its impact on Penn State's academic enterprise.

The faculty are the heart of the University. Penn State's teachers and researchers, already recognized worldwide for their quality and productivity, will become even more renowned with the resources the Campaign has given them. More than \$50 million in Campaign giving increased endowed faculty positions from 19 to more than 120. New endowments will strengthen instruction and support research in fields as varied as cocoa genetics, oil recovery, biotechnology, entrepreneurial studies, nutrition and teacher training.

The University's commitment to cultural diversity also grew stronger because of the Campaign. Minority students in Pennsylvania's urban public schools, for example, will benefit from \$1.2 million in scholarships and related assistance through the Penn State Educational Partnership program. Campaign gifts also created a million-dollar endowment for a chair in Jewish studies in the College of the Liberal Arts.

As Penn State continues to attract eminent scholars to its faculty, the caliber of instruction has steadily risen. First-rate teachers inevitably attract first-rate students. In addition, students will reap enormous benefits from the more than \$40 million in Campaign contributions earmarked for scholarships, graduate fellowships and similar kinds of endowed aid. These awards

are providing the crucial resources that have enabled many students to obtain higher education.

Both faculty and students are benefiting from the \$6 million raised for the University Libraries. Especially noteworthy are the Libraries' first endowed faculty chair (in special collections) and the Paterno Libraries Endowment, which supports acquisition of books and other materials at 21 Penn State campuses. In one of the Campaign's largest corporate gifts, Digital Equipment Corp. gave \$2.5 million in computer hardware and software that positions the Libraries for national leadership in information retrieval.

The Campaign has enhanced the "hardware" of learning to an unprecedented degree. Laboratories have been renovated and state-of-the-art equipment acquired in virtually all of the University's schools and colleges. A far-reaching \$6.6 million commitment from IBM made possible the acquisition of the nation's largest computer devoted exclusively to academic research and instruction.

Generous donations also have supported scholarships and fellowships, faculty endowments, equipment acquisitions, and bricks-and-mortar projects at Penn State Erie, The Behrend College, Penn State Harrisburg, the Hershey Medical Center, and the Commonwealth Campuses.

Private giving has helped to boost Penn State's total endowment, which stood at \$56 million when the Campaign began, to more than \$180 million. A substantial endowment is the hallmark of any great university.

In sum, the Campaign has given academic excellence at Penn State an immediate boost while providing a legacy that will enable generations University faculty and students to better serve humanity.

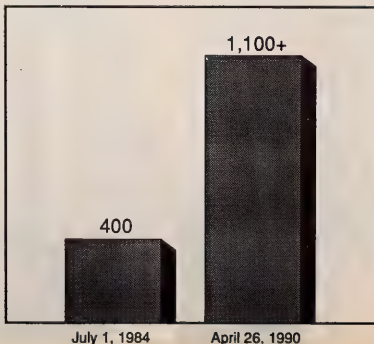

William A. Schreyer

Student callers for Penn State Telefund solicited gifts and pledges exceeding \$1.4 million during the Campaign. Jack Heisler, above, the most successful caller, logged gifts and pledges of \$250,000.

Endowed Scholarship Funds

Campaign strengthens academic excellence

Faculty endowed positions are funded

Following is a list of all faculty endowed positions, fully or partially funded, and the name of the faculty member currently holding the position, where applicable. (*) denotes positions funded for a limited term)

Chairs

Brush Chair in Materials (Engineering)
Eberly Family Chair in Astronomy -- **Icko Iben Jr.**
Eberly Family Chair in Biology -- **Robert Selander**
Eberly Family Chair in Chemistry -- **Stephen Benkovic**

The University Libraries have been a focus of fund-raising efforts during the Campaign, with more than \$8 million raised, including the establishment of the \$2-million Paterno Libraries Endowment.

Fund-raising components launched by 13 campuses

Commonwealth Campuses aided by Campaign

The Campaign for Penn State has made a difference statewide through fund-raising components launched by 13 of the University's Commonwealth Campuses.

The campaigns at each of these campuses have marshaled the talents of community, business and faculty leaders in planning and executing fund raising based on local needs and timetables. Thanks to more than 700 of these volunteers, the campuses have collectively raised \$28 million or 160 percent of their collective goal of \$17.5 million.

Here are the primary targets of their support:

Altoona - Volunteers raised \$1.2 million for a Community Arts Center, opened in 1989. Contributions also have been designated for theatrical equipment and furnishings.

Beaver - Gifts and pledges have taken the Special Gifts Campaign to 90 percent of its \$440,000 goal. The campaign is supporting the establishment of associate-degree curricula that will aid the economic revitalization of the campus's service area, which was hit hard by the recession in heavy industry.

Berks - Volunteers launched a \$2-million fund-raising effort in November 1989 to build a 13,000-square-foot academic facility and to renovate the existing Luerssen Building. The campaign is scheduled to conclude in August 1990.

DuBois - The campaign for construction of a new \$2-million academic facility, the Mary Smear Building, has been successful. Ground was broken and construction began last summer, thanks to grass-roots support from alumni and from residents in the campus's six-county service area.

Hazleton - This campus, in the third year of its first major fund-raising effort in 22 years, has set a record for private giving by Hazleton-area donors. The focus of the drive is a new academic center, for which a May 1990 ground-breaking ceremony is planned.

A.C. Jordan, left, who endowed the first named scholarship in Penn State McKeesport's \$500,000 campaign, accepts a statuette from Campus Executive Officer Cash Kowalski and Director of University Relations Judy Kalich.

McKeesport - Volunteers surpassed their \$500,000 goal for endowed scholarships by more than \$100,000. Twenty-one named scholarship funds have been created.

Mont Alto - Now engaged in the advance-gifts phase of a \$1.3-million campaign, the campus has given highest priority to renovations to Conklin Hall.

New Kensington - This campus capped a successful \$1

million drive for a new science and technology center in 1988. The center opened last year.

Schuylkill - Volunteers helped to raise more than \$1 million for a new library. A \$1.6 million state appropriation will be added to the building fund.

Shenango - Gifts and pledges to the campus development fund total \$1 million for the Student Activity Center and endowed scholarships.

Wilkes-Barre - The campus exceeded its \$2.5 million goal by more than \$200,000 for construction of the new Bell Atlantic/Bell of Pennsylvania Building, which houses the Center for Technology. The building opened for classes Jan. 8, 1990, and a gala celebration was held April 5.

Worthington Scranton - Volunteers continue to seek contributions for scholarships and other academic support. Gifts and pledges total about \$800,000, 60 percent above the original goal.

York - Campus officials and friends recently broke ground for a \$2 million academic building - the culmination of more than two years of fund raising. The structure will house centralized computer facilities, classrooms and faculty offices. A bookstore will be attached. Occupancy is set for early 1991.

The five remaining campuses in the Commonwealth Educational System - Allentown, Delaware County, Ogonitz, Fayette and Penn State Great Valley - are planning future campaigns.

The Milton S. Hershey Medical Center has targeted \$30 million in private support for new facilities, faculty endowments and scholarships.

Campaign is providing critical support

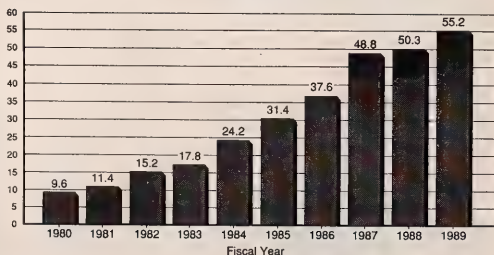

The Campaign for Penn State is providing critical support for a variety of academic programs at Penn State Erie, The Behrend College, Penn State Harrisburg and The Milton S. Hershey Medical Center. Each of these locations has mounted a fund-raising effort to meet local needs.

At Penn State-Behrend, nearly a hundred volunteers have raised \$10.2 million for scholarships, fellowships, research projects, capital improvements and other purposes. In scholarships alone, 15 separate funds have been endowed with gifts totaling more than \$650,000.

Penn State Harrisburg's campaign has raised more than \$3.2 million - exceeding its

original goal by 60 percent. These funds have been designated for building renovations, two endowed professorships, scholarships and fellowships, equipment acquisitions and other programs. About 50 volunteers have solicited gifts on behalf of the campus.

More than \$30 million in contributions for Hershey Medical Center will support new facilities, research programs, faculty positions and scholarships. Two well-known programs have continued to be highly successful campaign components - the Children's Miracle Network Telethon and the Four Diamonds Fund for cancer research and treatment.

Total Private Giving to Penn State
(Millions)

"BIG FIVE" PUBLIC UNIVERSITY CAMPAIGNS

	Goal	Raised	Campaign Ends	Duration (years)
University of California, Berkeley	\$400 Million	\$422 Million	June 30, 1990	5

University Park Calendar

April 26— May 6 Special Events

Thursday, April 26

Back's Lunch, 12:30 p.m., Eisenhower Chapel.
Susan Scott, organ.
Bicentennial of the French Revolution, lecture, 8 p.m., 112 Kern. Simon Schama, Harvard Univ., on "Trees and Liberty."

Center for Women Students, "Interactive Discrimination: The Combined Effects of Racism and Sexism," 8 p.m., Paul Robeson Cultural Center, Bylyne Avery, National Black Women's Health Project, on "Healing Through Empowerment."

Friday, April 27

Init. for the Study of Adult Literacy, open house, 2-5 p.m., 204 Calder Way, Suite 209.
Geog., People's College Hour, 4 p.m., 319 Walker.
Classes end 9:30 p.m.

Saturday, April 28

Shaver's Creek, 1-3 p.m., Pennsylvania Trees.
Call 863-2000.

Sunday, April 29

Shaver's Creek, 2-4 p.m., Spring Wildflower Walk, Call 863-2000.
State College Choral Society, 3 p.m., Schwab Aud. "Creation."

Thursday, May 3

Women and Men of Color, luncheon, noon-1 p.m., Nittany Lion Inn.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.
"Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.
"Perspectives," 6:30 p.m. Wednesdays, with Jeff Ballou.
"Creative License," 12:30 p.m. Thursdays, with Asa Berlin and Pam Saulnier.

Conferences

Continuing Education

Keller Building

April 30-May 2 Personnel Law for Police, Jack H. Williams, assistant professor of administration of justice, chair; Kathy Karchner, coordinator.

April 30-May 2 Groundwater Flow and Transport Modeling, Derek Elsworth, assistant professor of mining engineering, chair; Eric Loop, coordinator.

April 30-May 4 Water Pollution Control: Basic Water Quality, David Long, professor of civil engineering, chair; Eric Loop, coordinator.

May 1-3 Motor Fleet Maintenance Management, Eric Loop, coordinator.

May 2 Managing Multiple Priorities: A Secretary in Charge, Anita Shmukler, assistant professor of management development, instructor; Donna Ricketts, coordinator.

May 2-5 Enhancing Rural Economies Through Amenity Resources, Elwood Shaver, professor of recreation and parks, chair; Chuck Hurd, coordinator.

May 3-4 Police Response to Civil Suits, Jack H. Williams, assistant professor of administration of justice, chair; Kathy Karchner, coordinator.

May 4-5 American Nuclear Science Teachers Association, Candice Davison, technology education specialist, director; Bill Sterner, coordinator.

May 4-6 Penn State Aquatic Institute, Tom

Griffiths, affiliate associate professor of exercise and sport science, chair; Eric Loop, coordinator.

Seminars

Thursday, April 26

Physics Colloquium, 3:30 p.m., 55 Osmond, Ulf von Zahn, Univ. of Bonn, on "Ion Trapping."
Mechanical Engineering, 4 p.m., 103 Mech. Engineering, Arthur E. Bergles, Rensselaer Polytechnic Inst. on "The Thermal Control of Electronic and Micro-Electronic Equipment - A Challenge for the 1990s."

Friday, April 27

Ecology, 3:45 p.m., 111 Wartik, Julie Downs on "Composition and Structure of a 320-Year-Old Mixed-Oak Forest."

International Center for Sport and Exercise Science, 4:30-5:30 p.m., Penn State Room, Nittany Lion Inn. Richard Nelson on "Barcelona: The 1992 Games from the Biomechanist Perspective."

Monday, April 30

Even Memorial Lectures, EMS, 3:30 p.m., 301 Stedle, Dr. Anna Mazurek, Polish Academy of Sciences, on "Field Ionization Mass Spectrometry of Complex Biogenic Materials: Inferences for Coal Studies." Also 9 a.m., May 2 and 4, 115 Academic, Projects, on coal research topics.

Entomology, 3:45 p.m., 204 Patterson, Jim Foster, El. duPont de Nemours Co. on "Microbial Insecticides: An Industrial Viewpoint."

Thursday, May 3

Mechanical Engineering, 4 p.m., Mech. Engineering, Jack Howard, Massachusetts Institute of Technology.

The following programs for Spring 1991 are available until Oct. 1: Athens, Exeter, Kiel, Manchester (economics), Nice, Rome, San German, Tel Aviv.

Focus on the arts

Shakespeare Festival

The Department of English is now accepting reservations for a weekend of plays at the Stratford Shakespeare Festival in Stratford, Canada, July 20-23.

Students, faculty, staff and area residents are welcome to join the excursion.

Theatergoers may purchase Plan A, \$190 for tickets to three plays, or Plan B, \$220 for tickets to four plays. The price of the tickets includes lodging in Stratford and round-trip transportation in University vans.

Vans will leave the Fleet Services Building on the University Park Campus at 7:30 a.m. Friday, July 20, and return to campus at 7 p.m. Monday, July 23.

A down payment of \$25 is required with each reservation, and full payment is required by June 8.

Checks should be made payable to: John Moore, Department of English, University Park, Pa. 16802. For more information, contact Professor Moore at 865-9445 or 865-0382 (office) or 238-2895 (evenings).

Play honored

A play from Penn State has been selected as one of the best university productions in the country this year and was performed at the Kennedy Center in Washington, D.C., April 23 and 24.

"On the Verge," produced by the University Resident Theatre Company of the Department of Theatre Arts, was one of seven productions selected from almost 800 entered in the 1990 American College Theater Festival (ACTF) for the national festival in Washington.

The play was selected from the region II ACTF festival held at Penn State last January by the festival's national selection team. This is the first Penn State production to be selected for the prestigious festival.

"The department is honored to be invited to the festival," Carole Brandt, head of the Department of Theatre Arts, said. "It is national recognition of the integrity of our program."

The ACTF is sponsored by the Kennedy Center for the Performing Arts and is designed to encourage and recognize the finest theater productions at the college and university level. Many ACTF alumni have gone on to successful professional careers in network television, film and live theater.

"On the Verge," produced last November by URTC, is a comedy about three Victorian women explorers who set out on a safari through Africa and the Himalayas with the property of 1888 and end up working their way into the breezy vernacular of 1950s America.

The cast includes Leslie Brott, Kristina Lyons and Craig Wallace, all master of fine arts acting candidates at Penn State, and Peg French, a faculty member in the Department of Theatre Arts. The play is directed by Robert Leonard, also a faculty member in the department.

Other plays selected for the national festival came from the University of Texas, El Paso; Brown University; University of South Dakota; Vermillion; Indiana State University; Texas Woman's University; and Gainsville College/Brenau College of Gainsville, Ga.

Choral Society

The State College Choral Society presents Franz Joseph Haydn's *Creation* at 3 p.m. Sunday, April 29, in Schwab Auditorium at University Park.

Soloists are Suzanne Roy, soprano; Richard Kennedy, tenor; and Richard Davis, baritone. All faculty members of the School of Music.

The text of the *Creation* originated in an English libretto, based largely on the book of Genesis and on Milton's *Paradise Lost*. The Choral Society is concluding its 41st season. The approximately 100-member organization will be accompanied by a professional 40-piece orchestra. The music director of the Society is D. Douglas Miller, professor of music in the School of Music. Tickets are \$7 and \$4 (students and senior citizens) and may be purchased at the Eisenhower box office or at the door the day of the performance.

The arts on Channel 3

Through the modern miracle of High Definition Television (HDTV), Academy Award-winning filmmaker Agnieszka Rybczynski brings classical music into the video age in "The Orchestra," premiering on *Great Performances* at 1 p.m. Sunday, April 29.

In the one-hour program, Mr. Rybczynski marries the technological capabilities of high definition video with his own fantastical sensibilities to create six

"classical music videos."

The works featured in the program are Ravel's "Bolero," Schubert's "Ave Maria," Chopin's Piano Sonata No. 2 in B-flat minor (Funeral March), Mozart's Piano Concerto No. 21, Rossini's Overture from "The Thieving Magpie," and Albinoni's Adagio in G minor for strings and organ.

Until he was awarded the Nobel Prize for Literature in 1980, few people in the West had ever heard of Czeslaw Milosz, a Lithuanian-born poet, essayist, and novelist who writes in Polish. But for the past 50 years, Mr. Milosz has been a literary leader in the resistance of oppressive regimes, from his first volume of underground anti-Nazi poetry to his condemnation of Stalinist terror in the celebrated book *The Captive Mind*.

Today, Mr. Milosz is hailed as one of the great writers of the 20th century, whose poetry is an inspiration to the Solidarity movement in Poland and to the people of Eastern Europe. He is the subject of a one-hour documentary portrait, *Czeslaw Milosz: The Poet Remembers*, airing at 2 p.m. Sunday.

Bookshelf

K. Warner Schaie, Evan Pugh professor of human development and psychology, is co-editor with James E. Birren, of the University of Southern California, of the third edition of *Handbook of the Psychology of Aging*.

The volume provides a major review and reference source for psychologists, physicians, psychiatrists, social workers, researchers and others who work with the elderly. It presents a comprehensive summary of research knowledge, theories, concepts and issues on the biological,

psychological and social aspects of adult development and aging.

The new edition also includes up-to-date research contributions by four faculty members in the College of Health and Human Development: Gerald E.

McClean, Evan Pugh professor of health and human development and director of the Center for Developmental and Health

Genetics; Robert Plomin, professor of human development; Michael A. Smyer, associate dean for research and graduate studies; and Steven H. Zarit, professor of human development.

The book is published by Academic Press Inc.

'Writing across the curriculum' is being implemented

Starting this summer, incoming freshmen will have more opportunities to learn through writing.

Writing-intensive courses will now be limited to the required English courses. With the implementation of the "writing across the curriculum" concept, all baccalaureate students will be required to complete at least one three-credit, writing-intensive course within their college of enrollment prior to graduating. **Jerry B. Covert**, associate dean for undergraduate education, said.

"The recommendations outlining this concept were approved by the University Faculty Senate in April 1985 as part of the general education program," said Dr. Covert, who is serving as University Faculty Senate liaison for the Office of the Vice Provost and Dean for Undergraduate Education, which is responsible for implementing the recommendations.

It wasn't until April 1989 that the Senate reviewed the proposal dealing with implementing "writing across the curriculum." Since then, Dr. Covert has been working with

the University Writing Subcommittee to make the concept a reality.

Mary M. Dupuis, professor of education and co-chair of the University Writing Subcommittee, said, "The key argument in favor of emphasizing writing in the discipline is that students will learn the material better through writing about it."

"There are two different aspects to the 'writing across the curriculum' concept. One is that writing is an important skill for success on the job. The other is that students learn the content of their discipline better by being able to explain it in writing," she said.

Paul R. Shellenberger, professor of dairy science and co-chair of the University Writing Subcommittee, agrees.

"Writing is a process that involves working with thoughts until they make sense," he said. "Through practice in writing about one's discipline, the student eventually becomes more at ease with the writing style of the particular discipline. The student's writing competency

should improve as well.

"Writing takes a lot of effort, on the part of both the faculty member and the student, but it is an important part of the educational process that we should not neglect," Dr. Shellenberger said.

Theodore E. Kiffer, associate dean, College of the Liberal Arts, said the subcommittee's "basic philosophy is that writing is not an end in itself, but a tool to help a student master the subject matter. Writing in a student's discipline reinforces the skills that the student acquired in freshman composition courses."

The College of the Liberal Arts began exploring the "writing across the curriculum" concept in the early 1980s, holding workshops and involving outside speakers, Dr. Kiffer said.

Dr. Shellenberger and Dupuis participated in the Liberal Arts program and incorporated writing into their courses prior to the Senate's consideration of "writing across the curriculum."

Dr. Shellenberger has taught Animal Science 001W as a writing-intensive course for several semesters. Dr. Dupuis also has taught writing-intensive, or "W", courses in the College of Education.

In response to the call for more writing in the curriculum, the College of Earth and Mineral Sciences has created a Writing Program to assist its faculty members. **John J. Cahir**, associate dean for resident instruction, said. **Joe Schall** serves as director and technical writing tutor for the Writing Program, now in its third year.

EMS faculty members can call on Mr. Schall for in-class technical writing lectures/workshops, tutorial help and evaluations of their students' writing. Mr. Schall meets one-on-one with about 100 students each semester.

To date, 18 courses have received approval from the University Writing Subcommittee of the Senate Committee on Curricular Affairs to be taught as writing-intensive. Dr. Dupuis reports. More proposals continue to be submitted.

She noted that there are two types of writing-intensive courses: permanent and one-time. One-time course proposals may be approved for one semester at one site.

Following the successful implementation of the three-credit "W" requirement, the University Writing Subcommittee will study the feasibility of including three credits of "W" courses within the general education component, Dr. Covert added.

Guidelines for 'W' courses

Requests for approval of writing-intensive courses must include the following course documentation.

Writing assignments will be integrated into the course so it is clear how they relate to the objectives of the course. That is, writing assignments will be used as instruments for learning the subject matter, methods of inquiry, and/or types of writing associated with a given discipline (e.g., to gain experience in interpreting research results; to learn a kind of writing associated with a given profession).

The course will require writing assignments which give students the opportunity to practice writing and receive responses from the instructor or another professional throughout the course. Usually this will mean multiple assignments (five or more) or a series of preparatory writings for a major project.

Writing will be visible in the course syllabus. The instructor will identify the writing that is needed for learning in this course and provide guidance as needed. The type of writing to be used by students will be

identified and student writing activities will be clearly explained. The methods may include such options as student peer review (in or outside of class), tutorial assistance, conferences, classroom lectures or assigned readings about writing, and the instructor's responses to drafts and final papers. Experimentation with assignments and instructional activities is encouraged.

Writing will be treated as a process. That is, instructors will allow some course time for such activities as writing proposals for major projects, writing and revising drafts, and critiquing one another's drafts. This course time includes classroom time and out-of-class time, as useful in the particular course.

Writing will be evaluated. Its quality will be a factor in determining each student's final grade.

Faculty members should submit a syllabus for proposed course/section, including course objectives, sequence of class activities, writing assignments and grading procedures.

IPO news

The Intellectual Property Office is pleased to announce that **Stephen J. Benkovic**, Evan Pugh professor and holder of the Eberly Chair in Chemistry, has received notice from the United States Patent and Trademark Office that claims will be allowed covering two of his inventions.

The first invention is titled "Antibody Combining Sites that Exhibit Stereospecific Synthesis Activity." The invention was jointly developed with Scripps Clinic and Research Foundation, Scripps and Penn State are jointly negotiating with a major pharmaceutical company for a license to these patent rights.

The second invention is titled "Multisubstrate Adduct Inhibitor for Glycylamide Ribonucleotide Transphosphorylase." Penn State has entered into an Option Agreement with Burroughs Wellcome Ltd., which gives that drug company a specific period of time within which to assess the invention and to elect an exclusive license to the technology

York conference will focus on women's issues

Celebrate Womanhood, a conference focusing on women's issues, will be held from 8:30 a.m. to 4 p.m. Saturday, April 28, at the Penn State York Campus. The conference is designed to encourage leadership in women, provide a forum for women's concerns and inform women of opportunities to develop and grow.

"This is our second year offering a women's conference," said Sharon Cessna, conference chairman and a faculty member at Penn State York. "We've expanded the program to a day-long format to provide additional workshops and to allow participants more time in the sessions. The

program includes a variety of topics for women of all ages and many topics that men will also find beneficial."

Barbara Sher, best selling author, therapist and career counselor, will give the keynote address on "How to Get What You Really Want." Workshops will be presented on a variety of topics, including: managing multiple roles, dealing with anger and guilt, diversity, self-esteem, assertiveness, fitness for life, alcoholism, women's health issues and looking your best.

For additional information, call (717) 771-4045.

25-year awards

Joseph J. Duda, TV and electronics A, Office of Physical Plant.

George Harpster, lead auto mechanic, Office of Physical Plant.

Frederick C. Mensch, experimental and maintenance mechanic, Chemical Engineering Department.

Barbara Sher

News in Brief

Summer Sessions office has moved
The Office of Summer Sessions has moved from 427 Boucke Building to the first floor of Spruce Cottage. The phone number remains the same: 863-4174.

Law and semiotics

The Fourth Annual International Round Table on Law and Semiotics is being held today through Sunday, April 29, at the Sheraton Berkshire in Reading, Pa.

The general topic of the conference is "Action and Agency." It is sponsored by the Center for Semiotic Research in Law, Government and Economics at the Penn State Berks Campus in cooperation with the Department of Philosophy and

the College of the Liberal Arts. Proceedings will be published at a later date.

Pockrass lecture canceled

The School of Communications has announced that the second Robert M. Pockrass Memorial Lecture, which was to be held this evening, has been canceled.

The invited speaker, **Tamas Szecsko**, general director of the Hungarian Institute for Public Opinion Research, was injured in an automobile accident last week. There are no immediate plans to reschedule the event.

Preschool openings

The Penn State Child Development Laboratory, a preschool for children 2 1/2 to 6 years old, currently has a limited number of full-day openings (7:30 a.m. to 5:30 p.m.). The preschool is operated by the Department of Human Development and Family Studies in the College of Health and Human Development.

For more information about enrollment, call 863-0247 or visit the Child Development Laboratory office in S-24 Henderson Building.

Women's Alliance

"Women in Public Service" will be the topic of a meeting of the Women's

Alliance at 9 a.m. May 5 at Centre Furnace Mansion.

Panelists **Ruth C. Rudy**, 171st District representative; **Janet Sulzer**, vice chairwoman, College Township Council; **Jean McManis**, State College Borough councilwoman, and **Marilyn Shobaken**, State College Design Review Board and Downtown Project Management Team member, will discuss their experiences in public service.

The Woman's Alliance provides opportunities for women to come together for discussion, networking, and advocacy activities which expand knowledge, improve skills, and enhance careers.

Partings

After spending 28 years tending to other people's business in the Pennsylvania Technical Assistance Program and Management Development Services at Penn State, **H. LeRoy Marlow** plans to take some time managing his own pursuits.

The retiring director of PENNTAP and former head of Management Development plans to keep active with his numerous hobbies.

"I'm writing another book on woodcarving," says the man who has penned two previous books on the subject, *Woodcrafting Heritage Toys: A Treasury of Classic Projects* (1987) and *Carving Carousels* (1989).

Mr. Marlow began serving Penn State in 1962 as an assistant professor of management development and a part-time researcher in the Division of Planning Studies. He became associate professor in 1964 and was named director of PENNTAP in 1966, a program that was developed to implement the goals of the State Technical Services Act.

Mr. Marlow also became head of Management Development in 1970. He was appointed professor of management development in 1972 and continued as head of that department and PENNTAP throughout the 1970s and into the late 1980s.

He received his bachelor's and master's degrees in industrial education from the University of Maryland and a doctor of education degree in industrial and labor relations from the New York State School of Industrial and Labor Relations at Cornell University.

In 1981, he received the Barash Award for Human Service for his work with a variety of community organizations, including the Centre County Cancer Crusade, Lewisburg United Methodist Homes, the Albright College Board of Trustees, the Centre County Vocational-Technical School General Advisory Committee and the Faith University Methodist Church in Bellefonte.

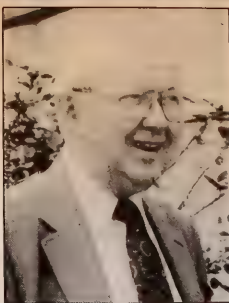

Glenn D. Bengston, assistant professor of agricultural communications, has retired after 27 years service.

Mr. Bengston served as principal editor for the Agricultural Experiment Station, reviewing and editing all station bulletins. He also was the first editor for the College of Agriculture's for-sale publications.

Mr. Bengston graduated from high school in northeast Kansas in 1941, then joined the Navy. During World War II, he attended Oberlin College as a Naval V-12 Cadet, and later studied at Kansas State University.

He joined Penn State in 1963 after serving 11 years as an editor at the West Virginia University Agricultural Experiment Station.

From 1976-79, on leave from Penn State, he served as scientific editor for the International Crops Research Institute for the Semi-Arid Tropics in India. "It was an exciting and challenging position. I was working with international scientists who were breeding improved varieties of sorghum and millet. We were trying to

H. LeRoy Marlow

augment the Green Revolution."

In 1981, Mr. Bengston was assigned to Penn State's Swaziland cropping systems research and extension training program, setting up a communications support system. "We took technical information from Swazi and project scientists, translated it into user-friendly language, then passed it on to the farmers."

Now that he's retired, he will continue to edit at home and will work on a book about diseases of hobby birds. He lives in State College with his wife, Miriam. They have three children, Eric, Carolyn and Edwin, and three grandchildren.

Susanne Doucette, administrative aide in the Office of Undergraduate Programs, has retired after 23 years of service.

In Ms. Doucette's first two positions at the University, she was a secretary in the Office of Public Affairs and a secretary for the associate dean of the College of the Liberal Arts. In 1968, she became an administrative aide for the Department of Meteorology to oversee the budgets.

She worked as a field administrator at the Institute of Human Development from 1972-74. Her next position was in the Office of Special Programs and Services as a counselor to 70 freshmen in the Developmental Year Program. She set up a tutoring center for the Office of Special Programs and Services in 1975 and continued as a tutor-coordinator until 1980.

From 1980-88, Ms. Doucette was an administrative aide for the assistant vice president for student affairs and later for the assistant dean of academic assistance programs. In 1988, she took on her final position as an administrative aide to the director of the Developmental Year Program/Learning Assistance Center.

She has two children. They have both attended Penn State and now reside in York.

Edgar H. Eckley, supervisor of property inventory, has retired after 27 years of service.

When Mr. Eckley first came to the University in 1963, he worked for the Office of Physical Plant as a utility draftsman, which involved drawing plans

for utility steam lines.

In 1960, he became supervisor of property inventory for physical plant in the Corporate Controller's Office.

Mr. Eckley received two degrees from Penn State: a bachelor's degree in business administration in 1970 and a master's degree in education in 1977.

Mr. Eckley's four children have either attended Penn State or are planning to attend.

Emilie K. Lunger, extension home economist, has retired after 35 years service.

Ms. Lunger was responsible for the 4-H and home economics programs in Wyoming County.

"One of my biggest accomplishments was to help start the Endless Mountains Craftsman Association back in the 1960s, which still exists today," she says. "I'm also proud of the master clothing program we organized during the 1980s, in which we trained adults to teach sewing to 4-H members."

In cooperation with the Kiwanis Club, Ms. Lunger helped bring back the Wyoming County Fair in 1987 — the first fair in that county since World War II.

Ms. Lunger is planning a cruise to St. Thomas and Bermuda with her husband, Donald. She also plans to travel cross-country this summer with Donald, her daughter, Judy, and two grandchildren, Amy and Melissa.

Ralph Musick, incubator operator at the Poultry Research Farm, has retired after 25 years service.

Mr. Musick started working with the Poultry Research Farm in July 1964 as a general poultry worker. Four years later, he was made responsible for egg room and feed mixing operations. In 1977, he was given responsibilities for incubation.

Mr. Musick was born in Coburn and graduated from East Penns Valley High School. Before joining Penn State, he

owned and operated a dairy farm for 18 years.

Mr. Musick and his wife, Ardrenna, continue to live in Penns Valley. They have one son, two daughters and a grandson. In retirement, he plans to garden and tour the United States.

John D. Stoner, a milker at the Dairy Barns, has retired after 31 years of service.

Mr. Stoner says he will miss his supervisor and colleagues — but won't miss getting up for work at 4 a.m. "I enjoyed working with the students there, too," he says. "It was fun teaching them how to milk."

His plans for retirement include hunting and working around his house in Spring Mills.

Phyllis B. Witmer, budget clerk, has retired after 20 years of service.

Ms. Witmer began her service at the University in 1969 as a clerk typist in the Fee Assessor's Office in Shields Building. In 1971, she moved to the Loans and Scholarship Office.

Her final position was as budget clerk in the Corporate Controller's Office, where she performed secretarial work for the director of financial officers from 1972 until her April 1 retirement.

Ms. Witmer has two children, Philip Jr. and Cathy, both of whom are Penn State graduates. Her husband, Philip, also received a bachelor's degree from Penn State.

Andrew B. Kovich Jr., utilities analyst, from Feb. 13, 1961, until March 31.

Suzanne Strideck, associate librarian/ chief, bibliographic services, University Libraries, from Sept. 12, 1977, until Feb. 1, 1978.

Donna K. Schenfeldt, patient care assistant at Hershey, from Nov. 2, 1970, until March 31.

James S. Zeiler, clerk, insurance team at Hershey, from April 7, 1980, until April 8.

Obituaries

Kittie E. Jordan, mother of President Jordan, died April 20 in State College. She was 91.

Mrs. Jordan was born July 10, 1898, in Garner, Texas. She attended Baylor-Belton College. She married Joe Jordan on Nov. 11, 1919, and lived for some years in Clovis, New Mexico. In 1935 she and Mr. Jordan moved to Abilene. They operated grocery stores there until they retired to Weatherford, Texas, in 1956.

Mrs. Jordan was a member of North Side Baptist Church in Weatherford. In addition

to her son, she is survived by two grandchildren, Julia Ohlen of Coppell, Texas, and Chris Jordan of Albuquerque, New Mexico, and a great-granddaughter, Jordan Brooke Ohlen.

Gerald R. Trostle, estimator-inspector, Office of Physical Plant, from Oct. 22, 1946, until his retirement Jan. 1, 1982, died April 3 at the age of 61.

Hugh J. Clarke Jr., software development engineer at the Applied Research Lab since Nov. 16, 1959, died April 9 at the age of 60.

Bookshelf

William Boyd, professor of education, is co-editor of a new book, *Private Schools and Public Policy*. International Perspectives.

Published by Falmer Press, the book assesses the growing policy debate in many

industrialized nations over the proper balance between public and private schools and the role that government should play in influencing this balance. This debate has been prompted by a widespread loss of confidence in public enterprises and, in particular, state-run education systems.

Faculty/Staff Alerts

Telephone directories

It is time once again to check the Faculty/Staff telephone directories for corrections, additions, or deletions. Please refer to the departmental listings on pages 21-72 of the 1990-91 Penn State Faculty/Staff Directory to find the listing(s) for your department or program. Make any changes by copying the page(s), making sure the page number is visible, and inserting the information in red. If there are many corrections, please type the information on a separate piece of paper and staple that sheet to the copied directory page.

Be sure to double-check the name of the department or program, individuals and their titles, phone numbers, addresses, and cross-references. Offices using FAX machines may include a FAX number in their listings.

The information on pages 74-158 is generated by payroll records and supplied as a magnetic tape. Changes to this information should be handled through your personnel representative or the Payroll Office.

An Adjunct Listing Form is used to list a second office phone number or to list a

person who does not appear on the University payroll records. This includes: adjunct professors, research associates, postdoctoral researchers; part-time or wage payroll employees; USDA, U.S. Pasture Lab, and U.S. Forest Service and other federal or state employees; military and associated civilian personnel; local religious leaders at Eisenhower Chapel. Blank forms are available upon request from your personnel representative or the Office of Systems and Procedures, 202 William Street Building.

Completed Adjunct Listing Forms and all

revised telephone directory material should be addressed to Mary Anne Eves, Department of Publications, 820 N. University Drive, Suite A, and must be received no later than June 6.

Penn State Directories order forms should have been received recently by the contact person in your area. Please double check that this is the case. If you are unable to determine this, please call Mary Anne Eves at 863-1873 for assistance.

University approves new deferred tuition payment plan

Managing college payments is going to be a little easier for Penn State students, thanks to a cooperative effort by students and administrators.

Beginning with the 1990 fall semester, all full-time students can pay tuition, room and board over three payments per semester instead of the current one or two payment plans." Kenneth S. Babe, corporate controller for the University, said.

The due date of college bills has been a concern. Many graduate students on assistantships or fellowships and those who work in University research and support positions are paid monthly. In addition, many undergraduates also are dependent on monthly sources of income.

"Graduate students have been asking for

a more flexible payment plan because many simply don't have the money to pay for a semester of on-campus housing in a single payment, forcing them to seek housing in town that may be less

convenient and more expensive. We are very happy with this decision," Ken Martin, president of the Graduate Student Association and a graduate student in political science, said.

He and Brian Kocher, past president of the Association of Resident Halls Students and a senior in civil engineering, have been working with University administrators on the change.

If a student elects the deferred payment plan, one-third of the 1990 fall semester tuition and room and board payments will

be due Aug. 3, the second-third on Sept. 4, and the balance on Oct. 1. Spring 1991 semester payments will be due Dec. 7, Jan. 2 and Feb. 1.

A \$45 handling and processing fee will be due with the first payment. All eligible aid and loans must be subtracted from current charges before applying the deferment option. The deferred payment plan spreads costs for the nine-month academic year over a seven-month period.

Applications for the new payment plan will be sent to all full-time students with their 1990 fall estimated bill in July. Those who choose not to use the new payment program may continue to pay on the semester basis.

"As college costs have increased, single

or even twice-per-semester payments have become difficult for many students and their parents to manage. We are glad to offer this program to both graduate and undergraduate students," Mr. Babe said.

Obituaries

Lucille L. Zoller, retired professor of romance languages at the Penn State Altoona campus, died March 25 at the age of 92. She joined the Altoona faculty Sept. 1, 1933, and retired July 1, 1957.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in promotion MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-8304.

NETWORK LINE 433-0304. Applications for these staff vacancies will be accepted until May 3. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

• **Applications Programmer/Analyst, Computer and Information Systems, Management Services, University Park Campus** - Responsible to the designated project leader for conducting analyses of data processing and customer concerns, determining detailed systems problems and preparing computer programs to satisfy desired end results. Assist in providing direction and control within specifications of project schedule. Requires bachelor's degree, or equivalent, in basic computer systems; plus one to two years of effective experience in computer programming and analysis. **STAFF GRADE 6**

• **Systems Programmer/Coordinator, Applied Research Laboratory, ARL/Research and Academic Affairs, University Park Campus** - Responsible to the manager, computer facility, for the development of system software, maintenance and repair of computer equipment, system accounting and documentation. Requires bachelor's degree, or equivalent, in computer science or engineering with one to two years of effective experience in data processing, including working knowledge of VAX hardware and VMS-based systems, FORTRAN and scientific subroutine packages. U.S. citizenship required. **STAFF GRADE 6**

• **Systems Programmer/Coordinator, Applied Research Laboratory, ARL/Administration, University Park Campus** - Responsible to the coordinator, management information systems, for troubleshooting PC problems, analyzing and developing new applications and installing and maintaining new releases of PC software. Requires bachelor's degree, or equivalent, in computer science, MIS or business administration, plus one to two

years of effective experience in data processing, including developing computerized applications and helping users with their operation. Experience with PC and database management systems preferred. U.S. citizenship required. **STAFF GRADE 6**

• **Senior Code Compliance Representative, Office of Physical Plant, Project Management, University Park Campus** - Responsible to the senior manager, construction administration, for the supervision of assigned code compliance representative and for the plan review and inspection of construction projects. Requires associate degree, or equivalent, in architecture, engineering or related field, plus four to five years of effective experience in institutional and/or commercial building construction. Building Official and Code Administration (BOCA) certification for applicable field is required. Supervisory experience required. **STAFF GRADE 7**

• **Code Compliance Representative, Office of Physical Plant, Project Management, University Park Campus** - Responsible to the senior code compliance representative for the plan, review and inspection of construction projects, including day-to-day related coordination and monitoring of code compliance. Requires associate degree, or equivalent, in architecture, engineering or related field, plus two to three years of effective experience in institutional and/or commercial building construction. Building Official and Code Administration (BOCA) certification for applicable field is required. **STAFF GRADE 6**

• **Programmer/Analyst, Office of Human Resources, University Park Campus** - Responsible to the manager of information systems for the development and implementation of innovative data processing systems. Analyze and solve problems with existing systems and programs. Design, code, modify and test new and existing programs. Prepare or modify job control language for same. Assist in applications systems design. Requires bachelor's degree, or equivalent, in computer science or related field and one to two years of effective experience in computer programming and systems design. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1990, WITH POSSIBILITY OF RE-FUNDING. STAFF GRADE 6**

• **Manager, CRA Computer Laboratories, Business Administration, Office of the Dean, University Park Campus** - Responsible to the associate dean for the administration and coordination of the business administration computer laboratories. Requires bachelor's degree, or equivalent in computer science plus one to two

years of effective experience with operation, installation, maintenance and support of microcomputer hardware and software, as well as experience in computer laboratory management. Good oral and written communication and interpersonal skills are required, including the ability to effectively communicate technical information to a variety of audiences. **THIS IS A FIXED-TERM POSITION WITH FUNDING THROUGH JUNE 30, 1991, ASSURED. STAFF GRADE 6**

• **Producer/Director - Instructional Media Designer, CES, University Division of Media and Learning Resources, University Park Campus** - Responsible to the assistant director for design and production of the design, planning and coordination of all phases of production for assigned projects. Requires bachelor's degree, or equivalent, in television/film production, communications, instructional design, or closely related field, plus one to two years of effective experience in media production. Excellent writing skills and the ability to work closely with faculty and content specialists in a team environment are essential. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1990, WITH GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 6**

• **Cinematographer/Videographer, CES, University Division of Media and Learning Resources, University Park Campus** - Responsible to the supervisor, cinematography/videography, for exercising aesthetic judgment and creative quality control in providing film, video, still photography, lighting and editing services for assigned productions. Requires bachelor's degree, or equivalent, in broadcasting, journalism, film or video production and one to two years effective experience. Must have good aesthetic judgment, exhibit creativity in the execution of daily production activities, have a good background in

field production techniques with excellent composition, lighting and editing skills, and be capable of working under direction as well as independently. **STAFF GRADE 5**

• **Scientific Applications Programmer, Science, Astronomy, University Park Campus** - Design, code and debug programs related to the analysis of X-ray astronomical data collected by experiments aboard three satellites and to the analysis of image processing and data archiving. Requires bachelor's degree, or equivalent, with at least one year of effective experience. A working knowledge of FORTRAN and C programming languages in a UNIX environment required. A background in astronomy or physical science helpful. **THIS IS A FIXED-TERM POSITION FUNDED FOR ONE YEAR FROM DATE OF APPOINTMENT WITH RE-FUNDING CONTINGENT ON CONTINUED NASA FUNDING FOR THE RESEARCH PROGRAMS. STAFF GRADE 5**

• **Senior Technical Specialist (Economic Development), Senior Vice President for Research and Dean of the Graduate School, Penn State Harrisburg** - Responsible to the director, RTAP, the Pennsylvania Local Roads Program, for visiting municipalities to assist in identifying and solving road and bridge maintenance and management problems. Requires master's degree, or equivalent, in civil or transportation engineering, plus over seven years of effective experience, particularly in reconstruction analysis, demonstration of highway/traffic engineering and safety programs and computer software. Professional engineer's license desired. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH DEC. 31, 1990, WITH CONTINUED FUNDING EXPECTED. STAFF GRADE 9**

Poultry Science department head sought

The College of Agriculture has begun an internal search for the head of the Department of Poultry Science.

Responsibilities include leadership and administration of programs in resident education, research and extension. Effective supervision and coordination of departmental activities and liaison within the University and with agricultural producers and industry groups is required.

Qualifications include a Ph.D.; professional experience in poultry science or a closely related discipline, and demonstrated ability for effective leadership and communication.

Interested faculty should send a letter of application and resume to Lamarline F. Hood, Dean, College of Agriculture, 201 Agricultural Administration Building, University Park, by May 28.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Information submitted for publication in *Intercom* is due by noon on the Thursday before publication.

More than 7,130 will receive degrees at ceremonies

More than 7,130 students will receive degrees at the 1990 spring commencement exercises at the University's campuses.

According to estimates, the total includes 5,600 baccalaureate degrees, 639 associate degrees and 892 advanced degrees. Of the advanced degrees, 638 are master's degrees, 174 are doctoral degrees and 80 are medical degrees from The Milton S. Eshelman Medical Center.

At University Park, about 4,987 students will receive baccalaureate degrees, 34 will receive associate degrees, 570 will receive master's degrees and 171 will receive doctoral degrees.

At University Park, each of the colleges and the Graduate School will conduct individual ceremonies May 12 and 13. The speakers will include distinguished professionals and business, academic and government leaders.

— **Blannie Evans Bowen**, the C. Lee Rumberger and Family Professor of Agriculture at Penn State, for the College of Agriculture, May 12.

Dr. Bowen is best known for his work on computerized teaching and testing in agricultural education and is an advocate of computer literacy among students.

— **Bassam Shakhshiri**, assistant director for science and engineering education,

National Science Foundation, for the College of Science, May 12.

Dr. Shakhshiri, who has been with the NSF since 1984, is responsible for the design and administration of programs to improve all levels of education in mathematics, engineering and the sciences.

— **Victor G. Beghini**, president of Marathon Oil Co., for the College of Earth and Mineral Sciences, May 12.

A 1956 Penn State graduate in petroleum engineering, he serves on the USX Corp. corporate policy committee and the board of directors of Texas Oil and Gas Corp. Mr. Beghini has been a member of the board of directors of Marathon Oil Co. since 1978 and on the board of Marathon Petroleum Co. from 1982-85.

— **John Piemeier**, Broadway playwright, for the College of Arts and Architecture, May 12.

Mr. Piemeier, a Penn State graduate, will read sections of his one-person play, "Courage." The play traces the life story of Scottish writer J.M. Barrie, author of "Peter Pan."

— **William Lee Weiss**, chairman and chief executive officer of Ameritech, for the College of Engineering, May 12.

Mr. Weiss, a 1951 graduate of Penn State, has served as a board director for many groups including Abbott Laboratories, Continental Illinois Corp., the Quaker Oats Co. and as a trustee of the Museum of Science and Industry, Northwestern University and the Orchestra Association of the Chicago Symphony Orchestra.

— **Iris R. Shannon**, past president of the American Public Health Association, for the College of Health and Human Development, May 12.

Dr. Shannon, a registered nurse and doctor of public policy analysis, is a consultant on nursing and health for government and private agencies at the national, state and local levels. She is an associate professor and past chair of the Department of Community Health Nursing at Rush University, Chicago.

— **Richard L. Leshner**, president of the U.S. Chamber of Commerce, for the

College of Business Administration, May 12.

A well known writer and radio and television commentator, Dr. Leshner appears on "It's Your Business," a national weekly public affairs television program, and writes a syndicated column, "Voice of Business," carried by 670 newspapers nationwide.

— **President Jordan** for the Graduate School, May 12.

As the 14th president of Penn State, Dr. Jordan has advanced the University to a position among the nation's premier public universities.

— **Mark Singel**, lieutenant governor of Pennsylvania, for the College of Education, May 13.

Mr. Singel was sworn in as Pennsylvania's 27th lieutenant governor in 1987. He has served as chair of the Pennsylvania Energy Office, the Pennsylvania Emergency Management Council, the State Emergency Response Commission and the Pennsylvania Heritage Affairs Commission.

— **Chief Judge Julian A. Cook Jr.**, of the U.S. District Court in Michigan, for the College of the Liberal Arts, May 13.

Judge Cook served as U.S. district judge, Eastern District of Michigan, from 1978-89.

(Continued on page 3)

First phase is underway

Research park being developed

Direct benefits to faculty are a critical ingredient for the success of a research park at major universities such as Penn State.

Approved by the Board of Trustees last fall, the first phase of the research park is under way, and University administrators are continuing to discuss development plans with faculty and prospective tenants to find

just the right mix.

"The potential benefits to the faculty and the University are tremendous," Jack Yost, associate vice president for research and technology transfer, says. "However, we must develop the park on the basis of University strengths and select tenants on

Convocation heralds success of The Campaign for Penn State

About 700 persons gathered in Schwab Auditorium April 28 to participate in the first large-scale academic convocation the University has held in 35 years. The event heralded the success of the six-year Campaign for Penn State, now nearing conclusion after having raised \$343 million in private support since July 1, 1984.

The convocation began with a procession from Old Main to the auditorium that included faculty who held endowed positions, Evan Pugh professors and the newly appointed Distinguished Professors. A number of Campaign donors who established faculty endowments also participated.

"The University has moved forward dramatically, both in substance and in stature, thanks to your good work," President Jordan told the gathering. "Penn

State is truly a flagship university for the people of Pennsylvania and for all of public higher education."

Executive Vice President and Provost William C. Richardson noted that faculty endowments created by Campaign gifts had been especially important in strengthening the University's stature. These endowments have increased from 19 to more than 120 since the Campaign began.

"These positions enable us not only to attract world-class talent, but to retain it to a degree that may not have been equal elsewhere," Dr. Richardson said. "In the six years I've been here, we've probably lost fewer than five faculty in dozens of attempts to lure them elsewhere."

An academic convocation with an outdoor procession was last held in 1955.

See related photo on page 3.

Focus on Diversity

Applied Research Laboratory names first minority fellow

The Applied Research Laboratory has named Leslie Johnson, a graduate student at the University of Pennsylvania, as its first fellow for the National Consortium for Graduate Degrees for Minorities in Engineering Inc.

GEM, a nonprofit organization, is a joint partnership of 68 industrial government research laboratories and 60 engineering graduate schools, formed in 1976 to assist ethnic minority students in obtaining practical engineering experience through summer work opportunities, while working toward their master's degree.

ARL joined the program in November 1989 as an employer-sponsor to assist minority graduate students in engineering.

Mr. Johnson, a mechanical engineering major at Penn., is specializing in the area of robotic manipulators by developing a mathematical model of a mechanical arm for grasping planar objects.

On a recent visit to University Park, Mr. Johnson visited ARL and the College of

Engineering, and met with ARL Director L. Raymond Hettche, Richard Stern, associate director for research, and several department heads. He toured the Laboratory and learned of such projects as LARS (The Laser Articulating Robotic System), a robotic system that uses a laser

beam to weld parts.

"I enjoyed my visit to Penn State," he said. "I visited the computer facilities and was very impressed with the academic environment."

He will return to Penn State this month to begin summer work in ARL's

Manufacturing Science Department as part of his GEM fellowship.

Mr. Johnson, who received his bachelor of science degree in mechanical engineering from Drexel University, says he plans to pursue his doctorate in the area of acoustics.

ARL co-hosts Black Engineer of Year luncheon

The Applied Research Laboratory recently co-hosted the 1990 Black Engineer of the Year Awards Conference's annual Dean's Luncheon, in an effort to honor and recruit black/African-American scientists.

As master of ceremonies, Grace Hampton, vice provost, gave the welcoming address at the luncheon, which was hosted in conjunction with the University of Texas' ARL and the University of Washington's Applied Physics Laboratory. The conference and luncheon

were held at the Baltimore Convention Center.

Approximately 70 deans and students from traditionally black colleges attended the luncheon as L. Raymond Hettche, director of ARL, gave an overview of the University's laboratory.

According to Dr. Hampton, the purpose of the luncheon was to introduce the three laboratories, highlighting educational and employment opportunities for students, as well as summer employment and research

opportunities for faculty of those laboratories.

The purpose of the conference is to recognize the contributions of black/African-Americans in science, engineering and technology, and also to allow the opportunity for students, professionals, and industry and government representatives to gather to strengthen the nationwide engineering community.

Fayette hosts 'Women's Day on Campus'

The Penn State Fayette Campus will host its 9th Annual Women's Day on Campus Wednesday, May 16, beginning at 8:15 a.m. Women's Day is an annual event that addresses concerns and issues of women.

The program will begin with registration and Agency Fair, at which local agency representatives will share information about their services and programs.

The keynote speaker for the general sessions will be Jacqueline A. Smith, the first deputy executive director for the Pennsylvania Commission for Women appointed by Gov. Robert P. Casey. She serves as an advocate for women's issues, monitors legislation affecting women and is instrumental in developing and implementing policies and programs which further equal opportunity for the women of Pennsylvania.

The luncheon speaker will be Wayne Tidale, whose speech is titled "Life...We Might as Well Enjoy It."

Cleavon Little stars on WPSX-TV show

Tony and Drama Desk Award-winning actor Cleavon Little will recreate his acclaimed stage performance as an heroic Alabama sharecropper in the American Playhouse production of "All God's Dangers," airing at 10 p.m. Wednesday, May 9.

The drama, written by Theodore Rosengarten, Michael Hadley and Jennifer Hadley, is based on Mr. Rosengarten's 1974 National Book Award winner *All God's Dangers: The Life of Nate Shaw*. Spanning a period of eight decades, "All

For any additional details or reservations, call (412) 430-4140 or -4141 at Penn State Fayette.

God's Dangers" is the poignant, powerful and sometimes hilarious story of Nate Shaw, a fiercely independent Alabama sharecropper who rebelled against white injustice during the Depression.

Mr. Rosengarten's book was based on an oral history culled from more than 120 hours of taped interviews with former sharecropper Ned Cobb. After its 1974 publication, the book received much critical acclaim and was hailed as a rare vision of rebellion by Southern blacks against servitude to the white power structure.

Videotapes available

The eight-part PBS series *Eyes on the Prize 2*, is now available on videotape for classroom use from Audio-Visual Services. This documentary series offers a comprehensive reappraisal of the leaders and the events that brought the civil rights movement from the South to the rest of the United States from 1965 through the 1980s.

Individual episodes are: *The Time Has Come* (61057.VH), *Two Societies* (61058.VH), *Power!* (61059.VH), *The Promised Land* (61060.VH), *Ain't Gonna Shuffle No More* (61061.VH), *A Nation of Laws?* (61062.VH), *The Keys to the Kingdom* (61063.VH), and *Back to the Movement* (61064.VH).

These programs are available at no charge to University faculty and staff members. At University Park, call 865-0913 to make arrangements for a preview showing. At a Commonwealth Campus, contact the instructional services specialist for more information.

The Campaign for Penn State

\$1 million endowed faculty chair established

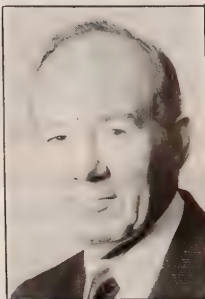

Chicago telecommunications industry executive William L. Weiss and his wife, Josephine, have established a \$1 million endowed faculty chair at the University to focus on technological advances and their impact on society.

William Weiss, a 1951 engineering graduate, is chairman and chief executive officer of Ameritech, one of seven regional holding companies formed in 1984 from the divestiture of AT&T. Josephine Berry Weiss is a 1950 liberal arts graduate.

"We are hopeful this gift will help technology and science to be an increasingly positive influence on our society's traditions, values and achievements," Mr. Weiss said. "Although broad latitude is granted in the use of this chair, it is our desire that the impact of information technologies on human life be studied as a continuing theme."

"We're grateful to Bill and Jo Weiss, who have combined their intellectual interests in making this generous gift," President Jordan said. "The distinguished AT&T Josephine Berry Weiss is a 1950 liberal arts graduate. We are hopeful this gift will help technology and science to be an increasingly positive influence on our society's traditions, values and achievements."

The Weiss Chair will be located in the College of Engineering and will support the University's interdisciplinary Science, Technology, and Society Program. The chair will be closely associated, as well, with the College of the Liberal Arts.

William L. Weiss

Previously, the Weisses had funded two faculty fellowships, each endowed with \$100,000: the William L. Weiss Endowed Fellowship in the College of Engineering and the Josephine B. Weiss Endowed Fellowship in the College of the Liberal Arts.

Both fellowships will remain intact until the Weiss Chair is fully funded. At that point, the fellowships will be folded into the chair.

After graduating from Penn State, Mr. Weiss served in the U.S. Air Force (1951-

53). After his discharge as a first lieutenant, he began his telecommunications industry career with the Bell Telephone Co. of Pennsylvania, a subsidiary of AT&T. Ultimately he became president and chairman of Illinois Bell Telephone Co. With the AT&T divestiture in 1984, he became chairman and chief executive officer of Ameritech, based in Chicago.

Under his leadership, Ameritech is competing successfully, not only in telecommunications, but also in other areas of information services as well.

Mr. Weiss is a member of the executive committee of The Campaign for Penn State. In addition, he is a 1986 Distinguished Alumnus of the University and a 1985 Outstanding Alumnus of the College of Engineering. He was awarded an honorary doctor of management degree in 1988 by Purdue University's Krannert Graduate School of Business.

He serves on the board of directors of numerous corporations and is a trustee of Northwestern University, Lyric Opera of Chicago and the Chicago Symphony Orchestra. He also is chairman of the board of trustees of the Chicago Museum of Science and Industry and a member of the Business Council and Business Roundtable.

Mrs. Weiss is a trustee of the Alder Planetarium and a vice president and board member of the Chicago Child Care Society.

AT&T Bell Labs gift

AT&T Bell Laboratories in Holmdel, N.J., has given the Meteorology Department state-of-the-art measurement systems valued at \$110,000 to use in instruction and research.

The Remtech Doppler Sodar (Sonic Detection And Ranging) system is the largest component of the gift. It measures the Doppler shift in the frequency of acoustic signals as they travel through the atmosphere and are scattered by turbulence. Scientists interpret this data to study changes in wind speeds and directions, which transport and scatter air pollutants, energy and water.

The gift also includes a modern portable field laboratory and other, smaller instruments.

"The scientists at Bell Labs recognized that Penn State has the leading meteorological remote sensing program in the country and knew that we would be able to use this equipment effectively for both student training and graduate research," Dennis Thomson, professor of meteorology, said. "Systems like this provide essential data for studies in air pollution, biometeorology, analysis of turbulence, and how microwave signals propagate through the atmosphere."

The Meteorology Department, one of the oldest and the largest in the United States, enrolls nearly 300 undergraduate and graduate students. One in four professional meteorologists in the United States is a Penn State graduate.

Schedule of commencements

Following is a schedule of commencements at the University's campuses.

Allentown: No Commencement.

Alltown: No Commencement. Convocation at 1 p.m. May 5, Community Arts Center.

Beaver: 7:30 p.m. May 11, LCB Auditorium, Joseph D'Andrea, vice-consul of Italy.

Berks: 8 p.m. May 10, Student Center Auditorium, State Sen. Michael A. O'Pake.

Delaware County: 7 p.m. May 10, Library Learning Center, Mary Ann Arly, chair, Delaware County Council.

DuBois: 2 p.m. May 11, Multi-Purpose Building, George McMurtry, associate dean for administration, College of Engineering.

Fayette: 7:30 a.m. May 12, J. Lewis Williams Building Auditorium, Eric A.

Walker, University president emeritus.

Hazleton: 7 p.m. May 11, Physical Education Building, Sen. Raphael Musto.

McKeesport: 10 a.m. May 12, First Evangelical Free Church, McKeesport, Jay Aldridge, executive director, Penn Southwest Association.

Mont Alto: 11 a.m. May 12, Campus Lawn, Judith Eaton.

New Kensington: 7 p.m. May 10, Campus Theatre, Judge Cynthia Baldwin.

Ogontz: 3:30 p.m. May 11, Physical Education Building, Anthony Fusaro, newly appointed campus executive officer.

Schuylkill: 7:30 p.m. May 10, Multi-Purpose Building, The Hon. Joseph F. McCloskey.

Shenango: 7:30 p.m. May 11, Auditorium, Thomas J. Fee.

University Park, May 11:

4:30 p.m., University Scholars Medal Ceremony, Eisenhower Auditorium.

8 p.m., ROTC Commissioning, Eisenhower Auditorium.

University Park, May 12:

9 a.m., College of Agriculture, Blannie E. Bowen, Eisenhower Auditorium.

9:30 a.m., College of Science, Bassam Shakhshiri, Recreation Building.

12:30 p.m., College of Earth and Mineral Sciences, Victor G. Beghini, Eisenhower Auditorium.

1 p.m., College of Arts and Architecture, John Plemeier, Schwab Auditorium.

1 p.m., College of Engineering, William L. Weiss, Recreation Building.

3 p.m., College of Health and Human Development, Iris R. Shannon, Eisenhower Auditorium.

4:30 p.m., College of Business

Administration, Richard L. Leshar, Recreation Building.

7:30 p.m., Graduate School, President Jordan, Eisenhower Auditorium.

University Park, May 13:

1 p.m., College of Education, Lt. Gov. Mark Singel, Eisenhower Auditorium.

1 p.m., College of the Liberal Arts, Judge Julian A. Cook Jr., Recreation Building.

3:30 p.m., School of Communications, Lawrence G. Foster, Eisenhower Auditorium.

Wilkes-Barre: 6 p.m. May 11, no speaker.

Worthington Scranton: 7 p.m. May 11, Multi-Purpose Building, Sondra Myers, cultural adviser to Gov. Casey.

York: 8 p.m. May 10, Gymnasium/Student Center Complex, Rep. William Goodling.

Research park

(Continued from page 1)

the basis of their ability to promote or enhance the strengths of our academic units."

Charles L. Hosler, senior vice president for research and dean of the Graduate School, says collaboration is the answer. "Many corporations are expanding their research and development to include information systems, policy analysis, management systems, public relations and communications that hold tremendous consulting opportunity for our faculty in a broad range of disciplines."

Research exchange programs in new and high-tech industries, consulting, sharing expensive research equipment, the possible location of think tanks, and foundation and governmental institutes can offer professional opportunities complementary to academic pursuits.

They also can provide opportunities for student internships, jobs for graduates, jobs for spouses and may increase support for academic programs.

"We need to explore thoroughly Penn State's real areas of strength. Then we'll see some meaningful linkages," Herbert Cole, professor and head of plant pathology and chairman of the University Faculty Senate Committee on Research, said.

For example, Penn State's Materials

Research Laboratory has well over 150 funded contracts and more than \$12 million in research expenditures last year. The interdisciplinary fundamental and applied research has produced a succession of new materials such as diamond coatings and composite piezoelectric ceramics used in ultra sound applications and medical imagery.

Stewart K. Kurtz, director of the lab, notes, "If we keep our attention on what we need to support faculty research and our students, a research park may have potential. After all, the Materials Research Laboratory is in itself one form of a research park, which has been successful. MRL has also been the main support for the Solid State Science Program, which is Penn State's most successful interdisciplinary graduate research program with more than 200 graduates in the last 20 years."

"Basic research in locomotion studies and human nutrition have strong industry support and could lead to potential tenants who want to work closely with our faculty," notes Michael A. Smyer, professor and associate dean for research and graduate studies in the College of Health and Human Development.

Close collaboration between the University and industry could mean cost-sharing and a reduction in the time it takes to go from applied research to the

development and marketing of a new process or product.

A recent report on "Federal Programs and Technology-based Regional Economic Development: the U.S. Experience" says conditions necessary for the successful establishment of a research park include a desirable living environment, presence of a major technological university, presence of major institutional research facilities and a skilled labor force."

The success of research parks is dependent on having both urban and industrial activity, and such parks usually take some years to reach favorable results, according to the report.

Not only does Penn State have a long track record of successful research and development partnerships with government and industry, but it also has an environment that mixes urban and rural settings.

"Information-based industries that are not geographically bound, will find a Penn State research park an attractive option," Dr. Smyer says. "The quality of life is good, the transportation is good, the cost of housing is reasonable and our schools are also good."

Phase one of the research park now in planning stages will include a research laboratory, an incubator technology center to be operated by the Centre County Industrial Development Corp., a University conference center and a conference hotel to

be financed by private investors. Morlok Development Group of Philadelphia will design and construct the facilities for this phase.

The research park will be located at the intersection of Park Avenue Extension and the Mount Nittany Expressway (U.S. Route 322), about a mile east of Beaver Stadium.

"The research park is an exciting new venture that holds potential benefits for faculty, as well as the economic development of the region," Dr. Hosler says.

Commencement

(Continued from page 1)

and as special assistant attorney general, state of Michigan, from 1968-78.

— **Lawrence G. Foster**, corporate vice president of public relations for Johnson and Johnson, for the School of Communications, May 13.

Mr. Foster managed the public relations response for the company during the Tylenol crisis in 1982 and 1986, receiving national recognition and a special Silver Anvil Award from the Public Relations Society of America. He received the Gold Anvil Award, the highest honor conferred by the Public Relations Society of America, in 1989.

Jordans honored

President and Mrs. Jordan receive congratulations for their role in The Campaign for Penn State during the Campaign Gala performance Saturday evening, April 28, in Eisenhower Auditorium at University Park. Singer Rosemary Clooney entertained the guests.

Photo: Dave Shelly.

'TODAY Show' crew visits University

Crew members from NBC's 'TODAY Show' visited University Park April 19 to tape a segment of the "Introduction to TV Meteorology" course taught by Fred Gadomski, instructor in meteorology, and Charlie Gudeman, senior producer/director, WPSX-TV. Jim Nolt, intern, is interviewed by Mike Leonard, reporter, second from left. Also pictured are Chuck Guinigan and Jack Leonard, technical crew members for Leonard Productions. Students presented their final taped weathercasts April 19, and some of their presentations will be included in Mr. Leonard's 'TODAY Show' segment tentatively scheduled for broadcast Tuesday, May 8. Photo: Scott Johnson.

Focus on the arts

The arts on Channel 3

Linda Ronstadt with Nelson Riddle and his Orchestra airs at 9 p.m. Friday, May 4, on WPSX-TV.

In 1984, Linda Ronstadt charted a new musical course when she recorded the "What's New" album, a collection of songs from the 1930s and '40s. Conducted by the renowned Nelson Riddle, the album became a best seller.

A once-in-a-lifetime gathering of percussion greats showcases the power and beauty of their instruments in "Masters of Percussion" airing at 9 p.m. Saturday, May 5.

The program brings together some of the world's greatest percussionists for a spectacular adventure in music. Featured artists include Spyro Gyra's vibraphonist and marimba player Dave Samuels, steel drum master and composer Andy Narell, African drummers Djimo Kouyate and Abas Badi and jazz drummer Ed Soph.

"Eat a Bowl of Tea," a feature film directed by the critically acclaimed Chinese-American filmmaker Wayne Wang, based on Louis Chu's descriptive 1961 novel capturing the muddled mores of New York Chinatown's post-World War II "bachelor society," will air on American Playhouse at 1 p.m. Sunday, May 6.

Museum collection

"Highlights from the Museum's Collection," an exhibition of paintings and sculpture from the permanent collection of the Palmer Museum of Art, will open Sunday, May 6, in the first floor gallery.

The exhibition includes 25 paintings and three sculptures from the Renaissance and Baroque eras through the 20th century. Many of the paintings are from the museum's collection of American art and range from the 18th century to contemporary times.

Works in "Highlights" were chosen by the museum's curator, Olga Preisner. Beginning with "Highlights," the museum will house continuous shows of its permanent collection in the first floor gallery.

The museum intends to create a gallery to house its permanent collection in its upcoming plans for expansion. Dr. Preisner said that the new galleries "will provide an excellent vehicle to conduct ongoing research on the collection."

Photo exhibit

The Outdoor Writers Association of America's (OWAA) annual photo exhibit will be at the Kern Graduate Commons Galleries at University Park during May. The display of 37 photographs from OWAA's photo contest present the world of nature, from glances of a black bear cub feasting on berries to the golden serenity of a sunset.

Black-and-white and color photos from five categories - scenic, flora, people, action and fauna - are featured in the traveling exhibit that has made many stops across the United States this past year. Nikon Inc. of Garden City, N.Y., funds the contest and exhibit.

During the first week of May, Kern is open Monday through Friday, 7:30 a.m. to 11 p.m.; Saturday, 10 a.m. to 11 p.m.; and

Sunday, noon to 11 p.m. At the close of the Spring Semester, Monday through Friday, 7:30 a.m. to 5:30 p.m., closed Saturday and Sunday.

Among this year's winners are well-known photographers Bill McRae, Judd Cooney, Ron Sponer, Dan Cox, George Harrison, Kris Thoenke and Adam Zetter, whose works have appeared in magazines such as *National Geographic*, *Field & Stream* and *Audubon*.

OWAA is an organization of nearly 2,000 professional writers, editors, lecturers, photographers, artists and radio and television broadcasters who communicate the outdoor experience to the public.

Summer art program

The HUB Craft Centre's summer program "Art Attack" is under way. There is an extensive children's program of one-day workshops, two-week series and various weekend art camps.

A special feature is an introductory fly-tying course for junior and senior high students. Also available are four days of "hodge podge" for the younger set - 5-, 6- and 7-year olds - a new art project each morning.

For adults, the Centre again offers the favorite - leaded stained glass, watercolor, weaving and wheelthrown pottery. Special offerings include Amish quilting, which starts June 11, and a one-day workshop on hand tinting photographs.

Class sizes are limited. Fees include all supplies, except where noted. Program flyers are available on the first floor of the Hetzel Union Building, and inquiries should be directed to 312 HUB or 863-0611.

Center's new season

The Center for the Performing Arts has announced plans for its 1990-91 season.

The season opens in September and runs

through April, offering a wide variety of entertainment with a lineup of 30 productions. The events are grouped into seven subscription categories, ranging from contemporary jazz to classical ballet. Season subscriptions are now available.

New to the Center's lineup is a brand-new Sunday afternoon series "Wide Eyed Wonder."

"The series is designed to introduce children to the world of the arts," Ken Foster, center director, said. "Each show is selected to appeal to the entire family, and affordable ticket prices make it easy to share the experience of live entertainment."

The Center will present two world premieres this season, both commissioned by the Center for the Performing Arts. On Oct. 5, clarinet virtuoso Richard Stoltzman will perform a piece created by a Pennsylvania composer. He will be accompanied during the concert by harpist Nancy Allen. On April 19, the Feld Ballets of New York will showcase their precision repertoire.

To commemorate the 200th anniversary of Mozart's death, the Center is dedicating the entire "Intimate Excursions" series to his music. One performance of note is The Mozartean Players classical ensemble that will perform on Jan. 26. This group plays original 18th-century instruments to recreate the music of the period with an added dimension of authenticity.

Other highlights of the 1990-91 season include:

The Pittsburgh Symphony Orchestra, led by the highly acclaimed Maestro Lorin Maazel, continues its 91-year tradition of musical excellence with a performance Oct. 15. Patron tickets will be available for this event.

On April 26, The Philadelphia Orchestra, conducted by Yuri Temirkanov, will perform as part of the Center's "Masterworks" series. The Philadelphia Orchestra is one of America's most

prominent and widely traveled orchestras.

In the jazz series called "Cool Heat," celebrated trumpet player Wynton Marsalis will perform on Nov. 2, displaying the excellence that has won him eight Grammy awards since 1983.

As part of the Center's "Bright Lights" series, two top-notch Broadway musicals will be presented.

The first, "Sarafina!" on Nov. 27, captures the struggle of South Africa's oppressed youth in this uplifting energetic story about the fight for freedom. On tour for the first time, this show contains a number of members from the original Broadway cast.

On April 6, the enchanting Stephen Sondheim musical "Into the Woods" will be presented. Winner of three 1988 Tony awards, this adult fairy tale brings together some of the best loved fantasy figures for a look at what happens after "happily-ever-after."

The Center will continue to offer its Artistic Viewpoints Lecture Series with plans for informative sessions to be scheduled throughout the season.

For a brochure or ticket information, contact the Eisenhower Ticket Center at 863-0255, open Monday through Saturday, 8:30 a.m. to 4:30 p.m.

Educational television

The University is joining Britain's Open University and Encyclopaedia Britannica Educational Corp. to produce two educational television series and telecourses for international use.

Robert Eckhardt, associate professor of anthropology, and William J. Ray, professor of psychology, are the academic leaders of Penn State's work.

The Division of Media and Learning Resources (WPSX-TV) recently hosted planning meetings for the two series, "Behavior and the Neurosciences," drawing on information from biophysics,

biochemistry, biology, psychology and ethology, and "Evolution," which looks at the latest findings in the rapidly changing field of evolutionary studies.

Projected for completion in early 1992, the projects link Penn State faculty and staff with the Encyclopaedia Britannica Educational Corporation (EBEC) and the British Open University.

The Center for Instructional Design of WPSX-TV will link with the Department of Independent Learning in the Division to provide media support in the project.

Penn State also will join with EBEC in the distribution on this side of the Atlantic, managing the marketing and promotion of the videos and course materials to colleges and universities, through the Division's Audio-Visual Services Department.

Dr. Ray says burgeoning research has spawned divergent approaches and theories in the neurosciences in several disciplines. The "Behavior and the Neurosciences" series brings these various approaches together.

Dr. Eckhardt says the innovative aspect of the "Evolution" series is the decision to incorporate the advances brought about by evolutionary biology, which is the application of genetic theory to the study of biological change over long periods of time.

Bookshelf

Luis F. Gonzalez-Cruz, professor of Spanish at Penn State New Kensington Campus, is the author of *Frontera del Mundo. El Universo Cultural de Eugenio d'Ors*, published in 1989 by Editorial Oregones, Madrid.

The book was selected as a finalist in the essay category for the Golden Letters Awards literary competition in 1987.

Dr. Gonzalez-Cruz is the first literary

scholar to analyze the narrative techniques and explore the most important fictional works of Catalan writer Eugenio d'Ors. In his minute examination of D'Ors' novels, Dr. Gonzalez-Cruz makes the case for placing D'Ors' works alongside other narrative masterpieces of the 20th century.

One critic writes that between Dr. Gonzalez-Cruz and D'Ors a "very special kind of empathy seems to have been established...an affinity that goes beyond time and space barriers and which guides (Gonzalez-Cruz) toward the creation of his own obra, bien hecha (a work well done - an

expression which D'Ors used quite frequently)."

Martha J. Kollin, associate professor of English, has completed the third edition of *Understanding English Grammar*, a leading textbook for courses in advanced grammar published by MacMillan.

The book is designed to help students understand the rules underlying English grammar emphasizing whole sentence patterns and classifying the parts of speech into categories easily understood in a student's natural use of language.

The third edition features a new chapter, "Rhetorical Grammar," on applying grammar effectively in the writing process. Other new material includes using verb forms, punctuating adverbials, structuring phrases and an analysis of problem infinitive phrases.

The first edition was published in 1982 and the second in 1986. Professor Kollin also is the author of *Language and Composition: A Handbook of Rhetoric and Language and Composition: A Workbook*, published by Macmillan in 1984.

Report on the Staff Position Evaluation and Compensation Program

The Staff Position Evaluation and Compensation Program (SPEC) is being developed to create a new program of position evaluation and compensation for employee categories currently called staff exempt, staff nonexempt and clerical. The staff and clerical categories are being combined into a single category called staff.

During the first three months of 1990, meetings were held at every Penn State campus to encourage open dialogue about the SPEC Program. These meetings provided staff with the opportunity to learn more about the program's goals, the process and activities that make up the program, and its expected results. More important, staff members were invited to help shape its outcome through their comments on the program and its objectives.

Approximately 2,000 staff members attended the sessions and more than 700 completed "mini-surveys" designed to provide the SPEC Project Team with a written record of ideas, suggestions and concerns. The SPEC Project Team includes staff in the Office of Human Resources, members of the Classification/Evaluation System Review Committee and consultants from Mercer Inc.

"We were impressed with the high level of interest and thoughtfulness of the comments we received," Rachel Miller, manager, Salary Administration and Classification Division, said. "Not only did the members of the compensation staff read each one, the Mercer consultants assisting us with the program did so, too."

Bill Walsh, director of salary administration and benefits, adds, "The information the surveys provide will be invaluable in ensuring that the SPEC Program meets the needs of the University community now and in the future."

Staff comments reflected a wide range of ideas and concerns about the new SPEC Program project. Many remarks focused on the basics of program design, including subjects like pay grades and ranges. Others dealt with specific elements of compensation, such as the factors that will determine job value and the relationship of the University's pay structure to that of other employers where there are campuses. Many staff members questioned how the new program would be administered over the long term or how the University would communicate with staff regarding the changes.

The move to a single system for both staff and clerical positions was of great interest as well. Many staff members had questions about the impact the single staff category would have on other human resources programs such as benefits and paid time off. The effect of the single category designation on career paths and professional growth also attracted attention.

While the staff comments at meetings and in surveys touched on a broad range of University issues, Billie Willits, assistant vice president of human resources, cautions, "We must guard against expecting too much from this project. Because the program focuses on the University's jobs, their value, and how pay is determined, it's obviously an important cornerstone in the human resources structure. But it is not intended to address every human resources issue we face at our University. There are activities taking place and initiatives being developed to focus on other enhancements in the human resources programs."

In general, staff comments reflected strong endorsement of the SPEC Program's stated goals of creating a compensation structure that will be fair, equitable, and free of bias; reward excellence and provide for greater career growth opportunities; and be realistic and competitive in the marketplace.

"The high level of interest in the SPEC Program and its goals says something very positive about Penn State staff," Dr. Willits observed. "As a group, they are committed to the University and eager to help make it a better place to work. They are open to change when it means progress and enthusiastic about playing an active role in Penn State's continuing growth."

Issues

Through the open forums and written staff comments, the Project Team learned that Penn State staff members share the same concerns that originally led University management to initiate the SPEC project. Staff comments reflected a wide range of significant concerns, but ultimately focused on questions about the following seven issues:

Responsiveness to the marketplace

How do Penn State salaries compare to those being paid for similar work in other universities or academic settings,

Bill Walsh

by the business community, or in health care institutions? Are pay practices effective in recruiting and retaining skilled technical and professional staff for jobs in non-urban locations or clerical staff in cities? How will Penn State appropriately balance cost-of-living issues across a wide geographical area? What is the competitive position in various employment markets? How will the University's financial realities affect its ability to pay competitively?

The basis of reward: Merit or longevity

How should the new system value the nature of staff members' work in the University? How can the salary structure reward employees whose performance is consistently above average or excellent? What role does the volume of work play? Should Penn State reward employees for long service to the University? If there is a desire to encourage both experience at the University and high performance, how can this pay system be structured to do so effectively?

Pay structure design

What can be done to relieve compression in the existing pay structure? Should there be more grades or wider ranges? How much overlapping of pay ranges is appropriate? Are the responsibilities of staff members in a particular grade consistent across the University? How much variation is acceptable? Will one pay structure meet the needs of the entire University?

Rachel Miller

Communications

How will staff members learn about the activities of the SPEC project? How often will updates be issued? Will the new program be easier to understand and operate more openly? How much information will staff have about pay grades and ranges, job descriptions, and other elements of the new pay structure? Are supervisors going to be trained to use the new program effectively?

Elements of job value

What aspects of jobs does the University really value? Which of the factors now in use should be retained? What new factors might be added? How will factors be weighted? Is there a role for staff and management in evaluating jobs or will this be strictly a human resources function?

Program administration

Once the new program is in place, how will it be used? Will it be consistent across the University? Will there be periodic updates of job descriptions, grades, and salary ranges? What criteria will be used to make decisions about grade or salary increases? Are jobs to be reviewed even if budget constraints preclude the raises? How will the new program be affected by budgets? Will the SPEC project provide guidance or assistance in developing new job descriptions?

Report on the Staff Position Evaluation

Continued from previous page

Impact of the single staff category

Will the combination of staff and clerical into one category benefit everyone? What effect will the single staff group designation have on benefits, vacations, hours and overtime, and other human resources policies and programs? Is the exempt/nonexempt designation going away? How will the new classification method enhance career options and professional growth? Will there be improvement in the job posting and selection process?

The Project Team plans to have answers developed for these questions between the present time and the implementation of SPEC in mid-1991. It is a complex undertaking, one which will require effort, input, cooperation and participation of Penn State staff. As issues are resolved, the SPEC Project Team will report the findings in future issues of *Intercom*.

Response

Here are some specific comments gathered from staff members' surveys. The SPEC Project Team attempted to respond to these comments. In future *Intercom* articles, many of the issues raised by staff will be addressed in greater detail. Staff members' questions and opinions are in boldface.

Responsiveness to the marketplace

To retain current employees and attract talented individuals the University clearly must be competitive in the marketplace. But because Penn State is so diverse, both functionally and geographically, identifying and measuring labor markets is a significant challenge of this project.

"It is open difficult to lure qualified professionals to rural areas and higher competitive salaries are often essential. It is generally easier to staff clerical positions in rural areas versus metropolitan."

How the University will deal with issues like the scarcity of employees with certain skills in some locales and the costs of living in different areas of the Commonwealth has yet to be decided. As part of the SPEC Program, the Project Team is gathering data on living costs, typical salaries for a variety of positions, and pay practices among employers with whom Penn State competes for staff members. This information will help shape final compensation decisions.

"The University will continue to lose top-notch individuals in areas such as computers if we continue to set aside salaries in accordance with other universities and not with industry nationwide."

Mercer Inc. will perform an audit of the organizations with which we compete for employees for all types of positions. The Project Team needs to assess whether we recruit locally, regional or nationally to fill positions. While past practice has been to limit salary comparisons to other universities for many staff positions, that salary philosophy will undergo a comprehensive review during the project.

The basis of reward: Merit or longevity

Currently the University uses both performance and seniority as the basis on which pay decisions are made. Each technique has its costs and benefits. A decision to continue current practice or to consolidate under one approach has not been made. Because this issue has a major impact on individual pay decisions and is at the heart of the relationship between the University and its employees, this decision is an important one.

"Merit pay would be difficult to distribute and keep everyone happy. Actually, I thought the step increase system was merit pay."

Like motherhood and apple pie, the idea of merit pay appeals to a lot of people. Not everyone shares a common vision of what merit pay actually is, however. A future *Intercom* article will be devoted to explaining merit pay as compensation professionals use the term. Briefly stated, merit pay is defined as an adjustment to individual salary based on quality of work performance.

In a later stage of the SPEC Program, the Project Team and Penn State management will need to consider whether or not merit pay makes sense for the new staff category. Additional staff input, through focus groups, will be required before decisions would be made. If a type of merit pay program is implemented, all staff members will be fully informed.

"Why bother to excel and do a fantastic job when one will receive a raise anyway?"

In order to be effective, merit pay programs must first identify the performance which is truly meritorious. In this regard, the University's approach to setting performance expectations and measuring performance must be objective and comprehensive. If Penn State decides to implement a

merit pay approach for all staff, a new performance appraisal system must be developed which helps to ensure a "fantastic" job really is fantastic.

"The longer you are here, the less raises you get."

This comment addresses the very real problem of compression within pay grades and ranges. The current system was designed at a time when many employees intended to work only a few years. Today's career-minded professional (of either sex) is likely to remain in the job market for 45 or more years. Clearly, the new program must have sufficient flexibility to allow the University to continue to provide pay increases for valued long-term employees. It is too early to tell how this will be accomplished, a number of options exist and will be considered and addressed.

"PSU penalizes their long-term employees."

Establishing and maintaining a rewarding and productive long-term relationship with its employees is important to the University. However, there must be a limit to the value of any one job. In this regard, the broader objective of effective staff development and professional growth comes into play. The single staff category and uniform basis for valuing jobs will reinforce the University's commitment to promoting qualified individuals.

Pay structure design

Bringing together separate and distinct pay structures into one comprehensive design is central to the SPEC Program's objectives. This effort is made more challenging by the complexity of the University's business, organizational, and geographical considerations.

"(In our current system) two employees have the same job title even though they do totally different types of work and have totally different types of responsibilities, as well as qualifications."

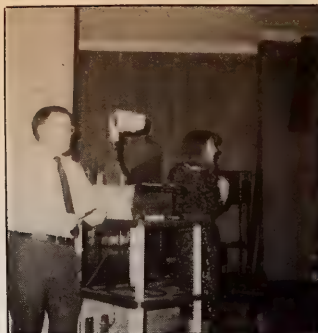

For too many years the University has struggled to cope with an outmoded pay system. Over time, our real jobs have moved further and further away from their descriptions, as this staff member notes. The new program will provide an opportunity to look at every job as it actually is performed in the University today and base job descriptions and other elements of the pay program on that information.

"Make all grades equitable University-wide."

Ensuring that job grades are equitable across the University organization is a primary objective of the SPEC Program. To accomplish this, however, the Project Team needs to know what staff members actually do and must have a method for properly measuring the content of jobs. The primary resource of the facts about what staff members really do in their jobs is the Position Information Questionnaire (the PIQ). That's why it is so important that staff members promptly and accurately complete the PIQ. There will be more information about the PIQ from Personnel Representatives and in future *Intercom* articles.

Bill Walsh solicits ideas and relays information about SPEC Program goals to a gathering of staff members at University Park Campus. Twenty-nine open meetings were held at University Park and other University locations during 1990.

Bill Walsh and Rachel Miller address a gathering of University staff members at one of the open meetings held to inform staff members about the SPEC Program.

"You say you are measuring the job, not the person in the job. How can you create a system that rewards excellence if you don't consider the individual's performance?"

This is an important question. In answering it, we must make the distinction between position evaluation and performance appraisal. Position evaluation measures and places value on a job regardless of who holds the job, and performance evaluation measures the individual's performance of that job.

Position evaluation is a major part of the SPEC Program along with a compensation program. The performance evaluation program will be revised as an offshoot of the SPEC Program to tie into the type of compensation program designed.

The SPEC Program is designed to create a framework in which all jobs can be fairly compared and equitable grades and salary ranges established. To do this properly, the Project Team must look objectively at the duties, responsibilities, and impact of each job. If we allow high (or low) opinion of the performance of the current job holder to influence the evaluation of the position, the system will not be equitable.

Communications

If the SPEC Program is to be an integral part of the relationship between the University and its employees and be the management tool that it is meant to be, it must be understood by everyone in the Penn State community. The open forum meetings and this article signify the University's commitment to enhance communication and participation.

"There is a need to tell people about factors and how the evaluation system works. As an educational institution, we do not do a good job of educating our own employees."

"Employees would like to see an open system regarding grading criteria as well as open information on salary levels."

"The high degree of secrecy associated with what is valued in a position description should be eliminated. Employees should know what elements of the job are evaluated and how they are valued, including the weighting associated with each major content of the job."

"I thought there was a magic ball which HR consulted to grade a position."

It was never intended to make salary administration seem mysterious; however, after many years of use, the current system has become difficult to understand. A primary objective of the SPEC project is to create a new system which is clear, logical, and more easily understood.

The University is committed to informing the University community about the factors used to evaluate jobs, the structure of the pay program and other related information. A policy of open communication has already begun through the open meetings and *Intercom* articles. The communications program will continue to inform staff about issues, results, and actions taken as part of the study.

"It would be helpful for first-line supervisors to have an educational orientation program explaining the new procedures and criteria that would be used in upgrading positions and establishing new ones."

The best salary program in the world will not work if the people it is meant to serve are not fully prepared to

Continued on next page

tion and Compensation Program

Staff members participate in an open meeting on the SPEC Program held at Kern Auditorium at University Park Campus.

Members of the Classification Evaluation System Review Committee John Luchini, financial officer/director of business services, Penn State DuBois Campus, and Joan Lampman, coordinator of personnel/administrative services, College of Engineering, participate in an open meeting with University staff members.

use it well. The orientation and training of first-line supervisors is already built into the plans for the introduction and implementation of the new program.

"The status of the SPEC Program should be reported regularly in the *Intercom*. Every other week isn't too often -- and in type large enough to read."

Regular project updates also are part of the plans for the SPEC Program in the months ahead. In addition to project reports, there will be *Intercom* articles on such topics as the differences between job valuation and performance evaluation, the role of technology in compensation management, merit pay, and the further implications of the single staff category. And, as readers may note, the type in this article is large.

Elements of job value

While responding to external marketplace pressures is an obvious challenge for any compensation program, maintaining an appropriate relationship among jobs within the University is a more subtle but equally important consideration. The job evaluation process that will be an integral part of the SPEC Program management. The SPEC team is currently reviewing a broad number of factors which will be considered in the design of a position evaluation plan for the wide variety of jobs in the new staff category.

"Facilitate a technically oriented career path with grades comparable to first level management so that technicians are not pressured to switch to the management track for economic reasons."

When the current pay program was designed more than 25 years ago, many of today's technologically sophisticated jobs simply did not exist. All attempts were made to adequately fit highly technical positions into the old system, but the problem this writer talks about persists. The new program will be designed to better recognize the value of these jobs to the University and to make it possible for skilled technical people to remain at the work they love.

"Volume does not seem to come into play: some of the work areas get paid the same amount of money no matter who has more work."

"Too much emphasis is put on supervision."

"Not enough credit is given for supervising other employees."

"I can't understand why the system wants to put so much emphasis on degrees."

"There's too much emphasis on degrees. Work experience should count for more."

What does the University value in jobs? Qualifications like special degrees or work experience? How much should supervision count? What about initiative? Stress? Financial responsibility? As these comments show, staff opinion is strong, but often contradictory.

The way the University ultimately answers this question will help to shape the position evaluation portion of the SPEC Program. The Project Team, working with Mercer consultants, will identify the elements that give jobs value in the Penn State environment. No matter how much information is gathered in advance, one thing is sure: not everyone will agree on the values selected. In an organization as large and diverse as the University, some differences of opinion must be expected.

Program administration

Since no program is better than its application, the administration of the SPEC Program requires input and thought. In an effort to maximize objectivity and efficiency, the Mercer consultants will provide state-of-the-art computer technology to assist in the evaluation of jobs and in the management of compensation information. The participation of University staff and managers in the job evaluation process also will increase.

"When the committee is finished with this project of job evaluations, will the University fulfill its part by implementing the changes in grades, pay, benefits? I really wonder."

The University is committed to acting on the findings of this study. It values all of the staff members and intends to pay appropriate wages for the work they do to ensure the organization's continuing success. Penn State must be able to continue to attract and keep first-rate professionals if it is to remain a first-rate University. The new salary program is essential to the sound, business-like management of the institution. The SPEC project will provide the University with a means for meeting its human and operational objectives.

"Through the years it has become harder and harder to write good job descriptions."

As our previous job evaluation program has aged, its job description models have become less relevant to the actual work staff members perform today. And, because of its complexity, employees and supervisors find it increasingly difficult to work within its structure.

The new system will have several important features which will help to relieve this problem. First, it will provide job description models that are appropriate to contemporary positions and additional instructions to help supervisors write accurate, consistent job descriptions.

Second, the new system will make use of technology to simplify the process of creating job descriptions and grading positions. Once the new computer-based system is in place, the process will be more manageable from everyone's point of view.

"Many employees are told 'there is no money in the budget for increases; therefore your job cannot be upgraded or even looked at.'"

The new system will improve many aspects of salary administration, but it cannot create funds where there are none. The new structure will, however, provide the University with an integrated, comprehensive look at salaries across the organization. If the Project Team finds that there are pockets of salary inequity within the structure, they will be identified. It will not be known for some time how many staff members will be affected. Whatever the outcome, no one's salary will be reduced because of the results of the project. At implementation, each staff member will be given clear information to learn exactly how the new compensation program will affect him or her.

"How will jobs at the Commonwealth Campuses be compared to University Park jobs? We do a lot more with fewer resources."

"Generalists should be considered equal to specialists under the new system. We often do the same work several specialists do, especially in the branch campuses."

"Work in the Hershey Medical Center is highly specialized. Clerical positions in our setting are different than in other locations. We should be compared to other hospitals, not to Universities."

From the beginning of the project, the SPEC team understood that there are differences between campuses away from University Park and main campus. In addition, the team is sensitive to special conditions that influence jobs at Hershey Medical Center.

Because comparing positions in so many varying environments is complex, consultants were selected to assist in the project who had experience with multi-campus universities, hospitals, and the business world. The methods planned to value jobs is both complete and flexible enough to correctly evaluate position similarities and differences in all Penn State workplaces.

Impact of the single staff category

The decision to integrate the clerical, staff nonexempt and exempt categories into a single and unified staff designation is a major philosophical decision on the part of the University. The full effects of this decision are currently under study. The intention, however, is to ensure that all staff are treated fairly and equitably by human resources programs and initiatives.

"In uniting the clerical and staff groups into one, does that mean benefits, vacation, and other programs will change?"

It is likely that some changes will be made regarding paid time off and other matters. Such decisions will require input from many groups within the University. The study of these issues will progress as the SPEC Program progresses. All staff will be fully informed when decisions are made.

"What will happen to the exempt and nonexempt classifications? Will they be eliminated?"

The terms "exempt" and "nonexempt" are legal terms dealing with federal legislation on minimum wage and overtime requirements. Penn State will continue to recognize positions as exempt or nonexempt in order to adhere to the law.

"Please explain how the SPEC Program will improve the status of women at the University."

The program will create a compensation system in which pay decisions are made on the basis of objective job content and competitive labor market information, not the sex, age, ethnic group, or race of the job holder. This will benefit all staff members of Penn State regardless of sex.

It would be nice to say that the SPEC Program will redress all the wrongs women and others may have suffered due to sexism, racism, age discrimination, or other social problems. This is simply not true, nor is it possible.

The Office of Human Resources report on the Staff Position Evaluation and Compensation Program is published by the Office of Public Information as part of *Intercom*, 312 Old Main, 865-7517.

It has been compiled by the staff of the Office of Human Resources and Mercer Inc. and designed by William E. Campbell and Deborah A. Benedetti. Photographs were provided by the Office of Human Resources.

SPEC: What it is, what it is not

Without question, the SPEC Program will have a significant impact on the Penn State community. It is important for all staff members to understand the goals, process and results of the program. It is equally important that staff members understand what the SPEC Program will not affect.

Briefly stated, the SPEC Program is a human resources initiative which is intended to:

- Identify and describe the University's job categories;
- Determine the internal value of each job category as well as its marketplace worth and provide a dollar range for each job category; and,
- Provide administrative policies and procedures appropriate for making fair and equitable compensation decisions in compliance with all applicable laws and regulations.

In support of these functional objectives, Dr. Jordan has identified some key goals for the SPEC Program. In a memorandum dated January 10, 1990 to University faculty and staff, he stated that the program must:

- Be fair, equitable, and free of bias;
- Provide a framework for career growth and reward excellence;
- Reflect the world of work as it exists today and recognize the essential value of jobs; and
- Ensure that the University will be able to attract and retain first-rate individuals in the job markets and fields where it competes for employees.

To accomplish these goals, the SPEC team will follow a proven procedure which was described to staff at the recent open meetings and is outlined elsewhere in this issue. Throughout the process, the SPEC team will draw on objective information about the duties and responsibilities of positions, about the competitive marketplace, and about University financial realities. The ultimate impact the project can have on the Penn State environment will be shaped and defined by this objective process.

Some of the staff comments and written remarks indicate that some staff have expectations for the program that exceed its scope. So that these expectations do not lead to disappointment with the project's results, it is important to look at what the SPEC Program will not do.

The project will not lead to salary increases for anybody; nor will there be salary decreases for anybody. Individual salary increases may occur, but these will be the exception; no one will have his or her pay reduced as a result of the study.

SPEC will not, in itself, change the status of women at the University. However, because position evaluation measures the work and not the worker, it will help to safeguard against pay discrimination based on race, age, sex, or natural origin.

The program will not - and can not - create additional funds for salaries. The amount available for University payroll is outside the scope of this project, although some changes may be made in how funds are allocated as a result of this study.

The program will not affect the performance of individual supervisors. It will, however, provide clearer guidelines and additional support that can help supervisors make sound pay decisions.

The program will not evaluate the performance of individual job holders. Position evaluation measures the duties and responsibilities, not the person performing the duties and responsibilities. Performance appraisal programs which measure individual performance are not within the scope of the SPEC Program. The current performance appraisal programs will be revised as a separate project.

The SPEC Program will not please everyone. In a community as diverse and complex as Penn State, the concerns and interests of individuals may be in conflict. This is a factor of life which the SPEC project can not alter. The SPEC Program will be designed using many of the ideas and suggestions from staff members. The final outcome will tie together the best interests of the

Members of the compensation staff at the Office of Human Resources review some of the more than 700 mini-surveys for the SPEC Program which were completed by University staff members. Shown, from left, are Roger Martell, Pam Kornasiewicz, Tom Hall and Dee Frisqure.

University with the staff input. It will ensure that decisions can be made in a fair and equitable manner.

What next?

Developing the SPEC Program will require significant efforts of University management and staff over the coming months. These efforts will be coordinated by the Mercer Inc. consultants who have been asked to assist the University. One of the initial project activities with the consultants has been the development of a detailed work plan which will serve as the guide to building the SPEC Program.

The work plan is divided into four major project phases:

Planning and Design - During this initial project phase the SPEC Project Team is gathering information, suggestions and concerns from the University community. The staff open meetings, survey questionnaires, discussions with various University management groups and ongoing dialogue with the Classification and Evaluation System Review Committee already have provided valuable input to SPEC Program design.

At this time, the Project Team is studying the specific information that impacts the design of the position evaluation system, and on the manner in which job data will be collected from staff. At the conclusion of the first project phase, the major issues and concerns affecting staff compensation will be identified and the position evaluation system will be developed. This phase is targeted to be completed by the end of May.

Data Collection - The second project phases will focus on the collection and analysis of the data which will be the basis for determining the value of staff positions.

The data will come from two major sources:

- The external marketplaces in which Penn State competes for employees. Published pay surveys are the best source of these data.
- The new job evaluation system. Each University staff member will complete a questionnaire about his or her job as an important part of this evaluation process.

Program Development - The SPEC Program final pay structure of grades and ranges will combine the internal and external data collected in the second phase. Decisions about responsiveness to the market, the effects of cost-of-living variations, and, of course, the University's financial

resources will be determined during this phase.

At this time, the University also will be developing administrative guidelines for managing the SPEC Program in the future.

Implementing Planning - The transition of the SPEC Program from a project to a major human resources program will require a great deal of communication. Major tasks in this final phase include an impact analysis, executive approvals and a complete program of training and orientation. If the SPEC Program is to be successful at Penn State, it must be understood, accepted and effectively used. Communications will play an important role in that process.

What can staff expect next?

The SPEC Project Team is currently working on the development of the position evaluation system. Job related factors are being studied, defined and discussed. Finding elements of job content which can be observed in all positions in the new staff category is quite a challenge. The University's complex organization and breadth of activity provides for a wide diversity of jobs to be evaluated.

Once the evaluation plan factors are determined, the SPEC team will develop a questionnaire called a Position Information Questionnaire (PIQ). The PIQ will be used to collect information from all University staff regarding the duties and responsibilities they perform. The questionnaires will be introduced and explained to staff members in a series of meetings held in each college or administrative area.

At these meetings, PIQ's will be distributed and thoroughly explained, the data collection process described and staff questions answered. All staff are encouraged to attend these sessions and to participate in the PIQ process. Make-up sessions will also be held to ensure maximum level of participation. It is anticipated that these sessions will be held in July.

The SPEC Program is important to the University and it's important to all staff members. It is sure to be a better program because of the total University involvement - taking place. During the coming months there will be more opportunities for interaction and communication. Future issues of *Intram* will feature more information about SPEC and the important issues surrounding it.

Opinions on SPEC project are diverse

Many years ago, Walt Whitman said, "Do I contradict myself? Very well, then I contradict myself."

He could have been speaking for the Penn State staff group. Opinions on the basic issues of the SPEC project are diverse and often in opposition to each other. Here are a few examples.

"Penn State should allow a salary differential based on a higher urban vs. rural cost of living, only if higher tuition is charged at the more urban campuses. Otherwise a campus is a campus and a job is a job."

"Regional cost of living should be reflected in the pay scale across the state. Car insurance, rental/home ownership, taxes are much higher in the metropolitan areas than in the rural areas of the state."

"As an institution of higher learning, the University should reward professional development. For years instructors have been rewarded for obtaining advanced degrees; why can't there also be incentive for others who choose to improve themselves?"

"I have a B.A. and part of my

master's but I would not like to see education used as the foremost reason for determining pay scales and upgrades. There are many qualified and competent people working without degrees."

"Decrease emphasis on supervisory responsibilities. There are many jobs in which employees deal with very high level people both on and off campus and who have significant job responsibilities which do not necessarily include supervising other individuals."

"Not enough credit given for

supervision. Keeping a department running smoothly is hard work!"

"Merit pay. There's no incentive now for doing a good job; everyone gets straight across the board raises."

"I'm against merit pay. I do not think it would always be fair."

"Allow greater autonomy within units, colleges, etc., for determining grades and salaries within the units."

"Grades and salaries should be consistent across the University."

University Park Calendar

May 3— May 20 Special Events

Thursday, May 3
Women and Men of Color, luncheon, noon-1 p.m., Nittany Lion Inn.
Friday, May 4
Registration deadline for Intercession.
Monday, May 7
Intercession begins.
Thursday, May 10
Trustees meet, University Park, through May 11.
Saturday, May 12
Commencement. Also May 13.

International Events

Education Abroad Programs
The following programs for Spring 1991 are available until Oct. 1: Athens, Exeter, Kiel, Manchester (economics), Nice, Rome, San German, Tel Aviv.

Public Radio

WPSU-FM 91.1
"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.
"Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.
"Perspectives," 6:30 p.m. Wednesdays, with Jeff Ballou.
"Creative License," 12:30 p.m. Thursdays, with Asa Berlin and Pam Saulnier.

Conferences

Continuing Education
Keller Building
May 7. Well Control Refresher Course. Stan Supon, instructor of petroleum and natural gas engineering, chair; Norm Lathbury, coordinator.
May 7-8. Legal Rights of Exceptional Children. Bill Sterner, coordinator.
May 7-9. Turbulence Model for Computational Fluid Dynamics. Frank Schmidt, professor of mechanical engineering, chair; Barb Impellitteri, coordinator.
May 8-9. Pennsylvania Bar Institute. Jerri Milom, coordinator.
May 9-11. Simulation of Subsurface Flow and

Contaminant Transport by Finite Element and Analytical Methods. Gour-Tsyh Yeh, professor of civil engineering, chair; Barb Impellitteri, coordinator.

May 9-10. Pennsylvania State History Day. Eric Loop, coordinator.

May 9-10. Advanced Architectural Lighting. Craig Bemecker, instructor of architectural engineering, chair; Norm Lathbury, coordinator.

May 9-11. DER Mining and Reclamation. Robert Frantz, professor of mining engineering, chair; Norm Lathbury, coordinator.

Seminars

Thursday, May 3
Mechanical Engineering, 4 p.m. Mech. Engineering. Jack Howard, Massachusetts Institute of Technology.

Monday, May 7
Ag Engineering, 12:30 p.m., 244 Ag Engineering. Dr. Mamoun Ibrahim Davelbeit, Rahad Research Station, Sudan, on "Agricultural Engineering and Tillage Research in the Sudan."

Wednesday, May 9
Laboratory for Artificial Intelligence Applications, 3:45-4:45 p.m., 11 Ferguson. Dr. Donna Pequet on "Geoprocessing and Artificial Intelligence."

Thursday, May 10
Laboratory for Artificial Intelligence Applications, 3:45-4:45 p.m., 11 Ferguson. Dr. Robert N. Coulson, Texas A&M Univ., on "Intelligent Geographic Information Systems for Natural Resource Management."

Exhibits

HUB Galleries
Art Alley Panels
Diane Reedy, "A Closer Look," through June 29.

Art Alley Cases:
Metals and Clay, through May 30.

Browsing Gallery:
One Woman Show, through May 19.

Kern Galleries
Selections from the Graduate Research Exhibition, through May 15.
College Research Exhibitions, College of Agriculture, through May 25.

Palmer Museum of Art
Figurative Drawings of the 17th and 18th Centuries from the Accademia Nazionale di San Luca in Rome, through May 20.
Transforming the American Garden, through May 13.

'Portrait of the Comtesse de Tracy' by Ary Sheffer is part of the 'Highlights from the Museum's Collection' exhibit opening May 8 at the Palmer Museum of Art.

Selections from the Permanent Collection, through Oct. 7.
Craft and Community: Traditional Arts in Contemporary Society, May 20-July 22.

Pattee Library
Rare Books Room:
Photography: A 150th Anniversary Exhibit, through May 31.

Zoller Gallery
School of Visual Arts, Graduate Students Exhibition, through May 4.

Penn Staters

Roy Olofson, professor of chemistry, gave an invited lecture titled "Newer Uses of Novel Haloformates and Related Reagents" at the University of Leiden, the Netherlands; the Catholic University of Louvain, Belgium; the Free University of Amsterdam, the Netherlands; and the University of Dusseldorf, West Germany.

George Evans, Evan Pugh Professor of mathematics, has been selected to serve a three-year term on the Institute for Defense Analyses Advisory Committee.

Richard E. Tressler, professor of materials science and engineering and director of the Center for Advanced Materials, served as visiting professor at Curtin University in Perth, Western Australia, and as an adviser to the Western Australian Technology, Industry, and Development Authority (TIDA).

H.L. Barnes, distinguished professor of geochemistry and director of the ore deposits research section in the College of Earth and Mineral Sciences, presented a four-day short course on "Hydrothermal Fluids and the Deposition of Ore Minerals, with Emphasis on Gold, Silver and Copper"

at the segregated University of Witwatersrand, South Africa. He also presented "Iron Sulfide Textures" to the Geological Survey of South Africa.

Patricia Farrell, associate professor of leprosy studies in the College of Health Human Development, has received the annual Merit Award from the Eastern District Association of the American Alliance of Health, Physical Education, Recreation, and Dance in recognition of her achievements in research and teaching.

Luis Gonzalez-Cruz, professor of Spanish at the Penn State New Kensington Campus, has been included in the *Biographical Dictionary of Hispanic Literature in the United States*, published by Greenwood Press. The dictionary includes the most prominent Hispanic American writers in the 20th century. Dr. Gonzalez-Cruz' entry focuses on his critical studies and his poetry.

Eugene T. McDonald, research professor emeritus of speech pathology in the College of Health and Human Development, has received the Honors of the Pennsylvania Speech-Language-Hearing Association for outstanding contributions in speech, language or hearing.

Frederick Wedler, professor of biochemistry in the Department of Molecular and Cell Biology, has been elected to the board of directors of the American Cancer Society's Pennsylvania Division and voted scientific director of the society's ninth district.

Carl H. Wolgemuth, associate dean for undergraduate studies in the College of Engineering and professor of mechanical engineering, has been elected a Fellow of the Society of Automotive Engineers for his achievements in engineering education, engineering education administration, engineering research and service to engineering and education.

Raja V. Ramani, professor of mining engineering and head of the Department of Mineral Engineering, has been named recipient of the 1990 Environmental Conservation Award of the American Institute of Mining, Metallurgical and Petroleum Engineers for "his several and diverse contributions to environmental conservation in surface and underground mine planning and design."

Harvey B. Manbeck, professor of electrical engineering, has received the annual Bernon Perkins Award from the National Frame Builders Association for

the most significant contributions to the post-frame industry.

Jerry C. Olson, professor and chairman of the Department of Marketing, organized and served as co-chairperson of a conference, "Extending the Cognitive Structure Perspective," co-sponsored by the European Institute for Advanced Studies of Management, and held in Brussels.

John Riew, professor of economics, was convenor-organizer of the Conference on Tax Policy and Economic Development among Pacific Asian Countries, held in Taipei and sponsored by Taiwan's Academia Sinica with support from the National Science Council.

Sharon A. Rolley, secretary in the School of Nursing at University Park, has been approved as a Certified Educational Office Employee by the Professional Standards Program of the National Association of Educational Office Personnel.

Nermal K. Bose, Singer professor of electrical engineering, has been named editor-in-chief of *Multimedia and Signal Processing*, a new journal in electronic engineering.

Appointments

Joseph S. DiGregorio, associate dean in the College of Engineering, has been placed in charge of the College's international programs. His new title is associate dean for commonwealth and continuing education and international programs.

"Global issues are a critical part of our technological future, and Joe DiGregorio, with his extensive experience in industry and in program development and planning, is the ideal person to further develop our international programs," John A. Brighton, dean of the College of Engineering, said.

In addition to the management of engineering commonwealth and continuing education, Dr. DiGregorio will coordinate and enhance the College's existing programs and develop new areas of concentration.

"Dr. DiGregorio will concentrate on developing new links with key foreign universities, with an emphasis on student and faculty exchanges, continuing education programs and research and education collaborations," Dean Brighton said.

Dr. DiGregorio joined the College of Engineering in 1987 as associate dean for commonwealth and continuing education after several years as an administrator of continuing education programs at Rice University, Houston. He was a research engineer for Shell Oil Co. for 11 years before joining Rice.

He holds a B.S. in chemistry from the University of Notre Dame and a Ph.D. in chemistry from Penn State.

In conjunction with Dr. DiGregorio's expanded activities, **David A. Long**, professor of civil engineering, has been named director of continuing education in the College of Engineering. He will supervise engineering continuing education programs which reach more than 10,000 technical specialists annually.

Thomas V. Gibson, director of food services since 1985, has been appointed assistant vice president for Housing and Food Services. Lisa Wandel, who has been acting assistant director of Food Services since January, has been promoted to assistant director of food services.

In announcing the appointments, James M. Wagner, vice president for business and operations, said that a national search will be conducted to fill the director of food services position.

Mr. Gibson, who has a bachelor's degree in finance from Seattle University, was senior administrator for food services at the University of Washington from 1981-85. Prior to that, he held a series of food service managerial positions with the SAGA Corp. at the College of Idaho, Willamette University, University of California at Santa Cruz and Arizona State University.

For the past two years, Mr. Gibson has taught a course in food service sanitation and purchasing in the School of Hotel, Restaurant and Institutional Management. He currently is chairperson for the National Association of College and University Food

Services National Conference to be held this July in Baltimore.

The assistant vice president for Housing and Food Services has responsibility for residence and dining hall operations for 16,000 students, serving 35,000 meals each day at University Park, seven Commonwealth campuses, Penn State Erie, The Behrend College, and Penn State Harrisburg. The Office of Housing and Food Services employs more than 800 full-time and 1,200 part-time people and has a total annual budget of more than \$60 million.

Ms. Wandel, a 1982 graduate of Penn State with a degree in hotel, restaurant and institutional management, worked for several State College restaurants before becoming an assistant dining hall supervisor in 1984. She was promoted to dining hall supervisor in 1986.

A member of the menu committee, Ms. Wandel helped create Penn State's American Regional Dinner entry in the National Association of College and University Food Services 1988 menu contest. The menu won first prize in the special events category. She has been actively involved in the academic year and summer Student Food Service Intern Programs.

The assistant director of food services has responsibility for the operations of eight dining commons at University Park and of the test kitchen. The dining commons employs 231 full-time staff, more than 800 students and has a total annual operating budget of \$19 million.

Martin Goldberg has been appointed associate librarian and director of the library at the Penn State Beaver Campus.

Prior to joining the Beaver Campus staff, Mr. Goldberg was the instructional media director of the Library of the United States Merchant Marine Academy, Kings Point, N.Y.

He received a bachelor's degree in communication arts from the New York Institute of Technology and a master's degree in library science from the Palmer Graduate School of Library Science at Long Island University.

He received a certificate from New York University's Institute on Telecommunications in Higher Education and holds an advanced diploma (post masters) in instructional communications from Hofstra University. He also earned a master's degree in education for the disadvantaged learner at City College of New York.

Mr. Goldberg is a member of the American Library Association and a variety of other professional organizations. He recently served as a film evaluator for the Nassau Library System. He also served on the Post Secondary Standards Committee of the Association for Educational Technology and Communications.

Robert W. Groves III has been appointed executive director of development in the Division of Development and University Relations.

He comes to the University from Wright State University, where he directed the university foundation and office of development.

Mr. Groves will manage the operations of the University's fund-raising programs and direct the development staff assigned to the various colleges and academic programs.

Mr. Groves was associate director of trusts and estates at Ohio State University from 1986 to 1987. From 1980 to 1986, he served in Ohio State's College of Agriculture, first as coordinator of alumni relations and development and then as director of development.

He graduated with a degree in agriculture from Ohio State in 1979.

Diana Lee Kenepf has been named director of the Academic Support Center for Student-Athletes.

Appointment of Ms. Kenepf, who has been serving as acting director of the center, was announced by C. Gregory Knight, vice provost and dean for undergraduate education.

A 1963 graduate of Penn State with a B.S. degree in physical education, Ms. Kenepf received an M.S. degree in physical education, with a minor in health education, in 1977.

She was a teacher in the Halifax, Pa., Area School District, from 1963 to 1964 and joined the faculty at Penn State as an instructor in health education in 1974.

She served as coordinator of the undergraduate program in health education from 1982 until 1987 when she was named athletic academic adviser/counselor in the Academic Support Center for Student-Athletes. She was appointed assistant director in 1988 and acting director in September 1989.

The mission of the center, which was established in December 1986, is to provide appropriate academic support services and University Faculty Senate and NCAA academic eligibility information to all student-athletes.

Ms. Kenepf has been active in college and departmental activities, serving as chair and member of the College Curriculum Committee and a member of the Academic Standards and Substitution Committee and Library and Resources Committee.

In the Department of Health Education, she has been chair and member of the Curriculum Committee and a member of the Promotion and Tenure Committee and Semester Transition Committee.

A member of the Association for the Advancement of Health Education, she also is a member of the American Alliance for Health, Physical Education, Recreation and Dance, American School Health Association, National Association of Academic Advisors for Athletics, and National Academic Advising Association.

Alphonse E. Leure-dupree has been named to the newly established position of associate dean for academic achievement and director of special programs at the Hershey Medical Center. His responsibilities for special programs include minority recruitment and retention and affirmative action.

To continue an emphasis on academic achievement in both teaching and research, Dr. Leure-dupree will be responsible for events such as Convocation; the Dean's Distinguished Teachers Award; the Dean's Lecture Series; Medical and Graduate Student Research Day; and student academic awards and prizes. He also will be responsible for summer programs such as the Equal Opportunity Planning Commission and Whitaker Foundation Scholarships and coordinating other programs.

Dr. Leure-dupree is professor of anatomy and neuroscience and interim chairman of the Department of Anatomy. He most recently served as assistant dean for student affairs, years I and II. He earned a B.A. degree from Rutgers University, New Jersey; an M.Sc. degree from McGill University, Montreal, Canada; and a Ph.D. degree from the Institute of Ophthalmology, University of London. He received additional training at the University of Rome.

Jo Ann Stephens, instructor in the General Engineering Department, has been named director of the Engineering Advising Center.

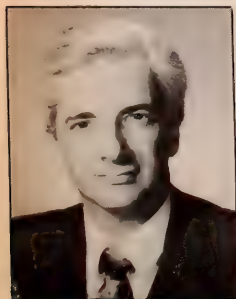

The Engineering Advising Center, created in 1984 to help engineering students in all aspects of university life, counsels all freshman and sophomore engineering students on scheduling, curricular requirements and choice of a major.

As director, Ms. Stephens oversees the advising activities of faculty and staff. She also coordinates the Freshman Testing, Counseling and Advising Program each summer and provides assistance to visiting high school seniors and works with Commonwealth Campus advisers.

Ms. Stephens teaches engineering graphics and has been the General Engineering Department faculty representative to the Advising Center. She is a specialist in computer-aided drafting.

She holds two degrees in civil engineering, a B.S. from the University of Maine and an M.S. from Carnegie Mellon University. She currently is working toward a Ph.D. in instructional systems at Penn State, concentrating on planning programs in industry and education. She is a Pennsylvania registered professional engineer.

Ms. Stephens joined the engineering faculty in 1985, coming from the Community College of Allegheny County where she was an instructor. She also has worked with Materials Engineering and Testing Inc., D'Appolonia Consulting Engineers Inc., the U.S. Army Corps of Engineers and the U.S. Steel Corp.

Joseph S. DiGregorio

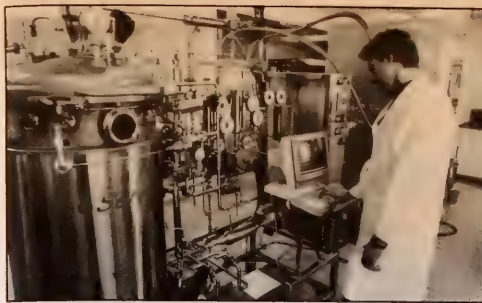

Martin Goldberg

Robert W. Groves III

Jo Ann Stephens

Kevin Smith, Pilot Plant supervisor, works with the 300-liter fermentor in the newly completed Bioprocessing Resource Center Pilot Plant. The grand opening for the Pilot Plant is scheduled for 11 a.m. May 8 in Wartik Laboratory.

For bioprocessing pilot plant Grand opening ceremonies set

The Bioprocessing Resource Center Pilot Plant will hold a grand opening on Tuesday, May 8, at University Park.

Opening ceremonies will take place in Room 111 Wartik Laboratory at 11 a.m. Included in the program, Tours of the facility in Fenske Lab will begin at noon and continue until 2 p.m. Faculty and staff are invited to attend.

Raymond Christman, Pennsylvania secretary of commerce; J. Lloyd Huck, president of the Board of Trustees, and President Jordan will be the featured speakers at the opening ceremonies.

The pilot plant was constructed with the combined support of the Pennsylvania Department of Commerce's Industrial Resource Center Program and Penn State to help Pennsylvania's small, biotechnology

companies succeed in commercializing their products. This state-of-the-art facility gives biotechnology companies a powerful tool for scale-up research in microbial fermentation, cell culture, and downstream processing.

Bookshelf

Allan Quigley, assistant professor of education, has edited a book titled *Fulfilling the Promise of Adult and Continuing Education*. Included in the book, published by Jossey-Bass, is an authored chapter, "Influencing Social Policy."

Faculty members receive Research Initiation Grants

Twenty-six faculty members have received one-year Research Initiation Grants from a fund approved by President Jordan. The awards were made from the program which was established to encourage and support research and other creative work by new faculty.

Faculty members at all campuses with no more than two years of service accumulated before September 1990 were eligible for the 1990-91 grants. The funds were awarded to support lines of research that may lead to external sponsorship.

Faculty members awarded grants and the grant titles are:

J.F. Annett, assistant professor of physics, "Theory of High Temperature Superconductors;" **Karen Bartsch**, assistant professor of psychology, "Acquiring a Theory of Mind: Children's First Reasoning About Beliefs;" **Johann Baumgartner**, assistant professor of marketing, "A Comprehensive Investigation of Holistic and Analytic Modes of Product Perception;" **Erella Brown**, assistant professor of comparative literature and

Hebrew, "Reconsidering the Prohibition Against Idolatry: Cultural Differences Between Modern Jewish and Western Literatures;" **Andrew R. Buchman**, assistant professor of molecular and cell biology, Roles of Multifunctional DNA-Binding Proteins in Transcriptional Silencing;

Jude Cassidy, assistant professor of psychology, "Infant Response to Maternal Emotional Expression;" **Daniel W. Conway**, assistant professor of philosophy, "The Recovery of Virtue: Nietzsche and the Art of Moral Philosophy;" **Richard Cyr**, assistant professor of biology, "Microtubule Binding Proteins in Higher Plants;" **Charles A. Dangler**, assistant professor, experimental pathologist, Department of Veterinary Science, "Atherogenic Mechanisms Involved in a Herpes Virus-induced Model of Atherosclerosis;" **Eliot Frutkin**, assistant professor of anthropology, Changes in Household Production and Nutrition Among Livestock Pastoralists of Kenya and Botswana; **David S. Gilmour**, assistant professor of molecular and cell

biology, Purification of the General Transcription Factors of *Drosophila*; **Taylor Greer**, assistant professor of music, The Musical Humanism of Charles L. Seeger;

Peter L. Hahn, assistant professor of history, Penn State Erie, The Behrend College, "United States Policy Toward the Arab-Israeli Crisis, 1947-67;" **John M. Halbrecht**, assistant professor of pathology, Fruit Research Laboratory, "Biological Comparisons and Virus Vector Efficiency in Morphologic Variants of *Xiphinema Americanum Sessile* Lute in Pennsylvania Orchards;" **Nigel David Higon**, assistant professor of mathematics, "Almost Homomorphisms and K-Theory;" **William J. Kraemer**, associate professor of applied physiology, "The Effects of Detraining on Muscle Strength and Anaerobic Power;" **Shiruki Kumanyika**, associate professor of nutritional epidemiology, Retrospective Pilot Study of Reasons for Race Differences in the Efficacy of a Weight Loss Program; **Lyle N. Long**, assistant professor of aerospace engineering,

Low-Density Hypersonic Flow Using Massively Parallel Computers;

Jane Medford, assistant professor of biology, "Manipulation of Vegetative and Reproductive Meristematic Genes;" **Francis J. Mulhern**, assistant professor of marketing, "An Empirical Analysis of the Price Sensitivity of Hispanic Consumers;" **Laura L. Pauley**, assistant professor of mechanical engineering, "A Numerical Study of Nozzle Boundary Layer Transition;" **Londa Schiebinger**, assistant professor of history, "History of Early Modern European Science;" **Hoi K. Suen**, associate professor of educational psychology, Integrating Measurement Errors in the Statistical Evaluation of Change; **Jean-Claude Vuillemin**, assistant professor of French, Theatricality in the Dramatic Texts of Jean Rotrou; **Peter M. Walsh**, associate professor of fuel science, Control of Formaldehyde Emissions from Methanol-Fueled Vehicles; **Peter C. Weber**, assistant professor of microbiology and immunology, Mechanism of Recombination in the HSV-1 Genome.

Biologist will present Pollard lecture

Philip C. Hanawalt, professor of biology at Stanford University will present the Ernest C. Pollard Lecture at 3:30 p.m. Friday, May 18, in Room 112 Kern Building at University Park. He will discuss "Selective DNA Repair in Expressed Genes."

Dr. Hanawalt a member of the Stanford faculty since 1961, has been director of the Biophysics Program and chairman of the Department of Biology. His research has focused on DNA repair

in biological systems and its role in carcinogenesis.

The Ernest C. Pollard Lecture Fund was organized by donations from friends, colleagues and associates of Ernest Pollard. Dr. Pollard, who taught at Penn State from 1961 to 1971, founded the Biophysics Department which eventually merged with the Biochemistry and Microbiology departments to form the Department of Molecular and Cell Biology.

Literacy grant

The Berks Campus Penn State Educational Partnership Program and the Institute for the Study of Adult Literacy have received a two-year \$45,294 grant from the U.S. Department of Education to develop a student Literacy Corps program.

The Berks Campus PEPP program, in coordination with the Institute for the Study of Adult Literacy, will develop a Student Literacy Corps Program at Berks Campus.

David Bender of Berks Campus will

be the project administrator; Ivys Rodriguez, director of PEPP at Berks Campus, will be the project director. Sheila Sherron, literacy specialist and research associate at the Institute for the Study of Adult Literacy will act as technical adviser.

Obituary

Elsie Trabert, retired associate professor of home economics, died April 23 at the age of 88. She joined the faculty Aug. 1, 1934, and retired July 1, 1966.

Faculty/Staff Alerts

Fixed-Term I appointments

Faculty or staff members on Fixed-Term I appointments may continue certain University benefit programs for the period between appointments, provided they have a firm commitment of re-employment on a Fixed-Term or Standing Appointment basis to begin within no more than three months of the end of the last appointment.

A faculty or staff member may continue the benefit coverage by paying the full rates including the University and the faculty or staff member's share of the cost of the group life insurance and hospital/surgical/major medical, dental and vision coverage, and, if applicable, the voluntary accidental death and dismemberment insurance and long-term disability.

However, after three years of continuous Fixed-Term I service (of nine months or more each year), and a commitment of re-employment for the next academic year,

the benefits are provided at the regular rates (the amount that is normally deducted from the faculty and staff members' salary).

Any Fixed-Term I faculty or staff member interested in continuing benefit coverage (including dependent coverage) should contact his or her personal representative or director of business service to complete the necessary form for coverage. This must be completed prior to the expiration of the current Fixed-Term I appointment.

Questions regarding this program should be directed to the Employee Benefits Division (865-1473 or Network 475-1473).

National Health/Fitness Day

On Wednesday, May 16, all University faculty, staff and their families are invited to take part in the second annual National Employee Health and Fitness Day. More than 400,000 workers across the

nation are expected to participate in this campaign designed to promote exercise and fitness on the job. This nationwide event is modeled after Illinois Employee Fitness Day which has been a success since its inception in 1982.

Penn State is one of many major employers recognizing the fact that exercise is an effective means to help employees establish and maintain good health and feel more productive both in their personal lives and on the job.

On May 16, University employees will be asked to engage in their favorite aerobic fitness activity (i.e. walking, jogging, swimming, cycling, etc.) and report that activity (in miles) to be counted toward Penn State's goal of "Crossing America."

To be included, it will not be necessary to participate in any organized activity or program. The exercise may be done on one's own. However, as time, resources,

and staffing permit, some campuses may be promoting informal group activities.

Flyers containing a tear-off "Cross America Report Card" will be available in departments and work areas shortly. The report cards should be returned through campus mail to the Faculty/Staff Health Promotion Program Office at University Park on May 17 so that the final calculation of miles may be completed and the results reported.

Participating employees will receive a National Employee Health and Fitness Day certificate acknowledging their contribution toward achieving Penn State's goal.

The success of this event depends on a common commitment to Have Fun and to Report exercise miles on May 16. Keep an eye open for upcoming additional information or call the Faculty/Staff Health Promotion Program Office at (814) 865-3085.

Ninth group of buildings begins campuswide recycling program

April 30 kicked off the ninth group of University Park buildings to start the campuswide recycling program.

People are reminded that not all waste is acceptable for recycling. There are two separations: one for paper and one for containers. Other material is considered non-recyclable trash and should be discarded as usual.

Recyclable paper includes white ledger paper (writing, typing and copy), newspaper, computer printout and corrugated cardboard.

Not acceptable are regular cardboard, such as cereal boxes, envelopes, post-it notes, paper plates, cups, towels or colored paper. Paper must be dry and not contaminated by food. Also, containers

should be rinsed before depositing in the collection boxes.

Acceptable containers include clear, green and amber glass, aluminum cans, plastic soda bottles without caps, plastic milk and water jugs (no caps), steel and tin metal cans.

The buildings are Computer Building, Findlay Computer Lab, Forum, Intramural Building, Natatorium, Pattee Library, Swine Research Lab and the Undergraduate Library.

On May 21, the following areas will participate: Barbara Building, Central Milk Testing Lab, East Area Locker Room, Fleet Operations, Holuba Hall, Hostetter Business Services, Shields Building, Indoor Tennis Courts and Wagner.

George Schimmel, director of maintenance and operations at Physical Plant, presents a replica of the new paper recycling truck to members of Arts 371, a graphics design class. The students, led by Kristin Breslin, assistant professor of art, created the logo for the new truck. Photo: Richard Ackley.

College is selected for Hoover memorial scholarship award

The College of the Liberal Arts has been selected to receive one of the six 1990 J. Edgar Hoover Memorial \$2,500 scholarship awards sponsored by the Society of Former Special Agents of the FBI Inc.

The universities receiving the 1990 awards are chosen by society members selected at random from each of six national regions. The selector from the mid-Atlantic region is Lloyd W. Arms Sr.,

whose son, Lloyd Jr., graduated from Penn State and served 20 years as a special agent of the FBI. Mr. Arms designated Penn State as his choice for the award.

The annual Living Memorial Scholarships are part of the J. Edgar Hoover Memorial, originated and administered by the society and totally funded by donations. The program is designed in memory of the first FBI director for his zealous pursuit of

excellence in educational standards for the FBI.

Edward Pennpacker, vice president, Mid-Atlantic Region, and Delmar Mayfield, Harrisburg area chairman of the society, presented the \$2,500 to Hart Nelsen, dean of the College of the Liberal Arts, and Daniel Maier-Katkin, chair of the Administration of Justice Department.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in promotion MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-4004.

NETWORK LINE 433-0040. Applications for these staff vacancies will be accepted until May 10. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment Practices (FES) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

• Senior Applications Software Designer/Programmer, CES, Management Systems, University Park Campus - Responsible to the assistant manager, applications, development, for leadership of major data processing development projects. Requires bachelor's degree, or equivalent, two to three years of effective experience in computer programming, systems analysis, management information systems and/or fourth-generation development environment. Experience in accounting, financial management, budgeting or other administrative areas is desirable. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. THIS IS A RE-ANNOUNCEMENT - PREVIOUS APPLICATIONS NEED NOT REAPPLY. STAFF GRADE 7

• Assistant Director of Development, Development and University Relations, Hershey Medical Center - Responsible to the associate

director of development for coordinating a variety of special events and projects, acting as primary liaison with outside groups, coordinating appeals and publications, and contributing to various office projects and publications. Requires bachelor's degree or equivalent, plus one to two years of development-related experience. Oral and written communication skills are essential. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH GOOD POSSIBILITY OF REFUNDING. STAFF GRADE 6

• Coordinator, Residency Program, College of Medicine, Department of Medicine, Hershey Medical Center - Responsible to the assistant dean for external relations and continuing education for coordinating the day-to-day activities of the Department of Medicine Residency Program to include assisting in the recruitment of residents and development and maintenance of the budget. Requires an associate degree, or equivalent, in business administration, plus one to two years of effective experience. STAFF GRADE 4.

• Incubator Program Manager, Penn State Great Valley - Responsible for identifying, funding opportunities recruiting clients and for day-to-day management of all incubator services. Act as liaison with program advisory board and University economic development services; develop and manage publicity programs to identify and serve clients; negotiate leases and develop policies. Requires bachelor's degree, or equivalent, in business administration or related field and two to three years of effective experience in application and proposal development; familiarity with business plan development, financing and business operations of start-up technology businesses preferred. STAFF GRADE 7.

• Business Procurement and Marketing Specialist, Penn State Harrisburg, Small Business

Development Center - Responsible to the center director for the implementation of business counseling and training programs directed at the needs of small business owners and managers. Provide small businesses with assistance in securing government contracts, as well as in other areas of business management. Research government contract opportunities; develop and maintain data base. Requires master's degree, or equivalent, in business or public administration, plus one to two years effective experience in government procurement, preparation of proposals, or closely related business research. STAFF GRADE 7

• Director of University Relations, Mont Alto Campus, University Relations - Responsible to the campus executive officer for organizing and conducting a comprehensive University relations program for the entire campus including continuing education, Office of Public Information and Relations, gifts and endowments, alumni and community activities. Requires bachelor's degree, or equivalent, plus two to four years effective experience preferably involving newspaper and/or journalistic writing. STAFF GRADE 8.

• Production General Manager of Theatre, Arts and Architecture, Theatre Arts, University Park Campus - Establish, monitor and administer the University Resident Theatre Company (URTC) budget, monitor technical department budgets for Pennsylvania Centre Stage (PACS). Formulate yearly estimated income statement for URTC. Create URTC maintenance performance and production master calendar and performance/rehearsal production master calendar for PACS. Oversee URTC promotion and publicity. Requires bachelor's degree, or equivalent, in theater, plus four to five years effective experience in general theater management and/or production management. Knowledge of all areas of theater management required. STAFF GRADE 8.

In addition, there are a number of positions that, because of the frequency with which they become vacant, are still available after employees in the work unit have been considered. Some such positions are available on a fairly regular basis. They are not announced each time they are open. Instead, they are announced periodically so a pool of interested candidates can be developed. Applications for such positions may be made at any time, and you are welcome to make your interest known to the Employment Division for further consideration when such vacancies occur. These positions are:

Position title	Location
Assistant Research Engineer	ARL
Associate Research Engineer	ARL
Research Engineer	ARL
Senior Research Engineer	ARL
Cardiology Technician	Hershey
Clinical Laboratory Assistant	Hershey
Clinical Laboratory Technologist (HEW)	Hershey
Clinical Nursing Specialist	Hershey
Cyto-Technologist	Hershey
Hemodialysis Technician	Hershey
Licensed Practical Nurse	Hershey
Medical Technologist	Hershey
Nuclear Medicine Technologist	Hershey
Ophthalmic Technologist	Hershey
Perfusionist	Hershey
Pharmacist	Hershey
Physical Therapist	Hershey
Physician's Assistant	Hershey
Psychiatric Assistant	Hershey
Radiologic Technologist (Jr. and Sr. Levels)	Hershey
Respiratory Therapy Technician	Hershey
Staff Nurse	Hershey
Vascular Radiology Technologist	Hershey

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

May 17, 1990

Volume 19, Number 32

Information submitted for publication in *Intercom* is due by noon on the Thursday before publication.

Seven are elected to University's Board of Trustees

Seven individuals have been elected to the Board of Trustees. All will serve three-year terms beginning July 1. Elected by Penn State alumni were:

- **Mary Greeley Beahm**, compensation analyst for Westinghouse Electric Corp., Pittsburgh. She replaces Helen Dickerson Wise of Harrisburg, a Trustee for 21 years who chose not to run for re-election.

- **H. Jesse Arnette**, senior partner of Arnette and Hastie, a corporate law firm in San Francisco, and a Trustee since 1969.

- **Joel N. Myers**, founder, president and chairman of the board of Accu-Weather Inc. of State College, and a Trustee since 1981.

Elected by agricultural society delegates were:

- **William H. Ringler**, master of the Pennsylvania State Grange and farm owner-operator in Berlin, and a Trustee since 1987.

- **David A. Morrow**, owner-manager of Arch Spring Farm in Tyrone, and a Trustee since 1987.

Elected by industrial society delegates were:

- **William A. Schreyer**, chairman and chief executive officer of Merrill Lynch and Co. Inc. A member of the Board of Trustees since being appointed by the governor in 1986, he replaces Howard O. Beaver Jr. of Reading, a Trustee for 12 years who chose not to run for re-election.
- **Bernard Hankin**, president of Bernard Hankin

Builders, Exton, and a Trustee since 1984.

Ms. Beahm received a bachelor's degree (1981) from the College of Health and Human Development and a master's degree in business administration (1987), both from Penn State. She served as a student Trustee while a graduate student.

Mr. Arnette is chairman of the Board of Trustees' Educational Policy Committee and member of the Presidential Selection Committee. A member of the Class of 1955, he is past president and co-founder of the Penn State Renaissance Fund and a life member of the Penn State Alumni Association.

Mr. Myers, a member of the Board of Trustees' executive committee, earned three degrees from Penn State, in 1961, 1963 and 1971. He served on the Penn State faculty from 1964-81.

Mr. Ringler has been a dairy, beef cattle and crop farm owner-operator for 48 years. In 1988, he received the "Person of the Year Award" from the Somerset County Chamber of Commerce. He has also received the Century Farm Award, Granger of the Year Award, Pennsylvania Master Farmer (1974) and Grange Award for Public Service (awarded to both him and his wife).

Mr. Morrow, former professor of large animal clinical services at Michigan State University, earned a bachelor of science degree from Penn State in 1956 and received his D.V.M. in 1960 and Ph.D. in 1966 from Cornell

University. Now a State College farm owner-manager, he has held the offices of vice president and member of the executive board of the Penn State Alumni Association.

Mr. Schreyer, a Williamsport native, earned a bachelor of arts degree in commerce and finance from Penn State in 1948. He currently is national chairman of The Campaign for Penn State, which has raised more than \$300 million since its inception six years ago. The recipient of the Distinguished Alumnus Award in 1979 and the Alumni Fellow award in 1983, both from Penn State, he is a life member of the Penn State Alumni Association.

Mr. Hankin, president of a company specializing in residential construction, received a bachelor of science degree in civil engineering from Penn State in 1943 and earned a certificate in soil mechanics from Harvard Graduate School in 1944. He is founder of the Bernard Hankin Professorship in Residential Construction at Penn State, past chairman of the Industrial and Professional Advisory Committee of the Civil Engineering Department and member of the Mount Nittany Society.

The Board of Trustees has 32 members: five ex officio, nine elected by alumni, 12 elected by delegates of agricultural and industrial societies and six appointed by the governor. Ex officio members include the governor, University president and state secretaries of agriculture, education and environmental resources.

Reorganization is approved for the College of Education

The Board of Trustees has approved a reorganization of the academic divisions within the University's College of Education.

The realignment will allow for the establishment of six academic departments to replace the three divisions and one department that currently exist in the college.

"The changes are designed to position the college to carry out its missions more effectively by clarifying the identity of its units in terms of their intellectual core, alignment with nationally accepted designations, and research focus," Rodney J. Reed, dean of the college, said.

The new structure will consist of the following departments:

- Administration, Policy, Foundations

and Comparative/International Education. The department will include programs in educational administration, higher education, educational policy studies, educational foundations (philosophical, historical, socio-cultural), and comparative and international education.

- Educational and School Psychology and Special Education. The department will include educational psychology, school psychology and special education programs.

- Counselor Education, Counseling Psychology and Rehabilitation Services Education. The department will include counselor education, counselor psychology and rehabilitation services education programs.

- Vocational and Industrial Education. It

Instead of a traditional commencement address, Broadway playwright John Pielmeier read from some of his own plays during commencement exercises for the College of Arts and Architecture May 12. (Photo: Dave Mengle)

Trustees approve proposed Beaver Stadium expansion

The Board of Trustees has authorized the Office of Physical Plant to continue site preparation and utility improvements in early June for a proposed 10,300-seat expansion of the Beaver Stadium.

The proposal calls for the addition of an upper deck on the stadium's north end. The steel and concrete structure would partially overhang the existing north stands.

Two circulation levels under the deck include spectator services such as restrooms, vending areas and first-aid facilities. A retaining wall to be built on the north side of the stadium will provide entry points and help overcome the site's existing steep slope.

The University had originally considered a second deck on the east side of Beaver Stadium. The contemplated end zone location, however, was determined to be more cost-effective, enabled planners to add 1,000 additional seats, and brings spectators closer to the field of play.

When the addition is complete, Beaver

Stadium will accommodate approximately 94,000 spectators.

In other action, Trustees:

- Approved final plans and authorized the University to obtain bids for construction of a classroom-office building on the University Park Campus.

- The five-story, 95,000-square-foot building will house classrooms, lecture halls and offices for the Statistics Department and the dean of the Eberly College of Science. It will have a student capacity of approximately 1,600.

- As designed by IKM Inc. of Pittsburgh, the building will be located on the northeast corner of the intersection of Pollock and Shortridge roads. The project budget is \$11.2 million.

Athletic field space replaced by the building is expected to be regained when the Poultry Plant off Bigler Road is demolished. The poultry facility will be relocated, and new playing fields are planned for development on the site.

- Approved the appointment of TKLP Inc. (The Kling-Lindquist Partnership Inc.) as the architect for the Applied Research Laboratory Building proposed for the University Park Campus.

- The four-story, approximately 50,000-square-foot building will include lab, office, computer room and exhibit space. It will be located on the west side of North Atherton Street.

- Parking space taken up by the structure will be replaced. Also, a pedestrian bridge that would cross over North Atherton Street is planned as part of the project.

- Approved final plans and authorized the University to award contracts for a new Golf Course Maintenance Facility to serve the Blue and White Golf Courses at the University Park Campus.

- As designed by the Office of Physical Plant, the facility will include five buildings for a total of 8,234 square feet. It will be located on the Blue Course just west of Corl Road and south of the existing

maintenance road.

The five buildings will include a maintenance building, an equipment storage building, two material storage buildings and a wash bay structure.

- Approved final plans and authorized the University to obtain bids and award contracts for a new 800-space student commuter parking lot on the University Park Campus.

- The lot will accommodate parking for students currently using parking lot 80, which will be reassigned for staff parking. The reassignment will free the parking area behind Eisenhower Auditorium for construction of a proposed parking garage. As designed by the Office of Physical Plant, the lot will be located south of Curtin Road and west of Porter Road near Beaver Stadium. The project budget is \$2.44 million, to be repaid by revenues generated by parking fees.

Focus on Diversity

Film on racist undercurrents is nearing completion

After seven months of filming and dozens of re-writes, a gritty look at racist undercurrents in everyday life is near completion by Penn State student filmmakers.

The 20-minute film "An Early October," centers on how stage roles force two actor-roommates -- one Black/African American, one White -- to confront and try to overcome the racial animosities between them.

"We know when this film goes out before the public, some people will want to tear it down," says Molly R. Rodriguez, co-

producer of the film with three other senior film majors. "But if we can touch at least one person, or make them think in a positive way about racial harmony, we'll have achieved our goal."

The film, developed as a class project, was written and directed by Kevin Rolly of Gibsonia.

"Prejudice is a huge topic, so rather than focus on the big picture, we chose to approach it in a more personal matter," Mr. Rolly notes. "We want the audience to see some part of themselves reflected in the characters' struggle."

The group hopes to make "An Early October" available for use by campus and civic groups across the country, Ms. Rodriguez says. How soon, and through what channels, depends on the group's funding search for post-production and distribution.

"Most of us will stay here after graduation to finish it up," she said. "We'd like to share it with a lot of people."

Guiding the project on the academic side was Jeff Rush, professor-in-charge of film and video for the School of Communications.

Most of "An Early October" was filmed at the Boal Barn Playhouse in Boalsburg, home of the State College Community Theatre. In addition to its four senior producers, the film's cast and crew came from among Penn State's undergraduate theater and film majors.

"The response from the crew has been amazing, and the actors were right on the money," Ms. Rodriguez says. "Even when the script was going through the grinder, everybody really got into it. What we have now is all our ideas put together."

WPSX-TV planning series on Blacks in rural Pennsylvania

WPSX-TV has announced plans for a series of documentaries chronicling the experience of Blacks in rural Pennsylvania.

"The Blacks in rural Pennsylvania Project," the working title, is set to begin production later this year and will focus on the personal experiences of Blacks in rural Pennsylvania from the time of slavery to the present.

"We are pleased that our Rural America Documentary unit is developing a series on the experiences of Blacks in rural Pennsylvania," Station Manager John Grant said. "This is a topic of importance and one not widely covered."

Documentary producer P.J. O'Connell adds, "There is comparatively little TV production or research about rural Blacks in the North, particularly in Pennsylvania."

An informal advisory group, made up of experts in Black history, Black studies, and communications from the University community and elsewhere, will work with Mr. O'Connell to ensure an accurate portrayal of the Black experience in rural Pennsylvania as possible. Bruce Dunn, head of production at WPSX, is leading the advisory group.

Mr. O'Connell stresses the fact that the Blacks in rural Pennsylvania project will not be an historical survey of the entire rural Black culture, but rather, a study of individual families and communities, in an attempt to "sample as wide a variety of Black experience (in rural Pennsylvania) as we can, and let non-Black neighbors know what it's been like for some of their friends."

WPSX-TV program

Tony Brown's Journal, airing at 11:30 a.m. Sunday, May 20, on WPSX-TV, presents a look "Inside the Klan." The Ku Klux Klan is one of America's first organized groups. In 1941, a Florida-born investigative reporter named Stetson Kennedy successfully infiltrated the Ku Klux Klan for 12 years. In a chilling expose before a studio audience in New Orleans, Mr. Kennedy recounts his years as a spy, exposes the Klan's hidden tactics and explains the dangers the group poses to the country.

"African Journey," a major three-hour production from a story by David Eames, tells the dramatic story of two young men from different continents who discover how similar they are despite opposite lifestyles and cultures. *Wonderworks*, proudly presents the American television premiere of "African Journey" airing at 12:30 p.m. Sunday, May 20.

New documentary is now available

7th and T (61072, VH) documents the story of black life in a Washington, D.C., neighborhood through personal accounts and histories of its residents.

Using photographs and drawings, the program traces the story of the neighborhood surrounding 7th and T streets from the founding of Howard University in 1867 through the opening of the Howard Theatre in 1910 to the closing of Tim's Hot Dog Stand in 1968.

This program is available at no charge to University faculty and staff members for classroom use. At University Park, call 865-0913 to make arrangements for a preview showing. At a Commonwealth Campus, contact the campus instructional services specialist for more information.

Five high-achieving minority students graduate

Five high-achieving minority students who had their first taste of Penn State in a high school summer program five years ago are graduating from the University this year.

The five -- all from the Philadelphia area -- were honored at a special reception hosted by the College of Health and Human Development at University Park.

The students were among the first participants in the Minority Advanced Placement Program, a five summer

enrichment program initiated by Penn State in 1985 for minority students in Pennsylvania high schools. Students participate in MAPP during the summer before their senior year in high school.

Developed and administered by the College of Health and Human Development, MAPP introduces academically talented students to health care and related fields. It offers seminars on study techniques, test-taking skills and other

preparation for college, as well as a three-credit Penn State course, tuition-free. Students who pass the course are guaranteed admission to Penn State.

The five graduates are: Mark Anderson, West Chester; Lavarr Dixon, Philadelphia; Chris Heath, Lansdowne; Sharon Lee, Melrose Park; and Jennifer Mayo, Kennett Square.

MAPP served 35 students at two Penn State campuses in its first year and has since

grown to serve approximately 90 students at seven campuses each summer. It is one of five summer programs developed by the College of Health and Human Development to introduce minority students to career possibilities in health care. The summer offerings are funded by the college, the University and the U.S. Department of Health and Human Services.

Agricultural research center dedicated

Nearly 300 guests attended a luncheon May 9 to honor provost emeritus Russell E. Larson and commemorate the naming of the Russell E. Larson Agricultural Research Center at Rock Springs. Charles E. Hess, assistant secretary for science and education, U.S. Department of Agriculture, delivered the principal address. Shown looking over the 1,500-acre research center from State College are, from left, Dr. Hess, College of Agriculture Dean Lamarine F. Hood, Dr. Larson and President Jordan. (Photo: Steve Williams)

Supplies procedures being reorganized

The Office of Business and Operations is reorganizing its procedures for the purchase and delivery of supplies required by University departments.

The new plan, effective July 1, provides for supplies to be available from two sources:

-- General Stores: office supplies, computer hardware, software and supplies, janitorial supplies, scientific supplies, furniture, dry ice, lamps and light bulbs, bulk papers, and envelopes.

-- Physical Plant Stores: automotive supplies, building supplies, electrical supplies, plumbing supplies, and refrigeration supplies.

"The organizational change will eliminate the duplication of inventory items between General Stores and Physical Plant Stores," James Wagner, vice president for business and operations said.

"Under this plan, with two store

operations -- General Stores and Physical Plant Stores -- we gain efficiencies of operation, but not at the inconvenience of the customer. At the same time, the Office of Physical Plant gains much needed space."

A new General Stores catalog is being printed and will be sent to all departments. The General Stores order form using the electronic approval system (EASYS) will continue. Deliveries will continue to be made to departments and campuses.

A separate Physical Plant Stores catalog will be printed and distributed to existing customers. Departments which require the Physical Plant Stores catalog, but do not receive a copy in the mail, may request a copy by calling 865-1701.

An order form for Physical Plant Stores, using the electronic approval system (EASYS), is being developed and will be available on July 1.

Obituaries

Jay R. Kramer, preventive maintenance worker, Office of the Physical Plant, from Feb. 22, 1971, until his retirement April 1, 1984, died May 1 at the age of 60.

Robert W. Woods, retired senior engineering aide at the Applied Research Laboratory, died May 1. He was 59.

A graduate of the University with an associate degree, he served in the U.S. Navy during the Korean War. He joined the Applied Research Laboratory staff on July 21, 1952, and retired Jan. 1, 1985.

From the Trustee Docket

Interim budget

The Board of Trustees has approved an interim maintenance and operating budget for the fiscal year beginning July 1.

The interim budget was approved at the level of the adjusted 1989-90 budget -- \$1,152,372,000 for all divisions, including the Hershey Medical Center and all auxiliary enterprises.

"Since we don't yet know what the state appropriation will be for the University, we couldn't present a final budget for the Board of Trustees' approval at this meeting," Steve Garban, senior vice president for finance and operations, said.

"Therefore, the University will need an approved interim budget to enable it to operate into the new fiscal year, which starts July 1. The Board is not scheduled to meet again until after that date."

The interim budget was approved with the recommendation that no action be taken at this time on changes in tuition, salaries and wages, staff benefits, or other necessary expense increases.

A final budget will be submitted at the July 13 Board of Trustees meeting, if and when the state appropriation is clarified.

Facilities report

The Board of Trustees has received a report on space and facilities planning at the University Park Campus.

The report, prepared by the Facilities Resources Management staff under the direction of the Facilities Resource Committee, details action taken since 1983 to meet the space requirements of academic programs and support functions at the campus; a specific plan for space allocation from 1990 to 1994, and a general plan for 1995 to 2000.

In presenting the report, James M. Wagner, vice president for business and operations, noted that the number of faculty and staff requiring office space at University Park has grown by more than 1,000 since 1983, while student enrollment has increased by more than 3,300 in the same period.

"A driving force causing need for additional facilities," he said, "has been the rapid increase in research. The level of research has increased nearly three fold. We are in a period of high energy, vitality and growth of many existing and new programs."

Pointing out that no state capital funds were provided for new buildings during the

period, Mr. Wagner said the University turned to private fund support and issued bonds to build new facilities, including four academic buildings -- Wartik Laboratory, Research Building E, Halliwell Office Building and Engineering Shop Building. In addition, 35 buildings were renovated to make existing space more usable, and the University turned to leasing space off campus.

"We currently lease more than 200,000 square feet in 22 locations in State College Borough and adjacent townships," Mr. Wagner said. "We view this as a temporary solution and are planning to get out of most leased space within a five- to 10-year time frame."

"Anticipating further growth, the report presented to Trustees details specific space plans for each major academic and administrative unit of the University Park Campus for the next five years. Included are plans for \$91 million in new building construction from University sources."

"We also are hoping for future support from the Commonwealth on many badly needed capital projects," Mr. Wagner said. "Currently, we have nearly \$172 million in projects, for which the state has already appropriated funding. The real question is when will the funds be released for design

and construction." Mr. Wagner said the plan, which has been reviewed by academic deans, student leaders, the Academic and Physical Planning Committee of the University Faculty Senate, and representatives of several area governing authorities, is subject to change.

"We have many critical needs for space such as the Library, research space and the convocations/entree center," he said. "This plan does not solve all needs."

"It does not improve significantly present crowded conditions. It meets minimum conditions. Faculty and staff will still be required to live with some temporary solutions."

He urged Trustees to help convince the state to strategically examine the release of funds for capital construction projects not only at Penn State but throughout the Commonwealth.

"In retrospect," Mr. Wagner added, "Penn State could have put its dollars over the past six years, into buildings and infrastructures instead of academic program support, and reduced the scope of the problem we face today. However, Penn State would not have gained the national recognition it has as one of the nation's leading, vital and dynamic research universities."

Status of Women

Progress continues to be made on the recommendations of the Strategic Study Group on the Status of Women, the Board of Trustees has learned.

Jill L. Findeis, chairperson of the Commission for Women and associate professor of agricultural economics, outlined progress on the recommendations in 1989-90 for the Trustees.

"A number of projects benefiting women are in process and are moving forward," she said.

They include the following, undertaken by the University's administration, Faculty Senate, Commission on Racial/Ethnic Diversity and Commission for Women:

- inclusion of goals to address women's issues in the University's strategic planning

process:

- job reclassification for clerical and staff employees;
- changes in employee leave policies;
- study of initiatives to improve the classroom climate for women students;
- curriculum integration;
- creation of the Task Force on Adult Life and Learning;
- an annual report on the status of women to be published by the Commission for Women;
- creation of a committee to examine the images of people of color and women in University media; and
- child care initiatives.

Among the improvements in the area of child care initiatives were the construction of a child care facility at The Milton S. Hershey Medical Center; the appointment

of a child care task force, which released its report in 1990 to the Office of the President; President Jordan's appointment of an advisory committee and a committee to oversee implementation of the task force's report; and the advertisement for a child care director.

In her report, Dr. Findeis focused on improvements and changes related to the commission's goals, which include continuing to review progress on the job reclassification study of the Office of Human Resources; supporting recruitment and retention of women at all levels and in all position categories; encouraging efforts to change attitudes toward women; improving benefits and encouraging changes leading to a more flexible work environment; supporting expansion of child-care options; and supporting efforts of

women of color to achieve equality.

One area of continued concern is the effective recruitment and retention of women in leadership positions.

When the Strategic Study Group on the Status of Women made its final report in 1988, it proposed a goal of balanced representation of men and women in leadership positions by increasing the percentage of women to 50 percent in academic, administrative and management positions by the year 2000.

"The Commission for Women is helping the University to provide the necessary infrastructure to make the goal of balanced representation for women a reality," she said.

Academic programs

The Board of Trustees has approved changes in academic programs.

Trustees approved upgrading the Office of General Education in the College of Arts and Architecture by creating the Department of Integrative Arts.

Trustees also approved name changes for two departments. In the College of Engineering, the Department of Electrical Engineering will be changed to the Department of Electrical and Computer Engineering to reflect more accurately the department's structure and degree offerings. In the College of Science, the Department of Astronomy will be called the Department of Astronomy and

Astrophysics to reflect its interdisciplinary research.

The following changes in graduate and undergraduate programs also were reported to the board:

The College of Agriculture has two new programs: a doctoral program in wildlife and fisheries science and a master of forest resources degree program in wildlife and fisheries science.

The Graduate Program in Systems Planning and Development in the College of Health and Human Development has been dropped. The program has been replaced by the graduate programs in health policy and administration and administration of justice.

In the College of the Health Arts, the

Russian technical translation major will be changed to the major in Russian translation, and the minor in Russian technical translation will be upgraded to the minor in Russian translation.

College of Education

(Continued from page 1)

will include vocational industrial education, home economics education, health occupations education and industrial training programs.

- Adult Education and Instructional Systems will include adult educational and instructional systems programs.

- Curriculum and Instruction. The department will include early childhood education, elementary education, secondary education, curriculum supervision, reading, communication and language education, mathematics education, science education, social science education and foreign language/bilingual education programs.

"The proposal was widely disseminated and thoroughly discussed among faculty within the college, central administration and the University's Faculty Senate," William Richardson, executive vice president and provost, said. "And all had given favorable reviews."

The changes will become effective in the fall.

Eleven graduate students honored for teaching

In a University-wide competition, 11 graduate students have been selected to receive the new Graduate Assistant Award for Outstanding Teaching.

"We are delighted to introduce these new awards to recognize outstanding teaching by our graduate students," Dr. Howard B. Palmer, senior associate dean of the Graduate School, says.

From the quality of the nominations, it is evident that we have an impressive number of graduate students who are superbly instructing. We hope these awards will enhance the appreciation, both within and outside Penn State, of the quality of teaching represented by these fine young people."

Sponsored jointly by the Graduate School and the Office of the Vice Provost and Dean for Undergraduate Education, the

awards of a certificate and \$500 each recognize excellence in teaching in the areas of physical science and engineering, life sciences, social and behavioral sciences, and arts and humanities.

Teaching assistants nominated for the award were evaluated by the selection committee for the effectiveness of their presentation, mastery of subject matter, use of effective learning techniques, clear and fair student evaluation procedures, accessibility to students, the quality of oral and written feedback to students, recognition of student individuality and their rapport with students. All are taught at least two semesters.

The 1990 award winners are:

- Arts and Humanities: **Linda Ferreira-Buckley**, English; **Chantal Huyghebaert**,

linguistics; **Kathryn McClintock**, art history; and **Wibieke Strehl**, German.

- Life and Health Sciences: **James A. Strauss**, physiology;

- Physical Sciences and Engineering: **Scott Mandia**, meteorology; **Sandra Scrivener**, aerospace engineering;

- Social and Behavioral Sciences: **Cheryl Comeal**, human development and family studies; **Dipankar Ghosh**, business administration; **Joan McGettigan**, mass communications; **Andrea Ogonosky**, school psychology.

Faculty/Staff Alerts

Parking in lot 80

Beginning immediately, student lot 80 will be available for parking for faculty and staff vehicles displaying a current regular parking permit or current part-time parking permit. Lot 80 will be available for faculty and staff parking throughout the summer until Aug. 19.

Student lot 80 is posted no parking 4 to 6 a.m. Monday through Friday. However, this restriction will be eliminated until Aug. 19.

Obituary

Joseph H. Harris, body repairer, Office of the Physical Plant, from May 4, 1970, until his retirement Jan. 1, 1982, died April 24 at the age of 74.

Carpooler

Ride wanted from Lock Haven to the University. Work hours: 8 a.m. to 4:30 p.m. Call **Scott** at (717) 748-4412.

Focus on the arts

Subterranean garden

Chicago artist Donna Zarbin Byrne's installation "Terra Reverie: A Cultivated Space" will transform Zoller Gallery at University Park into a subterranean garden May 18 to June 24.

"Terra Reverie: A Cultivated Space" explores the connection between a mythological plant world and the dream-filled region of the artist's mind. The installation presents references to science and history as well as to myths, demonstrating new interpretations by the artist. The plant forms carry subtle personal messages woven into their roots and stems. Ms. Byrne, a well-known sculptor and installation artist, has exhibited her work in New York, California, Wisconsin, Texas, New Mexico and Israel.

The exhibition is supported by grants from the Pennsylvania Council on the Arts and the Office of Summer Sessions. Summer hours for the Zoller Gallery are: 10 a.m. to 4 p.m. Monday to Friday, 11 a.m. to 4:30 p.m. Saturday, and noon to 4 p.m. Sunday.

The arts on Channel 3

The Mozart *Misique* with Peter Ustinov, airing at 9 p.m. Friday, May 18, is a two-hour special offered in anticipation of the 200th anniversary of Mozart's death at the age of 35 in 1791. The program presents a fascinating look at Mozart both as man and artist.

Host Peter Ustinov chronicles the major events in Mozart's life in his own engaging style, relating anecdotes and stories about

Mozart's colorful lifestyle and the often unlikely circumstances under which his works were created.

Major European opera companies, orchestras and soloists, including the Vienna Philharmonic conducted by Georg Solti and the Royal Opera House Choir and Orchestra of Covent Garden, provide excerpts from Mozart's wide range of compositions for opera, symphony orchestra and chamber ensembles. The program includes selections from Mozart's *Marriage of Figaro*, *Symphony No. 40*, *Eine Kleine Nachtmusik* and his famous *Requiem*.

At 11 p.m. May 18, *The Immortal Beethoven* with Peter Ustinov looks at both the mortal and immortal aspects of the life of Ludwig van Beethoven. Mr. Ustinov begins the program in the small house in Bonn, Germany, where Beethoven was born in 1770, and later travels to Mosbroich Castle, near Cologne, painting a picture of Beethoven's life in broad strokes.

HUB Browsing Gallery

"One Woman Show," a collection of black and white photographs by Susan Rattenbury, recent bachelor of fine arts graduate, is on display through May 19 in the Browsing Gallery of the Hetzel Union Building at University Park.

Museum gala

Holuba Hall at University Park will be transformed into a Texas ranch for The Black Tie and Boots Ball sponsored by the Friends of the Palmer Museum of Art.

The annual fundraiser will start at 7:30 p.m. Saturday, May 19, and will feature an authentic Texas barbecue and dancing, as well as an auction of donated items.

A wide variety of donated items will be auctioned throughout the evening to raise money for educational programs and artistic events at the Palmer Museum.

The Palmer Museum of Art is the only major art museum between Pittsburgh and Philadelphia. All of its exhibitions and supporting programs are free and open to the public.

Chairpersons for the ball are Lana Raup and Jean Dance. Cochairmen are Judy Allara and Leslie Asbury. Tickets are \$75 per person and include champagne, wine, a Texas-style buffet and a contribution to the museum. For tickets, call 863-2142.

Crafts exhibit

An exhibition featuring handcrafted objects from 24 Pennsylvania counties will be on exhibit from May 20 to July 22 at the Palmer Museum of Art at University Park.

"Two Vermilion Azaleas" by Annette Shirey McHugh is on display in the West Lobby Gallery in Pattee Library.

"Craft and Community: Traditional Arts in Contemporary Society" includes objects representing many occupational, regional and religious traditions that have been carefully preserved by contemporary craftsworkers.

The exhibit is co-sponsored by the Balch Institute for Ethnic Studies and the Pennsylvania Heritage Affairs Commission, supported with a grant by the National Endowment for the Humanities.

The exhibition is free and open to the public. Museum hours are: Tuesday to Friday, 10 a.m. to 4:30 p.m.; Saturday, 11 a.m. to 4:30 p.m.; and Sunday, noon to 4 p.m.

WPSU fund-raiser

Nearly \$9,000 was raised for the support of Penn State's WPSU-FM (91.1) during the station's spring fund-raising drive, station officials have announced.

The money will be used for programming and new equipment purchases, and to otherwise supplement the station's operations budget, Dave Dzikowski, station manager, said.

"The response has been terrific, and we're very grateful that all of the communities around the University are supportive of our efforts to bring them the

best in news and music," Mr. Dzikowski added.

The student and volunteer-operated station is part of the School of Communications. Donations are accepted year-round, and volunteers are now being sought to support station activities during the summer.

Art Alley Panels

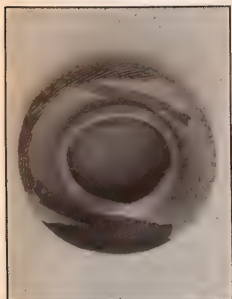

"Diane Reedy: A Closer Look" is on display until June 29 in the Art Alley of the Hetzel Union Building at University Park.

Working in the contemporary medium of acrylics, Diane Reedy stresses light and color over form. Mrs. Reedy, of Lewisburg, is a 1975 graduate of Glassboro State College, Glassboro, N.J. She has won numerous awards for local, state and national shows.

'Metals and Clay'

"Metals and Clay," recent works in metals by State College artisan James MaloneBeach, is on display until May 30 in the Art Alley Cases in the Hetzel Union Building at University Park. The works are in metals, especially silver, and mokume, a

(Continued on page 5)

James MaloneBeach's works in clay and metals are on display in the HUB Art Alley Cases.

'Stars of Summer' to be featured in Summer Sessions

"Stars of Summer" will be featured in Penn State's Summer Sessions programs during June and July with the study of astronomy being presented through lectures, seminars, observatory sessions and visits to Davey Labs.

Arthur B.C. Walker Jr., professor of applied physics at Stanford University, Summer Sessions' keynote speaker, will present an open lecture at 8 p.m. Wednesday, July 18, in the Hetzel Union Building Assembly Room at University Park.

New activities are three lunchtime brown bag seminars at the Pavilion Theatre. On Wednesday, June 13, Larry Ramsey will present Big Telescopes; on Wednesday, July 10, Louis Winkler will discuss Educating Scientists for the Future; and on Friday, July 27, France Cordova will talk about "Women in the Sciences."

Buses will transport stargazers to Black Moshannon State Park for a tour of its observatory and a lawn star party on Thursday, June 28, and Thursday, July 11, with the following days listed as rain dates. The buses will leave the HUB at 8:30 p.m.

Reservations are required and can be made by calling 863-4174.

Two star parties are scheduled for the sixth floor of Davey Labs. On Thursday, June 21, a Summer Solstice Star Party and open house will be held from 9 to 11 p.m.

The rain date is June 22. A Delta Aquarid Meteor Shower Star Party and open house is scheduled for Friday, July 27, from 9 to 11 p.m. The rain date is July 28.

Special exhibits will be mounted during June by the Department of Astronomy in Kern Commons Gallery and in Pattee Library's Rare Books Room.

Seven seminars are planned for the Fireside Lounge at the Nittany Lion Inn. Each event will begin with refreshments at 3:30 p.m. and the talk at 4 p.m.

Scheduled are: June 7, Andrew Ewing, associate professor of chemistry, "Electrochemistry in Ultrasmall Environments;" June 14, Adrian Ocneanu, professor of mathematics, June 21, Eric Feigelson, professor of astronomy, "Portrait of the Sun as a Young Star;" June 28, Stephen Schaefer, assistant professor of biology; July 5, Dan Weedman, professor

of astronomy, "Telescopes for the Next Millennium;" July 19, Andrea Mastro, professor of cell biology; July 26, Jayanth Banavar, associate professor of physics, "Molecular Dynamics of Fluid-Solid Systems."

The air will be filled with music at noon Tuesdays and Thursdays in June and July during Summer Sessions' "Diversions" concerts at Fisher Plaza. In the event of rain, the programs will be held at Kern Commons.

The Graduate Student Association is sponsoring "Explazaganza" concerts on Thursdays beginning at 7:30 p.m. in Fisher Plaza.

Displays at the HUB Galleries will include: "Images '90" in the Formal Gallery and Browsing Gallery, July 9 to 27; "A Closer Look" in the Art Alley Panels, through June 29; photographs by Susan Rattenbury, through May 19 and "A Very Special Art," by Special Olympians, June 1 to 18 in the Browsing Gallery.

Museums at University Park will offer a variety of exhibits throughout the summer. This year, for the first time, the

Anthropology Museum will be open during the summer. Hours will be Mondays through Thursdays, 11 a.m. to 4 p.m. and during Arts Festival week, Wednesday through Sunday, 1 to 5 p.m.

Josef Haslinger, a writer-in-residence at Oberlin College, the German Department's guest speaker, will present a public lecture on Monday, July 16, and a reading from his works, in German, on Thursday, July 19. Both events will begin at 8 p.m. with the location to be announced.

The German Department also is sponsoring a series of seven films to be shown on Tuesday nights, June 19 through July 31, beginning at 8 p.m. in 108 Wartik. With the exception of the July 3 film, all films will be shown in German with English subtitles.

Other activities include: - GSA-sponsored films at Fisher Plaza Tuesdays in June and July at 9 p.m.; - films on the HUB lawn at 9 p.m. June 6, 13, 20 and 27; July 18 and 25 and Aug. 1;

- an open house and craft demonstration at the HUB Craft Centre on June 5 from 7 to 9 p.m.

University Park Calendar

May 17— June 3 Special Events

Monday, May 21
Commission for Women, meeting, 2-4 p.m., 256 Hammond.

Friday, May 25
Shaver's Creek, Owl Prowl, 8-10 p.m. Call 863-2000.

Sunday, May 27
Shaver's Creek, Skulls, Skins and Things, 2-4 p.m. Call 863-2000.

Monday, May 28
Memorial Day, no classes.

Friday, June 1
Intercession ends.

Sunday, June 3
Eight-Week Session begins, arrival day for new students.

International Events

Education Abroad Programs

The following programs for Spring 1991 are available until Oct. 1: Athens, Exeter, Kiel, Manchester (economics), Nice, Rome, San German, Tel Aviv.

Public Radio

WPSU-FM 91.1

All Things Considered, Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Robinson. "Perspectives," 6-7 p.m. Wednesdays. "Creative License," 12-30 p.m. Thursdays, with Asa Berlin and Pam Saulner.

Conferences

Continuing Education

Keller Building

May 17-18. Coal Cooperative Research, Alan Davis, director, energy and fuels research center, chair; Jack Sinclair, coordinator.

May 18. Quality Management within Staff Development: An Integrated Approach. Stephanie Tyworth, program assistant, Office of Health Care Program Development, chair.

Susan Rattenbury's black and white photographs are on display in the HUB Browning Gallery through May 19.

Jerri Milsom, coordinator.

May 18-19. Conference on Mathematics and Science. Gary Mullen, associate dean and professor of mathematics, chair; Norm Labhary, coordinator.

May 18-19. National Association of Geology Teachers. Brian Torrey, assistant professor of environmental sciences, chair; Eric Loop, coordinator.

May 18-20. Adult Golf School. Bob Intrieri, PGA master professional, chair; Jerri Milsom, coordinator.

May 19-20. Pennsylvania's Aware. James Fay, assistant director of residence hall programs, chair; Jack Sinclair, coordinator.

May 20-25. The American Acoustical Society. S. I. Hayek, professor of engineering mechanics, chair; Chuck Herd, coordinator.

May 21-22. Pennsylvania Presents. Norm Labhary, coordinator.

May 21-25. HEC 2 Flood Plain Hydraulics. Arthur Miller, professor of civil engineering, chair; Barb Impellitteri, coordinator.

May 22. CIRP International Working Seminar. Inyong Ham, professor of industrial

engineering, chair; Bill Sterner, coordinator.

May 23-24. Pennsylvania Council of Teachers of Mathematics. Robert Nicely, assistant dean of continuing education and commonwealth relations, College of Education and professor of education, chair; Jerri Milsom, coordinator.

May 23-25. North American Manufacturing Research. Paul Cohen, associate professor of

industrial engineering, chair; Bill Sterner, coordinator.

May 27-June 2. Elderhostel 1. J. Jerome Zellen, assistant professor of speech communications, chair; Jack Sinclair, coordinator.

May 29-31. Stormwater Management. David Kikler, professor of civil engineering, chair; Barb Impellitteri, coordinator.

May 30-31. Overview of the Coal Mining Industry. Robert Frantz, professor of mining engineering, chair; Eric Loop, coordinator.

May 30-June 1. Planning and Designing Longwall Mining Systems. R. V. Ramani, head, Department of Mineral Engineering, and professor of mining engineering, director; Norm Labhary, coordinator.

May 30-June 1. Troubleshooting O & M Problems in Wastewater. David Long, professor of civil engineering, chair; Eric Loop, coordinator.

May 30-June 1. Poles/Past Alumni Conference. Ed Donovan, assistant professor of administration of justice, chair; Kathy Karchner, coordinator.

May 30-June 2. Acoustics and Signal Processing. Alan Stuart, senior research associate, chair; Kathy Karchner, coordinator.

June 1-3. American Region Mathematics League. Bill Sterner, coordinator.

June 1-3. Adult Golf School. Bob Intrieri, PGA master professional, chair; Jerri Milsom, coordinator.

June 1-3. Union Leadership Academy. Gilbert

Call, assistant professor of labor studies, chair; Chuck Herd, coordinator.

June 3-8. Occupational Safety and Health Administration Institute. Richard Hendle, associate professor of labor studies, chair; Chuck Herd, coordinator.

Exhibits

HUB Galleries

Formal Gallery, Art Alley, Browning Gallery: "A Very Special Arts," June 1-18.

Art Alley Panels:

Diane Reedy, "A Closer Look," through June 29.

Art Alley Cases:

James Malone/Beach, Metals and Clay through

May 30.

Ann Nicholson Tait, "Collage Jewelry Creations," through May 30.

Browsing Gallery:

Susan Rattenbury, "One Woman Show," through May 19.

Kern Galleries

Selections from the Graduate Research

Exhibition, through May 15.

College Research Exhibitions, College of

Agriculture, through May 25.

College Research Exhibitions, College of

Medicine, May 28-June 15.

Palmer Museum of Art

Figurative Drawings of the 17th and 18th Centuries from the Accademia Nazionale di

San Luca in Rome, through May 20.

Selections from the Permanent Collection,

through Oct. 7.

Craft and Community: Traditional Arts in

Contemporary Society, May 20-July 22.

Pattee Library

Lending Services Gallery:

Kim Fisher, "By the Mountains and the Sea,"

through July 6.

Rare Books Room:

Photography: A 150th Anniversary Exhibit,

through May 31.

East Corridor Gallery:

Dori Lemeh, "The Gathering," through June 1.

West Lobby Gallery:

Annette S. McHugh, Chinese Brush Paintings

through July 6.

TIPS

Information Penn State

Call 863-1234, press 1 and enter the number of the message you wish to hear. Messages are listed in the front of the telephone directories. Other messages are Weather, 234; Arts Line, 345; University Calendar, 456.

Focus on the arts

(Continued from page 4)

Japanese technique for combining metals.

A graduate of Bemidji State University in Bemidji, Minn., Mr. MaloneBeach received a master's degree in art metalsmithing from the University of Iowa. His work has been shown in numerous art shows.

Jewelry exhibit

One-of-a-kind collage jewelry creations by Ann Nicholson Tait of Boalsburg will be on display in the glass cases lining the HUB Art Alley through Wednesday, May 30.

Made from collectible trinkets such as antique buttons, beads, buckles and other tiny treasures, each piece takes hours to create and is assembled by hand using wire and various glues to insure its sturdiness. Because of the special memories hidden within the component parts of the jewelry, Ms. Tait calls the collection "Merry Memorabilia."

She has exhibited her paintings and won awards in many group competitions and has had 24 one-artist shows. This is her fourth jewelry exhibit.

Pattee exhibit

The East Corridor Gallery of Pattee Library is housing an exhibit titled "The Gathering," by Dori Lemeh, through June 1. The paintings are large oil on canvas renderings of trees, rocks, landscapes, and "inner landscapes." Color plays a huge role

in these canvases as they explode, drip and meander.

Ms. Lemeh has participated in numerous group exhibitions. She received her master of fine arts from Penn State in 1989 and now is an assistant professor of art in the School of Visual Arts.

Chinese brush paintings

Chinese brush paintings by Annette S. McHugh are on display in the West Lobby Gallery of Pattee Library through July 6.

The exhibit, titled "Thoughts of the East," features traditional Chinese permanent ink on rice paper. The subjects are primarily floral with the exception of "Green and Purple Grapes with Butterflies" and "Pink Pine and Pine Cone."

Of Chinese brush paintings, Ms. McHugh says, "In order to master the brush painting technique in the traditional manner, one must first learn to control the motion of the paint-filled brush. These are many rules that must be followed."

Color photographs

The Lending Services Gallery in Pattee Library is displaying color photographs of seascapes and mountains in an exhibit titled "By the Mountains and the Sea" by Kim Fisher, through July 6.

The photos capture the essence of the California coast. Mr. Fisher, acquisitions librarian for Approval Plans and Gifts,

University Libraries, likes beautiful scenes as well as some of the details that many people might not see as subjects for photographs.

'A Shayna Maidel'

Pennsylvania Centre Stage opens its fifth season with the touching and inspiring drama "A Shayna Maidel." The show runs from June 20 to July 7 in the Pavilion Theatre at University Park.

Written by Barbara Lebow, "A Shayna Maidel" (Yiddish for a pretty girl) captures the pain and struggle of one family separated by the terror of the Holocaust and their emotional reunion during the years following.

However, the play is not a history of the Holocaust. There are no grisly accounts of murder or uniformed soldiers pacing around. Emotional scars and the anguish of losing contact with loved ones are the only reminders of the horrors of World War II.

Since the show's first production in 1985, it has received widespread critical acclaim and will be called a Hallmark "Hall of Fame" television special in the near future.

"A Shayna Maidel" runs June 22 and 23, 26-30 and July 3-7 with preview performances on June 20-21 and a matinee Saturday, June 30, in the Pavilion Theatre.

Single tickets go on sale beginning May 29. Subscriptions for the season, which also includes the Broadway musical "1776" and the thriller "Sleuth," are available now. For more information, call the Eisenhower Auditorium Ticket Center at (814) 863-0255.

Researcher looking for anxious people

Thomas D. Borkovec, professor of psychology, is looking for "anxious" people.

Most people worry, but for some, worrying is excessive, unrealistic or overwhelming. These worriers may be experiencing Generalized Anxiety Disorder (GAD).

The Stress and Anxiety Disorders Institute in the Department of Psychology is conducting an ongoing research study which is designed to help people with this disorder.

You may be experiencing GAD if:

- you worry excessively or unrealistically or are overly anxious much of the time,
- you have experienced this excessive worrying or anxiety for at least six months
- when worried or anxious you also experience physical symptoms such as trembling, muscle tension, restlessness, fatigue, shortness of breath, increased heart rate, sweating, dizziness, abdominal distress, frequent urination, feeling keyed up, difficulty concentrating, sleep problems or irritability.

- these concerns are not about having panic attacks.

- Subjects ages 18-65 included in the study will receive 14 free sessions of individual psychotherapy. Strictest confidentiality is maintained.

If you believe that you are experiencing GAD and would like to be considered for this program, call (814) 865-1725.

Appointments

Judith V. Boettcher has been appointed assistant director of the Computer Based Education Laboratory (CBEL), a unit of the Center for Academic Computing.

A graduate of Marquette University with B.A. and M.A. degrees, she received a Ph.D. in cognitive psychology and secondary education from the University of Minnesota.

Prior to joining Penn State, Dr. Boettcher led the effort of the William C. Norris Institute and the Transformed School Consortium in Minnesota in the design and development of an instructional planning and management software tool. She also was a member of the faculty in applied psychology at St. Cloud State University.

Previously, she was a manager at Control Data Corp., where she had responsibility for higher education marketing programs, and managed coursework development projects in employee health, management, and basic skills.

The primary mission of CBEL is to support the University faculty in the application of technologies to the teaching and learning environments. Dr. Boettcher and other members of the CBEL staff currently are reviewing CBEL's mission and goals with a view towards broadening its support to include faculty who are at different points in implementing technology.

Faculty and staff members who are interested in learning more about CBEL's services and projects are encouraged to

Judith V. Boettcher

contact Dr. Boettcher at 20 Willard Building, University Park, telephone (814) 865-0814.

Gary J. Dillon has been appointed president and chief executive officer of Healthpass Inc., a for-profit subsidiary of the Corporation of The Pennsylvania State University.

Mr. Dillon formerly was vice president, responsible for managed care operations, and director of the Healthpass Preferred Provider Arrangement, a health benefits program serving more than 22,000 members in the Commonwealth.

Healthpass Inc. is involved in developing new businesses related to the health industry and complementing the managed care programs centered on the Preferred Provider Arrangement. Healthpass PPA has a growing network of more than 700 physicians and 12 hospitals in Pennsylvania.

Mr. Dillon has been with Healthpass since 1986. He formerly was with the Health Insurance Plan of Greater New York, a 900,000 member HMO. He has extensive experience with group practice management and has held a number of senior hospital administrative positions in New York.

Glenn B. Knight has been appointed director of community relations at Penn State Harrisburg.

He is responsible for organizing and conducting a comprehensive university relations program to include public information, publications and alumni affairs.

Mr. Knight, a graduate of the State University of New York at Albany with a B.S. degree in political science, was owner and publisher of *The Parking Post*, a weekly newspaper in Chester County. Prior to that, he was director of development and public relations at Ephrata Community Hospital in Lancaster County.

A member of numerous historical societies, he is a graduate of the Leadership Lancaster program of the Lancaster Chamber of Commerce and Industry.

Peter W. Schmid has been appointed

general manager of the Nittany Lion Inn, it has been announced by Steve A. Garban, senior vice president for finance and treasurer.

"Peter brings to the general manager's position extensive experience and knowledge in food and beverage services, as well as significant hotel management experience," Mr. Garban said. "His skills and leadership will be a valuable asset in maintaining the Nittany Lion Inn's food and hotel services as one of the best in the country."

Mr. Schmid was educated in Germany and has a degree in business, Kaufmannische Berufs-Schule, Schwenninger/Neckar. He has 17 years of experience operating Holiday Inns in Pottstown, Danville and Clearfield.

He served in the general manager capacity for a Ramada Inn in Morgantown for one year and the Sheraton Inn in St. Clairsville, Ohio, for three years. For the past 10 years, he has been the managing director for Tofrees Hotel, Resort and Conference Center.

The Nittany Lion Inn opened its doors for business on May 5, 1931. A major expansion was completed in 1957. The Inn will undergo a second major expansion/renovation during this next year.

The room capacity will be expanded from 131 rooms to 265 rooms. A 500-seat ballroom, a board room, several meeting rooms, a bistro-style bar/restaurant and a health club/sauna are included in the expansion plans.

Penn Staters

Ralph Eckert, assistant professor of history, Penn State Erie, The Behrend College, presented a paper on "Race and Religion in Southern Politics" at the American Culture Association conference in Toronto, Canada.

Sheldon R. Gelman, professor of social work, was the keynote speaker at the annual Field Work Conferences at Virginia Commonwealth University, the University of North Carolina (Chapel Hill), and the Kentucky Association of Social Work Education.

Leila V. Moore, associate director of the Center for Student Involvement and Leadership, and affiliate associate professor of counselor education, has been elected president-elect of the American College Personnel Association.

Gerhard F. Strasser, associate professor of German and comparative literature, gave an invited lecture on "Diplomatic Cryptology and Universal Languages in the 16th and 17th Centuries" at the 10th Military History Symposium and The Royal Military College of Canada in Kingston, Ontario.

Edwin L. Herr, born of the Division of Counseling and Educational Psychology and Career Studies, has received the 1990 AACD Professional Development Award and the 50th Anniversary Professional Leadership Award from the American Association for Counseling and Development. Dr. Herr also has been chosen as the 1990-91 Visiting Scholar of the University Council for Vocational Education, a consortium of 20 prestigious doctoral granting programs in vocational education.

E.E. Klaus, professor emeritus of mechanical engineering, has been appointed to the International Tribology Council and to the board of trustees of ACTIS (A Computerized Tribology

Information Service). The Detroit Diesel Corp. also has named Dr. Klaus chairman of the Methanol Fuel/Oil Technology Conference.

Richard M. Lerner, professor of child and adolescent development, has been appointed editor of the Society for Research on Adolescence's new journal, *The Journal of Research on Adolescence*.

Anne C. Petersen, dean of the College of Health and Human Development, has been elected president of the Society for Research on Adolescence.

Kathleen Heid, assistant professor of education, has received the "Outstanding Contribution to Mathematics Education Award" from the Pennsylvania Council of Teachers of Mathematics.

Austin J. Jaffe, professor of business administration, gave the keynote address, "Recent Techniques of Investment Analysis," at the International Faculty Conference on Property Investments in a Modern Business Environment at the National University of Singapore. He also made presentations at Bangkok University in Thailand and at Hong Kong Polytechnic.

Archie J. McDonnell, professor of civil engineering and director of the Environmental Resources Research Center, has been appointed by the National Association of State Universities and Land-Grant Colleges to the board of directors of the new Provisional Division of Environmental, Natural Resources, and Marine Affairs. He also has been elected to a three-year term on the board of directors of the Pennsylvania Environmental Council.

Wolfgang E. Meyer, professor emeritus of mechanical engineering, has received the 1989 Hartwig W. Krummer Lecture Award from the American Society for Testing and Materials (ASTM) for his

paper on "Pavement Texture Significance and Measurement." The award honors those who contribute to the advancement of pavement management technologies through personal accomplishment and stimulation of research.

James Nolan, assistant professor of education, has received the "Outstanding Research and Publication Award" for 1989 from the Pennsylvania Association for Supervision and Curriculum Development.

David B. Van Dommelen, professor emeritus of art education and fiber arts, exhibited two works at the Fiber Arts Exhibit at the Packwood House Museum in Lewisburg.

Marcus H. Voth, associate professor of nuclear engineering and director of the Penn State Breazelle Nuclear Reactor, participated in the evaluation of research programs conducted by the Peruvian Institute of Nuclear Energy at the invitation of the U.S. State Department.

Kon-Well Wang, associate professor of mechanical engineering, has received a 1990 Ralph R. Teeter Educational Award from the Society of Automotive Engineers in recognition of his accomplishments in education and his activities in support of student research at Penn State.

Cheryl Dellasega, assistant professor of nursing in the College of Health and Human Development, has been selected for a national fellowship program of the Gerontological Society of America. She plans to work with the Cleveland Visiting Nurses Association to assess the levels of cognitive impairment in its elderly clients.

Erdener Kaynak, professor of marketing at Penn State Harrisburg, has been invited by the Chinese government to develop teaching and case material in international business/marketing for 10

weeks during the 1990 summer. Dr. Kaynak will work at the Hunan Province Economic Management Cadres College (HEMC), Changsha, capital of the Hunan Province.

Earl M. Kesler, professor emeritus of dairy science, has been named the 1990 Dairy Distinguished Alumnus by the Department of Dairy and Animal Science.

Antonio Nanni, assistant professor of architectural engineering, has received a \$381,000 two-year contract as part of the Construction Productivity Advancement Research Program, sponsored by the U.S. Army Corps of Engineers, the Pennsylvania Department of Transportation and industry partners.

Gerald Potter, director of the Shaver's Creek Environmental Center in the College of Health and Human Development, has been named Pennsylvania's Conservation Educator of the Year for outstanding achievement in formally or informally educating others in conservation, leadership by example or by demonstration that aids in the education of others, and significant contributions to the conservation of Pennsylvania's natural resources.

Ronald A. Smith, professor of exercise and sport science in the College of Health and Human Development, has been elected a Fellow in the American Academy of Physical Education. The honor, given for accomplishments and contributions to the profession, has been awarded to only 327 people since the academy was founded in the 1920s.

Vladimir S. Stubican, professor of materials science and engineering, gave invited lectures at the University of Hannover, West Germany; the University of Darmstadt, West Germany; the University of Paris, France, and at the National Center for Research, Bellevue, France.

Eleventh group of buildings joins campuswide recycling

May 21 kicks off the eleventh group of University Park buildings to start the campuswide recycling program.

"To date, we have recycled 200 tons of paper and 25 tons of containers," says Phil Melnick, manager of support operations and special programs for the Physical Plant.

People are reminded that not all waste is acceptable for recycling. There are two separations: one for paper and one for containers. Other material is considered non-recyclable trash and should be discarded as usual.

Recyclable paper includes white ledger paper (writing, typing and copy), newspaper, computer printout and corrugated cardboard.

Containers include clear, green and amber glass, aluminum cans, plastic soda bottles without caps, plastic milk and water

jugs (no caps), steel and tin metal cans.

The buildings are: Barbara, Central Milk Testing, East Area Locker Room, Fleet Operations, Heluhla Hall, Hostetter Business Services, Shields, Indoor Tennis Courts, and Wagner.

The janitorial employees and a network of select individuals in each building have had a more detailed orientation and they will be assisting with the program in their departments.

Carpoolers

Tim is looking for carpoolers from Philipsburg to University Park. Work hours are from 8 a.m. to 5 p.m. Call 342-3827 (after 6 p.m.)

manager at Hershey, from Sept. 8, 1970, until April 1.

Dorothy G. Bell, secretary B at Hershey, from Oct. 9, 1978, until April 21.

Viola R. Vonada, residence hall utility worker, Housing and Food Services, from Oct. 28, 1978, until April 21.

Dean S. Shawver, residence hall utility worker, Housing and Food Services, from Nov. 13, 1978, until April 28.

Partings

Lee A. Bond, assistant extension agent, Agriculture, from Jan. 2, 1980, until March 24.

John M. Wojcik, maintenance worker B at Delaware County Campus, from Aug. 27, 1979, until March 31.

Antoinette M. Roznowski, nursing

University professor appears on CBS TV

CBS' *This Morning* did a live broadcast via satellite from the Landscape Management Research Center at University Park on May 2. Thomas Watschke, professor of turfgrass science, discussed proper lawn care and mowing techniques with anchor Paula Zahn in New York. Dr. Watschke is shown here with a CBS cameraman during taping for the show. (Photo: Steve Williams)

Obituaries

M. Josephine Groeschke, office manager, Department of Purchases, from Oct. 15, 1926, until her retirement March 1, 1966, died April 29. She was 83.

Dougald T. Gillespie, maintenance worker at the Penn State New Kensington Campus from Jan. 4, 1971, until his retirement March 1, 1988, died March 28 at the age of 64.

News in Brief

Bicycle registration

Register or have your bicycle impounded is the message to anyone who rides a bike on the University Park Campus.

"Bicycles that are left unattended or do not bear a 1990 registration will be impounded by Police Services,

beginning June 1," Robert E. McNichol, police service supervisor for the Department of University Safety, said.

He advises bicyclists to check their registration for the expiration date. "If it expires on or before May 31, bicycle owners must obtain a new registration to avoid having their bicycle impounded in June."

New bicycle registrations are free at all visitor information booths, or after 5 p.m. at Police Services in Grange Building.

Distinguished mentors

Five members of the Division of Continuing Education have been named by the National University Continuing Education Association to serve in a new distinguished mentors program to help orient new universities and institutions to the field of continuing education.

They are Frank Montgomery, director of Continuing Education administrative services; Chester C. Gnat, director of the Division's Department of Public

Information and Publications; James Campbell, northeast regional director of continuing education; Deborah Hitchcock, director of continuing education at Penn State Ogonitz Campus, and Donald Gogniat, director of continuing education at Penn State York Campus.

Each has been assigned to serve as a mentor for a number of new institutions during the coming year.

International opportunity

The Rotary Foundation of Rotary International offers a grants program for university teachers to serve in developing countries.

Approximately 10 grants will be awarded annually (\$10,000 each) to selected higher education faculty to teach at universities of their choice in developing countries. Applicants must hold (or if retired, have held) a university appointment at a rank equivalent to associate professor or higher.

Awards are not restricted by gender, age, or marital status. For more information, contact the Rotary Foundation of Rotary International, 1560 Sherman Ave., Evanston, IL 60201.

Research subjects sought

Male research subjects between ages 18

to 35 who are either fit cyclists/triathletes or unfit (but not obese) are being sought for a project to be conducted in Noll Laboratory for Human Performance at University Park.

The time commitment for each subject is: two hours for physical exam and fitness assessment; 2.5 hours for an oral glucose tolerance test, and three hours for the experiment (blood draws at rest and moderate exercise).

A total of three to four visits to the lab will be required. If interested in participating, call Jill at 863-0525 or 867-9402.

Hazleton ground breaking

President Jordan will join other University officials and government, business and community leaders from the Greater Hazleton area in ground-breaking activities for a new building at the Penn State Hazleton Campus at 3:30 p.m. Friday, May 25.

The new academic building has been a number of years in the planning. In 1987, campus officials, the Hazleton Educational Council and Campaign Committee began a \$1.5 million loan campaign to raise monies for the new center.

When completed in August 1991, the new building will contain several traditional classrooms that will seat

approximately 80 students each, an amphitheater for 120 that will contain state-of-the-art educational equipment, faculty offices, student study space and a lobby/exhibit area.

Walker awards anniversary

More than 90 Penn State Walker Award alumni joined this year's student winners, faculty and campus administrators to celebrate the 20th anniversary of the Eric A. and Josephine S. Walker Awards on May 6.

Endowed by President Emeritus Eric Walker in 1970, the annual Walker Award recognizes a student from each Penn State campus whose outstanding qualities of character, scholarship, leadership and citizenship have positively influenced fellow students, and whose abilities and actions have contributed to the prestige and well-being of their campus and the University as a whole.

William Asbury, vice president for student services, welcomed the students and alumni, who honored Dr. and Mrs. Walker with a book of biographical sketches of all award winners. Dr. Walker served as president from 1950 until his retirement in 1970. This year's winners received a medalion designed by internationally acclaimed medalist and Penn State faculty member John Cook.

Staff Vacancies

(Continued from page 8)

years of effective experience in community service with fundraising responsibilities and evidence of excellent verbal and written communications. Knowledge and experience with business and/or industry preferred. Travel required. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH POSSIBILITY OF RE-FUNDING. STAFF GRADE 6.

• **Editorial Assistant, CES, University Division of Media and Learning Resources, WPXS-TV, University Park Campus**—Responsible to the director, Center for Instructional Design, WPXS-TV, for preparing reports, articles and similar materials and providing general administrative support. Requires bachelor's degree in journalism, English, or related field and six to 12 months of effective

experience in television production news or news release writing. An associate degree and one to two years of effective experience may be substituted for the degree. Experience with microcomputer operations is desirable. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH POSSIBILITY OF RE-FUNDING. STAFF GRADE 4.

• **Administrative Aide, Eberly College of Science, Mathematics Department, University Park Campus**—Responsible for the effective administration of the departmental office. Supervise clerical staff. Coordinate and process personnel actions. Requires high school, or equivalent, plus two to four years effective experience in an administrative capacity. Knowledge of established policy, procedure and practice required. Supervisory

and budgetary experience preferred. Excellent interpersonal skills and ability to communicate effectively verbally and in writing also required. Experience with spreadsheets desirable. STAFF GRADE 5.

• **Administrative Aide, Eberly College of Science, Astronomy Department, University Park Campus**—Responsible for assisting in the administration of the department, to include personnel, budgetary matters, and special projects. Assist department head in managing outreach programs to alumni and donors. Write, edit and publish monthly departmental newsletter. Requires associate degree or equivalent plus two to four years effective administrative and supervisory experience. Good organizational skills and knowledge of computer software including spreadsheets, graphics, and word processing required.

Excellent interpersonal skills and ability to communicate effectively verbally and in writing also required. STAFF GRADE 5.

• **Public Information Assistant, University Relations, Wilkes-Barre Campus**—Responsible to the director of university relations for organizing and conducting an effective comprehensive public information program for the campus. Responsible for working with news media, producing and writing publications, and creating advertisements. Requires bachelor's degree in journalism, English communications, or equivalent, plus one to two years of effective experience in newspaper and/or journalism, writing or public relations. Position requires a high level of skill, clarity and accuracy in oral and written communications. STAFF GRADE 6.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. The announcement is made so that all University employees who are interested in promotion MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 463-0304 (WORKLINE LINE 433-0304). Applications for these staff vacancies will be accepted until May 24. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment Practices (PS 11) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex or status as a disabled or Vietnam era veteran.

• **Division of Undergraduate Studies Programs Coordinator - College of Engineering, Undergraduate Education, Division of Undergraduate Studies, University Park Campus** - Responsible for the coordination of programs and services of the Division of Undergraduate Studies in the College of Engineering. Administer these programs and services according to guidelines for procedures for undergraduate students. Requires master's degree or equivalent, plus one to two years of effective experience related to engineering, mathematics, or science and effective experience in college level academic advising. STAFF GRADE 7.

• **Assistant Director, University Scholars Program, Undergraduate Education, University Park Campus** - Responsible for administrative support in the various phases of the University Scholars Program, including primary oversight of honors advising, honors study and program evaluation, honors education at CES locations, the Scholars Service Achievement in Leadership program, and liaison activities as assigned. Requires master's degree, or equivalent, plus two to three years of effective experience. Advancing experience desired. Excellent interpersonal and writing skills are required. STAFF GRADE 7.

• **Pharmacist, Student Services, University Health Services, University Park Campus** - Responsible for manufacturing, compounding and dispensing medicines. Assist in maintaining and submitting required records, and in maintaining a pharmaceutical library. Meet with manufacturers' representatives to keep current on new products. Requires bachelor's degree in pharmacy, plus 2-400 hours internship and successful completion of the State Pharmacy Board Examination. One to two years of effective experience is necessary. STAFF GRADE 6.

• **Electronics Communications Specialist, Division of Development and University Relations, Public Information, University Park Campus** - Responsible to the head, Radio-TV Section for providing support with video news and feature products and in promoting minority and diversity visibility on radio and television programs. Requires bachelor's degree, or equivalent in communications or related field plus one to two years of effective experience. Some knowledge of electronic media production process editing preferred. STAFF GRADE 6.

• **Project Director, Training and New Business, Senior Vice President for Research and Dean of the Graduate School, Ben Franklin Technology Center for Central and Northern Pennsylvania Inc., University Park Campus** - Responsible for working closely with industry, business, and colleges and universities to manage education and training and entrepreneurial development activities of the Ben Franklin Partnership. Requires bachelor's degree in business administration or related field plus four to seven years of effective experience in preparing

proposals, project budgeting, financing and control. Excellent verbal and written communication skills are essential. THIS IS A FIXED-TERM POSITION FUNDED THROUGH AUG. 31, 1991, WITH EXCELLENT PROBABILITY OF REFUNDING. STAFF GRADE 8.

• **Alumni Relations Coordinator, Liberal Arts, Alumni and Development, University Park Campus** - Responsible for all alumni relations activities including working with LA Alumni Society Board, planning alumni related events, and increasing number of active alumni in the College. Additional duties include coordinating the preparation of the LA Alumni Society Strategic Plan and coordinating all scholarships and other awards for the College. Requires bachelor's degree, or equivalent, in liberal arts or related field plus one to two years of effective experience managing or coordinating projects. STAFF GRADE 6.

• **Head Coach - Women's Lacrosse, Intercollegiate Athletics, University Park Campus** - Responsible for the organization and administration of the women's lacrosse program to include coaching, scheduling, budgeting, recruiting, instruction and program management. Requires bachelor's degree, or equivalent, plus one to two years of coaching experience, a thorough knowledge of NCAA rules and demonstrated skill in administration to direct a NCAA Division I program. THIS IS A 12-MONTH APPOINTMENT. STAFF GRADE 6.

• **Assistant Coach, Women's Volleyball, Intercollegiate Athletics, University Park Campus** - Responsible for assisting with coaching the intercollegiate women's volleyball team. Major responsibilities include planning, organizing, and conducting recruiting campaigns. Other responsibilities include coordinating game and tournament arrangements, assisting in planning,

organizing, and conducting team practices, and helping players in one-on-one instructional setting. Requires bachelor's degree, or equivalent, plus up to one year of effective coaching experience in volleyball preferred. THIS IS A 12-MONTH POSITION. STAFF GRADE 5.

• **Assistant Manager, Golf Shop, Auxiliary Recreation Services, University Park Campus** - Responsible for assisting with the general administration, operations and management of the golf shops, practice range and University golf courses. Requires bachelor's degree, or equivalent, in recreation, business or related field plus one to two years effective experience in the golf business. Must possess a P.G.A. class "A" membership card or be enrolled in the P.G.A. apprentice program. STAFF GRADE 5.

• **Director of Food Services, Housing and Food Services, University Park Campus** - Responsible to the assistant vice president for housing and food services for the operation, management and administration of food service programs which include eight dining commons, the Helzel Union Building, catering, commissary, purchasing, bakery and warehousing. Requires bachelor's degree, or equivalent, plus over four years up to and including seven years of effective experience. STAFF GRADE 10.

• **Clinical Nurse Specialist - Neurosurgery, College of Medicine, Department of Surgery/Department of Nursing, The Milton S. Hershey Medical Center** - Responsible to the surgery chief of a defined section and an assistant director of nursing for providing nursing expertise within his/her clinical specialty and for managing and providing care for the surgical patient utilizing collaborative consultation with team members and written protocols. Requires master's degree in nursing plus one to two years of effective clinical experience in

area of expertise and current licensure by Pennsylvania Board of Nursing as a nurse practitioner. Certification in specialty area is desirable. STAFF GRADE 7.

• **Clinical Nurse Specialist/CNPP, College of Medicine, Pediatrics and Nursing, The Milton S. Hershey Medical Center** - Responsible to the neonatologist for all clinical and medical aspects and to the assistant director of nursing, maternal and child health for nursing care and administrative aspects. Also responsible for managing and providing care for the infant who requires neonatal intensive care, utilizing collaborative consultation with team members and written protocols. Requires master's degree in one of the nursing clinical specialty areas plus one to two years of effective experience and licensed by the State Board of Nursing as a nurse practitioner. STAFF GRADE 7.

• **Assistant to the Director of Student Programs and Services, CES, Student Programs and Services, New Kensington Campus** - Coordinate and administer student financial aid services and veterans affairs matters; counsel students and parents regarding application procedures, eligibility and planning. Coordinate college work study and scholarship programs. Plan and present financial aid programs for students, parents and high school groups. Requires master's degree in student personnel or closely related field, plus up to one year of effective experience in student financial aid or related area. STAFF GRADE 6.

• **Development Assistant, CES, Development, Wilkes-Barre Campus** - Assist in the planning, implementation and coordination of all campus fundraising programs as part of the University's overall comprehensive development plan. Requires bachelor's degree, or equivalent, in marketing, communications or related field, plus one to two years of effective experience in student financial aid or related area. STAFF GRADE 6.

(Continued on page 7)

College seeks grants and contracts director

The College of Medicine invites applications for the position of director of grants and contracts. The position reports to the associate dean for academic affairs, research and graduate studies.

Specific duties of the director include: providing assistance to faculty seeking support for research, education and service programs; verifying institutional compliance with University and sponsor policies; preparing and submitting applications for grants, contracts, and cooperative

agreements to external agencies; preparing, reviewing, and negotiating contracts; expanding the external funding basis for staff projects.

The successful candidate should have extensive experience with grant/contract administration either as a faculty member or a research administrator and have a thorough knowledge of accounting and budgetary requirements of funding agencies. Preference will be given to candidates with doctoral degrees and

experience in grant/contract administration at a research university or comparable institution.

Submit a letter summarizing qualifications, a curriculum vitae and names of at least three references to: C. McCollister Everts, senior vice president for health affairs and dean, College of Medicine, The Milton S. Hershey Medical Center, The Pennsylvania State University, P.O. Box 850, Hershey, Pa. Deadline for receipt of applications is July 1.

Applicants sought for department head posts

The College of Education is inviting applications/nominations for six department head positions.

Due to reorganization within the College, the executive vice president and provost has authorized internal searches to fill department head positions for these new departments.

Administration, Policy, Foundations, and Comparative/International Education; Adult Education and Instructional Systems; Counselor Education, Counseling Psychology, and Rehabilitation Services; Education; Curriculum and Instruction; Educational and School Psychology and

Special Education; Vocational and Industrial Education.

Major responsibilities include: providing leadership with respect to the programs, research and professional service activities of the department; organizing and recommending faculty assignments; evaluating and making recommendations concerning promotion, tenure, and salary; maintaining a positive climate of professional productivity and cooperation among faculty in the programs of the department; managing operating budget; serving as chief administrative officer of the department; pursuing relevant scholarship and research and teaching.

Qualifications include appointment as a tenured professor or associate professor within the College of Education department to which application is made. Appointments will be effective July 1.

Applicants should submit a cover letter addressing the responsibilities and qualifications and including the names, addresses, and telephone numbers of three references. A current professional vita is required.

Submit applications to Rodney J. Reed, dean and Pennsylvania professor of education, 275 Chambers Building, University Park, Pa. 16802. Deadline is June 1.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

UNIVERSITY

In the Eberly College of Science

New genetics institute is established

The University has established an Institute of Molecular Evolutionary Genetics devoted to the study of the evolutionary processes at the level of the structure of DNA and proteins.

"We have been building a group of molecular population and evolutionary geneticists for several years," **Robert K. Selander**, holder of the Eberly family chair in biology, said. "Nowhere else will you find a better interdisciplinary group of scientists working in this emerging area of biological science."

In September, **Masatoshi Nei**, currently of the University of Texas, Houston, will join the Department of Biology in the Eberly College of Science as distinguished professor of biology and as director of the institute. **Austin Hughes**, another theoretical population geneticist, also will join the institute as assistant professor of biology.

With the addition of Drs. Nei and Hughes, the University will have the largest group of researchers in the field.

The Institute for Molecular Evolutionary Genetics draws from the colleges of Science, Liberal Arts, Agriculture and The Milton S. Eshelman Medical Center for an

interdisciplinary group of researchers in biology, molecular and cell biology, entomology, anthropology, veterinary sciences and microbial pathology.

"Ultimately, how far the institute will go depends on how this new field of science develops," Dr. Selander said. "Members of the institute are talking and collaborating all the time, and we are bringing together the combined weights of our expertise and talents in recruiting, seminars and cross fertilization of ideas."

Molecular evolutionary biologists study variation in the structure of genes and proteins using a variety of laboratory and statistical techniques that have only become available in the last few years. Of major interest is the identification of the fundamental processes influencing evolution at the molecular level and the roles played by mutation, natural selection and random genetic drift, according to Dr. Selander.

"There are some genes that haven't changed in as extremely long time and others that evolve so rapidly that no two people are genetically identical, not even identical twins," Dr. Selander said. "We would like to understand

why there is this great variation in the rate of evolution among different genes."

Researchers also would like to know the extent to which evolution is caused by random genetic drift of neutral mutations and by Darwinian natural selection.

Another area of interest is the ways in which variation in DNA can be used as a molecular clock. "We know that many genes tend to evolve at a more or less constant rate," Dr. Selander said. "If DNA can provide an accurate clock then, once we calibrate the clock, we can infer the evolutionary relationships between species and determine the time at which two forms diverged from a common ancestor even in the absence of a fossil record."

He noted that research on the genetic structure and variation of bacteria and viruses and the evolution of populations also is important because these organisms change very rapidly, and phenotypic characteristics may not link them to their ancestors.

"The influenza virus is a good example of extremely rapid change. The virus evolves so rapidly that frequent changes in vaccine are necessary to protect against epidemic outbreaks."

At Penn State Mont Alto Campus

Students experience 'Adventure in Learning'

Nearly 1,400 Southcentral Pennsylvania middle and junior high school students experienced "Adventures in Learning" at the Penn State Mont Alto Campus earlier this month.

They learned a little French or German, observed life in a stream, examined Greek myths, experimented with electricity and lasers, discussed Shakespeare, analyzed chemical elements, tested their skills in world geography, and worked with physical therapy equipment in hands-on workshop sessions designed to acquaint them with the college learning experience.

Based on the success of a nationally recognized program offered at the campus on selected Saturdays during the past five years, "Adventures in Learning" -- an early intervention program to get students interested in higher education -- has been expanded to include one-day field trips for whole classes of students.

Students select two workshops, from 9 to 11 a.m. and from 11:45 a.m. to 1:45 p.m., from lists of eight to 10 offerings taught by Penn State Mont Alto faculty members, who during the past five years have volunteered their services.

One class of sixth graders at the Chambersburg Area Middle School funded their own attendance at the "Adventures in Learning" program through their share of a monetary award the school recently received for outstanding academic achievement.

Tuition for the program is \$10 per student to cover the cost of lunch, materials, and a commemorative T-shirt. Operational costs have been partially funded by a grant from the Coming Foundation through the Greencastle Distribution Center.

"Initially, our purpose was to get the students acquainted with our campus in hopes they would choose Mont Alto," Ronald R. Keiper, professor of biology said. "Now our primary motivation is to show the students the excitement of learning, to help them become higher achievers and motivate them to take more challenging courses in junior high and high school."

Dr. Keiper is co-ordinator of the Mont

Alto program with James Hale, assistant professor of forestry.

With the cooperation of the recruiting staff at Penn State Harrisburg, Professor Hale has been instrumental in bringing more than 40 students from Harrisburg and Lancaster city schools to the campus for earlier versions of the program.

Because of the enthusiastic response of area educators to the "Adventures in Learning" Saturday programs, Dr. Keiper

said that it was decided to open the program to schools in the campus service area on a weekday when there is not as much competition from outside activities.

"On Saturdays, when it was an option, we tended to get students who were already committed to college. By offering it during the week, in place of a day in school, we hope to get a broader mix of students, including those who haven't thought about higher education."

Frank Kristine, assistant professor of chemistry, helped middle and junior high school students analyze unknown chemical elements during the Penn State Mont Alto Campus' recent 'Adventures in Learning' program.

Heart-assist pump is designated landmark

The Penn State heart-assist pump has been designated an International Historic Mechanical Engineering Landmark by the American Society of Mechanical Engineers.

The device, which has helped prolong the lives of cardiovascular patients since 1976, is the first surgically implantable, seam free, pulsatile blood pump to receive widespread clinical use.

An interdisciplinary group from the Colleges of Medicine and Engineering at Penn State pioneered the application of fluid mechanics in blood pump development and the use of segmented polyurethane as the blood contacting material.

The initial collaboration consisted of **William S. Pierce** in the College of Medicine and, in the College of Engineering, **John A. Brighton**, currently dean of engineering, **Winfred M. Phillips**, currently dean of engineering at the University of Florida, and **Gerson Rosenberg**, research professor of surgery, professor of bioengineering and assistant chief of the Division of Artificial Organs at Penn State, also were co-developers.

Later, **David Geselowitz**, currently distinguished alumni professor of bioengineering and professor of medicine at Penn State, headed the team in the College of Engineering.

The pump has been used in more than 250 patients and is responsible for saving numerous lives. The design and operating principles have been applied to all current blood-pump designs.

The Penn State heart-assist pump is the 29th International Historic Mechanical Engineering Landmark to be designated. It is the second landmark in the area of bioengineering. The first commercial, human blood heat exchanger was designated a National Historic Mechanical Engineering Landmark in 1980 in Buffalo, N.Y.

The ASME History and Heritage Designation Program recognizes sites, collections, and landmarks, each representing a progressive step in the evolution of mechanical engineering.

Focus on Diversity

Fourth set of cultural diversity workshops planned

The fourth in a series of cultural diversity workshops aimed at creating a more hospitable environment for people of diverse ethnic and racial backgrounds has been scheduled for Tuesday and Thursday June 12 and 14 at the Hotel State College.

The fourth set of workshops will be geared specifically toward restaurant and food service employees in State College and on the University Park Campus, workshop coordinator W. Terrell Jones, special assistant to the provost for diversity and campus climate issues said.

"We're looking especially to enroll waiters and waitresses, hosts and hostesses, cashiers, food preparation people, managers, people who come into contact

with the public in their front line positions for their restaurants or food service operations," Dr. Jones added.

The sessions will be held from 2 to 4 p.m. on both June 12 and 14, with participants expected to attend both sessions to complete the awareness program. The sessions feature lectures, films and exercises in stereotyping and prejudice, as well as case studies and role-playing situations.

"Our goal is to help participants understand cross-cultural differences and provide new insights into dealing with customer concerns from a culturally diverse perspective," Dr. Jones said. "By targeting public contact employees, we can design

the workshop materials to meet their particular experiences and needs.

"It is the public contact employees who set the tone of their organization for customers and clients of diverse ethnic backgrounds. We hope that by training these important organizational representatives, we can help them better serve all residents and visitors in our town and on our campus."

The diversity workshops can accommodate up to 25 persons, and they are open to both community business employees and Penn State staff.

Interested persons from the community should call the Chamber of Commerce/Downtown Business Association office at

237-7644. University employees wishing to take part should call University Relations at 865-2501. Those who cannot be accommodated will receive early notification about future workshops. There is no fee for the workshops. Deadline for registration is June 6.

The workshops are planned and sponsored by the Office of University Relations and the Community Relations Committee of the Downtown Business Association.

Workshop participants receive a certificate. Approximately 60 State College and University Park employees have completed the three previous workshops, the first of which was offered in July 1989.

WPSX to air 'Where the Spirit Lives'

"Where the Spirit Lives," a feature-length drama airing on *American Playhouse* at 9 p.m. Wednesday, June 6, on Channel 3, reaches back to a horrifying chapter in Canadian history when the federal government, in the late 1920s and 1930s, literally kidnapped native Indian children from their reserves and subsequently incarcerated them in religious schools where all traces of their background, culture and language were beaten out of them.

Set in 1937, "Where the Spirit Lives" is the uplifting story of Amelia, a courageous young Blackfoot girl who is forcibly taken from her isolated reserve in the mountains by a government agent and placed in an Indian residential school on the prairie for

the purpose of educating and civilizing her.

Gong Hong, *Alvin Ailey Remembered*, airing at 10 p.m. Friday, June 8, is a tribute to pioneer choreographer Alvin Ailey, founder and artistic director of the Alvin Ailey Dance Theater who died Dec. 1, 1989. Taped at the memorial service for Mr. Ailey at the Cathedral of St. John the Divine in New York City, the program interweaves interviews with colleagues and friends with several extended performances of Ailey choreography by members of his current company; musical performances by singers Ashford and Simpson; drummer Max Roach, and spoken tributes by poet Maya Angelou and New York City mayor David Dinkins.

At special breakfast

Forum honors Dr. Richardson

The Forum on Black Affairs has honored William C. Richardson, executive vice president and provost, for his dedication to helping the Black/African-American community at the University.

The organization held a special breakfast for Dr. Richardson, who left Penn State May 25 to become president of Johns Hopkins University. The forum also presented him with a plaque in recognition of his support and leadership in the area of diversity.

"We felt it was very important to say thank you for all the support, service and encouragement he has provided us during his tenure at the University," Deborah

Atwater, forum president, said.

Dr. Richardson said he is optimistic that the University will continue to make strides in the area of diversity. He also encouraged the forum to work with the new administration on minority issues.

"The administration has always had a trusting relationship with the Forum on Black Affairs. They have always provided us with genuine, honest and effective feedback. They have also helped the University to accomplish a great deal towards increasing its faculty, staff and student enrollment of Black/African-Americans."

Orientation programs stress the value of diversity

For the second consecutive year, approximately 25,000 incoming University freshmen and their families will participate in orientation programs developed to stress the value of diversity.

"We want to urge all entering freshmen and their families to view diversity as a positive learning experience," Stan Latta, acting associate director of Campus Life, said. "It is to encourage the students to get to know and appreciate people who are different than themselves."

The diversity workshop is part of a day-long program of orientation activities for groups of students and their families held throughout the summer at University locations across the Commonwealth.

The workshop includes a 10-question survey and a 12-minute videotape featuring minority and non-minority Penn State administrators, students, faculty and staff discussing their cultural heritage and the importance of diversity.

At both student and family-member sessions, individuals form into groups to discuss the multiple choice survey answers before reviewing them with the orientation leader. The video is shown after the discussions.

"The group discussions are important because they help individuals share opinions and encourage participants to adopt positive views toward people of other races, religions and cultures. They are

fun and an enlightening experience," Mr. Latta said.

One question asks if 75 percent of all undergraduate international students who travel to America receive a majority of their financial aid from American universities? The answer is false, Mr. Latta said.

"Many people think that international students get scholarships and other forms of financial aid from American universities and the American government, but they don't. Most have to document that they have sufficient funding for college before they are allowed into the country," he notes.

Another question asks what percentage

of the U.S. population will be white males by the year 2010? The answer is 38 percent.

"We want to help students understand that in 10 to 20 years, they are likely to be working with a woman, Black/African-American, Hispanic-American or Asian-American boss. So they should get accustomed to being around people of different racial, ethnic and religious cultures," Mr. Latta said.

The University began conducting orientation diversity seminars in summer 1989. Survey questions and videotape content are updated each year, depending on national and statewide events.

The Campaign for Penn State

Gift establishes graduate fellowship

E. Erwin Klaus and his wife Jean, have donated \$100,000 to create a graduate fellowship in the College of Engineering.

"During my 47 years at Penn State I've learned to appreciate the need for graduate funding," notes Dr. Klaus, who is professor emeritus of chemical engineering. "Fellowships give students the opportunity to participate in meaningful research that they might otherwise not be able to afford. My wife and I feel privileged to be able to offer this kind of support."

The E. Erwin and Jean H. Klaus Graduate Fellowship in Chemical Engineering will recognize and support outstanding graduate students. Preference will be given to students who are conducting research in tribology, catalysis, corrosion or other surface science related areas.

Dr. Klaus is an international expert in tribology, or the study of the phenomena and mechanisms of friction, lubrication and wear of surfaces in motion. In 1989, he

received the Innovative Research Award for Tribology and was recognized at a tribology symposium honoring his lifetime contributions to the field. He was named a Fellow of the American Society of Mechanical Engineers in 1990.

A member of the Penn State faculty since 1963, Dr. Klaus was the first recipient of the Fenske Faculty Fellow award.

Since his retirement in 1982, he has remained active in advising students and, in collaboration with the chemical engineering faculty, continuing to maintain a large research group. In recognition of these activities, he was awarded the College of Engineering 1989 Distinguished Service Award.

Mrs. Klaus is a native of State College, where her mother, Sara Hartswick, still lives. Both Klaus children, Dennis Klaus and Diane Klaus Horton, are Penn State graduates.

For facility, scholarship

HIRM school gets \$75,000 gift

Willard E. Campbell of Hollidaysburg, founder of Hoss's Steak and Sea House restaurants, has given \$75,000 to the School of Hotel, Restaurant, and Institutional Management.

Mr. Campbell has designated \$50,000 to a new facility for the school, which is part of the College of Health and Human Development. Construction is expected to begin next spring on the 31,000-square-foot, split-level structure adjacent to Keller Building on the University Park Campus. It will house a dining room, production and research kitchens, classrooms, a library and multimedia resource center and administrative offices.

The remaining \$25,000 will endow a Hoss's Steak and Sea House Scholarship for outstanding, financially needy undergraduates who are interested in managing family restaurants.

"I've always believed that the future of the hospitality industry is in the education of our young people," Mr. Campbell said. "The expansion of the school's facilities and scholarship aid will give students the training and experience they need to succeed in this."

Mr. Campbell is president of Prime Choice Inc. in Duncansville, which operates 24 Hoss's Steak and Sea House restaurants in Pennsylvania. He also is an officer in Weyant and Campbell Builders Inc. of Duncansville.

Construction costs for the new building are estimated at \$5.4 million. The University has allocated \$1.5 million for the project, and private support will provide the remaining funds. The college also plans to raise \$1.5 million for equipment for the new facility.

Obituaries

A.H. Holtzinger, retired associate professor of chemistry and director of the Chemical Laboratory in the former School of Chemistry and Physics; died May 10. He was 68.

He received his bachelor of science degree in 1927 from Penn State and his doctor of philosophy degree from Penn State in 1939. He was a member of Alpha Chi Sigma, professional chemical society, an honorary member of Sigma Xi Research Society, and Phi Lambda Upsilon Honorary Chemical Society.

Dr. Holtzinger retired as associate professor of chemistry and director of the Chemical Laboratory at Penn State in 1961 after 25 years of service. He taught at Pottsville Center of the University until 1940, at Mont Alto Forestry School until 1942, and at the Altoona Campus in the summer of 1942, until being assigned to the chemistry school at University Park.

He also worked as an analyst with Warner Laboratory in Cresson.

He became a director of the Mirror Printing Co. in 1957 and the Altoona Engraving Co. in 1949, and president of Himes Printing Co. in State College in 1965.

Arthur L. Williams, retired professor of insurance; died May 13 at the age of 66.

A graduate of Penn State with B.A. and M.A. degrees, he earned his doctorate from the University of Pennsylvania. He also earned designations from the American College of Underwriters and the American Institute of Property and Casualty Underwriters.

Joining the Penn State faculty in 1956, Dr. Williams taught courses in general insurance, risk management, life insurance and estate planning.

He previously served as head of the Department of Insurance and Real Estate. He taught the first College of Business Administration course on open-circuit television.

Dr. Williams received the Adviser of the Year Award from the College of Business Administration Alumni Association in 1971. He had written two books and numerous articles. He retired Jan. 1, 1987, with 32 years of service.

His professional activities included memberships in the American Risk and Insurance Association, American Society of Insurance Management, National Association of Life Underwriters, and the Fellow S.S. Huebner Foundation for Insurance Education.

Daniel T. Bresnahan, maintenance worker, general, Shenango Valley Campus, from Jan. 5, 1970, until his retirement March 29, 1980, died May 15 at the age of 75.

Agricultural Science and Industries Building

The 150,000-square-foot Agricultural Science and Industries Building now under construction behind Henning Building at University Park Campus may be completed by early 1991. Costing \$25 million, the building will house the departments of Agronomy, Dairy and Animal Science, Entomology and Veterinary Science, as well as a 200-seat auditorium, classrooms, offices, laboratories and student computer center. It will be connected by glass-enclosed walkways to Henning Building. (Photo: Greg Grieco)

Bookshelf

Charles D. Ameringer, professor of Latin American history and head of the Department of History, is the author of *U.S. Foreign Intelligence: The Secret Sale of American History* (Lexington Books/D.C. Heath).

As Dr. Ameringer explains, Americans saw and continue to see, secrecy as incompatible with democracy. He illustrates, however, the debt U.S. independence owes to espionage and clandestine operations through the exploits of some of our nation's greatest heroes. Nathan Hale and his British counterpart, Major John Andre, were both spies. Paul Revere was part of a 30-man spy ring, the Mechanics, and his midnight ride and the "one if by land, two if by sea" signal were

part of a spy operation contributing to the first military victory of the American Revolution.

Twentieth-century advances brought changes to American intelligence, particularly in the intricacies of codes and ciphers. Dr. Ameringer distinguishes among the various means of disguising messages and describes actual codes used in operations throughout history. With the onset of World War II and the tragedy of Pearl Harbor, which was perceived as an intelligence failure, the United States created a national intelligence apparatus. Dr. Ameringer, a specialist in U.S. foreign relations, relates the expansion of CIA power, the rise and fall of former CIA Director William Casey, and the recent trial of Lt. Col. Oliver North, pointing out the expanding role intelligence plays in our nation's affairs, as well as the continuing

need to improve the mechanisms for accountability and control of clandestine operations.

Jean-Marc Bollag, professor of soil microbiology, is co-editor with Gunther Stotky, New York University, of *Soil Biochemistry*, published by Marcel Dekker Inc., New York and Switzerland.

The book, volume 6 in the Books in Soils, Plants and the Environment Series, provides an up-to-date analysis of biological processes in soil.

It explores the prominent role of biochemical processes in the soil environment, particularly the biochemical activity of microorganisms in soil. It also stresses the potential applicability of these processes to environmental biotechnology. Contributors to the volume include leading international experts in the field of soil biochemistry.

Faculty members receive biomedical research awards

Twenty Biomedical Research Support Grant awards, ranging from \$4,900 to \$10,000, have been made to faculty members from funds provided to the University by the Department of Health and Human Services.

The awards are made to faculty members from all campuses with research interests in the life and health-related sciences (except for the Hershey Medical Center which offers a separately funded program).

A total of 45 proposals were received and reviewed by a faculty committee appointed by Charles L. Hosler, senior vice president for research and dean of the Graduate School.

Faculty members awarded grants and the proposal titles are:

John L. Beard, associate professor of nutrition, "Brain Neurotransmitter Determinations in Iron Deficiency by Microdialysis"; **R.W. Bernhoer**, professor of biochemistry, "Nutrient Sensing as a Global Control Signal"; **Paul Cornwell**, professor of psychology, "Role of the Cat's Hippocampus in Memory"; **John Frangos**,

assistant professor of chemical engineering, and **Harry R. Allcock**, Evan Pugh professor of chemistry, "In Vitro Bone Induction"; **Davis S. Gilmour**, assistant professor of molecular and cell biology, "The Molecular Architecture of the hsp70 Heat Shock Gene Promoter of *Drosophila*"; **Barry Jones**, assistant professor of molecular and cell biology, Interaction of Intracellular A-particle Genes with the Mouse Major Histocompatibility Complex; **Teh-hui Kao**, assistant professor of molecular and cell biology, Role of S-Protein Ribonuclease Activity in Self-Reognition;

George Kephart, assistant professor of sociology and faculty associate, Population Issues Research Center, Institute for Policy Research and Evaluation, "The Compensating Effects of Changes in Contraceptive Use and Breastfeeding on Infant Mortality"; **Ke Chung Kim**, professor of entomology and curator, and **Bruce A. McPherson**, assistant professor of entomology, "Vector Potential of Ticks in

Lyme Disease Epidemiology"; **Stephen J. Knabel**, assistant professor of food science, "The Role of Heat Shock Proteins in Preventing Oxygen Radical-Mediated Cytotoxicity"; **Kenneth M. Merz**, assistant professor of chemistry, and **Ian Williams**, research associate, Materials Research Laboratory, "Saccharide Conformation: Structural and Theoretical Studies"; **Robert B. Mitchell**, associate professor of biology, and **James A. Strauss**, research assistant, Department of Biology, A Longitudinal Aging Study of Cold Tolerance in HS Mice;

Ann B. Orth, postdoctoral associate, Molecular and Cell Biology, and **Ming Tien**, associate professor of molecular and cell biology, "Microsomal Lipid Peroxidation as the Mode of Action of Aromatic Hydrocarbon and Dicarboximide Fungicides"; **Cynthia A. Stifter**, assistant professor of human development, "Long-Term Effects of Infant Colic on Infant Behavior"; **J.M. Tarbell**, professor of chemical engineering, and **T.M. Hollis**,

professor of biology, "An *In Vitro* Study of Shear Dependent Endothelial Permeability"; **Hana Van Campen**, assistant professor of veterinary science, "Tumor Necrosis Factor and Endotoxin Resistance in Avian Species"; **Frederick C. Wedlar**, professor of biochemistry, Regulation of Enzymes in the CNS by Manganese (II) Ions; **D.M. Wojchowski**, assistant professor of molecular biology and biochemistry, and **R.C. Hardison**, associate professor of biochemistry, Molecular Mechanisms of Erythropoietin-Induced Red Blood Cell Differentiation; **Yu-Yan Yeh**, associate professor of nutrition science, Mechanisms of Hypocholesterolemic Action of Stearic Acid; **Arian Zarkower**, professor of veterinary science, Development of Models for Determining the Effects of Polyunsaturated Fatty Acids on Eicosanoid Metabolism: Relationships to Pulmonary Disease Processes."

Focus on the arts

Italian operas

Audio-Visual Services has acquired videotapes of popular operas sung in Italian. The collection includes *Aida* (90470 VH), *La Barbera di Seville* (90469 VH), *La Bohème* (90475 VH), *La Traviata* (90472 VH), and *The Marriage of Figaro* (90450 VH).

The programs are available at no charge to University faculty and staff members for classroom use. At University Park, call 865-0914 to make arrangements for a preview showing. At a Commonwealth Campus, contact the campus instructional services specialist for more information.

The arts on Channel 3

Joining John Williams and the Boston Pops for a gala *Evening at Pops* at 9 p.m. Friday, June 1, are pianist/composer Marvin Hamlisch, singer/dancer Gregory Hines, the late jazz drummer Buddy Rich, and the popular Manhattan Transfer.

Following at 10 p.m., *Abet from Off Center*, the acclaimed performing arts series, will present the American television premiere of the Lyon Opera Ballet's "Cinderella."

Like the beautiful dream of a fevered child, choreographer Maguy Marin's version of the classic fairy tale creates a darkly charming world peopled by figures both benign and fearsome.

Script reading

Pennsylvania Centre Stage and local religious and community groups will co-sponsor a script reading of selected scenes from the Centre Stage production of "A

Shayna Maidei" at 7:30 p.m. Wednesday, June 6, in the Jewish Community Center on East Hamilton Street in State College.

The reading will be followed by a panel discussion on issues related to the Holocaust.

Scenes from "A Shayna Maidei" will be read by actresses from the cast. The play, which opens on June 22 in the Pavilion Theatre at University Park Campus, focuses on the relationships within one family torn apart by the Holocaust.

Panel members include Frank Isaacs, a survivor of a concentration camp; Juris Draguns, professor of psychology and psychologist; and Daniel Walden, professor of American studies and literature, both at Penn State; Rabbi Jeffrey Eisenstat from the Brit Shalom congregation in State College; and the Rev. Glenn Mitchell of the University Baptist and Brethren Church and the Interfaith Coalition.

The event, co-sponsored by the Jewish Community Center, the Interfaith Coalition, United Ministries of Penn State and the Pennsylvania Centre Stage, will offer people within the community the chance to learn about and discuss issues related to the Holocaust from historical, psychological and emotional perspectives.

The reading and panel discussion are free and open to the public. For further information, call 865-1871.

Watercolor exhibition

"Realist Watercolors," an exhibition of contemporary watercolors, opens June 3 at the Palmer Museum of Art at University Park and will continue through Aug. 5.

Supported, in part, by the Central Pennsylvania Festival of the Arts, the exhibition includes works created by 15 artists between 1978 and 1990.

Artists represented in the exhibition include Philip Pearlstein and Alfred Leslie, two of America's most prominent figurative painters, and Nell Blaine and Susan Shatter, who started their careers in other media. Watercolorists represented in the exhibition include Patricia Toback Forrester, Carolyn Brady, John Stuart Ingle and George Harkins.

According to Randy Ploog, assistant curator of the Palmer Museum, this exhibition is unusual in that large paintings, some of them mural-sized works, are included along with the small-scale works used most frequently by watercolorists. John Arthur, curator of the exhibition, also wrote the accompanying catalog. He and some of the artists included in the exhibition will hold an all-day seminar at the museum on July 11. Participating artists include Ms. Forrester, Mr. Leslie, Mr. Pearlstein and James Winn and Paul Wanner. On July 12, Ms. Forrester and Mr. Winn will conduct a workshop for a limited number of registrants.

The symposium and workshop are supported, in part, by the Penn State Office of Summer Sessions. For information on the symposium and workshop, contact Donna Ricketts, 409 Keller Conference Building, University Park, Pa. 16802; or call (814) 863-1743.

The exhibition also is supported by a grant from the Pennsylvania Council on the Arts. For more information about "Realist Watercolors" and other museum exhibitions, call the museum at (814) 865-7672.

Studio tour

Theatre lovers will have the chance to see some of the "behind-the-scenes" magic that goes into putting a professional stage production together when Pennsylvania Centre Stage holds tours of the Theatre Arts Production Studio (TAPS) at 11 a.m. and 1 p.m. Saturday, June 2.

The Production Studio, located in the Academic Activities Building at University Park, houses the scene shop and set storage, the costume shop and storage, lighting labs and prop storage for Pennsylvania Centre Stage productions, as well as shows produced for the University Resident Theatre Company.

The tours, each an hour long and identical in content, will show visitors sets being built, costumes being constructed and also will include the lighting lab. The lab is used by directors and lighting designers to get an idea of how a particular lighting effect might work on stage.

The tour is free, but due to limited

space, registration is necessary. To register, call 863-4239 between 8 a.m. and 5 p.m., Monday through Friday.

Centre Stage tickets

Single tickets are now available for the 1990 summer season of Pennsylvania Centre Stage, located at University Park. The theater's 1990 productions include the heart-touching drama "A Shayna Maidei," the lively musical "1776" and the suspense-filled mystery "Sleuth."

"A Shayna Maidei," which is Yiddish for pretty girl, was inspired by "the kinds of people I grew up with," said author Barbara Lebow in an interview during its production at the Fulton Opera House. Set in New York City in 1946, the play explores the relationships of a family torn apart during the Holocaust and reunited years later. Directed by Ken Washington, "A Shayna Maidei" plays at 8 p.m. in the Pavilion Theatre on June 22, 23, 26-30 and July 3-7. Previews are June 22 and 21. A matinee performance will begin at 2 p.m. on Saturday, June 30.

Celebrating the birth of our country, "1776" brings our forefathers back to life with the music and lyrics of Sherman Edwards and the words of Peter Stone. While singing the praises of democracy, Benjamin Franklin, John Adams and Thomas Jefferson are genuine men who miss their wives and complain about the hot July days in Philadelphia. Directed by Carole Brandt, "1776" plays at 8 p.m. in the Playhouse Theatre on July 6, 7, 10-15 and 17-21. Previews are July 4 and 5. Matinees will begin at 2 p.m. on July 14 and 21, with a special family performance on July 7.

Shocking secrets and calculating characters will keep you riveted to your seat during Anthony Shaffer's "Sleuth." A suspense thriller about deception, jealousy and murder, the play twists unexpected surprises into a deadly game of cat and mouse. Directed by Sam McCready, "Sleuth" plays at 8 p.m. in the Pavilion Theatre on July 20, 21, 24, 26, 27, 31 and Aug. 1-4. Previews are July 18 and 19. Matinees will begin at 2 p.m. on July 28 and Aug. 4.

Tickets for "A Shayna Maidei" and "Sleuth" performances are \$16 for adults and \$13 for students and children. Tickets for preview and matinee performances are \$12 for adults and \$9 for students and children.

Tickets for "1776" are \$18 for adults and \$15 for students and children. Tickets for preview and matinee performances are \$14 for adults and \$11 for students and children.

For tickets or more information, call the Eisenhower Auditorium Ticket Center at (814) 863-0255, open Monday through Saturday from 8:30 a.m. to 4:30 p.m.

The arts at...

York Campus

Artwork, face painting, photography, magic, classic films and music are just some of the activities planned for the York Campus' 15 Annual Sidewalk Show and Sale on Sunday, June 3.

Summer Arts Expo '90, an indoor and outdoor artistic experience, features local and regional artists displaying and selling a wide variety of media on the Campus Mall, the Commons Area Courtyard and in the Community Room of the Student Center.

Each employee or Penn State "family" who reported their exercise miles for May 16 will receive a certificate acknowledging their participation. The certificates will be printed and mailed in the next four to six weeks.

Diane Reedy's works are on display in the Hetzel Union Building's Art Alley Panels through June 29.

Faculty and staff members surpass exercise miles goal

University faculty and staff from virtually all locations turned out on May 16 to exercise in support of the second annual National Employee Health and Fitness Day.

As of May 23, more than 3,200 exercise miles had been reported by close to 1,000 participants, and the count was increasing daily. This figure surpassed the University's goal of accumulating enough exercise miles to cross the United States and showed widespread employee enthusiasm for the many benefits of exercise.

"We have reports of group activities that were offered and well-received at many of the Penn State campuses," Nancy Sassano, coordinator of Faculty/Staff Health Promotion Programs, said. "We commend the campus nurses, Recreational Sports staff, personnel representatives and others who responded quickly to help organize those programs and promote the event. This year's success will certainly set the stage for future involvement."

According to Ms. Sassano, a more

Faculty teams get awards through grant program

Four faculty teams in the Colleges of Agriculture, Earth and Mineral Sciences, Engineering and the Eberly College of Science will be awarded more than \$400,000 in seed money awards starting July 1, as part of the College of Agriculture's intercollege grant program.

William J. McCarthy, associate professor of entomology, and Don M. Wojchowski, assistant professor of molecular and cell biology, will conduct research on "Molecular Basis for the Action of Bacillus thuringiensis Toxins at the Insect Cell Surface."

Eva J. Pell, professor of plant pathology, and Ming Tien, associate professor of molecular and cell biology, will study "Lipid Peroxidation as the Mode of Action of Dicarboximide and Aromatic Hydrocarbon Fungicides."

Charles A. Dangler, assistant professor of veterinary science, and John A. Frangos, assistant professor of chemical engineering, will investigate "Althergenic Mechanisms Involved in a Herpesvirus-Induced Model of Atherosclerosis."

Jean-Marc Bollag, professor of soil microbiology, and Patrick G. Hatcher, associate professor of minerals science and engineering, will study "Binding of Pollutants to Humus as a Means of Moderating Groundwater Contamination."

Eighteen intercollege faculty research teams from the Colleges of Agriculture, Arts and Architecture, Earth and Mineral Sciences, Education, Engineering, Health and Human Development and the Eberly College of Science competed for the awards. Research projects are funded for two or three years, contingent on an annual review of progress.

From the first two years of the program,

five intercollege research project teams have received subsequent competitive grants from the National Science Foundation, the U.S. Department of Agriculture and the National Institutes of Health.

The program, developed by the College of Agriculture's Office for Research to encourage intercollege research, has funded more than \$1.3 million in research at Penn State since 1986. University faculty are invited to submit new proposals each spring.

Appointments

William A. Pearman, director of academic affairs at the Penn State Wilkes-Barre Campus, has been named acting campus executive officer effective July 1. It was announced by Richard Grubb, senior vice president and dean of the Commonwealth Educational System.

He replaces James H. Ryan, who has been named vice president of continuing education. Dr. Grubb also announced that the position of acting director of academic affairs at the Wilkes-Barre Campus will be filled by **Steven D. Putzel**, assistant professor of English.

Dr. Pearman, director of academic affairs at the campus since August 1989, previously served as provost and vice president of academic affairs at Sacred Heart University, Fairfield, Conn. Prior to that, he was academic dean and professor of sociology/anthropology at Millersville University for 14 years. He also has held faculty positions at Virginia Commonwealth University, Loyola University and Fordham University.

A graduate of LaSalle University, he received a master's degree from Fordham and a doctorate in sociology from the University of Pittsburgh. He has been recognized for teaching excellence by the Danforth Foundation and received the first Pennsylvania Sociology Society Award for Research Excellence.

Dr. Pearman is the author of articles in professional journals and of several books, including *Midwinters: A Handbook on the History and Issues of Health Care Services for the Elderly*, *Three Mile Island: A Sourcebook*, and *In the Presence of Scandal: Selected Poems*.

Dr. Putzel, a member of the Wilkes-Barre faculty since 1988, was named head of the English Program in 1989.

He earned his Ph.D. at the University of Toronto and was awarded several research grants and fellowships for further work while an assistant professor of English at Rutgers University. He received his master's degree in English from the University of Wisconsin and his B.A. in English from Drew University. He also pursued language studies at the University d'Aix Marseille in France.

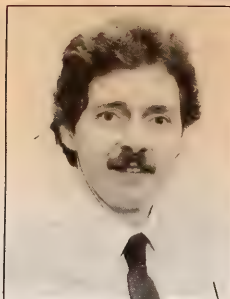

William A. Pearman

Kenneth E. Martin has been appointed rural economic development specialist jointly in the Office of the Associate Vice President for Research and Technology Transfer and the Department of Agricultural Economics and Rural Sociology.

Dr. Martin previously worked as a budget analyst for the Pennsylvania House of Representatives Appropriations Committee. In that capacity he was responsible for budget and policy issues in the areas of economic development, rural development, agriculture, labor and criminal justice.

He holds a B.A. in sociology from Eastern Mennonite College, and an M.S. and Ph.D. in rural sociology from Penn State.

In his new position, Dr. Martin will be responsible for promoting University economic development resources, identifying and addressing rural economic development issues, working with state and local officials in government, business and industry on policies to promote rural economic development, and coordinating the development and implementation of rural economic development initiatives with

Steven D. Putzel

Cooperative Extension in the College of Agriculture.

Judith W. Heald has been named program manager for the Pennsylvania Expanded Food and Nutrition Education Program (EFNEP), a federally funded program. EFNEP is an integral part of Penn State's Cooperative Extension programs, providing nutrition education to low-income families and youth in both urban and rural areas.

Ms. Heald, certified as a registered dietitian, has worked with low-income families for several years in Pennsylvania and Virginia. Most recently, she served as a nutritionist and prenatal educator for Family Health Services of Bellefonte.

Trisha Ann Morris has been appointed senior assistant librarian at the Penn State DuBois Campus.

Ms. Morris previously was assistant librarian and assistant professor at Prestonsburg Community College in Kentucky. Prior to her position at Prestonsburg, she was director of the library at Southern Ohio College NE in

Kenneth E. Martin

Akron. At that time, she also was the regional director of the school's northern branches and its representative to the North Central Library Cooperative.

Ms. Morris holds a B.A. degree in sociology and a master of library science degree, both from Kent State University. She has done extensive research in Appalachian literature and holds memberships in the American Library Association, the Kentucky Library Association, and the Appalachian Writers Association.

Mary B. Shoffner has been appointed registrar at Penn State Great Valley. She is responsible for registration, enrollments, student recordkeeping and course scheduling at the Center.

Ms. Shoffner joined the Center staff in January, 1989, and has held positions of increasing responsibility in the graduate programs and registration areas. Previously, she was senior research technician at Heraeus Inc., where she performed inorganic chemical and ceramic science research.

She earned her B.S. degree in microbiology at Penn State.

News in Brief

Lost and found

Jewelry was found on Thursday, May 24, along South Burrows Street. Call Carol at 865-7501 to claim the jewelry.

Summer Sessions open house

The Summer Sessions Office will hold an open house in its new quarters in Spruce Cottage from 2 to 4 p.m. Friday, June 8. The University community is welcome.

Faculty/staff fitness classes

Openings remain in all Recreational Sports faculty/staff fitness classes for Summer Session. Classes offered include Shape-up, Toning and Tightening, Aerobics, Advanced Shape-up, Low Impact Shape-up, Aquatease, and Fitness Over 40.

Participants may register at Room 2, Intramural Building at University Park, through June 8. For information on class schedules and locations, call Patti Kenney, 865-5401.

Penn College aviation center

Rep. Alvin C. Bush, chairman of the Pennsylvania College of Technology board of directors, has announced that Gov. Robert P. Casey has approved a financial plan for restructuring several leasing arrangements for College buildings originally constructed with proceeds from State Public School Building Authority bond issues.

As a result, funds will be freed to

permit the College to proceed with plans to construct a new aviation center at its site at the Williamsport-Lycoming Airport. The facility, projected to cost about \$4 million, is among seven projects comprising the College's proposed \$28-\$32 million stage four building program.

The new facility, construction of which is expected to begin in the fall, will permit the College to dramatically expand enrollment of students in its programs in aircraft power plant maintenance and avionics.

Host families needed

This summer, the Continuing Education Program and the Council on International Education Exchange will bring about 40 Japanese university students to University Park for a seminar July 24 to Aug. 16.

The Summer Student in America Program is designed to increase the students' awareness of and appreciation for American culture and their communicative competence in American English.

To help accomplish these goals, the program needs volunteer host families of any composition (couples, singles or those with children or grandchildren) to host for one weekend.

If you are interested in hosting a Japanese visitor, call Joe Shirk in the evenings at 234-8729 or Masume Asaf during the day at 865-0997, by June 15.

Preschool openings

The Penn State Child Development Laboratory, a preschool for children 2 1/2 to 6 years old, currently has a limited number of full-day openings (7:30 a.m.-5:30 p.m.). The preschool is operated by the Department of Human Development and Family Studies in the College of Health and Human Development.

For more information about enrollment, call 863-0267 or visit the Child Development Laboratory office in S-24 Henderson Building.

Summer Special Olympics

Joe Paterno, Franco Harris and Jimmy Cefalo are just a few of the celebrity volunteers who will be at University Park for the Pennsylvania Summer Special Olympics Games June 7 to 10.

Pennsylvania Special Olympics has designated 1990 as "Year of the Family." This theme focuses attention on the dedication and participation of families who support the athletes and the games.

Volunteers of all ages and skills are still needed for the Games. To volunteer, or for more information on Pennsylvania Special Olympics, call toll-free in Eastern Pennsylvania 1-800-235-9058, and in Western Pennsylvania 1-800-233-5161.

Center gets grant

The Center for Logistics Research has received a \$30,000 grant from the

Consolidated Rail Corp. for a pioneering study that could help Conrail improve its freight service. Three researchers—**John E. Tyworth**, associate professor of business logistics, **Kanti Rao**, associate professor of business administration, and **Robert A. Novack**, assistant professor of business logistics—will study the complex factors that affect the on-time shipment of merchandise from the Pacific Northwest to select eastern customers. The Burlington Northern Railroad also is involved in the project.

The Penn State research will break new ground by focusing on interline rail service, which requires the careful coordination of two or more railway companies to complete a long-haul shipment. Previously, these companies have conducted detailed studies of transit performance for their lines only.

Adult students orientation

Orientation for new and returning adult students for Summer Session will be held at 4 p.m. Monday, June 4, at the Returning Adult Student Center, 323 Bouck Building, University Park.

All new adult students, whether part-time or full-time, day or evening, are invited to attend.

Call the Returning Adult Student Center, at 863-3887, for information.

Partings

Bertha E. Confer, foods lab and equipment attendant in the College of Health and Human Development has retired after 29 years of service.

Ms. Confer began working for the University in 1960 as a counter attendant in the Pollock Dining Hall, then transferred to the College of Agriculture where she was a soil and forage lab attendant from 1968-74.

In 1974 she came to the Department of Nutrition as foods lab and equipment attendant. Her duties included lab preparation and maintenance and food purchasing for several nutrition labs. She took on the additional responsibility of helping students with their special projects.

Ms. Confer says that her job was interesting and a learning experience because of its diversity and the opportunity to work with faculty, staff and students. "Each day was different, and I could become familiar with new foods. I appreciated the support of the faculty and enjoyed helping the students."

She is a resident of Runville who never minded her 45-minute ride to and from work. Her retirement plans include traveling with her husband, Ralph, helping her son with his new market in Centre

Nina D. Hammer

Hall, and visiting her daughter and grandchildren.

John E. Creighton Jr., senior cooperative extension agent in Wayne County, has retired after 34 years of service.

His career in cooperative extension began in 1955, when he was assigned to Fayette

County as an assistant agent. He became an agent in Wayne County, then served as county extension director before he was promoted to senior extension agent. A native of Grove City, he received a B.S. in animal industry in 1970 from Penn State.

Among the honors he has received are the Westinghouse Educational Foundation Award, the Pennsylvania Poultry Federation Award, the Distinguished Service Award of the National Association of County Agricultural Agents, the Pennsylvania Dairyman's Association Extension Award and the Agricultural Service Award of the Wayne County Farmers Association. In 1980 he served as president of the Pennsylvania Association of County Agricultural Agents.

He and his wife, Nadine, have two sons and a daughter, all Penn State graduates. His retirement plans include building a home in Cumberland County.

Nina D. Hammer, conference secretary in Continuing Education, has retired after 23 years of service.

Ms. Hammer began her University career in 1964 in the business office of Continuing Education in Keller Building—the same building from which she retired.

Some of my fondest memories at the University," she says, "were working in the Geography Department for 17 years, under the leadership of several department heads. For one in particular, I needed the largest apple I could find to appease his appetite."

Beginning June 15, she plans to travel around the country for the next year with her husband, who will be taking his first sabbatical after 25 years of public school teaching.

"Upon my return," she says, "I plan to pursue a career I've always been interested in—nursing. However, that will be part-time so I can spend the summers with my husband."

Isabel M. Fogleman, food service worker, Housing and Food Services, from Aug. 1, 1942 to Nov. 30, 1942; Jan. 1, 1943, to June 10, 1947; and Aug. 31, 1977, until May 1.

Russell J. Rossman Sr., assistant University auditor, Corporate Controller's Office, from Sept. 4, 1973, until May 1.

Mary E. Egoft, food preparer B. Housing and Food Services, from Oct. 8, 1979, until May 5.

Faculty/Staff Alerts

Salvage and Surplus

Summer might be a good time to get rid of all those extra items that have been lying around the workplace, taking up valuable space. Salvage and Surplus can help by picking up any saleable items. To arrange a pick-up time or for further information, call 865-4371.

Travel Services

American Express has announced that, effective April 1, Collision Damage Waiver coverage is no longer provided on the corporate cards.

Travel Services also has been advised that Penn State has been added to the Big 10 Universities' newly negotiated corporate car rental contracts with Budget Rent a Car and National Car Rental effective April. These car rental agreements include free collision damage waiver insurance on domestic contract rates only.

The University requires the purchase of Collision Damage Waiver insurance on all business related car rentals according to Travel Policy TR-4. Therefore, if a car is rented from another vendor or from Budget or National at a rate other than the contract rate, it will now be necessary to purchase the Collision Damage Waiver insurance. It is recommended that National and Budget Rent a Car be used whenever possible due to the competitive rates and the free insurance on domestic rentals. Copies of the new rate schedules can be

requested through Travel Services at 865-0395.

Travel Services provides travel information and advisories on a bulletin board through both Management Services and the Center for Academic Computing's Electronic Mail System. These bulletin boards should be checked periodically for updated travel information or time critical bulletins as they become available.

Noon hour courses

The Human Resource Development Center and Continuing Education are offering noon hour courses for University employees in the Summer Session. Finance 100 and Psychology 002 will meet from 11:45 a.m. to 1 p.m. Monday, Wednesday and Friday. Classes start June 6 and end July 30.

Both courses are part of the Business Administration and Business Management certificate programs offered through Continuing Education.

For further information, contact the Human Resource Development Center at (814) 865-3410 or the Continuing Education Office at (814) 865-3443.

Healthpass brochure

As a service to employees covered by Healthpass, discounts with a number of fitness oriented organizations have been negotiated. These organizations, which fall

under the headings of Weight Reduction and Weight Management Centers, Fitness Centers, and Exercise/Fitness Equipment Sales, are located in a number of counties in which Penn State employees reside.

The Healthpass publication, Health and Fitness Directory, has just been revised and will be available to Penn State employees covered by Healthpass in mid-June. This brochure, which outlines the discounts available from the participants, reflects an expansion of both programs available at discount and the counties in which the programs are available. To receive these discounts, it is necessary for you to be covered by Healthpass and, upon seeking the discount, verify your coverage through your membership card.

To receive a copy of this revised brochure, call the Employee Benefits Division, 865-1473.

Employment of minors

Supervisors are reminded that the law requires that an employment certificate (sometimes referred to as "working papers") is required before any minor begins working for the University. A minor is anyone under age 18 who has not graduated from high school, or who has not been declared by the high school as having attained maximum academic potential in lieu of graduation. Also, the

minimum age for University employment is age 16.

The employment certificate is issued by the minor's high school. Employment certificates are maintained on file by the Employment Division, or appropriate business or personnel office at facilities away from University Park. When a minor ceases employment, the Employment Division, or appropriate business or personnel office, must be notified so that the certificate can be returned to the issuing high school, or to the minor, as appropriate.

Supervisors should review University policy PS-2, Employment of Minors, before committing employment to a minor.

Information submitted for publication in *Information* is due by noon on the Thursday before publication.

Carpooler

Don is looking for riders to join his vanpool from Tyrone to University Park. His work hours are 8 a.m. to 5 p.m. Call 865-1040 or 684-4868.

25-year award recipients

Observing 25 years of service at the University are **Thomas B. Davinroy**, associate professor of civil engineering, and **Sabih I. Hayek**, professor of engineering science and mechanics, both in the College of Engineering; **Robert J. Dennehy**, associate manager/

hotel, **Nitany Lion Inn**; **James J. Gebhard**, assistant professor of Slavic languages; and **Martha T. Halsey**, professor of Spanish.

University Photo/Graphics opens new color print facility

University Photo/Graphics has announced the opening of its new color printing facility.

"Over the years, University Photo/Graphics has been noted for its excellent black and white printing and color slide production," John Mertz, director, said. "We are now able to offer this new color processing and printing service to the University community."

According to James Lukens, assistant to the director, the newly installed equipment will enable University Photo/Graphics to process any size color negative film.

"With our automatic processor and printer we are now able to produce color prints in size ranging from 2"x2" to 20x24"

and there is no limit to the format of film that can be developed," he said.

Beside color film processing, Photo/Graphics, located in Room 8 Mitchell Building at University Park, offers a number of services, including black and white film processing and printing, photography, instructional materials, computer graphics, exhibits and displays, photostats, and illustrations, photographic copying, print dry mounting and laminating, and color slide processing and duplication.

For more information about University Photo/Graphics new color printing capabilities or any other services, inquire at Room 8 Mitchell Building or call 865-0507.

Fred Weber, left, supervisor of print laboratories, and Curtis Krebs, photographer/printer, work in University Photo/Graphics new color printing facility. Photo: Dave Shelly

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in promotion, MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until June 6. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (FES-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

***Mechanical Engineer I, Office of Physical Plant, Facilities Planning and Design, University Park Campus** - Responsible to assigned senior engineering personnel for the design and preparation of estimates and drawings for a variety of heating, ventilating, air-conditioning, plumbing and utility systems, and for assistance in the development of the specifications. Requires bachelor's degree or equivalent preferably in architectural engineering with building systems option or related field, plus Engineer-in-Training certificate and over 18 months of effective experience in the development of mechanical designs under the guidance of a registered professional engineer. STAFF GRADE 5

***Landscape Architect, Office of Physical Plant, Facilities Planning and Design, University Park Campus** - Responsible to the senior landscape architect for designing and developing landscape plans for new and existing facilities and for the performance of all necessary functions related to the development of such plans. Requires bachelor's degree in landscape architecture, plus two to four years of effective experience. STAFF GRADE 6

***Publications Editor, Division of Development and University Relations, Publications, University Park Campus** - Responsible for the review of assigned University publications to insure they meet University criteria for style, form, cost and publication policy. Reviews drafts for conformity with tastes, intended readership and accepted

standards. Requires bachelor's degree in English or equivalent and one to two years of effective experience in editing, publishing, teaching or related fields and a strong command of English with a specialized knowledge of syntax. STAFF GRADE 5

***Assistant Executive Director for Special Programs, Division of Development and University Relations, Alumni Association, University Park Campus** - Responsible to the associate executive director for alumni relations for the establishment, development and professional guidance of the constituent societies of the Alumni Association and the planning, coordination and implementation of various special programs of the Association. Requires bachelor's degree or equivalent plus over four years of effective experience. A master's degree is highly desirable. STAFF GRADE 8

***Designer, Electromechanical, Applied Research Laboratory, ARL Operations, University Park Campus** - Responsible to the supervisor, Design and Drafting, for production of designs for mechanical and electrical assemblies and systems. Requires associate degree, or equivalent, in electromechanical drafting. Working knowledge of strength of materials, forces and movements, gear and bearing loadings, base mechanisms, corrosion protection (environmental and galvanic) and manufacturing processes is highly desirable. U.S. citizenship required. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. STAFF GRADE 6

***Police Service Officer, University Safety, University Park Campus** - Enforce national state and local laws, and appropriate University regulations through investigation, apprehension and prosecution of violators. Prevent illegal and unsafe activities through tactical patrol and be able to work, any of four shifts. Individual must pass physical exam by doctor, physical fitness test administered by department and psychological test. Requires associate degree or equivalent in academic credits and one to two years of effective law enforcement experience. Similar combinations of education and experience may satisfy the above requirements. Active pursuit of a baccalaureate degree in social sciences is desirable. STAFF GRADE 5

***Alumni Relations Coordinator, Liberal Arts, Alumni and Development, University Park**

Campus - Responsible for all alumni relations activities including working with LA Alumni Society Board, planning alumni related events, and increasing number of active alumni in the College. Requires bachelor's degree, or equivalent in liberal arts or related field plus one to two years of effective experience managing or coordinating projects. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH GOOD POSSIBILITY OF RE-FUNDING. THIS IS A RE-ANNOUNCEMENT. STAFF GRADE 6

***Assistant Director, Outpatient Services, University Hospital, Department of Hospital Administration, The Milton S. Ebersole Medical Center** - Responsible to the director, Outpatient Services, for the effective and efficient operation of the University Physicians Center. Requires master's degree, or equivalent, in health care administration plus three to four years of effective experience. STAFF GRADE 8

***Manager, Police and Safety, Behrend College, Police and Safety** - Responsible to the director of

operations for directing the law enforcement security, parking, environmental health and safety programs of the College. Requires bachelor's degree, or equivalent, in a program of study related to law enforcement and the management of law enforcement, and environmental health and safety activities plus three to four years of effective experience in law enforcement preferably in a university or college community involving supervisory or command level responsibility. Candidates must be creditable under Pennsylvania Act 120 STAFF GRADE 7

***Assistant to the Director of Student Programs and Services, CES, Student Programs and Services, Berks Campus** - Responsible for the implementation and coordination of the student activities program, job placement services, and other general areas of student affairs. Requires bachelor's degree, or equivalent, plus one to two years of effective experience, or master's degree in student personnel administration, counseling, or equivalent training, and up to one year of effective experience. STAFF GRADE 6

Advisory search committee is appointed

A Campus Advisory Search Committee has been appointed to identify candidates for the position of campus executive officer of the Wilkes-Barre Campus.

Joan P. Diana, associate librarian at the Wilkes-Barre Campus, has been named committee chair. Other members are:

Ina K. Lubin, area representative, Continuing Education; Craig Munns, president of the Student Government Association; Robert S. Paranchik, assistant professor of engineering, and Frederick J. Stefon, assistant professor of history, all at the Wilkes-Barre Campus; Frederick H. Gaige, campus executive officer at the Penn State Berks Campus; Elaine F. Rhodes, director of development and university relations, Commonwealth Educational System; Jovita M. Ross-Gordon, assistant professor of education, and Stanley J.

Shepherd, associate professor of physics.

The CEO is the chief administrative officer of the campus and is responsible for administering all of its University programs. The CEO also is responsible for maintaining close relationships with the communities in the campus service area.

Candidates should have an earned doctorate, several years of experience in college and/or university teaching and substantial experience in academic administration. Send two copies of resume to Richard E. Grubb, senior vice president and dean, Commonwealth Educational System, 111 Old Main, Department CHE, University Park, Pa. 16802.

Applications and nominations will be received until a suitable candidate is selected.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

President Jordan's statement on admittance to Big Ten

Penn State is delighted by today's Council of Ten vote formally to admit the University to the Big Ten Conference. The successful culmination of the chain of events triggered in December is rewarding and satisfying to all of us who believe Penn State should be positioned, both academically and athletically with the exceptional institutions which comprise the Big Ten.

We appreciate the support our membership received in the Council of Ten. Change of this magnitude does not come about without dissent, which we experienced from Big Ten campuses and others. Our confidence in the correctness of this course has remained steadfast despite criticism. Penn State's inclusion in the conference is consistent with the Council of Ten's announced mission of athletic reform, particularly concerning issues of academic integrity.

We are proud of what Penn State represents in the academic and athletic communities. Conference membership provides us with an opportunity to enhance our strong reputation as an educational

institution of the first-order and as a major player in intercollegiate athletics. The affiliation with like-minded universities, represented by the existing membership of the Big Ten, strengthens our ability to influence the quality of academic activities and intercollegiate athletics of the next decade and into the next century.

Our overriding motivation in concluding this conference relationship has been what we perceive as the wisest future course for the total University, both academically and athletically. Such an overview often requires compromises and presents complications, especially in the areas of athletic scheduling and competitive format. This alliance is not without such concerns.

As President, I fully understand the difficult process facing many of our athletic teams and coaches during the period until full integration is completed, particularly in the sports where in-season round-robin play may be a requirement. Our athletic administrators have been diligent in identifying and highlighting such

concerns, but we need to keep in mind that Penn State's affiliation with the Big Ten is a matter which transcends athletics.

To expedite the full integration of all of our sports, we will continue to consult with the conference office and the Council of Ten on the administrative remedies available, including, as already proposed, further conference expansion. Penn State is ready to assist in the expansion process as might be necessary and appropriate.

This represents a move of historic proportions for Penn State's past, present and future.

We have joined a family rich in tradition, built upon integrity and with a vision for the growth of higher education and, within the framework of institutional control, the maturing of intercollegiate athletics. We are proud to join ranks with Illinois, Indiana, Iowa, Michigan, Michigan State, Minnesota, Northwestern, Purdue, Ohio State and Wisconsin in a mission too important to ignore, too essential to neglect.

June 14, 1990

Volume 19, Number 35

Information submitted for publication in *Intercom* is due by noon on the Thursday before publication.

University becomes a member of the Big Ten Conference

It's official. The University is a member of the Big Ten Conference.

The presidents of the Big Ten universities, known collectively as the Council of Ten, voted June 4 to officially make Penn State the 11th member of the conference.

"We believe that Penn State will make a splendid addition to the conference," Stanley Ikenberry, president of the University of Illinois and chairman of the Council of Ten, said.

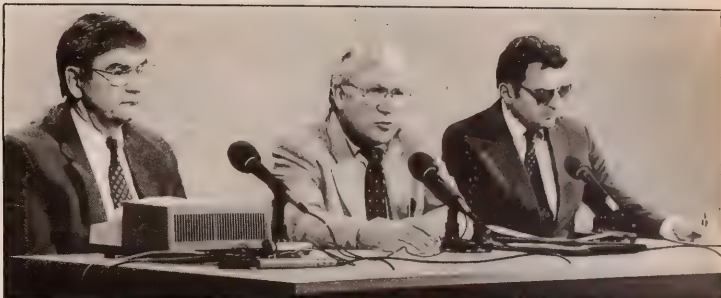

"We're proud of their academic standing. And we've also pleased with the integrity with which they've conducted their athletic programs over a number of years. The conference will now do everything possible to expedite the transition process."

President Jordan said he was delighted by the decision of the Big Ten presidents.

"The successful culmination of the chain of events triggered in December is rewarding and satisfying to all of us who believe Penn State should be positioned, both academically and athletically, with the exceptional institutions which comprise the Big Ten."

Athletic director Jim Tarman called Penn State's relationship with the Big Ten "extremely satisfying."

"Since the invitation was extended last December," he said, "we have worked

Responding to questions from the media on Penn State's membership in the Big Ten are, from left, John Coyle, NCAA faculty representative, athletic director Jim Tarman, and football coach Joe Paterno. (Photo: Greg Grifco)

diligently to address the many transition issues and, with our Big Ten counterparts, to bring about what everyone understood would be a complex integration.

"As President Jordan has remarked, this is a decision that reaches beyond athletics. From the beginning, this affiliation has been driven by the University's desire to join academically and athletically with

institutions of similar mission and stature.

"In the opinion of everyone associated with the decision, this linkage with the Big Ten Conference represents a bold and positive course for the future of Penn State in both sports and scholarship."

John Coyle, the University's NCAA faculty representative, said the faculty is excited about the Big Ten affiliation.

"There also is excitement among our students," Dr. Coyle said. "We feel this is a natural for us in terms of our academic profile."

According to Big Ten commissioner Jim Delany, Penn State could become a competing Big Ten member in some sports during the 1991/92 season.

Changes in University health care program are announced

Earlier this week, the University simultaneously announced changes in University policy, improvements in healthcare benefits, and various increases in healthcare contributions for faculty and staff. The changes are being made following an analysis of a Penn State employee Opinion Survey and discussions with the Joint Administrative/Faculty Committee on Insurance Matters, Personnel Representatives, Directors of Business Services, and other faculty and staff groups.

"We are pleased to be able to announce these changes," Steve A. Garban, senior vice president for finance and operations, said. "Excellent healthcare benefits for faculty and staff have long been a priority for the University. These most recent modifications in University policy and Penn State's healthcare program come after extensive study and review and are in accordance with the University's commitment to provide the best benefits possible to employees."

Mr. Garban noted changes in University policy and

improvements in employee benefit programs as follows:

- Effective July 1: Improvements for staff (clerical, staff nonexempt, and staff exempt employees) will be made in the areas of flexible work scheduling, sick family days, extended childcare leave, and earned time off for part-time employees. Details of these changes are printed in an insert to this edition of the *Intercom*.

- Effective Jan. 1, 1991: Improvements will be made in healthcare coverage for faculty and nonbargaining unit staff as follows:

- The lifetime major medical maximum will be increased to \$500,000. This additional benefit will provide an increased margin of protection for catastrophic medical cases which require extensive treatment and long-term hospital care.

- In response to concerns raised by the University's Commission for Women and others, routine screening mammography will be covered as a major medical expense benefit subject to the appropriate deductible and 80/20

coinsurance. Charges for these exams will be covered annually for individuals 50 years old and older every other year for those 40 to 50 years old.

- The annual maximum benefit under the dental plan will be increased from \$750 to \$1,000. This is being done to permit increased amounts of major dental work such as crowns and other restorative treatment to be covered by the dental plan in a calendar year.

- The vision plan annual maximum will be increased from \$80 to \$100. Many faculty and staff have expressed a need for increased benefits under the vision care program.

- Voluntary participation in the University healthcare program will be introduced. Faculty and staff members may choose not to be covered, or to have just hospital/surgical/major medical coverage, or only dental and vision care, or they may choose to be covered by all of the plans.

- Managed care, which currently is available under Healthpass, is a program designed to insure the most

(Continued on page 3)

Focus on Diversity

Committee named to implement diversity requirement

The University Faculty Senate has appointed a Steering Committee for the Implementation of the Cultural Diversity Requirement.

The committee is chaired by **Mary Dupuis**, professor of education and director of teacher education.

Members include the chair of the Undergraduate Instruction Committee, **Feix Lukacz**, professor of plant pathology; the chair of the Curricular Affairs Committee, **Louis Geschwind**, associate professor of architectural engineering; **Jerry Coveri**, associate dean for undergraduate education; **Deborah Atwater**, associate professor of speech communications and director of minority faculty development;

Janet Atwood, associate professor of exercise and sport science.

Paul Axt, professor of mathematics; **Deborah Clarke**, assistant professor of English; **Donald Fahline**, associate professor of physics, Altoona Campus; **Ronald Filippelli**, professor and head of labor studies and industrial relations; **Daniel Maier-Katkin**, head, Administration of Justice; **Helen Manfell**, professor of theater arts; and **Philip Stebbins**, associate professor of history.

The committee is charged with: — Developing, on the basis of the Senate legislation of March 20, 1990, a set of academically sound and realistically attainable objectives for the categories of

Diversity and Diversity Enhanced Courses identified in the legislation.

— Developing a set of guidelines for faculty, departments and colleges that will assist them in the preparation of course proposals for the two course categories and the submission of them for review.

— Developing criteria which will be used to assess whether the proposed course is likely to attain the objectives that are identified in the proposal. The criteria should ensure that courses that are found to be suitable conform to high academic standards and that the courses deal with their subject matter with integrity and without bias.

The Steering Committee will interact

with the members of a Resource Panel which was selected from a list of volunteers by the Office of Undergraduate Education. It represents a broad range of faculty members and students who, over the past year, have expressed an interest in the development of a cultural diversity requirement.

The Steering Committee has been given a deadline of July 1 to bring the completion of its work. The report of the Steering Committee will be reviewed by the Senate committees on Curricular Affairs and Undergraduate Instruction for presentation to the University Faculty Senate at the first Fall 1990 meeting.

Dr. Stewart is honored by Black Studies Council

James B. Stewart, associate professor of labor and industrial relations and director of the Black Studies Program, has been named winner of the illustrious Presidential Award by the National Council for Black Studies.

The award is the highest honor awarded by the national association. Dr. Stewart received the award for his outstanding research, administrative and overall leadership in the development of the discipline of Black studies.

"It's truly an honor to be recognized by your peers like this," he said. "Therefore, it's very important to me."

A founding member of the organization, Dr. Stewart has served as vice chair for four years. He also has chaired the national accreditation and intervention committees, and organizes the increasingly popular Summer Institute for Faculty program.

This program is designed to acquaint faculty with Black studies and to help them become more familiar with current research and teaching methods. Last year the institute was held at Indiana University. Ohio State University will serve as the host this year. Dr. Stewart said the program involves 10 to 15 professors a year, and he

James B. Stewart

hopes to bring the program to Penn State in the near future.

In the research arena Dr. Stewart has received recognition nationwide. His research during the past few years has included the philosophy of Black studies,

African-American economic development, African-American music, African economic development, multicultural education, factors affecting student retention and the impacts of science and technology on African-Americans.

He has taught Black/African-American economic development, economics of discrimination, social-political thought in Black/African-American music and Black/African-American studies seminars.

Dr. Stewart earned his B.S. in mathematics at the Rose Hulman Institute of Technology, his M.A. in economics at Cleveland State University and his Ph.D. in economics at Notre Dame, where he held both a Notre Dame Afro-American Fellowship and a Ford Foundation National Fellowship.

He joined the Penn State faculty in 1980. He is chair of the University's Equal Opportunity Planning Committee, and is active on a host of search committees, University-wide governance bodies, committees and numerous campus organizations, including the Forum on Black Affairs.

McGeary working on Puerto Rico project

Ken McGeary, director of continuing education at the Penn State Allentown Campus, is on assignment at the University of Puerto Rico's Rio Piedras Campus for six weeks this summer.

His activities will center on professional development, program development, and strengthening the Penn State/University of Puerto Rico partnership.

Mr. McGeary will assist **Stanley Nowak Jr.**, assistant professor of Spanish, humanities and social science at the campus, in planning staff development programs for continuing education professionals. The focus of the programming will be bringing together continuing education staff from both Penn State and the University of Puerto Rico to explore joint programs and to build a commitment to cultural diversity.

"Puerto Rico offers a rich tradition of understanding and sharing cultural experience," he said. "The island is willing to share its refreshing appreciation for diversity."

Mr. McGeary will meet with leaders of the University of Sacred Heart in Santurce, Puerto Rico, to discuss joint program initiatives. One of the programs would create opportunities for students to fulfill Penn State's diversity requirement while living and studying in Puerto Rico.

The relationship between the University of Puerto Rico and Penn State developed in 1988 through the initiatives of Dr. Nowak. This is Mr. McGeary's second assignment at the University of Puerto Rico. He was selected as the first Penn State/University of Puerto Rico faculty/staff exchange participant in 1989 and spent the spring 1989 semester in Puerto Rico developing programs.

WPSX-TV programs

The unwritten rule among black journalists and writers is to avoid condescending commentary on prominent black leaders; however, outspoken author Stanley Crouch has broken all the rules in his new book *Notes of a Hanging Judge*, in which he delivers sharp criticism to some of the black community's most revered heroes.

A self-proclaimed "traitor" to ethnic nationalism, Mr. Crouch tells his story to a studio audience on *Tony Brown's Journal* airing at 11:30 a.m. Sunday, June 17, on Channel 3.

And at 11:30 a.m. Sunday, June 24, Tony Brown presents "Is Hatred America's Newest Sport?" Racial violence is on the move against Jews, blacks and now Asian Americans. This edition of *Tony Brown's Journal* examines the rising violence against Asian Americans with representatives from the U.S. Commission of Civil Rights, the Asian American Legal Defense and Education fund, and the Committee Against Anti-Asian Violence.

Twelve minority scholars participate in program

Twelve minority scholars with specialties in subjects from economic development in Jamaica to creep fracture mechanics will participate this summer in the Scholars in Residence program.

The scholars will teach courses at University Park, Penn State Harrisburg and Penn State Erie, The Behrend College. The program is designed to provide opportunities for minority scholars to teach and conduct research at Penn State, to become familiar with the University and to bring cultural diversity to the communities.

"We're delighted to host these respected scholar-teachers at Penn State," Nancy Tischler, director of the Office of Summer Sessions, said. "As they enrich our classrooms and communities, we know that friendships will develop and lasting relationships will be established."

The scholars are: **Phyllis Boanes**, Earlham College; **Goodwin A. Chukwu**, Oklahoma Geologic Survey, University of Oklahoma office; **Elizabeth Clark-Lewis**, Northern Virginia Community College; **Carlene J. Edie**, University of Massachusetts at Amherst; **Winona Fletcher**, Indiana University; **Anthony O. Gyapong**, Wayne State University; **Michael T. Nettles**, University of Tennessee.

Chuke A. Ogbonnya, Mountain Empire College; **F. Adelle Proctor**, Northeastern University; **Angelica Pozo**, independent artist; **Garth T. St. Omer**, University of California; and **N. Frank Ukadike**, San Francisco State University.

Dr. Boanes, an assistant professor of history, has research interests in the

literature of Africa, U.S. foreign policy and Africa, women in South Africa, and African Blacks and Africa. She will teach a comparative history course at Penn State Harrisburg.

Dr. Chukwu, an Oklahoma Geologic Survey research associate, will teach two mineral engineering courses for the College of Earth and Mineral Sciences.

Dr. Clark-Lewis, professor of history, plans to examine the major themes in Central Pennsylvania's African-American/Black-American history with particular emphasis on the 20th century, and developing historical studies of Black migration to central Pennsylvania during the 20th century. She will teach an American studies course: "Ethnic America: History and Culture of African-Americans in Pennsylvania" at Penn State Harrisburg.

Dr. Edie, assistant professor of political science, conducts research in democratic political processes and economic development in Jamaica. She plans to teach a political science course.

Dr. Fletcher, a professor of theater and drama, has done extensive work on African-American artists in the American theater. At the University Park Campus, she will assist in project planning and script development for plays on the Black American experience by young writers.

Dr. Gyapong, an assistant professor of labor and human resources, is interested in occupational choices and educational aspirations of young African-American and Hispanic males and females. At Penn State Behrend, he will teach an economics course and conduct research for the categories of

Analysis of Initial Occupational and Educational Goals among Black High School Seniors."

Dr. Nettles, University of Tennessee vice president for assessment, will teach a higher education course on minority retention.

Dr. Ogbonnya, assistant professor of environmental science, conducts research in areas such as the effects of insect population on growth and development of field crops. At University Park, he will participate in a research project on integrating pest management and teach a graduate seminar.

The research interests of Dr. Proctor, a professor of speech language, pathology and audiology, include acoustic analysis of speech production in deaf children, infant communication and language performance of African-American English-speaking children. A Penn State graduate, she will teach a hearing and speech disorders course.

Ms. Pozo, an independent artist who specializes in ceramic art, will serve as an artist-in-residence and teach beginning, intermediate and advanced ceramics courses at University Park.

Dr. St. Omer, professor of English, will teach an English course, *American, African and Caribbean Novel in its Colonial Context*.

Dr. Ukadike, a San Francisco State University visiting scholar, conducts research in areas such as Black African cinema, oral tradition and the aesthetics of African cinema. He will teach a communications course on *Third World cinema*.

Donald Hartman is named DuBois CEO designate

Donald T. Hartman, vice president for academic affairs at the University of Charleston, W. Va., has been named campus executive officer designate of the Penn State DuBois Campus, effective July 1.

Jacqueline Schoch, the current CEO will retire on Sept. 30 and Dr. Hartman will become campus executive officer.

We are pleased that Dr. Hartman, a native of Pennsylvania, is joining the Penn State system," President Jordan said. His academic credentials and extensive experience in academic administration will greatly benefit the University and the DuBois Campus.

At the University of Charleston, Dr. Hartman's major responsibilities as chief academic officer include working with the deans of five colleges and the Conservatory of Music to develop academic policies and procedures in areas such as curriculum budgeting, retention and fund-raising.

In addition, he assumed the responsibilities of dean of the faculty and reorganized administrations, financial aid, assessment, registration and records into a new unit, enrollment-management. During

Donald T. Hartman

1988-89, he also became responsible for student life, athletics, development and administration of the operating budget, physical plant and maintenance, food

service, personnel and legal services, food service and facilities.

Prior to his position at the University of Charleston, Dr. Hartman served as vice president and dean for academic affairs at Juniata College in Huntingdon from 1977 to 1984, dean of student services from 1975 to 1977 and associate academic dean from 1971 to 1976.

He received an A.B. degree in philosophy and English literature, magna cum laude, from Albright College in Reading, and M.A. and Ph.D. degrees in contemporary analytical philosophy from the University of Michigan.

His academic and research interests include human and artificial intelligence, philosophy of psychology and philosophy of biology.

Dr. Hartman has been an American Council of Education Fellow and a National Science Foundation Fellow. Other activities include memberships on the American Association for the Advancement of Science, American Conference of Academic Deans and American Philosophical Association.

Bookshelf

Ronald J. Harshbarger, associate professor of mathematics, and **James J. Reynolds**, assistant professor of mathematics, both at Penn State Beaver Campus, are co-authors of the textbook *Calculus With Applications* and two supplements.

The book, published by D.C. Heath and Co., is a second semester calculus textbook for students with majors in business, life sciences and social sciences.

Calculus With Applications covers the full range of topics in calculus of one variable, topics from calculus of several variables, and topics in differential equations and probability.

Its emphasis is on real-life applications that motivate and can be solved by using the mathematical topics developed in the book. Examples include supply and demand/elasticity of demand; cost, revenue and profit; population growth models; growth models for species; compound interest; and spread of disease or rumor or knowledge of an advertisement through a population.

Calculus With Applications is the seventh textbook coauthored by Drs. Harshbarger and Reynolds.

Charles Bierbauer to moderate Eastern Europe symposium

Charles J. Bierbauer, senior White House correspondent for CNN, will moderate a symposium on the ongoing changes in Eastern Europe and their implications for international relations.

The symposium, "The Running Story: Change and Challenge in Eastern Europe," will be held during two sessions on Monday, June 25, at the Nittany Lion Inn at University Park.

The first session, beginning at 1:30 p.m.,

will address the geopolitical aspects of East European changes. The second session, beginning at 7:30 p.m., will concern media coverage of Eastern Europe. The symposium is co-sponsored by the School of Communications and the Office of Summer Sessions.

Mr. Bierbauer is a 1966 Penn State graduate whose career includes television, radio, wire service and newspaper reporting.

Featured panelists should include: John Craig, editor of the *Pittsburgh Post-Gazette*; Trond Gilberg, head of the Department of Political Science and director of the Slavic and Soviet Language and Area Center; Andrew Rosenthal, White House correspondent for *The New York Times*; and former Moscow correspondent, and Susanne Schäfer, chief military writer for the Associated Press.

Personnel, payroll actions being processed EASy

In February, the University took a giant step towards the information age with university-wide implementation of EASy, the Electronic Approval System.

Did you notice? Probably not, because the implementation went so smoothly. As explained by **Ken Blythe**, director of Management Services, "It was a non-event and that's the way we like it."

Offices throughout the University are now required to submit and approve their personnel and payroll actions with EASy. This means that your next appointment, promotion or reassignment will be processed electronically. Gone are the days when these actions were submitted on paper forms which had to be rolled into typewriters, typed, checked, reviewed, approved and mailed to the Office of Human Resources for processing.

Today, those actions are being submitted on an electronic screen (microcomputer or terminal). The same information that used to be typed on paper is now being entered and approved on-line.

Once approved, the action is forwarded to the next approver in a matter of seconds. Whether the action is submitted across the room, down the hall, across campus or across distant campuses, it happens in a matter of seconds. Processes that used to take days now take hours.

Observance of the 25,000th EASy form occurred on May 14 with the submission of a wage recommendation form by **Connie Peters**, accounting clerk in the Molecular and Cell Biology Department of the Eberly College of Science.

Ms. Peters has been very impressed with the ease of use of the system. "I submit 10 to 12 actions a week and find that I can do them just as fast as I used to type the paper form," she said. "The nice thing is that once I finish typing, I simply push a button, and it is passed on for approval. I do not have to leave my desk. It's pretty EASy."

In addition to personnel and payroll forms, EASy can handle purchase orders, general stores requisitions, budget amendments, special requests for check, vehicle reservation forms, wage payroll time cards and others.

Mr. Blythe said the goal in the next few years is to include all administrative forms in EASy.

"The idea is that offices of the University can become self-sufficient with their electronic connection. In addition to EASy, the electronic terminal will support electronic mail, financial records, personnel records, office automation and student records - everything necessary to function in a modern University office."

Connie Peters submitted the 25,000th EASy form on May 14. (Photo: Dave Mengle)

Healthcare program

(continued from page 1)

appropriate and cost effective treatment. Managed care will replace the second surgical opinion program in healthcare Plans A and B. Under managed care, a healthcare specialist will provide patient support service in managing a treatment program. Complete details about managed care will be made available at a later date.

In conjunction with these improvements, and as a means of keeping pace with both the rising costs of healthcare and faculty and staff needs for such care, Mr. Garban said, the University will increase gradually the healthcare contribution required of each faculty or staff member over the next several years.

"The cost of medical care is rising rapidly, not only nationally, but also at Penn State. Healthcare for a single individual at the University in 1990-91 will cost \$145.80

per month (\$1,749.60 per year). Family coverage will be \$330.27 per month (\$3,963.24 per year). These costs are up from \$74.50 and \$150.62 just five years ago.

According to Mr. Garban, the University currently pays 97 percent of healthcare costs for employees. Faculty and staff members contribute \$3.06 per month for single coverage and \$8.60 a month for family coverage. The amounts paid by faculty and staff have remained virtually unchanged for 25 years.

Most employers require their employees to share in the cost of medical care at a much higher level than Penn State," he added, noting, among other things, that the Opinion Survey conducted two years ago indicated that many Penn State faculty and staff members were willing to increase their contribution provided that they received improved benefits.

Effective Jan. 1, 1991, the faculty/staff healthcare contribution will be increased from \$3.06 per month to

\$9.25 per month for single coverage. At the same time, family coverage will increase from \$8.60 per month to \$22 per month.

These rates represent approximately 6 percent of total healthcare costs," Mr. Garban explained. He also said plans call for the rates to increase gradually over a period of several years. At the same time, improvements to the healthcare program will be made so that faculty and staff will continue to have excellent healthcare protection.

Mr. Garban also noted that faculty and staff contributions to healthcare may be treated as pre-tax dollars under the University's flexible benefits program.

Faculty and staff members will be asked to complete enrollment information indicating their choices for coverage to be effective Jan. 1, 1991 in October and November of this year. Additional information will be provided by the Office of Human Resources over the summer and fall.

Focus on the arts

Recital

A program of music for clarinet and piano will be presented by Evelyn Ellis and Jill Olson at 3 p.m. Sunday, June 17, in the Recital Hall of the Music Building at University Park.

The duo presents a recital each summer, performing music from the early classical period through the 20th century. Ms. Ellis is a University graduate with a master's degree in clarinet. Ms. Olson is a graduate of the University of Wisconsin and currently teaches piano in the State College area. They will be joined by Raymond Page, viola. Mr. Page is a retired University professor of music and member of the Allard String Quartet.

This year's recital, titled "Discoveries," opens with the "Sonata for Clarinet and Piano" by a Canadian, Violet Archer. The sonata will be followed by the "Trio for Clarinet, Viola and Piano" by W.A. Mozart. The recital closes with the "Sonata for Clarinet and Piano" by American composer Daniel Gregory Mason.

The recital is free and open to the public.

Australian films

"Australia-A Turning Point" is the theme of the Australian Film Festival to be held June 17-22 at University Park. The festival, co-sponsored by the School of Communications, the Office of Summer Sessions and the Australia-New Zealand Study Center, features films and follow-up discussions with visiting Australian film experts.

Films to be shown are:

.. "Breaker Morant," at 7:30 p.m.

.. Sunday, June 17, in Schwab Auditorium. Chronicles the scapegoating and execution of Australian hero Breaker Morant by the British army in South Africa.

.. "Vincent" and "My First Wife," at 7:30 p.m. Monday, June 18, in Eisenhower Auditorium. The first is the life story of Vincent Van Gogh, while the second details the painfulness of a failed marriage.

.. Kangaroo, at 7:30 p.m. Tuesday, June 19, in Eisenhower Auditorium. Based on D.H. Lawrence's novel about his experiences in Australia. Will be followed by The Year My Voice Broke, about a 15-year-old boy's thwarted passion for a troubled girl who is years ahead of him sexually.

.. The short films A Girl's Own Story, Passionless Moments, Peel, and Cane Toss. An Unnatural History, at 7:30 p.m. Wednesday, June 20, in Schwab Auditorium.

.. Dead Calm, at 7:30 p.m. Thursday, June 21, in Schwab Auditorium. A couple's peaceful sailing trip turns into high seas terror when they encounter a derelict ship and its deranged sole survivor.

.. Sweetie, at 7:30 p.m. Friday, June 22, in Schwab Auditorium. Examines the roots of sibling rivalry between two sisters - one a reedy introvert, the other an elaborate extrovert.

Guest film experts from Australia will include directors Tim Burstall and Paul Cox, and Sandra Hall, a film critic with the Bulletin.

The festival is coordinated by Mary Gage, assistant professor of film/video and theater, and Henry Albin, director of the Australia-New Zealand Study Center.

The arts on Channel 3

The Metropolitan Opera's production of Wagner's complete *Der Ring des Nibelungen* will be televised on four consecutive evenings beginning at 8 p.m. Monday, June 18, on WPX-TV. It will be the largest opera telecast ever undertaken in the history of American television with 17 hours of opera in prime time.

The four operas in the cycle are: *Das Rheingold*, which opens the telecast on June 18, followed by *Die Walkure* on June 19, *Siegfried* on June 20 and *Götterdämmerung* on June 21. The cast includes Hildegard

Evelyn Ellis will play the clarinet in a recital with Jill Olson at 3 p.m. June 17 in the Recital Hall of the Music Building.

Behrens, Jessye Norman, Christa Ludwig, Tatiana Troyanos, Siegfried Jerusalem, Gary Lakes, Heinz Zednik, James Morris, Ekkehard Wlaschka, Kurt Moll and Matti Salminen.

The programs also will be simulcast on WPSU Radio, 91.1 FM.

Grammy Award-winning singer Melissa Manchester and tenor saxophone great Stan Getz join conductor John Williams and the Boston Pops Orchestra at 10:30 p.m. Friday, June 22, for an evening of jazz and pop selections. Highlights include a Getz/Manchester duet of "Sophisticated Lady," Manchester's hits "Midnight Blue" and "Come in from the Rain" and the Mr. Williams theme from "Born on the Fourth of July."

Museum lecture

The curator of an exhibition that highlights traditional Pennsylvania crafts will discuss the exhibition at 8 p.m. Wednesday, June 20, at the Palmer Museum of Art at University Park.

Shalom D. Staub will discuss the planning and research behind the exhibition "Craft and Community: Traditional Arts in Contemporary Society," on view at the museum through July 22.

The exhibition explores the work of individuals who have preserved traditional methods in producing contemporary crafts. Crafts from 24 counties in Pennsylvania, representing 26 ethnic, occupational, regional and religious traditions, are included in the exhibition, which is organized to convey the relationship between the object and the maker.

Dr. Staub, who currently is the executive director of the Pennsylvania Heritage Affairs Commission, began working on the exhibition during his tenure as director of the State Folklife Programs.

He earned his bachelor's and master's degrees in anthropology from Wesleyan University in Connecticut and his doctorate in folklore and folklife from the University of Pennsylvania.

The exhibition is co-sponsored by the Pennsylvania Heritage Affairs Commission and the Balch Institute for Ethnic Studies. It also is supported through a grant from the National Endowment for the Humanities.

Music at Penn's Woods

Two guest conductors, along with some renowned soloists and chamber ensembles will perform at University Park this summer as part of Music at Penn's Woods.

Beginning its fifth season, Music at Penn's Woods will present four consecutive Saturday evening concerts at 7:30 p.m. in Schwab Auditorium from June 30 to July 21.

Led by conductor Douglas Meyer, associate professor in the School of Music, the Penn's Woods Philharmonia brings together 45 young professional musicians from around the country.

On July 7, the Munich conductor, Julius Kar-Bartoli, will lead the orchestra. Mr. Kar-Bartoli is noted for his interpretations of Dvorak and 20th-century composers. On July 14, a free concert will be given as a part of the Central Pennsylvania Festival of the Arts. Philip Nuzzo, artistic director for the Mississippi Opera Company and a graduate of the Mannes College of Music in New York City, will be the guest conductor.

This special Arts Festival concert also will feature guest soloist Paul Tobias, an outstanding American cellist who has performed with Michael Tilson Thomas and this season was a soloist with the New York Philharmonic.

For the final concert of the season on July 21, the featured soloist will be mezzo-soprano Carol Kreuscher. Ms. Kreuscher, who has her doctorate from the University of Texas at Austin, has performed with opera companies across the country.

In addition to the Saturday concerts, the month-long festival offers free chamber music performances on Wednesday evenings and Sunday afternoons in the Recital Hall of the Music Building.

The Escher Quartet from Kansas City will return to perform again this season, as well as the Alard String Quartet and the Pennsylvania Quintet. The members of the Alard Quartet and the Pennsylvania Quintet are either current or retired faculty members of the School of Music.

Music at Penn's Woods is sponsored by the School of Music and the Office of Summer Sessions. Tickets are available for the Saturday concerts from the Eisenhower Auditorium Ticket Center. Prices are \$4 for adults and \$2 for students and children. Call (814) 863-0255.

Craft Centre

The HUB Craft Centre announces a new session of classes for adults and children and the opportunity to purchase memberships for the use of the pottery facilities.

Shalom Staub, curator of the exhibition, "Craft and Community: Traditional Arts in Contemporary Society," will discuss the exhibition at 8 p.m. June 20 at the Palmer Museum of Art.

The Centre offers a variety of classes such as wheelthrowing pottery, weaving, quilting, watercolor, drawing, stained glass, etc. The children's schedule offers a variety of new workshops and art experiences. This summer, the Centre is featuring fly tying for junior and senior high students. Memberships also are offered for the use of the pottery facilities.

For more information, stop by 312 HUB or call 863-0611.

Piano festival

A national piano festival devoted to the teaching principles of Tobias Matthay, one of the foremost 20th-century piano teachers, will be held at University Park June 20-24.

The festival will include lectures, demonstrations, performances and master classes on Mr. Matthay's principles as they apply to teaching situations at all levels, including that of the performing artist.

David Garvey, professor of piano at the University of Texas at Austin and accompanist for Leontyne Price, is the special guest artist for this 33rd annual Matthay Festival.

The festival also will include four free evening piano recitals at 8 p.m. June 21-24 in the Recital Hall of the Music Building.

Carl Blake, chairperson of this year's festival, will open the evening recitals, with his performance to include Six Preludes by Debussy, Sonata in E flat major by Haydn, Polonaise-fantaisie in A flat major by Chopin and Sonata in E flat minor by Barber.

David Watkins of the piano faculty of Kennesaw State College in Georgia will perform June 22. His program includes Toccata, Adagio and Fugue by Bach, transcribed for piano by Busoni; Rondo in C major by Beethoven; Sonata in G major by Mozart; L'Isle joyeuse by Debussy; and Sonata in B minor by Chopin.

Nineteen-year-old Christopher Harding, an honor student at the Eastman School of Music, will present the June 23 recital. His program includes three sonatas by Scarlatti; Schubert's Sonata in A major; two of Rachmaninoff's Etudes-tableaux, Op. 39; Prokofiev's Saracens; Schumann's Variations on the name "Abeeg"; and Debussy's "Children's Corner Suite."

The recital series will conclude June 24 with a performance by Kenneth Huber to include Sonata in C minor, the "Pathétique," by Beethoven; "Two Legends" by Liszt; and three works by Mozart. They are: Sonata in C major, Fantasia in D minor and Rondo in D minor.

Mr. Matthay, who established a piano school in Britain in 1905, trained such notables as Myra Hess, Clifford Curzon, Irene Scharrer and Frank Mannheimer. He taught in this country during the 1920s and '30s.

For more information about program content, contact Dr. Blake, 115 Arts Building, telephone 865-3775. To register for the daytime sessions, contact Barbara, 410 Keller Conference Center, telephone 865-4591.

Groundbreaking held at Hazleton Campus

President Jordan has announced the name of the new academic building at the Penn State Hazleton Campus as the Evelyn Graham Academic Building.

According to James J. Staudenmeier, campus executive officer, a major gift from Evelyn and Seymour Graham through the Graham Foundation has put the \$1.5 million Hazleton Campaign very near its goal and enabled construction on the academic building to begin immediately.

The campaign, now in its third of five years, is only the second major fund-raising effort at the Hazleton Campus, the first such capital campaign in 1966 resulted in what is now the Kostos Classroom/Laboratory Building.

The new academic building will contain three traditional classrooms seating about 75 students each, an amphitheater seating 120 that will contain the latest in instructional equipment, a number of faculty offices, student study space, and a lobby/exhibit area.

At groundbreaking ceremonies for the Evelyn Graham Academic Building, President Jordan expressed his appreciation to those who helped make the building a reality.

"All of you—friends, alumni, volunteers, donors, students and faculty and staff—have helped through this campaign to make the future brighter for the Penn State Hazleton Campus," he said.

Report on the recommendations of the Strategic Study Group on the Status of Women

Message from President Jordan

I am encouraged to see the many activities that are ongoing as a result of the Strategic Study Group on the Status of Women.

The Commission for Women had been in place for a number of years prior to my arrival at Penn State. The Commission already had begun to identify concerns of women and suggested to me that a formal study of these concerns would be helpful. Thus, the strategic study group was established in the fall of 1985. After considerable listening throughout the University, the study group identified 192 recommendations which ultimately were grouped into the three major areas: leadership share, structure and quality of university work life, and structure and quality of the academic environment.

The study group's report has helped the University make needed progress. In the area of leadership share, more women have been hired into managerial and

administrative positions. We are looking for continued progress in all areas and especially in the executive, administrator and academic administrator areas.

In the area of structure and quality of University work life, the University has undertaken a major project headed by the Office of Human Resources. The project is to design and to implement a single job evaluation program for clerical and staff positions. Progress on the project is moving as anticipated. We are confident that the University's expectations will be realized in the next 18 months. We also have identified childcare needs of students, faculty and staff as a major concern at Penn State. This emphasis for clerical, staff and staff nonexempt employees, along with policy changes regarding flexible scheduling, part-time employees, sick family time and extension of childcare leave to one year, all speak to improving

University work life.

We also are concerned about the structure and quality of the academic environment. With the assistance of the University Faculty Senate, a committee to focus on ways to eliminate the "chilly" classroom climate has been established. Another committee is reassessing how the University is dealing with aspects of sexual harassment to ensure that we are doing everything possible to make the academic environment what it needs to be in order to enhance the learning experience.

These and other accomplishments come as the result of the sustained good work and dedicated teamwork on the part of many in the University community. It is my hope that such efforts will continue in the years ahead.

Bryce Jordan

Bryce Jordan

History of the strategic study group

In 1985, President Jordan appointed the Strategic Study Group on the Status of Women to examine areas of concern to women at the University.

The president's action was in response to a proposal by the Commission for Women that the University study every aspect of the status of women at the University, including their leadership share, the structure and quality of University worklife, and the structure and quality of the academic environment.

The study-group format, in keeping with Dr. Jordan's emphasis on strategic planning for the University, brought together some 30 individuals representing administrators, faculty members, staff members and graduate and undergraduate students.

The formation of the study group represented the first comprehensive examination of the situation of

women throughout the Penn State system since the University developed a policy of equal opportunity and affirmative action in 1971.

Kathryn Moore, former professor of education and director, Center for the Study of Higher Education, chaired the study group, and Michael P. Johnson, research director and associate professor of sociology and women's studies, directed the gathering and analysis of the data.

During its three-year tenure, the study group made 192 recommendations in a series of five reports submitted in November 1986, April 1987, July 1987, December 1987 and March 1988.

This special *Interim* insert outlines the status of the study group's recommendations.

In this issue

Leadership share	A-2
Structure and quality of the academic environment	A-3
Structure and quality of University work life	A-3
Four new policy initiatives	A-4

Commission for Women oversees implementation

Members of the Commission for Women's Implementation Review Committee discuss the status of recommendations of the Strategic Study Group on the Status of Women. The committee is chaired by Mary M. Dupuis, chairperson-elect of the Commission.

A major role of the Commission for Women is to oversee the implementation of the recommendations of the Strategic Study Group on the Status of Women, Jill Findeis, Commission chair, says.

Dr. Findeis, associate professor of agricultural economics, explains that the Commission serves in an advisory role to the University president on matters affecting women.

"The Commission is helping to shepherd the study group's recommendations through the implementation process," she says. "We want to make sure that the recommendations are not forgotten."

The Commission also serves as an advocate for women, making their concerns known to the administration, she added.

Many of the issues of concern to the Commission are described in this *Interim* insert.

The Commission's priorities for 1989-90 include:

- ... continuing to review progress on the job reclassification study being conducted by the Office of Human Resources;

- ... supporting recruitment and retention of women at all levels and in all categories of positions;

- ... working for and encouraging efforts to change attitudes toward women, including women students at the graduate and undergraduate levels;

- ... improving benefits available to University employees and encouraging changes leading to a more flexible work environment;

- ... supporting expansion of childcare options; and
- ... supporting the efforts of women of color to achieve equity.

The Commission's 37 members are appointed by President Jordan. Members serve three-year terms or, in the case of students, until they graduate. Meetings are held monthly during the academic year and are open to all interested persons.

Staff support is provided by the Office of Planning and Analysis, Room 405 Old Main, telephone 865-1683. The Commission welcomes comments and questions from members of the University community.

Report on the recommendations of the Strategic Study Group on the Status of Women

Leadership share

One of the three major areas of the recommendations received from the Strategic Study Group on the Status of Women is the area of leadership share.

"Leadership share" is a term which refers generally to encouraging women to take positions within the University which provide an opportunity for women to participate in the decisions, the leadership, of the institution. These positions are usually executive, administrator, manager and academic administrator roles.

Each of the recommendations in this area has been reviewed, and action has taken a number of different forms.

In the area of affirmative action, President Jordan continues to urge compliance with the University's Affirmative Action Plan through oral and written correspondence to executive officers and deans.

The policy directing executive and academic administrator search procedures has been revised to include national searches. Vice Provost Grace Hampton, who is responsible for executive searches, works with staff in the Affirmative Action Office on these searches.

The vice provost for underrepresented groups will be working with the Affirmative Action Office to fill dean and department head positions, as they become vacant. Searches in these leadership positions, which have been targeted for outreach to women, are financially enhanced by the Women's Recruitment Fund.

Of significant importance to the issue of leadership share is the University's decision to adopt as one of four goals for the five-year strategic plan a goal that speaks to diversity. The goal states, in part, that the University wants to build "a supportive environment for both women and men in the University's classrooms and research centers and in our communities that reflects our nation's diverse racial and ethnic populations and the multifaceted histories, experiences and knowledge of all humankind."

Commitment by area of the University, with budgeted actions identified, will go a long way toward achieving the recommendation of leadership share as intended by the strategic study group.

Retention and promotion of women from within also is an important component of the University's goal of leadership share. In order for appropriate staff in the University to learn ways to encourage women to remain at Penn State, it is helpful to know why some choose to leave.

To that end, the University will be piloting a two-phased exit interview process. The first phase is a written survey of those leaving the University. Some administrative areas participating in the pilot study may conduct exit interviews face-to-face, if the staff member agrees with that approach. The second phase is an interview by telephone a month or two after the individual has left the University.

Once the exit interview process has been piloted, it will be revised, as necessary, and expanded. In administrative areas of the University where exit interviews are already in place, no change will be made in the process. If the pilot

Since its inception in 1986, seven individuals have participated in the Administrative Fellows Program. They are, from left, Lydia F. Abdullah, audit manager, internal auditing, Corporate Controller's Office; W. Terrell Jones, special assistant to the provost; Joan S. Thomson, coordinator for staff development and assistant professor of rural sociology; Del Sweeney, special assistant to the executive vice president and provost; Roseann Sieminski, bursar; Mary M. Dupuis, professor of education and director of teacher education; and Patricia Farrell, associate professor of leisure studies.

generates helpful questions and responses which are not currently being used in some of these areas, the Office of Human Resources will urge their use universally.

Ultimately, the intent is to have exit interviews throughout the University. The interviews will include questions of consequence to the entire University and other questions which may be work-area specific.

A number of other activities also are intended to support the promotion of women from within the faculty.

For example, Dr. Hampton, in her capacity as vice provost, speaks regularly on the promotion and tenure process at the University, emphasizing the standards and criteria contained in PS-23. Her efforts are aimed at excluding gender bias, which might otherwise occur in the promotion and tenure process.

Another area of importance to faculty members seeking promotion and/or tenure is research, which requires adequate funding to pursue. To assist faculty members in their research efforts, the research initiation grant (RIC) is now an ongoing program at the University.

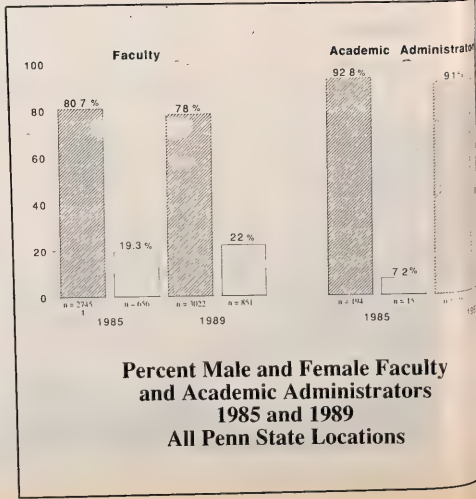

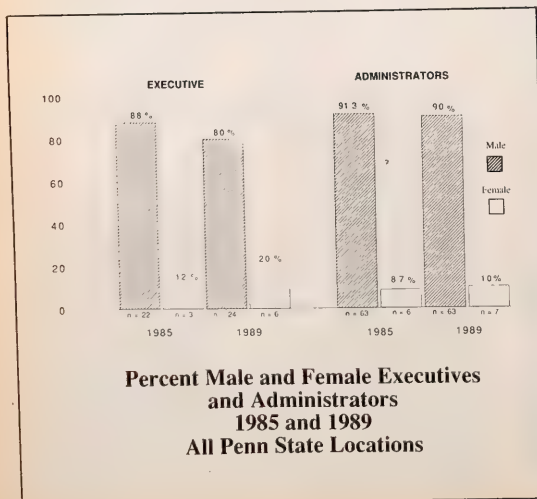

Promotion from within also is enhanced with the Administrative Fellows Program, which provides an opportunity for improving the growth of minority and women faculty and staff members. To date, seven administrative fellows have participated in the program. Currently, two extensions of the fellows program are

being contemplated. One extension is to seek funding to add an administrative fellows position regionally at a location away from University Park. The second extension is still being designed by a subcommittee of the Commission for Women and staff in the Office of Human Resources. It will be a program or programs which will be accessible to women who are in roles which do not fit the existing fellows program.

To enhance the necessary advocacy role of the Equal Opportunity Planning Committee (EOPC), the chairperson of the Commission for Women was added to the EOPC's membership. Women's equity has been added as a separate funding category. University students, faculty and staff members are urged to note EOPC's schedule for "request for proposals" and to submit proposals for projects which will support the philosophy of women's equity.

Some of the proposals accepted to date include:

- Sexual Assault Awareness/Prevention Week - Fall 1990 (sponsor: Center for Women Students)
- Mentoring and Leadership: Improving the Educational Environment for Women (sponsor: Schuykill)
- Reaching Your Potential: Women in the 1990s (sponsor: Schuykill)
- Heighten Awareness of Women's Studies within the Commonwealth Educational System and the University Park Campus (sponsor: Women's Studies Program)

Strategic Study Group on the Status of Women

Structure and quality of the academic environment

Emphasis in the quality of work life and of the academic environment involves more than policies, procedures and programs. To a large degree, it involves attitude.

Among the issues involved in the academic environment area is that of curriculum development. During this past academic year, the University Faculty Senate passed a resolution on curriculum integration and it has formed a coalition on chilly classroom climate. In addition, questions concerning climate issues will be available for student evaluation of teaching beginning in fall 1990.

Another issue related to academic environment is diversity. As the University continues to expand and recruit more faculty and staff members, the University community will become more diverse. With diversity comes a need for faculty, staff and students to respect people for their similarities and their differences. President Jordan established the Commission on Racial/Ethnic Diversity in spring 1989 to take on the role of enhancing the climate for diversity. In a related move, the statement used in all University classified advertisements has been revised to read: "An affirmative action/equal opportunity employer, women and minorities encouraged to apply." Another area of academic environment concerns student-faculty ratios. With the increase in female faculty members, the student-faculty ratio for women has declined.

Quality of the academic environment also affects returning adult students. To ensure a quality academic environment for these students, organizations have been formed at most locations, hours have been extended for special offices and activities, and some special times for courses have been arranged. The Committee on Adult Life and Learning is a recently established task force.

Study group recommendations also focus on women's athletics. Recently, an administrative change assigned all coaches of women's sports to report to an assistant director who works with an associate athletic director. The assistant directorship was subsequently filled by Ellen Perry. A Commission for Women subcommittee will emphasize women's athletics.

This year, various groups have come together to re-evaluate the University's program on sexual harassment. In addition, through educational efforts, the University has seen the elimination of X-rated movies on campus.

The Center for Women Students and the Center for Student Involvement and Leadership have been active in developing educational programs which speak to the issues of sexual violence against women. The Sexual Assault Awareness and Prevention Week activities have been funded a second year through EOPEC.

Several initiatives originating in the Department of Safety and Environmental Services are leading to improvements in the academic environment. They include the establishment of a victim/witness advocate position and the creation of a University Park night map for students, faculty and staff members. The night map is available by contacting your personnel representative or by calling 863-1111. In addition, lighting improvements University-side are nearing completion, and an escort service for students, faculty and staff members is available at most University locations.

Structure and quality of University work life

The University has undertaken the Staff Position Evaluation and Compensation Program (SPEP) to ensure that the job evaluation and compensation structures are fair, equitable, reward excellence and provide career growth.

The program combines the existing classifications of staff exempt, staff nonexempt and clerical into a single staff category with a customized job evaluation and compensation plan. Consultants from Mercer Inc. are working with the University's Office of Human Resources on the project.

Another area of concern of the strategic study group focused on aspects of part-time employment.

In response to the study group's recommendations, qualified part-time employees became eligible for health insurance on Jan. 1, 1989. While the benefit does not meet the full expectations of some, it does make health care available to those who previously had not had access.

The University is continuing to study the impact of additional benefits packages. Effective July 1, qualified part-time employees will begin to accrue paid "earned" time.

Other study group recommendations focused on family care issues facing employees, which can be addressed, to some degree, by the University.

Currently, the major thrust is on childcare. President Jordan has named an Executive Committee to be involved in policy decisions affecting childcare.

In 1989, the Hershey Medical Center opened the Magic Years Child Care and Learning Center to provide its staff members with a convenient day-care option. More than 120 children of medical center staff members are enrolled in the center.

Similarly a University-wide Advisory Committee representing student, faculty and staff constituents has been charged with providing advice on the myriad of childcare issues. A search is being conducted to identify a director of the Office of Childcare Services. The director will report to the assistant vice president for human resources.

Models of childcare services are already in existence at various locations throughout the University. At University Park, both the College of Education and the College of Health and Human Development have programs affiliated with the Child Development Council, a community-based organization.

The Hershey Medical Center has opened a new facility in collaboration with Magic Years. Still other locations have made use of referral models. A referral list for University Park is available through the Employment Office, phone (814) 865-1387, in the Office of Human Resources.

The goal is to provide the best childcare possible through models that best fit each University campus and each of the constituencies within the University community.

Applicable policies and procedures will need to be better understood and, when appropriate, modified. One such policy which will be effective July 1, is the applicability of flexible work schedules, if they can be accommodated in work areas. Flexible schedules can be helpful in addressing drop-off and pick-up times for children in day care facilities.

The University Faculty Senate's resolution to allow "stopping out" of the tenure track for childcare situations also addresses the childcare needs of faculty members. The

administration is reviewing the resolution to identify the details of its application. Response by the administration is anticipated in July.

Childcare for dependents of students often takes on different perspectives from those of faculty and staff members, who tend to need all-day care. The Childcare Task Force made a number of recommendations which speak to the needs of students.

These recommendations, along with others made by the task force, will be blended with still others from the Advisory Committee. Together with the expertise brought to the role by the director, these many recommendations will support the University's decision to provide the best childcare possible.

The search for the director of the Office of Childcare Services is on schedule, and it is anticipated that the successful candidate will be named no later than September.

Another policy effective July 1 provides for three sick leave days per year, per staff member, to be used for care of sick children.

While support within the University to deal with childcare issues can directly affect work life, so too can support in such areas as career counseling and assistance in dual-career placement.

The Office of Human Resources in conjunction with Career Development and Placement Services offers faculty and staff members career counseling and related services. In addition, the Human Resource Development Center has expanded its offerings of non-fee courses in the areas of career change, career counseling and career planning.

Continued on page A-4

Sabrina C. Chapman, director of the Center for Women Students, and William W. Asbury, vice president for student services, both addressed a spring press conference devoted to the University's efforts to combat sexual assault and ensure a climate of personal safety. These efforts include a University policy on sexual assault and abuse, as well as educational programs and support services for victims of sexual assault.

Four new policies become effective July 1

The Office of Human Resources announces the implementation of four new policy initiatives effective July 1.

The initiatives, which are applicable to all staff (clerical, staff nonexempt and staff exempt) not represented by a union, faculty (extended childcare leave) and certain long-term nonregular employees (earned time for part-time employees) are flexible scheduling, sick family days, extended childcare leave and earned time off for part-time employees.

"Both the Strategic Study Group on the Status of Women and the Childcare Task Force have recommended that the University develop these initiatives. We are pleased to have been involved with this project and with the positive reception with which all of these policy initiatives have been received," Billie Willis, assistant vice president for human resources, said.

She added, "These initiatives have been reviewed by many members of the University community, including personnel representatives, the Commission for Women, the President's Administrative Policy Council (PAPC), the Council of Academic Deans (CADs), and a University-wide focus group of employees, all of whom provided advice and ideas on this project. I wish to thank all of them for their assistance and support on these initiatives."

Flexible scheduling

One of the ways to enhance the quality of work life for staff is to provide them the opportunity to adjust their work schedules to meet changing personal needs.

Although some individual departments have had informal flexible arrangements for years, the Office of Human Resources has developed a personnel guideline to give guidance to employees and departments where there is employee interest and the work needs permit such flexible scheduling.

Flexible scheduling can be as simple as working extra hours at the beginning of a workweek in order to leave early on Friday to accommodate a day-care provider. It also can be more complicated, such as an ongoing arrangement involving core time (when the employee must be present unless specifically excused by the supervisor) and flexible time (when start, lunch and end times are left to the discretion of the employee). Or, flexible scheduling can be any other long-term or temporary variation in the workday or workweek.

Following is a summary of the flexible scheduling provisions:

- applicable to all staff not represented by a union
- provides for both long-term and temporary changes in the workday
- could be used by an employee to accommodate family-care provisions, carpooling arrangements, doctor's appointments, classes or other personal obligations
- not intended to alter the number of hours worked in a workweek
- references Federal Wage and Hour Laws which mandate payment at time and one-half the hourly rate for any hours worked in excess of 40 during a workweek for nonexempt employees
- provides for a wide variety of possibilities, such as establishing alternate start and finish times, establishing flexible hours at the beginning and ending of the day, or simply working more hours on some days and fewer hours on other days
- all changes contingent on supervisor's approval
- permission to change working hours is a privilege, not a right
- request to be in writing to the supervisor with a copy sent to the personnel representative

Family care

One concern facing many employees is the care of their family. In order to help such employees address that concern, we have developed modifications to both the various sick leave policies and Personnel Guideline No. 11, "General Provisions Applicable to Requests for Childcare Leaves of Absence."

The sick leave policies have been modified to allow employees to use up to three days of accumulated sick leave per calendar year to care for a sick family member or a member of the employee's household. The care provided may include either bed-side care or accompanying the family member to a doctor's appointment. The absences provided for by this policy will not be considered as part of an employee's attendance record for the purposes of job bidding.

Personnel Guideline No. 11 has been modified to extend to one year the current provisions of six months for a newborn childcare leave of absence without pay. In the case of adoption, the one-year leave of absence without pay now begins from the date of adoption, not the date of birth.

Earned time for part-time employees

In addition to the contributions of regular employees, many departments rely on part-time employees. Some of these part-time employees desire to work a less-than-full-time schedule and do so for many years.

After the implementation of healthcare benefits for these long-term part-time employees, we began discussing the possibility of paid time off for this group," Dr. Willis said. "We have decided that the concept of earned time would ideally address this concern of paid time off for part-time employees."

The earned time concept provides employees with paid time off, which is earned each month to be used for whatever reason the employee chooses: illness, vacation, family care, etc.

Following is a summary of the earned time for part-time employees provisions:

- applicable to all nonregular, nonacademic employees not represented by a union
- revise PS-5, Regular and Nonregular University Employees, to include healthcare, holiday and paid time off provisions
- healthcare language states the provisions implemented in January 1989
- holiday language applies to employees with at least two years of continuous service in a work unit working at least 750 hours each year and states that such employees will receive their regular pay for the holiday if they are not required to work or time and one-half the hourly rate for all hours worked on the holiday
- provides for the accumulation of service days at the Hershey Medical Center
- earned time off language applies to employees with at least two years of continuous service in a work unit working at least 750 hours each year, and provides for accumulation of earned time each month on the basis of eight hours for each 168 hours paid; a maximum balance of 96 hours; the ability to transfer vacation time to earned time when changing from full-time status to part-time status within the work unit and vice versa; and payoff of earned time balance when employment is terminated or employee transfers to a different work unit.

Copies of the new policies have been distributed to the personnel representatives and will be distributed to all holders of Personnel Policy Manuals in the near future. Contact the Employee Relations Office, Box 7, Rider Building, 865-1412 (network, 475-1412), for more information.

University work life

Continued from page A-3

The Dual Career Assistance Program also has expanded. A five-county consortia has been established to provide more readily available information about job vacancies outside the University which might better serve the professional expectations of a partner of a new University faculty or staff member.

Penn State, like so many research universities nationally, continues to seek ways to better accommodate dual-career needs. Statistics indicate that within this decade, 80 percent of the professionals in this country will have dual-career needs. What we do know is that the more lead time available in assisting a partner, the broader the area of the consortia and the more cooperative the administrators of various academic and work units, the more successful the University will be in filling positions with well-qualified, diverse faculty and staff members.

Meeting the health needs of women students is important to the Women's Health Department. Shown discussing women's health issues are, from left, Joanna Moyer, certified nurse practitioner and acting coordinator, Women's Health Department, University Health Services; Robyn White, vice president, Student Health Advisory Board; Carolyn Buchanan, student director, Peer Contraception Education Program, who graduated in May; and Susan Kennedy, associate director for health promotion and education, University Health Services, and Commission for Women member. The discussion took place in the renovated women's health waiting room in Ritenour Health Center, University Park.

The report on the recommendations of the Strategic Study Group on the Status of Women is published by the Office of Public Information as part of the June 14, 1990, edition of *Intercom*, 312 Old Main, 865-7517.

It has been compiled by the Office of Human Resources and the Commission for Women and designed and written by William E. Campbell and Deborah A. Benedetti.

University Park Calendar

June 14 --

July 1

Special Events

Thursday, June 14

Summer Sessions, music, noon, Fisher Plaza.
seminar, 3:30 p.m., Nittany Lion Inn. Fireside
Lounge. Adrian Oceano, on "Knots, Quantum
Knots and Quantum Symmetry" billiard clinic,
6 p.m., HUB. Ice skating, Diversions, 7:10
p.m., PSU rink. Explazaganza concert, 7:30
p.m., Fisher Plaza.

Friday, June 15

Summer Sessions. Diversions, ice cream, 7-8 p.m.
Creamery.

Saturday, June 16

Shaver's Creek. Bird Breakfast, 7:30-9:30 a.m.
Call 863-2000.

Summer Sessions, summer jam, 9 p.m.-1 a.m.,
Paul Robeson Cultural Center.

Sunday, June 17

Shaver's Creek, Natural History Walk, 2-4 p.m.
Call 863-2000.

Australian Film Festival, 7:30 p.m., Schwab Aud.
Broken Arrows.

Monday, June 18

Australian Film Festival, 2 p.m., Eisenhower
Aud., *Golden Branks*; 7:30 p.m., Eisenhower
Aud., *Vincent and My First Wife*.

Tuesday, June 19

Summer Sessions, music at noon, Fisher Plaza.
Diversions, bowling, 7-9 and 9-11 p.m., Rec
Hall. Diversions, ice skating, 8-11 p.m., Ice
Rink. Explazaganza film, 9 p.m., Fisher Plaza.
Australian Film Festival, 2 p.m., Eisenhower
Aud., *Filming*; 7:30 p.m., Eisenhower Aud.,
The Year My Voice Broke and *Winter of Our Dreams*.

Wednesday, June 20

National Piano Festival, through June 24.
Six Week Session begins.
Australian Film Festival, 7:30 p.m., Schwab Aud.
Cane Town.

Pennsylvania Centre Stage, 8 p.m., Pavilion
Theatre. *A Shogun Manda*, through June 23.
Summer Sessions, film, 9 p.m., HUB lawn.

Thursday, June 21

Summer Sessions, music at noon, Fisher Plaza;
seminar, 3:30 p.m., Nittany Lion Inn, Fireside
Lounge. Eric Feigelson on "Portrait of the Sun
as a Young Star"; Summer Solstice: Star Party,
9-11 p.m., old floor Davey Lab (Raindate 6/22).
Explazaganza, concert, 7:30 p.m., Fisher Plaza.
Australian Film Festival, 7:30 p.m., Schwab Aud.
David Copperfield.

Friday, June 22

Summer Sessions, 7-9 p.m., 112 Kern. *Do the Right
Thing*.
Australian Film Festival, 7:30 p.m., Schwab Aud.
Savoy.

Saturday, June 23

Shaver's Creek, Nature Guiding Workshop, 10
a.m.-4 p.m., Call 863-2000.

Sunday, June 24

Shaver's Creek, Meet A Reptile, (ages 6-10), 2-4
p.m., Call 863-2000.

Monday, June 25

School of Communications, Summer Sessions.
Foreign Journalists' symposium, Nittany Lion
Inn, Charles I. Bierbauer, CNN senior White
House correspondent, will moderate.

Tuesday, June 26

Summer Sessions, music at noon, Fisher Plaza;
billiard clinic, 6 p.m., HUB. CSA meeting, 7:15
p.m., 101 Kern. Explazaganza film, 9 p.m.,
Fisher Plaza.

Pennsylvania Centre Stage, 8 p.m., Pavilion
Theatre. *A Shogun Manda*, through June 30.

Wednesday, June 27

Summer Sessions, thesis workshop, 3:30 p.m.,
101 Kern. film, 9 p.m., HUB lawn.

Thursday, June 28

Continuing Education for Women, meeting, 10 a.m.-noon,
256 Hammond.

The HUB Craft Centre offers classes in pottery and other art forms for adults and children. Call 863-0611 for details.

Summer Sessions, music at noon, Fisher Plaza,
seminar, 3:30 p.m., Nittany Lion Inn. Fireside
Lounge. Stephen Schaeffer on "Molecular
Population Genetics of a Monomorphic Gene
in *Drosophila*: Inferring the Evolutionary
Process from DNA; billiard clinic, 6 p.m.,
HUB; Black Mohonon Observatory tour and
lawn star party, leave 8:30 p.m., HUB.
(raindate June 29); Explazaganza, concert, 7:30
p.m., Fisher Plaza.

Saturday, June 30

Pennsylvania Centre Stage, 2 p.m., Pavilion
Theatre. *A Shogun Manda*.
Summer Sessions, Music at Penn's Woods, 7:30
p.m., Schwab Aud.
Shaver's Creek, Summer Stargazing, 8-10 p.m.,
Call 863-2000.

Sunday, July 1

Summer Sessions, Penn's Woods chamber
concert, 3 p.m., Music Bldg., Recital Hall

International Events

Education Abroad Programs

The following programs for Spring 1991 are
available until Oct. 1: Athens, Exeter, Kiel,
Manchester (economics), Nice, Rome, San
German, Tel Aviv.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-10
p.m.; Saturday and Sunday 5-10 p.m.; Morning
Edition, Monday-Friday 6-8 a.m.; Weekend
Edition, Saturday and Sunday, 11 a.m.-1 p.m.
"Odyssey Through Literature," 12:30 p.m.
Wednesdays, with S. Leonard Rubenstein.
"Perspectives," 6:30 p.m. Wednesdays.
"Creative License," 12:30 p.m. Thursdays, with
Asa Berlin and Pam Saulnier.

Conferences

Continuing Education

Keller Building

June 17-21, Mid-Atlantic Regional Embroiders'
Guild of America. Chuck Herd, coordinator.

June 17-22, Summer Seminar on Philately. Eric
Loop, coordinator.

June 17-23, Computer Elderhostel. J. Jerome
Zolten, assistant professor of speech
communications, chair. Barb Impellitteri,
coordinator.

June 17-30, Summer Space Academy. Sylvia
Stein, research associate of molecular and cell
biology, chair. Norm Lathbury, coordinator.

July 17-21, Graduate Minority Health
Careers Institute. Daniel Trevino, associate
professor, director of minority programs, chair.
Donna Ricketts, coordinator.

June 17-Aug. 4, Minority Research Apprentice
Program. Daniel Trevino, associate professor,
director of minority programs, chair. Donna
Ricketts, coordinator.

June 18-22, International Center for Diffraction
Data Clinic. Earle Ryba, associate professor of
metallurgy, chair. Norm Lathbury, coordinator.

June 19-21, State Farm Insurance. Jerri Milsom,
coordinator.

June 20-24, American Mathathay Association Piano
Festival. Carl Blake, assistant dean for
recruitment and retention, chair. Barb
Impellitteri, coordinator.

June 21-23, Penn State Golf Teaching and
Coaching Clinic. Bob Intieri, PGA master
professional, chair. Eric Loop, coordinator.

June 22-23, District 1149P SEIU. Richard Hindle,
associate professor of labor studies, chair. Eric
Loop, coordinator.

June 24-28, School Administrators Executive
Program. Robert Nicely, assistant dean of
continuing education and community
relations, College of Education and professor
of education, chair. Eric Loop, coordinator.

June 24-29, Communications Workers of
America, District 13. Gilbert Gall, assistant
professor of labor studies, chair. Chuck Herd,
coordinator.

June 24-29, International Center for Diffraction
Data Clinic. Earle Ryba, associate professor of
metallurgy, chair. Norm Lathbury, coordinator.

June 24-30, Computer Elderhostel II. J. Jerome
Zolten, assistant professor of speech
communications, chair. Barb Impellitteri,
coordinator.

June 24-30, High School Jazz Camp. Dan Yoder,
assistant professor of music, chair. Donna
Ricketts, coordinator.

June 24-July 21, Minority Health Careers

Institute. Daniel Trevino, associate professor,
director of minority programs, chair. Donna
Ricketts, coordinator.

June 25-26, Teachers' Legal Forum. Jack Williams,
assistant professor of administration of justice,
chair. Kathy Kanher, coordinator.

June 25-26, Managing the Precision Sales Force.
Shirley Hendrick, director of continuing
education, College of Business Administration
and assistant professor of business
administration, chair. Barb Impellitteri,
coordinator.

June 25-28, Sound and Recording Workshop.
Peter Kelter, coordinator of Fred Waring's
America in charge. Jack Sinclair, coordinator.

June 25-29, The Holocaust: Roots, Realities,
Reflections. Daniel Walden, professor of
American studies, English and comparative
literature, director for Norm Lathbury,
coordinator.

June 25-29, ENSO '89-B. Adventure Programming.
Theory and Practice. Bob Ricketts, instructor of
physical education, chair. Jerri Milsom,
coordinator.

June 25-29, NASA-Space Propulsion Systems
Symposium. C.L. Merkle, professor of
mechanical engineering, chair. Eric Loop,
coordinator.

June 27, Precision Selling. Shirley Hendrick,
director of continuing education, College of
Business Administration and assistant professor
of business administration, chair. Barb
Impellitteri, coordinator.

June 27-29, Staff Development in Pa. Schools.
Establishing the Network. Bernard Badali,
assistant professor of education, chair. Donna
Ricketts, coordinator.

June 28, Managing Multiple Priorities. A
Secretary in Charge. Anita Shumaker, assistant
professor of management development,
instructor, Donna Ricketts, coordinator.

June 28, Managing Multiple Priorities. A
Secretary in Charge. Anita Shumaker, assistant
professor of management development,
instructor, Donna Ricketts, coordinator.

professor of management development,
instructor, Donna Ricketts, coordinator.

Last group of buildings joins in recycling

The entire University Park Campus is
recycling as the last group of buildings
came on-line June 11.

"The program has been very successful,
and we look for continued and increased
participation this summer and fall," said
Phil Melnick, manager of support
operations and special programs for the
Office of Physical Plant. "We appreciate
everyone's efforts and cooperation."

To date, we have recycled 226 tons of
paper and 28 tons of containers.

"While nearly everyone has participated,
there are still some problems with the

separations of waste," he noted. "Some
people forget that not all waste is
acceptable for recycling."

There are two separations: one for paper
and one for containers. Other material is
considered non-recyclable trash and should
be discarded as usual.

The last buildings to begin recycling
were Academic Activities; Academic
Projects; Ag Arena; Animal Behavior Lab;
Animal Disease Lab; Animal Maintenance
Center; Beaver Stadium Ticket Office;
Beecher-Dock House; Beef and Sheep
Administration; Benedict; Brumbaugh

Offices; Centralized Biological Lab;
Dairy; Dairy Administration; Dairy
Breeding; Forestry Resource Lab; Gardner
House; Greenburg Sports Complex; Gypsy
Moth Research; Headhouse 4/Farm 8; High
Pressure Gas Lab; Horse Barns/Farm 10;
Land and Water Resources; Livestock
Holding Facility; Materials Research Lab;
Meats Lab; Merkle; Pesticides Research Lab;
Plant Pathology Lab; Poultry Headquarters;
Research Units A, B and C; Salvage and
Surplus Warehouse; Special Services
University Park Airport buildings; Wiley
Lab; Waste Water Treatment Plant

Museum of Anthropology

Facility to be open Mondays-Thursdays during June and July

If you're curious about ancient cultures or intrigued by human fossil remains and Indian pottery, you might add a visit to the Museum of Anthropology to your summer list.

The Office of Summer Sessions has made it possible for the museum, located on the second floor of Carpenter Building at University Park, to be open Mondays through Thursdays from 11:30 a.m. to 4:30 p.m. in June and July. Special hours during the Central Pennsylvania Festival of the Arts will be Wednesday, July 11, from 1 to 5 p.m.; Thursday, July 12, through Saturday, July 14, from 10 a.m. to 5 p.m.; and Sunday, July 15, from noon to 5 p.m.

The Museum of Anthropology has a wide range of displays, depicting ancient life in Mesoamerica and North America. "We have several strong collections which we continue to build," James Hatch, associate professor of anthropology, said.

The museum's displays depict the three dimensions of anthropology - archaeology, cultural anthropology and physical anthropology, he says. "One of the primary purposes of the museum is to augment departmental courses," Dr. Hatch added.

Archaeological displays include artifacts from Mesoamerica and North America. The Mesoamerican artifacts date to the pre-Columbian era, and many items come from the Teotihuacan region where Penn State archaeologists have been involved in extensive digs for many years.

In addition to the displays of tools, pottery and figurines of gods, large wall murals help give visitors an idea of life in ancient Mesoamerica. New to Penn State's collection are three painted panels representing murals that were found in a Mayan Temple in Mexico. They depict a celebration related to a successful military operation between Mayan chieftains.

Another display focuses on bone chemistry studies of Maya skeletons from western Honduras conducted by University students. Archaeologists have theorized that Mayan cities declined in population because of poor nutrition and diseases affecting the residents.

Other exhibits focus on North American Indians in the United States, Canada and Alaska. There also are prehistoric Indian artifacts from Pennsylvania found during expeditions in Lehigh, Centre and Bedford counties, as well as in the Lake Raystown area.

A small portion of the museum's pottery collection is on display. Currently, the exhibit highlights pottery made by Pueblo Indians from Arizona and New Mexico. An exhibit case contains examples of Canadian Eskimo art carved from slate, better-known as soapstone.

The museum is open to individuals, families and groups. Dr. Hatch says guided group tours can be arranged by calling (814) 865-3853.

Diane Snyder, secretary, Department of Anthropology, examines a museum display.

Faculty/Staff Alerts

Tuition reduction

This is to remind you that the 75% tuition reduction for graduate study for employees and spouses is taxable as ordinary income. Ordinary income is subject to withholding of all payroll related taxes. For the Summer Session, these taxes will be withheld from the July and August monthly payroll checks and from the three bi-weekly paychecks beginning July 27 and ending Aug. 24.

Courses for faculty and staff

The Human Resource Development Center has openings in the following courses. Call the Center at 865-3410 for registration

information.

The One Minute Manager Provides a practical guide to managing and developing people through goal setting, praising, redirecting, and reprimanding. Meets from 9 a.m. to 4 p.m. Monday, June 18. Cost: \$55.

Communicating an Eloquent Image. Public Speaking Skills for Women Effective speaking is essential for job success and satisfaction. Meets from 9 a.m. to 4 p.m. Wednesday, June 20. Cost: \$55.

Managing the Journey Program based upon Ken Blanchard's insightful video providing the framework for understanding

the complexities of change. Meets from 9 a.m. to 4 p.m. Monday, June 25. Cost: \$55.

Train the Trainer Designed to provide basic training skills to non-trainers, who as part of their jobs, train on an occasional basis. Meets from 8:30 to 11:45 a.m. Tuesday, June 26. Cost: \$35.

Dealing with "Problem" Employees Learn and practice skills that will help you work with "problem" employees. Meets from 9 a.m. to 4 p.m. Wednesday, June 27. Cost: \$55.

Sexual Harassment - Intent vs. Impact Learn to identify the differences between friendly behavior and subtle sexual

harassment in the workplace. Meets from 8:30 to 11:45 a.m. Thursday, June 28. Cost: none.

Macintosh Courses The courses on the use of the Macintosh will be held in the Findlay Lab on the dates noted. Cost: \$65 each. **Introduction to the Macintosh**, June 19 and 21 from 9 to 11:30 a.m.

Macintosh Graphics, June 25 from 9 a.m. to 3:30 p.m. **Introduction to Microsoft Word**, June 19 and 21 from 1 to 5:30 p.m. **Intermediate Microsoft Word**, June 22 from 9 a.m. to 3:30 p.m. and **Introduction to Microsoft Excel**, June 18 from 9 a.m. to 3:30 p.m.

Obituaries

Lee C. Eagleton, professor emeritus of chemical engineering, died May 15 at the age of 66.

He received B.S. and M.S. degrees, both in chemical engineering, from Massachusetts Institute of Technology and a doctorate in chemical engineering from Yale University.

Dr. Eagleton joined the University faculty Jan. 1, 1970, and retired Aug. 1, 1985. Previously, he had been a professor of chemical engineering at the University of Pennsylvania and a development engineer for Rohm & Haas Co. in Philadelphia.

He was a member and director of American Institute of Chemical Engineers. He was a member of American Society for Engineering Education, National Academy of Science and National Academy of Engineering.

Robert C. Eck, retired research associate at the Applied Research Laboratory, died May 28 at the age of 76.

He joined the ARL Oct. 9, 1950, and

retired July 1, 1973. During his association with the lab, he had eight patent disclosures and was awarded two patents. He also served as a consultant to HRB Singer, State College, and to Singer's central research laboratory in Denville, N.J.

He was licensed by the Commonwealth of Pennsylvania as a professional engineer in 1961. Early in World War II, he was employed by the intercontinental division of TWA as an apprentice mechanic. Later he was in TWA's research department serving as an instrument engineer.

He was a member of the Technical Writers Institute, the Pennsylvania Society of Professional Engineers, and the Institute of Electrical and Electronic Engineers, for which he was the editor for the Central Pennsylvania newsletter.

Louis A. Richardson, professor emeritus of architectural engineering, died June 1 at the age of 86.

Professor Richardson, who retired in 1969, was instrumental in the development and administration of the architectural engineering program at Penn State for 39 years.

Prior to his tenure at Penn State, he was an architectural engineer in offices in St. Louis, Mo., and Chicago, Ill.

While at Penn State, Professor Richardson was a member of the Graduate School faculty and the University Faculty Senate. Throughout his academic career, he contributed nationally to the promotion and advancement of engineering education.

As a licensed professional engineer, he assisted in the design of a number of Penn State buildings.

He was author of a number of articles for professional journals and was co-author of the book *Building and Using a House*, published by McGraw-Hill.

A fellow of the American Society of Civil Engineers and life member of the American Society of Engineering Education, Professor Richardson was a member of several other professional societies, including the American Concrete Institute and the American Association of University Professors.

He received a bachelor of science degree in architectural engineering from the University of Illinois in 1928. He earned a master's degree in architectural engineering from Penn State in 1934.

Philipp Mannino, retired assistant to the supervisor of Audio Visual Services, died June 3. He was 82.

He received his teachers' certificate from Elizabethtown College and in 1949 earned a bachelor of science degree from Penn State, where he also received his master's degree in 1951.

He joined the University staff Sept. 18, 1938, and retired Oct. 6, 1969.

During his career, he received several awards, including the Noteworthy Award from the National Education and National School Boards Associations. In 1961, he was nominated for a Pulitzer Prize in letters. He was included in "Who's Who in American Education."

Mr. Mannino was responsible for organizing Penn State's projectionist club and was founder and executive director of the School Projectionist Club of America.

Barbara S. Riden, residence hall worker Housing and Food Services, from Nov. 18, 1960, until her retirement June 30, 1982, died May 19 at the age of 71.

Ray B. Henry, cooler Maintenance and Utilities, from Oct. 1, 1953, until his retirement July 1, 1985, died May 22 at the age of 80.

News in Brief

Bookstore closes for inventory

The Penn State Bookstore will close for inventory at 1 p.m. Friday, June 29. The Trade Book and Art and Engineering departments also will be closed June 29.

University departments can make purchases from the Supply and Gift and Clothing departments until 1 p.m. The Bookstore will reopen from noon to 5 p.m. on Saturday, June 30. Contact Steve Cady at 863-3296 if you have questions.

Bookstore hours

The Penn State Bookstore's summer hours are: Saturday, June 30, noon to 5 p.m.; Sunday, July 1, noon to 4 p.m.; Monday and Tuesday, July 2 and 3, 8 a.m. to 8 p.m.; July 4, closed in observance of the Independence Day holiday.

The Bookstore will resume normal operating hours on Thursday, July 5. Hours are: Monday to Thursday, 8 a.m. to 8 p.m.; Friday, 8 a.m. to 5:30 p.m.; Saturday, 9 a.m. to 5 p.m.; Sunday, noon to 4 p.m.

Sidewalk sales will resume on July 9, from 9:30 a.m. to 4 p.m. weekdays.

Solid waste disposal symposium

The Penn State Hazleton Campus will host a symposium on issues related to solid waste disposal from 9 a.m. to 4:30 p.m. Saturday, June 16.

The symposium, organized and conducted by the Science and Technology Consortium of Northeast Pennsylvania, will feature experts in the field of solid waste management and

disposal and other environmental authorities.

The University's Worthington Scranton, Wilkes-Barre, Hazleton, Schuylkill, Berks and Allentown campuses are members of the consortium.

Space academy

Twenty-one academically talented high school juniors and seniors from Pennsylvania and one from Maryland will be the first participants in Penn State's Summer Space Academy, a free, two-week residential program designed to give young people a broad vision of the science and engineering career opportunities in space programs and research.

It will be held June 17-29 at University Park, where each of the students will complete a 10-day research internship on a NASA project in the colleges of Science, Engineering or Earth and Mineral Sciences.

Support for the Space Academy is provided through the National Space Grant College and Fellowship program and the University. Penn State was one of only three universities NASA individually designated a national space grant college.

Meat Lab

The Penn State Meat Lab will have its first meat sale of the 1990 season on Friday, June 22, from 1:30 to 4 p.m. We will have a limited variety of items, but should still have a nice selection for your summer cookout needs.

New catalog

The seventh edition of the catalog, titled *Idas and Vales for Health and Safety*, is now available from Audio-Visual Services. More than 1,000 programs are listed in this reference source and each title is available for classroom use at no charge to University faculty members.

Copies of the catalog are housed in 26 Wildard Building and at Special Services Building off Fox Hill Road. To receive a catalog through campus mail, call 863-3103. At a communitywide campus, contact the campus instructional services specialist for more information.

Daycare facilities listing

The summer 1990 edition of the State College Area Daycare Facilities listing is now available. Updated each semester, this publication includes information on 30 different facilities, which provide childcare in the immediate vicinity of the University Park Campus. Information includes hours of service, ages served, cost, enrollment size, and services provided.

The pamphlet, produced by the Graduate Student Association, is available free of charge from the GSA office in 111B Kern Building.

New CA storage facility

A Controlled Atmosphere (CA) Storage Research Facility, with 62 separate environments for extended storage of fruits, vegetables and mushrooms, has been constructed at the Fruit Research Laboratory in Biglerville.

With it, researchers now will be able to study how preharvest condition

influences fruit quality after storage, to refine optimum CA requirements and to develop storage life prediction databases for a variety of horticultural crops.

The new \$230,000 facility, conceived and designed by **George M. Green**, associate professor of pomology and **Alvan Gaus**, project assistant, was constructed as part of a \$1.1 million, five-year grant awarded to the Department of Horticulture by the Pennsylvania Department of Agriculture. Other horticulturists on the project include **S.J. Walner, R.M. Crasswell, K.B. Evensen and R.N. Arata**.

Marital enrichment seminar

A marital enrichment weekend seminar is planned for June 23 and 24 at University Park. Offered by the Individual and Family Consultation Center of the College of Health and Human Development, the program will be presented from 9 a.m. to 5 p.m. in Henderson East Room 101.

Among the topics to be taught are: Concepts and skills designed to further enhance relationships and strategies and skills for preventing and resolving conflicts such as those related to everyday roles and responsibilities, and those stemming from different backgrounds, values, attitudes or the pursuit of dual careers.

Couples and single persons of all ages are welcome. The fee is \$75 for an individual and \$100 for a couple. Enrollment is limited and reservations may be made by calling Joanne Kemper at 865-1751 as soon as possible.

Endowment funds undergraduate instruction projects

Eight faculty and staff members have received funding for projects through the United Federal Savings Bank Endowment for the Enhancement of Undergraduate Instruction.

The purpose of the fund is to enrich undergraduate instruction by encouraging the development of innovative instructional methods and the creation of computer or audiovisual coursework for new or evolving courses. **Jerry B. Covert**, associate dean for undergraduate education said:

The priorities for 1990 proposals are in the areas of general education integration

of cultural diversity into the undergraduate curriculum and writing across the curriculum. Dr. Covert said:

The following individuals received funding for their proposals:

William Crocken, director, general education in the arts for "Enhancement of Arts 001" to purchase videotapes, compact disk recordings, slides, photographs and reproductions.

Patricia Dunkel, associate professor and **Deborah Rekart** and **Karen Johnson**, assistant professors, all in speech communication for "Intensive Computer-

Based Course in English Pronunciation Training for the International Teaching Assistants of Penn State Undergraduates" to purchase speech computer software and audiotape instructional programs and to fund two graduate students.

Lynn S. Liben, professor and head Department of Psychology, for "Integration of Cultural Diversity into the Undergraduate Curriculum," to fund resource personnel.

Kyle L. Peck, assistant professor of education, instructional systems for "Enhancing Undergraduate Education

through Adaptive, Student-Centered, Computer-Based Practice" to fund graduate students and upgrade computer equipment.

Robert Ricketts and **Patricia McGuigan-Kenny**, instructors of exercise and sport science, for "Cultural Diversity: Facts and Fallacies in Exercise and Sport," to purchase film, computer-generated slides of tables and graphs and title slides and to fund faculty research time.

Next year, funds will be provided solely for projects designed to integrate cultural diversity into the undergraduate curriculum, Dr. Covert said.

Staff Vacancies

The following vacancies for positions classified as staff (except as noted) have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in promotion MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until June 21. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment Practices (FES) and in compliance with the University's Alternative Action Compliance Program without regard to race, color, religion, national origin, handicap or age as provided by law, sex, or status as a disabled or Vietnam era veteran.

•Supervisor, Housing and Food Services, Housing and Food Services, Mount Alto Campus—Responsible to the manager, Housing and Food Services, for administering and coordinating housekeeping operational functions in assigned residence hall. Requires high school graduate or equivalent plus one to two years of effective experience. General knowledge of building maintenance and housekeeping functions desirable. STAFF GRADE 4.

•Senior Mechanical Engineer, Office of Physical Plant, Facilities Planning and Design, University Park Campus—Responsible to the manager, Design Services, for the design of heating, ventilating, air conditioning, plumbing systems and preparation of drawings, estimates and specifications for new and existing facilities. Requires bachelor's degree or equivalent in mechanical engineering plus five to seven years of effective experience to include responsibility for supervision of a professional staff in the development of complicated mechanical designs for building trades and outside contractors. Must be a registered professional engineer. STAFF GRADE 8.

•Student Insurance Assistant, Student Services, University Health Services, University Park Campus—Responsible for coordinating the activities of the Student Insurance Program, including direct contact with students, parents, insurance carriers, health care providers and University staff. Develop, manage and monitor the Student Insurance Waiver System. Requires bachelor's degree or equivalent in business administration or related field plus one to two years of effective experience in health or accident insurance. STAFF GRADE 5.

•Assistant Director of Student Organizations and Programs, Division of Student Programs, Student Services, University Park Campus—Responsible for the coordination, implementation and execution

of various programs intended to support students and their organizations. Requires master's degree or equivalent in college student personnel, counselor education, higher education or other appropriate areas plus two to four years of effective experience in events planning and implementation. Experience in student organization programming and leadership development is desired. THIS IS A FIXED-TERM POSITION FUNDED FOR ONE YEAR FROM DATE OF APPOINTMENT. STAFF GRADE 7.

•Programmer/Analyst, Computer and Information Systems, Center for Academic Computing, University Park Campus—Responsible to the assistant director of CACEL to provide programming and analysis support in the design and development of instructional software. Requires bachelor's degree or equivalent in computer science or a related field plus one to two years of effective experience in computer-based applications for instructional purposes, specifically Unix and HyperCard programming skills, and effective communication and presentation skills. Familiarity with micro to mainframe computer productivity tools desired as well as a strong background in math and science. STAFF GRADE 6.

•Clinical Nurse Specialist, College of Medicine, Department of Surgery, The Milton S. Hensley Medical Center—Responsible to the surgery chief of a defined section and an assistant director of nursing for providing nursing expertise within higher clinical specialty and for managing and providing care for the surgical patient following utilizing collaborative consultation with team members and written protocols. Requires master's degree in nursing plus one to two years of effective clinical experience in area of expertise and current licensure by Pennsylvania State Board of Nursing as a nurse practitioner. Certification in specialty area is desirable. STAFF GRADE 7.

•Quality Assurance Analyst, College of Medicine, Department of Quality Assurance, The Milton S. Hensley Medical Center—Responsible to the manager, Quality Assurance/Risk Management, for providing guidance, direction and support in setting up quality assurance activities for assigned areas as well as the analysis of obtained data. Requires bachelor's degree, or equivalent, in an allied health area such as medical technology, pharmacy, respiratory therapy or nursing plus at least two years of effective experience. STAFF GRADE 6.

•Health-Science Writer, College of Medicine, Department of Public Relations, The Milton S. Hensley Medical Center—Responsible to the director of public relations for writing articles and informational material for the Public Relations Department with emphasis on in-depth science and health care topics. Requires bachelor's degree, or equivalent, in journalism or related field plus one to two years effective experience as a working

journalist or public relations practitioner in the areas of science, medicine and health care. Experience with computer and word processing equipment desirable. STAFF GRADE 6.

•Supervisor, Administrative Support Services, Office of Business Services, University Park Campus—Responsible to the assistant manager, Administrative Support Services, for supervising the Centralized Copy Center Department and for providing all coding, programming, testing, and other necessary computer support for the Office of Business Services. Requires associate degree, or equivalent, in business administration, computer science, or related field, plus one to two years of effective experience programming and in a computerized high speed aerographic setting. Supervision of a production environment and working knowledge in a computer setting as it relates to a business environment is required. STAFF GRADE 5.

•Procedures Specialist, Corporate Controller, University Park Campus—Responsible to the manager of systems and procedures for the reviewing, investigating, analyzing and developing of new and improved financial control and management procedures for all departments of the University. Requires bachelor's degree in business administration plus three to four years of effective experience in internal financial controls, procedures, forms control and similar administrative management work. Computer experience is highly desirable. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. STAFF GRADE 7.

•Area Representative, CES, Continuing Education, Allentown Campus—Responsible for the functions of development, organization, operation, and administration of Continuing Education programs and services within an assigned geographic district. Must have extensive administrative responsibility for planning, scheduling, and staffing of health care certificate and diploma school programs with local hospitals. Requires bachelor's degree or equivalent plus two to three years of effective experience in business, industry or education. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. STAFF GRADE 7.

•News Editor, Agriculture, Ag Information Services, University Park Campus—Provide effective news support for College of Agriculture programs. Identify and review informational sources and develop news releases and features for distribution to appropriate media outlets. Develop and edit copy for College newsletter. Requires bachelor's degree, or equivalent, in journalism, English, mass communications, or related field, plus one to two years of effective experience. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH EXCELLENT POSSIBILITY

OF RE-FUNDING, STAFF GRADE 6.

•Applications Programmer Analyst, Undergraduate Education, Academic Support Center for Student-Athletes, University Park Campus—Responsible for conducting analysis, program design, coding, testing, and other related tasks. Work with users to identify application problems; prepare logical problem statements and formulate program solutions; conducting necessary user training. Requires bachelor's degree or equivalent in computer science or a related field plus one to two years of effective experience with PC and mainframe databases and statistical systems. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH GOOD POSSIBILITY OF RE-FUNDING, STAFF GRADE 6.

•Research Aide, Agriculture, Dairy and Animal Science, University Park Campus—Conduct in vitro normal fertilization; prepare microscopic slides of biological materials; identify and count types of microorganisms. Prepare radioactive tissues and other samples for analysis; perform chemical analysis and counting of radioactivity; using sophisticated laboratory equipment. Requires college level courses in analytical, organic, and inorganic chemistry, and biological sciences and mathematics. One to two years of effective laboratory experience with demonstrated ability to conduct independent research, required. STAFF GRADE 4.

•Video Editor, Agriculture, Ag Information Services, University Park Campus—Provide video production and editing services for field and studio productions. Plan and provide video programs or segments. Serve as information source to clients, i.e., on the use and purchase of video production or playback equipment, or camcorder production and editing techniques and use of editing system. Requires bachelor's degree or equivalent in communications, broadcasting, film studies or related field plus one to two years of effective experience in video communications and videography. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH EXCELLENT POSSIBILITY OF RE-FUNDING, STAFF GRADE 5.

•Graphics Programmer, Computer and Information Systems, Center for Academic Computing, University Park Campus—Responsible to the manager of visualization and workstations for the support and development of the Center for Academic Computing's high-performance graphics services. Duties include program development and documentation; consultation with research community and assistance in the development of graphic capabilities for specific applications; development and presentation of training and testing procedures. Requires bachelor's degree, or equivalent, in computer science plus one to three years of effective experience in interactive graphics. STAFF GRADE 7.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

INTERCOM

June 28, 1990

Volume 19, Number 36

Information submitted for publication in *Intercom* is due by noon on the Thursday before publication.

Dr. Stewart appointed to new vice provost position

James B. Stewart, associate professor of labor and industrial relations and director of the Black Studies Program, has been appointed vice provost responsible for underrepresented groups at the University, effective July 1.

The appointment concludes one year of planning and development for the newly created position and a one-year nationwide search. The position is one of a few of its kind in the nation.

"Dr. Stewart's exceptional relationship with students; his broad understanding of the University system and his respect for fellow faculty make him particularly qualified for this unique position," President Jordan said.

"During the times of demonstrations by African-American/Black-American students, Jim played a pivotal role in fostering increased understanding between students and the University. The creation of this position grew from that as we all saw the need to develop a more positive environment for people of different racial and ethnic backgrounds."

Dr. Stewart, who had been granted a sabbatical leave from September to December before being tapped for the vice

provost position, will continue with the leave as planned. During his leave, Robert E. Dunham, vice president and vice provost, will continue to represent the Office of the President on matters dealing with diversity.

Dr. Dunham has held these administrative duties for the past 18 months, during which time he has worked directly with students, faculty and staff in a variety of diversity leadership roles across the University's 22 campuses.

Terrell Jones also will continue in his role as special assistant to the provost during the Fall Semester.

"We are fortunate to have this kind of talent at Penn State," Charles L. Hosler, acting executive vice president and provost, said. "We are encouraged that a national search has led to this appointment of Dr. Stewart and pleased to know that the leadership here is settled for the long-term. All of us will be supporting his important work for the University."

Dr. Stewart joined the University faculty in 1980 as assistant professor of economics and director of the University's Black Studies Program. He has received national recognition for his research in the area of

Black Studies, including the illustrious Presidential Award by the National Council for Black Studies. He also is editor of the professional economics journal *The Review of the Black Political Economy*.

He has served as chair of the University's Equal Opportunity Planning Committee and is active on a host of search committees, University-wide governance bodies, committees and numerous campus organizations. He also is a member of the University's Campus Environment Team.

Dr. Stewart earned a B.S. in mathematics at the Rose Hulman Institute of Technology, an M.A. in economics at Cleveland State University and a Ph.D. in economics at Notre Dame, where he held both a Notre Dame Afro-American Fellowship and a Ford Foundation National Fellowship.

His research during the past few years has included multicultural education, the philosophy of Black Studies, African-American economic development, African-American music, African economic development, the impacts of science and technology on Black-Americans and factors affecting student retention.

He is co-editor of a new book titled *Black*

James B. Stewart

Families: Interdisciplinary Perspectives, with Harold Cheatham, associate professor of educational psychology. He has published numerous articles, review essays and book reviews in economic and Black Studies scholarly journals.

New educational center to be established in England

British corporate managers will soon have an international advantage with an innovative Penn State partnership program.

President Jordan has signed a memorandum of understanding with the University of Kent at Canterbury, Thames Polytechnic and the Kent County Council to establish an educational center at the Council's Kings Hill Business Park near Maidstone.

"We are delighted to extend our continuing education programs to British corporations in Kent and look forward to working with these institutions," Richard E. Grubb, senior vice president and dean of the Commonwealth Educational System, said.

W. LaMarr Kopp, deputy vice president for international programs, John Leathers, director of continuing education, and Dr. Grubb joined Dr. Jordan at the signing ceremonies in England.

Geared to the higher education needs of companies at the business park, the program will first involve the colleges of Business Administration and Engineering. It will be similar to the Executive Management Program at University Park and the Great Valley Center in Malvern that offer graduate-level courses to corporate executives and managers.

"We have been discussing the partnership for about two years and will begin with non-degree, non-credit programs

in business," Dr. Kopp said. "Initially, the University will act as a consultant, although some of our faculty may teach as well. We will begin small and expand our participation in the partnership over the next few years."

British educational planners will meet at Penn State this summer to consult with faculty and staff on program needs.

"International education is a priority for Penn State, and this program has the potential for a good many faculty and administrative exchanges," Dr. Kopp said.

The Kent County Council first learned about Penn State's programs through its developer, Rouse and Associates of Philadelphia, who also developed the Great

Valley park. They plan to begin construction of the campus-like business park in the fall and hope to attract technology corporations.

With a population of 1,320,400, Kent is the third largest non-metropolitan county in England and is strategically located between London and the English Channel Tunnel. With the advent of a single European market in 1992 and the completion of the tunnel not long after, Kent County Council expects the business park to do well.

The University of Kent and Thames Polytechnic Institute will work with the developers on classrooms and other facilities, while Penn State will concentrate

(Continued on page 3)

Statements on the presidential search

Following are statements from J. Lloyd Huck, president of the Board of Trustees, and President Jordan regarding the presidential search.

Trustees President Huck

The Trustee Presidential Selection Committee is continuing to interview candidates for the position of president at Penn State. This will include candidates in the original list as well as additional ones forwarded by the Presidential Search and Screen Committee. The Presidential Search and Screen Committee has at its disposal a large list of highly qualified individuals. Its chairperson, Thomas Merritt, has advised me that his committee could easily have recommended a larger number of such candidates had it not wished to present to us a list that was manageable. The selection of a president of a university of the stature of Penn State is the most critical and

important responsibility of a Board. We want to ensure the Board's responsibility to appoint the most highly qualified individual as president of Penn State.

We will make every effort to have new leadership in place by Aug. 31, when Dr. Jordan is retiring from his responsibilities as president. In the event that this does not happen, Dr. Jordan has agreed to continue his responsibilities as president for an unspecified period of time.

We are grateful to the members of the Presidential Search and Screen Committee for their help in forwarding strong candidates to us. We will continue to work with that group in finding the best leadership available for the University.

President Jordan

Mr. Huck has asked if I would be willing to continue with my responsibilities as president of the University in the event that the Board does not name my successor by Aug. 31, my planned retirement date. I have assured him that I am willing to serve the Board and the University in that way. It is, of course, quite possible that, the new president could be named by Aug. 31.

Although Jonelle and I are anxious now to move on to the next phase of our life, our ties to Penn State are too great for us to leave the University if there is a need for us to stay a while longer.

Task force charged with assessment of undergrad education

A Task Force on Undergraduate Education has been formed by the University Faculty Senate and the Office of the President to provide leadership in determining the expectations for quality in undergraduate education for the decade of the '90s and beyond. The specific charge to the Task Force is:

- Assess the strengths and weaknesses of undergraduate education at Penn State within the context of national trends and current thought regarding undergraduate education in large public research universities. Identify the causes of Penn State's strengths and weaknesses.
- Determine the critical needs for Penn State undergraduate education.
- Specify potential initiatives for the improvement of undergraduate programs and instruction.
- Establish goals and priorities for undergraduate education and recommendations for achieving these goals.

(Continued on page 3)

Focus on Diversity

University receives William Penn Foundation grant

Penn State has received a \$300,000 grant to increase the retention and graduation rates of African-American/Black-American and Hispanic students who are majoring in math, science, agriculture and engineering.

The three-year William Penn Foundation grant will be combined with matching University funds to expand programs in the colleges of Science, Engineering, Agriculture, and Earth and Mineral Sciences. The grant also will help finance smaller and more individualized undergraduate classes, student summer research programs with faculty and pre-freshman engineering and science summer programs.

The Penn State grant was the maximum amount awarded by the William Penn Foundation to a single institution this year.

University officials said.

"Nationwide, African-American/Black-American and Hispanic graduation rates of students in math, agriculture, science and engineering majors are declining at an alarming pace," Howard E. Wray III, assistant dean for undergraduate education/academic assistance programs, said.

"But with funds from the William Penn Foundation, we will work to provide more instructional support and an enriched environment that will make a significant difference at Penn State."

Across the nation, African-Americans account for only 2 percent of all employed scientists and engineers, despite making up 12 percent of the U.S. population. Hispanics, the fastest growing racial minority group with 9 percent of the U.S.

population, also account only for 2 percent of all employed scientists and engineers.

"A grant such as this can be a great recruiting tool for minority students in these majors because they can be assured of a comfortable environment where they will receive special attention, should they need it," Daniel Davis, director of minority engineering programs and associate professor of engineering, science and mechanics, said.

The William Penn Foundation, based in Philadelphia, has supported math and science educational programs in the Philadelphia area since 1945. This year, for the first time, the foundation awarded grants to institutions outside of its base area, because of the alarming decline of minorities in the science, agricultural and

engineering fields, Richard Cox, senior program officer, said.

"Normally the foundation is focused on supporting institutions in southeast Pennsylvania. But this year we looked at other institutions that have a significant number of people in these fields, including Penn State," he said.

Penn State has had numerous recruitment and retention programs for minorities majoring in science, agriculture, engineering and math. Some include special orientation programs, free tutorial services, visits by minority professionals, academic monitoring and advising, scholarships and financial support, several summer high school student visits and summer research programs pairing undergraduates with faculty.

Downtown Center to offer lectures on diverse cultures

A series of lectures on multicultural perspectives designed to inform and enlighten participants about diverse cultures and contemporary social issues will be held throughout the summer at the Penn State Downtown Center.

The lectures, which will be held from noon to 1 p.m. at the Downtown Center, 234 N. Third St., Harrisburg, are free to the public. They will be presented by visiting professors at Penn State Harrisburg.

Registration is required to ensure adequate seating. Call (717) 783-0433 to

register for the lectures, which are co-sponsored by the Division of Humanities, Penn State Harrisburg and the Downtown Center.

The schedule is:

July 5 - Maryam Ahmadi on "Iran, Past and Present," introducing Iran's culture in ancient times, including the invasions through the last revolution.

July 12 - Phyllis Boones on "Recent Events in South Africa: Implications for U.S. Policy," analysis of developments in South Africa and U.S. policy.

July 19 - Professor Clark-Lewis on "Pennsylvania Bound," view of Afro-American migration to Central Pennsylvania from 1900 to the present.

Aug. 2 - Kathryn Patterson on "The Limits of White Liberalism: Reflections on 20th Century Anglo-Indian Relations, examination of ways in which racism and belief in cultural supremacy distorted Britain's political response to Indian nationalism."

The Campaign for Penn State

Hintz gift puts Berks Campus campaign over its goal

What started out as a gesture of remembrance by a New York investment manager to his parents and his Reading roots has become the gift that pushed the Penn State Berks Campus capital campaign over its \$2 million goal two months ahead of schedule.

Edward R. Hintz Jr., a 1959 Penn State graduate and president of the New York City investment management firm of Hintz, Holman, and Hecksher Inc., pledged \$100,000 in memory of Edward Richard Hintz Sr. and Beulah Knabb Hintz.

Thomas A. Beaver, chair of the Berks Campus Capital Campaign Committee, expressed his delight at achieving the goal. "All of our volunteers made an outstanding effort in working toward our goal," he said.

"It seems fitting that Ed Hintz, a Penn State alumnus and Berks area native, would bring the campaign full circle by contributing this special gift and putting us over the top."

Mr. Hintz said that his parents were active for many years in Penn State affairs in Berks County and guided him to attend the University. His father graduated from Penn State in 1915 with an associate degree in agriculture and was a life member of the Penn State Alumni Association.

The gift will contribute toward the construction of three new athletic fields on the Berks Campus.

"This is an unusual opportunity to honor my beloved parents," Mr. Hintz said. "My father was an avid follower of Penn State sports. I hope these fields will be used by

students and guests for the worthwhile experiences that can be accomplished through sports: exercise, skill development, teamwork, discipline, enthusiasm and, most importantly, fun."

Born in Reading, he attended the 5th and Spring Elementary School and Northwest Junior High School. He graduated from Wyomissing High School in 1955.

Mr. Hintz earned a master's degree in business administration in 1963 from Harvard Business School. He worked with firms in Indiana and New York City in portfolio management until 1974, when he founded Hintz, Holman, and Hecksher Inc., a private money-management firm specializing in investment management for individuals.

He fills a dual role as a vice chairman and as national head of regional major giving for The Campaign for Penn State. The University's six-year effort to raise \$300 million in private support. The Berks Campus fund drive is a part of the University-wide campaign, which has raised more than \$343 million. He also sits on the board of visitors of the University's College of Business Administration and is a past president of the Penn State Development Council.

His wife, Helen Skade Hintz, graduated from Penn State in 1960 and holds a master's degree in nutrition from New York University.

Scholarship established in Engineering

Russell and Eleanor B. Horn of York have given \$27,000 to endow a scholarship in the College of Engineering.

Mr. Horn, who graduated from the University in 1933 with a bachelor's degree in civil engineering, is the chairman of the board of PACE Resources Inc., an architectural engineering firm.

Penn State gave me the opportunity to earn a good living, and now we want to give something back," he said. "PACE hires a lot of Penn State graduates because of the

quality of their preparation. We want to help maintain that level of excellence."

The Russell E. and Eleanor B. Horn Endowed Scholarship in Engineering will support outstanding students, with preference given to civil engineering majors.

A long-time supporter of Penn State, Mr. Horn is a 1990 Penn State Alumni Fellow, one of the highest alumni honors awarded by the University. He also was a 1987 Outstanding Engineering Alumnus.

resources.

Du Pont designated grants totaling \$86,000 for the College of Earth and Mineral Sciences, \$65,000 for the College of Engineering, \$43,000 for the Eberly College of Science, \$51,000 for the College of Business Administration and \$6,000 for the College of Agriculture. The Particle Science Center will receive \$50,000, the Environmental Resources Research Institute \$16,000 and the Materials Research Laboratory \$10,000.

In Eberly College of Science

Gift endows new lecture series

Steroid pioneer Russell E. Marker, professor of organic chemistry, has given \$50,000 to endow a lecture series in evolutionary biology in the Eberly College of Science.

The series, which will sponsor visits to the campus by internationally recognized researchers and scholars, is the sixth in the college to be endowed by Professor Marker. Three years ago, he gave \$250,000 to establish lectures in astronomy, chemical sciences, genetic engineering, mathematics

and physics.

After joining the Chemistry Department in 1935, Professor Marker soon began research that eventually led to the first practical synthesis of the steroid hormone progesterone. Later inexpensive production of this hormone made possible the birth control pill and hormone therapy.

The dean of the Eberly College in consultation with special faculty committees in each discipline selects the speakers for each series.

Du Pont supports variety of programs

E.I. Du Pont de Nemours & Co. of Wilmington, Del., has allocated \$307,000 to support a variety of engineering, scientific and business programs at Penn State for the 1990-91 academic year.

The funds represent the second-year installment of a five-year, \$1.375 million commitment Du Pont made to Penn State.

With a few exceptions, academic units receiving these funds may apply them to any educational need that is not met with the University's ordinary financial

Procter & Gamble awards series of grants

The Procter & Gamble Co. has awarded Penn State a series of grants totaling \$45,000 for engineering and business research.

The Cincinnati-based manufacturer of consumer products designated \$15,000 for the Department of Chemical Engineering, \$12,500 for the Department of Marketing, \$7,500 for the Department of Mechanical

Engineering, and \$5,000 for the Department of Chemical Engineering.

Procter & Gamble designated the remaining \$5,000 to be used wherever the need is greatest, as determined by the president of the University.

The departments may use the awards to support research projects whose needs are not met by ordinary University funds.

State provides funding for Beaver Campus center

At a special outdoor ceremony on June 14, Gov. Robert P. Casey presented a check for \$2.85 million to aid in the financing of a new Study Learning Center at the Penn State Beaver Campus.

The Study Learning Center will accommodate academic support services, learning support services for traditional and adult students, offices for student organizations, study areas, an auditorium, and seminar and conference rooms for use by businesses and community groups with an economic development thrust. The auditorium will expand cultural programming currently offered through the Brodhead Cultural Center and the Office of Student Programs and Services.

The Study Learning Center will be approximately 24,000 square feet and will consist of two levels. University officials expect the building to be completed in two years.

"This outstanding show of support from Gov. Casey and the Commonwealth of Pennsylvania comes at a crucial time in the growth of Beaver Campus," David B. Otto, Beaver Campus executive officer, said.

"This year we are celebrating the 25th anniversary of our campus, preparing to embark on several new academic programs, and looking forward to a continued increase in enrollment of both traditional and adult students. The Study Learning Center will enable us to better serve the needs of our diverse campus population and the surrounding communities."

More than 100 campus students, faculty and staff members, and friends attended the ceremony. Among the guests were recently retired State Sen. James E. Ross; State Rep. Nick Colafella, and newly elected Beaver Campus Advisory Board president Thomas P. Woolaway, vice chairman and chief operating officer of Tuscarora Plastics Inc.

Noting Sen. Ross's ongoing support of the project, Mr. Otto said, "Jim Ross has always been helpful to and supportive of Beaver Campus. Our campus and community are grateful to have benefitted from the leadership of such a dedicated public servant." He also pointed out that Rep. Colafella, a Campus Advisory Board member, has worked closely on the building project with Sen. Ross and has been instrumental in gathering support for the Study Learning Center.

In thanking the governor, Mr. Woolaway noted that the Study Learning Center will assist in supporting and sustaining the continued growth and presence of Penn State in Beaver County and throughout the Beaver Campus service area, which includes Beaver County and parts of Lawrence, Butler, Allegheny and Washington counties.

Discussing plans for a new Study Learning Center at the Penn State Beaver Campus are, from left, David B. Otto, campus executive officer; Gov. Robert P. Casey, and Thomas P. Woolaway, president, Beaver Campus Advisory Board. (Photo: Kevin R. Cooke)

Task Force

(Continued from page 1)

The chair of the Task Force is **R. Scott Kretschmar**, professor of exercise and sport science. Members are: **R. Thomas Berner**, professor of journalism and American studies; **John D. Burke**, associate dean and associate provost, Penn State Erie, The Behrend College; **James Eisenstein**, professor of political science; **E. Emory Ensore Jr.**, professor of engineering; **Scott Golla**, president, Academic Assembly; **Madlyn Hanes**, director of academic affairs, Penn State Delaware County Campus; **Richard H. Herman**, professor and head of the Department of Mathematics; **Peter C. Jurs**, professor of chemistry; **Jerry W. Martz**, vice-coordinator, Council of Commonwealth Student

Governments; **Moylan C. Mills**, director of academic affairs, Penn State Oquont Campus; **James H. Mortensen**, associate dean of resident education, College of Agriculture; **Anne C. Petersen**, dean, College of Health and Human Development; **Joseph Prewitt-Diaz**, associate professor of education; **James L. Ratcliffe**, director, Center for the Study of Higher Education; **Marie J. Secor**, associate professor of English; **Richard M. Smith**, assistant professor of business administration, Penn State DuBois Campus; **M. Lee Uppcraft**, assistant vice president for counseling and program assessment; and **Lawrence W. Young Jr.**, director of the Paul Robeson Cultural Center.

Staff support will be provided by **Brian C. Clark**, special assistant to the vice provost and dean for undergraduate education, and **Michael J. Doors**, senior planning analyst.

The Task Force has been asked to provide a progress report to the University Faculty Senate during Fall Semester 1990 with a final report to be submitted to the vice provost and dean for undergraduate education and to the Senate in Spring Semester 1991.

England

(Continued from page 1)

on educational program development.

The four partners will begin joint programs to begin in 1991 that will broaden the scope of higher education in Kent as a whole, particularly through continuing professional education in business, business engineering and management. In addition to the new

program of graduate and non-degree continuing education, the University has study abroad programs for undergraduate students at the University of Manchester and the University of Leeds.

The University of Kent at Canterbury has an international reputation with joint research and study programs with many European and American Universities and recently has established the Canterbury Business School. Thames Polytechnic in South East London has more than 20,000 students and is known for cooperative educational programs with industry.

This partnership is a first of its kind in corporate education and promises to lead to other Penn State professional and continuing educational partnerships in England and on the Continent, Dr. Grubb said.

Stanford professor to keynote Summer Sessions

Arthur B.C. Walker Jr., professor of applied physics at Stanford University, will be the keynote speaker for the Summer Sessions.

He will present an open lecture at 8 p.m. Wednesday, July 18, in the Hetzel Union Building Assembly Room at University Park. A reception will follow in the HUB Fishbowl.

Dr. Walker's research concentrates on the

study of high temperature, low density astrophysical plasmas with space-borne instrumentation. At Stanford, he led the group that obtained the first high resolution normal incidence X-ray image of the sun. He also has studied the abundance structure of the Interstellar Medium.

He has served on or chaired a number of NASA, National Science Foundation and National Academy of Science committees which prepare recommendations on the future course of astronomy, including the 1980s Decade Astronomy Survey Committee.

Dr. Walker currently chairs the Advanced Solar Observatory Science Working Group for NASA and the Astronomy Advisory Committee of the National Science Foundation and is a member of the AURA Board.

In 1986, President Ronald Reagan appointed Dr. Walker to the Presidential Commission on the "Space Shuttle Challenger Accident." He has presented testimony to congressional committees on national scientific funding priorities on several occasions.

He earned his bachelor of science degree in physics with honors from Case Institute of Technology in 1957 and his doctorate in

physics from the University of Illinois in 1962.

The scientist is a member of the American Physical Society, the American Astronomical Society, the American Geophysical Union, the International Union of Pure and Applied Physics, the National Society of Black Physicists and the Society of Photo Optical Instrumentation Engineers.

Obituaries

Erma V. Hackett, counterwoman, Housing and Food Services, from Sept. 10, 1950, until her retirement Aug. 18, 1964, died June 2. She was 87.

Robert V. Hagerty, janitorial worker at the Altoona Campus, from Sept. 5, 1978, until his retirement, Feb. 1, 1990, died May 23 at the age of 72.

Joseph G. Wardell, custodian, Penn State Erie, The Behrend College, from Sept. 1, 1951, until his retirement July 1, 1958, died May 23. He was 97.

Dr. Seda selected as Spencer Fellow

Ileana Seda, assistant professor of education, has been selected to be a 1990-91 National Academy of Education Spencer Fellow.

The Fellowship was created by the Academy to encourage outstanding researchers at the post-doctoral level to pursue work on topics related to education.

Dr. Seda, one of only 25 awardees nationwide, will take a one-year, paid leave to conduct her research, which will involve assessment procedures in the language arts according to Pennsylvania's language arts framework.

Additionally, Dr. Seda will be invited to attend Academy meetings for two years, and she will participate in a Spencer Fellow Forum, where her research will be highlighted.

Dr. Seda joined the College of Education in 1988, where she has served as an assistant professor emphasizing reading, communication, and language education. She holds a B.A. in psychology from the University of Puerto Rico, an M.A. in special education and learning disabilities from the College of Saint Rose, Albany, N.Y., and a Ph.D. in education with a specialization in reading from the University of Illinois-Urbana.

Arthur B.C. Walker Jr.

Focus on the arts

The arts on Channel 3

All *That Bach*, airing at 10 p.m. Thursday June 28 on WPSX-TV, is a delightful celebration of the music of J.S. Bach as it played, danced, sung, jazzed, computed, tapped and electrified by a wide range of internationally renowned artists.

Musical fireworks take center stage as public television's national Independence Day special, *A Capitol Fourth 1990*, celebrates a new era of freedom and the extraordinary events that have lifted the Iron Curtain, electrifying the world. The 90-minute concert, broadcast live from the lawn of the U.S. Capitol, airs at 8 p.m. Wednesday, July 4. Internationally acclaimed maestro Metislav Rostropovich and guest conductor Henry Mancini lead the National Symphony Orchestra in an exciting concert of American and European music.

Lincoln Center will celebrate the genius of Wolfgang Amadeus Mozart with "A Mostly Mozart Festival Gala," presented on *Live from Lincoln Center* at 8 p.m. Wednesday, July 11, with stereo simulcast on WPSU Radio, 91.1 FM. The gala evening, the opening program of the 1990 Lincoln Center Mostly Mozart Festival at Avery Fisher Hall, will be conducted by Festival Music Director Gerard Schwarz.

Museum Store inventory

The Museum Store-Palmer Museum of Art will be closed Friday, June 29, for the annual inventory. The store will reopen for business at 11 a.m. Saturday, June 30.

Pattee exhibit

The Rare Books Room of Pattee Library at University Park is featuring an exhibit titled "Stars and Star Lore: Astronomy and Astrology in Pattee Library's Collections" until July 16.

The exhibit includes early editions of the works of Copernicus, Newton, Bowditch, Kepler, and others. Early star charts, almanacs, astrology books, works on comets, and two telescopes also are on display.

Embroidery exhibit

An exhibit by the Nittany Valley Chapter of the Embroiders' Guild of America is on display in the Kern Galleries at University Park until July 30.

The purpose of the Embroiders' Guild of America is to promote education in the art of embroidery by offering courses and presenting exhibits.

The Kern exhibit includes examples of

crewel embroidery, Brazilian embroidery, canvas embroidery, counted thread techniques, and silk and metal on fabric and silk and metal on canvas.

Painting acquired

A 16th-century painting by a Florentine artist has been acquired by the Palmer Museum of Art for its permanent collection.

"Madonna and Child with St. John" by Michele Tosini, painted during the 1540s, was presented to the Museum by the Friends of the Palmer Museum of Art. The painting was purchased with funds provided by the Friends of the Palmer Museum of Art and with supplemental funds provided by the Office of the President of the University.

The Tosini painting was derived from his large altarpiece in the monastic church of San Jacopo e Lorenzo dalle Murate in Florence, Italy. While Tosini painted the altarpiece in a High Renaissance style under the eyes of his teacher, Ridolfo Ghirlandajo, the Penn State painting is rendered in the mannerist style that was more favored at the time.

The unsigned painting was recently attributed to Tosini by Heidi Hornik, who will receive her doctorate in art history from Penn State in August. During her dissertation research on the artist, Ms. Hornik was able to locate Tosini's last will and testament, as well as other documents that contributed to the attribution.

The painting was part of the exhibition "Italian Renaissance Art: Selections from the Piero Corsini Gallery" that was at the Palmer Museum in early 1987. It is the second work from that exhibition to be acquired by the Museum for its permanent collection. The other painting is "Adoration of the Shepherds" by Tommaso Manzoni, also known as Maso de San Friano.

Both works are included in the current exhibition "Highlights from the Museum's Collection," on view in the first-floor gallery.

The exhibition is free. Museum hours are Tuesday through Friday, 10 a.m. to 4:30 p.m.; Saturday, 11 a.m. to 4:30 p.m.; and Sunday, noon to 4 p.m.

'1776' scheduled

The musical "1776," the second production of the Pennsylvania Centre Stage 1990 season, will run from July 4 through July 21 in the Playhouse Theatre at University Park.

The show is directed by Carole Brandt, head of the Department of Theatre Arts, who last year directed "Steel Magnolias."

"Madonna and Child with St. John" by Michele Tosini, painted during the 1540s, has been presented to the Palmer Museum of Art.

The cast includes 23 actors and two actresses, with the leads played by established equity actors.

Written by Peter Stone with music and lyrics by Sherman Edwards, "1776" traces the events of that hot Philadelphia summer leading up to the signing of the Declaration of Independence. The Broadway show won three Tony Awards in 1968-69, including Best Musical. With a light musical touch, it shows our forefathers as real men with real lives and real passions.

"1776" will be presented in the Playhouse Theatre at 8 p.m. on July 6, 7, 11-14, and 18-21. Preview performances are on July 4 and 5. Saturday matinees, July 7, 14 and 21, will be presented at 2 p.m. The July 7 matinee is especially for families with an additional discount for children's tickets. Special pre-performance activities

will begin at 1 p.m.

Tickets for evening performances are \$18 for adult and \$15 for students or children. Tickets for matinees and preview performances are \$14 for adults and \$11 for students or children.

For more information, call the Eisenhower Auditorium Ticket Center at (814) 863-0255, open Monday through Saturday from 8:30 a.m. to 4:30 p.m.

Crafts exhibition

Crafts National 24, a juried exhibition featuring contemporary crafts, will be on display July 5-30 in Zoller Gallery at University Park.

The exhibition, co-sponsored by the Central Pennsylvania Festival of the Arts

(Continued on page 5)

George Mauner appointed new director of institute

The new director of the Institute for the Arts and Humanistic Studies believes the Institute should continue to support, stimulate and publicize, with sustained

George L. Mauner

effort, the artistic and humanistic activity at Penn State, if the University is to fulfill its mission.

George L. Mauner, distinguished professor of art history, will succeed Stanley Weintraub as Institute director on July 1. Dr. Weintraub has been director since 1970.

"As a result of my predecessor's efforts, the Institute now has become an established, familiar resource for and representative of the arts and liberal arts," Dr. Mauner said. "I want to maintain Dr. Weintraub's high level of activity."

Headquartered in Ihlseng Cottage at University Park, the Institute promotes artistic creativity and research in the arts and liberal arts through experimental courses, lectures and symposia, residencies and presentations by distinguished scholars and artists and the commissioning of original works, such as the John La Montaine opera "Be Glad Then America," performed at Penn State in 1976 during the U.S. Bicentennial.

Projects funded by the Institute include new works of art, music and fiction;

archaeological digs; photographic expeditions; research into political and military history; and literary criticism and inquiry.

"I would like to see an increase of interdisciplinary projects such as the music theatre productions that took place on the campus years ago and the art-music literature interactions like the memorable Surrealist celebration that Institute Fellow Robert Lima organized in 1974," Dr. Mauner said.

"I also hope it will be possible to help support a series of publications cataloging the many and diverse groups of art objects that the University owns and that are largely unknown even to the local faculty and residents. Such publications would do so much to extend the University's reputation into a domain for which it has not been adequately recognized."

Dr. Mauner cites Penn State's recent report on the arts and liberal arts, which recommended increased funding for the Institute.

"The Institute is the only one of its kind in the state. Its future is bright, because the

talent is here. What we need now is a little confidence expressed in financial terms.

"Clearly, it is time that the arts and liberal arts received the strong support, both moral and financial, that they need in order to play the significant role that they are fully capable of playing, in enhancing the reputation of the University internationally. I will work for that support."

Twice a year, in September and January, faculty throughout the University have the opportunity to seek Institute funding for artistic and humanistic projects.

"The Institute provides a rare opportunity to support interdisciplinary studies of all kinds," Dr. Mauner noted. "All of these deal with artistic and intellectual activity, and it is this cultural continuity that lies at the heart of civilization."

In addition to supporting semester-long research fellowships, the Institute has a faculty of 18 Fellows, who are full professors at the University with national or international reputations in scholarship, creativity or performance.

University Park Calendar

June 28 --

July 15

Special Events

Thursday, June 28
Commission for Women, meeting, 10 a.m.-noon, 250 Hammond.

Summer Sessions, music at noon, Fisher Plaza:
seminar, 3:30 p.m., Nittany Lion Inn, Fireside Lounge, Stephen Schaeffer on "Molecular Population Genetics of a Monomorphic Gene in *Drosophila*: Inferring the Evolutionary Process from DNA," billboard clinic, 6 p.m., HUB; Black Moshannon Observatory tour and lawn star party, leave 8:30 p.m., HUB, (raindate June 29); Explazaganza, concert, 7:30 p.m., Fisher Plaza.

Saturday, June 30

Pa. Centre Stage, 2 p.m., Pavilion Theatre. *A Shogun Minded*.

Summer Sessions, Music at Penn's Woods, 7:30 p.m., Schwab Aud.

Shaver's Creek, Summer Stargazing, 8-10 p.m., Call 863-2000.

Sunday, July 1

Summer Sessions, Penn's Woods chamber concert, 3 p.m., Music Bldg., Recital Hall.

Friday, July 3

Summer Sessions, Richard Victor Quintet, music at noon, Fisher Plaza; Divisions, bowling, 7-9 p.m., 9-11 p.m., Rec Hall.

German Dept., film, 8 p.m., 108 Wartik. *Enis und ens gluch dre*.

Pa. Centre Stage, 8 p.m., Pavilion Theatre, through July 7, *A Slingshot Minded*.

Wednesday, July 4

Independence Day, no classes.

Summer Sessions, Penn's Woods chamber concert, 7:30 p.m., Music Bldg., Recital Hall.

Pa. Centre Stage, 8 p.m., The Playhouse, through July 7, 1776. Also July 7, 14, 21, 2 p.m.; July 11-14, 8 p.m.

Thursday, July 5

Women of Color, luncheon, noon-1 p.m., Nittany Lion Inn.

Summer Sessions, Max Dilley, music at noon, Fisher Plaza; seminar, 3:30 p.m., Fireside Lounge, Nittany Lion Inn. Dr. Dan Weedman on "Telescopes for the Next Millennium."

Friday, July 6

Shaver's Creek, Owl Prowl, 8-10 p.m., Call 863-2000.

Saturday, July 7

Shaver's Creek, Swampsearchers, 2-4 p.m., Call 863-2000.

Summer Sessions, Music at Penn's Woods, 7:30 p.m., Schwab Aud.

Sunday, July 8

Shaver's Creek Naturalist Club, 1 p.m.; Twilight Walk, 7:30-9:30 p.m., Call 863-2000.

Summer Sessions, Penn's Woods chamber concert, 3 p.m., Music Bldg., Recital Hall.

Tuesday, July 10

Summer Sessions, brown bag seminar, noon-1 p.m., porch of Pavilion Theatre, Louis Winkler on "Educating Students for the Future"; Explazaganza film, 9 p.m., Fisher Plaza.

German Dept., film, 8 p.m., 108 Wartik. *Damenquart*.

Wednesday, July 11

Central Pa. Festival of the Arts, Children's Day, sidewalk sales, through July 15.

'Unlitted hollow form' by Dennis Elliott is included in the exhibition "Crafts National 24" opening July 5 in Zollner Gallery at University Park.

Palmer Museum of Art, symposium, 8 a.m., Palmer Museum of Art. "Contemporary Realist Watercolors."

Summer Sessions, Black Moshannon Observatory tour and lawn star party, leave 8:30 p.m., HUB, register, 8:30-10:15, (raindate July 12); Penn's Woods chamber concert, 7:30 p.m., Music Bldg., Recital Hall.

Thursday, July 12

Palmer Museum of Art, workshops, "Contemporary Realist Watercolors," James Winn, 9 a.m.-noon, Patricia Tobacco Forrester, 1-4 p.m., Register, 863-1743.

Summer Sessions, Explazaganza Concert, 7:30 p.m., Fisher Plaza.

Friday, July 13

Board of Trustees meet at Berks Campus, through July 14.

Saturday, July 14

Summer Sessions, Music at Penn's Woods, 7:30 p.m., Schwab Aud.

Sunday, July 15

Penn's Woods chamber concert, 3 p.m., Music Bldg., Recital Hall.

'Perspectives, 6:30 p.m., Wednesdays, Creative License, 12:30 p.m., Thursdays, with Asa Berlin and Pam Saulnier.

Conferences

Continuing Education

July 1-7, Waring Elderhostel II, Peter Kiefer, coordinator, Fred Waring's America, in charge, Jack Sinclair, coordinator.

July 2-Aug. 4, Nihon University Summer English Program, Vicki Talbott, instructor, Intensive English Communication Program, chair, Dick Bunnell, coordinator.

July 5-7, Minority Advanced Placement Program, Dan Trevino, associate professor, director of minority programs, chair, Donna Ricketts, coordinator.

July 5-8, Pa. Lions All-State Band, Ned Deid, director, Blue Band, and professor of music, chair, Kathy Karchner, coordinator.

July 6-29, 10-24, 12-26, People to People Science Exchange, Norman Freed, associate dean and professor of physics, chair, Jerri Milson, coordinator.

July 7-9, Piano Teachers Workshop, Tim Shafer, instructor in music, chair, Donna Ricketts, coordinator.

July 8-12, School Food Service Institute, Frederick DeMico, associate professor of hotel and food management, chair, Norm Lathbury, coordinator.

July 8-13, United Steelworkers Institute, Gilbert Gall, assistant professor of labor studies, chair, Chuck Herd, coordinator.

July 8-14, Waring Elderhostel II, Peter Kiefer, coordinator, Fred Waring's America, in charge, Jack Sinclair, coordinator.

July 8-20, Summer Engineering Scholars Academy, R.F. Devon, associate professor of general engineering, chair, Eric Loop, coordinator.

July 9-11, Computational Methods in Stormwater Management, David Kibler, professor of civil engineering, chair, Barb Impellitteri, coordinator.

July 9-27, Pa. Earth Sciences Field School, Brian Torney, assistant professor of environmental science, director, Barb Impellitteri, coordinator.

July 9-27, Improving Elementary Science, Robert Shugley, professor of education, chair, Barb Impellitteri, coordinator.

July 9-13, Electrical Systems and Maintenance, Charles Clair, director, institutional engineering, advisory services, affiliate associate professor of architectural engineering, chair, Norm Lathbury, coordinator.

July 9-13, Maintaining a Quality Preschool, Patricia Cynthia Sovich, instructor, individual and family studies, and home economics education, chair, Donna Ricketts, coordinator.

July 9-Aug. 3, Nuclear Concepts and Technology Issues, Candice Dawson, technology education specialist, director, Bill Sterner, coordinator.

July 11-12, Contemporary Realist Watercolors, Charles R. Garoin, assistant director, Palmer Museum of Art, chair, Donna Ricketts, coordinator.

July 11-14, Rhetoric and Composition, John Harwood, summer professor of English, chair, Chuck Herd, coordinator.

July 11-22, Fred Waring's U.S. Chorus, Peter Kiefer, coordinator, Fred Waring's America, in charge, Jack Sinclair, coordinator.

July 13-15, Adult Golf, Bob Intriari, PGA master professional, chair, Jerri Milson, coordinator.

July 14-21, Alumni Vacation College, Ernest Gale, assistant executive director of special programs, chair, Donna Ricketts, coordinator.

July 13-14, Rhetoric and Composition, John Harwood, summer professor of English, chair, Chuck Herd, coordinator.

July 11-22, Fred Waring's U.S. Chorus, Peter Kiefer, coordinator, Fred Waring's America, in charge, Jack Sinclair, coordinator.

July 13-15, Adult Golf, Bob Intriari, PGA master professional, chair, Jerri Milson, coordinator.

July 14-21, Alumni Vacation College, Ernest Gale, assistant executive director of special programs, chair, Donna Ricketts, coordinator.

Exhibits

Crafts National 24, July 5-30.

TIPS

Information Penn State

Call 863-1234, press 1 and enter the number of the message you wish to hear. Messages are listed in the front of the telephone directories. Other messages are Weather-234; Arts Line-345; University Calendar-456.

Focus on the arts

(Continued from page 4)

and the Zollner Gallery, represents a wide variety of media and techniques in works of fiber, ceramics, glass, metal, wood and handmade paper.

Jurors Ron Isaacson and Deborah Farber Isaacson, co-founders and co-directors of the Mindscape Gallery in Evanston, Ill., selected 58 works by 57 artists from around the country. More than 300 works were submitted by 206 artists for the exhibition.

"Our intention was to assemble a comprehensive selection of works that are both imaginative and well executed," the jurors said. "Ideally viewers would see a small microcosm of the field that we call contemporary American crafts-rich and innovative in form and texture, color and composition."

International Events

Fulbright deadline

Aug. 1 is the new deadline for applying for research and lecturing awards to Africa, Asia (except India), Eastern Europe, Middle East and Western Europe, for lecturing-only awards to Mexico, Venezuela and Caribbean islands; and for travel-only awards to France, Italy and The Federal Republic of Germany. For information, contact Elizabeth B. Smith at 865-7681.

Bagdikian essay wins Lowell Mellett Award

Ben H. Bagdikian's essay "Missing from the News," about the intrusion of commercial interest in news coverage and printed in *The Progressive Magazine*, has been named the winner of the 1990 Lowell Mellett Award for outstanding media criticism at University Park Campus.

The award recognizes outstanding contributions to the improvement of print and broadcast journalism through responsible analysis or critical evaluation. It has been administered by the School of Communications since 1984.

Special citations were presented to "Illusions of News," reported by Bill Moyers and produced by Richard Cohen; Stuart Taylor Jr. of the *American Lawyer*, for his critical profile of the *Wall Street Journal*'s legal affairs columnist and editorial writer L. Gordon Crovitz; and Dallas public

television station KERA, for work in "Project Crossroads: Race and the Media" and "A White, White World."

Bagdikian "is a very, very famous name in journalism and was a mentor to many of us," Peter Herford, one of three judges for the award, said. Mr. Herford is director of the Benton Fellowships in Broadcast Journalism at the University of Chicago and is a former CBS correspondent and producer.

For more than 30 years, the name of Ben H. Bagdikian has been synonymous with principled, informed and courageous criticism of journalism on a national scale.

The body of his work has become the benchmark for a generation of ombudsmen, critics and media special reporter who followed.

Mr. Bagdikian began his career as a press

critic with the *Precedent Journal* and later was a writer at *The Saturday Evening Post*. He also worked as an associate managing editor and ombudsman at *The Washington Post*. This spring he retired as a professor in the Graduate School of Journalism at the University of California, Berkeley. He has written many books, the most recent of which is *The Media Monopoly*.

Alex Jones, who covers the press for *The New York Times*, and Ray Jenkins, editor of the editorial page of the *Baltimore Sun* and former editor of the *Montgomery (Ala.) Advertiser Journal*, also were judges.

The Mellett Award, now in its 11th year, is named in honor of the distinguished Scripps-Howard editor and syndicated columnist who died in 1960.

Appointments

Larry C. Burton, an international expert in minerals and semiconductors, has been named head of the Department of Electrical Engineering effective July 1.

Dr. Burton currently is professor of electrical engineering and materials science at the Virginia Polytechnic Institute and State University in Blacksburg. He is also director of the VPI Extreme-Materials Laboratory and co-director of the VPI Technology Development Center for Advanced Ceramic Material.

Larry Burton brings real strength to the College in a critical area of emerging technology. His reputation and administrative skills will be a positive addition to an already outstanding department. John A. Brighton dean of the College of Engineering said.

Dr. Burton joined VPI as an associate professor of electrical engineering in 1977 and was promoted to professor in 1982. From 1973-77, he was at the University of Delaware, first as a research associate professor and later as a senior scientist. He also served on the Texas Tech electrical engineering faculty from 1970-73.

Dr. Burton received a Ph.D. in physics from Penn State in 1970. His master's and bachelor's degrees are from Temple University.

He is a member of the IEEE, the American Physical Society, the American Ceramic Society, the Materials Research Society, and the International Society of Hybrid Microelectronics. He is cited in *American Man of Science* and *Who's Who in Technology Today*.

Theodore E. Kiffer, associate dean for the Commonwealth Educational System in the College of the Liberal Arts, has been named interim dean of the college, effective July 1.

Larry C. Burton

Dr. Kiffer will replace Hart M. Nelsen, who previously announced plans to step down June 30. He will remain in the interim post until a permanent dean is appointed.

"I am pleased that Dr. Kiffer has accepted this interim position," President Jordan said. "I am certain he will provide outstanding leadership for the college during this transition period."

Charles Hosler, acting executive vice president and provost, said Dr. Kiffer's experience at Penn State will serve him well in his role as interim dean.

"His knowledge of the College of the Liberal Arts is invaluable, and I look forward to working with him," Dr. Hosler added.

Dr. Kiffer joined the University faculty in 1968 as assistant director of resident instruction and associate professor of English linguistics at the Penn State Berks Campus. He served as a research associate

Theodore E. Kiffer

in the Center for the Study of Higher Education in 1970 and was appointed director of general education in humanities and social sciences in 1971.

He has served as acting chairman of the Linguistics Program, acting director of the Religious Studies Program and associate head of the English Department.

A graduate of Roberts Wesleyan College, Dr. Kiffer received an M.A. in English and a Ph.D. in linguistics from Penn State.

Prior to joining the University faculty, he was associate professor of linguistics at Kutztown State College.

Carpooler

Lisa needs a ride from the Houtzdale/Philipsburg area to University Park. Work hours are 6:30 a.m. to 5 p.m., Monday through Friday. Call 865-0401.

Bookshelf

William Boyd, professor of education, is co-editor of *The Politics of Excellence and Choice in Education*, the first annual Yearbook of the Politics of Education Association. The book, published by Falmer Press, is an assessment of the current national effort to reform American schools.

He also is co-editor of *Educational Policy in Australia and America: Comparative Perspectives*, which was developed in collaboration with an Australian scholar, as an outcome of a Fulbright award. The book represents one product of the United States/Australia Education Policy Project, an ongoing venture sponsoring collaborative research and exchanges between U.S. and Australian educators and scholars.

Robert E. Harkavy, professor of political science, is the author of *Bases Abroad: The Global Foreign Military Presence* (Oxford University Press), an in-depth overview of United States, Soviet, British and French military bases.

The book was written under the aegis of the Stockholm International Peace Research Institute.

Dr. Harkavy, director of the Center for Research in International and Strategic Studies, describes in detail the major powers' global basing networks, including the functions and locations of naval, air, ground, intelligence and communications facilities and the politics and economics of their acquisition.

His book examines the modern status and associated diplomacy of basing access, against the background of past political, military and technological relationships. It includes tables and maps illustrating the United States and Soviet global networks.

He focuses on the emerging political and technological developments such as the diffusion of power away from the superpowers and the increasing leverage of the smaller countries that host bases.

News in Brief

Howard Hughes Summer Institute

The Howard Hughes Summer Institute is now in session at University Park.

The Institute, directed by Linda Maxson, head of the Department of Biology, brings together 41 students who will be entering freshmen in the Eberly College of Science this fall, five CES Biology faculty members, three graduate teaching assistants and three high school biology teachers for an intensive month of study of the biology of the gene.

The Howard Hughes Medical Institute funded this summer program as part of an initiative aimed at improving undergraduate education and encouraging students to pursue careers in the biological sciences. An Institute is planned for each summer through 1993.

Red Cross blood program

The Red Cross campus summer blood program is about to commence, and your participation as a blood donor is greatly needed. Blood needs increase in the summer months, at the same time that supply diminishes.

On Monday, July 9, the Graduate Student Association is sponsoring a blood drive in 101 Kern at University Park from 10 a.m. to 4 p.m. Walk-ins are welcome, but appointments can be made by calling the G.S.A. office at 865-4211.

On Tuesday, July 10, the Association for Residence Hall Students is sponsoring a blood drive in the HUB Ballroom from 11 a.m. to 5 p.m. Walk-ins also are welcome at this drive, and appointments can be made by calling 237-3162.

Giving blood is safe and easy. The

entire donation process takes about an hour, and this includes a mini-physical and refreshments afterwards.

Host families needed

The Keller Conference Center and the Eberly College of Science are hosting the People to People Youth Science Exchange American-Soviet Conference, consisting of 80 Soviet high school students planning to study physics, astrophysics and computer science, as well as enjoy the social, cultural and recreational activities offered in the Centre Region.

Volunteer host families are needed to house one or two of these students the weekend of July 13 to 15. This would be an enjoyable learning experience for host families which will have one-on-one contact with Soviet students.

Interpreters also are needed to spend time with the students throughout their stay. If you are interested in helping these Soviet students or want more information about the program, call Jerri Milsom at Keller Conference Center at 865-5141.

Lighted practice range

The Blue Golf Course Practice Range at University Park is now illuminated permitting practice until 10 p.m. daily. At the lighted practice range, ball and club rentals are available in the Blue Golf Shop.

The new lighted practice range is a part of the first phase of the golf course renovation and development. The Palmer Course Design Co., owned by Arnold Palmer Enterprises, is proceeding with plans to begin major

construction in the spring of 1991.

For more information, call 814-863-7462 (Blue Course) or 814-863-6231 (White Course).

Ruth Leventhal Day

"Dr. Ruth Leventhal Day" was celebrated in the city of Harrisburg on June 12, at the order of Mayor Stephen R. Reed.

Dr. Leventhal, who is provost and dean of Penn State Harrisburg, was cited as the first chairperson of the Council for Public Education, which is part of a national network of local education funds.

Founded in 1984 through the initiative of the Greater Harrisburg Foundation, it was organized with a grant from the Wells Foundation. CPE links education, business and community interest, identifies the educational needs of the area, and draws attention to the issues facing the 24 school districts in Southcentral Pennsylvania.

The mayor's proclamation states, "Dr. Leventhal's direct efforts have resulted in a number of unique and productive initiatives such as the mini-grant program, the Capital Area Intermediate Unit partnership, the Marshall School Store and an aggressive community-awareness program."

Independence Day hours

Penn State Operator and Information Service hours for Independence Day, July 4, will be 8:30 a.m. to 4:30 p.m.

Bookstore hours

The Penn State Bookstore's summer hours are Saturday, June 30, noon to 5

p.m.; Sunday, July 1, noon to 4 p.m.; Monday and Tuesday, July 2 and 3, 8 a.m. to 8 p.m.; July 4, closed in observance of the Independence Day holiday.

The Bookstore will resume normal operating hours on Thursday, July 5. Hours are Monday to Thursday 8 a.m. to 8 p.m.; Friday, 8 a.m. to 5:30 p.m.; Saturday, 9 a.m. to 5 p.m.; Sunday, noon to 4 p.m.

Sidewalk sales will resume on July 9, from 9:30 a.m. to 4 p.m. weekdays.

Observatory bus trip

Spaces remain on the bus trip to the Black Moshannon Observatory on Wednesday, July 11. Rain date is July 12. Buses will leave at 8:30 p.m. from the front of the HUB at University Park. Tickets for the trip are free, but must be picked up at Spruce Cottage from 8 a.m. to noon or 1 to 5 p.m.

The trip is sponsored by the Department of Astronomy and the Office of Summer Sessions.

Jogging reminder

All joggers are reminded to restrict their running only to the jogging trail on the perimeter of the golf course. No jogging is permitted on the golf course proper. A large multicolor map is posted across from Recreation Building along Atherton Street describing the approved route.

A golf ball travels at high speed and can cause serious injury. Golfers are not responsible for the direction of their shots. When approaching golfers, runners should stop and assume a safe position to prevent an accident.

Partings

Lillian C. Brilhart, records clerk in the Division of Undergraduate Studies, has retired after 25 years of service.

Ms. Brilhart began her career in Undergraduate Admissions and moved into student affairs research, which eventually became the Division of Undergraduate Studies.

She liked the variety in her job, especially talking with parents and students working with students in the drop/add process.

She has two sons who graduated from Penn State, a daughter who works in Pattee Library, and a daughter in Guam. She plans to stay in State College, but looks forward to traveling to avoid the cold winters.

Harlan Hoffa, professor of art education and associate dean for research and graduate studies in the College of Arts and Architecture, will retire July 31 after 20 years of service.

Dr. Hoffa began his career at Penn State in 1970 as the head of the Department of Art Education. He went on to head the Division of Art and Music Education in 1976, and to become interim director of the School of Visual Arts from 1979-80 and again in 1984-85.

Since 1984, he has served as the first associate dean for research and graduate studies in the college. In 1989, he was named associate director of the new Center for Policy and Evaluation Studies in Arts, a position he will continue in his retirement.

Dr. Hoffa earned his doctorate in art education from Penn State in 1959 after receiving both his bachelor's and master's degrees at Wayne University. He was on the faculties of Ohio State, SUNY at Buffalo, Boston University and Indiana University before coming to Penn State. He served as president of the National Art Education Association (NAEA) from 1971 to 1973 and was a member of the

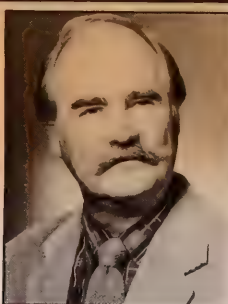

Lillian C. Brilhart

NAEA Board of Directors for six years. He has gained professional recognition through many awards.

In retirement, Dr. Hoffa plans to recapture his artistic roots by returning to the studio, where he will concentrate on sculpture in wood and metals. At the invitation of the NAEA, he also will write an extended monograph dealing with the institutionalization of the arts.

Though Dr. Hoffa plans to remain professionally active, he also looks forward to having "seven Saturdays every week." "I have no intention of rocking my life away on a front porch or spending it chasing a ball around a golf course," he said. "I do, however, plan to buy a new canoe as well as airline tickets to romantic places."

Fred Rapp, associate dean for academic affairs, research, and graduate studies, and Evan Pugh professor and chairman of the Department of Microbiology and

Harlan Hoffa

Immunology at the Hershey Medical Center, has retired after 24 years of service.

He and his wife, Pam, are selling their home in Hershey and setting sail on their 42-foot sailboat, the Simplex.

"This is a new world that Pam and I are going to discover. I want to learn more about celestial navigation and sailing, read, write down my thoughts, and improve my health," Dr. Rapp said.

Dr. Rapp graduated from Brooklyn College and Albany Medical College at Union University. In 1958, he earned his Ph.D. in medical microbiology at the University of Southern California.

By the time Dr. Rapp joined Hershey Medical Center in 1969, he was considered a world leader in cancer research. He made one of his greatest contributions in the early 1970s, when he found that human herpes simplex virus type 2, a virus known to cause venereal disease, could convert normal hamster cells to cancer cells.

Fred Rapp

The results of these studies, funded by grants and a major contract from the Virus Cancer Program of the National Cancer Institute, led the federal government to award \$2 million to the College of Medicine to build a Cancer Research Wing. The University provided \$1 million in matching funds for this first expansion to the Medical Center.

Dr. Rapp has contributed much to his field in addition to scientific discovery and training new scientists. He has published more than 700 papers in scientific journals and has presented research and lectured at innumerable meetings throughout the world.

"I will miss the Medical Center," he said. "I love this place and I love many of the people here—I'd have to or I wouldn't have stayed here for 20 years. But I don't want to do it 70 what I've done for the past 35 years. I'm ready to begin a new, exciting phase of my life."

Faculty/Staff Alerts

Software purchases

Effective July 2, all departmental microcomputer software purchases previously directed to General Stores should be directed to the Center for Academic Computing's Microcomputer Order Center (MOC), located in 12 Willard Building at University Park. The MOC will accept Interdepartmental Transfers (IDTs) for these purchases.

The MOC will continue to serve faculty, staff and students for their personal purchases. This change is being made to consolidate consultation, vendor relations, inventory control and software acquisition in one location, thereby improving service to the University community.

University Park parking

Red B and C lots The west part of the Red B parking area at the back of the Old Foods Building, where the roadway connects Red A and Red C, has been changed to become Red C. This adds about 28 parking spaces to the Red C open lot. The front section of Red B between the Water Tunnel and the front of the old Foods Building will remain Red B, which is not an open lot.

Motorcycle permit fees: Faculty and staff members who register motorcycles for parking privileges will be required to pay a \$10 fee for an annual motorcycle parking permit beginning Sept. 1. (Motorcycles must be parked in designated motorcycle parking spaces.)

Current motorcycle permits expire Aug. 31. For the last three years, the motorcycle permit was issued free if the faculty or staff member maintained a regular parking permit at the \$8-per-month fee. If the faculty or staff member did not have a regular parking permit, the annual motorcycle fee was \$20.

For a new motorcycle parking permit,

faculty and staff members should see their parking chairpersons about Aug. 1.

Faculty and staff members interested in parking motorcycles at University Park on a regular basis during nice weather may want to consider turning in their regular parking permit and purchasing a booklet of 10 one-day parking permits for \$5 at the Parking Office, 125 Grande Building. When cold weather returns, faculty and staff members can opt to reactive their regular car parking permit.

University Park Address Format

To comply with new postal requirements that will take effect in the next few months, the format for University Park Campus addresses has been revised to move the building/street address line directly above the last line (zip code line). The line "The Pennsylvania State University" will appear above the building/street address line, and below the first line, which identifies the office, department, or program. For example:

Office of the President
201 Old Main
The Pennsylvania State University
University Park, PA 16802

Effective immediately, all new stationery orders, publications, and editorial policies should implement this revision. Questions regarding University editorial style may be directed to the University Editor, Department of Publications. Questions regarding mailing and addressing may be directed to Mailing and Addressing Services.

Motor freight service

A new contract for freight movement has been awarded to three motor freight carriers: McQuaide Freight Lines, Central Transport and ABF Freight Systems. Each carrier will cover a specific territory within the United States. These carriers will be used for inbound and outbound "collect" freight shipments.

A master bill of all freight movement will be presented to the University on a bi-weekly basis by each carrier. Charges will then be deducted from the appropriate budget.

If you have any questions, contact Kevin M. Stahl, Department of Purchases, at 865-2567.

Systems and Procedures

Systems and Procedures has relocated to 103 Daniel Building, University Park, Pa. 16801. All correspondence and form orders should be addressed to the new location. The phone number, 865-9568 (network 475-9568), and the EMC2 electronic mail user, FORM@PSU.EDU, remain the same.

The General Forms Usage Guide indicates which University forms must be ordered through Systems and Procedures. These forms are no longer stocked at Systems and Procedures. Forms are now inventoried by Printing Services. As a result, those persons opting to pick up their form order must allow one full day for the processing of their order before being able to receive the forms at Printing Services, 101 Business Services Building.

Printing Services will not distribute any forms unless it has received a forms order from Systems and Procedures. Therefore, it is important to place your order in sufficient time prior to your need of forms.

Promotions

Staff Exempt

Louis R. Constable to research programmer in C&IS - Computation Center.
Roger A. Files applications programmer in C&IS - Computer Center.
Bruce Heasley to assistant director, student services in Commonwealth Educational System.
William K. Hillner to LAN systems analyst in C&IS - Telecommunications.
Robert S. Hippo to accountant in Corporate Controller's Office.
Robert E. Kreider to assistant director, Physical Plant/Maintenance at Hershey.
Daniel R. Leri to director, training and new business in Research and Graduate School.
Barbara Merritt to administrative assistant in Engineering.
John M. Porter Jr. to associate director, accounting operations in Corporate Controller's Office.
Shen L. Vail to assistant business manager in C&IS - Computer Center.
Pablo Vincente to janitorial foreman at Berks Campus.
George M. Weaver to information technician associate in Science.

Staff Non-Exempt

Ann C. Bellocchio to research administrative support aide in Science.
Deborah K. Johnson to proof billing coordinator at Hershey.

Clerical

Charlotte A. Burcin to senior clerk in University Libraries/Gwen Corman to secretary B in Science.
Shelby L. Coale to technical secretary C in Applied Research Lab.
Sarah A. Deber to clerk, accounting A in Science.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. The announcement is made so that all University employees who are interested in promotion **MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304.**

INTEWORK LINE 433-0304. Applications for these staff vacancies will be accepted until July 5. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (FES-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

***Assistant Manager, Food Services, Housing and Food Services, University Park Campus** - Responsible to the manager, Food Services, for all phases of a specific dining commons operation. The duties are to include the supervision of the daily functions of the food service employees and student employees. Maintain high standards of food preparation, service and sanitation. Requires bachelor's degree or equivalent, plus one to two years of effective experience. **STAFF GRADE 5**

***Development Assistant, Development and University Relations, College of Health and Human Development, University Park Campus** - Responsible to the director of development, senior development officer, or development officer for assistance in the organization and implementation of fund-raising programs and related activities in the College. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in public relations, fund raising, or related field. Proficiency in verbal and written communications skills is highly desirable. Willingness to travel essential. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. STAFF GRADE 6**

***Assistant Group Supervisor, Health and Human Development, Human Development and Family Studies, University Park Campus** - Responsible for planning and supervising activities for preschool children ages 4+; planning and coordinating a parent involvement program; and overseeing and directing the work of University students. Requires bachelor's degree, or equivalent, in an appropriate field plus at least three months of effective experience or associate degree, or equivalent, plus over one year of effective experience. **STAFF GRADE 4**

***Writing and Learning Support Specialist, Penn State Harrisburg** - Responsible for the development and operation of the Learning Resource Center, and for the coordination of a wide range of academic support programs with special emphasis on writing skills development. Requires master's degree or equivalent, doctorate preferred, in writing English composition or related field, plus up to one year of

effective experience. Experience in technical writing instruction required. **STAFF GRADE 6**

***Division of Undergraduate Studies Programs Coordinator II, CES, Wilkes-Barre Campus** - Responsible for the administration of the Advising and Counseling Center, and serve as an advisory and campus resource person for academic advisors and students. Coordinate the programs and services of the Division of Undergraduate Studies, which includes academic advising. Supervise placement, counseling, and other academic support services. Requires master's degree or equivalent, plus one to two years effective experience in college level academic advising and educational counseling or other appropriate setting. **STAFF GRADE 7**

***Assistant to the Director of Student Programs and Services (Financial Aid and Veterans' Affairs), Student Programs and Services, Delaware County Campus** - Responsible to the director of student programs and services for the operation and implementation of the campus student aid programs. Develop and coordinate various programs and services in support of veterans and members of the military reserves, and assist in the campus career development and placement services. Requires master's degree, or equivalent, in student personnel administration, financial aid or related field plus up to one year of effective experience, or bachelor's degree plus one to two years of effective experience. **STAFF GRADE 6**

***Director of Development and University Relations, Commonwealth Educational System, Fayette Campus** - Responsible to the Fayette Campus executive officer for organizing and conducting a comprehensive university relations program including all fund-raising programs, public information and relations and alumni relations activities for the entire campus. Requires bachelor's degree, or equivalent, plus two to four years of effective experience preferably involving department, fund-raising and institutional advancement. Relevant experience in higher education is desirable. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. CONTINUATION IS DEPENDENT UPON FUTURE FUNDING. STAFF GRADE 8**

***Publications Specialist, CES, Penn State Great Valley** - Responsible to the director of university relations for writing, design and production of all Center publications in coordination with University Publications and Purchasing Office. Requires bachelor's degree in English, journalism, communications or related field, excellent writing skills, and one to two years of effective publications experience. Desktop publishing ability strongly recommended. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 5**

***Assistant Budget Analyst, Office of Budget and Resource Analysis, York Campus** - Responsible for assisting in budget planning analyses and studies. Conduct assigned research for and assist in the preparation of data analyses and position papers; assist in analyzing and developing projections of cost and other resource implications of proposed

academic or support programs. Requires bachelor's degree, or equivalent in business or public administration, accounting, economics or related field, and one to two years of effective experience. **STAFF GRADE 6**

***Assistant Director of Student Programs and Services-Residential Life, CES, Hazleton Campus** - Responsible for managing the day-to-day operations of the residence hall area. Train and supervise the residence hall staff and develop, implement and evaluate programs for residence hall students. Assist with the administration of the Conduct Standard System and act for the director as assigned. Requires master's degree, or equivalent, in student personnel administration or related field, plus one to two years of effective experience. **STAFF GRADE 7**

***Inventory Control Specialist, Office of Business Services, General Stores, University Park Campus** - Responsible to the manager, General Stores, for providing assistance with requisitions, inventory control, and determining stock levels and reorder points. Requires associate degree, or equivalent, plus one to two years of effective experience in requisitioning and inventory control. **STAFF GRADE 4**

***Computer Support Specialist, Senior Vice President for Research and Dean of the Graduate School, Pennsylvania Transportation Institute, University Park Campus** - Responsible for the management of all departmental computer and computer-related activities. Requires bachelor's degree, or equivalent, in computer science or management information systems, plus one to two years of effective experience in areas of office systems, graphics, data communications, micrographics, and project management. General knowledge of hardware and software and token-ring network preferred. Excellent verbal and written communication skills are required. **STAFF GRADE 5**

***Student Development Coordinator, Student Services, Student Organization Resource Center, University Park Campus** - Responsible for providing leadership development for student organizations and student groups. Advise and assist student organizations in program development. Requires master's degree, or equivalent in higher education, counselor education or college student personnel administration or related field, plus up to one year of effective experience, preferably in student activities/leadership training. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH AUG. 1, 1991. WITH AN EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 6**

***Assistant Director, Health Promotion and Education, Student Services, University Health Services, University Park Campus** - Responsible for assisting in the development and administration of a program of health education for the University community, and for the overall development and implementation of the Drug Education Program for Total Health. Requires master's degree, or equivalent, in health education, health services, health and safety, or related field plus one to two years of effective experience. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30.**

1991. WITH A VERY GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 7

***Engineering Counselor, College of Engineering, Engineering Advising Center, University Park Campus** - Responsible to the director, Engineering Advising Center, for providing academic counseling services in selection of major, definition of student abilities and performance, student emergency situations and interpersonal counseling within the College of Engineering. Requires master's degree, or equivalent, in counselor education plus mathematics or physics background plus one to two years of effective experience in counseling. **STAFF GRADE 7**

***Drafter, Electro-Mechanical, Applied Research Laboratory, University Park Campus** - Responsible to the supervisor, Design and Drafting, for the accurate performance of a variety of drafting operations on all types of drawings for electronic, electro-mechanical, mechanical, hydraulic and acoustic equipment and devices. Requires associate degree, technical school training, or equivalent, in electro-mechanical drafting plus six to nine months of effective experience. **U.S. citizenship required. STAFF GRADE 3**

***Drafter/Designer, Electro-Mechanical, Applied Research Laboratory, University Park Campus** - Responsible to the supervisor, Design and Drafting, for the accurate performance of a wide variety of drafting operations including layout and design work on all types of drawings for electronic, electro-mechanical, mechanical, hydraulic, and acoustic equipment and devices, and for the packaging design of electronic equipment. Requires associate degree, technical school training, or equivalent, in electro-mechanical drafting plus two to three years of effective experience. **U.S. citizenship required. STAFF GRADE 5**

Junior Engineering Aide, Applied Research Laboratory, University Park Campus - Responsible to the project engineer or designated senior engineering aide for assistance in the fabrication, testing, installation, operation, and maintenance of non-standard electronic or mechanical parts, components, and equipment. Requires associate degree, or equivalent, in electrical or mechanical engineering technology program, and more than three months of effective experience. Position may require travel on field assignments including assignments aboard ships at sea. **U.S. citizenship required. STAFF GRADE 3**

***Engineering Aide, Applied Research Laboratory, University Park Campus** - Responsible to the project engineer or senior engineering aide for the layout, design, fabrication, and construction of standard electronic or mechanical components and equipment. Assist in conducting tests and with the collection, compilation and analysis of test data. Requires associate degree, or equivalent, plus two to four years of effective experience in the design and fabrication of experimental equipment. Position may require travel on field assignments including assignments aboard ships at sea. **U.S. citizenship required. STAFF GRADE 5**

Penn College named to participate in fellowship program

Pennsylvania College of Technology has been selected as one of 11 colleges and universities in the nation to participate in IBM's Manufacturing Industrial Fellowship Program (MIFP).

Through the program, an IBM engineer specializing in Computer Integrated Manufacturing (CIM) will be assigned to the College for a one-year period, to assist College personnel in developing CIM initiatives.

Penn College's selection to the prestigious IBM program follows on the heels of its recent CIM demonstration, believed to be the first successful attempt by an American college using industrial-scale equipment to link multiple CIM components, including comprehensive computerized business production planning systems, product design software, material storage and delivery, and machine and robot productions.

MIFP is designed to enhance the partnership between IBM and colleges leading the field in computer technology training. Penn College is one of more than 70 members of IBM's CIM in Higher Education Alliance who were eligible to apply for MIFP status.

"IBM has again recognized Penn College's leadership in manufacturing technology," James E. Middleton, dean of academic affairs at Penn College, said.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Trustees to be asked to approve operating budget

The Board of Trustees will be asked to approve a total operating budget for the University of \$1,239 billion for 1990-91 during its meeting July 13 at the Penn State Berks Campus.

Anchoring the total operating budget is the general funds budget of \$775 million. The general funds budget supports the basic teaching, research, and public service programs of the University, as well as academic and administrative support activities and maintenance of the physical plant.

The general funds budget has three major components: the state appropriation (40.7 percent), tuition and fees (52 percent), and other income (7.3 percent).

Earlier this month the governor and state legislature approved an appropriation of approximately \$243 million, an increase of 2.9 percent over the previous year. In addition, the University is also expected to receive about \$8.3 million as part of the

See related story on proposed tuition on page 3.

governor's Tuition Challenge Grant Program. The combination of the appropriation plus the Challenge Grant will yield an increase of 4.9 percent over 1989-90.

"We're pleased with the support offered Penn State this year by the state, and in particular with the structure of the Tuition Challenge Grant Program," President Jordan said. "This is a budget that enables Penn State to continue its forward momentum, albeit not at the pace that we would like to see."

"That we are able to move forward in this fiscally austere year for the Commonwealth of Pennsylvania reflects strong, bipartisan support for Penn State

and for public higher education that exists in the General Assembly and the Administration."

The \$251.9 million in overall state support fell below what Penn State had originally requested. The University had sought a 1990-91 appropriation of \$270.1 million.

As a result, planned expenditures were reviewed and Penn State eliminated some planned expense increases.

An across the board six percent tuition increase for all students was built into the budget this year and a computer fee was established at a rate of \$35 per semester for all full-time students.

The \$37.6 million increase in the general funds budget will be allocated as follows:

— \$10.2 million in unavoidable cost increases. The largest single pressure on this area is health care insurances. They are expected to increase over 20 percent

in 1990-91. The impact on the University's General Funds Budget will be \$4.7 million. Other major increases occur in the area of retirement contributions and social security rate changes, as well as the cost for maintenance and operations of new facilities, such as the new Agricultural Science and Industry Building at University Park. There is also more than a half million dollar increase targeted for library acquisitions.

— \$17.7 million in salary adjustments and related benefits. This area has been cut back by more than \$5 million from the amount indicated in the University's appropriation request last fall. The proposed salary increases for 1990-91 for academic and non-classified non-academic positions for individuals will be based on merit. The basic allocation to academic and administrative units will be 4.25 percent of the filled position salary base, with some supplemental

INTERCOM

July 12, 1990

Volume 19, Number 37

Information submitted for publication in *Intercom* is due by noon on the Thursday before publication.

President Jordan announces that The Campaign for Penn State, which ended June 30, received more than \$352 million in cash and pledges. (Photo: Greg Grieco).

Campaign for Penn State raises \$352 million in gifts and pledges

The University has completed its six-year effort to secure private support for academic programs with gifts and pledges totaling more than \$352 million, President Jordan has announced.

The Campaign for Penn State, which ended June 30, exceeded its \$300 million goal by 17 percent and ranks as one of the five largest philanthropic campaigns ever mounted by an American public university. Dr. Jordan also disclosed that the University received gifts totaling a record \$62 million for the fiscal year ending June 30 — 13 percent above the \$55 million received in 1988-89. No pledges are counted in this amount.

"The Campaign has been an overwhelming success by virtually every measure," Dr. Jordan said. "It has

strengthened Penn State across the board and helped to secure its place as one of our nation's finest public universities."

"And closing out the Campaign with a record year of giving sets the pace for our ongoing fund-raising efforts in the years ahead."

Of the \$352 million, about \$110 million or 31 percent has been designated for academic enrichment, which includes support for research programs and curricular innovation. About \$85 million or 24 percent is targeted for facilities and equipment, including new and refurbished buildings, classrooms and laboratories.

Donors gave about \$49 million or 14 percent of the total to endow faculty positions. Endowed chairs, professorships

Affirmative Action Office director is appointed

Bonnie P. Ortiz, administrative officer for the Division of Intercollegiate Athletics at the University of Wisconsin-Madison, has been named director of the Affirmative Action Office, effective Sept. 1.

"We are delighted to have Bonnie Ortiz head our affirmative action efforts at Penn State. She brings extensive administrative office experience and sensitivity to the position. We look forward to working with her on new and existing ventures to ensure an equitable and productive climate for all faculty and staff," Dr. Robert E. Dunham, vice president and vice provost of the University, said.

Reporting directly to the President through the vice president and vice provost, the affirmative action officer is responsible for the administration and effectiveness of the University's equal employment opportunity and affirmative action program for all faculty and staff members at all campus locations.

Ms. Ortiz will be responsible for implementing and maintaining the University's Affirmative Action Compliance

Plan, monitoring reporting systems to outside agencies and investigating allegations of discrimination in violation of University policies and regulations.

As administrative officer for the Division of Intercollegiate Athletics at the University of Wisconsin-Madison since 1989, she was responsible for the reorganization of the administrative structure of the division, including establishing personnel policies and practices and reviewing and updating all position descriptions.

Ms. Ortiz served as acting director of the university's Office of Affirmative Action and Compliance from 1987 to 1989. As such, she was responsible for the planning and preparation of annual university, federal and state affirmative action plans. She conducted investigations and interviews concerning discrimination based on race, age, handicap, sex or sexual orientation and worked with supervisors and colleagues toward problem resolution. She also conducted training sessions on discrimination, assisted campus units with recruitment, spouse employment and

served as a liaison between the university and community groups.

Bonnie P. Ortiz

Focus on Diversity

Researchers compare students' racial consciousness

African-American students attending predominantly white colleges are not unlike their peers at traditionally Black colleges in understanding the significance of Black History Month, career options or celebrating the release of Nelson Mandela, according to University researchers.

In their research, **Harold E. Cheatham** and **Robert B. Slaney**, professors of counseling and educational psychology, and **Nancy Coleman**, a doctoral candidate, note that African-American students attending a predominantly White college are equal or have comparable racial consciousness and personal development as African-American students attending traditionally Black colleges. The findings conflict with popular beliefs and previous research reports that African-American students attending traditionally Black colleges have stronger

racial consciousness and personal development because of a more sensitive and supportive collegiate environment.

"For years, it has been often cited in the popular press, based on findings of some studies and speculation, that traditionally Black institutions provide a more nurturing environment than predominantly White institutions," Dr. Cheatham said. "Therefore those students have a stronger racial identity."

"But our research does not confirm this. Placing African Americans in what they perceive as a more supportive environment doesn't mean they will experience greater development or racial identity."

The study compared the racial consciousness, career decidedness and psycho-social development of 250 African-American students in collegiate

environments at one predominantly White and one traditionally Black institution.

Results show that African-American students, whether enrolled in traditionally Black institutions or predominantly White institutions, experience a comparable rate of development in the areas of racial consciousness, interpersonal relations, intellectual maturity and career awareness.

"We found a greater difference in psychosocial, intellectual and career awareness development between the freshmen and seniors at both types of institutions, than between students in different collegiate environments," Dr. Slaney said. "Third- and fourth-year students at both types of institutions experienced greater development than first- and second-year students."

Third- and fourth-year African-American

students were more decided on careers and had a higher involvement in relating their educational plans to occupational plans, according to the study. In addition, African-American women were found to be more decided on a career by the third year than were African-American men.

In other areas, African-American women reported more beneficial lifestyles at traditionally Black women's institutions than at predominantly White institutions. African-American men were found to have more beneficial lifestyles in coeducational, traditionally Black institutions than at predominantly White institutions. Drs. Slaney and Cheatham say these results match results of previous studies.

The researchers recommend further study to determine what collegiate environments are better for certain types of students.

'A Raisin in the Sun' will be telecast July 25 on WPSX-TV

When Lorraine Hansberry's searing drama "A Raisin in the Sun" opened on Broadway in 1959, no one could foresee the impact this production would have not only on the American theatre, but on race relations in America as well. It was the first play written by a black woman to reach Broadway audiences, and the first commercially successful, serious black drama.

Opening when the simmering civil rights issue was about to explode all across America, the play presented white

audiences with a portrait of black Americans to which they had not been exposed earlier. It also brought a new black audience into the theatre where, for the first time, they could accurately see themselves. Its vivid depiction of a black family contemplating a move into an all-white neighborhood stirred millions.

"American Playhouse's" three-hour version of Hansberry's award-winning drama, starring Danny Glover and Esther Rolle, will have an encore broadcast at 9 p.m. Wednesday, July 25, on Channel 3.

Minority scholarships are available

The Office of Education Abroad Program, with funding from the Equal Opportunity Planning Commission, was able to award a number of Minority Scholarships to study abroad participants this year.

Awards were given to three students for Spring 1990 programs, five students for Fall 1990 programs, and to thirteen students in three summer programs: the Summer Abroad program in Todi, Italy, the Western Economy in Oxford, England, and the European Criminal Justice program in The Netherlands.

Effective this fall, minority students should apply directly to the Office of Education Abroad Programs if they want to be considered for an EOPEC Education Abroad Scholarship, African-American, Hispanic-American, Asian and Pacific

Islanders and Native-American students who are U.S. citizens and who have been accepted for either a summer, fall, spring, or academic year Penn State program are eligible to apply.

The scholarships are **need-based**. Students' financial needs will be evaluated by the EOAP staff in cooperation with the Offices of Student Aid and Loans and Scholarships. EAP Minority Scholarships are dependent on the amount of funding received from the EOPEC each year.

The application deadline for EAP Minority Scholarships is: spring semester scholarships, Oct. 1, 1990; summer scholarships, March 1, 1991; fall/academic year scholarships, May 15, 1991.

Applications are available at 222 Boucke Building.

Minority students program piloted at York Campus

Preparing minority students for post-graduate education and jobs in the technical industries of York is the goal of a new program being piloted at the Penn State York Campus.

The program, Minority Opportunities in Engineering, Science and Technology (MOEST), will provide minority students with increased opportunities in math and science beginning as early as seventh grade.

Students will be selected for the MOEST program as they enter seventh grade and then be followed through college, whether it be a community college, technical school or a university and into their first job.

MOEST, under the direction of William Lee Smallwood, Continuing Education area representative at the York Campus and a York city councilman, was developed in response to a need in York area industries for personnel trained in math and science based skills. The program is being

The program is being supported for the first year by a \$60,000 grant from the Caterpillar Foundation.

supported for the first year by a \$60,000 grant from the Caterpillar Foundation, a philanthropic arm of Caterpillar Inc., a Fortune 500 company with a division in York.

"Our goal with MOEST is to be able to provide a better educated workforce," said

Mr. Smallwood, a York native. "With these particular students we want to be able to prepare them for the workforce by helping them get into college, technical trade schools or entry-level employment where they can be successful and stay in their own community if they choose to do so. We're helping to guarantee a future for York."

The pilot program which gets under way this summer includes 25 students from Hannah Penn Middle School in York who meet the eligibility requirements.

"The campus will put together a course of study for both the York City School District and the campus," Mr. Smallwood said. "Students will attend two classes per week after school hours -- one class in math and the other in science."

During the summer months, MOEST staff will continue to develop curriculum and schedule counseling and guidance

sessions with MOEST students and parents. Parents will be encouraged to be directly involved in MOEST with special Saturday sessions, social activities, field trips and programs throughout the school year to discuss strategies to assist their children academically.

Parents will be involved every step of the way to ensure they are able to provide the support their children need to succeed," Mr. Smallwood said. "If parents have an understanding of what's expected of students, they will be able to encourage them to be more productive."

When fully operational, in six years, the MOEST program plans include working with at least 30 students annually in each of grades seven through 12 at the two Middle Schools and William Penn Senior High.

College of Medicine students are honored for service

Black/African-American and Hispanic medical students at the College of Medicine at the Hershey Medical Center have been honored for extraordinary community service this year.

For planning and coordinating a range of Black/African-American and Hispanic community activities from essay contests to blood pressure tests during the 1989-90 academic year, they were named winners of the Student National Medical Association's Region 8 Outstanding Community Service Award at the national convention in Atlanta.

A national organization for minority medical students, the SNMA is one of the largest organizations of its kind in the nation. The Penn State chapter, which has

more than 20 medical and graduate students, is located in one of the smaller minority communities within Region 8. To reach a larger minority community, the students worked with residents in Hershey and nearby Harrisburg to conduct activities.

Throughout the academic year, the chapter sponsored blood pressure tests, clothing drives, a Martin Luther King essay competition with Milton S. Hershey middle school and a Harrisburg high school, and Black History Month activities for local minority and non-minority residents of all ages. The students also adopted two families at Christmas; providing food, clothing and gifts; sponsored cultural lectures; and created a cultural art display at

the entrance of the Medical Center's widely used library.

"It seems like quite a task, when you consider the relatively small size of our chapter," Patricia Witherspoon of Hamden, Conn., a second-year medical degree candidate and president of the Penn State SNMA chapter, said. "But we just did everything one day at a time."

Eric Johnson, who graduated May 13 with a medical degree in orthopedic surgery, said, "Community service is an obligation of Black/African-American professionals. Those who make it must give back. We Black/African-Americans in Penn State's College of Medicine talk about this as a group, and we know that we have to help each other."

Tracy Collins of Philadelphia, who also received her medical degree in obstetrics gynecology, agrees.

"Many of us are the first college graduates in our families. We have to serve as role models in the Black/African-American community and inspire others," said Ms. Collins, who also attended Penn State as an undergraduate.

Frank Hamlett of Utica, N.Y., a medical degree student in internal medicine, said he was doing his clinical rotation in a Cleveland clinic when he realized the importance of role models.

"It's hard to believe how encouraging it can be when you see lots of caring Black/African-Americans as role models," he said, noting that both his parents are nurses.

Campaign for Penn State

(Continued from page 1)

and faculty fellowships increased from 19 to 140 during the Campaign.

About \$42 million or 12 percent went for scholarships, graduate fellowships and other kinds of student aid. Scholarship funds have increased from about 400 to more than 1,100 during the Campaign and are supporting some 5,500 Penn State students.

The remaining \$66 million, or 19 percent of the total, is targeted for a variety of purposes, including the University Libraries, programs that promote cultural diversity and other areas of critical need.

More than 187,000 alumni and other individuals gave or pledged about \$157 million or 45 percent of the Campaign total. Corporations accounted for \$134 million or 38 percent, foundations \$35 million or 10 percent and other organizations \$26 million or 7 percent.

G. David Gearhart, senior vice president for development and University relations, noted that the \$62 million received in 1989-90 was nearly seven times larger than the \$9.6 million in donations made by Penn State in 1979-80.

The Campaign called attention to the importance of private support at Penn State, and our alumni and friends responded with extraordinary generosity," he said. "They recognized that we can't rely exclusively on public appropriations and student fees and still offer a margin of excellence in instruction, research and public service.

Dr. Gearhart noted that the Campaign for Penn State is one of only five public university campaigns with goals of at least \$300 million. The others are the University of California, Berkeley; Ohio State; the University of Minnesota; and UCLA.

The end of the Campaign doesn't mean that we'll cease our fund-raising efforts," he said. "On-going private support is crucial to

many of our programs and to competing successfully with other universities for the best faculty and students. We expect to launch a series of special fund-raising campaigns in the next year or two that focus on our most critical needs.

Dr. Jordan pointed to the efforts of volunteers as another reason for the Campaign's success.

The Campaign involved more than 1,100 alumni volunteers from coast to coast, he said. They helped to identify potential donors, made personal solicitations and provided expertise in numerous other areas.

Dr. Jordan singled out for special praise Campaign Chairman William A. Schreyer, chairman and chief executive officer of Merrill Lynch & Co. Inc. and a 1948 Penn State graduate.

Bill Schreyer's inspirational leadership has been invaluable. He has shown a remarkable ability to get people of varying backgrounds and talents to work together in a common cause. We are very grateful to Mr. Schreyer for all that he has done for Penn State.

Dr. Jordan also noted the important strategic leadership shown by the Campaign Planning Group: Campaign Vice Chairmen Edward R. Hintz, president of the New York investment firm of Hintz, Holman and Hecksher Inc.; Joseph V. Paterno, Penn State head football coach, and Frank Smeal, limited partner in Goldman, Sachs & Co.; Campaign Treasurer Robert E. Eberly, chairman of the board of Gallatin National Bank of Uniontown, and Chairman of the Challenge for Annual Support Robert W. Moore, recently retired as president of Financial Executives Institute of Morristown, N.J. All but Coach Paterno are Penn State graduates.

The Campaign for Penn State was the first major, comprehensive fund-raising effort in the University's 135-year history.

Board of Trustees to consider proposed tuition increase

The Board of Trustees will be asked to approve an across-the-board six percent tuition increase for the 1990-91 academic year.

For Pennsylvania full-time undergraduate students at University Park, Behrend College, and Capital College, tuition for the 1990-91 academic year will be \$3,978 for two semesters, an increase of \$224 or six percent. Pennsylvania students attending any of the University's 17 Commonwealth Campuses will pay an additional \$218 per academic year, from \$3,034 to \$3,852. Pennsylvania graduate students will pay an additional \$252 per academic year, beginning this fall, from \$4,198 to \$4,450.

The tuition of out-of-state undergraduate students will also increase six percent, from \$7,900 to \$8,374. Graduate students from out-of-state will pay \$8,890, compared with \$8,388 from last year.

Pennsylvania medical students will pay an additional \$1,000, with annual tuition rising from \$12,544 to \$13,544. Out-of-state M.D. students will pay \$19,442, compared with \$18,442 over last year.

Students in some programs, such as upper division and graduate students in engineering, also pay a surcharge. No

increase was proposed for those surcharges this year.

"Although Penn State receives the lowest appropriation per student of any public college or university in the state, we think keeping tuition to a six percent increase will still allow us to continue to provide one of the very best educational opportunities in the nation," according to President Jordan.

"The tuition increase is part of a budget that we think is both sensitive to the needs of the University and to the needs of the University's students," Jordan said. "In this fiscal environment, Penn State has had to manage very closely to contain costs and to cut them whenever possible, while at the same time continue its forward momentum as an institution poised among the ranks of the very best public research universities in the nation."

As part of its tuition structure, Penn State will again this year set aside two percent of the tuition increase -- or \$270,000 -- for the Tuition Assistance Program. This program provides aid for undergraduate students who might not be able to continue their studies because of rising tuition.

Card catalog souvenirs are available

In preparation for the removal of the now outdated card catalogs from the University Park libraries this August, the University Libraries is offering interested faculty and staff members the opportunity to collect a "piece of library history."

Limited sections of cards from the card catalogs will be available to faculty and staff members on a first come, first-serve basis. This offer is especially pertinent to those faculty and staff members who have

worked extensively with various sections on the card catalogs.

If you are interested in obtaining a section of these cards, please contact Sandy Stauffer in the office of Torre Merigolo, assistant dean and head, Collections and Reference Services, ES05 Pattee, 805-0401, by July 27. Please be prepared to indicate the specific author or subject sections that you are interested in receiving. Those cards not taken will be recycled.

Affirmative action

(Continued from page 1)

From 1983 to 1987 she was an institutional planner and from 1980 to 1983 an academic support specialist in the Office of Budget, Planning and Analysis, also at Wisconsin-Madison, where she worked on affirmative action documentation, goal setting and analysis as well as affirmative action compliance reports.

In addition, she has worked on evaluation research and administration for the department of rural sociology and has served as student records monitor for the School of Journalism at Wisconsin-Madison.

Ms. Ortiz received bachelor's and master's degrees in consumer sciences from the University of Wisconsin-Madison in 1987 and 1979 and a number of honors and awards, including the Viola Jurgeson Baker Graduate Scholarship and the Verdel Frazier Young Award. She is a member of Omicron Nu Honorary Society.

College of Education completes reorganization

The College of Education has completed a reorganization of its academic divisions and has named new department heads.

The realignment is to allow for the establishment of six academic departments to replace the three divisions and one department that formerly existed, according to Rodney J. Reed, dean of the College.

"Our goal is to become second to none in research, teaching and service," Dean Reed said.

The new department heads and reorganized departments are: **William Caldwell**, Administration, Policy, Foundations and Comparative/International Education; **Francis Dwyer**, Adult Education and Instructional Systems; **Edwin Herr**, Counselor Education, Counseling Psychology and Rehabilitation Services Education; **Cecil Trebblood**, Curriculum and Instruction; **John Salvia**, Educational

and School Psychology and Special Education, and **Fred Welch**, Vocational and Industrial Education.

Dr. Caldwell, professor of education, has been a member of the University faculty since 1969. He earned his bachelor's degree in mathematics from Eastern Nazarene College, master's of education degree from University of New Hampshire and Ph.D. in administration from New York University. Dr. Dwyer, professor of education, has been a member of the faculty since 1979. He received a bachelor's degree from North Adams State College, a master's degree in educational psychology from Massachusetts State College and a doctorate in educational administration from Penn State.

Dr. Herr, professor of education, has been a member of the faculty since 1968. He earned his bachelor's degree from Shippensburg University, and master's and doctor of education degrees from the

Teachers College at Columbia University.

Dr. Trueblood, professor of education, has been a member of the faculty since 1967. He earned his bachelor's degree in elementary education from Shippensburg University and master's and doctor of education degrees in educational administration from Penn State.

Dr. Salvia, professor of special education, has been a member of the faculty since 1972. He received his bachelor's degree in education and master's degree in education and history from Arizona University and his doctorate in education with special-education emphasis from Penn State.

Dr. Welch, professor of vocational education, has been a member of the faculty since 1970. He received his bachelor's degree in industrial arts from Gorham Teachers College, master of education from University of Maine and doctor of education from Penn State.

Budget

(Continued from page 1)

funds for merit, market, equity, and location considerations.

-\$5.8 million for program needs. Approximately 80 percent of that amount will go to the academic colleges, schools and campuses, primarily to address workload problems.

-\$419,000 for student aid. Of this amount, \$270,000 will go to the Penn State Tuition Assistance Program established by the Board in 1987-88. Under this program, a total of 2 percent of the income received from tuition rate increases will be used as aid for students who might not otherwise be able to continue their studies because of the

increase. Also, an increase of \$36,000 was designated to increase the Black Incentive Grants and Black Achievement Awards.

-\$2 million in reallocations. This is available mainly due to a decrease in mandated employer contributions to the State Employees Retirement System.

-\$5.5 million in expense offset by income. The principal component of expense offset by income is the new computer fee. The income from the fee will be set aside in a permanent fund dedicated to the upgrading of computer equipment and facilities. In 1990-91, these funds will help to provide funds to pay for three new mainframe computers -- the Center for Academic Computing, for the LIAS system operated by the University Libraries, and for

Management Services. Through the strategic planning process it has been determined that approximately \$4 to \$5 million will be needed annually for the foreseeable future to keep up with -- rapid changes in computer technology.

In addition to the general funds budget of \$775 million, the total operating budget of \$1,239 billion consists of:

- \$10.2 million in federal funds for agricultural research and extension.
- \$27.3 million for the Pennsylvania College of Technology. This is formerly the Wilmsport Area Community College, which has become an affiliate of Penn State.

-\$25 million in restricted funds. This includes research grants, contracts, vocational education funds, restricted

gifts, and restricted endowment income.

- \$122.2 million for auxiliary enterprises. This includes self-supporting budgets representing sales and services primarily to individuals, such as Housing and Food Services, bookstores, Intercollegiate Athletics, Nittany Lion Inn and airport operations.

- \$273.4 million for the Milton S. Hershey Medical Center. The Hershey budget includes \$48.0 million for the College of Medicine; \$152 million for the University Hospital; \$14.9 million for Elizabethstown Hospital; \$1.0 million for the Central Pennsylvania Psychiatric Institute; and \$50 million for auxiliary enterprises. Copies of the University's new budget will be made available for public inspection in the libraries of Penn State's 23 locations across the state.

University named NASA National Space Grant College

The University has been recognized as a NASA National Space Grant College.

E. Julius Dasch, NASA program manager, National Space Grant College and Fellowship Program, presented Charles Hosler, acting executive vice president and provost, with a plaque during a brief ceremony June 29 at University Park.

Charles R. Fuget, deputy secretary and commissioner of higher education, Pennsylvania Department of Education; and Rep. William Goodling and Robert Walker, Pennsylvania congressmen, also presented brief remarks.

The plaque will be on public display in the lobby of Pattee Library. The display also will include objects from space-related projects conducted by faculty members, students and alumni. In addition, an exhibit opposite the main desk in the Hetzel Union Building will focus on NSGC programs as well as space-related efforts at the University. Both exhibits will remain in place through July.

Penn State was named a Space Grant University last fall along with the Massachusetts Institute of Technology and the University of Washington. They were the only individually designated Space Grant Colleges, although 78 other U.S. institutions are part of the program through 17 consortia.

The National Space Grant College and Fellowship Program, established by Congress in 1987, created a national network of universities with interests and capabilities in aeronautics, space and related fields.

Penn State received a \$1.25 million renewable grant over five years as a Space Grant College as well as \$100,000 annually to support Space Grant Fellowships.

Dr. Hosler oversees the program. Wesley C. Hymer is director; Sylvia Stein is executive director, and Richard McCarl is in charge of the fellowship program.

"The goals of the Space Grant College program," Dr. Stein, said, "are to increase the understanding, development and utilization of space resources; to encourage interdisciplinary training, research and public service in space-related areas; to recruit and train professionals for careers in space-related areas; and to promote a strong science, mathematics and technology educational base from elementary through university levels."

Penn State's National Space Grant College programs currently include:

- the Summer Space Academy, a free, residential, research internship program for academically talented high school juniors and seniors;

- a new course, "Space -- A Last Frontier," for non-science undergraduates that will expose them to the wide diversity of subjects and opportunities in space-related fields;

- space current events and information programming for public television stations through "What's In The News," a nationally recognized show for 4th, 5th and 6th grade students produced by WPSY-TV.

- a speakers bureau, statewide classroom visitation programs, teacher training workshops, and other efforts designed to encourage students to choose space-related careers and foster public understanding of the space program.

Charles Hosler, left, acting executive vice president and provost, accepts a plaque from E. Julius Dasch recognizing the University as a NASA National Space Grant College. (Photos: Greg Grieco)

Thomas D. Salada, senior research aide, Department of Molecular and Cell Biology, conducts an experiment under the watchful eyes of, from left, Jennifer Hampton, Irphan Gaslightwala, Suzanne Gerber, and Suzy Grandos, who were among the first participants in Penn State's Summer Space Academy, a project supported by the National Space Grant College.

Caution issued on contracting Lyme disease

With more people in the outdoors during the summer months, the Department of University Safety is advising the University community of the increasing number of Lyme disease cases.

"At least one University employee has contracted Lyme disease and there is another reported case in the area," Howard O. Triebold Jr., assistant-director for environmental health and safety, said.

"Anyone who spends much time outdoors may develop the disease. However, it is preventable and can be treated easily when detected early."

Lyme disease is a relatively new tick-transmitted disease. In humans it causes a

variety of symptoms, including headaches, fever, general malaise, a characteristic red rash, and arthritis. If left untreated, it can result in heart damage and damage to the nervous system.

According to Harry McDermott, director of University Health Services, the number of Lyme disease cases is increasing, with some 1,500 cases reported nationally in 1988. "Six to eight percent of those contracting the disease don't know they have it," he said.

Mr. Triebold suggests a number of preventative measures for those working, camping or hunting in the outdoors. These include wearing long pants, long-sleeved

shirt, hat, socks, and closed shoes; wearing light colored clothing to help in detection of ticks; spraying clothing with an insect/tick repellent; after returning from the woods, shower and inspect your body for ticks.

More information on the disease, its symptoms and preventative measures is contained in Lyme Disease, Extension Circular 366, published by Penn State Cooperative Extension. It is available from the Publication Distribution Center, 112 Agricultural Administration Building, University Park.

College of the Liberal Arts secures challenge grant

The College of the Liberal Arts has raised private funds to secure a \$1 million challenge grant from the National Endowment for the Humanities and will create eight endowed professorships.

The Edwin Erle Sparks Professorships, named to honor the University's eighth president (1908-1920), will be established in the fields of history, English, French, German, Spanish, ethics in philosophy, Slavic languages and rhetoric in speech communications. Each position requires \$250,000 to be endowed.

In 1985, the NEH pledged to give up to \$1 million -- its largest grant that year -- for faculty support, provided the college could secure \$3 million from private sources within four years.

"The creation of these professorships shows what can be accomplished by joint efforts of the public and private sectors," President Jordan said. "These positions will significantly enhance the national visibility of the liberal arts at Penn State and will have a broad impact as they strengthen research and instruction throughout the college."

Hart Nelsen, dean of the college, said each department in the humanities now has

President Jordan announces creation of eight Edwin Erle Sparks Professorships in the College of the Liberal Arts. (Photo: Greg Grieco)

at least one endowed chair or professorship, including the Sparks professorships, thanks

to the stimulus of the NEH challenge. Dean Nelsen pointed to the generosity of

the many donors whose contributions enabled the challenge to be met.

"We're extremely grateful to our many alumni and friends and to the numerous corporations and foundations whose gifts were used to match NEH funds," he said. "This is truly a milestone for the College of the Liberal Arts."

Although many of the gifts were designated for other faculty endowments, Dean Nelsen noted, they still counted toward NEH requirements. Support for the Sparks professorships came from undesignated funds.

These professorships will be used to attract and retain scholars who have national or international reputations, and who in turn will attract excellent students," he said.

According to Dean Nelsen, the first appointments are likely to be made in the 1990-91 academic year. The college now has 20 endowed faculty positions. The University has about 140 overall.

Edwin E. Sparks, trained as a historian at the University of Chicago, assumed the presidency of Penn State in 1908. Under his leadership the School (later College) of Liberal Arts was established in 1909.

The Campaign for Penn State

Couple provides funds for development of telescope

A Penn State alumni couple has designated \$225,000 to support the development of a unique telescope that will be built for a fraction of the cost of most large telescopes.

Sarah Koch Avril and her husband, Willbur, who live in Romeo, Mich., suggested distributing the funds from proceeds of the Carl E. Koch Charitable Lead Trust. Mrs. Avril is the niece of Carl Koch and a beneficiary of the trust.

The Spectrographic Survey Telescope

(SST), conceived and designed by two University astronomers, will consist of 85 small mirrors arranged in a large, lightweight framework to form one mammoth reflective surface. The \$8.2 million SST, devoted exclusively to spectrographic analysis, will have more than twice the light gathering power of any current telescope at one-fourth the cost of other new-technology instruments being developed.

Spectroscopic analysis of light from

celestial sources provides information vital to studies of the origin of stars and planets; the nature of black holes; the physical properties and energy source of quasars; and the size and age of the universe.

Mrs. Avril graduated from Penn State in 1964 with a bachelor's degree in education. Mr. Avril, who is a vice president in the trust division of the National Bank of Detroit, earned a bachelor's degree in forestry from the University in 1963 and a master's degree in economics in 1965. He

serves on the planned gift committee of The Campaign for Penn State.

Mrs. Avril and her brother, Robert, who also is a Penn State graduate, are the children of the late Howard W. Koch of Pittsburgh, an alumnus and longtime supporter of Penn State.

Developed in conjunction with astronomers at the University of Texas at Austin, the SST is being built at the MacDonald Observatory in west Texas.

Siegel gift to support advising center

Stephen and Wendy Siegel of New York City have donated \$25,000 to the Undergraduate Advising Center in the College of Health and Human Development. The funds will be used to support professional development for the center staff and improve the physical facilities of the center.

"I believe this is the first significant gift ever designated for advising at Penn State and is perhaps the largest contribution made for this purpose at any university in the country," Linda C. Huggins, director of the Advising Center, said.

The Siegels' contribution will allow every member of the advising center's staff to participate in at least one professional conference each year for the next three to

five years. It also will provide for better facilities where the staff conduct more than 7,500 advising sessions annually.

The Advising Center's staff of five professional advisers provides academic counseling for undergraduate students in the college, as well as for students in other colleges who are considering enrolling in Health and Human Development majors. In addition, the Advising Center provides information on the college's undergraduate programs to parents, prospective students, and University faculty and staff.

Stephen B. Siegel is president and chief executive officer of Chubb Realty Inc. in New York. Wendy Morris Siegel is a 1975 Penn State graduate from the College of the Liberal Arts.

In College of Agriculture Gift endows scholarships

Alec and Lexi Belasov of Birmingham, Mich., have given Penn State \$25,000 to provide scholarships in the College of Agriculture.

The Alec and Lexi Belasov Scholarship in Agriculture will be awarded annually to outstanding students enrolled or planning to enroll in the college who participate on a varsity athletic team as players or team managers.

"We want to give recognition to agriculture students involved in varsity sports who don't receive full financial support," Alec Belasov says.

Mr. Belasov graduated from Penn State

in 1955 with a B.S. in agricultural economics. He is a member of the Penn State Alumni Association and served on the Campaign for Penn State's national campaign committee and biotechnology leadership committee.

This is the second Penn State scholarship the Belasovs have endowed. The Belasov Family Scholarship in Food Science, established in 1987 with a gift of \$50,000, provides annual scholarships to outstanding students who major in food science.

The Belasovs are members of the Mount Nittany Society, which recognizes the highest levels of giving to the University.

Company contributes design software

Alias Research Inc. of Toronto has given \$181,500 in state-of-the-art design software to the College of Engineering.

Alias Research, a Canadian high tech company, is the developer of ALIAS, the leading software for industrial design, animation, engineering simulation and scientific visualization.

"Penn State offers a truly unique situation for ALIAS software," Raymond J. Miller, Alias eastern district sales manager, said. "Because it will be used by both technical and nontechnical people in a creative design situation, its flexibility and usability will be tested to the limit."

The Alias software package will be used in the visual engineering lab, a design laboratory that attracts students from throughout the University. The lab is directed by Rob Fisher, engineering artist in

residence and the William L. Weiss Fellow.

The Alias software is a leading three-dimensional animation package, designed for use with workstations from Silicon Graphics Inc. Designed to create, render and animate complex objects and scenes, it has photorealistic, 3-D and video capabilities.

The Penn State visual engineering lab, established in 1989, stresses the development of design abilities and aesthetics, so both scientific and artistic applications will be in use, Mr. Fisher said.

"Engineering demands an ability to think three dimensionally. Graduates have to be able to visualize, interpret and analyze complex relationships between three dimensional objects. Alias software helps us teach these skills using computer visualization and animation."

Louis and Sally Michael of Lake Worth, Fla., have given \$194,000 to endow a graduate fellowship in the College of Engineering.

Louis Michael, a Uniontown native, graduated from the University in 1925 with a degree in mechanical engineering and had a 41-year professional career. "I gained much more than my education in engineering through my Penn State experience," he said. "It's been a major factor in whatever I may have achieved afterward, and this fellowship is a good way for us to give something of that back."

Mr. Michael began his career with the United States Steel Corp. He entered government service in 1942 as a civilian engineer in the U.S. Army Ordnance Corps. During World War II, he monitored the production of armor-piercing shells.

After the war, following the creation of the U.S. Army Material Command, he was

reassigned to the Research and Development Division, Missiles Branch. The assignment involved development of missile test equipment including that for the electronics of the Nike Zeus antimissile system. He retired in 1966.

"Lou and Sally Michael have set a fine example for young engineers and their families," Dean John A. Brighton said. "We are delighted to have their names become a part of the college through this endowed fellowship."

Mr. Michael also is a recognized artist and portraitist. Among his seven works at University Park are a portrait of engineering alumnus Bayard D. Kunkle in the College of Engineering's Kunkle Lounge and a painting of an abandoned coal tipple near Uniontown, "Sepulchre of the King," which hangs in the Earth and Mineral Sciences Museum.

Focus on the arts

Crafts demonstrations

Craftworkers from around the state will present live demonstrations of their crafts at University Park today through Saturday during the Central Pennsylvania Festival of the Arts.

The demonstrations represent many of the crafts included in the exhibition, "Craft and Community: Traditional Arts in the Contemporary Society," on display at the Palmer Museum of Art through July 22. Held in conjunction with this exhibition, the demonstrations will run from noon to 8 p.m. on Thursday and 10 a.m. to 8 p.m. on Friday and Saturday in the Museum's tent located on the festival's Pollock Road sidewalk sale route.

Four of the craftworkers have work included in the exhibition. They are Ernest Gabler, riverboat model building; Susan Leviton, Jewish certificate painting; Joseph J. Zebrowski, apprentice in gunsmithing; and Boalsburg resident Bob Moore, Native American leather and beadwork.

Terence Cameron, whose Caribbean steel drum-making technique is documented in the exhibition, will perform with his band, Steel Kings USA, at 7 p.m. Friday, July 13, at the Centre Stage in the Central Parklet between Fraser and Foster Streets in downtown State College.

Other crafts represented in the Museum's exhibition will be demonstrated by regional craftworkers whose work is not included in the exhibition itself. They are: Nicholas Miskovsky, Ukrainian egg writing or pysanky; William W. Kennedy, master in gunsmithing; Nadia Wolynce, Ukrainian embroidery or nyzenka; Moses Rascoe, blues guitar; Violet Kestelater, Lois Pick, the Rev. Harry Bingham and Fannie Chupp, tatter.

Rhetoric conference

The ninth national Conference on Rhetoric and Composition continues today and Friday at University Park.

The conference's second plenary session opens at 8:30 a.m. today in Room 121 Sparks Building. Major speakers are Lee Odell, professor of language and literature at Rensselaer Polytechnic Institute, who will speak on "Evaluation Across the Curriculum: Writing vs. Content," and John Trimbur, veteran writing program administrator and teach at Worcester Polytechnic Institute in Massachusetts, who will discuss "Composition Studies: Postmodern and/or Popular."

Linda Flower, professor of English at Carnegie Mellon University, is the major speaker for the third session at 3:30 p.m. today in 121 Sparks. Her address is titled

"Collaborative Planning and the Construction of Negotiated Meaning."

The fourth session at 1:30 p.m. Friday in 121 Sparks, will feature Lester Faigley, who teaches in the graduate rhetoric program at the University of Texas at Austin. He will present a talk, "In the Turbulence of Theory."

The final session will open at 4:15 p.m. Friday in 112 Kern. Key speakers are Walter Beale, professor of English at the University of North Carolina at Greensboro, who will speak on "What's Wrong with Freshman Composition?" and Winifred Bryan Horner, of Texas Christian University, who will discuss Literature and the Technology of Writing.

Kathleen Hall Jamieson, dean of the Annenberg School for Communication at the University of Pennsylvania, was the conference keynote speaker. John Harwood, associate professor of English, serves as conference coordinator, and a number of University faculty members are session chairpersons.

The arts on Channel 3

Evening at Pops, airing at 9 p.m. Friday, July 13, celebrates conductor John Williams' 10th anniversary with the Boston Pops Orchestra with a special salute to Williams' talents as a composer of Hollywood film scores. His most frequent collaborator, director Steven Spielberg, toasts his long association with Williams, as the Boston Pops Orchestra offers musical accompaniment to clips from several Spielberg-Williams movie hits.

Harmonica player Toots Thielemans recreates his performance from Williams' soundtrack to Sugarland Express, Spielberg's first film. And singer Maureen McGovern caps off the festivities with a Gershwin tribute and a rendition of her hit, "Can You Read My Mind?" composed by Williams for the film, *Superman*.

Cezanne: The Riddle of the Bathers, with host E.G. Marshall, a co-production of WPSX-TV and Inter TV AG of Basel, Switzerland, in association with the Kunstmuseum, Basel, Switzerland, explores the obsession of the artist Paul Cezanne with the theme of male and female bathers. This 60-minute program, airing at 10 p.m. Tuesday, July 17, features more than one hundred important works by one of Impressionism's leading artists.

The program is based on the exhibition *Cezanne: The Riddle of the Bathers*, conceived by art historian and University faculty member Mary Lou Krumrine, and held in fall 1989 at the Kunstmuseum in Basel, Switzerland.

Altoona summer theatre

The Altoona Campus Summer Repertory Theatre will present *The Taming of the Shrew* and *Blithe Spirit* in alternating repertory from July 13 through July 22 at 8 p.m. in the Paul R. and Margery Wolf Kuhn Theatre in the Community Arts Center on campus.

Nona Gerard and Jeff Keane, assistant producers of theatre arts, have been rehearsing with professional, intern, and community actors on the two shows.

The Taming of the Shrew, Shakespeare's favorite comedy, will be presented on July 13, 15, 18, 20, and 22.

Blithe Spirit, the best-known play by the master of modern comedy, Noel Coward, will be performed on July 14, 17, 19, and 21.

Tickets are \$6 for adults and \$3 for students, children, and senior citizens. Call (814) 949-5555 for ticket information.

'Stars of Summer'

The Summer Sessions, in cooperation with the Department of German, presents Austrian writer Josef Haslinger, who will speak on Austrian literature and read selections from his works.

His talk is scheduled for 8 p.m. Monday, July 16, in Room 101 Kern Building at University Park. The reading will be held at 8 p.m. Thursday, July 19, in Room 124 Sparks Building.

Josef Haslinger, who resides in Vienna, was born in Zwielt in Austria and grew up on the family farm. Interest in literature led him to study theater, German literature, and philosophy at the University of Vienna.

In 1977, he became an editor of the Viennese literary magazine *Westermann* and has since served as general secretary of the "Grazer Autorenversammlung." In 1984 he was awarded the Theodor Körner Prize by the city of Vienna.

Mr. Haslinger's most recent work, *Politik der Gefühle*, a book-length essay on Austrian politics, from 1945 to the controversial election of Kurt Waldheim as president, appeared in 1987. In 1989 he served as German writer-in-residence at Oberlin College.

Public lecture

Garth St. Omer, Penn State minority scholar in residence for the 1990 summer session, will give a public lecture on his novel in progress, *Prisoners*, at 8 p.m. Thursday, July 19, in 101 Kern Building at University Park.

Dr. St. Omer, professor of English at the University of California in Santa Barbara, is a well-published novelist and a scholar in African, Caribbean and Black American fiction. He holds a doctorate from Princeton University.

During the six-week summer session, he is teaching the course English 597C, "The American African and Caribbean Novel in Its Colonial Context."

Fred Waring's chorus

Fred Waring's U.S. Chorus 1990 will perform a concert for public television at 4 and 8 p.m. Sunday, July 22, in Eisenhower Auditorium at University Park. Presented by WPSX-TV Channel 3, the program titled "Discovering America" will be videotaped for broadcast on public television stations nationwide this fall.

"In his latter years, working with the younger people gave Fred the most enjoyment and he talked with me about a dream he had of a chorus of kids from all over the United States," Fred Waring's wife, Virginia, said.

Every summer since 1965, the most gifted young vocalists from across the United States have been selected by competitive audition to come to Penn State for two weeks to study on full scholarship with Mrs. Waring and other talented professionals.

Featured musical numbers in "Discovering America" will be such favorites as "Oklahoma," "The Yellow Rose of Texas," selections from "West Side Story," and arrangements made famous by Fred Waring's Pennsylvanians.

The secret of Fred's 60 years of show business success was to have something in the program for everyone and we're continuing that with the U.S. Chorus. Mrs. Waring said.

It is Virginia Waring's hope that when the young people of Fred Waring's U.S. Chorus return to their home towns all across America they'll have a part of Fred Waring's musical legacy to take back to their schools, community theaters, churches and families.

Tickets for the 4 p.m. and 8 p.m. concerts are available to WPSX-TV members at a special rate of \$4 and \$6 for the general public. Ticket orders, with checks made payable to Penn State, should be sent to 102 Eisenhower Auditorium, University Park, Pa. 16802. Tickets also may be purchased using VISA or MasterCard by calling (814) 863-0255.

Bookshelf

The revival of ballroom dancing is captured in a new book co-produced by Ken Graves, associate professor of photography. He collaborated with New York City freelance photographer Eva Lipman in taking the photographs for *Ballroom*, a book published by Milkweid Editions of Minneapolis. The text was written by Sally Sommer.

The subjects of the book are drawn from ballroom dance competitions, involving both adults and children, and formal social dances or balls.

"It was on the periphery of the dance floor where we found our most compelling imagery," Professor Graves and Mrs. Lipman note. "The sidelines were pockets of activity, filled with promise and surprise. Dancers paced and stretched like runners, before setting themselves in their assigned lanes, their energy held in check. Make-up was anchored to faces, and women, like exotic birds resting during a migratory flight, sat enveloped in billowing gowns." Professor Graves, who has taken lessons at Arthur Murray Dance Studios, traces his photographic interest in ballroom dance to

a long-time fascination with those who engage in highly intense or demanding disciplines such as boxing.

"Ballroom dance is seeing a new popularity," he says. "Young people are getting interested in couple dancing again; they like the intimacy and the opportunity to be elegant."

The proceedings of the 4th international conference on acoustic emission/microseismic activity in geologic structures and materials, sponsored by the Rock Mechanics Laboratory, are now available from Trans Tech Publications, Clausthal-Zellerfeld, West Germany.

The proceedings, edited by H. Reginald Hardy Jr., chairman of the Geomechanics Section, Department of Mineral Engineering, College of Earth and Mineral Sciences, contain 43 papers from 14 countries and the United States.

Mehdi Khoshrowpour, assistant professor of information systems, and Gayle Yaverbaum, associate professor of information systems, both of Penn State Harrisburg, are co-authors of *Information Technology Resources Utilization and Management: Issues and Trends*, published by Idea Group Publishing of Harrisburg.

The purpose of the 471-page book is to serve as a source of information for those interested in the field of information resources and to help readers use this knowledge to the best of their abilities. The book also stresses the importance of technology as it pertains to individual information demands.

Information Technology Resources Utilization and Management: Issues and Trends, places emphasis on the manager's role in today's world of state-of-the-art equipment. The book provides managers with the knowledge of how to not only attain information, but also with use that toward obtaining desired goals. It also can be used as a textbook for information technology management or in advanced information science courses.

Professor Khoshrowpour served as senior editor and wrote the chapter "Managing Information Technology Resources as a Major Organizational Asset." Professor Yaverbaum served as consulting editor and co-wrote the chapter Expert Systems Applied to Management Information Systems: Intelligent Decision Support."

Terry J. Peavler, professor of Spanish and comparative literature, has published a comprehensive study of an influential literary figure in Latin America.

In his book, *Julio Cortazar*, published in the Twayne World Authors Series, Dr. Peavler examines the writer's short stories and novels, illustrating the connection between Cortazar's literary or artistic experimentation and his personal philosophy.

Dr. Peavler shows how the short stories, which have been collected in *Blow-Up*, *End of the Game* and *We Lost Glenda So Much*, weave together humor, mysticism, eroticism and philosophy. The study underscores Cortazar's sense of literary play and the style and structure of his improvisations.

In addition to Cortazar's contributions to storytelling and contemporary narrative technique, Dr. Peavler's book also includes a chapter on the novels, including the iconic *Hopscotch*, for which Cortazar is best known and which shocked the international literary establishment in 1963.

This timely overview of the works of Cortazar, which have been widely translated and anthologized, includes works published after his death in 1984.

University Park Calendar

July 12 -- July 29 Special Events

Thursday, July 12
Board of Trustees meets at Berks Campus, through July 13.
Palmer Museum of Art, workshops, Contemporary Realist Watercolors, James Winn, 9 a.m.-noon; Patricia Tobacco Forrester, 1-4 p.m., register, 863-1743.
Summer Sessions, Explazaganza Concert, 7:30 p.m., Fisher Plaza.

Friday, July 13
Lesbian and Gay Students, 8 p.m., 305 HUB, Roger Blatitzky, Austin Univ., on "Teaching Tolerance Against Homophobia."

Saturday, July 14
Summer Sessions, Music at Penn's Woods, 7:30 p.m., Schwab Aud.

Sunday, July 15
Penn's Woods chamber concert, 3 p.m. Music Bldg., Recital Hall.

Monday, July 16
Paul Robeson Cultural Center, Eyes on the Prize II: America at the Racial Crossroads-1945-1985, 7:30 p.m., Paul Robeson Cultural Center, *The Keys to the Kingdom* (1974-1980).

Tuesday, July 17
Shaver's Creek, Day Camp II, Outdoor Adventure Camp I, through July 21. Call 863-2000.

Summer Sessions, music at noon, Fisher Plaza; Explazaganza film, 9 p.m., Fisher Plaza; German Dept., film, 8 p.m., 108 Wartik, *Nachtschatten*.

Wednesday, July 18
Summer Sessions, Penn's Woods chamber concert, 7:30 p.m., Music Bldg., Recital Hall; Palmer Museum lecture, 8 p.m., HUB Assembly Room, Dr. Art Walker, Stanford Univ.

Office of Unions and Student Activities, film, dusk, HUB lawn, *Malsamun Night: Sex, Conch*.

Thursday, July 19
Summer Sessions, music at noon, Fisher Plaza; Summer Seminar, 3:30 p.m., Fireside Lounge; Nittany Lion Inn, Dr. Andrea Mastro on The Immune System: Cells Working in Your Defense; Diversions, ice skating, 8-11 p.m., Ice Rink.

Friday, July 20
Summer Sessions: Diversions, ice cream, 7-8 p.m., Creamery; Summer Jam, 9 p.m.-1 a.m., Paul Robeson Cultural Center.

Saturday, July 21
Shaver's Creek, Dried Flower Arranging, 1-3 p.m., Call 863-2000.

Summer Sessions, Music at Penn's Woods, 7:30 p.m., Schwab Aud.; Glory, 7-9 p.m.

Monday, July 23
Shaver's Creek, Extra Junior/Junior Nature Experiences, 10-11:30 a.m. Also July 25, 27, Call 863-2000.

Fred Waring's U.S. Chorus 1980 will perform at 4 and 8 p.m. July 22 in Eisenhower Auditorium. See story on page 6. (Photo: Dave Shelly)

Paul Robeson Cultural Center, Eyes on the Prize II: America at the Racial Crossroads-1945-1985, 7:30 p.m., Fisher Plaza; Cultural Center, *Back to the Mercurio* (1979 and 1983).

Tuesday, July 24
Summer Sessions, music at noon, Fisher Plaza; Diversions, bowling, 7-9 p.m., 9-11 p.m., Rec Hall; Explazaganza film, 9 p.m., Fisher Plaza; GSA Assembly meeting, 7:15 p.m., Kern.

Wednesday, July 25
Office of Unions and Student Activities, film, dusk, HUB lawn, *Domino and Eugene*.

Thursday, July 26
Summer Sessions, music at noon, Fisher Plaza; seminar, 3:30 p.m., Nittany Lion Inn, Fireside Lounge, Dr. Jayanth Banavar, on Molecular Dynamics of Fluid-Solid Systems; Explazaganza concert, 7:30 p.m., Fisher Plaza.

Friday, July 27
Summer Sessions, brown bag seminar, noon-1 p.m., Pavilion, Francis Cordova on Women in the Sciences; Diversions, ice cream, 7-8 p.m., Creamery; Delta Aquarid Meteor Shower: star party/open house, 9-11 p.m., 6th floor, Davey Lab (outside 7:28).

Saturday, July 28
Shaver's Creek, Bird Walk, 7-9 a.m.: Bats are Beautiful, 8-10 p.m., Call 863-2000.

Summer Sessions, nine-ball billiard tournament.

Sunday, July 29
Shaver's Creek, The Winged Hunters, 2-4 p.m., Call 863-2000.

International Events

Fullbright deadline
Aug. 1 is the new deadline for applying for research and lecturing awards to Africa, Asia (except India), Eastern Europe, Middle East and Western Europe; for lecturing only awards to Mexico, Venezuela and Caribbean Islands; and

for travel-only awards to France, Italy and The Federal Republic of Germany. For information, contact Elizabeth B. Smith at 865-7681.

Public Radio

WPSU-FM 91.1

All Things Considered, Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.; Odyssey Through Literature, 12:30 p.m. Wednesdays, with S. Leonard Rubinstein. Perspectives, 6:30 p.m. Wednesdays, Creative License, 12:30 p.m. Thursdays, with Asa Berlin and Pam Sautier.

Conferences

Continuing Education

Keller Building

July 15-19, Athletic Training for Coaches, William Buckley, coordinator, athletic training education, chair, Jerri Milson, coordinator.
July 15-20, See the Future, John Vincenti, program specialist, chair, Donna Ricketts, coordinator.

July 15-20, Summer Program for Mathematically talented Middle School Students, M. Kathleen Heid, assistant professor of education, director; Donna Ricketts, coordinator.

July 15-20, Second Mile Summer Challenge, Bob Ricketts, instructor in physical education, chair, Jerri Milson, coordinator.

July 15-21, Elderhostel IV, Jerome Zolten, assistant professor of speech communications, chair, Barb Impellitteri, coordinator.

July 16-18, Third Annual Earth Systems

Science, Lee Kump, assistant professor of geosciences and Jim Kasting, associate professor of geosciences, co-chair, Jack Sinclair, coordinator.

July 16-20, Developing a Preschool Practicum, Cynthia Storch, instructor, individual and family studies, and home economics education chair, Donna Ricketts, coordinator.

July 16-20, Heating Ventilation and Air Conditioning Controls, Robert Becker, of the Department of Architectural Engineering, chair, Norm Lathbury, coordinator.

July 16-24, Augmentation of Communication, James Tawney, professor of special education chair, Kathy Karchner, coordinator.

July 18-20, Women's Clubs Summer Conference, Lynne Gosselin, associate professor of administration of justice, chair, Bill Sterner, coordinator.

July 22-27, Second Mile Summer Challenge for Boys, Bob Ricketts, instructor in physical education, chair, Jerri Milson, coordinator.

July 22-28, Elderhostel V, Jerome Zolten, assistant professor of speech communications, chair, Bob Impellitteri, coordinator.

July 24-Aug. 16, Japanese Summer Study Program, M. Constantino, instructor, speech communications, chair, Norm Lathbury, coordinator.

Exhibits

HUB Galleries

Formal Gallery, Art Alley, Browsing Gallery: Images '90, through July 27.

Kern Galleries

Nittany Valley Chapter Embroiderers Guild Of America, through July 31.
Pat Dunmire Ceramic Wall Hangings, through July 31.

College of Earth and Mineral Sciences, through July 16.

Central Pa. Festival of the Arts exhibition, through July 31.

Palmer Museum of Art

Selections from the Permanent Collection, through Oct. 7.
Craft and Community: Traditional Arts in Contemporary Society, through July 22.
Central Pa. Festival of the Arts, Realist Watercolors, through Aug. 5.

Pattee Library

Rare Books Room: Stars and Star Lore: Astronomy and Astrology in Pattee Library's Collections, through July 16.
Zoller Gallery

Crafts National 24 through July 30.

TIPS

Information Penn State

Call 863-1234, press 1 and enter the number of the message you wish to hear. Messages are listed in the front of the telephone directories. Other messages are Weather-24; Arts Line-345; University Calendar-456.

Promotions

Staff Exempt

Philip G. Burdis to supervisor-property inventory in Controller's Office.
Edwin C. Granis foreman, trades in Office of Physical Plant.
Joseph H. Meier to network analyst at Hershey.
Jerri L. Milson to conference coordinator in Commonwealth Educational Systems.
William L. Mountz to senior applications programmer/analyst in C&S-Management Services.
Janet E. Neff to applications programmer/analyst in C&S-Management Services.
Gay P. Powers to supervisor, trades in Office of Physical Plant.
Teresa F. Shick to facilities, services and safety coordinator in Agriculture.
Terri Soaries to cost and space analyst in Controller's Office.

Staff Non-Exempt

Lori Swingholm-Lev to senior cardiovascular technician at Hershey.

Marianne E. Williams to research technician at Hershey.

Clerical

Sheryl J. Ayers to accounting clerk in Education.
Amy L. Bennett to secretary B in Health and Human Development.
Marsha A. Bentley to patient unit secretary at Hershey.
Paula Burns to secretary C in Commonwealth Educational System.
Joann M. Ciggett to senior clerk at Ogontz.
Teresa L. Datti to accounting clerk at Scranton Campus.
Bonnie L. Hampton to clerk, typist A in Controller's Office.
Karen E. Helmer to secretary B at Hershey.
Phyllis E. Hooven to secretary B in Commonwealth Educational System.
Mildred A. Hoyt to clerk, senior cash application at Hershey.
Kimberly J. Jorich to secretary B in Commonwealth Educational System.

Amy L. Mann to secretary A in Intercollegiate Athletics.
Donna L. McClain to residence assignment clerk in Housing and Food Services.
Robin C. Miller to senior accounting clerk in Controller's Office.
Carolyn J. Powell to secretary B at Hershey.
Alice V. Saxton to secretary B in Health and Human Development.
Susan R. Smith to budget clerk in Commonwealth Educational System.
Linda M. Weigle to secretary B in Division of Development and University Relations.
Annette H. Woytowich to clerk, typist A in Commonwealth Educational System.
Lisa A. Young to accounting clerk in Science.
Linda C. Fisher to technical secretary A in Applied Research Lab.
Charlotte L. Houser to senior accounting clerk in Corporate Controller's Office.
Ruthann H. Long to secretary B in School of Communications.
Donald W. Moore to clerk A in C&S-Telecommunications.

Timi Narehood to secretary A in Engineering.
Deborah L. Price to secretary C in Liberal Arts.
Kimberly A. Ripka to accounting clerk in Corporate Controller's Office.
Darlene A. Sidwell to secretary B in Arts and Architecture.
Francine Stackhouse to secretary B at Penn State Great Valley.
Kaye Zimmerman to secretary B in Agriculture.

Technical Service

Thomas N. Bashore to group leader, escort service aide at Hershey.
Alan Haagen to power plant worker in Office of Physical Plant.
Dennis Johnson to groundsworker-golf course in Auxiliary Recreation Service.
Eugene J. Kroul to incubator room operator in Agriculture.
Susan M. Raco to salesroom clerk in Agriculture.

University ranks fourth in defense contract funds

Penn State ranks fourth among U.S. colleges and universities in defense contracts, according to recently released U.S. Department of Defense figures.

In fiscal 1989 the University received \$53.95 million in defense contract funds, an increase of more than \$7 million over the \$46.8 million received in fiscal 1988 when Penn State was ranked fifth among universities.

First place went to the Massachusetts Institute of Technology followed by Johns Hopkins University and University of California. Penn State was fourth followed by Carnegie Mellon University, University of Texas, Stanford University, Utah State University, University of Minnesota and University of Southern California, rounding out the top 10 universities.

Penn State ranks eighth overall among

The top four institutions receiving defense contracts in fiscal 1989 were:

- Massachusetts Institute of Technology, \$410.6 million
- Johns Hopkins University, \$327.6 million
- University of California, \$56.5 million
- Penn State, \$53.9 million

universities and other non-profit organizations, up from 10th place last year. "Penn State's high ranking in defense dollars is an indication of the high level and quality of the research conducted by faculty, staff and students," Dr. Charles

Hosler, acting executive vice president and provost, said.

"The spinoff benefits from defense work have and will continue to create new products and processes that result in new industries and jobs. Frequently, research

conducted to fulfill Department of Defense contracts explores the same questions and finds solutions for the same problems facing American industry today."

The top rankings are in the following order: Massachusetts Institute of Technology, \$410.6 million; Aerospace Corporation, \$401.4 million; Mitre Corporation, \$384.2 million; Johns Hopkins University, \$327.6 million; IIT Research Institute, \$78.2 million; University of California, \$56.5 million; Charles S. Draper Laboratory, \$56.9 million, and Penn State, \$53.9 million.

Other Pennsylvania universities receiving more than \$51 million in contracts are Carnegie Mellon University, \$49 million; University of Pennsylvania, \$6.8 million; University of Pittsburgh \$2.3 million; and Lehigh University \$1.2 million.

Young researchers in top ten

The University is ranked among the top 10 colleges and universities nationwide whose faculty received Presidential Young Investigator Awards.

The National Science Foundation has announced awards to 211 academic scientists and engineers. The awards finance research by faculty members near the beginning of their careers, and are intended to help universities attract and retain outstanding young Ph.D.s.

With five recipients, Penn State was ranked in seventh place, sharing the rank with University of Arizona, Yale University, State University of New York at Buffalo, University of Michigan and Stanford University.

"The PYI awards illustrate Penn State's reputation as a top public research university in the country," Charles Hosler, acting executive vice president and provost, said. "We are attracting talented young researchers to our university, benefiting students and society."

Four faculty members from the College

of Engineering and one from the College of Earth and Mineral Sciences were chosen as this year's recipients. They are:

Richard Alley, assistant professor of geosciences; **Kristen A. Fichhorn**, assistant professor of chemical engineering; **John A. Frangos**, DuPont assistant professor of chemical engineering; **Victor E. Sanvido**, assistant professor of architectural engineering; and **Jose A. Ventura**, assistant professor of industrial engineering.

The top place went to the University of California at Berkeley with 11; second, University of Wisconsin-Madison, 10; third, Massachusetts Institute of Technology, 9; fourth, University of Illinois, 8; fifth, Georgia Tech, University of Maryland, University of Texas at Austin, each at 7; sixth, Princeton, 6.

In Pennsylvania, the University of Pennsylvania had four faculty award winners and Carnegie-Mellon University had three recipients.

Teamsters approve new agreement

Members of Teamsters Local Union No. 8 employed by Penn State have ratified a new collective bargaining agreement with the University to replace the current agreement, which expired June 30.

Teamsters Local Union No. 8 represents the bargaining unit consisting of approximately 2,500 technical-service employees at all University locations throughout the Commonwealth.

Gregory Sampsel, president of Teamsters Local Union No. 8, announced the decision Thursday evening after the count of mail ballots. Union members voted on the ballots to accept or reject the offer made by the University.

The new agreement is effective July 1 and covers a three-year period through June 30, 1993. It provides a 4.5 percent wage increase, effective July 1; a 0.5 percent wage increase effective Jan. 1, 1991; and additional 5 percent wage increases effective with the second and third years of the agreement.

Other negotiated conditions of the agreement provide improvements in the University's health-care provisions, increases in employee contributions for health-care coverage and certain modifications in working conditions.

President Jordan said that he was pleased that the negotiations had been concluded successfully with the acceptance of the agreement by the union membership.

Appointments

Anne Hainsworth, has been appointed manager of the Penn State Technology Development Center (PSTDC) at Penn State Great Valley. The PSTDC, sponsored by Penn State and the Ben Franklin Partnership, offers specialized programs and rental opportunities for entrepreneurs in technology-related fields.

Ms. Hainsworth has served as grants and institutional research coordinator for Gloucester County, N.J., College and as a health planner for the Burlington County Community Action Program. She was assistant department manager at Strawbridge and Clothier prior to joining the PSTDC.

She earned a bachelor of arts in political science and master of public policy from Rutgers University.

Shirley Smith Hendrick has been appointed assistant dean for continuing education in the College of Business Administration.

In a leadership role with College's continuing education programs for more than 10 years, she is responsible for some 2,000 educational programs with a total enrollment of 37,000.

Highly active in the University community, Dr. Hendrick is chair-elect of the President's Commission for Women and serves on the Faculty Senate Chilly Climate Committee, the Continuing Education Awards Committee, the Administrative Advisory Committee and the Management Development Services Committee.

The author of numerous articles and papers on continuing education and women's issues, she currently is writing a book on women executives based on interviews with some of the country's leading female managers.

She has developed numerous continuing education programs in business and was the creator of the Management Program for

Women, a part of the Penn State Executive Programs which was recognized for innovation by the National University Continuing Education Association.

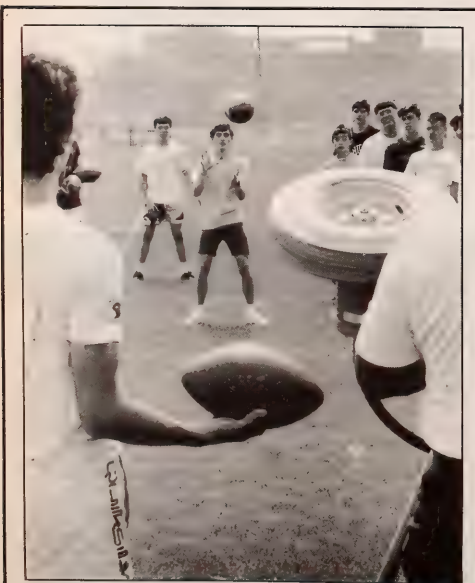

Dr. Hendrick, who holds B.S., M.B.A. and D.Ed. degrees from Penn State, first became associated with the College of Business Administration in 1970s as a graduate assistant and part-time instructor. She was named academic coordinator for continuing education in 1979, academic manager for statewide continuing education in 1983 and director of continuing education in 1987.

Douglas B. Tharp, has been appointed senior technical specialist for PENNTAP (Pennsylvania Technical Assistance Program) in the Southeast Region of Pennsylvania. PENNTAP was created in 1965 as a partnership between the Pennsylvania Department of Commerce and Penn State as a resource to public and private organizations to promote economic development.

Mr. Tharp will collaborate with the Delaware County and Ogontz campuses and Penn State Great Valley in providing technical assistance to regional business and industry.

Previously, Mr. Tharp was assistant director, Technical Services Laboratory, at Consolidated Rail Corporation in Philadelphia. He came to the Philadelphia area from The Transportation Test Center, in Pueblo, Colo., where he was operations department manager. He also spent thirteen years with Kerton Hawaii Ltd., and was a United States Naval aviator.

Mr. Tharp is a senior member of the Institute of Industrial Engineers and holds a B.S. in industrial engineering from Penn State.

Faculty, staff and alumni are honored with awards

Libraries award

Francis E. Hooley, manager of business operations for the Libraries, has received this year's University Libraries Award. Mr. Hooley has been with the University for almost 30 years, having served 28 years with the Libraries.

The award, consisting of a citation, a cash stipend and a Nittany Lion statue is given in recognition of the achievements or performance of a faculty or staff member who has made outstanding professional contributions to the Libraries.

Mr. Hooley was chosen by his colleagues to receive the award in recognition of his commitment, dedication and loyalty to The Pennsylvania State University, his significant contributions to budgeting, financial and planning programs of the University Libraries, and for his support in pursuing grant and contract funding.

Francis E. Hooley

Christine A. White

Kent Forster award

Christine A. White, assistant professor of history, has received the Kent Forster Memorial Junior Faculty Development Award.

The Forster Award, named for the former head of the History Department in whose honor the fund was established, is made to a regular full-time member of the History Department working toward tenure, who has a well-documented research project and is an excellent teacher.

Dr. White, a European-diplomatic historian with special interests in Anglo-Russian economy, will research a brief and bizarre chapter in Russian-American relations centering on the unofficial American support for the Far Eastern Republic -- an ostensibly independent democratic republic created in Siberia in 1920. Set up with the knowledge and support of Moscow, headed by a long-time Bolshevik and openly appealing to American sentiment, the Far Eastern Republic was perceived by all to be a buffer state between the Bolsheviks and the outside world.

During this time period, there were American suspicions of Japanese intent in the area, which combined with increased American commercial interest in the Russian Far East. This episode has been unexplored and has potential importance to such issues as the worsening state of U.S.-Japanese relations and the overall question of American relations -- direct or indirect -- with revolutionary Russia.

Alumnus of the Year

John J. Heinze, president of the Allenberry Resort Inn and Playhouse, Boiling Springs, has been named Alumnus of the Year by the Penn State Hotel and Restaurant Society. PSHRS is the alumni organization for the School of Hotel, Restaurant and Institutional Management in the College of Health and Human Development.

Mr. Heinze is a 1957 graduate of the school. His hospitality industry experience includes a stint as front office assistant manager for the Beverly Hilton, catering work for Slater System in Philadelphia, and a Hilton Hotels training program at the Roosevelt Hotel in New York. He was also a trainee at the Greenbriar Resort in White Sulphur Springs, W.Va.

He began working at the Allenberry in 1965 and became its first and only president in 1967. A former Air Force pilot, he spent 20 years with the 193rd Special Operations Group in Harrisburg.

At the Allenberry he is continuing a tradition begun by his late father, Charles A.B. Heinze, a 1929 Penn State graduate. Charles Heinze bought the property (then farmland) in 1944 and started the resort in 1946. The elder Heinze also helped establish Penn State's undergraduate program in hotel administration (now called hotel, restaurant and institutional management), and in 1965 was named a Distinguished Alumnus of the University, the first person from the hospitality industry to be so honored.

Penn State Harrisburg

Three Penn State Harrisburg faculty and staff members have received awards for contributions to the College.

Jefferson S. Hartzler, assistant professor of mathematics, was honored with the Penn State Harrisburg Outstanding Teacher Award. He has taught at Penn State since 1967.

Dr. Hartzler received the award based on his demonstrated excellence and lasting impact in the areas of teaching, academic advising, career guidance and enthusiasm and commitment. He earned his bachelor's degree in education from Goshen College and his master's and doctoral degrees in mathematics from Penn State.

Edner Kaynak, professor of marketing, received the Outstanding Researcher Award. He has taught at Penn State Harrisburg since 1986.

Dr. Kaynak received the award based on his approved nomination, record of scholarship and achievements made during his career. He received his bachelor's degree in economics from the Istanbul University and his doctorate from the Cranfield Institute of Technology, England.

Theresa Majzik, acting director of the Computer Center, was the recipient of the Penn State Harrisburg Outstanding Service Award for her contributions and service to the Penn State Harrisburg community, faculty, staff and students.

Honorary degree

President Emeritus Oswald has received an honorary doctor of laws degree from the University of Kentucky for his contributions to that institution and to American higher education.

Dr. Oswald received the degree -- his 10th such honor -- from Kentucky President Charles Weatherington at the school's 123rd commencement May 6 in Lexington.

Dr. Oswald, president of Penn State from 1970-83, served as president of the University of Kentucky from 1963-68. He last attended a Kentucky graduation in 1967, when he presided over the school's centennial commencement.

At Kentucky, he led an expansion of the university into new areas, strengthened its faculty and supervised the largest building program in its history. Under a law enacted by the Kentucky legislature, the University of Kentucky was requested to establish a Community College System, and during his tenure Dr. Oswald established 15 new two-year campuses across the state. Also while he was president, the institution's new medical center began graduating its first classes of physicians.

Penn State Ogontz

Peter Rebane, associate professor of history at Penn State Ogontz Campus, has been named Outstanding Teacher for his "dedication, loyalty to academic excellence, sure command of material and genuine concern for students."

Dr. Rebane, who began his teaching career at Ogontz as an instructor in 1967, is a graduate of Upsala College in New Jersey

and earned both his master's and doctorate in medieval history at Michigan State University.

Wesley Olsen, associate professor of exercise and sport science, was chosen Outstanding Advisor for his work with students in both an academic role, as well as athletics.

Dr. Olsen, who attended Ogontz for two years as a student, graduated from Penn State in 1964 and has been a faculty member at Ogontz since. Chosen Chief Ogontz in 1967, Dr. Olsen earned both his master's and doctorate in education at Temple University.

Neil Mercado, assistant professor of biology, received the Chief Ogontz Medal, which is awarded annually by the Student Government Association to a faculty or staff member who demonstrates qualities of high ideals coupled with notable contributions to the quality of campus life. He was selected for his consistent interest in and support of student activities.

Dr. Mercado, named the campus' Outstanding Teacher in 1980 and honored with an AMOCO Master Teacher award in 1981, is a graduate of Bloomsburg University. He earned advanced degrees in zoology at both Penn State and North Carolina State University.

Liberal Arts

The College of the Liberal Arts Alumni Society has honored an outstanding alumnus and several faculty members for University and community service.

Alumnus Gerald T. Branner received the Alumni Society's Service to Society Award for his many public service contributions. He is a senior partner with the Philadelphia law firm of Morgan, Lewis and Bockius, the third largest law firm in the United States.

Faculty members receiving awards were **Rodger C. Henderson**, **Richard A. Carlson**, **Archibald Allen**, **Mark J. Roberts**, **James W. Hatch**, **Sidney Elkin**, and **Roy C. Buck**, professor emeritus.

Mr. Branner serves as a volunteer lawyer for Community Legal Services of Philadelphia and other referral programs, furnishing volunteer attorneys for the indigent. A volunteer legal adviser to the non-profit Community Homes Inc., he is a member of the Philadelphia chapter of the Anti-Defamation League of B'nai B'rith.

The 1990 Roy C. Buck Fund Research Award was presented to Dr. Henderson, assistant professor of history at the Penn State Fayette Campus. He was acknowledged for his proposed study "The Black Family in Pennsylvania from 1750 to 1840: A Demographic Perspective from Lancaster and Fayette Counties."

Dr. Carlson, assistant professor of psychology, received the 1990 Roy C. Buck Award in the Social Sciences for his paper "Practice and Working Memory Effects in Building Procedural Skill."

Dr. Buck, professor emeritus of sociology and social science, was presented with the Emeritus Distinction Award. Dr. Buck, who received his bachelor's and master's degrees from Penn State, retired in 1981 after 32

years of service to the University. His special interests include the Amish people of Pennsylvania.

The Class of 1933 Award for Outstanding Contributions in the Field of Humanities was given to Dr. Allen, associate professor of classics. Since coming to Penn State in 1965, Dr. Allen has taught both large survey courses in Greek and Roman civilization and tutorials on specific authors and literary topics. His scholarly works have been published in internationally recognized journals.

Dr. Roberts, professor of economics, received the society's Distinction in the Social Sciences Award. A Penn State faculty member since 1980, he teaches graduate courses in industrial organization and the undergraduate econometrics course.

Dr. Hatch, associate professor of anthropology, received the Distinguished Teaching Award. He has involved students in numerous projects with the Museum of Anthropology, of which he is director. Many museum exhibits have been built by students under his supervision.

The Outstanding Advising Award went to Mr. Elkin, instructor in political science at the Penn State Beaver Campus. A faculty member since 1969, he holds a doctorate in jurisprudence from Northwestern University School of Law.

Teaching award

Peter E. Parisi, assistant professor of communications and humanities at Penn State Harrisburg, has been honored with the Dr. James A. Jordan Jr. Memorial Award for Teaching Excellence.

The annual award is presented by the student body to a faculty member who demonstrates outstanding dedication and achievement in education and who exhibits sincere interest in the students and the College community. The award is given in honor of faculty member James A. Jordan, who died in 1971.

Dr. Parisi has taught at Penn State since 1988. He serves as coordinator of the communications program in the Division of Humanities. He earned his bachelor's and master's degrees in English from Columbia University, New York, and his doctoral degree in English from Indiana University, Bloomington.

College of Medicine

The Classes of 1992 and 1993 at the College of Medicine at the Hershey Medical Center, have honored several faculty members with awards for distinguished teaching.

The second-year medical students presented a special award to **Arthur F. Krieg**, chief of clinical laboratories and professor of pathology, for bringing computerization to pathology studies and helping to create a computerized clinical skills simulation.

The second-year students named **Dwight Davis**, associate professor of medicine, Lecturer of the Year.

The first-year medical students presented **Ian S. Zagon**, professor of anatomy, with its top award for Teacher of the Year and honored **Loren A. Evey**, postdoctoral fellow in laboratory research, for Excellence in Laboratory Teaching.

Excellence in Teaching awards were presented by second-year students to **Melvin L. Billingsley**, associate professor of pharmacology; **John W. Kreidler**, professor of pathology and microbiology and immunology, and **Richard J. Zaino**, associate professor of pathology.

The first-year students presented Excellence in Teaching awards to **Roger L. Ladda**, professor of pediatrics and chief of the Division of Genetics; **Paul G. Szauter**, assistant professor of biological chemistry; **Thomas C. Vary**, assistant professor of cellular and molecular physiology, and **Carol F. Whitfield**, associate professor of cellular and molecular physiology.

Penn State People

Joseph Pewanick

Joseph Pewanick, driver in Fleet Services, has been a University employee for 29½ years. He started as a roofer in Physical Plant, worked in Housing and then bid into Fleet Services, where he's been driving cars, trucks and buses for 25 years. "I certainly enjoy my job," he says, "or I wouldn't have been here 25 years." Joe, who lives in the town of Hawk Run, three miles north of Philipsburg, says the best part of his job has been working with the public. "I've met a lot of interesting people and I enjoy that more than anything." (Photo by Greg Grieco).

Penn Staters

Juan Fernandez Jimenez, associate professor of Spanish at Penn State Erie The Behrend College, presented a paper on "Apuntes sobre Faustino, obra dramática de Emilio López Medina" at the Spain Towards the 21st Century International Symposium at Ohio State University.

Robert C. Johnston, reader services/automation librarian at Penn College, has been awarded a Fulbright Scholarship for a six-week travel/study program in the Middle East. He will spend six weeks this summer in Egypt and Jordan with a group of 10 other Fulbright Scholars.

Gerald C. Lauchle, professor of acoustics and senior scientist at the Applied Research Laboratory, has received a \$75,000 grant from the Ford Motor Co. for research on the aerodynamics of flow separations.

Edward Linder, Division of Undergraduate Studies coordinator at the Penn State Allentown Campus, has been elected president of the Pennsylvania Association for Specialists in Group Work (PASGW).

E. Willard Miller, professor emeritus of geography and associate dean for resident instruction in the College of Earth and Mineral Sciences, has received the 1990 Honors Award of the Association of American Geographers "for 50 years of scholarship on extractive industries, manufacturing, and their impacts on the environment, and for outstanding service."

Allan D. Pierce, holder of the Leonard Chair in Acoustics, has received a second-year continuation of the NASA Grant for \$91,000 to study sonic boom propagation through the atmosphere. He also received a \$330,000 grant for three years from the Office of Naval Research for a study of wave vector filtering and energy flow in structural acoustics.

J.R. Pratt, assistant professor of aquatic ecology, spoke on "Detecting Changes in Stressed Ecosystems" at the Global

Environment and Human Health Symposium sponsored by the United Nations University and the University of Ulm at the International Institute for Scientific Cooperation's Reimsburg Castle in West Germany.

Jiri Tichy, United Technologies professor of acoustics and chairman of the Graduate Program in Acoustics, has received a \$75,000 grant from the Ford Motor Co. for research on the applications of active noise control techniques to reduce the interior noise in automobiles.

Donald V. Waddington, professor of soil science, has received the Distinguished Service Award of the Pennsylvania Turfgrass Council in recognition of his outstanding leadership and contributions to the turfgrass industry.

Daniel Walden, director of the American studies program, has been named president of the Northeast Modern Language Association, which has 2,200 members in New England, the Middle Atlantic states and Canada.

Ernest R. Weidhaas, professor emeritus of engineering graphics and former assistant dean for Commonwealth Campuses and General Engineering Department head, has been selected as a fellow of the American Society for Engineering Education.

William W. Asbury, vice president for student services, has been named to the Council on Student Affairs Executive Committee of the National Association of State Universities and Land-Grant Colleges (NASULGC). He will serve as secretary of the committee in 1991.

Carol Gay, associate professor of molecular and cell biology, gave a talk titled "The Role of Carbonic Anhydrase in Bone Resorbing Cells" at the International Conference on Carbonic Anhydrase in Spoleto, Italy.

Ken Fisher, associate professor of engineering at Penn State Erie, The Behrend College, presented a paper on

"Integration of FEA and Spreadsheets into MET Program at Penn State- Behrend" at the American Society for Engineering Education annual conference in Toronto.

Howard G. Knuttgen, director of the Center for Sports Medicine, was a member of the faculty of the "Conference on Sports Injuries: Prevention, Diagnosis and Treatment" presented by the University of Puerto Rico School of Medicine.

Sridhar Komarneni, professor of clay mineralogy in the Materials Research Laboratory and Department of Agronomy, presented a paper on "Solution Sol-gel Processing of Superconductors" at the International Conference on Superconductivity in Bangalore, India.

Robert Lima, professor of Spanish and comparative literature and Fellow of the Institute for the Arts and Humanities Studies, presented a paper titled "Swallowed by the Beast: The Mouth of Hell in the European Middle Ages" at the annual international meeting of the Best Fable Society at the University of Puerto Rico in Mayaguez.

G. Gregory Lozier, executive director of planning and analysis and affiliate associate professor of education, and **Michael J. Doors**, senior planning analyst, have received an award from the Society for College and University Planning as authors of the best paper published in *Planning for Higher Education* in 1988-89. The paper, "Elimination of Mandatory Retirement: Anticipating Faculty Response," is based on a 1987 study of 24 AAU institutions.

Archie J. McDonnell, professor of civil engineering and director of the Environmental Resources Research Institute, has been appointed by Gov. Robert P. Casey to the Governor's Select Committee on Nonpoint Source Nutrient Management. The committee will evaluate current programs and practices and recommend how best to reduce the contribution of nutrients to surface and groundwaters.

Sally A. McMurtry, associate professor of history, has received the Vernon Carstensen Award for the best article published in *Agricultural History* in 1989. Her essay, "Who Read the Agricultural Journals? Evidence from Chenango County, N.Y., 1838-1865," appeared in the Fall 1989 issue.

Rustum Roy, director of the Science, Technology and Society Program and Evan Pugh professor of the solid state at the Materials Research Laboratory, has been elected an honorary (foreign) Fellow of the Indian Academy of Sciences in recognition for his work in materials research.

David Roth, associate professor of engineering at Penn State Erie, The Behrend College, presented a paper on "Integrating LOTUS and FEA into a Technology Curriculum" at the American Society for Engineering Education annual conference in Toronto.

Harold H. Schobert, associate professor of fuel science and chairman of the Fuel Sciences Program, has been appointed to a three-year term on the National Research Council's Energy Engineering Board.

James Seroka, professor of political science and head of the division of humanities and social sciences at Penn State Erie, The Behrend College, lectured to political science graduate students at the University of Belgrade and will participate in the Inter-University Post-Graduate seminar in Dubrovnik, as well as was a part of the election analysis team analyzing the Slovenian and Croatian election in Umag.

Thomas T. Warner, associate professor of meteorology, and **Nelson L. Seaman**, assistant professor of meteorology, have been awarded a third place prize in the Physical Sciences and Mathematics Division of IBM's 1989 Supercomputer Competition for their paper "A Real-Time Regional Numerical Weather-Prediction System."

Partings

Marion O. Carr, assistant professor of speech at the Penn State Worthington-Scranton Campus, has retired after more than 20 years service.

A graduate of Northwestern University, she received a master's degree at the University of Iowa and a doctorate at Temple University. She served as director of drama at Augustana College and, prior to joining the Worthington-Scranton faculty in 1969, was assistant professor of speech at Clarion State College.

At the campus commencement ceremonies on May 11, Dr. Carr received the 12th annual Gertrude Hawk Service Award. She was cited for campus service, including her role as founding adviser to the Worthington-Scranton Players, membership on numerous campus committees, and supervision of internships for students working at local television stations.

In the community, she has been president and chairman of the board of the United Nations Association of Greater Scranton and a member of the National Advisory Council for the UNA-USA. In 1989, she received a citation from the UNA for 20 years of distinguished volunteer service to the purposes of the United Nations, and the United Nations Peace Medal from the International Foundation of Human Rights.

She also has served on the board of directors of the American Association of University Women, and was secretary for three years to the Peace Commission of the Speech Communications Association. This year, she was cited as one of Penn State's "Achieving Women" by the Penn State Commission for Women.

In retirement, she plans to publish the research from her Ph.D. thesis and to begin editing her mother's autobiography.

Two School of Communications faculty with 57 years of combined University service will retire this summer.

William L. Dulaney, associate dean and professor of journalism, will retire in August following 29 years of service.

Donald L. Smith, professor of journalism and professor-in-charge of mass communications, will retire at the end of June after 28 years of service.

Dr. Dulaney joined the former School of Journalism's staff in 1961 as an instructor of journalism and mass media specialist with the Center for Continuing Liberal Education. He was named assistant professor of journalism in 1966, associate professor in 1969 and professor in 1974.

Before coming to Penn State, he served as managing editor of Paddock Publications, publisher of 14 suburban weekly newspapers in the Chicago area. He also had worked as a marketing writer for the *Atlanta Journal-Constitution*.

At Penn State, he was responsible for administering the School of Communications' undergraduate programs including internships, scholarships and, until recently, minority affairs. He started the internship program for the former School of Journalism and expanded it following the new School's formation in 1986.

Dr. Dulaney was instrumental in establishing the Native American Press

William L. Dulaney

Association, for which he continues to consult with Native American newspapers. He also supervised the Pennsylvania Society of Newspaper Editors' Minority Job Bank, which is housed in the School.

He received a bachelor's degree in political science from The Citadel in 1952, and a master's degree and doctorate in journalism from Northwestern University in 1958 and 1968, respectively. He and his wife, Marjorie, live in Boalsburg. They have a son, William, who serves in the U.S. Navy, and a daughter, Carol, who lives in Boalsburg.

Professor Smith joined the former School of Journalism in 1962 as an assistant professor of journalism. He was named associate professor in 1970 and professor in 1988. He was professor-in-charge of journalism from 1974-81 and of mass communications from 1988-90.

A native of Illinois, he has worked as copyeditor and reporter for the *Champaign-Urbana Courier* and taught journalism at the University of Illinois. He received his bachelor's and master's degrees in communications from the University of Illinois.

Professor Smith was Northeast Region coordinator for NASA's Journalist-in-Space Project in 1986, and has coordinated several conferences for minority and international journalists at University Park.

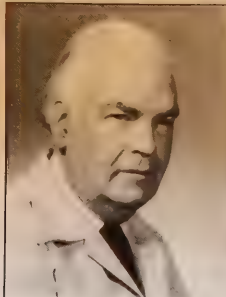

He is the author of *Zachary, Chief Jr.: Defender of Liberty and Law* (Harvard University Press, 1986), a biography of the fighter for freedom of speech in the 1920s; and *The New Freedom to Publish*, a monograph prepared with a grant from the Magazine Publishers Association on Supreme Court decisions on libel and privacy.

Professor Smith and his wife, Mary, live in State College. They have two daughters, Kaia Stulock, of Morgantown, W.Va., and Gretchen Lychurch, of Myrtle Beach, S.C.

The Dulaney-Smith Scholarship Fund has been established to honor the retirees. Although details of distribution of scholarship funds have not yet been finalized, nearly \$7,500 already has been raised.

Patrick Lynch, professor of education, has retired with emeritus status after more than 21 years of service.

Dr. Lynch came to the University from

Patrick Lynch

the University of New Mexico, where he served as associate professor of educational administration and director of the Educational Service Center.

At Penn State, Dr. Lynch, in addition to teaching duties, has been deeply involved with the College of Education's multicultural programs. In 1970, he was instrumental in beginning the Native American Administrator Training Program. Additionally, he has assisted in setting up the Bilingual Principal Training Program, and was one of a group of educators from the United States and Latin America to establish the Interamerican Society for Educational Administration in Brasilia in 1979. He was appointed to a Fulbright Distinguished Lectureship at the University of Brasilia that same year.

He has worked with USAID projects in Ecuador, Paraguay, Honduras, Peru, and Sudan, and served on the University's Middle East Studies Committee and the Council for International Exchange of Scholars. In 1986, Dr. Lynch received the James L. Nicholas Educational Leadership Award from the Advisory Committee for School Administration and Supervision at the University of Scranton. This spring, he was honored at the annual dinner of the American Indian Leadership Program for his nationally recognized work in multicultural education.

Dr. Lynch received a B.A. degree at St. John's University in Collegeville, Minn. His M.A. and Ph.D. degrees were both earned in educational administration at the University of Minnesota. He plans to travel to Jakarta, Indonesia, where he will work on a project contracted through Florida State University.

Joan B. Gibson, manager, social services at Hershey, from April 2, 1980, until April 4.

Earle M. Woodford, maintenance worker, utility at Ogontz, from Aug. 20, 1973, until May 1.

Charles H. Bush Jr., maintenance foreman at Schuylkill Campus, from Feb. 22, 1967, until June 1.

Charlotte E. Bathurst, residence hall worker, Housing and Food Services, from Aug. 28, 1972, until June 1.

Ramond D. Northamer, maintenance worker A, Office of Physical Plant, from Jan. 20, 1970, until June 5.

Donald L. Smith

Alice E. Boucher, nurse specialist at Hershey, from Oct. 1, 1979, until June 16.

Keith E. Rose, associate librarian/head life science library, University Libraries, from Dec. 27, 1973, until June 1.

Luisito L. Tongson, associate professor of physics at Worthington-Scranton Campus, from Nov. 1, 1974, until July 1.

Charles F. Maguire, administrative director MBA programs, Business Administration, from Dec. 1, 1978, until June 19.

Paul R. Hancock, assistant professor of economics at York Campus, from Sept. 1, 1978, until June 30.

Lewis Raymond Moon, research herdsman, Agriculture, from July 1, 1980, until June 30.

Ursula K. Dantrow, respiratory therapy hemodynamic technician at Hershey, from June 19, 1974, until June 16.

Alfred M.T. Hardesty, clerk, biographic processing A, University Libraries, from April 1, 1980, until June 16.

Mary Alice Shea, secretary B, Science, from Sept. 27, 1974, until June 30.

Lois Stennett, secretary C at New Kensington Campus, from May 1, 1980, until June 30.

Mary L. Lehman, clerk accounting A at Penn State Harrisburg, from July 1, 1970, until June 30.

Lucille H. Ripka, clerk A, University Libraries, from Jan. 4, 1971, until June 30.

Wilma R. Reichert, senior clerk continuations claims, University Libraries, from Jan. 2, 1974, until June 30.

Thomas E. Tracy, director, Office of Management, Commonwealth Educational System, from Feb. 1, 1973, until July 1.

Nancy M. Cook, administrative aide in the Eberly College of Science, from May 1, 1968, until May 12.

Harold E. Johnston, residence hall project worker in Housing and Food Services, from Sept. 1, 1950, until May 23.

Martha L. Price, residence hall worker, Housing and Food Services, Feb. 5, 1971, until May 31.

William L. Collins, carpenter A, Office of Physical Plant, from July 31, 1972, until June 30.

Marjorie J. Dulaney, secretary A, Arts and Architecture, from Dec. 1, 1977, until June 30.

Obituaries

Dale J. Sackridge, senior engineering aide at the Applied Research Laboratory, died June 12 at the age of 52.

At the ARL, he was a member of the Acoustic Transduction Systems Group and was instrumental in conducting advanced research and development on underwater sonar systems, in use today by the U.S. Navy.

In 1988 he received the ARL's Outstanding Performance Award for his contributions toward advanced sonar transducer design, construction and calibration.

He was co-author of numerous technical publications and U.S. patents. His interests also extended to advising graduate students at the University with their thesis research.

Mary C. Traxler, resident adviser, Dean of Student Affairs, from Sept. 1, 1960, until her retirement July 1, 1971, died May 23 at the age of 82.

John D. Bracken, mixer, Housing and Food Services, from Feb. 1, 1959, until his retirement Jan. 1, 1974, died May 28 at the age of 78.

James L. Rizzo, maintenance mechanic, Worthington-Scranton Campus, from Oct.

6, 1966, until his retirement Oct. 9, 1985, died May 31. He was 70.

James E. Mackey, residence hall worker, Housing and Food Services, from Dec. 1, 1947, until his retirement March 2, 1974, died June 1 at the age of 77.

Frank T. Hreshko, maintenance worker, utility, Penn State Schuylkill Campus, from Aug. 16, 1965, until his retirement Sept. 1, 1977, died June 10. He was 75.

Theodore S. Polesky, research assistant in Agricultural Economics, from Aug. 1, 1963, until his retirement Jan. 1, 1980, died June 20 at the age of 64.

Faculty/Staff Alerts

Non resident earned income tax
The State College Borough has requested that the University begin to withhold the 1 percent non-resident earned income tax.

Beginning in August 1990, all University employees who have an out-of-state address on file will be affected by this change.

Any questions concerning residency should be directed to the State College Tax Office located at 118 S. Fraser Street.

Staff Vacancies

The following vacancies for positions classified as staff except or staff nonexcept have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in promotion MAY APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-6304.

NETWORK LINE 435-0304. Applications for these staff vacancies will be accepted until July 19. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (FE-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law) sex or status as a disabled or Vietnam era veteran.

***00711. Designer, Electro-mechanical, Applied Research Laboratory, ARL Operations, University Park Campus** Responsible for production of designs for mechanical and electrical assemblies and systems working from sketches, conceptual drawings and notes utilizing knowledge of standard drafting practices. Requires associate degree or equivalent in electro-mechanical drawing with three to four years of effective experience in electro-mechanical drafting. Working knowledge of mechanisms corrosion protection (environmental and galvanic) and manufacturing processes is highly desirable. U.S. citizenship required. STAFF GRADE c

***00712. Application Programmer/Analyst, Computer and Information Systems, Library Computing Services, University Park Campus** Responsible to designated project leader for conducting analyses of data processing and operational problems, determining detailed requirements to solve problems, formulating logical statements of system problems, and preparing computer programs to satisfy desired end results. Requires bachelor's degree or equivalent in basic computer systems and one to two years of effective experience in computer programming and analysis. Experience with DEC VMS is preferred. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. STAFF GRADE c

***00713. Counselor/Student Support Services Coordinator, Undergraduate Education, Academic Support Center for Student/Athletes, University Park Campus** Responsible for the day-to-day Academic Support Center for Student/Athletes, for providing counseling services to student/athletes. Requires master's degree or equivalent in psychology, counseling or a related area plus one to two years of effective experience in academic

counseling and advising. THIS IS A FIXED-TERM POSITION. AVAILABLE SEPTEMBER 15, 1990, TO JUNE 30, 1991. WITH GOOD POSSIBILITY OF REFUNDED STAFF GRADE 7.

***00714. Development Assistant, Development and University Relations, Planned Giving Office, University Park Campus** Responsible to the director of development, senior development officer, or development officer for assistance in the organization and implementation of fundraising programs and related activities in an assigned college. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in public relations, fund raising, or related field. Proficiency in verbal and written communication skills is highly desirable. Willingness to travel is essential. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. STAFF GRADE c

***00715. Assistant Banquet Supervisor, Nittany Lion Inn, University Park Campus** Responsible for banquet sales and service activities and for training and supervision of assigned employees to insure efficient and high quality performance. Duties include hiring, scheduling and supervising employees, maintaining equipment and supplies, payroll and other records. Requires associate degree, or equivalent, plus over three months up to one year of effective experience. STAFF GRADE 4

***00716. Assistant Manager Catering, Housing and Food Services, University Park Campus** Responsible to the catering manager for details that relate to scheduling, planning for, and supervising of catering events in various locations, meet and confer with customers, food production supervisors and coordinators. Requires bachelor's degree or equivalent, preferably in hotel, restaurant and institutional management, or culinary arts, plus one to two years effective experience. HOURS AND DAYS OFF VARY BASED ON SCHEDULED EVENTS. STAFF GRADE 5.

***00717. Programmer/Analyst C, Vice President for Business and Operations, Management and Systems Engineering, University Park Campus** Responsible to a senior staff member for user computer systems support. User support will include duties such as assisting user with system log on applications and adding new users to a system. Requires bachelor's degree, or equivalent, in computer related field and six to nine months of effective experience in computer programming and systems design. Good written and verbal communication skills required. STAFF GRADE 5.

***00718. Administrative Director, MBA Program,**

Business Administration, Graduate Programs, University Park Campus Responsible to the associate dean for research and graduate programs for improving the quality and international reputation of the MBA Program to include planning, supervision of the recruiting, admissions and placement functions, corporate relations, and coordination of fund raising activities with development office. Requires master of business administration, or equivalent, plus two to three years of effective administration experience in student recruitment and placement, supervision, budget control, and use of computers in office operations. STAFF GRADE 7.

***00719. Associate Director of Development, Development and University Relations, Hershey Medical Center** Responsible to the director of development, Hershey Medical Center, for the development and operation of a program(s) for fund raising designed to identify and enhance major gifts to the Medical Center. Requires bachelor's degree, or equivalent, plus four to five years of effective experience in development, particularly in an educational or medical setting. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH GOOD POSSIBILITY OF REFUNDED STAFF GRADE 8.

***00720. Assistant Manager, Radiology Services, University Hospital, Radiology Services, The Milton S. Hershey Medical Center** Responsible to the manager, Radiology Services, for scheduling of personnel and repairs and work progress within those areas of designated responsibility. Requires associate degree, or equivalent, satisfactory completion of formal radiologic technology training in a school approved by the AMA and ARRT registry plus an additional one to two years of effective supervisory experience, with a minimum of two to three years of effective experience as a staff radiologic technologist. STAFF GRADE 7.

***00721. Manager, University Fitness Center, College of Medicine, Department of Associate Provost for Administration University Fitness Center, The Milton S. Hershey Medical Center** Responsible to the director of materials management to the administration of the University Fitness Center to include budgeting, maintenance of physical facilities and direction of Fitness Center personnel. Also responsible for the development and implementation of recreation and athletic program. Requires master's degree in physical education, recreation education etc. with over one up to and including two years of effective experience. STAFF GRADE 7.

***00722. Coordinator, Research and Administrative Services, Business Administration,**

Division of Research, University Park Campus Responsible to the associate dean for research for the administrative functions of the Division of Research for external funding, administering contracts/grants and budgets as well as supervising staff and clerical personnel. Requires bachelor's degree in business administration, or equivalent, and over two up to and including four years of effective administrative experience. Knowledge of computer and computer systems as well as writing skills and research experience highly desirable. STAFF GRADE 7.

***00723. Coordinator, Radiology Information Systems, University Hospital, Radiology Services, The Milton S. Hershey Medical Center** Responsible to the manager of Radiology Services for the efficient operations and implementing of the Radiology Information System, monitoring information system projects, providing training to users, and serving as an advocate for users concerning their information system needs. Requires bachelor's degree in computer science, or equivalent, plus two to four years of effective experience, preferably in radiology operations. STAFF GRADE 7.

***00724. Producer/Director, Program Production, CES, University Division of Media of Learning Resources, University Park Campus** Responsible to the executive producer for public affairs in the production of observational documentaries in WFSX-TV's Rural America documentary production unit. Requires bachelor's degree, or equivalent, in television/film production, broadcasting, journalism, or a related area plus one to two years of effective experience in television and film production. Knowledge of location EFP production techniques, oneinch and BETA editing (with time code) is necessary. Knowledge of observational documentary methods is desired. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH EXCELLENT POSSIBILITY OF REFUNDED STAFF GRADE 6.

***00725. Producer/Director, Instructional Media Division, CES, University Division of Media and Learning Resources, University Park Campus** Responsible to the assistant director for design and production for the design, planning, and coordination of all phases of production for assigned projects. Requires bachelor's degree, or equivalent, in television/film production, communications instructional design, or closely related field, plus one to two years of effective experience in media production. Excellent writing skills and the ability to work closely with faculty and content specialists in a team environment are essential. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH EXCELLENT POSSIBILITY OF REFUNDED STAFF GRADE 6.

Alumni Vacation College is set for University Park

Area residents, Penn State alumni and friends are invited to bring the family and attend the seventh annual Alumni Vacation College, at University Park, July 16-20. Sponsored by the Penn State Alumni Association, the vacation combines education, recreation and social activities.

Participants may stay in the residence halls and check in any time from Friday, July 13, to Sunday, July 15, to enjoy the Central Pennsylvania Festival of the Arts. Those who live within easy commuting distance may attend at a reduced rate by choosing to live at home.

Morning lectures on current issues are followed by afternoon tours of laboratories,

research facilities and historical sites as well as workshops and other activities.

Geoffrey Godbey, professor of leisure studies, will begin the lecture series with a discussion on how our leisure time relates to life satisfaction and other issues of recreation in the 1990s.

Other speakers and their topics include Marie Secor, associate professor of English, "Controversy over Classic Core Curriculum Versus One With More Diversity, Non-Western, Non-Traditional Literature"; Charles Yesalis, professor of health policy and administration and exercise and sports science, "Performance Enhancing Drugs in Athletes"; James Rodgers, head of the

Economics Department; "How the Emerging Democracies Will Affect Our Pocketbooks"; and Christine White, instructor in history, "Ramifications of the Changes in Eastern and Central Europe."

The program offers optional tours of the new Biotechnology Center, the Brazelton Nuclear Reactor, the Paoli Agriculture Museum, backstage of the Pennsylvania Centre Stage production 1776, the Indoor Sports Complex, the Football Hall of Fame and the American Philatelic society.

Participants can attend a hands-on computer workshop, an Observatory Open House at Davey Lab, a Victorian tea at the Centre Furnace Mansion and a square

dance.

Contact Sharon Ricketts at the Conference Center at 814-865-1743 for registration and Mary Jane Stout, Alumni Vacation College Coordinator, at 814-865-6517 for program information.

Carpooler

Need one more person to carpool from Altoona, the Bellwood Intersection of Rt. 220, or Tyrone to the University. Hours are 8 a.m. to 5 p.m. Call 865-6556; leave telephone number and name; will return call.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Thomas named 15th president

The Board of Trustees has named the University's 15th president - Joab L. Thomas, professor of biology and former president of the University of Alabama.

In a special session on July 23, the full Board approved the recommendation of its Trustee Presidential Selection Committee. Dr. Thomas met with Board members during the session.

Dr. Thomas, 57, former president of the University of Alabama (1981-88) and former chancellor of North Carolina State University (1976-81), will assume the presidency on Sept. 1.

President Jordan will retire Aug. 31. He pledged to work with Dr. Thomas to ensure a smooth transition.

Board President J. Lloyd Huck, who chaired the selection committee, said Dr. Thomas was the committee's "unanimous recommendation to the Board."

His administrative experience as president of the University of Alabama and chancellor of North Carolina State University, and his academic and research accomplishments in the field of biology, as well as his successes as a fund-raiser and his commitment to the advancement of women and minorities were cited by Huck as key reasons why the selection committee chose Thomas.

"The Trustee selection committee is impressed with both the academic and personal credentials that Dr. Thomas will bring to the Penn State presidency," Mr. Huck said.

"A member of Phi Beta Kappa, he is highly committed to academic excellence. Dr. Thomas' research interests include vascular plant systematics and cytogenetics, higher education and the role of higher education in economic development.

"We believe that Dr. Thomas has the experience and the ability to build on the fine record President Jordan and his administrative team have compiled. We believe he has the skills and temperament to lead Penn State to even greater levels of achievement.

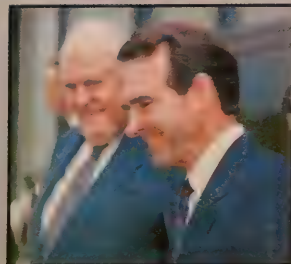

"We feel fortunate to have attracted Dr. Thomas to Penn State. We believe he and his wife, Marly, will bring the University the energy and devotion necessary to enter the next century."

(Continued on page 11)

President and Mrs. Jordan and President-elect and Mrs. Thomas, above, walk across campus to the news conference at which the appointment of Dr. Thomas as Penn State's 15th president was announced.

President Jordan and President-elect Thomas leave the news conference held July 23 in the Keller Conference Center at University Park. (Photos: Greg Grieco)

Facts on the University of Alabama

The following was provided by the University of Alabama's News and Broadcast Services

Location: Tuscaloosa, Ala., population about 75,000 - 60 miles southwest of Birmingham.

History: Founded in 1831 in Tuscaloosa, the University of Alabama is the state's first university, opening just 12 years after Alabama gained statehood. All but four buildings were burned to the ground in a Civil War battle; the University reopened and rebuilt in 1871.

Landmarks: Denny Chimes, built in 1929 and recently refurbished, rings out the hour with 25 handcast bronze bells. The beautiful antebellum President's Mansion and the Gorgas House are located nearby on the main Quadangle, which is the hub of the 850-acre campus.

President: E. Roger Sayers was named 27th president of UA in 1989.

Description: UA is a comprehensive, residential university, housing its academic programs in 17 colleges, divisions and schools, with more than 120 academic departments and more than 270 accredited undergraduate and graduate degree programs.

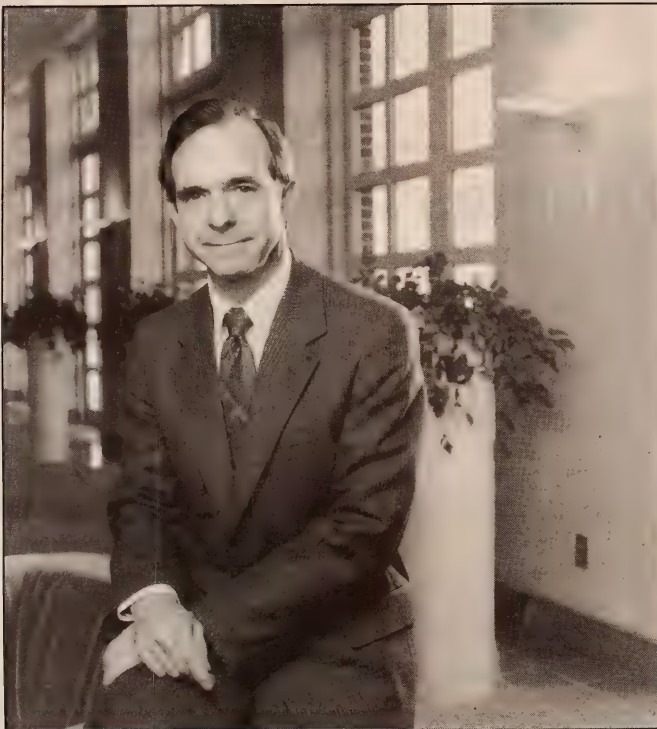

Academic highlights: Among many strong academic programs are an accountancy school ranked 16th nationally in a well-respected business college; the sixth largest school of communication in the nation and the only one in the state; one of the five oldest engineering programs in the country; and other nationally recognized programs in disciplines ranging from fine arts to family medicine. A new university-wide honors program for undergraduates is in its third year.

Faculty: UA faculty excel in teaching, research and service. With a number of endowed chairs and professorships in fields ranging from creative writing to numerical hydrology to real estate, UA attracts internationally known scholars to campus. The amount of external support for faculty research has more than quadrupled in the last five years. UA faculty yearly receive national awards for teaching excellence, research and service in their fields.

Students: UA's 19,469 students hail from every state in the nation and some 67 foreign countries. About 9 percent of UA students are black and African-American. Out-of-state students comprise 31 percent of enrollment. The academic credentials of UA students grow more impressive each year. Admission standards were raised in 1982, and a university-wide core curriculum was instituted in 1983.

Facilities: Two new IBM mainframes and the addition of numerous terminals and mini-computers around campus have dramatically increased computing capability at UA. The state's first Center for Artificial Intelligence Research is now on-line at Alabama, as is a Robotics Laboratory unique to campuses in the Southeast. UA's library is a member of the American Research Libraries.

Building program: A \$100-million building program now nearing completion includes new facilities for the School of Music; the energy, mineral and material sciences programs; the College of Commerce and Business Administration; and the Paul W. Bryant Alumni/Continuing Education Center and Bryant Museum.

Joab L. Thomas

Endowed funds: Endowed funds have increased from \$21.5 million to \$70.5 million - an average annual increase of about \$6.9 million. Endowed scholarship and fellowship funds have increased from about \$1 million to about \$15 million. Endowed research and related funds now total more than \$6 million. In 1981, UA had four chairs; now there are 20. Also in 1981, there was one professorship; now there are 36.

Alumni: With more than 100,000 living alumni worldwide, UA is alma mater to such statesmen as the late Rep. Claude Pepper, Sen. Howell Heflin and the late Supreme Court Justice Hugo Black; director and former CEO of Texaco, John McKinley, and W.W. Clements, CEO of Dr. Pepper; football stars Joe Namath, Ozzie Newsome, Cornelius Bennett and the late Bear Bryant; Mel Allen, voice of the New York Yankees; broadcast journalists Douglas Edwards and John Cochran; authors Gay Talese and Harper Lee; biologist E.O. Wilson; and pro golfer Jerry Pate.

Penn State's presidents

Evan Pugh - 1859-1864
William Henry Allen - 1864-1866
John Fraser - 1866-1868
Thomas Henry Burrowes - 1868-1871
James Calder - 1871-1880
Joseph Shortlidge - 1880-1881
The James Y. McKee Interregnum - 1881-1882
George W. Atherton - 1882-1906
The James A. Beaver Interregnum - 1906-1908
Edwin Erie Sparks - 1908-1920
John Martin Thomas - 1921-1925
Ralph Dorn Hetzel - 1927-1947
The James Milholland Interregnum - 1947-1950
William Stover Eisenhower - 1950-1956
Eric A. Walker - 1956-1970
John W. Oswald - 1970-1983
Bryce Jordan - 1983-1990
Joab Langston Thomas - 1990-

Board of Trustees

College of Business Administration named for Smeals

The Board of Trustees at its meeting July 13 at the Berks Campus approved naming the College of Business Administration to recognize an alumni couple who have been its most generous benefactors.

The new name, the Mary Jean and Frank P. Smeals College of Business Administration, honors the Smeals, of Rumson, N.J., who last November gave \$10 million to the college. It was the largest individual donation in the University's history and the most recent of several major gifts by the Smeals to Penn State.

"We're delighted that Frank and Mary Jean Smeals have received this honor," President Jordan said. "They are longtime supporters of Penn State, and their continuing interest in the University has enabled us to bolster academic programs in a variety of fields.

"It is appropriate that their name should be associated with Penn State in this permanent and highly visible way."

The Smeals are 1942 graduates of Penn State. Frank Smeals, who received a bachelor's degree in economics, is a limited partner of the investment firm of Goldman, Sachs & Co. and chairman of the College of Business Administration's board of visitors, an executive-level advisory group.

Mary Jean Smeals received her bachelor's degree in arts and letters and has strong interests in poetry and literature. The Smeals' \$10 million gift will be used to create five faculty chairs and a college endowment.

"We're extremely pleased that the Trustees have honored the Smeals in this way," Dean J.D. Hammond said. "Their generosity is helping us to establish our reputation as one of the nation's leading business schools. In addition, Frank's counsel and the example of alumni involvement he has set will benefit our students and faculty for generations.

The Trustees' action marks the second time that Penn State has named an academic college to honor a benefactor. In March, the Eberly College of Science was named to recognize the Eberly family of Untown. The Eberly Family Charitable Trust had given the University \$10 million in 1986 to create eight faculty chairs in the college, and establish \$1 million endowments for the Biotechnology Institute and for science education at Penn State Fayette Campus.

The Smeals College of Business Administration enrolled about 7,200 baccalaureate, 470 graduate and 900 associate degree students in 1989-90. It conferred nearly 2,000

Mary Jean Smeals, William Schreyer (center) and Frank P. Smeals

degrees at all levels that year and has more than 42,000 living alumni. In addition, the college's Executive Programs served more than 700 upper-level managers from nearly 40 nations in 1989-90, and more than 35,000 people enrolled in its continuing education programs.

Business Week recently rated the college's MBA program as one of the nation's "up-and-comers," while *U.S. News and World Report* ranked the program eighth among public universities and 20th among all universities.

The \$10 million Smeals gift put The Campaign for Penn State, the University's six-year private fund-raising effort, over its \$300 million goal seven months before its scheduled end on June 30, 1990. Mr. Smeals also served as one of three Campaign vice chairmen.

In previous Campaign gifts, the Smeals contributed \$1 million to endow a chair in literary theory and comparative criticism in the College of the Liberal Arts and a \$675,000 lead gift to Penn State DuBois Campus's successful drive to raise \$2 million in private support for a new academic building. Mr. Smeals also was instrumental in creating the Goldman, Sachs & Co. and Frank P. Smeals University Endowed Fellowship in Business Administration with a \$100,000 gift from Goldman, Sachs.

In 1982, the Smeals endowed the Katey Lehman Creative Writing Awards in memory of Mrs. Smeals's sister, who was a journalist and the wife of Penn State Alumni Association Executive Director Emeritus Ross B. Lehman. The following year, they endowed the Henry W. Popp Graduate Assistantship in Botany and Plant Pathology in honor of Mrs. Smeals's father, a longtime member of the botany faculty.

Mrs. Smeals is a native of State College, while Mr. Smeals was born in rural Jefferson County, the son of a coal miner. It took five years of working part-time and a mortgage on his parents' home before he could achieve his goal of a college education. He began that education at Penn State DuBois Campus in 1939.

Mr. Smeals, who also holds an MBA from Harvard University and a law degree from New York University, spent a 38-year career on Wall Street as an expert in the municipal bond market and was instrumental in counseling New York City through its fiscal crisis in 1975-76.

He received the University's Distinguished Alumnus Award in 1974, and in 1986 was named an Alumni Fellow of the College of the Liberal Arts. Penn State DuBois honored him as an outstanding alumnus in 1987.

Budget approved

The Board of Trustees approved a 1990-91 total operating budget of \$1,239 billion for the University during its meeting July 13 in Reading.

Following two days of meetings hosted by the Penn State Berks Campus, the Board approved funding levels for the new fiscal year and set tuition rates.

Anchoring the total operating budget is the general funds budget of \$775 million. The general funds budget supports the basic teaching, research and public service programs of the University, as well as academic and administrative support activities and maintenance of the physical plant.

An across-the-board 6 percent tuition increase for the 1990-91 academic year was approved by the Board.

Details on the budget and the tuition increase are in the July 12 issue of *Intercom*.

University announces academic promotions

The following promotions in academic rank are effective July 1:

To Professor

Edward O. Bixler, Psychiatry
Harold E. Cheatham, Education
Fan-Bill Cheung, Mechanical Engineering
Gary S. Cross, European History
James M. Davis Jr., English, Penn State Erie, The Behrend College
Marylene Dosse, Music
Mary W. Dunn, Agricultural Economics
Lamar E.V. Ekblad, Obstetrics and Gynecology
Herschel A. Elliott, Agricultural Engineering
James T. Engelder, Geosciences
George M. Enteen, Russian History
Juan Fernandez-Jimenez, Spanish, Penn State Erie, The Behrend College
Anna H. Gajar, Special Education
Roger L. Geiger, Education

Robert R.M. Gifford, Surgery
Harvey R. Gilbert, Communication Disorders
David J. Green, Ceramic Science and Engineering
Lester C. Griel Jr., Veterinary Science
Thomas A. Hale, African, French and Comparative Literature
Edmund J. Holcomb, Floriculture
Paul R. Howell, Metallurgy
Kenneth W. Johnson, Mathematics, Ogontz Campus
Arun Kilara, Food Science
David R. Lachterman, Philosophy
John P. Lucas, Architecture
James A. Lynch, Forest Hydrology
Shirley Marchalons, English and Comparative Literature, Berks Campus
Moylan C. Mills, Integrative Arts, Ogontz Campus
Dennis J. Murphy, Agricultural Engineering

Wesley N. Musser, Agricultural Economics
Robert N. Pangborn, Engineering Mechanics
Asok Ray, Mechanical Engineering
Anthony A. Salvia, Statistics, Penn State Erie, The Behrend College
Pondichery G. Satyawarop, Obstetrics and Gynecology
Robert B. Slaney, Counseling Psychology
Charles H. Strauss, Forest Economics
James R. Sweeney, Medieval History
Kathryn Towns, Community Psychology and Women's Studies, Penn State Harrisburg, The Capital College
Chen-Pei David Tu, Biochemistry and Molecular Biology
Stephen R. Turns, Mechanical Engineering
Fred W. Vondracek, Human Development
Merwin L. Weed, Engineering, McKeesport Campus
Jeffrey S. Wicken, Biochemistry, Penn State Erie, The Behrend College
Please see "Promotions" on page 4.

From the Trustee Docket

Applications

Applications to the University continue to reflect state and national declines in high school graduates. Trustees have learned.

In an informational report, Charles L. Hosler, acting executive vice president and provost, said, "With a 7 percent decline in the number of Pennsylvania high school graduates, it is not surprising that applications were down by 6 percent, compared with last year. The University received 38,892 applications in 1989-90 compared with 40,595 in 1988-89."

Total applications to colleges and universities nationwide for fall 1990 are down 6.5 percent over last year, while March application figures for some Middle Atlantic universities were down as much as 14 percent.

Penn State applications reached an all-time low in 1987-88 with 44,291, approximately 2,000 more than the year before.

"The number of students who have accepted an offer of admission is 9,295 University-wide, down 4 percent from a total of 9,663 last year, Dr. Hosler said.

Paid accepts to University Park are 4 percent ahead of last year, and down 8 percent at the Commonwealth Campuses.

"Some campuses are seeing notable increases in enrollments, although the picture is mixed," he added. The Penn State Berks Campus has a 49 percent increase in baccalaureate paid accepts and a 65 percent increase in associate degree paid accepts.

The Shenango Campus is up 8 percent in baccalaureate paid accepts, while paid accepts are down 4 percent at Penn State Erie. The Behrend College, which is deliberately reducing the size of its entering

class to increase the number of upper level students and introduce selected graduate programs.

"Given the demographics, Penn State applications continue to be encouraging. Most institutions are feeling the effects of these shifts, which will continue through the next four or five years," Dr. Hosler said.

Between 1990 and 1994, Pennsylvania will have a decrease of approximately 20 percent fewer high school graduates, and competition will increase among the state's 212 postsecondary institutions.

Emeritus awards

President Jordan and University Trustee Helen D. Wise have been awarded emeritus rank by the Board of Trustees.

"The members of the Board of Trustees take pleasure in establishing this permanent tribute to the accomplishments of Dr. Jordan and Dr. Wise," Board President J. Lloyd Huch said.

Dr. Jordan was named president emeritus and Dr. Wise was named Trustee emeritus.

During his administration from 1983 to 1990, Dr. Jordan has achieved the

University's goal to become one of the top public research universities in the nation. The six-year Campaign for Penn State for academic support and programs concluded on June 30, surpassing its \$300-million goal for a total of \$352 million.

Research expenditures have nearly doubled from \$115 million in 1983 to more than \$260 million in 1990. State appropriations have grown nearly 61 percent from \$149 million in 1983 to \$243 million in 1990.

Total enrollment has risen from 61,761 in 1983 to 70,031 in 1989, with a major

increase of 75 percent in minority enrollment during the same period.

"Dr. Jordan has done an outstanding job of leading the university and securing its status among the best public research universities in the nation," Mr. Huch said.

Dr. Wise, currently deputy chief of staff for Gov. Robert Casey, has served as a board member for 21 years from 1969 to 1990, during which time she served on numerous special and standing committees. She has been appointed and elected by the Trustees to positions of leadership on the Board including: chair and vice chair of the

Special Advisory Committee on

Affirmative Action; chair and vice chair of the Committee on Educational Policy; member of the Executive Committee; and a member of the Board of Directors of the Renaissance Fund.

Dr. Wise has been supportive, encouraging and devoted to the University," Mr. Huch said. "We consider her a loyal and dependable friend of the University and applaud her successful efforts in helping Penn State to attain the success it enjoys as a major influence in the academic world."

To Associate Librarian

Patricia O. Rice, Bibliographic Resources and Services

Board of Trustees approves Beaver Stadium expansion

The Board of Trustees has approved final plans and authorized the University to obtain bids and award contracts for the expansion project at Beaver Stadium.

Site preparation and utility improvements began in June for the addition of 10,300 seats to the stadium. The total project cost is estimated at \$12.1 million.

Jim Tarran, director of athletics, said the expansion includes an addition of an upper deck at the north end of the stadium, opposite the scoreboard. The second tier would overhang the existing north stands.

The steel and concrete structure will feature a spectator level under the deck to include such services as concession areas, restrooms and first-aid facilities. A ground-level retaining wall will reduce the site's existing slope and provide for an entry point on the north side of the stadium.

The additional seats would be available for the 1991 football season. This would be the sixth expansion of the stadium, originally a horseshoe configuration seating 46,284, in the last 30 years.

With the addition, Beaver Stadium's revised capacity of approximately 94,000, would be exceeded by only one other campus facility in the nation. More than 10 million fans have watched the Lions play since the stadium was moved from the west to the east side of the campus in 1960. The demand for tickets is illustrated by 71 consecutive home sellouts and annual season renewal rates exceeding 98 percent.

The Nittany Lions have been one of the nation's top four teams in home attendance.

Artist's illustration of expanded seating for Beaver Stadium

Penn State's average crowd for six games at Beaver Stadium last fall was 83,645 and included three of the top five crowds in Lions history. They were: Notre Dame, 86,025, second largest; Alabama 85,973,

third largest, and Virginia 85,956, fourth largest.

In other action, Trustees:

- Approved the lease of up to five acres of land adjacent to Centre Community Hospital property for the development of a medical office complex.

"Penn State is committed to ensuring the continued delivery of quality health care to residents of the Centre Region and beyond, many thousands of whom are employees of the University," Steve A. Garban, senior vice president for finance and operations and treasurer, said.

"Integral to this commitment is the need to maintain a financially strong hospital, supported by independent medical professionals. Clinical office space in close proximity to the hospital will meet common needs and goals of the University, the hospital and the local independent physicians."

The creation of a partnership to develop medical office space next to the hospital was recommended by the Task Force on the Centre Region/Penn State Health Care Delivery System, which received technical support from Marshall Erdmann and Associates, a nationally recognized health

care facility developer previously retained by the local physician group.

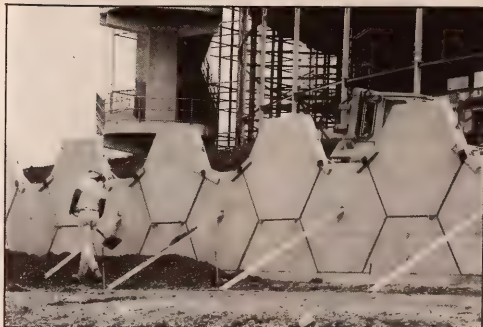

The final terms of the land lease, which will run for a period of 60 years, are being negotiated. The Board of Trustees also has granted an option to lease an additional three acres of University land next to the initial parcel to provide for possible expansion of the facility.

According to preliminary plans, the building will be located to the north of Hospital Drive.

- Authorized the awarding of contracts for construction of a classroom/office building at University Park.

The five-story, 95,000-square-foot building will house general classrooms and lecture halls to accommodate 1,600 students. Office space for the Statistics Department and the dean of the Eberly College of Science also will be included in the facility. The project budget is \$11.2 million.

The building, being designed by IKM Inc. of Pittsburgh, will be located on the northeast corner of the intersection of Pollock and Shortridge roads. The exterior will be brick to complement the existing buildings in the surrounding areas.

Site preparation is under way at the north end of Beaver Stadium. (Photo: Greg Grieco)

The officers of Healthpass Inc. have been unanimously re-elected by the board of directors.

Continuing in their present positions are chairman, John A. Waldhausen, M.D.; vice chairman, G. Victor Rohrer, M.D.; secretary, Clarence A. Brockman; and treasurer, Salvatore Fulginiti. Separately, Gary J. Dillon, chief operating officer of Healthpass Preferred Provider Arrangement (PPA), was reconfirmed as president.

Healthpass Inc., a subsidiary of the Corporation for Penn State, has established

Healthpass Preferred Provider Arrangement, a managed care program now providing healthcare benefits to University employees. The PPA recently has been made available to employees in Central Pennsylvania and currently serves more than 22,000 members.

The Healthpass Inc. officers and board provide administrative services to the Preferred Provider Arrangement as well as to other healthcare ventures under development.

In addition, the Centre Region Physician

Council re-elected John J. Solic, M.D.; George M. McCormick, M.D.; and J. Alfred Jones, M.D., to the Healthpass PPA Operating Council for the Centre Region.

Also on the Centre Region Operating Council are W. Steven Barnes, M.D.; Richard H. Dixon, M.D.; and Lance H. Rose, chief executive officer, Centre Community Hospital. The Operating Council provides administrative and professional direction to Healthpass PPA in servicing existing employers and marketing to additional employers.

Board re-elects the officers of Healthpass Inc.

Focus on the arts

'Sleuth'

British actor Michael Allinson is recreating the role of Andrew Wyke for Pennsylvania Centre Stage's production of the mystery "Sleuth."

Mr. Allinson has starred in productions of "Sleuth" in major theaters in London, on Broadway and during national tours. He described his character as "ingenious, devilish and funny." Wyke tries to control his wife's young lover with a series of deadly games. "Wyke is not going to have his boat rocked by this upstart Milo Tindle," Mr. Allinson explained. His opponent Tindle is played by Terry Sepiro.

In 1971, Mr. Allinson was invited to take over as the mystery writer Wyke in the record-breaking London production. From there, he went on to play opposite Ingrid Bergman in "The Constant Wife," directed by John Gielgud.

Tickets for Sleuth are available now from the Eisenhower Auditorium Ticket Center. The show runs through Aug. 4, with no performances on Sunday and Monday. Evening curtain is 8 p.m.; matinees are at 2 p.m. Prices are \$14 for adults, \$11 for

students and children. Call 863-0255 for information.

The arts on Channel 3

Chiz Rider, a 16-year-old gifted young trumpeter from State College, is featured in a new 30-minute WFSX-TV music special airing at 8:30 p.m. Thursday, Aug. 2, with a repeat broadcast at 7:30 p.m. Saturday, Aug. 18.

Since the age of 3, he has been performing with his family's Brass Plus Ministries and recently was invited to play for the Easter Sunday Service at the Crystal Cathedral in Garden Grove, Calif.

Legendary Broadway comedienne Carol Channing, who lit up the Great White Way with memorable performances in "Gentlemen Prefer Blondes" (1949) and "Hello, Dolly!" (1964), brings her unique brand of comedy and music to Symphony Hall on *Evening at Pops* airing at 9 p.m. Friday, Aug. 3.

With the help of John Williams and the Boston Pops Orchestra, Ms. Channing romps through a comic song-and-patter routine that includes her hits "Diamonds are a Girl's Best Friend" and "Hello, Dolly!"

Cynthia Spencer's color photographs are on display in Pattee Library's Lending Services Gallery.

Piano concert

The Department of Spanish, Italian and Portuguese, in conjunction with the School of Music and Phi Sigma Iota, the foreign language honor society, will present a concert by the Italian pianist Martino Mureddu at 8 p.m. Sunday, July 29, in the School of Music Recital Hall at University Park.

The concert is free and open to the public. Mr. Mureddu will perform "Carnaval, op. 9" by Robert Schumann, "Miserere" (from Giuseppe Verdi's "Il Trovatore") transcribed by Franz Liszt and "Ballade II" and Concert Paraphrase of Rigoletto by Franz Liszt.

Mr. Mureddu holds two diplomas in piano performance, the first from the Conservatorio di Sassari (Sardinia, Italy), and the second, awarded with high honors, from the Accademia Internazionale Superiore Lorenzo Perosi.

Martino Mureddu

Mr. Paden tries to create what he calls a "wilderness feeling," which predominates in these paintings.

Pattee exhibits

West Lobby

A selection of works from the Arts Library's Permanent Collection is on display in the West Lobby through Sept. 7.

The show features contemporary prints illustrating the lithograph, monograph and woodcut printing processes. The Permanent Collection contains prints from the 1930s to 1990. In recent years, prints have been chosen to represent new or unusual techniques.

Lending Services Gallery

Cynthia Spencer currently is showing her color photographs in the Lending Services Gallery through Aug. 31.

The photos document her daily commute from Hollidaysburg to State College, where she is employed by HRB Systems.

East Corridor Gallery

David C. Paden's exhibit "Quietudes" is on display in the East Corridor Gallery through Aug. 17.

The group of 17 pastel paintings on paper depicts images of soft-edged landscapes of imaginary places. Through the use of color, mood and simplistic forms,

Mixed media exhibit

Artworks by Susan Chandler of Clearfield and Kathleen Mendus Dlugos of Greensburg will be featured in an exhibition at Zoller Gallery at University Park Aug. 5 to 12.

The works on exhibit are the culmination of a two-year master of fine arts degree program.

Ms. Chandler says that her influences come from a variety of sources such as quilt designs, religious icons and ancient ceremonial objects. The works emphasize the usage of mixed media including paint, beeswax, earth, sticks and lace.

Ms. Dlugos received her bachelor of arts and bachelor of fine arts degrees from Seton Hill College. Her work has changed in many ways since her undergraduate studies, but she has maintained her interest in painted light.

The public is invited to attend the closing reception from 3 to 5 p.m. Aug. 12. Zoller Gallery, located in the Visual Arts Building, is open 10 a.m. to 4 p.m. Monday to Friday, 11 a.m. to 4:30 p.m. Saturday and noon to 4 p.m. Sunday.

University accepts invitation to join the CIC

The University has been invited to join the Committee on Institutional Cooperation—the academic arm of the Big Ten.

The invitation was made in a letter to President Jordan from CIC Chair Kenneth R. R. Gros Louis, vice president, Indiana University, and chancellor, Bloomington Campus.

Founded in 1958, the CIC is the academic consortium of 12 major research universities (Big Ten members and the University of Chicago). It has as its principal function the promotion and facilitation of communication and cooperation among members at all levels and in all areas with the exception of

intercollegiate athletics.

In accepting the invitation to join the CIC, President Jordan said the University looks forward to participation in all phases of the consortium.

"A number of individuals representing particular areas of the University already have been invited to be a part of discussions relating to their activities," he said. "We appreciate the welcoming nature of these overtures on the part of groups within the CIC."

CIC members, who are appointed by the presidents of their institutions, act as the consortium's governing board.

In keeping with this long-standing

practice and tradition, President Jordan appointed Charles L. Hosler, acting executive vice president and provost, as Penn State's member to the CIC.

Dr. Gros Louis said that the consortium would be able to begin to integrate Penn State into some CIC programs immediately and would hope to have the University participating fully in all CIC programs within the next two years.

"We believe the CIC membership offers many advantages to The Pennsylvania State University and that your addition will make the CIC a stronger organization as we move forward into the 1990s" he wrote.

Leave of Absence

College of Education

Murry R. Nelson, professor of education, to lecture in American studies for the Norwegian Council for Upper Secondary Education, Oslo, Norway.

Students attending Governor's School

Sixty-four talented Pennsylvania high
school students are participating in the
1990 Pennsylvania Governor's School for
the Agricultural Sciences which opened July
1 and ends Aug. 4.

As part of their studies, the students
conduct an independent research project in
a subject of their choosing. Faculty experts
serve as mentors to the students.
In addition to their independent study

projects, participants take core classes, such
as farm animal welfare, genetics and
economic issues in agriculture. They also
choose from elective courses. While at
Penn State, students live in the residence
halls.

The Governor's School is sponsored by
the Pennsylvania Department of Education,
the state's intermediate units and the
College of Agriculture.

Trustee Docket cont.

HRIM building is named

The new building planned for the School of Hotel, Restaurant and Institutional Management has been named for A. Laura Mater and her late husband, Marlin C. "Matty" Mater under action taken by Trustees. Officials anticipate breaking ground for the new structure in the spring of 1991.

"I am delighted that Laura and Matty have been honored in this way," President Jordan said. "Both have played an integral part in the growth of this school from the very beginning, and Mrs. Mater has continued this friendship and support for almost 20 years."

Laura Mater, who now lives in Fort Lauderdale, Fla., recently gave \$500,000 to the school's building fund. In 1988, she gave \$1 million to the school, which is part of the College of Health and Human Development, in memory of her husband. She also has endowed a fund to support research and other scholarly activities in hospitality management.

The proposed 11,000-square-foot building will be adjacent to Keller Building. It will house a dining room, production and research kitchens, classrooms, a multimedia resource center and administrative and faculty offices.

Construction costs are estimated at \$5.4 million. The University has allocated \$1.5 million for the project, and private support

will provide the remaining \$3.9 million. The college also plans to raise \$1.5 million for equipment.

The Maters were longtime State College residents. Matty Mater, who died in 1971, was manager and part owner of the Corner Room restaurant and State College Hotel for nearly 50 years. He was instrumental in establishing Penn State's curriculum in hospitality management — among the nation's first — in 1937.

Laura Mater, an Altoona native, is a 1923 graduate of Indiana University of Pennsylvania and a former elementary school teacher. She was made an honorary alumna of Penn State in 1989.

In 1925, three years after graduating from Penn State, Mr. Mater and two partners opened the Corner Room restaurant in the State College Hotel, opposite the main campus gate. He was manager and part owner of the restaurant and hotel until his retirement in 1971. In those 46 years, he employed hundreds of Penn State students in all phases of food service and hotel management.

Mr. Mater also owned and managed the Allentown Tea Room in State College in the 1930s and 1940s. He later served as president of the Pennsylvania Restaurant Association and Pennsylvania Hotel Association. In 1960, he was the first to be named "Executive of the Year" by the Penn State Hotel and Restaurant Society.

Education programs

A new associate degree major in nursing, along with eight other changes in undergraduate majors and options, has been reviewed by the Board of Trustees.

The associate degree major in nursing, offered in the College of Health and Human Development, prepares students for employment primarily in hospitals and long-term care facilities.

The College of the Liberal Arts will now offer a minor in Hebrew, with coursework focusing on the modern language in the context of contemporary Jewish culture and society.

A minor in health studies has been added in the College of Health and Human Development. In consultation with an

adviser, students will plan a program with courses drawn from several disciplines.

The College of Agriculture will now offer a minor in agricultural business management. The College also has added an option in international agricultural business management in the majors of agricultural economics and rural sociology.

The College of Health and Human Development has implemented a new institutional management option for the major in hotel, restaurant and institutional management.

The final changes involve the dropping of three options in the geosciences major: biogeology, general and geophysics. The geosciences major is offered in the College of Earth and Mineral Sciences.

New policies are being developed

The University is developing policies governing intellectual property, technology transfer and entrepreneurial activities of Penn State employees.

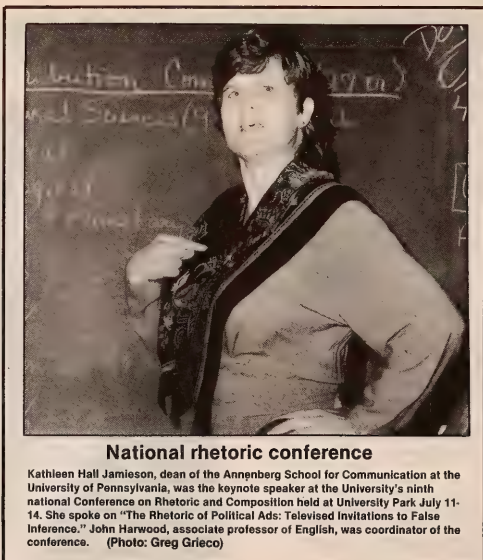

"Policies governing these matters will ease the process whereby creative and scholarly works may be put to public use and/or commercial application while still protecting the University's interests," K. Jack Yost, associate vice president for research and technology transfer, said.

"The policies will be designed to ensure that the outside activities of University personnel are pursued in a manner consistent with their primary obligations of

teaching, research and service to the public."

According to Dr. Yost, technology transfer and entrepreneurial activity topics to be addressed include utilization of University resources by faculty with interests in outside enterprises; collaborative research between the University and industry, and commercialization of University technology.

Intellectual property topics to be addressed include the role of the University's Intellectual Property Office in patent and copyright matters; faculty rights to inventions developed for the University, and faculty consulting activities.

National rhetoric conference

Kathleen Hall Jamieson, dean of the Annenberg School for Communication at the University of Pennsylvania, was the keynote speaker at the University's ninth national conference on rhetoric and composition held at University Park July 11-14. She spoke on "The Rhetoric of Political Ads: Televised Invitations to False Inference." John Harwood, associate professor of English, was coordinator of the conference. (Photo: Greg Grieco)

In Eberly College of Science

Dr. Dixon gets service award

Joseph Dixon, professor emeritus of chemistry and former head of the Department of Chemistry, has received the Eberly College of Science Alumni Society Distinguished Service Award for "his many years of dynamic leadership as head of the Department of Chemistry, for his inspiring teaching, and for his dedicated University service."

Dr. Dixon, who served as assistant head of the Department of Chemistry for five years, was department head from 1971 until his retirement in 1984.

A member of the American Chemical

Society (ACS) since 1942, Dr. Dixon recently was elected 1990 chairman of the ACS board of directors. The ACS is the largest scientific professional organization in the country. He has served on numerous ACS national committees and has served in several capacities including secretary, vice chairman, chairman, and counselor-of the ACS Central Pennsylvania Section.

Listed in "American Men and Women of Science" and "Who's Who in America," he is a member of the American Association for the Advancement of Science, the American Association of University Professors, the Pennsylvania Association of College Chemistry Teachers, Phi Eta Sigma, Phi Lambda Upsilon, and the scientific honorary society Sigma Xi.

Dr. Dixon earned his bachelor's, master's, and doctoral degrees at Penn State and from 1947 to 1951 was a chemistry instructor at the University. After a brief interruption from 1951 to 1955, during which time he was a chemist at the California Research Corp. and an associate professor of chemistry at Lafayette College, he returned to Penn State.

Partings

Harvey M. Jensen, associate professor, Applied Research Lab, from May 1, 1955, until May 1.

Richard M. Kyle, locksmith-hardware maintenance, Office of the Physical Plant, from Nov. 22, 1965, until June 30.

Joseph Dixon

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling.

The brief statements for each vacancy are illustrative. They are not complete position descriptions. This announcement is made so that all University employees who are interested in promotion may APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-6304 (NIGHTLINE 433-0004). Applications for these staff vacancies will be accepted until Aug. 2. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment Practices (FES) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

***00750, Police Service Officer, University Safety, University Park Campus** - Enforce national, state and local laws, and appropriate University regulations through investigation, apprehension and prosecution of violators. Individuals must pass physical exam by doctor, physical fitness test administered by department and psychological test. Requires associate degree, or equivalent, and one to two years of effective experience in law enforcement. Similar combinations of education and experience may satisfy the above requirements. Actual pursuit of a baccalaureate degree in social sciences is desirable. **STAFF GRADE 5.**

***00751, Systems Analyst, Computer and Information Systems, Office of Telecommunications, University Park Campus** - Responsible to the senior staff for providing support to the Office of Telecommunications for the design, development and implementation of innovative data processing systems. Assist in the interaction with staff to define problem areas and develop solutions that achieve the desired result. Requires bachelor's degree, or equivalent, in a computer-related field, plus two to four years of effective experience in computer programming and systems design to include database management systems. **STAFF GRADE 7.**

***00752, Senior Auditor - Computer Systems, Corporate Controller, University Park Campus** - Responsible to the audit manager-computer systems for the analysis of systems and the development of computer programs to audit and evaluate the integrity of processing and reliability of controls in a wide variety of University systems. Requires bachelor's degree, or equivalent, in accounting, computer science or related management field, plus two to four years of effective experience in internal auditing or in financial or operational facets of administration. Experience with security software, operating systems and/or at least one major programming language desired. Incumbent must be able to express himself/w herself orally and in writing. **STAFF GRADE 7.**

***00753, Program Director, Vice President/Vice Provost, Partnership Program, University Park Campus** - Responsible to the partnership director for directing and overseeing the operation of assigned partnership program, for assisting in planning, educational support programs and for coordinating various programs with school district personnel, community organizations and University staff. Requires master's degree, or equivalent, and two to two years of effective experience in developing and supervising the implementation of educational programs. A demonstrated ability to work with low-income and under-achieving students and strong communication skills also are required. Excellent Spanish oral and written communication skills preferred. **POSITION LOCATED IN READING, PA. STAFF GRADE 7.**

***00754, Head Women's Tennis Coach (Probable), Interscholastic Athletics, University Park Campus** - Responsible for organization and administration of

Women's Tennis Program. Recruit excellent student athletes. Must possess coaching expertise and sound management skills and have a thorough knowledge of NCAA rules. Must have demonstrated skill in administration to direct a Division I program. Requires bachelor's degree, or equivalent, plus one to two years coaching experience. Head coach experience with coaching college-aged athletes is preferred. This is a 12-MONTH APPOINTMENT. **STAFF GRADE 6.**

***00755, Senior Research Aide, Agriculture, Horticulture, University Park Campus** - Responsible for providing support for fruit crops extension education and research program to include collection and analyzing data, assisting with data presentation and supervision of assigned employees. Act as resource person for extension specialists. Requires bachelor's degree, or equivalent, in horticulture or related field, plus one to two years of effective experience. Must have passed test for Category 18 Public Pesticide License. **STAFF GRADE 5.**

***00756, Supervisor, Library Services, Applied Research Laboratory, ARL Administration, University Park Campus** - Responsible to the assistant director, planning, operations and director of heart transplantation services and director of the management of the library, preparation and monitoring of budgets and supervision. Requires bachelor's degree, or equivalent, in library science or related field, plus two to four years of effective experience in academic, research or technical libraries and U.S. citizenship. **STAFF GRADE 7.**

***00757, Senior Drafter, Electro-Mechanical, Applied Research Laboratory, ARL Operations, University Park Campus** - Responsible to the supervisor, design and drafting, for the accurate performance of a variety of drafting operations on all types of drawings for electronic, electro-mechanical, mechanical, hydraulic and acoustic equipment and devices, and for checking the drawings of drafter, electro-mechanical. Requires associate degree, or equivalent, in electro-mechanical drafting, with one to two years of effective experience and U.S. citizenship. **STAFF GRADE 4.**

***00758, Transplantation Coordinator, College of Medicine, Department of Surgery, The Milton S. Hensley Medical Center** - Responsible to the director of heart transplantation services and assistant nursing director, medical/surgical, for providing assistance to the physician in the evaluation, care and education of transplant patients and their families. Requires a bachelor's degree, or equivalent, in nursing (RN license required) or certification as a physician's assistant, plus three to four years of effective experience in the delivery of patient care. Master's degree in nursing or other related field preferred. **STAFF GRADE 7.**

***00759, Research Data Writer, College of Medicine, Department of Psychiatry, The Milton S. Hensley Medical Center** - Responsible to the chairperson, Department of Psychiatry, and to the chief of research for the preparation and writing and/or assistance in writing of various reports, articles, manuscripts, etc., related to the departmental research program. Requires bachelor's degree in composition or journalism, plus two years of effective experience in the writing and preparation of reports. **STAFF GRADE 4.**

***00760, Medical Social Worker II, College of Medicine, Department of Social Services, The Milton S. Hensley Medical Center** - Responsible to the social services coordinator for providing inpatient and outpatient social services and providing practical help and emotional support to patients and their families. Requires master of social work degree from an accredited college or university, and/or equivalent, plus one to two years of effective experience. **STAFF GRADE 6.**

***00761, Senior Medical Photographer, College of Medicine, Department of Educational Resources,**

The Milton S. Hensley Medical Center - Responsible to the director of educational resources for the proper and efficient medical photographic services of the department. Requires a high school graduate with a formal education in school of photography, with up to two years additional college level courses in anatomy, histology and cytology, plus at least four to seven years medical photographic experience. **STAFF GRADE 7.**

***00762, Clinical Nurse Specialist/Coordinator, AIDS Research Study, College of Medicine, Medicine/Hematology, The Milton S. Hensley Medical Center** - Responsible to the principal investigator for the coordination of a multicenter NIH-sponsored drug study involving patients with immunodeficiency virus (HIV) infections. Requires master's degree in nursing, plus one to two years of effective experience in area of expertise and current licensure by Pennsylvania State Board of Nursing. **STAFF GRADE 7.**

***00763, Administrative Head Nurse, University Hospital, Nursing/Pediatrics, The Milton S. Hensley Medical Center** - Responsible to the nursing manager-assigned nursing unit, for assistance in handling the day-to-day administration of the assigned nursing unit; assume responsibility in the absence of the manager of the behavior of nursing in nursing from an accredited school of nursing, plus one to two years of effective experience and current license to practice as a registered nurse by the Pennsylvania State Board of Nursing. **STAFF GRADE 6.**

***00764, Vocational Services Specialist, University Hospital Rehabilitation Center, Elizabethtown Hospital** - Responsible to the manager, vocational service, to provide evaluation, counseling and placement services for assigned clients at Elizabethtown Hospital and Rehabilitation Center and the Central Pennsylvania Hemophilia Program at University Hospital. Requires bachelor's degree, or equivalent, in the field of psychology, sociology, health science, rehabilitation counseling or related field, plus one to two years of effective experience. **STAFF GRADE 5.**

***00765, Supervisor, Athletic Recreation Operations, Administration, Delaware County Campus** - Responsible to the director, student recreation services, and the director of academic affairs for scheduling facilities and personnel for special events, athletic, recreational and instructional programs. Requires associate degree, or equivalent, in physical education, recreation or related field, plus two to four years of effective experience in athletics and student recreation, or a bachelor's degree and less experience. Red Cross certification in CPR and first-aid instruction required. **THIS IS A FIXED-TERM POSITION FUNDED FOR TWO YEARS-10 MONTHS EACH YEAR. STAFF GRADE 5.**

***00766, Director of Business Services, CES, Ogontz Campus** - Responsible to the campus executive officer for all University business matters at the Ogontz Campus to include the maintenance and operation of buildings and grounds, human resources, purchasing, physical plant operation or auxiliary enterprises, security, postal operations and telecommunications. Requires bachelor's degree, or equivalent, with four to six years of effective experience in the areas of physical plant management, grounds maintenance, purchasing, personnel and office management, budget planning and control, security, etc. **STAFF GRADE 9.**

***00767, Admissions Assistant, Student Affairs, Wilkes-Barre Campus** - Participate in admissions and recruitment activities including high school visits, on-campus interviews, college fairs, special events, the production of the admissions newsletter and the compilation of statistics on admissions. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in a related field. **STAFF GRADE 5.**

***00768, Assistant General Manager, University Division of Media Learning Resources and Management, WPX-TV, CES, University Division of Media Learning Resources, University Park Campus** - Responsible to the general manager for the administration, day-to-day operations and planning of the University's public/educational television station, WPX-TV, the PENNARAMA Channel and Pennsylvania's Network. Requires bachelor's degree, or equivalent, in communications and/or adult continuing education, plus seven to 10 years of effective experience in educational communications and public educational broadcasting, with at least three years of experience in management positions. Strong managerial and excellent communication skills are essential. An advanced degree is preferred. **STAFF GRADE 10.**

***00769, Counselor, Student Services, Career Development and Placement Services, University Park Campus** - Responsible for providing career development and placement services. Provide professional assistance and/or consultation to students who request help in planning or implementing their career direction. Requires master's degree, or equivalent, in clinical or counseling psychology, counselor education, student personnel administration or related area, plus one to two years of effective experience. Sensitivity to Hispanic students and related issues along with excellent Spanish speaking and writing skills required. **STAFF GRADE 7.**

***00770, Assistant Manager - Nittany Apartments/Community Center, Housing and Food Services, University Park Campus** - Responsible to the resident manager of graduate housing for the operation and maintenance of Nittany Apartments and Nittany Community Center, for the supervision of technical-service employees and seasonal part-time employees, and for maintaining good relationships with tenants. Requires bachelor's degree, or equivalent, plus one to two years of effective experience. **STAFF GRADE 6.**

***00780, Operations Coordinator, C&IS, Office of Telecommunications, University Park Campus** - Responsible to the operations manager of transmission and operations for overseeing installation, operation and maintenance of the transport system, switches and terminal equipment. Requires associate degree, or equivalent, plus two to four years of effective experience in telecommunications. Must have thorough knowledge of installation and maintenance of telecommunications transmission systems. Experience with telephone company operations, central office switching, PBX systems, and interfacing and intrabuilding transmission systems. Additional experience preferred in standard electrical conduit, coaxial cable, fiber optic cable and voice processing systems. A strong background in video technology is desired. **STAFF GRADE 6.**

***00781, Art Specialist I, CES, University Division of Media Learning Resources, University Park Campus** - Responsible to the supervisor, graphic services, to conceive, design and execute charts, graphs, maps, lettering, cartoons, illustrations, etc., for various University departments, in art, plus one year effective experience in graphic design, TV graphics, illustration or animation. Experience in computer graphics is desirable. A portfolio is required at the interview. **STAFF GRADE 5.**

***00782, Research Aide, Agriculture, Poultry Science, University Park Campus** - Set up and perform poultry experiments and perform post-mortem examinations of poultry body fluids, tissues and test samples. Perform surgical procedures on experimental animals. Collect body tissues and body fluids. Prepare the samples for analysis. Demonstrate laboratory procedures to train graduate and undergraduate students. Requires bachelor's degree, or equivalent, in chemistry, microbiology or related field, plus three to nine months of effective laboratory experience. **STAFF GRADE 4.**

(Please see "Vacancies" on page 10.)

News in Brief

Women at Penn State program

Mary Dupuis, professor of education, director of teacher education, associate dean for undergraduate programs in the College of Education and chair of the Commission for Women, will speak on the topic of networking at a meeting of Professional Women at Penn State.

The brown-bag lunch meeting will begin at 11:45 a.m. Tuesday, July 31, in Room 225 HUB, University Park, with an opportunity for informal networking. Dr. Dupuis will speak at 12:10 p.m.

Professional Women at Penn State is a grass-roots group coordinated by University women to enhance the career progress of women within the Penn State system. The meeting is open to all interested Penn State.

Conference on Korean War

On Friday, July 27, and Saturday, July 28, an international conference on "The Korean War and Its Legacy: Prospects for Peace in East Asia in the 1990s" will be held in Room 101 Kern Graduate Commons, University Park.

Scholars from the Soviet Union, China, Taiwan, Japan, South Korea and the United States will re-examine the

origins of the Korean War in light of recently declassified information and consider the prospects for an enduring peace in the entire East Asian region, in view of recent political and economic developments.

To register, call Parris H. Chang, director, Center for East Asian Studies, at 865-1698, or Martin L. Lasater at 863-0970.

Adult Literacy Action workshop

Adult Literacy Action at the Penn State Beaver Campus will host a two-day workshop for literacy volunteers from 9 a.m. to 4 p.m. Aug. 1 and 2 in Room 10, General Classroom Building.

The workshop will train volunteers to help adult non-readers acquire basic reading and writing skills. Previous teaching experience is not required.

For information, call Adult Literacy Action at (412) 773-3850.

Adult Student Fair

An Adult Student Fair, sponsored by Penn State Continuing Education and the Returning Adult Student Center, will be held from 6 to 8 p.m. Wednesday, Aug. 1, at the Keller

Conference Center, University Park.

The fair is designed to provide educational and administrative information specific to adult students. Anyone enrolled as a full-time student in a degree program or considering enrolling in a college course will find the fair helpful. Representatives from several campus organizations will be available to answer questions, and academic counselors will be on hand to help with course selection.

Refreshments will be served, and children are welcome.

Call the Returning Adult Student Center at 863-3887 for more information.

New programs available

Faculty and staff members are reminded that the Office of Education Abroad Programs has a number of new programs for students wishing to study abroad.

University students now have the opportunity through a number of new consortia with the Council on International Educational Exchange to study in Budapest, Hungary and Warsaw, Poland.

There also are new program opportunities in Alicante, Spain; Beijing, China; Monteverde, Costa Rica; Paris, France; Rennes, France; Santiago, Dominican Republic; Sao Paulo, Brazil; Seville, Spain, and Tokyo, Japan.

Applications are due Nov. 1 for Fall 1991 and Academic Year 1991-92 programs and for the new consortial programs. For more information, students should visit the Office of Education Abroad Programs at 222 Boucke Building, University Park, or call (814) 865-7681.

International Students' Orientation

All new international students are invited to attend a special orientation program to help them begin their academic careers at the University. The program will be held from Monday, Aug. 13, through Friday, Aug. 17, Call 865-6348 for details.

All departments and colleges are asked to encourage their new international students to attend the orientation program, which is conducted by the Office of International Students.

Trudy Cole-Zielanski, shown with her winning poster, is flanked by Robert Ott, professor of art education and a judge of the contest, and Howard Palmer, senior associate dean, Graduate School. (Photo: Richard Ackley)

Winning poster will promote graduate research exhibition

A poster by graduate student **Trudy Cole-Zielanski**, selected from a University-wide competition, will promote the 1991 Graduate Research Exhibition.

Ms. Cole-Zielanski received a \$500 check from Howard Palmer, senior associate dean of the Graduate School, for her winning entry. Robert Ott, professor of art education, headed the committee which judged the event.

Ms. Cole-Zielanski will receive a master of fine arts degree from Penn State in September 1990 and will teach as assistant professor in Frostburg State's Department of Graphic Design. At Penn State, she has taught drawing and currently teaches Art 270, Introduction to Graphic Design.

She has freelanced locally for Strawberry

Fields and other local companies as well as for Bucks County firms. From 1983 to 1987, she served as art director for Freedom Gathering Card Co., Levittown, Pa.

In 1989, her work was selected from 1,300 entries for inclusion in the Annual Herb Lubalin International Student Design Exhibition, New York City. Her work also appeared in the 1989 Film Follies Juried Show.

Obituary

Thomas C. Houtz, group leader, landscape A, Office of the Physical Plant, from June 1, 1947, until his retirement Oct. 1, 1979, died June 29. He was 73.

Staff Vacancies cont.

***00783, Administrative Head Nurse, University Hospital, Nursing & Medical Surgical, The Milton S. Eisenhower Medical Center** - Responsible to the nursing manager assigned nursing unit for assistance in handling the day-to-day administration of the assigned nursing unit. Assume responsibility in her/his absence. Requires bachelor of science in nursing from an accredited school of nursing plus one to two years of effective experience and current licensure to practice as a registered nurse by the Pennsylvania Board of Nursing. **STAFF GRADE 6**

***00784, Senior Auditor, Corporate Controller, University Park Campus** - Responsible to the audit manager for performing and directing audits to

appraise extent of compliance with University policies and procedures, adequacy and reliability of records and management reports, soundness and adequacy of internal controls. Requires bachelor's degree or equivalent in accounting or related management field and from two to three years of effective experience in internal auditing or operational facets of administration. Ability to communicate well, orally and in writing, is required. **THIS IS A FIXED-TERM POSITION FUNDED FROM APPROXIMATELY AUG. 13, 1990, TO FEB. 12, 1991. STAFF GRADE 7**

***00785, Residence Hall/Activities Coordinator, Residential Life, Mont Alto Campus** - Responsible

for the administration of a residence hall of 210 students and the campus student activities program. Requires master's degree, or equivalent, in student personnel, counseling or related field, plus up to one year of effective experience in residence hall administration and/or student activities, or bachelor's degree in student personnel, counseling or related field, plus one to two years of effective experience. **THIS IS A CONTINUING 10-MONTH, LIVE-IN POSITION. STAFF GRADE 6.**

***00786, Administrative Aide, Engineering, Electrical, University Park Campus** - Responsible to the department head for assisting in departmental administration, in such areas as personnel, budget and facilities. Requires associate degree, or equivalent, in business administration, management or related field and one to two years effective administrative experience, including the areas of

accounting, administrative computer systems, facilities management, supervision and business writing. **STAFF GRADE 5.**

***00787, Development Assistant, Development and University Relations, College of Agriculture, University Park Campus** - Responsible to the director of development, senior development officer or development officer for assistance in the organization and implementation of fund-raising programs and related activities. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in public relations, fund-raising or related field. Proficiency in verbal and written communication skills is highly desirable. Willingness to travel is essential. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1990, WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 6.**

President-elect Thomas meets the media

Dr. Thomas

(Continued from page 1)

Dr. Thomas stepped down as president of the University of Alabama in 1988 to return to the faculty as professor of biology.

Born in Holt, Ala., he received his A.B. (1955), M.A. (1957) and Ph.D. (1959) degrees in biology from Harvard University. He was a teaching fellow at Harvard from 1955-59 and a cytotoxinologist at Harvard's Arnold Arboretum from 1959-61.

He worked his way through the academic ranks of assistant professor, associate professor and professor of biology at the University of Alabama. His administrative career began at Alabama in 1964, when he was appointed assistant dean in the College of Arts and Sciences. He was named dean for student development in 1969 and vice president for student affairs in 1974.

In 1976, he was appointed chancellor of North Carolina State University, where he remained until assuming the presidency at Alabama in 1981.

He is the author of several monographs and books and numerous papers published in scholarly journals.

In civic and community accomplishments, Dr. Thomas was named Tuscaloosa Citizen of the Year in 1987. He serves on the board of directors of the Tuscaloosa Chamber of Commerce, the Industrial Development Authority of West Alabama, the Alabama Power Co., Blount Inc. and the International Service for National Agricultural Research, The Hague, Holland, among others.

He is a member of a number of professional organizations, including the American Institute of Biological Sciences, Botanical Society of America, American Society of Plant Taxonomists, International Association of Plant Taxonomists, Alabama Academy of Sciences, and North Carolina Academy of Sciences.

He and his wife, the former Marly Dukes of Boise, Idaho, have four children: Catherine, David, Jennifer and Frances.

Board President J. Lloyd Huck, left, and President-elect Thomas respond to questions from reporters. (Photos: Scott Johnson)

Excerpts from Dr. Thomas's remarks

"I am honored and privileged to have been elected president of Penn State University. Penn State is now clearly among the best public universities in the country."

"We must ensure that undergraduate education at Penn State continues to be of the highest quality."

"Maintaining a fresh and vigorous teaching and learning environment will be easier within the framework of a research university than any other place."

"We must ensure that equal opportunity is extended to all peoples."

"By the turn of the century, 30 percent of the workforce will be composed of minorities. For powerful economic reasons and for even more powerful moral reasons, universities such as Penn State must open wide the doors of opportunity."

History of presidential search process

On Sept. 15, 1989, President Jordan told the Board of Trustees that he planned to retire as president on Aug. 31, 1990. At the meeting, the Board authorized establishment of the Trustee Presidential Selection Committee to serve until the new University president assumed office.

The Board charged the committee to "develop and implement the necessary criteria and procedures to ensure breadth, equal opportunity, timeliness, confidentiality and appropriate University community involvement in the search process."

Eleven Trustees were appointed to the selection committee by Board President J. Lloyd Huck, who also served as the committee's chairman.

Members were H. Jesse Arnelle, Walter J. Conti, Marian U. Coppersmith, Bernard Hankin, Edward P. Junker, William A. Schreyer, Obie Snider, Cecile M. Springer, Quentin E. Wood and Edward P. Zemprelli.

The selection committee met later on the day of its formation to establish procedures for the search process. Mr. Huck recommended the creation of a University Presidential Search and Screen Committee to help in the search process.

On Oct. 26, 1989, Mr. Huck announced the names of the 15 University administrators, faculty and staff members and students who were asked to serve on the search and screen committee, which was to be chaired by Thomas L.

Merritt, immediate past chairman of the University Faculty Senate and professor of animal science.

Members included Anne C. Petersen, dean, College of Health and Human Development, and vice chairperson of the committee; George E. Andrews, Evan Pugh professor of mathematics; Robert D. Arbuckle, campus executive officer, Penn State New Kensington; Janet Atwood, 1989-90 Senate chairperson and acting department head and associate professor of exercise and sport science.

Cynthia Baldwin, president, Penn State Alumni Association; Dwight Davis, associate professor of medicine; Peter Deines, 1990-91 Senate chairperson and professor of geochemistry; Archie J. McDonnell, director, Environmental Resources Research Institute, and professor of civil engineering; James C. Moeser, dean, College of Arts and Architecture;

David S. Palermo, associate dean for research and graduate studies, College of the Liberal Arts, and professor of psychology; Robert A. Secor, Senate chairperson-elect and professor and head, Department of English; Laura Karkowski-Shuman, graduate student; Perry J. Sternberg, undergraduate student; and James M. Wagner, associate vice president of business and operations.

The Board of Trustees asked the search and screen committee to advertise the search, to receive and screen applications/nominations and to submit to the selection

committee a list of top candidates.

The selection committee established the search timetable and set up procedures for the search, appointed members to the search and screen committee and outlined qualifications that candidates for the presidency should have. Carol Herrmann, vice president for administration, assisted both committees.

As requested, the search and screen committee submitted the names of candidates to the selection committee in March 1990. Dr. Merritt, as chairman of search and screen committee, was invited by the Board to participate in the deliberations of the selection committee.

After the first series of interviews ended in June without a candidate being selected, the selection committee requested an additional list of names from the search and screen committee. Also at this time, Mr. Huck asked President Jordan to continue his responsibilities as president, and President Jordan agreed to postpone his retirement to ensure a smooth transition.

A second series of interviews was successfully concluded with the unanimous selection of Joab L. Thomas as the University's 15th president on Monday, July 23, by members of the Board of Trustees, who met with Dr. Thomas in a special session.

Through partnership program Economic development promoted

A program designed to promote economic and community development activities is beginning in five Pennsylvania communities.

The Community and Economic Development Associates Program (CEDAP) is a partnership between the University, Bell of Pennsylvania and local communities. The program, now entering its second year, hires and trains recent Penn State graduates for year-long, full-time positions helping to implement development projects designed by participating communities.

From now until June 1991, Penn State community development associates will work on projects in Braddock, Coatesville, Hazleton, Northern Allegheny County and Clearfield County.

In Braddock, **Frank Higdon** is working with the Greater Braddock Chamber of Commerce, establishing a business contact program and developing media kits and brochures for the Braddock business community.

In Northern Allegheny County, **Leigh McIntosh** is working with the Northern Allegheny County Chamber of Commerce, creating an Economic Development Resource Center for expanding and relocating businesses, as well as civic and community groups.

In Coatesville, **Toni Marie Mandronico** is working with the Greater Coatesville Economic Development Forum and the Chester County Partnership for Economic

Please see 'Partnership' on page 3.

Sen. Bob Packwood will speak at summer commencement exercises

Sen. Bob Packwood of Oregon will speak at the University's summer commencement for baccalaureate and associate degree candidates at 10:30 a.m. Saturday, Aug. 11, in Recreation Building at University Park.

Commencement ceremonies for the Graduate School will be held at 2 p.m. Aug. 11 in Eisenhower Auditorium. Rodney Reed, dean of the College of

Education, will be the speaker.

Sen. Packwood is the ranking Republican and former chairman of the Senate Finance Committee, which is responsible for national tax policy. The committee also oversees Medicare, Medicaid, Social Security, trade and tariff legislation and employee benefits.

He is a member and former chairman of the Senate Commerce, Science and Transportation Committee. The committee is responsible for areas such as ocean resource management, commercial fishing, economic development, pipeline safety, communications, consumer product safety, railroads, airlines, and bus transportation.

In addition, he is the ranking Republican on the Communications Subcommittee, and a member of the Foreign Commerce and Tourism Subcommittee, the Surface Transportation Subcommittee and the National Ocean Policy Study.

Sen. Packwood received his B.A. from Willamette University in Salem, Ore., in 1954 and his law degree from New York University School of Law in 1957.

In 1962 he was elected to the Oregon legislature as its youngest member. After three terms in the state legislature, he was elected in 1968 to the U.S. Senate as the youngest senator in the 91st Congress. He is now in his fourth Senate term.

Sen. Bob Packwood

Gifted Soviet Union students visit University Park

Eighty-three academically gifted high school juniors and seniors from the Soviet Union visited University Park July 6 to 24 as participants of the People to People Youth Science Exchange.

The young "science ambassadors" are part of a larger group of 240 Soviet students visiting the United States through the People to People program.

People to People Youth Science Exchange was hosted by the Eberly College of Science and the Keller Conference Center and is academically supported by Eberly College of Science faculty, staff and students in the departments of Astronomy and Astrophysics, Computer Science and Physics.

This is the first year that the University has been invited to participate in People to People and only the second time that Soviet students have traveled to the United States through the program.

People to People was established in 1956 by Dwight D. Eisenhower to "build a massive program of communication between Americans and the citizens of other lands to establish lasting two-way relationships from which international friendship and understanding can grow."

During their visit, the Soviet students attended classes and laboratory sessions in astronomy, astrophysics, computer science, physics and other science fields.

John Nousek and David Burrows, senior research associates and associate professors in the Department of Astronomy and Astrophysics, introduced the students to current faculty and graduate student research projects and provided laboratory exposure in X-ray and optical astronomy, image processing and gravity simulation. The students learned about computer programming in PASCAL using UNIX, as

Focus on Diversity

Wilkes-Barre hosts women's conference

Dorothy Cotton, nationally known civil rights activist, presented the keynote address at the sixth annual Luzerne County Women's Conference hosted by the Penn State Wilkes-Barre Campus. More than 400 women attended over 60 different workshops, coordinated by the campus Department of Continuing Education, on issues of concern for women. The theme for the day was 'Celebrating Women of the 1990s.' Ms. Cotton spoke on her history as an associate of Martin Luther King Jr. and urged women today to empower themselves and help other women to do so, and not wait 'like little girls' to be told what to do. Among the workshops presented by Wilkes-Barre staffers were 'Alternatives of Patriarchy/Matriarchy,' presented by Phyllis Belk, director of university relations and marketing; 'Shopping for College and Paying for it,' by Vera Cornish, coordinator of student aid; and 'Let's Play: Rediscover the Child in You,' by Anne Holmes, instructor of physical education.

Exchange program

As part of the Penn State Allentown Campus/University of Puerto Rico Rio Piedras Campus faculty/staff exchange program, two educational administrators from Puerto Rico will have the opportunity to live the corporate life for a week.

Rosie Oliveras, assistant director of the division of continuing education, and Martin Melendez, director of the management development program, are participating in Penn State's Effective Management Program for Bethlehem Steel managers this week.

The two institutions began the relationship in 1988 with the signing of a memorandum of understanding which provided for the staff exchange program. The partnership between Penn State and higher education in Puerto Rico is one that also will provide other opportunities for cooperation.

Ms. Oliveras and Mr. Melendez are guests of Bethlehem Steel for the Effective Management Program (EMP). The week-long program focuses on two areas of management: managing tasks and managing people. Seminar participants will explore several themes about managing tasks: planning, organizing, and controlling. The second half of the seminar will look at the managing of people through communication and problem solving/decision making.

'This is a unique opportunity for Ms. Oliveras and Mr. Melendez to observe and participate in one of Penn State's seminars,' Ken McGeary, director of continuing education at the Allentown Campus, said.

Private Giving to Penn State

Behrend College gets \$1 million undesignated gift

Penn State Erie, The Behrend College has received an undesignated gift totaling \$1,001,265 from the family of the late Floyd "Smitty" Smith.

Announcement of the largest gift from a private source in the College's history was made June 20 by John M. Lilley, Penn State-Behrend provost and dean, and Floyd Smith's son, Larry Vernon Smith, president of Automation Devices.

The extraordinary generosity shown by the Smiths reflects the true spirit of philanthropy. This wonderful gift was given with no restrictions, only the honest desire to give students in our region the very best opportunities and the highest quality education," Dr. Lilley said.

As an undesignated gift, the \$1 million contribution has been given the College "to be used where it will do the most good," according to Larry Smith, in keeping with his father's original philanthropic vision. Tragically, Floyd Smith was unable to see his remarkable contribution formally acknowledged. He was killed Dec. 28,

1989, when the aircraft he was piloting crashed in an eastside Erie neighborhood.

"Such a phenomenal contribution from a non-alumnus is very special," Dr. Lilley added. "But to have that gift be given for use at the University's discretion rather than for a specific purpose is very unusual. It conveys an unwavering trust in the basic mission and philosophy of Penn State-Behrend, and that is to provide the highest quality education possible in this region."

Microscope donated

IBM Corp. has donated an electron microscope valued at more than \$104,000 to the College of Engineering for materials research.

Faculty and students in the college's Engineering Science and Mechanics Department will use the Amray microscope to examine the surfaces of materials that have been intentionally stressed.

John Lilley, left, provost and dean of Penn State-Behrend, and Larry Smith, son of the late Floyd Smith who bequeathed \$1 million to the College, announce the gift, which is the largest undesignated gift in Penn State-Behrend's history.

Turfgrass program gets record grant

The turfgrass research program at Penn State has received a record grant of \$125,000 from the Pennsylvania Turfgrass Council for the 1990 research year.

"Research conducted with PTC funds benefits the entire turfgrass industry,"

Thomas Watschke, professor of turfgrass science, said. "More than one million acres in Pennsylvania, including golf courses, home lawns, roadsides and sod farms, are tied up in the turfgrass industry."

Dr. Watschke will use PTC funds to support the Landscape Management and Water Quality Research Center.

Researchers receiving PTC funds are: **Dr. Watschke**; **Joseph Duich**, professor of turfgrass science; **Donald Waddington**, professor of soil science; **Paul Heller**, professor of entomology; **Patricia Sanders**, associate professor of plant pathology; and **Peter Landschoot**, assistant professor of turfgrass science and turfgrass extension.

The Pennsylvania Turfgrass Council has supported Penn State's program in turfgrass research since 1955. In return, research, teaching and extension personnel from Penn State have served as advisers for the Council.

Penn State People

George R. Dickerson

Since 1958, George R. Dickerson has been either operating farm equipment or repairing it. As the University's blacksmith-mechanic, he makes sure that all tractors, wagons, feeders, tillage equipment, scales and other related farm equipment are kept in working order. He became interested in blacksmithing while a student in the farm equipment sales and service program and an equipment operator for the University. He learned the blacksmith craft by watching Paul Campbell and later took over the job when Mr. Campbell retired. Now a 30-year veteran of his craft, Mr. Dickerson says his job is fun. "Every day brings a new challenge." He enjoys "helping the people who need things repaired and making things for Ag Progress Days." The biggest change in blacksmithing over the years has been the increasing sophistication of equipment, he says.

Coordinator sought

The College of Education seeks candidates for the position of instructor of education and coordinator of minority student services. This is a 12-month annually renewable position responsible for the organization and implementation of the support services delivered through the College's Office of Minority Student Services.

The director assists with the recruitment of minority students, chairs the College's Committee on Equal Opportunity, assists with retention efforts, coordinates strategies for increasing the faculty/staff awareness of minority concerns, etc.

Minimum qualifications include master's degree (Education preferred) with public school teaching and/or administrative experience; familiarity/experience with the College of Education's professional certification programs is helpful.

Nominations or applications should be addressed to Horst von Dorpski, 278 Chambers Building (865-2524), by Aug. 17.

Partnership

(Continued from page 1)

Development, establishing education and training programs and seeking enterprise zoning designations within the community.

In Hazleton, **Philip Shuman** is working with the City of Hazleton, compiling a Business Outreach Directory that highlights the financial tools and incentives offered by the city and creating an inventory of potential business sites.

In Clearfield County, **Charles Wurster** is working with the Clearfield County Industrial Development Authority, conducting a county-wide assessment of labor and management issues, developing a

marketing plan for the new Curwensville Industrial Park and devising a business development strategy for the Glendale area.

CEDAP is administered by Drew Hyman, professor of public policy and community systems. Under his direction the associates complete an intensive training program before starting work in their respective communities.

Communities participating in CEDAP first complete Business Outreach programs co-sponsored by Bell of Pennsylvania and local Chambers of Commerce or economic development groups. The programs help communities understand their business climates and define actions that can encourage business growth.

Gifted

(Continued from page 1)

well as computer graphics and games. In the area of physics, they attended lectures and labs on linear and nonlinear wave phenomena, the physics of random systems, quantum mechanics, surface physics, elementary particle physics, superconductors and supercolliders.

In addition, they received guided tours of University Park Campus, the Materials Research Laboratory, the College of Earth and Mineral Science's museum and weather station, the Breazeale Nuclear Reactor, the National Cable Television Center and Museum and the Black Moshannon Optical Observatory.

Carpoolers

Ride needed from Osceola Mills to University Park; work hours are 9:30 a.m. to 6:30 p.m. Call **Marge** at 865-7623 from 8 a.m. to 4:30 p.m.

Shirley is looking for carpoolers from the Lewistown/Milroy area to University Park. Work hours are 7:30 a.m. to 4:30 p.m. Call 863-0449.

Appointments

Ronald E. Costello has been named director of development for the Small College of Business Administration.

He joins the University after serving as dean of institutional advancement at the Philadelphia College of Textiles and Sciences, where he redesigned the college's fund-raising programs and developed the foundations for a new \$10 million support campaign.

Mr. Costello was development director for the College of Agriculture from 1986 to 1989, prior to which he served as director of alumni and development at Mansfield University from 1980 to 1986.

He holds a bachelor of science degree from Mansfield and has experience in teaching, journalism and sales. In addition to his degree in education, he has pursued studies in journalism, adult education and business.

Margaret M. Cote, associate professor of English at the Penn State Allentown Campus, has been appointed interim associate dean of the Commonwealth Educational System (CES) for the College of the Liberal Arts, effective Aug. 1.

Theodore E. Kiffer, interim dean of the College of the Liberal Arts, said, "Dr. Cote has taught at two campuses - Hazleton and Allentown - and has significant experience in continuing education as well. I am pleased that she has accepted the appointment."

Dr. Cote will be responsible for recruiting of faculty and faculty development and will serve as a liaison between the College of the Liberal Arts and the Commonwealth Campus system. She also will oversee all continuing education services for the College.

A faculty member since 1978, she held an administrative internship in the College's CES office in 1987.

Other achievements included serving as project evaluator of CES computer facilities for English 202 courses. Her responsibilities included reviewing current computer facilities at 17 campus sites and recommending hardware, software and training for each site.

Dr. Cote has directed a number of programs designed to aid elementary and high school teachers in teaching writing and rhetoric.

She was president of the Pennsylvania Association of Two-Year Colleges in 1984-85. In 1989, she was Lehigh Valley Outstanding Academic Woman of the Year.

She received her bachelor's degree in English from Carlow College in Pittsburgh and her doctorate from Catholic University of America.

Ernest F. Gale Jr. has been appointed associate executive director for alumni relations of the Penn State Alumni Association.

Mr. Gale previously served as assistant executive director for special programs and was responsible for the college and campus alumni constituent societies, the recognition program (Alumni Fellows, Honorary Alumni and Teaching Fellow) and the Alumni Vacation College. He joined the Alumni Association in January 1988 as the assistant to the executive director for reunions and homecoming.

Mr. Gale earned his B.S. in mathematics from Penn State and his M.S. in operations research at the Naval Postgraduate School.

Daniel W. Pfaff has been appointed associate dean of resident instruction in the School of Communications.

Dr. Pfaff, associate professor of journalism, takes over the duties of William L. Dulaney, who will retire in August.

The new post includes responsibility for the coordination of both undergraduate and graduate instruction. Dr. Pfaff has headed the School's graduate programs for the past year, and previously from 1976-82.

Dr. Pfaff is the author of a forthcoming biography of Joseph Pulitzer II, who served as editor and publisher of the *St. Louis Post-Dispatch* from 1911-55 after his famous father's death. He earned highest history division honors at the 1989 Association for Education in Journalism and Mass Communications convention for a paper on Pulitzer II.

He joined the former School of Journalism in 1971 as an assistant professor, chaired its journalism program from 1972-74, and was promoted to associate professor in 1977. He is a member of the Graduate School's Graduate Council and faculty adviser to the Penn State chapter of the Kappa Tau Alpha national journalism

honor society.

He also is a corresponding editor for *Journalism History*, a member of the American Journalism Historians Association and an editorial consultant to World Book Inc.

Dr. Pfaff taught in the University of Minnesota's School of Journalism and Mass Communication from 1968-71 and was a graduate assistant at Penn State from 1966-68. His degrees include a bachelor's in journalism from the University of Oregon, a master's in journalism from Penn State and a doctorate in mass communication from the University of Minnesota.

In other faculty reassignments:

— **William E. Gibbs**, assistant professor of advertising, has been named the School's recruitment, internship and placement officer. Professor Gibbs has worked at the University since 1963 and was professor-in-charge of advertising for 16 years. He has coordinated the School's placement service for seven years.

— **John N. Rippey**, assistant professor of journalism, has been named professor-in-charge of the journalism program, relieving R. Thomas Berner, professor of journalism. Professor Rippey has been with the School since 1975, and coordinates the Lowell Mellett Award for outstanding media criticism, given annually by the School.

Robert Secor, professor of English and American studies, has been named the head of the Department of English.

Dr. Secor, whose appointment is effective July 1, replaces Christopher Clausen, who headed the department for five years since his arrival from Virginia Polytechnic Institute and State University in 1985. Dr. Clausen plans to resume teaching.

After teaching for several years at Northwestern University, Dr. Secor came to Penn State in 1969.

This past year he has served as secretary of the University Faculty Senate and recently was named president-elect of the Senate. He has chaired several University and college committees, including the Senate Committee on Admissions, Records, Scheduling and Student Aid; the Liberal Arts Council of Senators; the College Committee on Promotion and Tenure; and the Liberal Arts Faculty Affairs Committee.

He also has been associate director of the Interdisciplinary Graduate Program in the Humanities.

Dr. Secor's specialty is American and British literature, with an interest in Joseph Conrad. His books include, *Conrad and American Writers: A Bibliography Study of Relations, Affinities, and Influences*, written with Debra Modellmog, and *The Return of the Good Soldier: Ford Madox Ford and Violet Hunt's 1917 Diary*, written with his wife, Marie, associate professor of English.

Dr. Secor earned his bachelor's degree in English from Syracuse University in 1960, his master's in English from Brown University in 1963 and his doctorate in English and American literature from Brown in 1969.

L.A. Napier, associate director of the Native American Indian Leadership Program, has been appointed director of the program and assistant professor of education.

Under the one-year appointment, Dr. Napier is the first woman administrator in the 20-year history of the program. As assistant professor, she will teach gender issues related to school administration.

A 1989 graduate of the program with a D.Ed. degree, she has served as associate director of the program.

A native of Tahlequah, Okla., and a member of the Cherokee Nation of Oklahoma, Dr. Napier came to Penn State to pursue her doctorate in 1986. She earned her bachelor's and two master's degrees from Northeastern State University, Tahlequah, Okla.

Dr. Napier's prior experience in education included serving as a counselor in public schools in Norman, Okla.; director of Indian education, Tahlequah public schools, Tahlequah, Okla.; teacher/coordinator of a summer program in an Oklahoma City school and teaching; tutorial or counseling experience at other schools in Oklahoma and California.

At Penn State, she is an assistant coordinator and a member of the Central Pennsylvania Women of Color.

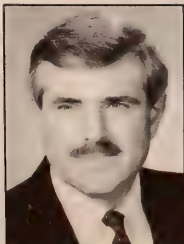

Penn State, which has one of the first major university programs for Native American Indian graduate students in the country, is one of the nation's leading producers of Native American Indian doctorates.

1990 Ag Progress Days

August 14-16

SPECIAL EDITION

Three-day event set to open August 14

A wide range of agriculture-related programs—from animal welfare to conservation to biotechnology—will be part of the 22nd annual Ag Progress Days sponsored by Penn State's College of Agriculture.

Held at the University's 1,500-acre Russell E. Larson Agricultural Research Center at Rock Springs near State College, the three-day event attracts tens of thousands of people from farms, small towns and large cities.

To allow more people the chance to visit Ag Progress Days, hours for the event have been extended. Ag Progress Days will run from 9 a.m. to 5 p.m. on Tuesday and Thursday—August 14 and 15—and from 9 a.m. to 8 p.m. on Wednesday, August 15.

"We hope to see many first-time visitors and take advantage of after-work hours on Wednesday," says Keith Stevens, assistant to the dean for alumni relations

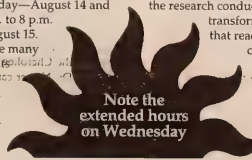

and special events. "We also want to give travelers some additional time to tour the facilities."

This year's theme, "Food and Environmental Quality: Preparing for the 21st Century," will highlight many of the issues that will face Pennsylvania and the world in the years and decades to come.

"Ag Progress Days is an opportunity to show visitors the many ways that agriculture touches our lives today and is an opportunity to look to the future," says Dr. Lamarine F. Hood, dean of the College of Agriculture. "We want to show visitors the scope of issues that their College of Agriculture is addressing and how the research conducted at Penn State is

transformed into programs that reach all citizens of the commonwealth. We'll also give them the opportunity to talk with people in agribusiness, watch some of the latest farm machinery in

continued on page 2

Welcome

As we enter the final decade of this century, it is both appropriate and necessary to prepare for the 21st century. We need to identify the issues that will help shape American agriculture and decide how to address them for

the benefit of society. Where will our food come from, and where will our waste products go? What quality air will we breathe, and what quality water will we drink? What kind of treatment will our animals have? What kind of jobs will our people have?

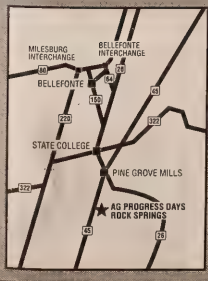

At Ag Progress Days, you're surrounded by examples of how agricultural research and education are both improving our present quality of life and preparing us for the future. As you talk with agricultural researchers, scientists and extension educators from the College of Agriculture and with representatives of more than 250 commercial enterprises, you'll see the importance of agriculture to our society and will come to understand more about the challenges we face.

I would like to extend a special invitation to all faculty and staff to attend the 1990 presentation of Ag Progress Days. Join with us as we celebrate our accomplishments and prepare for the future together.

Lamarine F. Hood
Dean, Penn State College of Agriculture

Learn how to start your own business

Do you have what it takes to start your own business? You can find out at the information booth in the Home-Based Businesses and Pennsylvania Heritage Crafts Tent.

"Getting a business off the ground takes a special kind of persistence," says Jim Grippo, Penn State cooperative extension agent in Clearfield County. Visitors to the exhibit can assess their entrepreneurial potential by taking a computer quiz designed by Grippo.

"You have to be the sort of person who can live with risk," he says. "Everybody who wants to be their own boss thinks they'll succeed, but it's tough to make a new business venture fly. You have to be able to wear many different hats and deal with the uncertainty of not receiving a weekly paycheck."

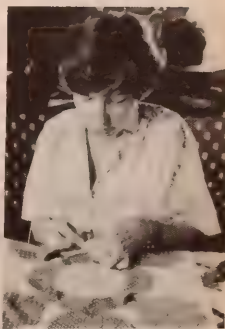

Grippo regularly offers an extension program on starting and running a small business. In six three-hour sessions he covers marketing, legal issues, financing, insurance, risk management and planning. Some of the materials Grippo uses for the workshop and additional information offered by cooperative extension will be available in the tent.

"All successful businesses start with a plan," says Grippo. "Before launching a business, people need to sit down and think hard about their strengths and weaknesses. I encourage them to do it all on paper before they quit their job or get their second mortgage. People who fail to plan, plan to fail."

Grippo and other experts will be on hand to answer questions about new business ventures. Eighteen professional crafts people who have launched successful home-based businesses will display their work and give educational demonstrations in the exhibit tent.

"People who start their own businesses are an important part of the economic revival in Pennsylvania's rural areas," says Patricia Leach, Penn State cooperative extension agent in Indiana County and coordinator of the exhibit.

These exhibitors have proven marketing and management skills as well as artistic ability. The exhibitors will demonstrate their crafts throughout the three-day event. Products on display will include walking sticks, dulcimers, baskets, weather vanes, and woven goods.

Eighteen crafts people who have launched successful businesses will give demonstrations in the Home-Based Businesses and Pennsylvania Heritage Crafts Tent. Visitors can learn about the history of the crafts and talk to the artists about starting a small business at home.

New research highlight of Ag Progress Days

Ag Progress Days will feature three special research tours and a general research tour that will show visitors how the College is working to ensure the safety of our food and protect the environment.

On Tuesday's special topics tour, Integrated Crop Management, visitors will see the horticulture farm at the Larson Research Center, where they will examine ways to maximize crop production in an ecologically sound manner. Wednesday's tour, Water Quality, will take visitors to the Landscape Management Research Center and the horticulture greenhouses on campus to look at the safe use of chemicals for lawn maintenance and ways to improve greenhouse water efficiency. On Thursday's tour, Disease and Insect Control on Agricultural Crops, visitors will tour research plots of alfalfa and soybeans at the Larson

Center, and examine strategies for controlling diseases and insect pests.

The 30-minute general research tours will highlight biocontrols and IPM at the entomology farm, disease control and plant stress projects at the plant pathology farm, new cultural techniques at the horticulture farm, hybrid evaluations at the agronomy farm and tests with warm season grasses at the USDA Pasture Lab.

Special research tours will leave the corn crib at 10 a.m. and 1:45 p.m. General research tours leave the corn crib every 20 minutes from 10 a.m. to 3 p.m. each day, with tours running until 7 p.m. on Wednesday. Free tickets are available at the boarding area.

There are also several conservation-related tours which will leave from the Conservation Education Tent on West 11th Street. Check the Ag Progress Days program and daily schedule for details.

New research highlighted on tours conducted during Ag Progress Days includes insect and disease control, plant stress projects and cultural techniques.

Three-day event to open August 14

Continued from page 1

operation, tour several research and conservation demonstration areas and have a great experience in a family-oriented atmosphere."

Ag Progress Days is one of the largest outdoor showcases of agricultural research and technology in the East. More than 250 commercial exhibitors will show and demonstrate approximately \$20 million worth of agricultural equipment. The event also will feature tours of research farms and conservation education areas; exhibits and presentations by Penn State faculty on topics such as water quality, food safety, waste management and biotechnology; a game show with prizes; a working computer classroom; a museum full of antique home and farm implements; exhibits and demonstrations of Pennsylvania's heritage crafts with information on how to start a home-based business; and more.

College of Agriculture faculty and staff will continue their emphasis on exhibits and demonstrations that are exciting and fun to watch, as well as educational.

Animal welfare will be a major focus in the College Exhibits building, with a live animal display that will show different housing options for sows.

"We hope to demonstrate that producers must review a wealth of variables affecting animal welfare before deciding what facilities are appropriate for their enterprise," says Dr. Kenneth Kephart, assistant professor of animal science and coordinator of the exhibit.

Visitors also can learn more about the risk and prevention of respiratory diseases at the Protect Your Lungs exhibit. College of Agriculture faculty will be available to discuss air contaminants both on the farm and in the home. Different types of respirators will be demonstrated and Mediq Healthcare will be on hand to provide free lung-capacity tests.

Biological control of gypsy moths will be the focus of another exhibit. Information highlighting control methods for homeowners will be distributed throughout the event and visitors will be able to view gypsy moths at various stages of growth and observe moths treated with different biocontrol methods.

The College Exhibits building will also feature exhibits on food safety, waste management, agricultural biotechnology and turfgrass and the environment.

At the Home-Based Businesses and Pennsylvania Heritage Crafts Tent, the emphasis will be on helping prospective entrepreneurs get a head start on success.

Visitors can get timely advice when they "Ask the Experts" in the areas of landscape, lawn and garden; crop and soil science; and dairy and livestock production. College of Agriculture faculty members and cooperative extension agents will be available to answer general questions and deal with specific problems.

These heads will be used to demonstrate the dust-filtering ability of four types of respirators at the Protect Your Lungs exhibit, which stresses the importance of lung safety in the home and around the farm. Visitors to the exhibit can have their lung capacity checked by Mediq Healthcare professionals.

Visit the Shaver's Creek
Environmental Center
exhibit at the Youth Tent.

Conservation for everyone

Individuals who have questions on conservation-related problems can discuss them with experts at the Conservation Education Tent at Ag Progress Days.

"Employees of the Soil Conservation Service will be on hand daily to answer questions and discuss conservation practices," says Joel Myers, state agronomist with the Soil Conservation Service. "Specialists in agronomy, biology, plant materials, forages and conservation tillage/residue management will be available."

In addition to consultation, there also will be special programs on intensive grazing, plant materials, integrated crop management, conservation tillage and compliance with the 1985 Farm Bill. A new program, Plant Materials for Homeowners, at 6:00 p.m. on Wednesday will be of special interest to those who want to learn more about conservation practices around the home.

A new general conservation tour will be held this year at noon and 2:30 p.m. on Tuesday, Wednesday and Thursday, with additional tours at 5:30 p.m. and 6:30 p.m. on Wednesday. Conservation activities and practices related to water quality will be featured on the tour. Many other tours will also take place. More information and free tickets are available in advance at the Conservation Education Tent.

Composting in your backyard

Leaves, weeds, old straw and wood shavings are just some of the waste that can be composted in your backyard. Visitors to the Landscape, Lawn and Garden Tent can learn more about composting at Ag Progress Days.

"Theoretically, anything with carbon and nitrogen can be composted," says Dr. Robert Nuss, Penn State professor of ornamental horticulture and coordinator of the Landscape, Lawn and Garden Tent. "We'll have examples of what can be composted and also containers of compost so visitors can see what it looks like."

Faculty from Penn State's departments of entomology, horticulture, agronomy and plant pathology and county extension agents will be on hand

to give expert advice on plant and insect problems.

"We'll answer any questions that a homeowner, gardener or grower might have," says Nuss. "The experts at the tent will talk with visitors about indoor and outdoor plants, turf and flowers, tree fruit and small fruit." Visitors may bring in samples for the experts to look at.

"To get as big a picture as possible of the problem, we need a large sample in good condition," says Nuss. "Don't just bring in a dead leaf." He advises visitors to bring samples that represent various stages of the problem, and to bring insects in jars, since eating damage may be hard to diagnose. Samples can be disposed of at the tent.

Pasto Museum celebrates over 100 years of rural history

The Pasto Agricultural Museum, filled with farm and household items dating back to the 1840s, is celebrating over a century of agriculture at Ag Progress Days.

Featured this year is the museum's "birthday buggy." Currently on display, this split hickory special with double spring suspension and emerald green upholstery turned 100 years old on June 30.

Acquired in 1890 by 22-year-old Charles E. Stouff, the buggy was restored by an Amish buggy maker and later donated to the museum by Charles' son, J. Edward Stouff, class of 1925.

Visitors to the museum can see such prized equipment as the newly acquired foundation mill for honeycombs manufactured around 1880 and the folding, stand-up cross-cut saw used in the early 1890s.

"Nothing compares to the feeling you get when you are able to bring an item back to life," says Dr. Jerome K. Pasto, associate dean emeritus of the College of Agriculture and curator of the museum. "The joy of this museum is the visitors' ability to share this emotion as they browse, touch and test the artifacts."

Pasto and a number of guides will be available at Ag Progress Days to answer questions about the museum's collection of more than 280 rare and unusual animals. Visitors have the opportunity to turn cranks and move the levers on these remnants of an age before the advent of electricity.

The Pasto Museum has more than 280 unusual farm implements and household items dating back to the 1840s. Visitors may want to try out this hand-operated corn sheller.

The collection began with a donation of historic hand tools by the late Dr. Russell Dickerson, formerly an associate dean of the College of Agriculture. Donors, including University alumni and friends from Pennsylvania and four other states, have added to the collection.

Contributions from the College of Agriculture Alumni Society funded the museum building, which opened for the first time during the 1978 Ag Progress Days.

Game show teaches about agriculture

For a chance to learn more about agriculture and to win prizes, visit the SciQ game show in the College of Agriculture Exhibits Building at Ag Progress Days.

How was the gypsy moth introduced in the United States? How is newspaper used in animal agriculture? SciQ contestants and visitors can learn the answers to these questions and find out interesting facts about water quality, animal welfare, waste management, biotechnology and agricultural safety.

This year the program will also include Science Insights, mini lectures that highlight research areas in the College of Agriculture. Science Insights topics include household waste recycling, beneficial food choices, turfgrass advantages and farm-related respiratory diseases.

There will be four half-hour SciQ game shows a day, at 10:00, 11:00, 1:00

and 2:00, in the Exhibits Building theater, with additional shows at 6:00 and 7:00 on Wednesday. Game show contestants and individuals in the audience can win prizes including Penn State University Creamery ice cream, Penn State geraniums, Penn State turfgrass mixtures and SciQ T-shirts.

Admission to SciQ is free, but due to limited seating in the theater area, visitors are encouraged to arrive early.

Academics, careers and computers

"Computers and Careers in Agriculture" is the theme of this year's Ag Progress Days Youth Building. Professional counselors will offer career, academic and financial aid information to people looking into agricultural careers, says Marianne Houser, coordinator of undergraduate recruitment for resident education in Penn State's College of Agriculture.

A popular attraction again this year will be the microcomputer laboratory in the Youth Building. Visitors can try a Macintosh computer during several 30-minute sessions beginning at 10 a.m. daily. Participants of all ages will be able to take a quiz on agriculture and learn a computer drawing program. Computer session admission tickets will be available free at the Youth Building and the Main Street information booth.

A computerized career exploration program called "Discover" will guide users to possible career choices based on their preferences and abilities. Penn State's Career Development and Placement Services staff will be there to offer advice.

Demonstrations of PENpages, the

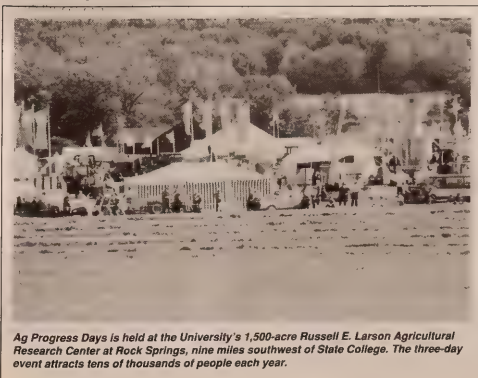

computer-based library of the College of Agriculture, will run frequently.

Staff from the College of Agriculture will discuss the diverse career opportunities in agriculture and Penn State degree offerings. Counselors will explain college admissions and financial planning. Visitors may watch videotapes, pick up literature and talk with undergraduate students.

Penn State continuing education staff will provide literature and an exhibit explaining the programs and role of continuing education. Courses are offered statewide for part-time learners of all backgrounds at 21 Penn State locations.

High school students may be interested in a display about the Pennsylvania Governor's School for the Agricultural Sciences, a summer enrichment program for academically talented students interested in food science, agriculture and natural resources.

Businesses and individuals may sign up to become members of Pennsylvania Friends of 4-H, a support group that provides 4-H program assistance through donor contributions.

Ag Progress Days is held at the University's 1,500-acre Russell E. Larson Agricultural Research Center at Rock Springs, nine miles southwest of State College. The three-day event attracts tens of thousands of people each year.

1990 Ag Progress Days Daily Schedule

Tuesday, Wednesday and Thursday

- 9:00 Ag Progress Days exhibits open
Special Program - College Exhibits Building Theater (Tuesday & Thursday)
9:45 PENpages Demonstration - Youth Building
10:00 Macintosh Computer Class - Youth Building
SciQ Game Show - College Exhibits Building Theater
Machinery Demonstration - Mowing (See map for location)
General Research Tour leaves from the corn crib
Integrated Crop Management Research Tour leaves from the corn crib (Tuesday)
Water Quality Research Tour leaves from corn crib (Wednesday)
Disease and Insect Control Research Tour leaves from the corn crib (Thursday)
Cutting & Selecting Lean Cuts of Pork - Meeting Place (Tuesday)
Buying & Selecting Lean Cuts of Beef - Meeting Place (Wednesday)
Selecting Inexpensive Lean Cuts of Veal - Meeting Place (Thursday)
Lung Protection Demonstration - College Exhibits Building
Forestry and Wildlife Tour leaves from the Conservation Tent
Wetlands and Stream Crossing Tour leaves from the Conservation Tent
Do-It-Yourself Conservation Tour leaves from the Conservation Tent
10:20 General Research Tour leaves from the corn crib
10:30 PENpages Demonstration - Youth Building
10:40 General Research Tour leaves from the corn crib
10:45 Macintosh Computer Class - Youth Building
11:00 SciQ Game Show - College Exhibits Building Theater
Lung Protection Demonstration - College Exhibits Building
General Research Tour leaves from the corn crib
Machinery Demonstration - Pesticide Application (See map for location)
Shredding Newspaper for Animal Bedding - Dairy & Livestock Tent
Sale Handling of Meat - Meeting Place (Tue - Pork, Wed - Beef, Thur - Veal)
Forestry and Timber Management Tour leaves from the Conservation Tent
Crop Management Tour leaves from the Conservation Tent
Grazing Management Program - Conservation Tent
Plant Materials Program - Conservation Tent
11:15 PENpages Demonstration - Youth Building
11:20 General Research Tour leaves from the corn crib
11:30 Macintosh Computer Class - Youth Building
Low-Fat Cooking: Grilling - Meeting Place (Tue - Pork, Wed - Beef, Thur - Veal)
Conservation Tillage - Conservation Tent
11:40 General Research Tour leaves from the corn crib
12:00 General Research Tour leaves from the corn crib
Forestry and Wildlife Tour leaves from the Conservation Tent
PENpages Demonstration - Youth Building

University Park Calendar

August 9 -- August 26

Special Events

Saturday, August 11
Commencement: 10:30 a.m., Rec Hall.
baccalaureate and associate degrees: 2 p.m., Eisenhower Aud., Graduate School.
Shaver's Creek, Meteor Shower Camp-out, 7 p.m.-9 a.m., through Aug. 12. Call 863-2000.
Sunday, August 12
Shaver's Creek, The Winged Hunters, 6:30-8:30 p.m., Call 863-2000.
Ag Progress Days, Russel E. Larson Ag Research Center, Rock Springs, 9 a.m.-5 p.m. Also Aug. 15, 9 a.m.-8 p.m.; and Aug. 16, 9 a.m.-5 p.m.
Thursday, August 16
■ Message reception for international students, sponsored by the Penn State Club of Centre County and the Community International Council, 7:30 p.m., Kern Graduate Bldg.
Saturday, August 18
Arrival day for new students.
Shaver's Creek, Natural History Hike, 9 a.m.-2

p.m. Call 863-2000.
Sunday, August 19
Shaver's Creek, Discovering Fossils, 2-4 p.m. Call 863-2000.
Monday, August 20
"Be a Part from the Start," 8 p.m., Rec Hall.
Wednesday, August 22
Classes begin.

Public Radio

WPSX-FM 91.1
"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.
"Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.
"Perspectives," 6:30 p.m. Wednesdays.
"Creative License," 12:30 p.m. Thursdays, with Asa Berlin and Pam Saulnier.

Conferences

Continuing Education
Keller Building
Aug. 19-24. Pennsylvania AFL-CIO COPE

Conference. Richard Hindle, associate professor of labor studies and industrial relations, chair.
Chuck Herd, coordinator.
Aug. 22, Social Education Teachers and Administrators, Jack Sinclair, coordinator.
Aug. 22-24, Human Resources Management for Safety and Productivity, Mark Radomsky, instructor of mineral engineering, director, Eric Loop, coordinator.

Seminars

Saturday, August 18
■ College of Ag and Biotechnology Institute, 10:20 a.m.-1:20 p.m., 312 Keller. International Telecommunications Symposium on Plant Biotechnology.

Exhibits

HUB Galleries
Formal Gallery
Spectacular Vernacular: Traditional Desert Architecture from West Africa and Southwest Asia, Aug. 25-Sept. 23.
Palmer Museum of Art
Selections from the Permanent Collection.

through Oct. 7
The Machines of Leonardo da Vinci, Aug. 12.
Nov. 4
Pattee Library
Rare Books Room:
Kenneth Burke, correspondence, through Aug. 17.
East Corridor Gallery:
David C. Faden, Quietudes, landscape pastels, through Aug. 17.
Lending Services Gallery:
Cynthia Spencer, photos, through Aug. 31.
West Lobby Gallery:
Permanent collection from the Arts Library, through Sept. 7.
Zoller Gallery
M.F.A. thesis exhibition, through Aug. 11.

Focus on the arts

WPSX program honored

"Best Friends," a 30-minute drama produced by WPSX-TV, Penn State Television, won highest honors at the 1990 Corporation for Public Broadcasting's Public Television Local Program Awards ceremony.

The show is receiving extra recognition as it has been scheduled to air on PBS's national program schedule at 10:30 p.m. Aug. 16.

Producer Wm. Gary Perdue said that "Best Friends" serves to "confirm our belief at WPSX that quality drama can be produced on a modest budget."

The CPB Gold Award in Performance was realized by the Penn State Television Drama Group, an innovative project begun five years ago that includes the Theatre Arts Department of the College of Arts and Architecture, the Film Unit of the School of Communications and WPSX-TV, Channel 3.

Described as "imaginative, clever" and a "charming piece" by the judges at the awards program, Best Friends utilized the resources of several Penn State alumni including: director William J. Kelley, director of photography Paul Cosella and the author of the play Edie Pistolesi.

Rare books exhibit

An exhibit providing insight into the life of Kenneth Burke, still active at 93 as a philosopher, rhetorician, and logician, is on display in the Rare Books Room of Pattee Library through Aug. 17.

Included in the exhibit are letters from

Malcolm Cowley, William Carlos Williams, Robert Penn Warren, Allen Tate, Ralph Ellison, Katherine Ann Porter, Theodore Roethke, Jean Toomer, Hart Crane, Thomas Mann, and Marianne Moore.

The arts on Channel 3

Evening at Pops, airing at 9 p.m. Friday, Aug. 10, features guest conductor Leonard Slatkin of the St. Louis Symphony Orchestra leading the Boston Pops Orchestra in a program that includes George Gershwin's Rhapsody in Blue with acclaimed soloist John Browning at the keyboard, and jazz-piano giant Dave Brubeck and his quartet performing his compositions.

WPSX-TV's Artworks series presents "American Gardens" at 8:30 p.m. Thursday, Aug. 9. The program is based on the Palmer Museum of Art exhibition "Transforming the American Garden: 12 New Landscape Designs" and illuminates ideas about design by a group of young landscape architects currently practicing in the United States.

Obituary

George B. Shoemaker Jr., associate professor of English at Penn State Ogonz Campus, from Sept. 1, 1958, until his retirement May 1, 1980, died July 5. He was 67.

Bookshelf

Trond Gilberg, professor and head of the Political Science Department, is the author of *Nationalism and Communism in Romania: The Rise and Fall of Ceausescu's Personal Dictatorship*, published by Westview Press, Boulder, Colo.

The book analyzes the relationship between nationalism and Communism in Romanian domestic and foreign policy. Dr. Gilberg, director of the Slavic and Soviet Language and Area Center, traces the roots of nationalism in Romanian history and demonstrates how the political and literary climate of the pre-Communist era still influences contemporary Romania.

He also studies the importance of Marxist-Leninist doctrine in establishing the country's political system after World War II. He discusses the idiosyncrasies that marked Romanian Communism, while listing its practical successes and failures. Dr. Gilberg concludes that the Romanian political system under the Ceausescu (1965-89) represented a blend of traditional Romanian nationalism, orthodox Communist ideology and the beliefs of the Ceausescu clan, particularly those of Nicolae Ceausescu.

Fluent in Russian and Romanian and several West European languages, Dr. Gilberg has written six books, including *Modernization in Romania Since World War II* (1975) and *The Social Communist Party and Sroudmization Communism* (1973).

Howard G. Knutigen, director of the Center for Sports Medicine, has co-edited *Sport in China*, a book about the past and present of Chinese sport. Co-editors are Ma Qiwei, a professor at the Beijing Institute of

Physical Education, and Wu Zhongyuan, director of the Press Commission of the Chinese Olympic Committee and director of the China Olympic Publishing House.

The book, published by Human Kinetics Books, is organized into three parts.

"Evolution and Organization of Physical Culture" traces sport in China for educational, recreational, health and competitive objectives, from its early history to the current organization and administration of the traditional sport. "Modern Sport Science and Sports Medicine" reviews China's growth in physical education, sports medicine, sports physiology and biochemistry, sports mechanics, and sport psychology. "The Future of Sport in China" looks to the future and identifies directions and goals.

Alexander von Eye, professor of human development, is the author of *Introduction to Configurational Analysis: The Search for Types and Antitypes in Cross-Classifications*, published by Cambridge University Press.

Configurational Analysis, or CFA, is a method for analyzing groups of individuals in contingency tables. Results are expressed in terms of the characteristics of the subjects in particular cells. Individuals belong to a "type" if their pattern of characteristics occurs more often than expected, and to an "antitype" if their pattern occurs less often than expected.

CFA is of special interest in psychology, although Dr. von Eye's book shows applications in psychiatry, medicine, sociology, education and history. Dr. von Eye provides an overview of CFA, describes several models and applications, introduces models of longitudinal CFA, and shows how CFA complements log-linear modeling.

News in Brief

Plant biotechnology symposium

The College of Agriculture and the Biotechnology Institute are sponsoring an International Telecommunications Symposium on Plant Biotechnology from 10:20 a.m. to 1:20 p.m. Saturday, Aug. 18, in Room 312 Keller Building at University Park.

The symposium will cover state-of-the-art research and fundamental science in plant biotechnology, specific applications of plant biotechnology techniques and broadened access to plant biotechnology advances for developing countries.

There is no charge for the symposium, and registration can be made by calling Patricia Phillips at 863-3650.

Turfgrass field days

The 1990 Penn State Turfgrass Field Days will be held at University Park Aug. 29 and 30.

The conference is sponsored by the University, Penn State Cooperative Extension and the Pennsylvania Turfgrass Council. College of Agriculture faculty members will lecture and conduct tours of research plots and the Landscape Management Research Center.

There is no registration fee.

Volunteers needed

The Lion Liaison Mentor Program pairs new students with faculty, staff or alumni for purposes of easing the transition of the returning adult student back to school. This one-to-one interaction helps to strengthen their confidence in and aid adjustment to the higher education environment.

Mentors are needed for the Fall Semester. Your responsibility would be to call or meet with a new student and get to know him/her by participating in a few activities throughout the semester.

For more information about Lion

Liaison, call the Returning Adult Student Center at 863-3887.

Education Abroad Programs

Academic units intending to propose a credit-bearing education abroad summer 1992 program are invited to submit a pre-proposal to the Office of Education Abroad Programs by March 1 of the year prior to the desired running of the program.

Pre-proposal guidelines are available from the coordinator of program support services in the Office of Education Abroad Programs, 222 Boucke Building, 865-7681.

Clinic re-accredited

The Speech and Hearing Clinic in the College of Health and Human Development has been re-accredited by the American Speech-Language-Hearing Association.

The clinic, a part of the Department of Communication Disorders, diagnoses and treats clients who have speech, language, or hearing disorders. It also provides a setting in which students gain professional experience and faculty conduct research.

Department of Energy grant

Vladimir S. Stubican, professor of materials science and engineering, College of Earth and Mineral Sciences, has received a \$210,000 grant from the Department of Energy for research on the influence of point defects on diffusion in grain boundaries of ceramic materials.

School receives approval

The School of Nursing in the College of Health and Human Development has received full approval by the Pennsylvania State Board of Nursing.

The Board reviews undergraduate programs of all schools of nursing throughout Pennsylvania every two

three years. Items included in the evaluation are curriculum, instruction, administration, records and evaluation procedures.

Following review, the school is granted an initial, full, or provisional approval. Full approval is awarded to schools that reach or maintain the acceptable standards and adhere to the policies and regulations of the board.

After visiting the school for two days and reviewing a comprehensive report, the board continued Penn State's undergraduate nursing program on full approval.

College of Education gets grant

The College of Education has received a two-and-one-half year, \$490,000 grant from the National Science Foundation for support of a project titled, "The Construction of Elementary Mathematics (CEM) Project."

Purpose of the project is to improve the preparation of elementary teachers to teach mathematics and to study the development of preservice teachers as they expand their understanding of mathematics and of children's learning.

Martin Simon, assistant professor of education and director of the CEM project, points out, "The National Council of Teachers of Mathematics has come out with its curriculum and evaluation standards, which provide an important vision for mathematics education. Its implementation would greatly improve mathematics preparation in this country. How do we prepare teachers to deliver this new vision of school mathematics, however? CEM is designed to contribute to answering this question."

Math program for teens

Some 60 mathematically talented middle-school students attended the sixth annual computing and mathematics

program sponsored by the College of Education last month.

Specifically designed for academically talented seventh- and eighth graders, the program focuses on math and problem-solving.

"We find that this program challenges the gifted students and gives them a head start on thinking about college," M. Kathleen Heid, associate professor of education, said.

For more information about the Mathematics and Computing Summer Program, contact Dr. Heid, Department of Curriculum and Instruction, 171 Chambers Building, University Park, or call 865-2430.

Penn College gets grant

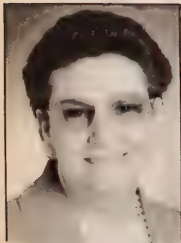

A development grant from the U.S. Department of Education, expected to exceed \$2 million over five years, will enable The Pennsylvania College of Technology to develop technology-based instruction to teach its students much the same way NASA trains its space shuttle pilots.

But, instead of flight simulators, students will use computers and interactive videos to simulate life experiences and to explore concepts in their courses.

Penn College will receive the grant through the Strengthening Institutions Program, established by the Higher Education Act of 1965 and commonly referred to as "Title III." The funds are to begin with an award tentatively set at \$423,728 for the 1990-91 academic year.

Grant M. Berry Jr., dean of development, said technology-based instruction, which may eventually be applied throughout the College curricula, has the capacity to revolutionize the educational process by stimulating students' enthusiasm for learning.

25-year award recipients

Observing 25 years of service at the University are, from left, Helen Bubline, laboratory attendant A, Department of Dairy and Animal Science; Lester C. Griel, associate professor of veterinary science; and William Merrill, professor of plant pathology, all in

the College of Agriculture; Wesley C. Hymer, director of the Center for Cell Research and director of the Space Grant College Program in the Eberly College of Science; Shirley Woods, secretary and budget officer, Office of the President.

Partings

Tennis Coach **Holmes Cathral**, the dean of Penn State's head coaches, has retired from his teaching and coaching position after more than 25 years service.

Mr. Cathral joined the faculty and coaching staff prior to the start of the 1964-65 school year. In 26 seasons, his teams posted a composite mark of 280-197-1, winning Eastern Championships in 1972, 1973, 1975 and 1977, and Atlantic 10 Conference titles in 1978 and 1980. He inherited a program in the midst of eight consecutive losing seasons and promptly began a string of 19 straight non-losing seasons.

During his first five years at the University, he also served as freshman basketball coach under coaches John Egli and John Bach.

"Holmes Cathral has given exceptional service to our athletic department," athletic director Jim Tarmann, said. "He built our tennis program into one of the most competitive and highly respected in the East."

Mr. Cathral joined the University staff following three years at Lackawanna Trail (Pa.) High School, where he was the head basketball coach and an assistant coach for the football and track teams. He previously taught and coached in the Elk Lake (Pa.) school system.

A native of Scranton, Mr. Cathral was an outstanding prep school athlete at Blair Academy in Blairstown, N.J. He entered Colgate in 1942 and earned four varsity letters each in basketball, track and tennis. He graduated from Colgate in 1947 and served a tour of duty with the U.S. Marine Corps in the Pacific Theater, where he ranked of captain.

Holmes Cathral

Helen Irvin, food preparer in Housing and Food Services, has retired after 25 years of service. She began as a counter attendant in Johnston Commons and served as head cook for Johnston and Redifer Commons and assistant cook for Waring Commons.

Along with the enjoyment of working with students, Ms. Irvin mostly liked to work the early shift. Starting her day at 5:30 a.m., she was usually able to be home when her children returned from school.

A mother of five and a grandmother of eight, she plans to spend retirement catching up on things.

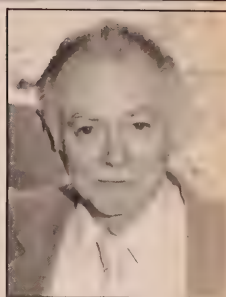

Charles E. Sohl, assistant professor of engineering at the Penn State Ogonitz Campus, has retired after more than 40 years of service.

Helen Irvin

He began his University career in 1949 as acting head of York Technical Institute now the Penn State York Campus. He spent the following year teaching at the former Swarthmore and Allentown centers. After taking a year's leave, he returned to Ogonitz.

Once listed in *American Men of Science*, he has functioned in many capacities outside of the classroom over the course of his career. In addition to leading the associate degree program in mechanical engineering, he has served as chairman of the Ogonitz Faculty Senate, member of the University Faculty Senate and Council, staff consultant to the assistant director of academic planning, and scheduling officer. He also has been involved with student organizations, serving as adviser for the

Charles E. Sohl

theater group and faculty sponsor of the Young Americans for Freedom.

In recognition of his advising skills, the Penn State Engineering Society chose Professor Sohl to receive this year's Outstanding Advisor Award. Serving as both college representative and group leader of the mechanical engineering program at Ogonitz, he was responsible for all engineering and MET advising at the campus. He also served as adviser to the Ogonitz Engineering Society and the student chapter of the Society of Manufacturing Engineers, for which he won several recruiting awards.

In addition, he helped to plan and supervise the conversion of three buildings at Ogonitz.

Faculty/Staff Alerts

New parking map

A revised parking map, which includes parking rules and regulations, will be distributed in mid-August to faculty and staff members who have parking permits.

Fall parking reminder

Faculty and staff members are encouraged to carpool, walk or take public transportation during the week of Aug. 20, when new and returning students arrive at

University Park. In addition, faculty and staff members who park on campus during that week are urged not to move their cars from the lots during working hours.

Parking lot Yellow A

The Yellow A lot at Pattee Library is now reserved until 9 p.m. daily, instead of 7 p.m. It becomes the third lot, along with Yellow B (at Oswald Tower, Pond and Chandler labs) and Brown A (one section of Deike), to have extended reserved parking hours.

Parking lot 80

Beginning Aug. 20, the southern section of student lot 80 will become faculty and staff lot Blue A (part time), providing about 420 parking spaces for holders of Blue A parking permits. Other parking permits will no longer be valid in this lot.

The entrance to Blue A lot will be from Bigler Road near the Curtin Road intersection. The lot is available for part-time and full-time faculty and staff parking.

Obituaries

Helen L. Meyer, food lab and equipment attendant, College of Human Development, from Sept. 1, 1950, until her retirement Nov. 13, 1973, died June 30. She was 77.

Mary E. Long, food service worker, Housing and Food Services, from Aug. 28, 1961, until her retirement Feb. 18, 1976, died June 29 at the age of 71.

Staff Vacancies

(Continued from page 8)

*00830. Manager, Orthopaedic Appliance, University Hospital, Elizabethtown Hospital, The Milton S. Hensley Medical Center - Responsible for the operation of the Orthopaedic Appliance Department and for the supervision of the process necessary in the production of orthotic and prosthetic devices. Requires bachelor's degree in anatomy, physiology, or related area, or equivalent, with two to four years of effective experience. Must possess current orthotist or prosthetist certification as awarded by the American

Board of Certification in Orthotics and Prosthetics. STAFF GRADE 7

*00831. Area Representative, Continuing Education, Penn State Harrisburg - Responsible for the development, organization, operation and administration of Continuing Education programs and services in an assigned service area. Plan, schedule, staff, and conduct evening school class operations, workshops, conferences, and contract services with clientele develop an efficient and effective marketing plan for programs to be administered. Requires

bachelor's degree or equivalent, plus two to three years of effective experience in business, industry or education STAFF GRADE 7.

*00832. Computer and Technical Support Assistant, Schuylkill Campus, Academic Affairs - Responsible to the director of academic affairs, and to various campus staff and faculty for maintaining operations of the campus computer laboratories for monitoring the use and condition of assigned computer, audio-visual, telecommunications, lighting and sound equipment and for coordinating stage lighting, sound and set-up of auditorium events. Requires associate degree, or equivalent, in computer science or related field plus one

to two years of effective experience in the computer field. General knowledge of audio visual equipment and stage lighting preferred. STAFF GRADE 4

*00833. Coordinator, Job Development and Internships, Behrend College, Career Development - Responsible to the career development and placement coordinator for the development of full-time, part-time, internship and summer job opportunities for undergraduate and graduate students. Coordinate the on-campus recruitment program and assist students in the job search process through individual and group counseling and instruction. Requires master's degree, or equivalent, in student personnel or a related field,

plus one to two years of effective experience. STAFF GRADE 6

*00834. Residence Hall/Recreation Coordinator, Mont Alto Campus, Residential Life - Responsible to the assistant director for campus life for residential living programs serving 270 students, as well as assisting the athletic director with the campus intramural recreation program. Requires master's degree in student personnel counseling and/or recreation plus up to 12 months of effective experience in residence hall administration and/or recreation of bachelor's degree in a related field plus one to two years of effective experience. THIS IS A CONTINUING 10-MONTH LIVE-IN POSITION. STAFF GRADE 6.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until **Aug. 16, DO NOT CONTACT THE UNIVERSITY THAT HAS THE VACANCY**. Applications for staff vacancies are considered in accordance with Fair Employment Practices (FES) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law) sex, or status as disabled or Vietnam era veteran.

***08012, Writer-Information Aide, Agribiz, Ag Information Services, University Park Campus** - Assist senior staff in writing news stories and releases, periodic and magazine feature articles on College programs. Requires bachelor's degree or equivalent in some area of communications, preferably journalism, plus nine to 12 months of effective experience demonstrating ability to write and proofread. Experience in photoediting desired. THIS IS A FIXED TERM POSITION FUNDED THROUGH JUNE 30, 1991. STAFF GRADE 4.

***08014, Administrative Computer Systems Specialist, Liberal Arts, Center for Computing Assistance in LA, University Park Campus** - Responsible for IBIS implementation throughout College to include path maintenance changing LA IBIS information group serving as LA representative at IBIS meetings and trouble-shooting IBIS related problems. Requires associate degree or equivalent in accounting, computer science, or related field plus one to two years of effective experience in accounting and basic computer with computer applications. Knowledge of University computerized accounting and budget systems including IBIS desired. THIS IS A FIXED TERM POSITION FUNDED THROUGH JUNE 30, 1991. STAFF GRADE 5.

***08015, Counselor, Student Services, Career Development and Placement Services, University Park Campus** - Responsible to the assistant director for

career counseling for providing career development and placement services. Requires master's degree, or equivalent, in clinical or counseling psychology, counselor education, student personnel administration or related area, plus one to two years of effective experience. THIS IS A FIXED TERM POSITION FUNDED THROUGH JUNE 30, 1991. STAFF GRADE 7.

***08016, Conflict Management Specialist, Student Services, Campus Life, University Park Campus** - Responsible to the director, Center for Conflict Management, for directing and coordinating the activities of the mediation service, producing training materials and workshops on conflict resolution and mediation skills for student, faculty, and staff groups. Requires master's degree, or equivalent, in counseling or related field, plus one to two years of effective experience with mediation and alternative dispute resolution techniques. THIS IS A FIXED TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 7.

***08017, Museum Store Manager, University Arts Services, Palmer Museum of Art, University Park Campus** - Responsible for the management operation and development of the Museum of Art Store. Also responsible for all financial aspects including budget development, accounting, for sales, transactions and purchases, recording of inventory, and development of increased profitability. Requires bachelor's degree in art or art history, or equivalent, plus three to 12 months of effective experience. STAFF GRADE 5.

***08018, Information Technology Associate, Eberly College of Science, Statistics, University Park Campus** - Responsible for administering departmental computing facilities. Requires bachelor's degree, or equivalent, in computer science, electrical engineering or closely related discipline plus two to three years of effective experience. Requires operating experience with appropriate hardware and software, UNIX, DOS, CMS, IBM, SUN, networks, statistical packages and graphics. THIS IS A FIXED TERM POSITION FUNDED FOR ONE YEAR FROM DATE OF

APPOINTMENT WITH PROBABLE RE-FUNDING. STAFF GRADE 7.

***08019, Research Park Marketing Director, Senior Vice President for Research and Dean of the Graduate School, University Park Campus** - Responsible to the associate vice president for research and technology transfer for the development and implementation of an overall marketing plan for the Penn State Research Park. Requires bachelor's degree, or equivalent, plus five to seven years of effective experience with background in technology management, product development, and/or marketing. Experience in the development of University-related research parks or similar venture is desired. Graduate degree preferred. THIS IS A FIXED TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH STRONG POSSIBILITY OF RE-FUNDING. STAFF GRADE 9.

***08020, Human Resources Specialist, Office of Human Resources, University Park Campus** - Jointly responsible to the manager, Employment Division and the manager, Human Resources Development, for providing assistance and coordination in the areas of minority recruitment for staff, clerical, and technical-service positions. Requires bachelor's degree, or equivalent, preferably in management or human resources, plus one to two years of effective experience in recruiting, training or human resource functions. THIS IS A FIXED TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH A GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 6.

***08021, Reactor Supervisor/Nuclear Education Specialist, College of Engineering, Nuclear Engineering (Brazelton Reactor), University Park Campus** - Responsible for supervising the operation of the Penn State Brazelton TRIGA Reactor and other support systems of the facility in accordance with applicable facility (PSBR) and federal (USNRC) regulations. Requires bachelor's degree in technology or equivalent with two to three years of effective reactor operations experience. Must acquire and hold by means of qualification and requalification programs a USNRC Senior Reactor Operator license for the Penn State Brazelton Reactor. STAFF GRADE 6.

***08022, Environmental Analyst, College of Engineering, Nuclear Engineering, University Park Campus** - Responsible to the supervisor, Low Level Radiation Monitoring Laboratory, and a faculty member for conducting low level radiation monitoring and neutron activation analysis, for performing various laboratory procedures, for collecting and recording report data, and for providing general laboratory support. Requires bachelor's degree, or equivalent, in chemistry or related field and six months to one year of effective experience in an analytical laboratory environment. THIS IS A FIXED-TERM POSITION FUNDED FOR ONE YEAR WITH PROBABILITY OF RE-FUNDING. STAFF GRADE 4.

***08023, Academic Advisor-Undergraduate Student Services, Business Administration, Undergraduate Programs, University Park Campus** - Responsible for various academic and nonacademic programs in support of undergraduate advising. Requires bachelor's degree, or equivalent, in business, counseling, student personnel education, or a related field, plus one to two years of effective experience as a student degree preferred. Detailed knowledge of established University policies and procedures in areas of admission, baccalaureate degree requirements, and academic records highly desirable. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH RE-FUNDING LIKELY. STAFF GRADE 6.

***08024, Academic Advisor-Undergraduate Student Services, Business Administration, Undergraduate Programs, University Park Campus** - Responsible for various academic and nonacademic programs in support of undergraduate advising. Requires bachelor's degree, or equivalent in business, counseling, student personnel education, or a related field, plus one to two years of effective experience. Master's degree preferred. Detailed knowledge of established University policies and procedures in areas of admission, baccalaureate degree requirements, and academic records highly desirable. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH RE-FUNDING LIKELY. STAFF GRADE 6.

***08025, Clinical Head Nurse, College of Medicine, Nursing-Pediatrics, The Milton S. HERSHEY Medical Center** - Responsible to the nursing manager and/or the assistant director of nursing services for performing a variety of nursing duties, as well as providing leadership to nurse clinicians and other patient care personnel. Requires a registered nurse with a current license to practice professional nursing in Pennsylvania, plus one to two years of effective nursing experience. TWO POSITIONS AVAILABLE. STAFF GRADE 5.

***08027, Classification Analyst, University Hospital, Department of Human Resources, The Milton S. HERSHEY Medical Center** - Responsible to the assistant director, Department of Human Resources, for assisting in the implementation and maintenance of the University's wage and salary classification plans at the Hershey Medical Center and for assigned special projects. Requires bachelor's degree, or equivalent, preferably with some course work in personnel administration or industrial engineering, plus one to two years of effective experience, preferably in job evaluation or classification activity. STAFF GRADE 6.

***08028, Audiologist, College of Medicine, Department of Nursing/Outpatient, The Milton S. HERSHEY Medical Center** - Responsible to the manager, Ambulatory Services, and chief, Division of Otorhinolaryngology, for diagnostic, rehabilitative and rehabilitative services, as well as personal research related to hearing impairments and defects. Requires master's degree in audiology, plus one to two years of effective experience. STAFF GRADE 6.

***08029, Director, College of Medicine, Student Affairs, College of Medicine, Department of Student Affairs, The Milton S. HERSHEY Medical Center** - Responsible to the associate dean of student and alumni affairs and the assistant deans of student affairs for the administrative and counseling functions performed in the Office of Student Affairs. Requires master's degree in a relevant area (admissions, student affairs, financial aid, student services) and two to three years of effective experience. STAFF GRADE 7.

Executive Programs highly ranked

The Penn State Executive Programs holds one of the top market shares in its field worldwide, according to latest ratings in a leading trade publication.

"The Bricker Bulletin on Executive Education" placed Penn State 12th in total number of participants among 89 institutions worldwide that offer educational programs internationally to mid- and upper-level business executives. Penn State was fourth among public American institutions on the list and ninth among U.S. schools overall.

Topping the list was the University of Michigan which enrolled 1,984, followed by Harvard University with 1,854. Penn State had 483 participants; the University of California at Berkeley, 295 (ranked 19th); and Dartmouth College, 271 (20th).

The only other Pennsylvania institution on the "Bricker" international list was the University of Pennsylvania, which was ranked sixth.

The Executive Programs, part of the Mary Jean and Frank P. Smeal College of Business Administration, tied for fourth worldwide (with the French school INSEAD) in the total number

of programs offered, and was third and fifth, respectively, in the number of functional and general management programs offered.

Penn State had the ninth largest market share in a separate "Bricker" ranking of 62 institutions that offer executive programs in North America.

The University of Michigan again topped the list in market share, followed by Harvard and Columbia universities. Rounding out the top 20 were Boston University (19th) and the University of California at Los Angeles (20th).

In the North American rankings, Penn and Penn State were joined by Carnegie Mellon University (18th) as Pennsylvania schools listed.

Penn State was third in the number of programs offered to participants, tied for fifth (with Western Ontario) in the number of general management programs offered and tied for fifth (with Harvard) in functional programs.

Now in its 34th year, the Penn State Executive Programs had more than 700 total participants during 1989-90, including individuals from nearly 40 countries.

Proclamation

In proclaiming the week of Sept. 8-15 as POW/MIA Recognition Week, President Jordan has issued the following:

Whereas, Approximately 2,400 American servicemen are still missing or unaccounted for from the Vietnam

conflict, which ended over 15 years ago; and

Whereas, The National League of Families reports that 117 of them are from Pennsylvania; and

See "Proclamation" on page 3

Pollock Road closing

Pollock Road at University Park is now closed to through traffic Monday through Friday, 7:45 a.m. to 5 p.m. Pollock Road will be open to Fraser Road with limited access to Old Main from the west entrance on Atherton Street. From Shortlidge Road, Pollock Road will be open up to McAllister Building.

The closing will protect pedestrians from traffic during class changes, while allowing access to all parking lots.

"After reviewing the results of our trial closing in April, we feel that the benefits of closing Pollock to protect pedestrians far outweigh the minor inconveniences of not being able to drive through campus at this point and the surprisingly small increases in traffic on nearby streets," David E. Stormer,

assistant vice president for safety and environmental services, said.

The impact study, conducted while Pollock Road was closed on a trial basis last spring, measured traffic volume and trips on alternate streets, such as Curtin and Burrowes roads and Park and College avenues, as well as the costs of extra faculty and staff travel time.

The University has worked with the Borough of State College traffic engineers on the traffic impact study.

Signs will be placed at the intersections of Pollock and Shortlidge, and Pollock and Burrowes to notify motorists of the closing. Pollock Road will be open to through traffic evenings, weekends, holidays and between semesters.

New freshmen participate in "Playfair: Celebrating Community," a presentation geared toward providing new students with the opportunity to interact with students from different backgrounds. The event, conducted Aug. 16 by the University's Student Services Division of Campus Life, Residential Life in the Greenberg Indoor Sports Complex at University Park, is part of a series of activities aimed at developing an appreciation for diversity among the new student population. (Photo: Greg Grieco)

Private Giving to Penn State

DeFluri scholarship will assist student athletes

A State College businessman has committed \$550,000 to help student athletes in honor of his father, Frank DeFluri of Hazleton, a friend and father figure to a generation of Nittany Lion football players.

Richard DeFluri designated proceeds of a \$500,000 life insurance policy to endow the Frank "Fritz" DeFluri Football Scholarship. The policy is owned by Penn State, but is funded by DeFluri and names the University as beneficiary. A \$50,000 annuity was similarly designated for general athletics.

Fritz DeFluri operated the first Home

Delivery Pizza shop in State College, at 129 S. Pugh St., from 1956 to 1974. It was a second home to football players and other athletes, where DeFluri and his family developed close friendships that continue to this day, according to his son.

"When I was growing up," Richard DeFluri said, "I thought everyone was 6-foot-5 and 240 pounds. My dad became like a father to those kids, like Franco Harris, Don Abby, Ted Kwalick and Don Jonas. They still call, asking about him and out how they can reach him."

His personal qualities are also noted by

one long-time friend, Head Coach Joe Paterno.

"Fritz is one of the most generous, warm-hearted guys around," Coach Paterno said. "And he's about as loyal to the program as anyone I've known."

The football scholarship will support student athletes who play the outside linebacker, or Fritz position, which was named for Frank DeFluri during the tenure of former Head Coach Rip Engle. Coach Paterno added.

He said that the scholarships stabilize the program by freeing more football revenues

to be used by the other sports University-wide.

Frank DeFluri graduated from Penn State in 1956 with a degree in business administration. He currently owns and operates the Hazleton Nursing and Geriatric Center and the Mountain City Nursing and Geriatric Center in Hazleton.

Richard DeFluri is a 1974 graduate of the University in insurance and real estate and is a financial consultant with the Pennsylvania Financial Group.

Grant to develop leadership education

The University will develop leadership educators for local communities with the help of a \$50,000 grant from the W.K. Kellogg Foundation.

According to Debra Gregory, project associate in the College of Agriculture and state coordinator for the Family Community Leadership project, the thrust of the program is to "train the trainer." "Participants will learn to resolve family and community issues that they themselves identify," she said. "As educators, our role is to teach decision-making, public-policy and group-process skills, so that participants can train others to effectively deal with local issues."

The FCL project will be conducted by

Penn State Cooperative Extension agents and volunteers beginning in August in 10 Pennsylvania counties that are now being identified. The three-year Kellogg grant will pay the expenses incurred by volunteers attending training sessions.

Our concern is with encouraging people to take a greater role in shaping today and tomorrow," Russell G. Mawby, chief executive officer of the foundation, said.

The foundation, one of the largest private philanthropic organizations in the world, has distributed more than \$1.2 billion since it was established in 1930 to support programs in agriculture, education and health.

For outstanding students Agriculture gets scholarships

A University alumnus and his wife have committed \$250,000 for scholarships aimed at recruiting outstanding students to the College of Agriculture.

James Leamer of Elliptic City, Md., a 1951 graduate of the college and executive director of the Maryland Higher Education Loan Corp., said he and his wife, Gertrude, want the college to remain academically competitive.

"We hope these scholarships allow Penn State to attract some first-rate students that it otherwise might have lost to other top agricultural colleges in the Northeast."

Mr. Leamer, who managed his own dairy

farm near Dunlo in Cambria County while still in high school, earned his degree in agricultural education. He taught vocational agriculture in York County from 1951 to 1958. He then served as a high school guidance counselor in the county schools until 1965, when he assumed his present position.

"Jim and Gertrude Leamer's generous gift helps us to meet a critical need," Dean Lamartine F. Hood, said. "State and federal funds are simply inadequate to support all the programs we must have if we are to continue to rank among the nation's best agricultural colleges."

Best Western gift

L.B. Thomas, president of Best Western State College Inn, has committed \$20,000 to establish the Best Western State College Inn Scholarship, which will provide financial assistance to a full-time junior or senior in the hotel option in the School of Hotel, Restaurant, and Institutional Management.

"Without Penn State's support, my business would not be as successful," Mr. Thomas says. "It seemed only fitting to give some of the earnings back to the University."

Center for Electro Optics Research gets grant

The University's internationally known Center for Electro Optics Research has received a \$55,000 grant from Mitsubishi Kasei Corp. to test the use of high-capacity optical disks for image correlation.

F.T.S. Yu, Evan Pugh professor of electrical engineering and director of the center, is conducting the research.

The high capacity of the disks — 100 trillion bits of information — makes it possible to store vast numbers of reference images," Dr. Yu said. "This might allow a

hybrid optical computer, for instance, to recognize a particular type of blood cell as an aid to physicians in medical diagnosis or research. We're trying to show that there are practical methods to allow a hybrid optical computer to do this."

Dr. Yu noted that, in terms of pattern recognition, a 3-year-old child can outperform today's most powerful computers.

Mitsubishi's grant is supporting Dr. Yu's efforts to use a joint transform correlator to eliminate laborious and time-consuming

programming tasks, and his work to devise statistical methods to permit high-speed, random-access searches of the optical disks' memory files.

Mitsubishi Kasei is a highly diversified electronics and consumer products manufacturer with world headquarters in Yokohama, Japan. The Center for Electro Optics Research attracted the attention of a company official who met with Dr. Yu last year.

Gift of \$750,000 is pledged to Berks Campus campaign

A Wyomissing physician has pledged \$750,000 to the Penn State Berks Campus capital campaign. It is the largest contribution to the campus's fund-raising effort and the second largest pledge to any of Penn State's 17 Commonwealth Campuses during the University-wide Campaign for Penn State.

The gift by Frank A. Franco, an internal medicine specialist in Reading, will go toward construction of a new academic building on the campus.

"I am extremely pleased to accept Dr. Franco's most generous gift on behalf of the University," Campus Executive Officer

Frederick H. Gaige said. "With the rapid escalation in construction costs since the Berks Campus campaign began, it would not have been possible to build as large a building as we'd originally planned without such major gifts as Dr. Franco's. The gift is a testament to his strong commitment to the Berks area."

The Penn State Berks capital campaign surpassed its \$2 million goal in early May and has raised more than \$2,750,000. The gifts are designated toward the construction of the new academic building as well as the addition of several laboratories to the existing Luessen Building.

While an undergraduate at Penn State, Dr. Franco was a member of the pre-medical honor society Alpha Epsilon Delta and later served two years as a National Institutes of Health Fellow in metabolic diseases.

In 1961, he entered the communications field and with colleague Howard F. Reber founded City Broadcasting Co. Inc. The enterprise grew to include four radio stations, including WRFY and WRAW in Reading and WMMB and WGGD in Melbourne, Fla.

Dr. Franco serves on the Alvernia College Board of Trustees and recently was

invited to serve on the Penn State Berks Advisory Board. He also serves on a number of other advisory boards locally and in Philadelphia.

In 1989 he was the recipient of the Franciscan Service Award from Alvernia College and in 1990 the Italo-American Citizenship Award. He is a life member of the Penn State Alumni Association.

Dr. Franco and his wife, Paula, have two children: David, who operates the two radio stations in Florida; and Mary Jo, who directs the family's equestrian center in York County. The Francos have four grandchildren.

Behrend gets funding for library, academic complex

Gov. Robert P. Casey presented Penn State-Behrend Provost and Dean John M. Lilley with a check representing nearly \$10 million last semester to make a long-awaited and much-needed library and academic complex a reality at the four-year and graduate college.

"The new library and academic complex will help to improve the climate for first-rate scholarship and superb research, fulfilling the needs of our students and faculty," Dr. Lilley said. "The new structure will increase our research capabilities, and will help to make possible nationally recognized graduate programs, thus aiding economic development."

"This action is concrete proof of the governor's commitment to Northwestern Pennsylvania. It also is the result of the very hard work of State Rep. Bennie Dombrowski, who has been the catalyst for the project. It will bring a substantial construction project into the region."

Enrollment has more than doubled at the 700-acre campus during the last five years, bringing library facilities, classroom space, and faculty offices to full capacity. Fall 1989 enrollment figures peaked at 2,838.

Artist's rendering of new library and academic complex

The present library, located in the College's Reed Union Building, is a temporary space. The new 100,000-square-foot complex will be located to the east of the Reed Union Building. It is designed to complement historic touches from the original farmhouse on campus, belonging to

the College's benefactors Ernst and Mary Behrend. The Pittsburgh architectural firm of L.D. Astorino and Associates, Ltd., is the architect for the project.

The only other campus building funded by the state is the Nick Building, erected in 1970.

In addition to housing the new library, classroom and faculty office space, the new structure will contain Penn State-Behrend's communication center, which includes printing services and a television studio. The library itself will have private study areas, a language lab, and computer labs.

Obituary

Arthur Rose, professor emeritus of chemical engineering, died July 27. He was 87.

He received his bachelor of science degree in 1925, his master of arts degree in 1926 and Ph.D. in 1927 from the University of Cincinnati. Prior to joining the chemistry faculty in 1931, he taught chemistry at Lehigh University and the University of Hawaii. He retired from Penn State in 1964.

A member of the American Chemical Society since 1925, Dr. Rose held various offices in the society. He was a Fellow of the American Institute of Chemists, the

New York Academy of Sciences, and the American Association for the Advancement of Science.

He was the author of six books, including four editions of the *Condensed Chemical Dictionary*, a standard reference work for chemists.

Carpooler

One carpooler is needed from Altoona. Belwood intersection Route 220, or from Tyrone to University Park. Hours are 8 a.m. to 5 p.m. Call Cathy at 865-0556, leave your name and number. She will return your call.

"Corporate Challenge" run/walk planned

The first annual "Corporate Challenge" 5K Run/Walk will be held Sept. 15 at Supelco Park in Pleasant Gap.

Starting at 9 a.m., the 5-kilometer (3.1 mile) run will involve competition among corporate teams composed of local employees and their dependents as well as individual participants. For those who prefer a less-competitive pace, a separate 5K fun walk will begin prior to the run at 8:30 a.m.

Awards will be made to the first place male and female corporate running teams and a corporate cup will be awarded to the employer with the highest percentage of participation in both the run and walk.

Individual awards will be provided. University faculty and staff and families are invited and encouraged to participate either as teams or individuals. All team members are required to pre-register by Sept. 1 and must be employees or dependents of Penn State.

At University Park, registration forms are available at Recreation Building, IM Building, White Building and the Faculty/Staff Health Promotion Office in Rider Building. For more information, contact Nancy Sassano at 865-3085 or event co-chairspersons Bob Shirey or Terry Reid of Supelco (359-3441).

Center doesn't agree to anti-obscenity clause

The Director of the Center for the Performing Arts has refused to agree to the new anti-obscenity clause required by the National Endowment for the Arts.

Ken Foster said that while he officially accepts the \$5,000 grant from the NEA, his refusal to agree to the content restriction, in effect, turns down the money before it is given. It was a matter of personal conscience not to bow to threats of censorship, he said, and not a University decision.

"Particularly in a University community, we have a responsibility to present a wide range of artistic work," Mr. Foster added. "This action by a federal agency is the first step that restricts both the artist's right to create and the audience's right to experience uncensored work that often deals with important social issues." The Center for the Performing Arts at University Park will present 30 events during this fall and spring semesters

including opera, dance, theater, jazz and Broadway shows.

James Mooser, dean of the College of Arts and Architecture under which the center functions, added his support to Mr. Foster's decision.

"It is not easy to turn away much needed financial assistance," Dean Mooser said. "However, I am convinced that if those of us in the mainstream of the artistic community do not speak up now, we may gradually lose our ability to speak with freedom at all."

Each program director in the college may decide whether to accept or decline an NEA grant, according to the dean.

In the growing debate over funding of the arts, the NEA has come under sharp criticism by U.S. Sen. Jesse Helms (R-N.C.) and other conservative factions. Their action led to restrictive legislation imposed by the Senate Appropriations Committee. It requires grant recipients to pledge they will

not use funds "to promote, disseminate or produce materials which in the judgment of the NEA...may be considered obscene."

The \$5,000 grant was awarded for a series called *Dramatic Encounters* created in 1989 to present new works, diverse and sometimes experimental works. The series, which includes four performances, met all NEA criteria. Fewer than 100 grants will be given this year by the NEA to presenting organizations such as the center.

The NEA grant represents approximately 6 percent of the direct costs associated with this project, Mr. Foster said.

Although they do not know how they will replace the money, he said the center will not cut or change any of the programs planned for this season.

The center's season includes the Pittsburgh and the Philadelphia orchestras, New York City Opera National Company, The Sound of Music, a Mozart festival and a new children's series.

Proclamation

Continued from page 1

Whereas, The Freedom Tree, which was planted outside of Wagner Building on the Penn State campus in 1973, dedicated to Capt. Charles J. Calfarelli, a Penn State graduate, and all other Americans still missing in Southeast Asia; and

Whereas, Each day, the official POW/MIA flag is raised with the American flag on the flagpole next to the Freedom Tree; and

Whereas, The Congress of the United States has proclaimed Sept. 16, 1990, as National POW/MIA Day, and the University supports that effort.

Therefore, I, Dr. Bryce Jordan, president of The Pennsylvania State University, do hereby proclaim the week of Sept. 8-15, 1990, as POW/MIA Recognition Week at Penn State. I urge everyone to remember our POW/MIA and to support efforts to obtain the fullest possible accounting for them.

Focus on the arts

The arts on Channel 3

Guest conductor John McGinn, who specializes in restoring and performing original orchestrations of great American musicals, joins the Boston Pop Orchestra in a salute to the show tunes of Kern, Gershwin, Porter and Rodgers, performed as they were in the golden age of American song on *Evening at Pop*, airing at 9 p.m. Friday, Aug. 24, on WPX-TV.

A leading acting teacher who has trained some of the most skilled and famous performers of the stage and screen for over half a century is revealed in "Sanford Meisner: The Theater's Best Kept Secret," which premieres on *American Masters* at 10 p.m. Monday, Aug. 27.

The challenges and rewards of the solo dancer are explored in *On Dancing Isadora's Dance*, a half-hour performance documentary by Annabelle Gamson, premiering at 10:30 p.m. Wednesday, Aug. 29.

In the program, Ms. Gamson recreates many of the legendary Isadora Duncan's solo dances to capture the spirit of the famous modern dancer and choreographer.

HUB exhibit

"Spectacular Vernacular: Traditional Desert Architecture from West Africa and Southwest Asia" will be on display from Aug. 25 to Sept. 23 in the Formal Gallery of the Hetzel Union Building at University Park.

Through the unique eye of photographer Carollee Pelos and the knowing mind of architectural historian Jean-Louis Bourgeois, the deserts of West Africa and southwest Asia come alive in the exhibit, which is on loan to the University from the Smithsonian Institution Traveling Exhibition.

Robert Howard

"Spectacular Vernacular" offers extraordinary views of a vanishing form of traditional desert architecture that is almost unknown in the West.

French music

Trombonist Mark Lusk and pianist Marylene Dosse will present a recital of French music at 8 p.m. Sunday, Aug. 26, in the Recital Hall of the Music Building at University Park.

The program will feature music written for the trombone and euphonium by composers associated with the Paris Conservatory of Music.

Mr. Lusk has been a member of the School of Music faculty since 1986. He and his students have performed throughout Pennsylvania and nationally.

Ms. Dosse, professor of piano in the School of Music, is a graduate of the Paris Conservatory of Music.

Trumpet recital

Robert Howard, a faculty member in the School of Music, will present a trumpet recital at 8 p.m. Monday, Aug. 27, in the Recital Hall in the Music Building at University Park.

Pianist Carl Blake, a faculty member in the School of Music and assistant dean for recruitment and retention in the College of Arts and Architecture, will assist Mr. Howard.

The program will include selections by Kent Kennan, Frederic Chopin, Norman Dello Joio and Georg Philipp Telemann.

Romantic Era music

Smith Toulson, clarinetist and member of the faculty in the School of Music, will present a recital of music from the Romantic Era at 8 p.m. Wednesday, Aug. 29, in the Recital Hall of the Music Building at University Park.

He will be joined by pianists Jill Olson, Timothy Shafer, and Steven Smith. The program will feature three works from the 19th and early 20th century that are among the masterpieces for clarinet and piano.

Mr. Toulson, associate professor in the School of Music, also conducts the Penn State Symphonic Wind Ensemble and is principal clarinet with the Penn's Woods Music Festival.

Hands-on exhibition

"The Machines of Leonardo da Vinci," an exhibition featuring 27 table-top scale replicas of inventions inspired by the notebooks of the 15th-century Renaissance master Leonardo da Vinci, is open at the Palmer Museum of Art at University Park.

The exhibition, originally organized more than 30 years ago by IBM Corp., will remain on display through Nov. 4. The local office of IBM was integral in bringing the exhibition to the Centre Region.

Although Leonardo (1452-1519) is best remembered as an artist and sculptor, his genius has greatly contributed to many other domains, including anatomy,

Desert architecture is on display in the Hetzel Union Building's Formal Gallery beginning Aug. 25.

architecture, and military engineering. His notebooks, written in mirror image, were crammed with sketches of machines, weapons, and other inventions—many of which were never realized until several centuries later when advances in technology facilitated their development.

According to Charles R. Garoian, assistant director of the Palmer Museum, visitors are invited to actually operate the models. In coordination with the exhibition, he has organized films, a lecture series, symposium, and workshop.

This fall, the museum's ongoing "Careers in the Arts" series will focus on Penn State faculty and staff who have merged their computer talents with the disciplines of art and music.

"Today's Leonardos," a free day-long symposium scheduled for Saturday, Sept. 15, will feature keynote speakers from around the country whose work exemplifies Leonardo's ingenuity of bridging the arts, sciences and technology.

"Tomorrow's Leonardos" an all-day workshop scheduled for Saturday, Oct. 20, will bring together high school science and art students from the Centre Region to create their own inventions under the guidance of their teachers.

Mozart Festival

This season, in honor of Wolfgang Amadeus Mozart who died 200 years ago,

orchestras all over the world will be playing his work. Penn State joins this worldwide festival with four concerts this season to highlight his music exclusively.

All the concerts will be held at 8 p.m. in Schwab Auditorium at University Park Campus. In addition, each will feature a pre-concert talk by the performers on the composer and his work.

On Sept. 21, the Jupiter Symphony, an ensemble named for Mozart's famous symphony, will present a program under the direction of its founder and conductor Jens Nygaard. They will play the favorite "Eine Kleine Nachtmusik," along with other selections. The Jupiter Symphony, which had its debut in 1979 at a sold-out concert at Carnegie Hall in New York, is known for its fresh style and innovative programs.

On Oct. 27, the Emerson String Quartet will play four selections including Mozart's "Dissonant" Quartet in C Major and his "Clarinet Quintet in A Major" with guest soloist David Shifrin. Based in New York City, the quartet has a residency with the Chamber Music Society of Lincoln Center (the first and only ever to be so honored) and the Smithsonian Institution.

On Jan. 26, the Mozartean Players Classical Orchestra will play Mozart on all "original" instruments of his day. Led by Steven Lubin on fortepiano, with Myron Lutkze on classical cello and Stanley Ritchie on classical violin, they will play, in

Please see "Arts" on page 5.

The arts at...

Altoona Campus

A collective exhibit of the Susquehanna River Art Center of DuBois is on display in the McLanahan and Sheltz Galleries at the Penn State Altoona Campus through Saturday, Sept. 8.

The Susquehanna River Art Center is an organization of dedicated amateur and professional artists, and those interested in the visual arts. The group has a permanent gallery and workshop in the Clearfield Arts

Studio Theatre. They sponsor 10 or more individual and group exhibits and a number of workshops each year, all open to the public.

The works on display include a silkscreen by Ginny Davis Baggett, watercolors by Bill Riley and Joanne Dixon, and oils and acrylics by other artists including pieces by Sally Wilson and Willard Dominick. Other mediums also will be on display during the public exhibit in the Campus's galleries.

Reflects an international perspective

Bookshelf

Gary S. Cross, professor of European
history, is the editor of *Worktowners at
Blackpool: Mass-Observation and Popular Leisure
in the 1930s* (Routledge, London), an
account of labor and leisure in British
society prior to World War II, which
focused on the annual pilgrimage to
Blackpool, a seaside resort.

The laborers', or "worktowners'," annual
vacation trek to Blackpool was at the
center of a cycle of renewal and release for
the working-class. Mass-Observation, a
young group of participant-observers led by
Tom Harrison, recorded what it saw,
hoping to explain the attraction of workers
to this crowded, gaudy temple of Victorian
culture.

The book, with essays by Dr. Cross and
Blackpool historian John K. Walton, which
provide perspectives on the study and
analyzing the history of Mass-Observation
and its portrayal of Blackpool, is based on
Mass-Observation's 1937 attempt to record
the everyday life of ordinary people for a
popular audience. The Second World War
made publication of its results impossible,
and Dr. Cross has synthesized and placed
these observations in a fascinating context.

James Levin, academic adviser and affiliate
assistant professor of education, and James
F. Nolan, associate professor of education,

are authors of *Principles of Classroom
Management: A Hierarchical Approach*,
published by Prentice-Hall Inc.

The book is a practical guide for
preservice and inservice teachers and is
intended to aid development of plans for
effective management using a hierarchical
approach. The book includes 41 case
studies drawn from classroom experience,
37 principles of classroom management and
more than 100 problem-solving exercises.

Arthur O. Lewis, associate dean emeritus
and professor emeritus of English; W.
LaMar Kopp, deputy vice president for
international programs; and Edward J.
Danis, adviser, Division of Undergraduate
Studies, are the editors of *Anglo-German and
American-German Crosscurrents*, volume four.

Published by University Press of America
Inc., the volume is part of a continuing
series emerging from the Penn State Project
on Anglo-German and American-German
Literary and Cultural Relations.

Articles focus on the theme of the
project and reflect the wealth of scholarly
resources found in the Allison-Shelley
Collection in the Rare Books Room of
Pattee Library.

Contributors include Philip Allison
Shelley, Walter J. Morris, Kenneth B.
Hunsaker, Maureen C. Devine, Heimy
Taylor, William Stupp, Andrew Kovalev
and Mr. Danis.

Sherry L. Willis, professor of human
development, and Samuel S. Dubin,
professor emeritus of psychology, are co-
editors of *Maintaining Professional Competence:
Approaches to Career Enhancement, Vitality, and
Success Throughout a Work Life*.

The book brings together 21 experts
from such fields as management,
organizational psychology, education
(faculty development), medicine,
engineering, industrial and labor relations.

Contributors examine ways in which
motivation, work environment, job design,
work assignments, supervisory-subordinate
relationships, organizational climate,
management policy, and a professional's
personal characteristics can help or hinder
his or her efforts to remain competent and
productive.

The rise of foreign competition, the rapid
rate of technological change and
innovation, along with the fast pace of
knowledge growth, has increased the
importance of professionals' competence.
Organizations are demanding competent
professionals who can deal with today's
complex issues. Universities are insisting on
up-to-date and competent faculty.

To remain competent, many mid-career
and older professionals now need to spend
more time keeping up-to-date with
developments in their field.

The authors show how creative,
challenging work assignments, good
communication, and supportive and flexible

management policies and practices can
motivate professionals to take their own
steps to stay informed about changes in
their fields and in related professions.
The book, published by Jossey-Bass
Publishers, provides concrete examples of
how to train professionals deficient in skills
through such methods as modeling, role
playing, and performance feedback. And it
details how, by using computerized
information systems, professionals can
direct their own learning and skills
maintenance.

Three other Penn State faculty and staff
contributed to the book: James L. Farr,
professor of psychology; Donna S.
Queeney, director of planning studies; and
Wayne D. Smutz, associate director of
planning studies.

addition to other selections, Mozart's Little
G-minor Symphony 25 and two fortepiano
concerti.

On Feb. 16, Mozart's piano sonatas will
be featured when Malcolm Bilson plays.
Performing on an American reproduction of
a so-called Mozart piano or fortepiano,
Mr. Bilson, a scholar as well as a musician,
has earned a reputation for his classical
interpretations.

Faculty members honored with awards, fellowships

Fred Brand Jr. awards

Two faculty members and a doctoral candidate in the College of Business Administration have received Fred Brand Jr. awards for their service to students. They are:

Dennis A. Gioia, associate professor of organizational behavior, Fred Brand Jr. Outstanding Teacher Award; **George B. Kleindorfer**, professor of quantitative business analysis, Fred Brand Jr. Outstanding Advisor Award; and **Timothy J. Rupert**, a Ph.D. candidate in accounting, Fred Brand Jr. Outstanding Student Teacher Award.

The Brand awards were established in 1979 through the support of Fred Brand Jr. of Pittsburgh, who received a bachelor's degree in commerce and finance from Penn State in 1932 and subsequently embarked on a successful career in insurance.

Dr. Gioia was cited not only for his abilities in the classroom, but also for articles and presentations he has made on instructional philosophy and methods. A member of the College of Business Administration faculty for 10 years, he holds bachelor's, master's and doctoral degrees from Florida State University. Before joining the University, he worked for Boeing Aerospace and the Ford Motor Co.

Dr. Kleindorfer was recognized for the exceptional measure of support he has provided Penn State students through his concerned advice and counsel.

A member of the Penn State faculty for 20 years, he holds a bachelor's degree from Notre Dame, a juris doctor degree from Georgetown University, a master's degree from Howard University and a doctoral degree from Carnegie Mellon.

Mr. Rupert was recognized for his ability to provide quality instruction while pursuing his own research and educational career.

Undertaking studies that combine work in taxation and cognitive psychology, Mr. Rupert's dissertation will explore "Deductive Reasoning in the Tax Domain." He holds both bachelor's and master's degrees from the University of Akron and has been the recipient of a Dean's Doctoral Fellowship and a Coopers and Lybrand Doctoral Fellowship.

Sloan fellowship

Ranee K. Brylinski, associate professor of mathematics in the Eberly College of Science, is among 90 outstanding young scientists to receive Sloan Research Fellowships from the Alfred P. Sloan Foundation.

According to the foundation, this year's fellows, chosen from more than 500 scientists in the early stages of their careers, were selected on the basis of their exceptional promise to contribute to the advancement of knowledge.

A specialist in invariant theory and geometry of group actions, Dr. Brylinski earned her bachelor's degree, with honors, from Princeton University in 1977. In 1981, she earned her doctoral degree from Massachusetts Institute of Technology and

Susan Irwin (left) and Joye Keenan are the recipients of the Vice President's Award for Exceptional Academic Services given annually by Robert E. Dunham (center), vice president and vice provost. The award is given each year to a clerical and staff employee in the Division of Academic Services. Ms. Irwin is a secretary in the Air Force ROTC office, and Ms. Keenan is director of operations and quality assurance in the Office of Student Aid. (Photo: Richard Ackley)

later that year was awarded a National Science Foundation Mathematical Sciences Postdoctoral Research Fellowship.

Before joining the Penn State faculty in 1988, Dr. Brylinski was an assistant professor at Brown University for six years.

Foundation fellowship

John A. Johnson, associate professor of psychology at the Penn State DuBois Campus, has been granted an 11-month fellowship by the Alexander von Humboldt Foundation, Bonn, Germany.

Under the Humboldt Foundation program, highly qualified scholars are given the opportunity to conduct research projects of their own choosing. The foundation offers approximately 450 to 500 fellowships each year on a worldwide competitive basis.

Dr. Johnson's proposed project involved personality assessment. Specifically, he will extend his ongoing research on factors that affect the validity of "self-report personality inventories to a German population." Among other objectives, the study will determine the degree to which values obtained in the United States correspond to the values obtained in Germany.

His research will be conducted at the University of Bielefeld in Germany.

Postdoctoral fellow

Christine Clark-Evans, assistant professor of French, has been named a 1990-91 Ford Foundation Postdoctoral Fellow. She will be hosted by the Centre National de Recherche Scientifique, Université de Montpellier, in France, to conduct research and writing on Diderot for one year starting fall 1990.

Penn State has received three doctoral fellowships, but this is the first postdoctoral award at the University.

A specialist in 16th- and 18th-century French literature, graduate examinations coordinator, and serving in other capacities in the Department of French, Dr. Clark-Evans will be working in rare book and archival collections of materials related to Diderot's theories on the psycho-physiology of speech and language.

The Program of Postdoctoral Fellowships for Minorities identifies individuals of high ability who are members of minority groups that have been traditionally underrepresented among the nation's behavior and social scientists, humanists, engineers, mathematicians, physical scientists, and life scientists, and enables them to engage in postdoctoral research and scholarship in an atmosphere free from their normal professional duties.

Approximately 25 fellowships were awarded in 1989 in a national competition conducted and administered by the National Research Council on behalf of the Ford Foundation.

NEH stipend

Michael W. Wolfe, assistant professor of history at the Penn State Altoona Campus, received a National Endowment for the Humanities Summer Stipend for his research in France this summer.

Dr. Wolfe, whose field of study is the history of France in the 16th and 17th centuries, is beginning a new research project on the effects of warfare, particularly siege warfare, on urban communities in early modern France. He plans to survey archives and identify other sources of historical information in four cities in France during June and July.

"With the invention of gunpowder and the rise of standing armies, a 'Military Revolution' took place in Europe between the Middle Ages and our modern times," Dr. Wolfe said. "Up to now, research on

this period has focused on the changing tactics and technology of war. I want to take a broader look at the new warfare, to determine the political, social, and cultural consequences of this revolution."

Mallinckrodt Scholar

David A. Wiegand, assistant professor of surgery at the Hershey Medical Center, has been named the 13th Mallinckrodt Scholar. The Mallinckrodt Scholar is a special medical school program established by the Trustees of the Edward Mallinckrodt Jr. Foundation to support junior faculty with medical research projects.

The foundation will be supporting Dr. Wiegand's obstructive sleep apnea research. "In this syndrome, breathing during sleep is interrupted, causing severe health consequences. It is believed this may be related to similar diseases, such as sudden infant death syndrome," Dr. Wiegand said.

His research examines the basic mechanisms by which the disease occurs, as well as emphasizing new diagnostic and treatment methods.

"This is a singular honor, and Dr. Wiegand has brought distinction not only to himself, but to the institution," C. McCollister Everts, senior vice president for health and human affairs and dean at Hershey Medical Center, said.

The funding of the grant begins Oct. 1, 1990, and follows for two subsequent years. The stipend will consist of \$50,000 for the first year, \$55,000 for the second year, and \$60,000 for the third year, including fringe benefits.

Engineering awards

Three College of Engineering faculty members have received the top teaching and research awards sponsored by the Penn State Engineering Society (SES).

A husband and wife research team received the Engineering Premier Research Award.

Vasundara V. Varadan, distinguished alumni professor of engineering science, and **Vijay K. Varadan**, distinguished alumni professor of engineering science and mechanics and electrical engineering, are internationally recognized pioneers in the area of engineered materials.

The Varadans are well known for their work in the modeling, construction and characterization of Chiral materials -- or materials which cause a traversing wave to rotate.

Harvey B. Manbeck, professor of agricultural engineering, received the 1990 Engineering Premier Teaching Award.

The recipient of consistently high student evaluations, Dr. Manbeck also guides one or more independent study courses each year, serves as an honors thesis adviser and has advised 12 graduate students since 1980.

In addition to classroom activities, he has developed numerous teaching materials and developed four major pieces of laboratory teaching equipment. He has co-authored a textbook and has developed two new courses and completed major revisions of two others.

Focus on Diversity

Dr. Stewart anticipates challenges, opportunities

Vice provost looks forward to new role

Jim Stewart is looking forward to the upcoming academic year with a great deal of anticipation.

Dr. Stewart, associate professor of labor studies and industrial relations and former director of the Black Studies program, was appointed July 1 as vice provost responsible for underrepresented groups at the University—one of the few positions of its kind in the nation.

"I do anticipate a lot of challenges and opportunities in this new position," he said. "There is no question that it will present a lot of challenges. But it also provides the opportunity to help change the face of the institution in preparation for new complexities that universities will be facing in the next century."

Dr. Stewart sees his role in the new post as "a catalyst for operationalizing the University commitment to cultural diversity and addressing underrepresentation of various groups."

"In many ways," he said, "I'll be an advocate for consideration of these issues in every discussion with the University's various constituencies."

One of the major thrusts he anticipates is bringing together the planning of cultural diversity under the rubric of strategic planning.

"Up to now, planning and related efforts have been largely outside of the strategic planning process. Under the office of the vice provost, we plan to pull these together. This will enable us to develop a broader ownership across the institution rather than having these efforts being seen as the work of specific units."

Dr. Stewart said another important aspect of the new position will be an effort to help various constituencies work together in helping to ensure that all groups are appropriately considered in planning activities and the allocation of resources.

"As much as possible, we want to gather ideas from the constituencies the institution represents and build these into

programming efforts designed by the various administrative units."

Dr. Stewart, who had been granted a sabbatical leave from September to December before being tapped as vice provost, will continue with the leave as planned. He will be at Temple University, where he will research the papers of the Rev. Leon E. Sullivan, who developed the Sullivan Principles that promoted nonsegregation and equality of opportunity in the operation of American institutions maintaining property and doing business in South Africa.

During his leave, Vice President and Vice Provost **Robert E. Dunham** will continue to represent the Office of the President on matters dealing with diversity. **Terrell Jones** also will continue in his role as special assistant to the provost during the Fall Semester.

In appointing Dr. Stewart to the new position, President Jordan cited his exceptional relationship with students, noting that, during the times of demonstrations by African-American/Black American students, Dr. Stewart played a pivotal role in fostering increased understanding between students and the University.

"I see myself as continuing to be very involved with student groups," Dr. Stewart noted. "In the area of supporting students, I would like to create an advisory group made up of leaders of student groups in an effort to maintain dialogue and to identify and correct problems as they arise."

He also plans to work closely with a number of offices, including the Affirmative Action Office, various areas of Student Services, the Commission for Women, the Commission on Racial and Ethnic Diversity, minority coordinators in the academic colleges, and appropriate personnel at locations other than University Park.

"I hope that this kind of involvement will enable us to better coordinate efforts of various groups and explore collaborative avenues to problem solving," he said.

The Equal Opportunity Planning Committee, of which Dr. Stewart has been a member since its inception in 1983 and chair for two years, will now report to him. Dr. Jones will serve as EOPC chair for the new academic year. Dr. Stewart will continue as a member of the Campus Environment Team, which he said has been important in monitoring the local climate as it relates to tolerance for different groups.

In assuming his new position, Dr. Stewart, who headed the Black Studies program since he came to the University in 1980, will give up that directorship.

"I leave that program with great reluctance," he said. "But, in my new position, I hope to be able to promote development of the program in its transition to a department as well as encourage academic programs that focus on the other groups as well." —William E. Campbell Jr.

- Understanding other cultures
- Affirmative Action director
- For students of all backgrounds

Understanding other cultures: an int

Understanding and appreciating other cultures is an integral part of the educational process for students. **W. LaMarr Kopp**, deputy vice president for international programs, said.

"We have an obligation to make students aware of our shrinking globe. Today, what happens in far away cities such as Berlin, Moscow and Tokyo affects us all. Our ability to accept and celebrate the diversity in our own American landscape will help us to appreciate other cultures."

At Penn State, the University Office of International Programs deals with issues of diversity through its three program areas: Office of International Students, Office of Education Abroad Programs and Office of International Cooperative Programs.

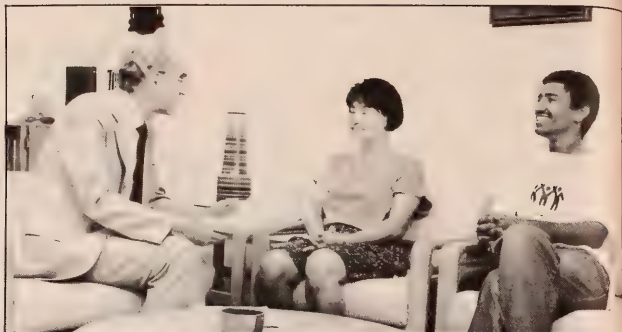

International student enrollment at the University consistently outpaces the national average, he said. As of last fall, approximately 2,200 international students from some 114 countries were enrolled at Penn State. Nationally, about 370,000 international students study at U.S. institutions.

He attributes Penn State's growing enrollment to three factors. First, the University has an active alumni network, which serves in an informal recruiting role. When international students receive degrees and return to their countries, family members and colleagues often apply to the University, and the graduates' employers often sponsor students.

Second, the University has become better known through its international programs, achieving a higher profile overseas in the last decade.

And third, and perhaps most importantly, the University excels in the academic areas most sought after by students from the developing world (technology, engineering, business, earth sciences and agriculture).

At the University, the top five colleges with international graduate student enrollments are Engineering,

W. LaMarr Kopp (left) talks with international students **Kinyang Wangmo of Bhutan (center)** and **Omer Hashim Ismail of Sudan**.

Science, Earth and Mineral Sciences, Liberal Arts and Business Administration.

"There is a match between our academic strengths and international students' interests," Dr. Kopp said.

A majority of international students, 66 percent, come from Asian countries, including Taiwan, China (PRC), India, Korea and Japan. The next largest group of students, 11 percent, comes from European countries, including the United Kingdom, West Germany, Greece, France and Spain.

The newest group of international students interested in studying in the United States is from the emerging

democracies of Eastern Europe, but Dr. Kopp does not expect many of them to arrive in the near future.

"Students in Eastern and Central Europe do not have the funds to study in the United States, nor are they prepared linguistically," he added. "Interest in studying in the United States is enormous, but funds to support such study are limited at Penn State and at other institutions."

For international students already at the University, advice and guidance is available from the Office of International Students, directed by **James F. Lynch Jr.**

He explained that the office has been reorganized to better serve the international student population. One

Affirmative Action director seeks solid working re

The University of Wisconsin at Madison sits 800 miles away from Pennsylvania and Penn State, but to **Bonnie P. Ortiz**, the two universities share many traits. And, the similarities run deeper than just being part of the Big 10.

First, the universities are both major research institutions and land-grant institutions," notes Ms. Ortiz, who will start on Sept. 1 as the new director of Penn State's Affirmative Action Office.

Many of the issues affecting diversity and gender are

the same -- women and minority faculty and staff recruitment and retention, student recruitment and retention, climate, etc.

Many students and employees who come to Penn State or Wisconsin have grown up in small towns, but those communities are no longer where the majority will live or work. Today, most people will work with or manage people of different cultural experiences.

As the new director, Ms. Ortiz will oversee the administration and effectiveness of the University's equal employment and affirmative action program for all faculty and staff members at all campus locations.

Those activities include implementing the University's Affirmative Action Compliance Plan, monitoring reporting systems to outside agencies and investigating allegations of discrimination in violation of University policies and regulations. The Affirmative Action Office reports directly to the Office of the President through the vice president and vice provost.

"My goal is to reinforce a global view of the Affirmative Action Office and the services offered by its staff," she says. "We want to develop solid working relationships with all units of the University and assist them in planning for the future. But we definitely will continue to be a place where everyone in the University community -- faculty, staff and students -- can bring their questions and concerns privately and confidentially."

"The Affirmative Action Office is much more than an investigation office. A high percentage of visitors and callers don't want someone fired immediately, but they want to stop feeling frustrated or angry. Talking with an impartial observer may help them discover solutions and

alternatives."

At the University of Wisconsin, Ms. Ortiz has served in a variety of positions with the most recent being the administrative officer for the Division of Intercollegiate Athletics since 1989. Other positions include acting director of Office of Affirmative Action and Compliance from 1987 to 1989 and institutional planner in the Office of Budget, Planning and Analysis.

At Wisconsin, she participated in a study of retention of women faculty. "We knew that women faculty were leaving at twice the rate of men," she recalls. "Although the study did not find all the answers, it concluded that generally, many of the women faculty believed there was less support by their departments, less inclusion in the informational channels and a perception of unfairness in the teaching loads and other responsibilities."

"We also discovered that there is no single climate for all women employees at the university but considerable variation between departments. A key issue in retention as well as recruitment is to achieve 'critical mass,' although that definition remains fuzzy. Generally, it means employing more than one woman in a department, beyond tokenism, so that the women employees do not stand out and are made to feel different from the rest of the staff."

These conclusions also apply to the retention and recruitment of minorities, according to Ms. Ortiz. "Affirmative action encompasses a wide range of issues, including age discrimination, sexual orientation, religious differences and disabilities," she adds.

"For diversity to become a reality, it has to embrace all the issues, and the entire University community has to take ownership of those issues. Everyone has to share the

Bonnie P. Ortiz

Integral part of the educational process

foreign student adviser is assigned to handle student concerns for all international students enrolled in the same college.

An additional new emphasis is placed on enhancement of cultural diversity at the University. In this effort, his staff members are preparing themselves as trainers for the University community, and they are working more closely with other University offices involved with cultural diversity issues.

"We also act as advocates for concerns unique to international students and maintain contact with other University offices and community agencies to accommodate all concerned in the most advantageous ways," Mr. Lynch said.

He encourages academic departments to call the Office of International Students with their questions (865-6348). Some concerns for international students in the coming year will be the institution of mandatory health insurance, new academic progress standards and new policies for the employment of foreign nationals.

While Eastern European students are clamoring to study at Penn State, approximately 500 University students travel abroad annually to study in other countries.

"Education Abroad Programs offer students an opportunity to gain an international perspective," Dr. Kopp said. "It will never be easier or less expensive than it is now."

Michael Laubscher, who directs the Office of Education Abroad Programs, said, "Study abroad offers the opportunity for students to be immersed directly in a foreign culture, thereby promoting further understanding of other cultures.

"The experiential complement to the academic program helps students to develop a greater sensitivity to cultural diversity. At the same time, study abroad gives students an appreciation for what it means to be in a minority role -- as an American in a foreign country," Mr. Laubscher said.

The Office of Education Abroad Programs offers 27 one-semester or full-year programs and eight to 10 short-term, summer programs, as well as a dozen other programs which are available through consortia.

The newest initiatives under way involve the development of new programs that respond to emerging interests in the academic community and the expansion of programs to meet a University and national goal of enrolling 10 percent of all baccalaureate students in study abroad, Mr. Laubscher said.

Dr. Kopp said he is encouraged by the growing interest in study abroad programs in the colleges of Engineering, Business Administration and Science. The Smeal College of Business Administration, for instance, has instituted an international business major that requires a semester of study abroad.

In the area of international cooperative programs, Tannaz Rahman, associate director, oversees the University's linkages with other universities. There are 50 such collaborative relationships with institutions of higher education in countries around the world that involve student and faculty exchanges, joint research projects and sharing of information, she said. Additional partnerships are planned in response to new and increasing faculty interest.

To aid her in networking with faculty and staff members with international experience and/or interest, she uses the Inventory of International Resources Index of Personnel compiled by the Office of International Programs. She regularly disseminates information on international education to the University community to develop a general awareness for the significance of international education.

Mrs. Rahman also is involved in activities to internationalize the University, such as supporting efforts to integrate cultural diversity into the curriculum to add a global perspective. In addition, she sees the potential for an international studies degree program at the University. An

advisory committee is being formed now to explore the possibilities.

She also works closely with Central Pennsylvania school districts to help internationalize the teachers' perspective through the Central Pennsylvania Collaborative for International Education.

-- Deborah A. Benedetti

Letter to the editor:

Between 400 and 500 foreign students have arrived at Penn State during the past few days -- bringing the total to approximately 2,200 international students associated with the University.

Penn State and State College may be fairly unique in the nation which have such a wide-ranging opportunity for two-way exchange with people from around the world.

Although they come here to learn, for those residents with the interest, these same students can teach us a great deal about their country and their culture. I encourage everyone in the community to reach out and help make the first impression these young people have of the United States an impression of a kind and caring nation.

Traveling thousands of miles to live and learn for a few months or for several years can be filled with great anxiety. That is something all of us can relate to, and it is also something all of us can help to alleviate.

Please join me in welcoming our many new neighbors to a neighborhood we think represents the best of the United States -- Centre County.

Sincerely,

W. LaMarr Kopp

Relationships

possibility for creating a comfortable environment. And, "It happens in creative and exciting ways."

Key goals at Penn State include better communicating the visibility of the Affirmative Action Office to the University community, enhancing working

relationships with the various units, and maximizing the technology to allow the staff to focus more on internal contacts.

The goal of implementing an Affirmative Action plan is directly to respond to numbers and outside mandates.

Dr. Fong says, "But it is to help the University plan wisely for the future and seek the best ways of achieving an equitable and productive climate for all faculty, staff and students."

-- Vicki Fong

'See the Future'

Participants in "See the Future," a program designed to give talented junior high school minority students active experience in science and technology, visit the Computer-Integrated Manufacturing Laboratory at University Park. It is one of a number of programs for minority students conducted during the summer by the University.

For students of all backgrounds

Wray's agenda: academic success

Equipped with a special understanding of multiculturalism in higher education, **Howard E. Wray III**, assistant dean for undergraduate education, has an agenda that highlights academic success for students of all backgrounds.

Mr. Wray has a keen view of the social, academic and cultural disadvantages that some minority students face at predominantly White universities. His experience spans being a Pennsylvania Department of Education Bureau of Equal Opportunity Programs representative, Indiana University of Pennsylvania Black Student Cultural Center director and assistant dean/director of minority student programs at Emory University in Atlanta.

"Since my first day on the job in the state Department of Education's Bureau of Equal Opportunity programs back in 1974, I knew I always wanted to be an advocate for the disadvantaged, whether minority, non-minority or disabled. And coming to Penn State's Academic Assistance Program was one way of tying together all of my interests," he said. In just nine months at Penn State, he already has navigated the University's Academic Assistance Program through a course of changes and expansions necessary to meet the challenges that brought him here - creating programs to foster the academic success of students of disadvantaged backgrounds, veterans and disabled students as well as students of color.

Academic Assistance Program changes have included: Renaming the Counseling and Academic Skills Development Unit to the Multicultural Resource Center, which better reflects the population of students who are served by the unit; creating the Summer Institute for Academic Achievement, a program for eligible freshmen to increase their reading, math, English and writing skills; starting a peer counseling program; adding a part-time

counselor in the office of disability services and assisting in search for grants for student retention.

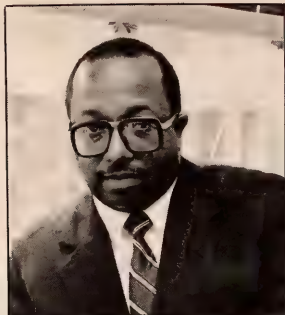

In addition he has mapped out future changes for the 1990-91 academic year that include organizing minority study groups; increasing the number of EOP/Developmental Year programs at University Park; and garnering more outside grants to increase the quality of undergraduate education outreach activities for underrepresented students and students who need academic assistance.

The Academic Assistance Program at Penn State has seven units organized to provide special services and programs to facilitate the undergraduate academic achievement of disadvantaged, minority, veteran, disabled and basic skills students. It is based in Boucke Building and has 14 full-time counselors, eight program coordinators and a support staff of 12. Up to 12 instructors are available to assist with the program throughout an academic year.

Mr. Wray brings to his position a thorough understanding of higher education in Pennsylvania and vast experience in multiculturalism. While with the state Department of Education, he oversaw the development of equal educational opportunity programs at 32 institutions. He also served for a short duration as associate director of equal opportunity programs for the Florida State University Board of Regents.

A native of New Kensington, Pa., he received his bachelor's degree in business education/accounting and master's degree in counseling from Indiana University of Pennsylvania. He also has a J.D. degree from Georgetown University Law Center.

"I took off from my career in higher education from 1980 to 1983 to get my J.D. degree because after working

Howard E. Wray III

with equal opportunity laws, I thought I'd be a legal advocate for the disadvantaged," he said. "But after getting the degree, practicing law solely, never entered my mind. I went right back into higher education."

Humble, Mr. Wray is never reluctant to say how well he enjoys the responsibility of having the final word over all of the Academic Assistance Program's numerous activities. He says the number of programs, competent staff and diverse student population at Penn State makes the job very enjoyable.

"This is a great way to expand your managerial skills and improve retention programs for those who need it most. What more could a person want?" — **Aaron Singleton**

Bilingual teacher education program successful

A unique Penn State program targeted at helping limited-English speaking students and parents and school districts has been quite successful, according to the director.

Lourdes Diaz Soto, director of Penn State's Comprehensive Bilingual/Early Childhood Teacher Education program, said a total of 30 teachers will have

graduated since the initiation of the federally funded three-year program in 1987.

"That rate exceeds all of our expectations," says Dr. Soto, also an assistant professor of education. The project stresses academic achievement and maintenance of respective ethnic and linguistic heritage.

One of the first and few programs of its type in the nation, the master's degree program was developed for teachers interested in teaching limited English-speaking pre-school children and their parents.

The collaborative project was developed by the College of Education through the support of a \$750,000 grant from the U.S. Department of Education's Office of Bilingual Education and Minority Language Affairs.

"Its uniqueness involved teaching the teachers to work with parents as well as children, which attracted participants from as far away as Canada and Texas to our program," the University researcher said.

"The teachers learn how to work with parents and how to help families to take pride in their own culture."

"Already several of our graduates are working in classrooms within Pennsylvania, have gone on to school district administration positions, are pursuing doctorate degrees or are supervising other teachers."

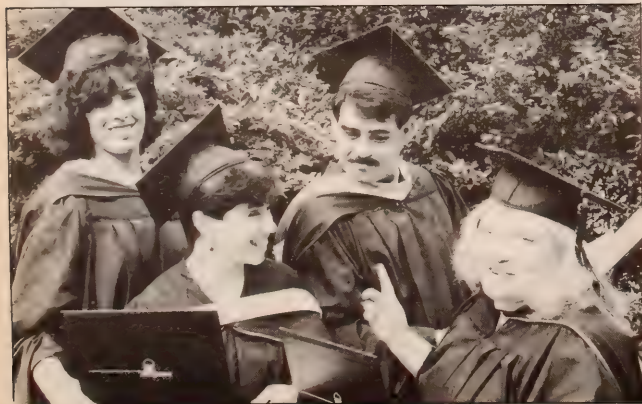

Research in 1980 showed that about 2.4 million limited-English proficient students between ages 5 and 14 were enrolled in schools nationwide. It was projected that by the year 2000, that figure could increase by 40 percent with a slightly greater overall increase in the number of 5- to 9-year-olds. Further studies suggest that 95 percent of those children will be Spanish speakers.

"That means that the increasing demand for bilingual early childhood education teachers will be tremendous," Dr. Soto said.

In Pennsylvania, school districts surveyed have indicated that their greatest need is for certified early childhood bilingual school personnel.

The collaborative component of the program allowed the teacher trainees to participate in school districts throughout Pennsylvania, including the Lancaster, Bethlehem, Harrisburg and Reading school districts.

— **Aaron Singleton**

Program participants celebrating at summer commencement exercises are, from left, Lily Bell Fontanez, of Bethlehem; Eva Diaz and Jorge Freyres, both of Puerto Rico, and Jocelynn Smeaker, of DuBois.

News in Brief

Office address change

Effective immediately, the campus mailing address for the Art Education Program of the School of Visual Arts will be 201 Arts Cottage at University Park. The telephone number remains the same at 865-6570.

Women's suffrage

A celebration of the 70th anniversary of a woman's suffrage will be held at 8 p.m. Sunday, Aug. 26, at the HUB Fishbowl at University Park. A panel will be held with speakers Kathleen Barry, associate professor of human development, LaVerne Grant, acting director of Black Studies, and Grace Falla, doctoral candidate in speech communications.

The sponsor is the Center for Women Students. A reception will follow. The public is invited.

On Aug. 28, "Issues and Actions: Focusing on the Concerns of Women Students" will be held in the lounge of the Center for Women Students, 120 Boucke, at 4 p.m. The public is invited.

Professional women

Vice Provost Grace Hampton will discuss "A Woman's Perspective on Leadership" at the Aug. 28 meeting of Professional Women at Penn State.

The brown-bag lunch meeting will begin at 11:45 a.m. in the Frizzell Room of Eisenhower Chapel at University Park with an opportunity for informal networking. Dr. Hampton will speak at 12:10 p.m.

Professional Women at Penn State is a grass-roots group coordinated by University women in which participants can develop and maintain a

communications network and serve as a resource for other Penn State women. The group welcomes attendance from all classifications at the University.

Fitness classes

Registration for Recreational Sports Faculty/Staff Fitness Classes is being held through Aug. 29. Activities offered this semester include aerobics, toning, aquazone, 60+ shape-up, Fitness Over 40, and a new walking program.

To receive a flyer about any of the activities being offered, call Patti Kenney at 865-5401.

Planning Studies to move

The Division of Planning Studies, which includes the Office of Continuing Professional Education, will move from its current location in Grange Building the week of Sept. 4.

The Division's mailing address will change to The Division of Planning Studies, The Pennsylvania State University, 2766 W. College Ave., University Park, Pa. 16801-2605. Campus mail should be addressed to 101 Daniel Building. Telephone and FAX numbers will remain the same, 814-865-7679 (phone) and 814-865-3589 (FAX).

Dwellings sought for study

If your residence is infested with ants, you may be eligible for free assistance from the University. About 60 ant-infested dwellings in State College and surrounding areas are needed for a study of a new insect bait product that is non-toxic to people.

Robert Snelinger, professor of entomology, and Jim Elliott, of

undergraduate student, are evaluating the effectiveness of a new insect bait product. Data from the study will be used by the Environmental Protection Agency in a pesticide approval process.

Homeowners in the area who are interested in participating in the study should contact Dr. Snelinger or Mr. Elliott at (814) 865-1895 for more information.

Daycare facilities listing

The fall 1990 edition of the State College Area Daycare Facilities listing is now available.

Updated each semester, this publication includes information on 30 different facilities which provide childcare in the immediate vicinity of University Park Campus. Information includes hours of service, ages served, cost, enrollment size, and services provided.

The pamphlet, produced by the Graduate Student Association, is available free of charge from the GSA office in 111B Kern Building at University Park.

Education Abroad Programs

There are still a few openings available in the following spring 1991 Education Abroad Programs: Athens, Exeter, Kiel, Manchester (economics), Nice, Cologne, Rome, San German and Tel Aviv. Students can apply at the Office of Education Abroad Programs, 222 Boucke Building, until Oct. 1.

University joins institute

The University has accepted an invitation to become a Participating Institution in the Institute for

Mathematics and its Applications.

Membership is sponsored by the departments of Computer Science, Mathematics and Statistics, and the Office of the Dean of the Eberly College of Science.

Based at the University of Minnesota, the IMA fosters interaction among the mathematics community and mathematical scientists in engineering, computer science, statistics, and other science-based disciplines. According to the organization, "Participating institutions have become a coalition of universities working together to increase the mathematics and scientific interaction in the country."

NSF grant

The College of Education has received a \$490,000 grant from the National Science Foundation to support the Construction of Elementary Mathematics Project.

The purpose of this project is to improve the preparation of elementary teachers to teach mathematics and to study the development of preservice teachers as they expand their understanding of mathematics and of children's learning.

Martin Simon, assistant professor of education and director of the CEM project, said CEM researchers will develop, implement and study a model program to prepare elementary mathematics teachers according to a constructivist view of learning. This method encourages a more active role for the student, recognizing that individuals must create meaning out of their own experiences.

Promotions

Staff Exempt

Chester Defurio to manager, project planning and estimating in Office of Physical Plant.

John A. Joseph to senior landscape architect in Office of Physical Plant.

Cynthia Kunes to administrative assistant in Agriculture.

Lewis J. Loe to senior designer in Applied Research Lab.

Steven C. Mentzer to research program analyst at Hershey.

Mary B. Shoffner to center registrar at Great Valley Center.

Lisa S. Wandel to assistant director, food services in Housing and Food Services.

Staff Non-Exempt

Lori L. Boney to data retrieval specialist in Division of Development and University Relations.

Maria R. Davis to research aid in Agriculture.

Suzanne Hart to administrative aide in Agriculture.

Nancy J. Rishel to administrative aide in Earth and Mineral Sciences.

Clerical

Linda L. Cooke to secretary B at Hershey.

John Donahue to secretary B at Berks Campus.

Nancy J. Dull to secretary C in Business Administration.

Barbara L. Kaylor to senior patient care secretary at Hershey.

Patricia A. McClellan to clerk typist A at Behrend College.

Kathy Mulberger to secretary A in Research and Graduate School.

Ruth Nyman to secretary B in Agriculture.

Sandra K. Omdorf to clerk accounting in Agriculture.

Amy J. Pourman to secretary C in University Libraries.

Karen M. Rank to secretary B at Hershey.

Sandra Stauffer to secretary B in

University Libraries.

Kimberly A. Veruete to secretary B in Business Administration.

Heather G. Welch to conference clerk A in Agriculture.

Shelly Zeigler to secretary B in University Art Services.

Technical Service

Patrick Ebeling to sanitation maintenance worker in Housing and Food Services.

Ronald Gathagan to stockroom/equipment worker in Engineering.

Thomas Kase to maintenance worker, general B at Wilkes-Barre Campus.

Robert J. Kendra to maintenance worker, general A at Hazleton Campus.

Randall B. Moyer to building services attendant in Engineering.

Harry E. Peese to operating mechanic in Office of Physical Plant.

Thomas Youkoski to maintenance worker, general B at Wilkes-Barre Campus.

Foster J. Sayers Jr. to maintenance worker,

area landscape in Office of Physical Plant.

Arthur G. Stine to shipping and receiving attendant in Applied Research Lab.

Luella Strouse to salesroom clerk in Agriculture.

Richard F. Way to electrician A in Office of Physical Plant.

David R. Cori to experimental propeller fabricator A in Applied Research Lab.

Herbert E. Dietrich to technician, television and electronics in Office of Physical Plant.

Allen L. Lowery to helper, swine center in Agriculture.

Margaret M. Mason to utility worker at Hershey.

Matthew McDonald to dining hall worker A in Housing and Food Services.

Paul F. Scanlon to technician, television and electronics in Office of Physical Plant.

Rodney L. Smeal to technician, television and electronics in Office of Physical Plant.

James Waites to maintenance worker, utility at Ogonitz.

David C. Witherite to poultry worker, research in Agriculture.

Appointments

Ronald F. Dow

Salvatore M. Meringolo

Giorianna St. Clair

Carl Mitcham

Michael M. Reischman

The University Libraries has announced the appointment of three new assistant deans as part of a reorganization that Nancy Cline, dean of the University Libraries, says is "designed to realign responsibilities in a manner that will most effectively provide for the future information needs of the University and its constituencies."

The new appointees and divisions are: **Giorgianna St. Clair**, assistant dean and head, Information Access Services.

Salvatore M. Meringolo, assistant dean and head, Collections and Reference Services, and **Ronald F. Dow**, assistant dean, Planning and Administrative Services.

Dr. St. Clair has been assistant director for technical, automation, and administrative services at the Kerr Library, Oregon State University. She has held various professional librarian and teaching positions at Texas A&M, the University of Oklahoma, the University of California at Berkeley, the College of Charleston, Western Carolina University, Walsh College, the University of Texas at San Antonio, and the San Antonio Public Library.

Dr. St. Clair, who recently began a three-year term as editor of the *College and Research Libraries*, the official journal of the Association of College and Research Libraries, is author and co-author of numerous articles in professional journals.

She is a member of a number of professional librarian associations and currently is serving on several professional committees of the Association of Library Collections and Technical Services Division, the Association of College and Research Libraries, and the Library Administration and Management Association.

Dr. St. Clair completed her undergraduate study in English at the University of Oklahoma and holds an M.L.S. from the University of California, Berkeley, a Ph.D. in literature from the University of Oklahoma; and an M.B.A. from the University of Texas, San Antonio.

Mr. Meringolo came to Penn State from the University of North Carolina at Charlotte in 1987 as chief of the Humanities and Social Sciences Department of the University Libraries. He also has held positions at the University of Massachusetts/Amherst and Iona College.

Mr. Meringolo is active in various professional library associations and currently serves as vice-chair/chair-elect of the American Library Association's Research in Organization and Management Issues Discussion Group. He also is on the executive board of the Pennsylvania Library Association's College and Research Libraries Division, and he initiated the Association's first salary survey of academic libraries in Pennsylvania.

Mr. Meringolo completed his undergraduate study in history at SUNY-New Paltz and holds an M.L.S. from SUNY-Albany and an M.B.A. from Iona College.

Mr. Dow had been director of the libraries and first vice president for Shearson Lehman Hutton Inc. in New York City. In this capacity, he managed one of the largest financial service libraries in New York serving both Shearson and the parent American Express Co. Prior to joining Shearson, he held library positions at Hamilton College, Dartmouth College, and New York University.

Mr. Dow completed his undergraduate work in history and English at Augustana College and holds a M.S.L.S. from Syracuse University.

Carl Mitcham, associate professor of philosophy and science, technology, and society, has been appointed interim director of the Science, Technology, and Society Program.

Dr. Mitcham, a graduate of the University of Colorado with B.A. and M.A. degrees, received his Ph.D. in philosophy from Fordham University.

Prior to joining the University faculty in spring 1989 as visiting professor of science, technology, and society, he was visiting scholar at the University of Puerto Rico.

Dr. Mitcham previously taught at Berea College and St. Catharine College in Kentucky and Polytechnic University.

An internationally recognized scholar in the philosophy of technology, his research has focused recently on ethical issues, including professional engineering ethics. He currently is completing a study of engineering ethics codes from outside the United States.

Dr. Mitcham, who received the Distinguished Faculty Award from the

Polytechnic University Student Council in 1985, is a member of the Advisory Committee, National Network for Science, Technology and Society Education, a National Science Foundation project directed by the STS Program at Penn State.

He has received a number of grants for his research, including those from the National Endowment for the Humanities, National Science Foundation, American Council of Learned Societies, Exxon Education Foundation, and the MacArthur Foundation.

The Penn State STS program, one of the first three in the United States, was established on an experimental basis in 1969. Today it is one of the broadest focused programs in the country, encompassing social science as well as technological perspectives in curriculum development and research.

Michael M. Reischman, director of the Office of Naval Research Mechanics Division, has been named associate dean for graduate studies and research and professor of aerospace engineering in the College of Engineering.

At ONR, Dr. Reischman directed the national program in mechanics research and oversaw an annual budget of \$33,000,000. He also formulated and coordinated cross-disciplinary research programs within ONR and with other governmental agencies.

An expert in fluid dynamics and turbulence, Dr. Reischman has extensive experience as an administrator in government research and funding agencies.

He was the ONR fluid dynamics program director (1985-89), and a scientific officer handling multidisciplinary, fundamental research in fluid dynamics (1983-85). He also served in research and administrative positions at the Naval Ocean Systems Center in San Diego, Calif., from 1974 to 1983, including a stint as head of the fluid mechanics and materials branch. Dr. Reischman received his Ph.D. in mechanical engineering from Oklahoma State University in 1973. His B.S. and M.S., both in mechanical engineering, are from New Mexico State University.

He serves on several national boards, including the American Society of Mechanical Engineers Board on Engineering Education, Task Force on the National

Science Foundation Budget and Technical Committee of Flow-Induced Noise and Vibration; the State of Virginia Task Force on Supercomputers and the National Advisory Committee of the NASA Ames Center for Turbulence Research.

He is a member of ASME, the American Physical Society, the American Association for the Advancement of Science and the engineering honorary Pi Tau Sigma.

Sanat Kumar, assistant professor of polymer science, has been named Philip L. Walker Jr. Fellow in Materials Science and Engineering.

The Walker Fellowship was endowed by a \$100,000 gift from Dr. Walker, Envan Pugh professor emeritus of materials science, and Virginia Walker and was designated for a materials scientist in the early career years who shows exceptional potential.

Dr. Kumar, who joined the University faculty in 1989, currently is involved in theoretical research on understanding polymer behavior at interfaces.

Part of the income from the endowment will be used to support graduate assistants, research expenses, education and travel expenses. The term of the Walker Fellowship is three years.

Roger C. Vergin, has been appointed director and chairman of the Graduate Program in Management at Penn State Great Valley.

Dr. Vergin has held academic positions at the University of California (Berkeley), University of Washington, University of Minnesota, and Simon Fraser University, Burnaby, British Columbia. He has served as a consultant to The Boeing Co., Ford Motor Co., Homestake Mining Co., Politech Corp. and Marlon Brando.

Active in business and real estate, he was involved in the development of Dupont building, Holiday Inn, and Roosevelt Business Center in Bellingham, Washington and has owned several businesses in Nevada, Washington, and British Columbia. Dr. Vergin holds a bachelor of arts in business administration/engineering, master of science in industrial management, and doctorate in philosophy in business administration/industrial engineering from the University of Minnesota.

Penn Staters

Rustum Roy, director of the Science Technology and Society Program and Evan Pugh professor of the solid-state at the Materials Research Laboratory, has received a medal from the foreign secretary of the U.S. National Academy of Science and produced by the Soviet Union's Academy of Sciences for his leadership in the cooperative scientific endeavors of the two national academies.

Lisa Crockett, assistant professor of human development, has been selected to participate in a summer institute at the Center for Advanced Study in the Behavioral Sciences, Stanford, Calif. The institute, "Human Development and Psychopathology," is intended to increase young scholars' knowledge of developmental psychopathology for teaching, research, and clinical application.

Patricia Farrell, associate professor of leisure studies, is the 1990 recipient of the Fred M. Coombs Honor Award presented by the Pennsylvania Recreation and Park Society to a member who has given outstanding service to the field of recreation and parks or to the society itself, or who has shown pioneering leadership in the field.

Howard G. Knuttgen, director of the Center for Sports Medicine, has been appointed program chairman for the Second World Congress on Sports Sciences to be organized by the International Olympic Committee and held in Barcelona, Spain, in October 1991.

Manfred Kroger, professor of food science, has received the 1989 Scientific Lectureship Award sponsored by the Institute of Food Technologists, Philadelphia Section, in honor of his dedicated service and outstanding contributions to food science and food technology.

David A. Kutz, analytical chemist in pesticide research in the Entomology Department, participated in a workshop on the long-range transport of organic pollutants held near Stockholm, Sweden. He also presented a paper at the VTT Food Research Laboratory in Helsinki, Finland, and the Wallenberg Laboratory, University of Stockholm.

Herschel W. Leibowitz, Evan Pugh professor of psychology, has been named to the Human Factors Technology Group of the National Research Council. The group will prepare a study titled "Future Carrier Technology."

John A. Lucas, professor of exercise and sport science, spoke on "A Contrast of Styles: Pierre de Coubertin and Juan Antonio Samaranch" at the Pierre de

Coubertin Symposium in Quebec City and on James Edward Sullivan, First Amateur Athletic Czar in the United States" at the North American Society of Sport Historians in Banff.

Ruth Anne Mears, Penn State Cooperative Extension agent in Clarion County, has been installed as president-elect of the Pennsylvania Home Economics Association.

Robert E. Newnam, Alcoa professor of solid state science, has been named "Ceramic Educator of the Year" by the American Ceramic Society.

Clayton O. Ruud, professor of industrial and systems engineering, co-chaired the Fourth International Symposium on Nondestructive Characterization of Materials in Annapolis, Md.

K. Warner Schaie, Evan Pugh professor of human development and psychology, has been selected as a Fellow at the Center for Advanced Study in the Behavioral Sciences, Stanford, Calif. He will spend the 1990-91 academic year at the center, where he will prepare a monograph on his Seattle Longitudinal Study, a more than 30-year study of adult cognition.

Harold H. Schobert, associate professor of fuel science and chairman of the Fuel Sciences Program, has been appointed to a three-year term as a member of the National Research Council's Energy Engineering Board.

The late **Eugen Skudrzyk**, professor emeritus of physics, is the 1990 recipient of the Gold Medal of the Acoustical Society of America. He was honored posthumously for his extensive contributions to the advancement of acoustics, particularly structural and under water acoustics, as a researcher, author and educator."

William E. Sopper, professor of forest hydrology, School of Forest Resources, has been honored for the outstanding technical paper presented at the 1990 National Symposium on Mining.

Mary E. Taylor-Nicholson, associate professor of health education, has been named College and University Health Professional of the Year by the Association for Advancement of Health Education.

David B. Van Donmelen, professor emeritus of art education and fiber arts, has been appointed to the Board of Directors of the Pennsylvania Rural Arts Alliance.

Donald V. Waddington, professor of soil science, has received the Distinguished Service Award from the

Pennsylvania Turfgrass Council for outstanding leadership and contributions to the turfgrass industry.

Thomas T. Warner, associate professor of meteorology, and **Nelson L. Seaman**, assistant professor of meteorology, have been awarded a third place prize in the Physical Sciences and Mathematics Division of IBM's 1989 Supercomputer Competition for their paper "A Real-Time Regional Numerical Weather-Prediction System."

James Anderson, professor of chemistry in the Herby College of Science presented a series of lectures titled "Quantum Chemistry by Random Walk." Cancelling the Sun Problem to Fermions, and The Future of Quantum Monte Carlo," at the University of Paris' European Center for Atomic and Molecular Calculations.

Alexander N. Chen, assistant professor of business administration at the Penn State Altoona Campus, has received a \$40,000 research grant from the Center for Rural Pennsylvania. His research to "Determine Rural Residents' Two-Year College Degree Needs" will focus on future employment markets in rural areas of Pennsylvania and the post-secondary educational programs needed to provide a trained labor force to match these employment opportunities.

Anna H. Gajar, associate professor of special education, has been appointed to the State Advisory Panel for Special Education by Gov. Robert Casey.

Kathleen Heid, assistant professor of education, has been appointed to the National Advisory Committee for Curriculum Development in Mathematics: Calculus.

Donald Leslie, associate professor of landscape architecture, served as moderator of the conference "The Last Frontier-Issues Facing Development in the Tongass National Forest and the Arctic National Wildlife Refuge," sponsored by the Alaska chapter of the American Society of Landscape Architects.

Linda Merchant, assistant professor of education, has been elected president-elect of the Secondary Reading Council of the Keystone State Reading Association (KSRA).

The American Library Association has selected the volume *Environmental Hazards: Air Pollution* by **E. Willard Miller**, professor of geography and associate dean for resident instruction emeritus in the College of Earth and Mineral Sciences, and **Ruby M. Miller**, former associate and map librarian, Pattee Library, as one of the "Best Reference Books of 1989."

John R. Nesselroade, distinguished research professor of human development, presented a paper titled "Assessment of Individual Variability" at a recent World Health Organization workshop in Copenhagen.

Joseph Prewitt-Diaz, associate professor of education, has been invited to become a member of the Advisory Board of the Pennsylvania Academy for the Profession of Teaching for a term of two years.

Allan Quigley, assistant professor and regional director of adult education, has been elected to the four-member steering committee of the Adult Education Research Conference.

Peter Rubba, associate professor of science education, presented an invited paper titled "Action on STS Issues: What Research Says is Effective Instruction" at the International Conference on Science, Technology and Society (Conferencia Internacional Alfabetizacao em Ciencia e Tecnologia), Brazil.

Margaret E. Smith, librarian, College of Business Administration Research Support Center, presented the paper "Executive Management Education at the University of West Indies" at the 15th annual Caribbean Studies Association Conference in Port-of-Spain, Trinidad.

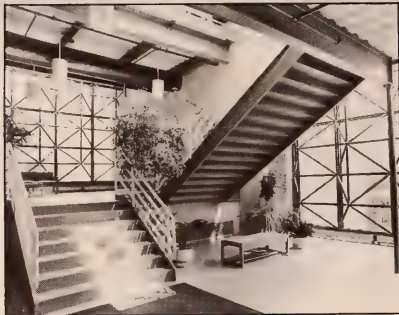

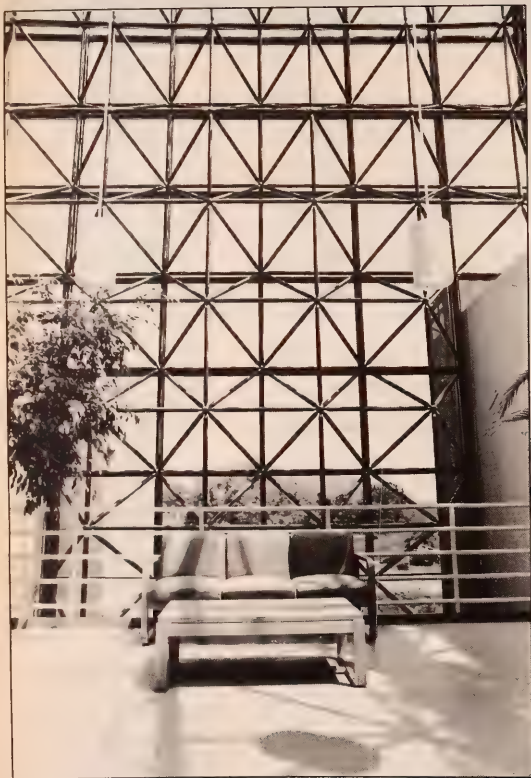

Richard Whitten, assistant professor of art, had 12 pieces of his work selected for a three-person exhibition at the Mincher/Wilcox Gallery in San Francisco from June 7 through July 8.

Steven H. Zarit, professor of human development, has been reappointed as chair of the aging subcommittee of the Life Course and Prevention Research Committee of the National Institute of Mental Health.

Madalyn Amenta, associate professor of nursing at Penn State McKeesport Campus, has been appointed editor of *The Hospice Journal*.

Elizabeth Hanley, assistant professor of exercise and sport science, presented a paper titled "Olympism and Sport: The 1990 Coubertin Connection" at an international symposium, "Sport: The Third Millennium," sponsored by the International Olympic Committee in Quebec City.

John J. Henry, director of the Pennsylvania Transportation Institute and professor of mechanical engineering, has been appointed to represent the United States on the Permanent International Commission of the Permanent International Association of Road Congresses.

Research Building receives award

Research Building East at University Park has been recognized for its outstanding architecture by the Borough of State College's Design Review Board. The building, located just north of College Avenue on University Drive, was designed by Richard DeYoung of the Pittsburgh architectural firm of Williams, Trebilcock, and Whitehead. The Design Review Board, which periodically recognizes improvements to the aesthetics of the State College community, awarded the building a Focus on Appearance citation. Herman L. Slaybaugh, zoning/sign officer, said the building "exemplifies the good type of architecture we are trying to encourage. It sets a standard that all developers can look to for guidance. Additionally, it enhances the eastern gateway to both State College and the University."

Photos by Greg Grieco

Partings

George Boyer, theatre systems engineer for the Center for the Performing Arts, has retired after 25 years service.

He began his career in January, 1965 in Data Acquisition and Analysis at the Ordinance Research Laboratory. He worked on acoustic hearing devices in the anti-submarine project.

In 1974 shortly after Eisenhower Auditorium was finished, Mr. Boyer joined the auditorium staff as theatre systems engineer. He, along with Hagan King, were responsible for all production needs beginning with the first show ever presented in the auditorium, the Pittsburgh Symphony Orchestra.

Over the years Mr. Boyer has specialized in sound and acoustics and has brought his production knowledge to many shows staged in Recreation Hall, Schwab Auditorium and around the campus and community.

In his home in Coburn, which is next to a stream that's full of trout and surrounded by forests, he says he's enjoying his retirement with his wife Barbara and family.

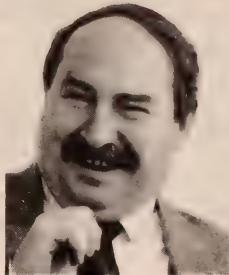

Robert J. Eberhart has retired as professor emeritus of veterinary science after 31 years service.

Dr. Eberhart graduated from Cornell University in 1952 with a degree in zoology. Before attending veterinary school at the University of Pennsylvania, he served in the Navy for four years. He came to Penn State in 1959 as assistant university veterinarian, planning to stay just a few years before starting a private practice.

He never left.
"About the time I was ready to leave, Penn State was starting a mastitis research program," Dr. Eberhart said. "They asked me to lead it, so I stayed." He went on to earn an M.S. in biochemistry and a Ph.D. in physiology at Penn State.

Mastitis, inflammation of a cow's udder usually caused by infection, remained Dr. Eberhart's primary research area. He was among the first to recognize that there are two general kinds of mastitis: a form that passes readily from cow to cow and a form caused by environmental organisms.

"Mastitis is an important disease in dairy cattle," Dr. Eberhart said. "I feel fortunate to have worked on something so

George Boyer

significant."

Dr. Eberhart served on the board of directors and as president of the National Mastitis Council. Within the College of Agriculture, he served as faculty adviser to the Pre-Vet Club for 10 years and supervised many graduate research programs in his lab.

I get the most satisfaction out of seeing the students make it, he said.

He and his wife, Jeannette, have purchased a new house and plan to spend their time fixing it up and traveling.

Theodore F. Grove, farm machinist and faculty mechanic in the Department of Horticulture, has retired after 37 years service.

Mr. Grove came to the University in 1952. He worked for Housing and Food Services for 16 years and then for Fleet Operations for one year before joining the Department of Horticulture.

He spent much of his time building equipment for professors to use in their experiments. "I liked building things," he said. "One time I even made something to send to a professor who was conducting research in Switzerland."

Mr. Grove lives in Centre Hall with his wife, Joan. They have four children, Teddy Jr., Darlene, Violet and Timothy. He plans to keep busy with his part-time construction business.

Obituaries

Amos E. Neyhart, 91, retired director of Institute of Public Safety, died July 5.

He originated driver education programs in the United States. He used his own 1929 Graham-Paige automobile and began his crusade for safe driving in the early 1930s, and used State College High School students as volunteers. He set up the first high school driver education course in 1933, the first teacher preparation course in driver education and the first seminar in this field for college professors.

He received a bachelor of science degree in industrial engineering in 1921 and a master of science degree in psychology in 1934 from Penn State.

He then accepted a position as assistant professor of industrial engineering at Penn State. He had earlier served as a production and safety engineer for Pilgrim Shirt Co., which he and his brother founded, and Susquehanna Silk Co., in Milton. In 1936,

he joined the staff of the American Automobile Association in Washington D.C. as a consultant on driver and traffic education and was serving in this capacity at the time of his death.

He became director of the University's new Institute of Public Safety, which he directed until he retired as director emeritus in 1964.

H. Elizabeth Miller, college health nurse at DuBois Campus, from Nov. 1, 1965, until her retirement Jan. 1, 1977, died July 15 at the age of 70.

Ralph E. Thomas, specialist in adult education, Division of Continuing Education, from Oct. 4, 1954, until his retirement July 1, 1972 died July 20 at the age of 83.

Robert C. Wolfe, maintenance worker, general, at the Hershey Medical Center, from Dec. 6, 1976, until his retirement Dec. 6, 1986, died July 27 at the age of 60.

Faculty/Staff Alerts

DuBois telephone number

The telephone number at the Penn State DuBois Campus has been changed to (814) 375-4700.

"The change became necessary because of the need for additional extensions in our new building," John Luchini, director of business services, said. "The old system wasn't capable of handling the additional extensions. We considered acquiring a hybrid system that would have kept the old system and included a new one for the additional service, but after reviewing all the options, the complete changeover was the best."

The new system will provide a variety of new communications options for campus employees, making it easier to place and receive calls. Don Miller, maintenance foreman, says the biggest immediate difference will be specific seven-digit numbers for all campus phones, making it possible to dial specific extensions without dialing the switchboard.

'Wellness Wake Up'

This semester, a unique health and fitness program for early risers will be offered at University Park. The course, titled "Wellness Wake Up," was developed by the offices of Faculty/Staff Health Promotion and Recreational Sports in response to Penn State's health promotion survey.

The program will meet Monday through Friday from 6:30 to 7:30 a.m. in Rec Hall beginning Sept. 10. Qualified staff will assist participants in designing individualized programs in a variety of activities, including indoor/outdoor walking/running, aerobics, weight-training, and stationary cycling.

Participants will also receive comprehensive pre- and post-fitness evaluations to help monitor progress throughout the program. In addition, weekly mini-lectures will be given on wellness topics such as: exercise and weight

loss, maintaining exercise motivation, cholesterol awareness, and stress management.

The cost for the Fall Semester is \$50 and enrollment will be limited to the first 100 participants. Registration forms and information may be obtained at Room 2 of the Intramural Building or by calling Patti Kenney at 865-5401 or Nancy Sassano at 865-3085.

Noon hour courses

The Human Resource Development Center and Continuing Education are offering the following 3-credit courses for University employees Fall Semester 1990:

Accounting 101.3 and Marketing will meet from 12:10 to 1 p.m. Monday, Wednesday and Friday; Management 341 will meet from 11:45 a.m. to 1 p.m. Tuesdays and Thursdays.

The courses are part of the Business Management and Business Administration Certificate Programs offered through Continuing Education. Counselors are available to help with course selection. For information, contact the Human Resource Development Center at (814) 865-3410 or the Continuing Education Office at (814) 865-3443.

Microcomputer Repair Service

The price for personal computer (PC) repair on a time and material basis is now \$29.50 per hour (labor).

The increase is necessary in order to meet the cost of the quality service that the operation provides. The PC repair function is self-supporting and receives no budgeted funds to support its operation.

Alternatively, annual fixed-price contracts are available on most major brands that are sold through the University, such as Zenith, IBM, Apple, and Hewlett Packard.

Call 863-4555 for contract prices and a detailed list of equipment that can be serviced. Contracts are available for personally owned equipment as well.

Staff Vacancies

Continued from page 16

other special student positions. Requires master's degree, or equivalent, in counseling, student personnel services, or closely related field plus up to and including one year of effective experience, or bachelor's degree plus one year up to and including two years of effective experience. THIS IS A FIXED-TERM POSITION FUNDING THROUGH JUNE 30, 1991. WITH POSSIBILITY OF PERMANENT FUNDING. STAFF GRADE 6.

*00875, Assistant Director, Medical Center Information Services, College

of Medicine, Medical Computer

Center, The Milton S. Hensley Medical Center—Responsible to the director, Medical Center Information Systems, for overall supervision of technical support activities to include the evaluation, selection and installation of systems software. Requires bachelor's degree, or equivalent, plus five to seven years of effective experience including supervisory experience in data center operations of systems programming with emphasis on hardware selection, installation and maintenance, operation systems software and telecommunications. STAFF GRADE 8.

Staff Vacancies

The following vacancies for positions classified as staff except on a temporary basis have been listed with the University's Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 NETWORK LINE 433-0304. Applications for these staff vacancies will be accepted until Aug. 30. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (FES) and in compliance with the University's Alternative Action/Complaint Program protocol regard to race, color, religion, national origin, handicap or age, as provided by law or sex or status as a disabled or Vietnam era veteran.

***00847. Photographer, CES, University Division of Media and Learning Resources, University Park Campus** - Responsible to the director, University Photographers, for providing photographic services to support a variety of University requirements and assist in departmental and quality control. Requires bachelor's degree or equivalent plus one to two years of effective experience in commercial, industrial or media photography. A thorough knowledge of various camera formats, lighting techniques, optics and photographic processes is essential. A portfolio and/or demonstration of competencies will be required if an interview is scheduled. STAFF GRADE 5.

***00848. Cinematographer, Videographer, CES, University Division of Media and Learning Resources, University Park Campus** - Responsible to the supervisor, Cinematographer/Videography for providing film video still photography, lighting and editing services. Requires bachelor's degree or equivalent in broadcast, journalism, film, video production and a minimum of up to two years of effective experience. Must have good aesthetic judgment, exhibit creativity in the execution of daily production activities, have a good background in film production techniques with excellent composition, lighting and editing skills, and be capable

of working under direction as well as independently. STAFF GRADE 5.

***00849. Research Compliance Coordinator, Senior Vice President for Research and Dean of the Graduate School, Intercollegiate Research Program, University Park Campus** - Responsible to the associate dean of the Graduate School and the director of Intercollegiate Research Programs for coordinating and providing administrative support to committees and programs with compliance and regulation issues related to research. Requires bachelor's degree or equivalent in a biological or science related field, plus two to four years of effective experience with research administration. STAFF GRADE 7.

***00850. Director of Satellite Ben Franklin Technology Center, Sr. Vice President for Research and Dean of the Graduate School, Ben Franklin Technology Center, Penn State Harrisburg** - Responsible to the president and chief executive officer of the Ben Franklin Technology Center (BFTC/CNP) for managing the Ben Franklin Partnership Program in an assigned sector of Pennsylvania. Requires bachelor's degree or equivalent in engineering, science, or business administration plus over four up to and including seven years of effective experience in negotiating industry-university working relationships. STAFF GRADE 8.

***00851. Staff Assistant, President's Office, University Office of International Programs, University Park Campus** - Responsible to the coordinator for academic support services for counseling and advising students in Education Abroad Program (EAP), for developing and coordinating pre-departure orientation and re-entry programs, for assisting with the promotion of Education Abroad Program, and for liaison with the EAP student club. Requires bachelor's degree or equivalent plus one to two years of effective experience. Familiarity with other cultures preferred. THIS IS A FIXED TERM POSITION FUNDED THROUGH JUNE 30, 1991 WITH POSSIBILITY OF RE-FUNDING. STAFF GRADE 5.

***00852. Director, Professional Billing, College of Medicine, University**

Physicians Professional Billing, The Milton S. HERSHEY Medical Center - Responsible to the associate vice president for health finance/controller for the planning, directing, and evaluating of the operation and activities of the University Physicians Group Practice. Requires bachelor's degree or equivalent, with six to seven years of effective experience in the health care field preferably in the management of faculty practice plans. STAFF GRADE 9.

***00864. Procedures Specialist, Corporate Controller, University Park Campus** - Responsible to the manager, Systems and Procedures, for reviewing, investigating, analyzing and developing new and improved financial control and management procedures for all departments of the University. Requires bachelor's degree in business administration plus three to four years of effective experience in internal financial controls, procedures, forms control and similar administrative management work. Computer experience is highly desirable. STAFF GRADE 7.

***00865. Assistant Accountant, Corporate Controller, University Park Campus** - Responsible to the director, Accounting Operations, for assistance in a wide variety of duties, working toward the overall goal of obtaining well rounded accounting experience in all areas within the Office of the Corporate Controller. Requires bachelor's degree or equivalent in accounting or related field and up to one year of effective experience. STAFF GRADE 5.

***00866. Nurse, Orthopaedics, Intercollegiate Athletics, University Park Campus** - Responsible for coordinating supervising management and executing the nursing procedures for the team orthopaedics' office in providing orthopaedic medical care for the intercollegiate athletes and other sports medicine orthopaedic patients under objective guidelines established by the director of clinical services of the Center for Sports Medicine. Requires graduate of an accredited nursing program and current license in Pennsylvania as a registered orthopaedic nurse plus up to one year of effective experience in an orthopaedic environment. STAFF GRADE 4.

***00867. Admissions and Minority Recruitment Counselor,**

Undergraduate Education, Admissions, Philadelphia Community Recruitment Center - Responsible to the director, Philadelphia Community Recruitment Center, for minority recruitment activities and for general assistance in handling admissions matters in an assigned geographical area. Requires bachelor's degree, or equivalent, plus one to two years of effective experience in educational administration or in a related field. STAFF GRADE 6.

***00868. Assistant Forest Supervisor, Agriculture, School of Forest Resources, University Park Campus** - Supervise and perform work involved in tree planting, mowing, boundary marking, sign posting, road maintenance, timber measurement, gypsy moth surveys, etc. Oversee the application of and apply forest cultural treatments including insecticides and herbicides. Requires associate degree, or equivalent, in forestry and one to two years of experience in forestry management. Must have passed category 18 public pesticide licensing test. STAFF GRADE 4.

***00869. Campus Health Services Nurse, CES, Student Programs and Services, Fayette Campus** - Responsible to the director, Student Programs and Services, for coordinating and providing health services programs at the campus. Assist in formulating general policies and procedures for delivery of health services; review, maintain and control all student medical records. Requires bachelor's degree in nursing, or equivalent plus one to two years of effective experience in college health nursing, emergency care, public health nursing, occupational health nursing or a related field. Must have licensure as registered nurse in the Commonwealth of Pennsylvania. STAFF GRADE 5.

***00870. Research Coordinator, Development and University Relations, Research Department, University Park Campus** - Responsible to the research manager for the coordination and implementation of prospect research programs supporting fund-raising activities. Requires bachelor's degree, or equivalent, preferably in humanities or library science with one to two years of effective experience preferably in research activities. STAFF GRADE 5.

***00871. Coordinator of Student Alumni Programs, Development and University Relations, Alumni Association, University Park Campus** - Responsible to the associate executive director for alumni relations for the planning and execution of programs involving students to support the mission and objectives of the Alumni Association and the Office of University Development. Requires bachelor's degree, or equivalent, plus six to 12 months of effective experience with a demonstrated knowledge of student organizations and activities and institutional programs, good rapport with students and good written, verbal and organizational skills are required. STAFF GRADE 5.

***00872. Assistant Director, Telefund, Development and University Relations, Telefund Office, University Park Campus** - Responsible to the director of annual giving for managing all aspects of the Telefund Program. Requires bachelor's degree, or equivalent, plus two to three years of effective experience, preferably in university administration, public relations, or promotional activity. Strong oral and written communication skills are important. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991 WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 7.

***00873. Graphic Designer, University Arts Service, Center for the Performing Arts, University Park Campus** - Responsible to the graphic design supervisor for the design and preparation of artwork for a wide variety of materials, adhering to established time limits and maintaining the highest quality standards possible. Requires bachelor's degree, or equivalent in graphic design plus one to two years of effective experience. Excellent communication and organizational skills required. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH EXCELLENT POSSIBILITY OF RE-FUNDING. STAFF GRADE 5.

***00874. Student Support Counselor, Student Affairs, Penn State Harrisburg** - Responsible to the associate director of student affairs for service oriented programming which provides assistance to minority, commuter, adult, disabled, international, returning women, and

University launches new private fund-raising efforts

Penn State has launched the first in a series of private fund-raising efforts that build on the University's successful \$300 million capital campaign, which ended June 30.

The new Annual Fund for Academic Excellence, which will involve each of Penn State's academic colleges and schools and every one of its 22 campuses statewide, aims to increase the number of individual donors to Penn State by at least 15,000 over the next two years. 1989-90

The University's 21,000 faculty and staff and 300,000 alumni will be invited to participate.

"We've made the Annual Fund our first new fund-raising venture because it will help to sustain and further academic excellence, which has always been Penn State's highest priority," G. David Gearhart, senior vice president of development and

University relations, said.

He noted that annual gifts form the core of private support for many academic programs throughout the University and are used for such purposes as library acquisitions, student aid and the purchase of computers and other instructional materials.

In 1989-90, 16 percent of University alumni gave more than \$12 million. This level of participation places Penn State fifth among Big Ten universities.

"Boosting this rate to 20 percent will help us to remain academically competitive with other universities," Dr. Gearhart said. "Private support often spells the difference

between a university of average or even good academic quality, and one whose quality is outstanding."

The new look of the Annual Fund should help Penn Staters more easily identify their annual giving solicitation, according to Daniel Saftig, director.

The Annual Fund for Academic Excellence combines other annual appeals into one program for greater efficiency and clarity," Mr. Saftig said. "Previously these requests came from the individual colleges and campuses - each with a separate letter or phone call and often with a different letterhead and name.

Mr. Saftig also noted that a special effort would be made to attract gifts from young alumni.

Thirty-three percent of our alumni have graduated within the past 10 years, he said. "Heightened participation from this age group on an annual basis could mean great things for Penn State in the future."

All Penn State faculty, staff and alumni will receive either a mailing outlining the new program or a telephone call from a student. Donors will still be able to direct their gifts to programs of their choice.

FACULTY AND STAFF GIVING
ALL PENN STATE LOCATIONS

YEAR	NUMBER OF DONORS	DOLLARS RECEIVED
1984-85	2,444	\$ 349,809
1985-86	2,861	\$ 491,597
1986-87	3,019	\$ 874,818
1987-88	3,354	\$1,600,360
1988-89	3,121	\$1,000,095
1989-90	3,377	\$ 885,916

Active military duty procedures are detailed

Penn State has established special procedures for students called to active military duty to assist them in withdrawing from the University.

Dr. Robert E. Dunham, vice president and vice provost, said the University is attempting to be as lenient and flexible as possible in light of current conditions in the Middle East.

"The University understands the spirit of the emergency and wants to make it easy for students to respond and to return to their studies as soon as possible. Even on active duty, we consider them Penn State students," he says.

Students who receive orders to report for active military duty should contact the

Registrar at their local campus in order to process their withdrawal from the University. At University Park, they should contact the University Registrar at 114 Shields by calling 864-1926. At other campuses, the Registrar can be located through the campus information desk or by calling the campus telephone operator.

Under these special withdrawal procedures, Dr. Dunham said, the student will be given a "military withdrawal" designation.

The Registrar will process the withdrawal and, where necessary, will initiate actions with the Bursar and Housing to complete the withdrawal process without further action by the student. Special

withdrawal actions may be necessary if the student is receiving financial aid in the current semester."

According to Dr. Dunham, students who have withdrawn or do not return for the next semester for military reasons are considered to be on special military absence from the University as long as they are on active duty and will be eligible for a special "military readmit" to the University upon their return. Special assistance for students on military absence is available from the University's Veterans Program Office.

Dr. Dunham said that procedures for University faculty and staff called to active military service are covered by PS 19 in the

Focus on Diversity

Tennis, computers used to awaken interest in college

Everyone involved in education is aware that early intervention is one of the keys to keeping underrepresented groups in school. It also is a way to awaken an interest in the possibility of attending college.

Early intervention at the Penn State Allentown Campus took the form of a one-week computer/tennis camp. The camp, part of the campus' ongoing diversity efforts, was taught by **Dennis Phillips**, library director. The students in grades four, five and six spent from 9 a.m. to noon with Mr. Phillips, a former award winning junior tennis player who taught the group the basics of tennis.

The second half of the program was spent in the academic computing lab. Each camper had access to an IBM PS-2 computer. Mr. Phillips helped the students become comfortable with computers through hands-on experience with software specifically designed to develop problem solving and critical thinking skills.

The students used Microzine software, a curriculum-based software, designed for grades four through eight. The four programs used in the camp helped sharpen reading comprehension and critical thinking skills, develop language arts skills, and provide practice in observation and problem solving.

The software package was chosen by **Judy Lichtman**, reference librarian at the camp. "I selected this particular program

Dennis Phillips instructs students in the Allentown Campus minority computer/tennis camps. (Photo: Lucy Wienckowski)

because students have fun while they learn computer skills," she said.

Latino students from Casa Guadalupe, a community-based organization that meets the needs of low-income Puerto Rican and Latino residents of Lehigh County attended

the camp the week of July 23 and African-American students from several organizations in the Lehigh Valley attended the week of July 30.

Funding for the program was provided by Meridian Bank through their

Community Partnership, a corporate-wide outreach program.

Stanley Nowak Jr., assistant professor of Spanish, humanities, and social science at the Penn State Allentown Campus and member of the Community Partnership Board, applied for the \$3,000 grant to fund the program.

"We are very pleased that Meridian Bank funded this opportunity for underrepresented groups in the Lehigh Valley. This camp will help expand the vision for educational opportunities of the students who attended," he said.

Dr. Nowak, in addition to his faculty status at the campus, heads up the Center for Intercultural Community Building at Penn State Allentown. He also is president of the board of directors of Casa Guadalupe. Through their involvement in the community he is taking an active role in identifying initiatives so Penn State can effectively serve underrepresented groups in the Lehigh Valley.

"So many Latino and African-American students are at risk of leaving the educational system that the campus feels we must begin to reach these students at an early age and help them to see that the opportunities for a college education are available," Ms. Lichtman noted.

She said that plans are being made to continue and expand the camp next summer.

—Lucy Wienckowski

Native American Indian education efforts recognized

Two University faculty members have been cited for their efforts in improving educational opportunities for Native American Indians.

G. Mike Charleston, associate professor of education and director of the Native American Indian Education Policy Center, has been appointed to study educational conditions of Native American Indians.

Established by the U.S. Department of Education secretary, the 15-member Indian Nations at Risk Task Force will study education circumstances, patterns and problems that Native American Indians experience.

Patrick Lynch, professor of education, has been honored by several of the nation's top officials in American Indian education for his contributions toward the advancement of Native American Indians in education.

Dr. Lynch recently received letters of appreciation from John MacDonald, U.S. Department of Education assistant secretary, office of elementary and secondary education; Eddie Brown, assistant secretary of the U.S. Department of Interior's Department of Indian Affairs; Everett Rhoades, U.S. Department of Health and Human Services' assistant surgeon general; and Jo Hunt, National Advisory Council on Indian Education executive director.

The letters were sent to commemorate the 20th anniversary of the Native American Leadership program at Penn State and to honor Dr. Lynch for founding the program.

Dr. Lynch, a member of the University faculty since 1969, founded the Native American Leadership program in 1970, creating one of the first major university programs for Native American Indian graduate students in the country. Since then, Penn State has become one of the

'One important area (the task force will study) will be ways to improve the quality of everyday Indian life.'

—G. Mike Charleston

nation's leading producers of Native American doctorates.

Serving as the first director of the program, he personally recruited the first students who later became some of the nation's highest ranking Native American Indians in government and business.

"Your more than 20 years of dedication to educational excellence is true testament to your vision and belief that Indian people can truly self-determine their destinies if given the opportunity," Mr. Rhoades wrote.

In addition, Dr. Lynch has worked toward improving education in Third-World countries for much of his career.

His recommendations have led to structural changes in basic and vocational education in Mexico, Peru, Thailand, Brazil, Ecuador, Botswana, Costa Rica, Guatemala and Paraguay. He also helped to establish programs for Hispanics at Penn State and a faculty exchange program at the University of Sudan and Penn State.

Dr. Lynch, who retired on June 30, will help the Indonesian Ministry of Education build a more effective educational system throughout that country.

In his role as project director of the Nations at Risk Task Force, Dr. Charleston will direct day-to-day activities of the study from Washington, D.C., taking a leave of absence from the University.

"It is truly an honor to serve on such a monumental project to benefit the Native American Indian community nationwide," said Dr. Charleston, a member of the Choctaw Nation of Oklahoma. "The task force members are talented people committed to improving Indian education, and it's a thrill to work with them."

Researchers will identify successful Indian education programs in areas of the country with concentrations of Native American Indians and observe and document school conditions, resources and goals, he noted.

In addition, they will discuss various options with Native American Indian and non-Indian educational leaders throughout North America.

At completion of the projected 13-month study, the task force will publish a report for the nation and the U.S. secretary of education with specific recommendations for improvements.

The final report also will include practical recommendations for all levels of education, including actions for school boards, public officials, state and local governments, affected tribes, parents and others having a vital interest in the education of Indians.

"One important area will be ways to improve the quality of everyday Indian life," Dr. Charleston said. "We already know from previous research that education can be hindered by the extreme poverty and shortcomings in health, social and economic conditions facing by a major percentage of Indians. Findings solutions is going to be tough."

Dr. Charleston, a member of the University faculty, has directed the Native American Indian Education Policy Center at the University since 1986.

Three Earth and Mineral Sciences graduates to visit

Three College of Earth and Mineral Sciences graduates will visit University Park Sept. 5 to 8 to receive the Alumni Fellow Award and meet with students and faculty members.

They are **Steward S. Flaschen**, chairman, Oxbridge Partners, and president, Flaschen and Davies; **Richard J. Janda**, chief of the Debris Hazard Assistance Team, Water Resources Division, U.S. Geological Survey; and **Richard F. Wesner**, president, Evenson, Auchmuty and Greenwald.

The Alumni Fellow Award, presented by the Penn State Alumni Association, is the most prestigious of the association's awards. It is administered in cooperation with the colleges. The Board of Trustees has designated the title of Alumni Fellow as permanent and lifelong.

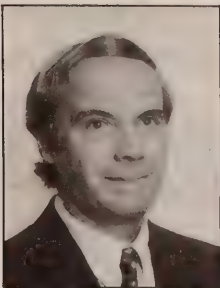

Dr. Flaschen, who received a Ph.D. in geochemistry in 1953, is chairman of Oxbridge Partners, a private merchant bank, and president of Flaschen and Davies, a management consulting firm. He retired from I.T.T. Corp. in 1986 as senior vice president, member of the management policy board and chief technical officer.

An elected Fellow of the Institute of Electrical and Electronic Engineers, the American Association for the Advancement of Science and the American Institute of Chemists, he holds 15 patents and is author of the textbook *Soil and Water Resources*. Dr. Janda, a 1960 geology and

Steward S. Flaschen

mineralogy graduate, is based at the [Cascades] Volcano Observatory in Washington state. He directs efforts to mitigate hazards from landslides and debris flows associated with active volcanoes in the United States and overseas. He is involved in the field in volcanic hazard assessment and mitigation in Colombia, Ecuador, Guatemala, Japan and Indonesia and also serves as annex co-chief for scientific exchange between the USGS and the Chinese Ministry of Water Resources in geomorphology and sedimentation.

Richard J. Janda

Dr. Janda has been with the U.S. Geological Survey since 1962. He has served as a visiting professor at the University of California, Santa Cruz, and at Penn State. He received his doctorate from the University of California, Berkeley, in 1966.

Mr. Wesner was the first student at Penn State to major in mineral preparation engineering, receiving his B.S. degree in 1947 and M.S. in 1948. He currently is president of Evenson, Auchmuty and Greenwald, mining consultants, in

Richard F. Wesner

Pittsburgh. In 1988, he retired as president and chief executive officer of Kennedy Van Saun Corp. and as a member of the board of directors and president of the Corporate International Sales Division of McNally Pittsburg Inc.

He is a director of the First National Bank of Danville and of the Geisinger Foundation and Geisinger Medical Center. In addition, he served as a director of Susquehanna University (1981-89) and as a member of the Board of Trustees of Bloomsburg University (1983-90).

Bookshelf

John C. McWilliams, assistant professor of history, is the author of *The Protectors: Harry J. Anslinger and the Federal Bureau of Narcotics, 1930-1962*, published by the University of Delaware Press.

A native of Hollidaysburg and a Penn State graduate, Harry Jacob Anslinger (1892-1975) was appointed the first commissioner of the Federal Bureau of Narcotics in 1930.

In *The Protectors*, Dr. McWilliams depicts a commissioner quite different from the one-dimensional antidrug zealot portrayed by other scholars who have dealt with Mr.

Anslinger. The book explores not only the origins of the FBN as it pertained to drug legislation, but also the extracurricular activities of Mr. Anslinger and his agents.

Most sources dealing with federal drug policies under Mr. Anslinger focus on his persona as commissioner. Dr. McWilliams' use of personal and official correspondence allows a more comprehensive examination.

Mr. Anslinger received an associate degree in agricultural business from Penn State in 1915 and began his employment with the U.S. government two years later.

On Sept. 22, 1962, he received the Distinguished Citizen Award from President John F. Kennedy. He died on Nov. 14, 1975, in Altoona.

Obituaries

Paul S. Beaver, retired assistant director of Continuing Education and associate professor of management training in the College of Business Administration, died Aug. 10 at the age of 83.

He graduated with honors from Bucknell University in 1928 and earned his master's degree in education from Penn State in 1941. He taught and was head of the guidance department in the Bellefonte Area High School until early 1943 when he was commissioned in the U.S. Navy.

Mr. Beaver retired from Penn State July 1, 1970, after 27 years as a teacher, administrator, educator and public speaker.

He received the National University Extension Association's Professional Service Award and Conferences and Institutes award in 1969 in recognition of 25 years of dedicated service in the area of management conferences and institutes.

After retiring from Penn State, Mr. Beaver was a consultant and lectured on management.

John G. Aston, emeritus professor of organic chemistry and emeritus director of the Low Temperature Laboratory, 87, died Aug. 6 at the age of 87.

Dr. Aston, who joined the chemistry faculty in 1929, founded the Cryogenic Laboratory in 1933. Under his direction, the laboratory achieved international prominence for pioneering many phases of low temperature research.

His research in organic and physical chemistry included his original preparation and studies of aliphatic azoxy compounds, which led to the chemical identification of an organic leaf substance that produces a crippling cattle disease.

Dr. Aston received his B.S., M.S. and Ph.D. from the University of California at Berkeley in 1923, 1924 and 1926, respectively. From 1926 to 1928, he was a Milton Fellow and research associate at Harvard University. In 1928, he served as an instructor at Northwestern University.

Memorial contributions may be made to the John G. Aston Memorial Scholarship, c/o University Foundation, Penn State, 1 Old Main, University Park, Pa. 16802.

Faculty, staff members invited to open house at dialysis unit

Faculty and staff members are invited to attend an open house at the Dialysis Unit for Penn State University Students from 4:30 to 6 p.m. Friday, Sept. 7. The unit is housed on the second floor of the O'Brien Phase apartment building, 300 S. Pugh St., State College.

The student dialysis unit, the first and only program of its kind, offers young adults with End Stage Renal Disease an opportunity to pursue post-secondary educational goals while learning to live independently with a chronic illness.

The unit is a non-profit corporation operated by concerned individuals from the

University and the community. It is supported, in part, by the Office of Vocational Rehabilitation, a Community Block Grant, a University grant from the U.S. Department of Education, and a local fund-raiser.

The unit, which opened in 1985 with one student, currently has 12 students enrolled and registered for classes at the University.

For more information on the dialysis unit or the open house, contact Judith Finkelstein, educational coordinator, 234-8722, or John McQuarry, administrator, 466-7911.

Active duty

Continued from page 1
University Policy Manual.

The policies provide that each regular University faculty or staff member who has completed one day of regular employment with the University immediately preceding the effective date of the requested military

leave, and who has been ordered to report to active duty on a specific date, is eligible for the leave.

The policies also provide for certain University benefits to remain in effect while the faculty or staff member is on leave. Details on the policies are available from Personnel Representatives or campus Directors of Business Services.

Trial flowers

These 'Dreamland Coral' zinnias (above) and 'Pink Tassles' Colosia (left) are among the more than 1,000 flower and vegetable cultivars planted in the University's Trial Garden, located at the corner of Park Avenue and Bigler Road Extended at University Park. W. Robert Fortney, associate professor of floriculture, coordinates the garden, which annually showcases flowers and vegetables grown from seeds submitted from plant breeders and seedmen from around the world. Plants awarded All-America Selections status are made available to the gardening public by growers and nurseries. The Department of Horticulture in the College of Agriculture has been involved in All-America Selections trials for more than 50 years. (Photos: Greg Grieco)

Schreyer to keynote Shoemaker program

William A. Schreyer, chairman and chief executive officer of Merrill Lynch and Co., will be the keynote speaker for the fifth G. Albert Shoemaker Program in Business Ethics at 7:30 p.m. Wednesday, Sept. 5, in the Kern Graduate Building at University Park.

The Shoemaker Program in Business Ethics was made possible through a \$100,000 gift to the University from G. Albert and Mercedes Shoemaker of Pittsburgh. Mr. Shoemaker is the retired president of the Consolidation Coal Co. and president emeritus of the Penn State Board of Trustees.

The Shoemaker Program provides an ongoing forum where students, scholars and business leaders can exchange views on ethics in management decision-making. The focal point of the program is a yearly lecture.

Mr. Schreyer has spent his entire professional career with Merrill Lynch. Joining the company in 1948, the same year he received a bachelor's degree in commerce and finance from Penn State. He was elected president of Merrill Lynch in 1982, assumed the duties of chief executive officer in 1984 and became chairman the following year.

A Distinguished Alumnus of the University, Mr. Schreyer is a member of the Penn State Board of Trustees, has served as national chairman of The Campaign for Penn State and is a member of the Board of Visitors of the Smeal College of Business Administration.

He and his wife, Jean, and Merrill Lynch have created the William A. Schreyer Chair in Global Management Policies and Planning through a \$1 million gift to the Smeal College.

Office announces research promotions

The Office of the Vice President for Research and Dean of the Graduate School has announced the following promotions:

To Senior Research Associate

Ram B. Bhagat, Applied Research Laboratory

To Senior Research Assistant

John G. Fleck
Stanley J. Giner
Ray A. Grove
William R. Hall
Richard T. Harvey
R.C. Marboe
Michael J. Pierzga
John J. Portelli
Francis G. Quinn
David R. Stinebring
(All at the Applied Research Laboratory)
Shoko Yoshikawa, Materials Research Laboratory

Faculty and staff members are honored with awards

Perez award

David L. Miller, professor of electrical engineering, is the first recipient of the College of Engineering Lawrence Perez Memorial Student Advocate Award.

The award, established in the memory Lawrence Perez, recognizes outstanding advocacy by a faculty member on behalf of students. Mr. Perez joined the engineering faculty in 1945, retiring as professor of civil engineering in 1970. He also served as assistant dean for instruction.

Dr. Miller came to the University in 1985 from Rockwell International Corp. in Thousand Oaks, Calif. A scientist with Rockwell from 1977 until 1985, he is a specialist in the development of molecular beam epitaxy.

Dr. Miller was cited for his ability to motivate students and his dedication to working with students outside the classroom.

A graduate of Whitman College in Washington, he earned his M.S. and Ph.D., both in physics; from the University of Illinois.

Fayette Campus award

Nathan Viswanathan, associate professor of chemistry at the Penn State Fayette Campus, has received the 1990 Penn State Fayette Teaching Excellence Award.

As a recipient of the award, he received a \$1,000 cash award, and his name will be listed on the Teaching Excellence Award plaque in the Eberly Building on the campus.

"I am very gratified that my teaching ability is being recognized," he said. "At the same time, this kind of recognition gives me encouragement to improve my work."

Dr. Viswanathan said he enjoys teaching chemistry to freshmen and sophomores who are majoring in science and engineering. He also teaches one or two courses for liberal arts students who choose science as an elective.

Engineering awards

Twelve College of Engineering faculty members have received outstanding

Nathan Viswanathan

research, teaching, and advising awards presented by the Penn State Engineering Society (PSES).

Outstanding teaching award recipients are **Ramon Borges**, assistant professor of engineering at the Penn State Altoona Campus; **Paul H. Cohen**, associate professor of industrial engineering; **Bernard Guss**, associate professor of engineering at the New Kensington Campus; and **Bohdan T. Kulakowski**, associate professor of mechanical engineering.

Awards for Outstanding Achievement in Research went to **Russell Messier**, professor of engineering science and mechanics; **Philip J. Morris**, professor of aerospace engineering; **Domenic A. Santavica**, associate professor of mechanical engineering; and **Christopher R. Wronski**, Leonard professor of electrical engineering.

Faculty receiving Outstanding Advising Awards are **Robert J. Heinsohn**, professor of mechanical engineering; **Deborah Medeiros**, associate professor of industrial engineering; **Hubert C. Smith**, assistant professor of aerospace engineering; **Charles E. Sohl**, assistant professor of engineering at the Penn State Osgontz Campus.

Penn College

Joseph B. Gehret, president of Norcen Industries Inc., has been named Pennsylvania College of Technology's 1990 Alumnus of the Year.

Mr. Gehret, of Mountville, has been a longtime supporter of the College, serving as a member of the College's machine shop committee and contributing numerous gifts of cash and equipment to support those instructional programs. His contributions also aided in the development of the College's Technology Transfer Center.

Mr. Gehret was graduated from the College's first forerunner, Williamsport Technical Institute, in 1938, in the machine shop curriculum. One of the founders of Norcen Industries Inc., a precision machining company located in Jersey Shore, he has served as president of the company since its founding in 1967. Prior to that time, he spent seven years as a toolmaker with Avco Lycoming, 14 years as a toolmaker at CTE, and five years as machine shop foreman at Litton Industries.

Teaching awards

Pennsylvania College of Technology has named its "Distinguished Teachers" for 1990.

The highest level of College recognition, the "Master Teacher Award," was presented to **Nancy C. Bowers**, associate professor of mathematics. Mrs. Bowers joined the faculty in 1983 and, for the past three years, has served as mathematics facilitator for the College.

Two electronics instructors, **Jeffrey B. Weaver** and **Bruce M. Smith**, were honored with "Excellence in Teaching Awards." Mr. Weaver joined the College faculty in 1986. Mr. Smith has been a member of the faculty since 1982.

William D. Miller (left) is the recipient of the Chambers Award. Shown with him are Mrs. Charles R. Chambers and Kenneth S. Babs.

Chambers award

William D. Miller, associate bursar, has received the 1990 Charles R. Chambers Memorial Award.

The award was established in 1979 by the family and friends of the late Mr. Chambers who was director of accounting at the University from 1967 to 1977. It honors employees of the Controller's Office who "exhibit a conscientious and dedicated attitude toward their professional responsibilities above that normally expected or required."

Mr. Miller graduated from Altoona Catholic High School and the Altoona School of Commerce. Before coming to the University, he served in the U.S. Army.

Mr. Miller, who has been employed by Penn State for 26 years, began his career as an accounting assistant in the Accounting, Special Funds Department. He held several other positions before being promoted to associate bursar in 1973.

McFarland Award

Norris B. McFarlane, owner and president of the McFarroll Corp., Charleston, S.C., has received the 1990 McFarroll Award of the American Society for Metals International in recognition of his many achievements in the area of ferroalloys.

The McFarroll Award has been presented annually by the Penn State Chapter of ASM since 1948 when it was established to honor the memory of David Ford McFarroll, head of the Department of Metallurgy from 1920 to 1945. The award is made to an outstanding alumnus of the metals science and engineering program and is presented at the annual McFarroll Dinner in State College.

Mr. McFarlane, a 1934 graduate of metallurgical engineering, has had a long and successful career as innovator and corporate leader in the metal alloys industry. He currently is president and owner of McFarroll Corp., the largest ferrochrome producer in the United States. He joined Pittsburgh Metallurgical Co.

Airco Alloys in 1949, was named executive vice president in 1958 and served as president from 1962 to 1967. He held the position of corporate vice president of the parent company, Airco Inc., from 1967 to 1977, and in 1968, was named director of the Vargon A.B. Ferroalloy Plant in Vargon, Sweden.

In partnership with Satria Corp., Mr. McFarlane acquired Airco Alloy Division's ferrochromium plant in 1979, forming the McFarroll Corp. and serving as president of the company. He recently purchased Satria's interest in McFarroll. In 1982, he established Penn West Mineral Resources Inc., a firm providing management and consulting services to ferroalloy industries throughout the world.

Through his innovative approach to the production of ferroalloys, Mr. McFarlane has made many contributions to the alloys industry. He is a member of the American Iron and Steel Institute and of the Metallurgical Society of the American Institute of Mining, Metallurgical and Petroleum Engineers.

Shenango Campus award

R. Donn Townsend, instructor in general engineering at the Penn State Shenango Campus, has received the Shenango Campus Teaching Award.

Mr. Townsend, who has been a member of the Campus faculty since August 1984, received a bachelor's degree in mathematics from Goshen College and a master's degree in electrical engineering from Purdue University.

In addition to his teaching assignments, he serves as a math tutor. He has served the Campus on the Internal Assessment Committee for Strategic Planning and the EET Technical Advisory Committee, and is a member of the Faculty Senate Committee for Student Affairs.

The teaching award, first given in 1984 by the Campus Advisory Board, carries a cash award of \$300 and a commemorative plaque.

Focus on the arts

HUB exhibit

The State College Area School District Community Education Program pottery class, under the direction of Grace Pilato, is exhibiting clay pieces in the HUB Art Alley Cases at University Park Sept. 1-29.

This is the second consecutive year the Community Education pottery class has exhibited in the HUB. The show, titled "Clay in Process," includes a range of work from handbuilt and wheel-thrown pieces to combined forms. Firing techniques include oxidized wood and sawdust. The show includes a range of styles as well, from large wheel-thrown vases to intricate clay-marbled jewelry.

A reception, open to the public, will be held from 7 to 9:30 p.m. Sept. 7 in the HUB.

The arts on Channel 3

World-renowned director Helmuth Rilling conducts the New York Philharmonic Orchestra, the Gächinger Kantorei, Stuttgart choral ensemble, and a stellar line-up of soloists at Lincoln Center in the American premiere of "Messa per Rossini" airing at 12:30 p.m. Sunday, Sept. 2, on WPSX-TV.

"Northanger Abbey," Jane Austen's fanciful parody of the heavy-breathing romantic novels so dear to readers during her youth in the early 1800s, endures on *Masterpiece Theatre* as a single 90-minute presentation at 9 p.m. Sunday, Sept. 2.

Even those who have never actually read any of Isaac Bashevis Singer's books and stories can feel a kinship with the great Yiddish language writer, whose personality twinkles with wisdom, irony and charm.

The engaging author escorts viewers on a rare, intimate trip through some of his past and present haunts in "Isaac in America: A Journey with Isaac Bashevis Singer." The 60-minute film, which received an Oscar nomination in 1986, endorses on *American Masters* at 10 p.m. Mondays, Sept. 3.

Chambers exhibit

Sonopix Sonopex, an exhibition of recent paintings by Penn State alumnus Chester Davis, will be featured in Chambers Gallery at University Park from Sept. 4 through Oct. 5.

Mr. Davis' works are acrylic and enamel paintings on a square format that have been rotated throughout creation to avoid assigning a top or bottom to each piece until it was finished.

Mr. Davis received a bachelor of science degree in art education from Penn State in 1973, and a master of art education degree from the University of Hartford in 1980. He is the high school art instructor in the Shamokin area school district and a member of the Pennsylvania Department of Arts Education Advisory Committee.

Chambers Gallery is located on the second floor of the Chambers Building and is open daily, Monday through Friday.

Odyssey on WPSU

On Jack Mapane and the *Tasite*, the next episode of "Odyssey Through Literature," Leslie Hazleton, a visiting professor of English and a member of the P.E.N. American Center's Freedom to Write Committee, discusses with host Leonard Rubinstein the politics and poetry of Jack Mapane, imprisoned without charge in his home country of Malawi.

Says Professor Hazleton, "His aim was always, under the conditions of censorship, to provoke as far as he could in his poems without actually getting caught and sent to jail - which he realized, it is quite clear from some of what he's written, had to finally happen."

"Because not to provoke, not to fight against it is to allow the censors to control what you write, to control what is African culture."

"Odyssey Through Literature" is produced by the Department of Comparative Literature and arts

Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Baritone in recital

Baritone Richard Davis will present a recital at 8 p.m. Wednesday, Sept. 5, in the Recital Hall of the School of Music at University Park.

Pianist Robert Wilder will accompany Mr. Davis on a selection of songs and arias from the 18th through 20th centuries. Included in the program are two song cycles from "L'Horizon Chimérique," by Faure and "Four Songs," by Jean Berger, including poetry by Langston Hughes. Five songs by Liszt, a Handel oratorio aria and Ford's aria from Verdi's "Falstaff" complete the performance.

Craft Centre classes

The HUB Craft Centre, located in 312 Hetzel Union Building at University Park, is accepting registration for craft classes which start Sept. 10. There will be two sessions, lasting four to six weeks.

The Craft Centre offers a diverse selection of instruction for both adults and children. The children's classes are weekdays - after school on Saturdays. The adult classes are weekday evenings. There will be several workshops offered on Saturdays as well.

The classes will include weaving, pottery, stained glass, basketry, watercolor, drawing, and quilting, plus a workshop on pottery decorating techniques. For more schedule information, contact Isabel Farrell in the HUB Craft Centre at 312 HUB, or call 863-0611.

Jupiter Symphony

Named for Mozart's expansive composition, the Jupiter Symphony Orchestra is a fitting opening for Mozart 200, the new concert series from the Center for the Performing Arts.

Conductor Jens Nygaard will lead the ensemble in an exclusive Mozart program, including the favorite "Eine Kleine Nachtmusik," at 8 p.m. Friday, Sept. 14, in Schwab Auditorium at University Park.

A regular at Lincoln Center in Alice Tully Hall, the Jupiter Symphony made its New York debut in 1979 in a sold-out concert at Carnegie Hall. The 25-piece chamber orchestra, which also plays a varied classical and contemporary repertoire, has earned a reputation for musical clarity and innovative programming.

In addition to the concert, as part of Artistic Viewpoints series, Mr. Nygaard

enhancing and strengthening the role of two-year colleges in employment, training, and literacy.

Under the agreement, the Institute and NETWORK will explore the feasibility of various types of cooperative programs and partnerships, including degree programs in vocational

and harpsichordist Mary Alderice will give a free mini-concert and discuss the background of some of Mozart's earliest works written when he was a child. This special program for the audience will be at 7 p.m. Friday in Schwab Auditorium.

'Presence of Absence'

"The Presence of Absence: New Installations" is on display at the Palmer Museum of Art at University Park through Oct. 14.

"The Presence of Absence: New Installations" features contemporary installation works conceptualized by artists from around the country. Unlike other exhibitions, no art objects have been shipped to the museum for display. Instead, the installations will be recreated on-site by museum staff members according to the artist's specifications.

Dan Collins, one of the artists participating in the exhibition, will discuss his works at 8 p.m. Wednesday, Sept. 12, in the museum.

"The Presence of Absence: New Installations" is a traveling exhibition organized and circulated by Independent Curators Inc., New York, a non-profit traveling exhibition service specializing in contemporary art. Guest curator is Nina Felshin.

The exhibition, low-cost and easy to make possible, in part, by grants from the National Endowment for the Arts, the Lannan Foundation and Art Matters Inc. The exhibition at the Palmer Museum of Art is funded, in part, by the Pennsylvania Council on the Arts.

African dance classes

Myrna Munchus-Bullock's African dance classes are returning to the University for the 1990-91 academic year.

Introduction to African Dance and African Dance II are both being offered Fall Semester for two credits each. Introduction to African Dance meets from 11:15 a.m. to 12:05 p.m. on Mondays, Wednesdays and Fridays, and African Dance II meets from 4:30 to 5:45 p.m. on Mondays and Wednesdays.

Ms. Munchus-Bullock first came to the University as an artist-in-residence in spring 1990. The residency was sponsored by the Department of Exercise and Sport Science, the Black Studies Program and the Paul Robeson Cultural Center.

This year, her residency is supported by an EOPC grant, as well as by the Department of Exercise and Sport Science. Her duties will include working with the Nonmo Performing Arts Company, as well as teaching dance.

Institute forms new partnership

The College of Education and the Institute for the Study of Adult Literacy have formed a unique partnership with NETWORK-America's Two-Year College Employment, Training and Literacy Consortium. NETWORK consists of more than 300 of America's two-year colleges and has the mission of

enhancing and strengthening the role of two-year colleges in employment, training, and literacy.

Under the agreement, the Institute and NETWORK will explore the feasibility of various types of cooperative programs and partnerships, including degree programs in vocational

training and basic skills to be offered both by community colleges and by the College of Education; faculty exchange programs between Penn State and NETWORK schools; and the use of NETWORK campuses as research partners and test sites for materials developed at the Institute.

University Park Calendar

August 30 -- September 9

Special Events

Thursday, August 30
GSA, Organization Fair, 10 a.m.-4 p.m., 101 Kern.

Friday, August 31
Geog. Coffee Hour, 3:30 p.m., 319 Walker. Paul Simkins on "Hunting Wildflowers with Gun and Camera."
Late registration deadline: course drop/add deadline.

Monday, September 3
Labor Day holiday--no classes.

Tuesday, September 4
GSA, Recreation Festival, 10 a.m.-3 p.m., 101 Kern.
Graduate Program in Nutrition, 7 p.m., 112 Chalmers: Kenneth Weiss on "Diabetes and Related Problems in American Indians: Nutritional Diseases with an Evolutionary Explanation."

Wednesday, September 5
Bloodmobile, 10 a.m.-4 p.m., HUB Ballroom. Center for Women Students. Brown Bag Lunch Series, noon-1 p.m., 120 Boucke. Margaret Spear on "Issues of Women's Health Care." GSA, thesis workshop, 3:30 p.m., 112 Kern: 7:30 p.m., 101 Kern.
School of Music, 8 p.m., Recital Hall. Richard Davis, baritone.

Thursday, September 6
Board of Trustees meets at University Park, through Sept. 7.
Bloodmobile, 10 a.m.-4 p.m., HUB Ballroom. Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel.

Friday, September 7
Smeal College of Business Administration naming ceremony, 4 p.m., BAB lawn.
Geog. Coffee Hour, 3:30 p.m., 319 Walker. Deryck Holdsworth on Coping with Height.

Sunday, September 9
School of Music, 8 p.m., Recital Hall. Robert Hatten, piano.

'Private Slumber' by Rina Banerjee is on display in the HUB Art Alley from Sept. 23.

Public Radio

WPSU-FM 91.1
"All Things Considered" Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m. "Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. "Wednesday, with S. Leonard Rubinstein. "Perspectives," 6:30 p.m. "Wednesday, Creative License, 12:30 p.m. Thursdays, with Asa Berlin and Pam Saulnier."

Seminars

Thursday, August 30
Physics Colloquium, 3:30 p.m., SS Osmond Lab. Bernard I. Halperin, Harvard Univ., on Fractional Statistics.

Tuesday, September 4
Chemical Engineering, 2:45 p.m., Paul Robeson Cultural Center Aud.
Chemistry Colloquium, 3:30 p.m., SS Osmond Lab. Nicholas Winograd on "Surface Chemistry, with Ions, Beams and Lasers."
Geosciences Colloquium, 3:45 p.m., 112 Walker. Eric Barron on Mesozoic-Cenozoic Ocean Circulation.
Condensed Matter Physics, 4 p.m., 339 Davey Lab. Dr. Renee Diehl on "Structures and Phase Transitions in Alkali Metal Overlayers."

Thursday, September 6
Economics and Institute for Policy Research and Evaluation, 2:30 p.m., 101 Kern. N. Gregory Mankiw, Harvard Univ., on "A Contribution to the Empirics of Economic Growth."
Physics Colloquium, 3:30 p.m., SS Osmond Lab. Jeffrey Lannin on "Clusters on Surfaces: How are Small Systems Different."

Exhibits

Chambers Gallery
Chet Davis, paintings, through Oct. 5.

HUB Galleries
Browsing Gallery:
Alan Klein, photographs, through Sept. 23.
Art Alley Panels:
Rina Banerjee, oil paintings, through Sept. 23.
Art Alley Cases:
SCASD, adult pottery class exhibit, through Sept. 23.

Formal Gallery:
Spectacular Vernacular: Traditional Desert Architecture from West Africa and Southwest Asia, through Sept. 23.

Palmer Museum of Art
Selections from the Permanent Collection, through Oct. 7.
The Presence of Absence: New Installations, through Oct. 14.
The Machines of Leonardo da Vinci, through Nov. 4.

Pattee Library
West Lobby Gallery:
Permanent collection from the Arts Library, through Sept. 7.

Zoller Gallery
Shaughnessy-Greenberg Installations, through Sept. 30.

■ Reflects an international perspective

Bookshelf

Caroline D. Eckhardt, professor of English and comparative literature and head of the Comparative Literature Department, is the author of *Chaucer's General Prologue to the Canterbury Tales: An Annotated Bibliography 1900-1982*, published by the University of Toronto Press.

As the third volume in the Toronto Chaucer Bibliographies series, following upon two volumes by Russell A. Peck of the University of Rochester, the book provides a critical survey of modern scholarship on Chaucer's best known work.

Major trends in 20th-century literary criticism are reflected in the ways in which Chaucer has been interpreted. The book concentrates on material from Western Europe and the United States, although

items from as far away as Japan also are included.

Donna M. Hughes, instructor in women's studies, and **Clare M. Kristof**, writing assistant to the dean of the College of Engineering, co-edited an anthology of poems and writings by survivors of domestic violence. Rebecca A. Bennett, *Center Daily Times* editorial page editor, also co-edited the book.

Published by the Centre County Women's Resource Center, *Battered, Not Broken* features the works of 15 women from throughout the country. The autobiographical works describe the effects of violence in the lives of the women and their children. The writings reflect the struggle to survive and escape violence in the family.

The intent of the anthology is for the

poems and stories to convey a message of hope for other women and children who have been or are being abused.

Lori D. Ginzberg, assistant professor of history and women's studies, is the author of *Women and the Work of Benevolence: Morality, Politics and Class in the 19th-Century United States*, published by Yale University Press.

In her book, Dr. Ginzberg examines the broad spectrum of benevolent work performed by middle- and upper-middle-class women from the 1820s to 1885 and offers a new interpretation of the shifting political contexts and meanings of the tradition of women's reform activism.

During the years before the Civil War, she says, the idea of female moral superiority and the benevolent work it supported contained both radical and

conservative possibilities, encouraging an analysis of femininity that could undermine male dominance as well as guard against impropriety.

At the same time, benevolent work and rhetoric were vehicles for the emergence of a new middle-class identity, one that asserted that virtue -- not wealth -- determined status.

Dr. Ginzberg shows how a new generation that came of age during the 1850s and the Civil War developed new analyses of benevolence and reform. By the postbellum decades, the heirs of antebellum benevolence referred less to a mission of moral regeneration and far more to a responsibility to control the poor and "vagrant." This shift signaled the refashioning of the ideology of benevolence from one of gender to one of class.

Appointments

Donald T. Comer, director of engineering at Precision Micro Devices Inc., has been selected as the recipient of the Quentin Berg Endowed Professorship in Engineering and Technology at Penn State Harrisburg.

The Quentin Berg Professorship, established in 1988 by Mrs. Berg in remembrance of her husband, a Central Pennsylvania engineer and industrialist, will provide the Division of Science, Engineering and Technology with resources for teaching, research, and public service in engineering technology.

Dr. Comer received a Ph.D. from the University of Santa Clara, a master's degree from the University of California at Berkeley, and a bachelor's degree from San Jose State University.

His career has included positions with Analog Devices Inc., Microdesign Associates, Storage Technology Corp., Precision Monolithics Inc., Mobility Systems Inc., IBM Corp., and San Jose State University. He is the author of numerous publications and holds 16 U.S. patents.

Turgay Ertekin, professor and section chair of Petroleum and Natural Gas Engineering in the College of Earth and Mineral Sciences, has been named the Quentin E. and Louise L. Wood Fellow in Petroleum and Natural Gas Engineering.

The Wood Fellowship was endowed by a \$100,000 gift from Quentin Wood, a 1948 graduate in petroleum and natural gas engineering, and his wife Louise, a 1954 graduate in arts and letters.

Dr. Ertekin is the first holder of the Wood Fellowship and carries out research in numerical modeling and reservoir engineering. He has made significant contributions to such areas as enhanced oil recovery and unconventional gas recovery.

Part of the income from the endowment may be used to support graduate assistants, research expenses, education and travel expenses.

Mr. Wood is chairman of the board of Quaker State Corp. and member of the Penn State Board of Trustees since 1976. He served as president of the Board of Trustees from 1979 to 1981.

Gary W. Gallagher, an associate professor of history nationally recognized for his efforts to conserve Civil War battlefields,

has been named head of the History Department.

Since 1987, Dr. Gallagher has been president of the Association for the Preservation of Civil War Sites, a national organization with a membership of 1,700 and a 12-person board. He also serves on the advisory board for the Conservation Fund Project on Civil War Battlefield Preservation.

Dr. Gallagher joined the University faculty as an assistant professor in 1980 and was promoted to associate professor in 1989.

He recently edited *Fighting for the Confederacy: The Personal Recollections of General Edward Porter Alexander* (University of North Carolina Press). The book was selected as "The Editor's Choice" by the History Book Club and was winner of the 1990 Douglas Southall Freeman Prize.

His other books include *Antietam: Essays on the 1862 Maryland Campaign* and *Stephen Dodson Ramser, Lee's Gallant General*.

Dr. Gallagher received a bachelor's degree from Adams State College, a master's degree from the University of Texas at Austin and a doctorate from the University of Texas.

Melissa Grimm has been named coordinator of the Brodhead Cultural Center at the Penn State Beaver Campus. She replaces **Amy M. Krebs**, who now serves as director of university relations at the campus.

Mrs. Grimm is a Penn State graduate with a bachelor of science degree in elementary education and a minor in English. Prior to joining the campus staff, she worked in planning and coordinating a variety of cultural events, conferences, speakers services, and fundraising and community service projects.

She currently is a member of the Pennsylvania Local Arts Network, Association of Performing Arts Presenters, and the board of directors of the Greater Beaver Valley Cultural Alliance. At the campus, she is chair of the Strategic Planning Committee's Community Relations group and a member of the Child Care Task Force.

Ms. Krebs, a Penn State graduate with a bachelor of arts degree in general arts and sciences, has served as coordinator of the

Brodhead Cultural Center for 10 years. She is a member of the College and University Public Relations Association of Pennsylvania, Council for the Advancement and Support of Education, Executive Women's Council, and the board of directors of the Greater Beaver Valley Cultural Alliance.

Her Beaver Campus activities include membership on the Campus Executive Officer's Council, Strategic Planning Development Committee, and the Brodhead Cultural Center Oversight and Advisory Council.

Kathryn M. Grossman, associate professor of French, has been named head of the Department of French.

A University faculty member since 1973, Dr. Grossman served as associate head of the department in 1989-90.

From 1985 to 1987, she was University Fulbright Program adviser, Office of International Programs. From 1983 to 1987, she was faculty specialist and associate director for academic affairs, Office of Education Abroad Programs. In 1982-83, she was acting assistant dean of liberal arts for the Commonwealth Educational System.

As a scholar, Dr. Grossman combines her specialization in Victor Hugo's prose fiction with interest in theory of metaphor and utopian studies.

Her publications include *The Early Novels of Victor Hugo: Towards a Poetics of Harmony* (Droz, 1986) and numerous articles on the political and aesthetic sublime in Hugo and other post-Romantic writers, such as Dickens, Orwell and Zamyatin.

Dr. Grossman holds a bachelor's degree in French from Bryn Mawr College and a doctorate in Romance languages from Yale University.

Michael A. Smyer, associate dean for research and graduate studies in the College of Health and Human Development, has been named to chair the University's International Council.

The International Council guides the University Office of International Programs and forms a link between the Office of International Programs and the Office of the President. Its members represent major units of the University, including the colleges, the Commonwealth Educational

System, the University Libraries, the Graduate School, the Graduate Student Association, the Undergraduate Student Government, and the International Student Council.

Under Dr. Smyer, the International Council will deal with such issues as inclusion of international programs in the University's fund-raising efforts, internationalization of the curriculum, inclusion of faculty members' international activities in promotion and tenure considerations, and strategic planning for the University's international efforts.

In the College of Health and Human Development, Dr. Smyer is responsible for international efforts in research and resident instruction; he has represented the college on the International Council for the last two years. His own international experience includes a Kellogg Foundation fellowship through which he studied health care and aging in developed and less developed nations.

Deb Walsh has been appointed communications specialist to fill the newly created position in Housing and Food Services.

She is responsible for promoting the accomplishments of Housing and Food Services, marketing Housing and Food Services, developing media relations and coordinating communication among University Park and several other campuses.

Most recently, she served as director of marketing and community relations for Olean General Hospital in Olean, N.Y. She also was director of public relations for two years at Brookville Hospital in Brookville.

She has worked as an advertising consultant and representative for Great Circle Broadcasting in Meadville, and spent two years as the youth market manager and special market development manager for Coca-Cola Bottling Co.

Ms. Walsh is a 1984 graduate of the University of Pittsburgh at Johnstown where she earned a B.S. in journalism with minors in marketing and computer science. She recently completed graduate work at Clarion University of Pennsylvania in the mass communication program and plans to continue graduate work at Penn State.

Gary W. Gallagher

Melissa Grimm

Amy M. Krebs

Kathryn M. Grossman

Michael A. Smyer

Penn Staters

Ralph Smith, assistant professor of leisure studies, has been elected second vice president of the National Wheelchair Basketball Association.

Robert E. Newham, Alcoa professor of solid state science at the Materials Research Laboratory, has been named "Ceramic Educator of the Year" by the American Ceramic Society.

Rustum Roy, Evan Pugh professor of the solid state and director, Science Technology and Society Program, was honored with a symposium organized by the Materials Research Laboratory The Science Behind Materials Synthesis symposium brought together scientists from around the world to honor the founder of the MRL.

David B. Van Dommelen, professor emeritus of art education and fiber arts, has been selected for the honor roll of craftspeople who have contributed to the development of handweaving in this country from 1920 to 1980 by *Handweaver Magazine*.

Steven H. Zarit, professor of human development, presented two papers titled, "The Meaning of Memory Impairment in the Oldest Old" and "Dementia and Cognitive Impairment in the Oldest Old: A Comparison of Two Rating Methods" at the Nordic Gerontology Conference in Reykjavik, Iceland.

H. Reginald Hardy Jr., chairman of the geomechanics section and director of the Penn State Rock Mechanics Laboratory, has been named a member of the International Advisory Board for the 19th International Symposium on Acoustic Emission at Tohoku University, Sendai, Japan, Oct. 22-25. Dr. Hardy also will serve as co-chairman of the second International Workshop on Acoustic Emission and Rock Fracture Mechanics to be held at Kumamoto University, Kumamoto, Japan, Oct. 29-31.

Dorothy V. Harris, professor of exercise and sport science, has been inducted into the James Madison University Sports Hall of Fame.

Bob Intieri, P.G.A. Master Professional and manager of the Penn State Golf Courses, has been selected for special recognition in junior golf promotion by *Golf Shop Operations* for his efforts and success in promoting junior golf participation and instruction.

Susan L. Kennedy, associate director for health promotion and education, University Health Services, has been elected secretary of the Health Education Section of the American College Health Association.

Randy Ploog, assistant curator of the Palmer Museum of Art, was one of three jurors for the 58th annual Cumberland Valley Artists Exhibition at the Washington County Museum of Fine Arts in Hagerstown, Md.

Monika Zechemayr, professor of exercise and sport science at the DuBois Campus, discussed her research on wellness and employee assistance programs, and health care cost issues at the University of Munich Sport Center and Technische Universität, the Continuing Education Center in Kempen, West Germany, and the Senior Citizen Center Hoeflympark in Kempen.

Lewis C. Attardo, director of the Ben Franklin Technology Center at Penn State Harrisburg, presented an invited paper, "An American Approach to Enterprise Development in the 1980's," and the keynote address, "Entrepreneurial Support Policies in the U.S.," at the Conference on Small and Medium Enterprise Innovation and Entrepreneurship for Strengthening Intra-European and International Cooperation in Trieste, Italy.

John A. Brighton, dean of the College of Engineering, and **Ernest R. Weidhaas**, professor emeritus of engineering graphics, have been named fellows of the American Society for Engineering Education. ASEE Fellows are recognized for outstanding contributions and service to engineering education.

Peter Dean, assistant professor of education, has been appointed to the International Board of Standards for Training, Performance, and Instruction.

Fighting for the Confederacy: The Personal Recollections of General Edward Porter Alexander, edited by **Gary Gallagher**, associate professor of history, has received the 1990 Douglas Southall Freeman Award. The Douglas Southall Freeman Award, given annually by the Military Order of the Stars and Bars to the best work on Southern history, is named for the premier historian of Robert E. Lee and the Army of Northern Virginia.

Howard G. Knuttgen, director of the Center for Sports Medicine, has been elected to the Executive Committee of the International Federation of Sports Medicine. The federation includes the national sports medicine organizations of 83 nations.

David J. Lindstrom, coordinator of the Office of Emergency Medical Services, University Health Services, has received the Walter J. Thompson Award from the Pennsylvania Emergency Health Service in recognition of "dedicated

service and superior accomplishment in the field of emergency medical services."

E. Willard Miller, professor of geography and associate dean for resident instruction emeritus in the College of Earth and Mineral Sciences, has received the 1990 Honors Award of the Association of American Geographers.

Donna Rogers, assistant professor of Spanish, gave a paper titled "Legal Terms in Eximenes' Regimiento de la cosa publica" at the sixth Colloquy of the North American Catalan Society at the University of British Columbia in Vancouver.

Wilbur Zelinsky, professor emeritus of geography, presented an address titled "Is the Urban-Rural Dichotomy Withering Away? The American Case" during a plenary session of the 14th European Congress of Rural Sociology at the Justus-Liebig University in Gießen, Germany.

Marie Bednar, head of Bibliographic Support Services, University Libraries, presented an invited lecture, "Automation in U.S. Libraries" at the School of Librarianship and Information Science, Charles University, Prague, Czechoslovakia.

Gordon W. Blood, associate professor of communication disorders in the College of Health and Human Development, has been elected a Fellow of the American Speech-Language-Hearing Association.

Elsworth R. Buskirk, Marie Underhill Noll professor of human performance and director, Noll Laboratory for Human Performance Research, has been named to a two-year term on the clinical sciences study section of the National Institutes of Health.

William J. Duiker, professor of East Asian history, presented a paper at a conference on the Vietnamese revolutionary Ho Chi Minh, held in Passau, West Germany. Dr. Duiker has received a grant from the Social Science Research Council to write a biography of Ho Chi Minh.

Luis F. Gonzalez-Cruz, professor of Spanish, Penn State New Kensington Campus, served as a critic and moderator for the Fifth International Hispanic Theater Festival held in Miami. Dr. Gonzalez-Cruz also was official evaluator of the festival for the Florida Endowment for the Humanities. He received a special recognition award for his participation in the festival.

David J. Green, associate professor of materials science, presented "Mechanical Behavior of Lightweight Ceramics to the United States/Korea Joint Symposium on Recent Progress in Technical Ceramics in Seoul, South Korea.

Frank B. Guadagnolo, associate professor of leisure studies, presented a paper titled "Application of Importance-Performance Analysis in the Evaluation and Marketing of Golf Operations" at the First World Scientific Congress of Golf at the University of St. Andrews in Scotland.

Kathryn E. Hood, associate professor of human development, presented a talk titled "Sex-related Changes in Aggressive Behavior Over the Life Span of Selectively Bred Mice" at the annual meeting of the International Society for Developmental Psychology in Cambridge, England.

Elmer E. Klaus, professor emeritus of chemical engineering and principle investigator with the University's Center for Advanced Materials, has been elected a Fellow of the American Society of Chemical Engineers and has been appointed a member of the International Tribology Council. Dr. Klaus also was elected to the board of trustees of A Computerized Tribology Information Service.

William J. Kraemer, director of research, Center for Sports Medicine, has received the Executive Director's Award for Outstanding Work in the development of the Performance-Enhancing Substance Abuse Committee and its work with the NCAA. The award was presented by the National Strength and Conditioning Association.

Archie Loss, professor of English, Penn State Erie, The Behrend College, presented a paper on "The Automobile in American Literature: Directions for Research" at the Popular Culture Association in Toronto, Canada.

John A. Lucas, professor of exercise and sport science, made a presentation titled "Women and the Olympic Movement: The 52 Percent Solution" at the 30th International Olympic Academy in Olympia, Greece.

Gary L. Messing, professor of ceramic science, made a presentation at a workshop on Sol-Gel Processing of Glasses and Ceramics at the University of Sao Carlos, Brazil.

Elizabeth J. Susman, professor of human development and nursing in the College of Health and Human Development, has been elected to the Academy of Behavioral Medicine Research.

Partings

Sheldon R. Gelman, professor of social work, has retired after 21 years of service. He has been appointed Schachne Dean of the Wurzweiler School of Social Work at Yeshiva University in New York City.

For the past 12 years, Dr. Gelman was director of the social work program in the Department of Sociology. One of his key research interests has been bioethics, which deals with the granting or withholding of medical treatment to save lives.

In 1986, he was appointed a national adviser to the National Resource Institute for Children with Handicaps, a part of the University of Washington's Child Development and Mental Retardation Center. In addition, he was appointed to the statewide steering committee of the Pennsylvania Elder Abuse Prevention Project.

He has been a consulting editor for *Mental Retardation*, a publication of the American Association on Mental Retardation, and the Journal of Social Work Education, published by the Council on Social Work Education.

Dr. Gelman, a Fellow of the American Association on Mental Retardation, has published numerous academic papers on social legislation and policy affecting the mentally retarded. In 1974, he received the Rosemary F. Dybwad International Award from the National Association of Retarded Citizens.

A native of Pittsburgh, Dr. Gelman received his bachelor's degree in physiology and his master's degree in social work from the University of Pittsburgh, a master's in

law from Yale University Law School and a doctorate in welfare planning from the Heller School of Brandeis University.

Patricia L. Long, senior extension agent in Westmoreland County, has retired after 30 years service.

Ms. Long codirected the Family Living Program and administered the Expanded Foods and Nutrition Education Program.

She graduated from Carlow College in Pittsburgh in 1952 with a degree in home economics education. Before coming to Penn State, she was a home economics teacher in the Pittsburgh public school system and a home service representative for the Equitable Gas Co. in Pittsburgh. She first joined Penn State Cooperative Extension as an assistant agent in Allegheny County. In 1963 she was promoted to extension agent in Westmoreland County, and in 1977 to senior extension agent, the highest rank that can be attained in county extension work.

Ms. Long received a Distinguished Service Award from the National Association of Extension Home Economists in 1971 for expanding programs in nutrition and homemaking among low income black women in urban areas, and for developing leadership in 4-H home economics clubs. In 1987 she received the State Distinguished Service Award from Epsilon Sigma Phi, the national honorary extension fraternity.

She served as president of the Pennsylvania Association of Extension Home Economists and as treasurer of the

Sandra S. Smith

National Association of Extension Home Economists.

Now that she is retired, she plans to enjoy her home and family. She and her husband, William, own a 27-acre hobby farm in Greensburg with a large garden, flowers and some animals.

Sandra S. Smith, secretary in the Office of Academic Services, has retired after 25 years of service.

In 1965 Ms. Smith began working as a secretary in the College of Science, and in 1973 she was a secretary for the College of Education.

Later as the secretary for the assistant

vice president of academic services, Ms. Smith dealt with the scheduling of courses changing the schedule, changing course credit amounts and determining the number of students in the courses. More recently, she has worked with personnel issues.

"In the fall I'll plan to get a part-time job because I've worked all my life," she said. She also plans to open a craft shop in the Centre Hall area.

Ralph W. Stoner, supervisor of dairy production research in the College of Agriculture dairy barns, has retired after 42 years service.

Mr. Stoner was responsible for managing equipment at the dairy barns. "I was born and raised on a farm and I always liked working around cows," he said. "I enjoyed my job. I'll miss the guys I worked with."

Mr. Stoner has a twin and one other brother, both retired from the College of Agriculture. "Together, the Stoners worked at Penn State over 100 years," he said.

His retirement plans include hunting, traveling, and visiting his five children.

Paul E. Beard, senior biomedical fabrication technician at Hershey, from Jan. 2, 1980, until June 30.

John H. Joseph, assistant professor of educational technology and multi-media journalism at Penn State Harrisburg, from July 1, 1965, until July 1.

Paul K. May, secretary, C. Agriculture, from Nov. 1, 1964, until June 30, 1966, and from Jan. 21, 1974, until Aug. 1.

Faculty/Staff Alerts

Affirmative Action notice

The Affirmative Action Office is responsible for the coordination of compliance with the requirements of Section 503. If you are a handicapped individual and would like to be considered under the affirmative action program, please contact the Affirmative Action office at 814-863-0471.

The Pennsylvania State University is a government contractor subject to Section 503 of the Rehabilitation Act of 1973, which requires government contractors to take affirmative action to employ and advance in employment qualified handicapped individuals.

If you have a physical or mental impairment, a record of having had such an impairment or are regarded as having an impairment that substantially limits your ability to select, retain or advance in employment, the Affirmative Action Office would like to include you under the Affirmative Action Compliance Program.

This identification will assist in proper placement and appropriate accommodations if an employee will describe (1) any special methods, skills or procedures which qualify you for jobs that you might not otherwise be able to do because of your impairment, so that you may be considered for any

position of that kind, and (2) possible accommodation which could be made which would enable you to perform the job properly and safely.

The Affirmative Action Office also will aid in "identifying" individuals requiring assistance in the interest of life safety for the development and execution of emergency evacuation in all buildings of The Pennsylvania State University, at all locations. Compliance is on an individual, voluntary basis.

Submission of this information is voluntary and refusal to provide it will not subject an employee to discharge or disciplinary treatment. Information obtained concerning individuals shall be kept confidential, except that (1) supervisors and managers may be informed regarding restriction on the work duties of handicapped individuals, and regarding necessary accommodations, (2) first aid and safety personnel may be informed when and to the extent appropriate, if the condition might require emergency treatment and (3) government officials investigating compliance with the Act shall be informed.

Computers for faculty use
Faculty members at University Park are

reminded that personal computers and projection devices are now being made available for use in general-purpose classrooms.

The computers are for use by faculty as teaching tools and are not available for student use. At present, there are IBM PS/2 8550 and Macintosh Ilex computers and data plates for projection. Because of the limited number of computers, they will be available only in Willard, Chambers, and Forum buildings. There is also a high-resolution color graphics projector available for use by classes in the Forum Building.

The computers can be scheduled now by contacting Audio-Visual Services at 865-5400.

If your interest is in future use, please inform your departmental room scheduling coordinator so that he or she can inform the Registrar's Office to schedule your classes in those buildings or rooms that have computer capabilities.

Savings Bonds

The Department of the Treasury recently announced that effective Oct. 1, \$50 and \$75 denominations of Series EE Savings Bonds will no longer be available for purchase through payroll savings plans. The

minimum denomination for all payroll savers beginning Oct. 1 will be \$100 which has a purchase price of \$50.

The \$50 and \$75 bonds have not been available to new payroll purchasers since February 1988. However, because a number of faculty and staff previously selected these amounts, Penn State was able to continue ordering these denominations for them. Beginning with money deducted during the month of September 1990, this practice will no longer be permitted by the Department of the Treasury.

Any member of the faculty or staff who is receiving either \$50 or \$75 bonds will be receiving bonds at irregular intervals. This can be avoided if a new authorization card adjusting the deduction to an amount that would result in the monthly issuance of future bonds is submitted to Payroll.

Enrollment in payroll savings of U.S. Savings Bonds and/or changes in future deduction amounts are not limited to any one time of the year. The semiannual market-based interest rate in effect through Oct. 31 is 7.01 percent. Savings Bonds semiannual rates are changed each May 1 and Nov. 1 to reflect market activity during the preceding six months.

University executive alumni increase aids ranking

Pennsylvania's major universities have moved from fifth to fourth place in producing U.S. business executives, due largely to a surge in executive alumni ranks at Penn State, according to Standard & Poor's 1990 Executive College Survey.

The standings are based on the number of executives graduated by five major schools in each state.

Pennsylvania's five top universities -- Penn (1,781 executive alumni), Penn State (771), Pitt (568), Lehigh (389) and Temple (350) -- produced a total of 3,865 alumni executives.

"Helping the Keystone state's rise," the S&P report noted, "was a gain among executive alumni ranks at Penn State.

which went from 740 three years ago (1987) to 771 in 1990."

New York state ranked first with 6,926, followed by Massachusetts, 6,811, and Illinois, 3,981. California, with 3,838 alumni executives, rounded out the top five.

These five states accounted for nearly half of the S&P report said.

"Penn State should continue to strengthen Pennsylvania's ranking, as our strong MBA program continues to produce more and more alumni," J.D. Hammond, dean of the Smell College of Business Administration, said. "Moreover, our undergraduate program continues to supply

talented graduates to corporate America and small businesses as well.

Within Pennsylvania, Penn State ranked second in undergraduate alumni executives with 652 graduates and ranked fourth in graduate program executives with 119. Penn State began its MBA program in 1959, made major changes in 1975 and expanded its size in the early 1980s. Currently, the MBA program graduates about 160 students per year, Dean Hammond said. In 1990 it was ranked 20th in the nation in a qualitative survey by U.S. News & World Report and eighth among programs at public universities.

The S&P study also said that two prestigious groups of universities, the Ivy League (eight private institutions) and the

Big 10 (formerly nine public and one private institution) together account for 23,151 business executives.

Penn State, which recently was invited to join the Big 10, would rank ninth of the 11 institutions that now compose that conference.

In other rankings, the Commonwealth of Pennsylvania ranked fourth (4,293) in providing the current residence of U.S. business executives and second (5,473) in providing their state of birth.

25-year award

Donald J. Thompson, materials procurer/expediter, Office of Physical Plant.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until Sept. 6. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered in accordance with Fair Employment practices (PJI) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

***00886, Audit Manager, Corporate Controller, University Park Campus** -- Responsible to the assistant university auditor for conducting audits to appraise extent of compliance with the University policies and procedures, adequacy and reliability of records and management information reports, soundness and adequacy of accounting, financial and other operating controls, and safeguarding of assets within any of the diverse operational, financial, and

administrative functions of the University. Requires bachelor's degree, or equivalent in accounting or related field plus three to four years of effective experience in public accounting. STAFF GRADE 8

***00887, Computer Support Assistant, College of Education, Dean's Office, University Park Campus** -- Provide support to staff and clerical employees in the use and maintenance of various computers and software packages; provide and coordinate IBS training; maintain software library and site license records. Requires associate degree, or equivalent, in computer technology or related field plus one to two years of effective experience. Knowledge of DOS/Macintosh applications required. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 4.

***00888, Curriculum Development Specialist, Undergraduate Education, Instructional Development Program, University Park Campus** -- Responsible to the director, Instructional Development Program, for developing, coordinating, and conducting curricular development programs for faculty, and for providing consultation to departments and faculty in developing new courses in

areas as writing course objectives and integrating initiatives such as cultural diversity and writing across the curriculum. Requires master's degree, or equivalent, and up to one year of effective experience in curriculum development. A doctorate is preferred. STAFF GRADE 6.

***00889, Neurophysiology Technician, University Hospital, Medicine, Ancillary, The Milton S. Hershney Medical Center** -- Responsible to the coordinator, Neurophysiology Laboratory, for conducting a variety of clinical neurophysiology studies and tests, including rotations through the Epilepsy Monitoring Unit (EMU) and operating room. Requires high school diploma, or equivalent, completion of department approved formal training in clinical neurophysiology laboratory and eligible for Part I examination of ABREPT plus one to two years of effective experience. STAFF GRADE 4.

***00891, Transplantation Coordinator, College of Medicine, Nursing Administration, The Milton S. Hershney Medical Center** -- Responsible to the director, Transplantation Services, of the appropriate clinical department and the appropriate assistant director of nursing for providing assistance to the physician in the evaluation, care and education of

transplant patients and their families. Requires bachelor's degree, or equivalent, in nursing (RN licensure required) or certification as a physician's assistant, plus three to four years of effective experience in the delivery of patient care. Master's degree in nursing or other related field preferred. STAFF GRADE 7.

***00892, Educational/Vocational Counselor -- Nontraditional Students, CES, Continuing Education, McKeesport Campus** -- Responsible to the director, Continuing Education, McKeesport Campus, for coordinating and providing academic, educational, and vocational counseling programs for nontraditional students in the campus service area. Requires master's degree, or equivalent, in counseling, psychology, or related field, plus one to two years of effective academic counseling and advising experience. Knowledge of computers desirable. Evening and weekend hours required. STAFF GRADE 7.

***00893, Programmer, Pennsylvania State Park Campus, Penn State Harrisburg** -- Responsible to the designated project coordinator to participate in analysis, program design, coding, testing, documenting and other programming tasks required to produce reports, create logic statements, and

maintain information files. Requires bachelor's degree, or equivalent, in computer science or related field, plus six to nine months effective experience in computer programming. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. WITH GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 5.

***00896, Supervisor, Athletic Recreation Operations, Administration, Delaware County Campus** -- Responsible to the director, Student Programs and Services, and the director of academic affairs for scheduling facilities and personnel for special events, athletic, recreational, and instructional programs. Requires associate degree, or equivalent, in physical education, recreation or related field plus two to four years of effective experience in athletics and student recreation, or a bachelor's degree and less experience. National Athletic Training Association certification and training license required. Red Cross certification in CPR and first aid instruction required. THIS IS A FIXED-TERM POSITION FUNDED FOR TWO YEARS -- 10 MONTHS EACH YEAR. THIS IS A RE-ANNOUNCEMENT OF THE POSITION ANNOUNCED ON 7/26/90. STAFF GRADE 5.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Presidential Portrait

Three past presidents of Penn State pose in front of Old Main with Joab L. Thomas, the University's 15th president, who officially began his duties Sept. 1. From left are John W. Oswald, president from 1970 to 1983; Eric A. Walker, 1956 to 1970; Dr. Thomas, and Bryce Jordan, 1983 to 1990. (Photo: Scott Johnson)

Focus on Diversity

Second annual Festival of Cultures set for Sept. 15

Music, dance, ethnic foods, crafts and children's activities will be highlighted as Penn State and the Centre Region community host their second annual Festival of Cultures Sept. 15.

The event, organized by Centre Region Council of Governments, local residents and the University, will take place in State College at the Central Parklet, located behind the Fraser Street Post Office from 10 a.m. to 7 p.m.

The festival is intended to provide a fun way of bringing together people from different backgrounds to learn about each other's cultural heritage and celebrate the area's diversity. It will feature many types

of food, fashion, art, crafts, dance and children's games.

"The support and participation we received for last year's festival was more than we imagined," Jim Steff, planning committee co-chair and COG executive director, said. "This year we hope it will be even more successful."

Food highlights involve an expansion from one cooking contest last year to two this year. They are the chili challenge sponsored by the Native American Indian Student Association, and a Buffalo chicken wing cook-off which is a contest between local restaurants including: La Bamba, State College Hotel, Spats, the Gingerbread Man,

Stoney's Posthouse Tavern and Cafe 210 West.

"The Festival of Cultures is an excellent opportunity to bring people together from different backgrounds to learn about each other's cultural heritage and to celebrate our area's diversity. By providing this day in the park, we hope to generate excitement, understanding, appreciation and acceptance of local diversity and pluralism among local residents and University students," Tony Jones, planning committee co-chair and account executive at Cellular One of Centre Region, said.

Musical highlights will include performances by local groups Passport and

Earthtones. Other attractions will be Black Greek fraternity and sorority step shows, an open forum and a performance by the Interlandia Dance Co.

"We think the Central Parklet is an ideal location, because it's close to the University campus, State College residential areas and parking facilities for other Centre Region residents," Mr. Steff said. "We hope this beautiful park setting will make it easy and enjoyable for many to attend."

"We hope that the activities at this event will open the way for new levels of cross-cultural interactions and understanding that may enhance the lives of many."

Health and Human Development sponsors diversity workshop

The College of Health and Human Development will sponsor a workshop on cultural diversity in the classroom from 1 to 4:30 p.m. Thursday, Sept. 13, in the Nittany Lion Inn.

A committee of Health and Human Development faculty has planned the workshop to provide the college's faculty an opportunity to learn how cultural diversity issues can be integrated into the classroom.

Faculty who have integrated cultural diversity into the classroom successfully will make presentations; students will discuss their classroom experiences, and faculty with similar interests, including faculty from other colleges, will participate in group discussions.

Jerry B. Covert, associate dean for undergraduate programs, will give the keynote address on "The Importance of

Curriculum Integration." W. Terrell Jones, special assistant to the provost for underrepresented groups, will speak on "Classroom Climate."

Susan C. Yount, associate director of the School of Nursing, will moderate the faculty panel, and Patrick Moore, associate director of the School of Hotel, Restaurant, and Institutional Management, will moderate the student panel.

The discussion groups will explore ways of integrating courses, both in content and in teaching style; areas of various academic fields that lend themselves to curriculum integration and areas that make integration more challenging; possible resistance to, curriculum integration, and teaching techniques that could make classroom experiences more meaningful to a diverse audience.

Diversity Opportunities Calendar

Thursday, Sept. 13

EOPC, Department of Human Development and Family Studies, 8 p.m., HUB Assembly Room, Rhonda Rivera, Ohio State University, on "Lesbians and Gay Men and the Law: Issues for the 1990s."

WPSX-TV program

Tony Brown's Journal, airing at 11:30 a.m.

Sunday, Sept. 9, on WPSX-TV, looks at the "Chicago Black Expo."

The wealth of the African-American consumer is the focus of this edition, broadcast from the Chicago Black Exposition. The Rev. Bernard Taylor, executive officer of the Expo, and Chicago entrepreneur Cirilo McSweeney discuss the objectives of the three-day event, black economic development and the power of black consumers.

Saturday, Sept. 15

Penn State and Centre Region community, 10 a.m. to 7 p.m., Central Parklet, behind the Fraser Street Post Office. Second annual Festival of Cultures featuring music, dance, food and crafts.

Forum officers are elected for 1990-91

Recently elected 1990-91 officers of the Forum on Black Affairs at the University are Deborah Atwater, president. Gary Kelsey, president-elect; Janice Forrest, secretary, and Lawrence Young, immediate past president.

Any Penn State student, faculty or staff member is invited to join the Forum on Black Affairs. For more information, contact William Covington at 863-3108.

Lecture series to focus on lesbian and gay life

Six activists and scholars will visit University Park as speakers in the second annual lecture series on contemporary scholarship on lesbian and gay lives.

The lectures, sponsored by the Equal Opportunity Planning Committee and the Department of Human Development and Family Studies, will examine the historic, political and cultural contexts of lesbian and gay life in America.

Rhonda Rivera, professor of law at Ohio State University College of Law, will open the series with "Lesbians and Gay Men and the Law: Issues for the 1990s" at 8 p.m. Sept. 13 in the HUB Assembly Room.

A member of both the Michigan and Ohio bar associations, Ms. Rivera has written widely on the legal issues of sexual orientation and AIDS as well as on labor

arbitration. She has been a visiting professor at the University of Toledo Law School and has served as assistant dean of the University of Michigan Law School.

Currently, Ms. Rivera is serving on the President's Advisory Council on Institutional Priorities at Ohio State and the university's Affirmative Action Council. She is president of the Ohio Human Rights Bar Association and a speaker for the Columbus AIDS Task Force.

Other scheduled lectures are: "Coming Out Under Fire: Lesbians and Gay Men in WW II," historian and activist Allan Berube, Oct. 22; "Beyond Homophobia: Learning from American Indian and Asian-Pacific Cultures," University of Southern California anthropologist Walter L. Williams, Oct. 29; "From Twice Cursed to

Twice Blessed: Constructing a Jewish Lesbian and Gay Identity," activist and former director of New Jewish Agenda Christie Balka, Jan. 21; Growing Up Lesbian and Gay in the South, James T. Sears, who is in educational leadership and policies at the University of South Carolina, March 25, and In the Life: The Courage of Lesbians and Gay Men of Color, Barbara Smith, co-founder of Kitchen Table: Women of Color Press, April 11.

The 1990-91 Contemporary Scholarship on Lesbian and Gay Lives lecture series is co-sponsored by the Black Studies Program, the Center for Women Students, the Paul Robeson Cultural Center, the School of Communications and the Women's Studies Program.

Minority students take part in program

Seven Pennsylvania high school seniors spent a part of their summer vacation gaining experience in agricultural research and learning about college life as part of the Minority Students Apprenticeships in Agriculture program.

The apprenticeship program, which aims to recruit minority students, is a six-week summer study sponsored by the University, the College of Agriculture and the U.S. Department of Agriculture.

"Our objective is to show young people the variety of opportunities and programs available in agriculture and higher education," William Henson, assistant to the dean for minority affairs in the College of Agriculture, said.

Appointment of two Administrative Fellows announced

The Office of the President and the Commission for Women have announced the appointment of two Administrative Fellows.

Edith C. Bender, manager of systems engineering, Management and Systems Engineering Department, will serve under the mentorship of Steve A. Garban, senior vice president for finance and operations. **Nancy L. Herron**, head librarian at the Penn State McKeesport Campus, will serve under the mentorship of Charles L. Hosler, acting executive vice president and provost of the University.

Ms. Bender, a Penn State graduate with a B.S. degree in computer science, joined the University staff in 1973 as supervisor of computer operations for the University Libraries. She moved to Management and Systems Engineering as a systems analyst in

1976; was named senior systems analyst in 1978, and appointed to her present position in 1982.

At the University, she has participated in a number of University-wide initiatives, including the planning and development of IBIS (Integrated Business Information System), EASY (Electronic Approval System), and the revision of AD4, the University policy dealing with the acquisition of computing equipment. She also has been involved in various projects of GUIDE, an IBM users group.

In the community, she is active in the Mount Nittany United Methodist Church. Dr. Herron, a graduate of Indiana University of Pennsylvania, received a master of library science degree and Ph.D. from the University of Pittsburgh.

She taught high school English in the

Franklin Regional School District and was director of library services at the Delmont Public Library and Wilkensburg Public Library before becoming head librarian at the McKeesport Campus in 1984.

She has served on a number of campus committees, including the United Way Committee, Faculty Organization Representative Council, Budget Committee, Disciplinary Hearing Board, Strategic Planning Committee, Classroom Improvement Committee, and the Campus Computer Committee.

A member of the American Association of University Women, she also is a member of the American Library Association, Association of Library and Information Science Education, American Society of Information Science, Pennsylvania Library

Association, and the Pittsburgh Regional Library Center.

The Administrative Fellows Program is designed to provide an opportunity to enhance the administrative talents and qualifications of women and minorities by involving them in mentorship experiences with top-level administrators at the University.

The program provides opportunities for Fellows to participate in a wide range of decision-making processes, learning activities, and program management, so that they are better equipped to handle the challenges of higher education administration. The Fellows Program also will help create a pool of qualified women and minorities for potential senior level administrative vacancies.

News in Brief

Educational Office Personnel

The Penn State Chapter of Educational Office Personnel invites all Penn State employees to attend the First Annual Membership Drive and Pot Luck Luncheon from noon to 1 p.m. Friday, Sept. 7, at Pattee Library, West Wing Staff Lounge, to learn more about PSEOP.

PSEOP is open to employees classified as faculty, staff, nurse nonexempt, clerical and technical service.

Publications available

The 1990-91 *Policies and Rules for Students* contains information about academic regulations, the code of conduct and other University regulations and procedures. Of special note are policy statements on intolerance (page 51), sexual harassment (pages 4-6, 51), confidentiality of records (pages 6-9), computer misuse (pages 50-51) and free expression (page 50).

All new faculty, staff and graduate teaching assistants are urged to review this publication, which can be obtained from college deans' offices, department/unit offices or from the Boucke Information Desk.

Another useful document, *Easy Access*, is a directory of campus and community resources. The publication was designed to address questions and concerns of students. Copies may be obtained from college deans' offices or from the Campus Life Assistance Center, 135 Boucke, 863-1809.

Faculty discussion group

"Critical Pedagogy and Advancing Penn State's Curriculum," a faculty discussion group for the University community, will meet from 4 to 5:30 p.m. Thursday, Sept. 13, in Room 101 Henderson Building East at University Park.

The group is planning to meet twice a month or as needed. All members of the

University community are welcome.

For more information, call Bill Tierney, (814) 865-6347; Bob Walker, (814) 865-9951; or Aaron Gresson, (814) 865-1488.

Cognitive Studies

Cognitive Studies, an organization of University faculty members from many departments with research interests in cognition and related topics, will present an Invited Colloquium in Cognition from 2:30 to 4 p.m. Friday, Sept. 14, in Room 431 Moore Building at University Park.

Ray Jackendoff, of the Program in Linguistics and Cognitive Science at Brandeis University, will discuss "Causative Concepts and their Extended Family."

Dr. Jackendoff also will present a talk titled "Language as a Window into Cognition" as part of the Fall Cognition Workshop on Saturday, Sept. 15. The workshop, to be held at Telford, also will feature presentations of collaborative research by recipients of Cognitive Studies seed grants.

For more information on the Cognition Workshop or other Cognitive Studies activities, send name and campus address to Cognitive Studies, 425 Moore Building, or call 863-1736. E-mail may be addressed to CVY AT PSUV.M.

Penn College enrollment

Pennsylvania College of Technology has achieved the highest enrollment in its history. At the end of the first week of classes, enrollment statistics fix the number of full-time equivalent students at 3,789 - up 8.2 percent from last year.

The increase represents 287 more full-time equivalent students attending the Williamsport institution and marks the fourth consecutive year in which enrollment has been up at the college.

According to William J. Martin, vice

president for student affairs, a variety of factors are credited with the most recent increases, including the appeal of the College's affiliation with Penn State; a number of new programs such as avionics, automotive engineering technology, and arboriculture; improvements in the College's physical plant, and a significant increase in the quality and quantity of student housing.

Meat Lab hours

The Penn State Meat Lab will be holding its weekly meat sales on the following dates:

Sept. 7, 14, 21 and 28; Oct. 5, 13, and 26; Nov. 2, 9, and 16; Dec. 7 and 14.

Hours are 1:30 to 4 p.m. The Meat Lab is located on Porter Road across from Beaver Stadium.

Research grant

Ashok D. Belegund, assistant professor of mechanical engineering, has been awarded a grant from MacNeal-Schwender Corp. for \$25,000. The gift will be used to support research in the area of design optimization using finite element codes.

MacNeal-Schwender, a Los Angeles based corporation, develops, markets and supports software for computer-aided engineering.

Department gets grant

The Department of Leisure Studies in the College of Health and Human Development has been awarded two federal training grants to help meet a need for qualified personnel in therapeutic recreation.

The training grants from the U.S. Department of Education will fund five masters' students and three doctoral students each year. Participants will be selected from interested applicants and current graduate students whose career

goals are consistent with the goals of the project.

Ralph W. Smith, assistant professor of leisure studies, will be project director for the grants. The combined cost for the two programs totals \$419,000 over a three-year period; the federal government is funding 100 percent of the cost.

Engineering grants

The College of Engineering Tuobomachinery Laboratory received almost \$250,000 in grants and gifts recently.

The National Science Foundation has provided funds for two major projects. One will upgrade the laser doppler velocimeter for use in the basic understanding of flow fields in jet engines and space shuttle turbines. A second grant provides for heat transfer equipment to measure thermal flow fields in aircraft and spacecraft turbines.

The Allison Division of General Motors (Indianapolis) and Rolls Royce (Derby, England) have provided funding for the completion of the multi-stage compressor facility donated by the Pratt and Whitney Aircraft Division of United Technologies.

Institute receives funding

The Biotechnology Institute has received funding from the U.S.D.A.-C.S.R.S. National Needs Fellowship Program to support graduate fellowships in plant biotechnology.

Fellowships of \$15,000 a year for three years will be awarded to two exceptional students interested in pursuing a Ph.D. degree in plant biotechnology.

The National Needs Fellowship Program awards grants for Ph.D. level fellowships in areas considered of high priority for agricultural research in the United States.

Card catalog removal

University Libraries break with the past with the removal of the card catalog. Above, Wally Corcelius, left, Paul Horner and Jim Petro, right, building services coordinator, move the catalog cabinets; left, Wally Corcelius, left, and Jim Petro, load a cabinet on a truck; below, John DeHart, of State College, on a visit to Pattee Library with his father Scott DeHart, examines the LIAS system, which was implemented in 1981 to replace the card catalog. Plans for the space created by the removal of the card catalog cabinets include a book display area with new shelving and a seating area. (Photos: Greg Grieco)

Appointments

Edward V. Williams, professor of music history at the University of Kansas, has been named associate dean for research and graduate studies in the College of Arts and Architecture.

Dr. Williams will assist arts and architecture faculty members at University Park and in the Commonwealth Educational System to identify sources of financial support for projects and to develop proposals for funding.

Dr. Williams' area of research interest is Russian bells. He has published the book *The Bells of Russia: History and Technology* and currently is working on a second volume that examines the use of Russian bells in their liturgical context and the aural iconography of their sound. He also has published articles on Eastern chant and Byzantine music, as well as on Russian and Soviet music.

Dr. Williams joined the faculty at Kansas in 1969. He served as chairman of the Department of Music History from 1975 to 1982 and director of the Division of Music History from 1982 to 1984.

He has received fellowships and grants supporting his research from the National Endowment for the Humanities, the Woodrow Wilson International Center for Scholars and Kennan Institute for Advanced Russian Studies, the American Council of Learned Societies, Dumbarton Oaks and the Fulbright Commission.

Dr. Williams earned a bachelor's degree in piano performance from Florida State University, a master's degree in musicology from Indiana University, a master of art in the history of music from Yale University and a Ph.D. in medieval studies, also from Yale.

Stanley Evan Curtis has been named head of the Department of Dairy and Animal Science in the College of Agriculture.

Dr. Curtis, formerly a professor of animal sciences at the University of Illinois at Urbana-Champaign, was chosen after a year-long search process.

His research emphasizes issues in animal welfare, reflecting his academic background in environmental physiology. He has consulted with animal producers, industrial personnel, veterinarians and others on environmental design and management and animal welfare.

In 1989, he received the Charles A. Black award from the Council for Agricultural Sciences and Technology for his contributions to enhancing the general public's understanding of agriculture.

Dr. Curtis grew up on a farm in Culver, Ind., raising swine, sheep and cattle and participating in 4-H as a youth. In 1964, he received a bachelor's degree in agriculture with highest distinction, and in 1969 earned his master's degree in animal sciences, both from Purdue University.

In 1968, after fellowships at the U.S. Agricultural Research Center in Beltsville, Md., the University of Wisconsin-Madison and Louisiana State University, he received his Ph.D. in animal sciences from Purdue. From 1968 to 1970 he was an assistant

Edward V. Williams

professor in the Department of Dairy Husbandry at the University of Missouri-Columbia. Dr. Curtis has been a faculty member at the University of Illinois since 1970.

Earlier this year, he was named president of the American Society of Animal Science.

Several promotions and reassignments in the College of Education have been announced by Rodney Reed, dean of the College.

Mary Dupuis has been promoted to director of teacher education and associate dean for undergraduate programs.

Robert Nicely has been promoted to associate dean for Continuing and Commonwealth Education and outreach programs.

In addition, **Horst von Dorpowski** has been reassigned as assistant to the dean for academic and student support services and director of the summer program.

"The reorganization of the dean's staff will eliminate overlap and achieve greater efficiency. Also, we are acknowledging the importance of our undergraduate programs and student services by creating the academic and student support services position," Dean Reed said.

Other members of the dean's staff include the continuing appointments of **Vincent Lunetta**, associate dean for research and graduate programs; **A.J. Grill**, assistant to the dean for personnel and administrative services; **George Patrick**, financial officer; **Scott Warrington**, director of development; and **Sharon McClintic**, administrative aide.

James T. Elder, acting director of University relations at the Penn State Shenango Campus, has been named acting campus executive officer. An Advisory Campus Executive Officer Search Committee will be formed early in the Fall Semester.

"We are pleased that Jim has agreed to take on this position while the search for a permanent campus executive officer is in process. He is extremely able and is familiar with campus operations and issues."

Richard Grubb, senior vice president and dean of the Commonwealth Educational System, said.

As acting University relations director since 1987, Mr. Elder is responsible for organizing and conducting a public relations program for the campus, planning and implementing development programs for annual and capital gifts, as well as organizing and administering alumni programs.

He served as coordinator of recruitment at the Shenango Campus from 1985 to 1987 and coordinated and taught speech communications courses from 1965 to 1987.

He has a bachelor's degree in speech communications and theater from Westminster College and a master's degree in speech communications from Penn State. He is a member of the Speech Communication Associations of America and Pennsylvania, the National Society of Fundraising Executives, the National Council of Resource Development and the Council for Advancement and Support of Education.

Richard L. Gordon, professor of mineral economics and director of the Center for Energy and Mineral Policy Research, Penn State, has been named the MICAUS Fellow in Mineral Economics.

The MICAUS Fellowship was endowed by an anonymous \$100,000 gift.

Dr. Gordon is a leading authority on coal economics and well known for his work on energy policy and regulation. In 1989, he received the Penn State Faculty Medal in recognition of his scholarly achievements.

Part of the income from the endowment may be used to support graduate assistants, research expenses, education and travel expenses.

Peggy Hoover, a free-lance copyeditor for the past 15 years, has joined the Penn State Press staff as a copyeditor.

As a free-lancer, she has worked with Elsevier Science Publishing Co., Greenwood Press, Macmillan and university presses at Cornell, Johns Hopkins and Princeton universities and the University of Pennsylvania.

After earning an A.B. degree in American studies from Goucher College in 1965, she worked for Fortress Press in Philadelphia for three years. Most recently, she was employed by Trifinity Investment Management Corp., Bellefonte.

Gary H. Koopmann, professor of mechanical engineering and director of the Noise Control Laboratory, has been appointed director of the Center for Acoustics and Vibration (CAV). He succeeds Jiri Tichy, professor of architectural engineering, who continues as chairman of the graduate program in acoustics.

CAV, established in 1986, is one of only three such centers in the United States. Thirty-eight faculty members and researchers from five engineering departments, three colleges and several

interdisciplinary centers have joined the CAV. Areas of research falling under the CAV umbrella include pollution control, active noise and vibration control, designing with intelligent materials, and diagnostics of materials using acoustic microscopy.

Dr. Koopmann who is directing a reorganization of the interdisciplinary center, said that eight affinity groups, focusing on crucial areas of acoustics and vibrations, have been formed to organize CAV research.

The CAV affinity research groups and group leaders are: active control, Dr. Tichy; aero/hydro acoustics, Gerald Lauchle, professor of acoustics and Applied Research Laboratory senior scientist; materials evaluation, Bernhard Tittmann, Kunkle Professor in engineering; particulate and chemical acoustics, Dr. Koopmann; propagation and radiation, Allan Pierce, Leonard Professor in acoustics; smart materials, John Lamancusa, associate professor of mechanical engineering; structural acoustics, Courtney Burroughs, Applied Research Laboratory research associate, and vibrations and machinery noise, Sabih Hayek, professor of engineering mechanics.

Dr. Koopmann, who joined the University faculty in 1988, previously was professor of mechanical engineering at the University of Houston. His areas of interest include active noise and vibration control and the uses of acoustics to control industrial processes.

The Department of Biology has appointed **Masatoshi Nei** to head its Institute of Molecular Evolutionary Genetics.

"Dr. Nei is one of the leading theoretical population geneticists in the world," says Linda Maxson, professor and head of the Department of Biology, "and he will be leading an outstanding, unparalleled group of researchers that is the largest of its kind anywhere in the world."

Dr. Nei, formerly professor of population genetics at the University of Texas at Houston, joins the Eberly College of Science as distinguished professor of biology. He is an elected fellow of the American Academy of Arts and Sciences.

Dr. Nei has held the positions of acting director of the Center for Demographic and Population Genetics at the University of Texas at Houston, professor of biology at Brown University, and head of the Population Genetics Laboratory at the National Institute of Radiological Sciences in Japan.

He is a member of the Reviewers Reserve of the National Institutes of Health, a member of the Board of Overseers of Harvard University, the managing editor of *Molecular Biology and Evolution* and a member of the editorial board of the *Journal of Molecular Evolution*.

Dr. Nei earned a bachelor's degree in genetics from Miyazaki University in Japan, a master's degree in genetics from Kyoto University in Japan and a doctoral degree in quantitative genetics from Kyoto University.

Focus on the arts

The arts on Channel 3

Conductor John Williams and the Boston Pops Orchestra celebrate the 20th anniversary of *Evangelina* at 8 p.m. in grand style with six special guests at 9 p.m. Friday, Sept. 7, on WPX-TV.

Opera stars Roberta Peters and Robert Merrill sing arias from "The Merry Widow" and "Barber of Seville," and humorist Art Buchwald provides his own witty narration to Saint-Saens' "Carnival of Animals," featuring Anthony and Joseph Paratore on piano. Victor Borge "the clown prince of Denmark" joins in a rousing rendition of Sousa's "The Stars and Stripes Forever."

The enduring power of a single song across continents and time, and the ironic story of how that song was written by a man who traded in slaves, is examined on *Amazing Grace* with Bill Moyers premiering at 8 p.m. Wednesday, Sept. 12.

The program includes the performances and experiences of singers who testify to the power of the song in their own lives: Johnny Cash, Judy Collins, Jessye Norman, Jean Ritchie, Marion Williams and The Boys Choir of Harlem.

Alumnus author to visit

The Penn State Bookstore on campus opens its fall "Featured Authors Series" with alumnus author Paul J. Levine.

Mr. Levine's first novel, *To Speak For The Dead*, will be highlighted. The author will be available to sign and discuss his new book from 3 to 5 p.m. Friday, Sept. 7, at the Bookstore. A 20-percent discount will be offered on his book during the signing session.

Mr. Levine, who graduated from Penn State with a degree in journalism in 1969, was editor-in-chief of *The Daily Collegian*, winner of various national newspaper writing awards and a member of Lion's Paw. Currently, he serves on the School of Communications' alumni board and the advisory board of Pattee Library.

A teacher, attorney and author of murder mysteries starring Miami trial lawyer Jake Lassiter, Mr. Levine is a Miami trial lawyer and a widely known authority

on the First Amendment. He has represented the news media in libel and privacy lawsuits including cases before the Supreme Court.

Contradance

The Central Pennsylvania Country Dance Association will open its fall season with a contradance from 8 to 11 p.m. Saturday, Sept. 8, at the Radio Park Elementary School, with beginners' instruction starting at 8 p.m. The caller will be Marlin Whitaker of Pittsburgh and music will be provided by Dr. Twamley's Audio Snakes, a local contradance band.

In contradancing, a form of folk dancing popularized in New England, two long lines of dancers face one another (hence the prefix "contra"), responding to patterned calls as they work their way up or down the line. Dances are set to tunes that were brought over by early settlers from England, Ireland and Scotland.

Beginners are encouraged to attend, and dancers need not arrive with a partner. There will be a modest donation requested at the door.

Zoller exhibit

The scents of hay and cedar are more readily associated with barns and buildings than with art galleries, but the air of Zoller Gallery at University Park will be ripe with these earthy smells through Sept. 30.

Two original installations that use hay and cedar as major components have been created by artists Michael Shaughnessy and Alan Greenberg for the current exhibition.

Mr. Shaughnessy's "Holding Home" is a circle of tightly packed hay woven onto a twine warp that is fixed to a circular plywood frame. Three circles in the center of the larger one hold piles of oats.

Mr. Greenberg's "Dryland" spotlights a boat suspended above a bed of cedar shavings and slate and surrounded by a circle of carved cedar posts. Both works were created in the gallery by the artists with the help of University art students.

Both installations are circular and are based on natural colors and objects. Both artists had thumbnail sketches of what they wanted to create at Penn State, then modified their ideas as they worked in the space.

Zoller Gallery is part of the School of Visual Arts and is located off the glass concourse adjacent to the Palmer Museum of Art. Gallery hours are 9 a.m. to 5 p.m. Monday through Friday, 11 a.m. to 4:30 p.m. Saturday, and noon to 4 p.m. Sunday.

All-Chopin program

Robert Hatten, assistant professor of music theory, will perform a piano recital at 8 p.m. Sunday, Sept. 9, in the Recital Hall of the Music Building at University Park. His all-Chopin program includes the complete Preludes, Op. 28, and the Nocturne, Op. 27, No. 2.

The Preludes, rarely played in their entirety, consist of 24 separate pieces, one

in each major and minor key. While there are clear connections between the Preludes, Chopin maintains interest with the alternation of keys, tempo and style. The Nocturne serves as the conclusion to the Preludes and is a perfect example of the form.

Mr. Hatten, who joined the University faculty last year, previously was on the faculty at the University of Michigan. His current research centers on the issue of musical expressive meaning with application to the piano sonatas and string quartets of Beethoven.

Recognition recital

Eight undergraduate students from the School of Music will perform a Jury Recognition Recital at 8 p.m. Monday, Sept. 10, in the Recital Hall of the Music Building at University Park.

The recital will include performances from the keyboard, voice, woodwind and brass areas. The students were selected by the music faculty in recognition of their outstanding performances in a similar performance last April.

Museum weekend hours

The Palmer Museum of Art, located at University Park, has extended weekend hours through Sunday, Nov. 4.

The museum will be open from 10 a.m. to 4:30 p.m. Tuesday through Sunday. Previously, the museum opened at 11 a.m. on Saturday and noon on Sunday.

The extended hours will be in effect for the duration of the popular current exhibition "The Machines of Leonardo da Vinci" on display in the museum's second-floor gallery.

After Nov. 4, the museum will revert to its normal hours. The museum is closed on Monday. For more information or to schedule a tour, contact the museum at (814) 865-7672.

Lecture on the Amish

John A. Hostetler, founding director of the Center for the Study of Anabaptist and Pietist Groups at Elizabethtown College, will speak on "The Amish: Making Traditional Wisdom Functional" at 8 p.m. Tuesday, Sept. 11, in the Rare Books Room, W342 Pattee Library, at University Park.

Dr. Hostetler is nationally recognized for his research and published works on the Amish and Mennonite communities in the United States and for his work among the Hutterites in this country and in Canada. He is a former member of the faculty of Temple University.

A graduate of Goshen College in Indiana, he earned both his master's degree and doctor of philosophy degrees at Penn State. He was a postdoctoral Fulbright Research Scholar at Heidelberg University in Germany.

His lecture is part of the German-American Lecture Series sponsored by the Department of German with the support of

the Graduate School, College of the Liberal Arts, Institute for the Arts and Humanistic Studies and University Libraries. Funding also was provided by the Pennsylvania Humanities Council.

Museum lecture

Daniel L. Collins will discuss contemporary image making in his lecture "Vantage Points" at 8 p.m. Wednesday, Sept. 12, at the Palmer Museum of Art at University Park. His work is included in "The Presence of Absence" exhibition on display at the Palmer Museum through Oct. 14.

Mr. Collins currently is an assistant professor of art and coordinator of the foundations program at Arizona State University, Tempe, Ariz.

Rembrandt myths

Karen J. Arbitman, director of the Palmer Museum of Art, will discuss popular misconceptions surrounding the life of Dutch artist Rembrandt van Rijn at 8 p.m. Thursday, Sept. 13, in the museum at University Park.

"It's not an exaggeration to say that most of history's greatest people have myths, anecdotes or stories attached to them," she said. "Their lives have been romanticized or criticized in any number of ways. Rembrandt is no exception."

Dr. Arbitman received a bachelor's degree in art history from Penn State and master's and doctoral degrees in art history from the University of Pittsburgh. She is widely published on 17th-century Dutch art with an emphasis on the works of Rembrandt.

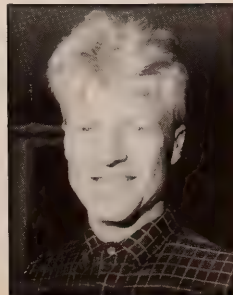

Art history lecture

John Onians, a senior lecturer in art history at the University of East Anglia in Norwich, England, will open the 1990-91 art history lecture series titled "The Art of Interpreting" at 8 p.m. Tuesday, Sept. 11, in Room 112 Walker Building at University Park.

Dr. Onians will discuss "The Strength of Please see 'Focus' on page 11.

Karen J. Arbitman

Daniel L. Collins

University Park Calendar

**September 6--
September 16**

Special Events

Thursday, September 6
Board of Trustees meets at University Park.
through Sept. 7.
Bloodmobile, 10 a.m.-4 p.m., HUB Ballroom.
Bach's Lunch Concert, 12:10-12:30 p.m.,
Eisenhower Chapel.
Friday, September 7
Smeal College of Business Administration naming
ceremony, 2 p.m., BAB lawn.
Geog. Coffee Hour, 3:30 p.m., 319 Walker.
Deryck Holdsworth on "Coping with Height."
Sunday, September 9
School of Music, 4 p.m., Recital Hall. Robert
Hatten, piano.
Monday, September 10
School of Music, 8 p.m., Recital Hall. Jury
recognition recital.
Tuesday, September 11
Graduate Program in Nutrition, lecture, 7 p.m.,
112 Chambers. Ernst J. Schaefer, Tufts Univ.,
on "Cholesterol and Heart Disease."
Dept. of Art History, lecture, 8 p.m., 112
Walker. John Onians, Univ. of East Anglia,
England, on "The Strength of Columns and the
Weakness of Theory."
German-American Lecture Series, 8 p.m., Rare
Books Room, W342 Pattee. Dr. John A.
Hosleiter, Center for the Study of Anabaptist
and Pietist Cultures, on "The Amish: Making
Traditional Wisdom Functional."
Wednesday, September 12
Bloodmobile, 10 a.m.-4 p.m., 101 Kern.
Gallery talk, 8 p.m., Palmer Museum of Art.
Daniel L. Collins, Arizona artist, on "Vantage
Points."
School of Music, 8 p.m., Recital Hall. Richard
Kennedy, tenor.
Thursday, September 13
Bach's Lunch Concert, 12:10-12:30 p.m.,
Eisenhower Chapel.
■ Gallery Talk, 8 p.m., Palmer Museum of Art.
Kathleen Jones, Arbitman on "Debunking
Rembrandt Myths."
■ Dept. of French, lecture, 8 p.m., 112 Kern.
Lynn Hunt, Univ. of Pa., on "Family Images
and Sexual Politics in the French Revolution."
Friday, September 14
Bloodmobile, noon-5 p.m., Natarium.
Geog. Coffee Hour, 4 p.m., 319 Walker. James
Lynch on "Spatial and Temporal Trends in
Acid Precipitation in Pennsylvania."
Center for the Performing Arts, 8 p.m., Schwab
Aud. Jupiter Symphony.

'Dryland' by Alan Greenberg is part of the Greenberg and Shaughnessy exhibit in Zoller Gallery.

Public Radio

WPSU-FM 91.1
All Things Considered, Monday-Friday, 5-6:30
p.m.; Saturday and Sunday, 5-6 p.m.; Morning
Edition, Monday-Friday, 6-8 a.m.; Weekend
Odyssey Through Literature, 11 a.m.-1 p.m.
Wednesday, with S. Leonard Rubinstein.
Perspectives, 6-8 p.m. Wednesdays.

Conferences

Continuing Education
Keller Building
Sept. 9-16, Credit Union National Association.
John Ezzell, professor and head of finance,
chair; Bill Steiner, coordinator.
Sept. 10-14, Review Course for the Professional
Engineering Examination of Mining and
Mineral Engineering, R.V. Ramani, head,
Department of Mineral Engineering, and
professor of mining engineering, director;
Norm Lathbury, coordinator.
Sept. 10-14, Small Wastewater Systems
Workshop, David Long, professor of civil
engineering, chair; Eric Loop, coordinator.
Sept. 11-13, Motor Fleet Safety for Supervisors,
Eric Loop, coordinator.
■ Sept. 13-15, Merleau-Ponty Circle Conference
Veronique Foty, assistant professor of
philosophy, director; Jack Sindler, coordinator.
Sept. 14, R. Haddi Wastewater Logistics and
Transportation Symposium, Norm Novack,
assistant professor of business logistics, chair;
Chuck Herd, coordinator.
Sept. 14, The Business World and the
Employment of People with Hearing Losses.
Ingrid Blood, associate professor of special
education and communication disorders, chair.

Donna Ricketts, coordinator.
Sept. 15, Staff Development Leadership Institute.
Steve Gordon, educational outreach office,
chair; Jerri Milson, coordinator.

Seminars

Thursday, September 6
Economics and Institute for Policy Research
and Evaluation, 2:30 p.m., 101 Kern. N.
Gregory Mankiw, Harvard Univ., on "A
Contribution to the Empirics of Economic
Growth."
Physics Colloquium, 3:30 p.m., 55 Osmond
Lab. Jeffrey Lannin on "Clusters on
Surfaces: How are Small Systems
Different?"
Ecology, 3:45 p.m., 110 Wartik, William
Sharpe on "Acid Precipitation and Forest
Ecosystems: A Case of Negative
Networking."
Friday, September 7
EMS, 4 p.m., 112 Walker. Dr. Steward S.
Flaschen, Alumni Fellow, on
"Commercialization of Materials and
Minerals Research."
Tuesday, September 11
Chemical Engineering, 2:45 p.m., Paul
Robeson Cultural Center Aud. Edwin N.
Lightholt, Univ. of Wisconsin, on "The
Fluid Mechanic Basis of Bioprocesses."
Geosciences Colloquium, 3:45 p.m., 301
Steidle. David Chapman, Univ. of Utah,
on "Thermal Processes in Young Oceanic
Lithosphere."
Condensed Matter Physics, 4 p.m., 339
Davey Lab. Clifford Pollock, Cornell
Univ., on "Recent Progress in Color
Center Lasers."

Wednesday, September 12
Accounting and MIS Research Colloquium,
3:30-5:30 p.m., 333 Beam. Iris Vessey on
"Cognitive Fit: An Empirical Study of
Information Acquisition."
Thursday, September 13
Ecology, 3:45 p.m., 110 Wartik. Kimberlyn
Nelson on "Genetic Structure of
Hybridizing White-Footed Mice
(Peromyscus leucopus)."
Friday, September 14
Physics/Math Colloquium, 4:30 p.m., 102
McAllister. Jerry Gollub, Haverford
College and Univ. of Pa., on "Nonlinear
Dynamics of Water Waves"

Exhibits

Chambers Gallery
Chet Davis, paintings, through Oct. 5
HUB Galleries
Browsing Gallery:
Alan Klein, photographs, through Sept. 23.
Art Alley Panels:
Rina Banerjee, oil paintings, through Sept. 23
Art Alley Cases:
SCASD, adult pottery class exhibit, through Sept.
23.
Formal Gallery:
■ Spectacular Vernacular: Traditional Desert
Architecture from West Africa and Southwest
Asia, through Sept. 23.
Palmer Museum of Art
Selections from the Permanent Collection
through Oct. 7
The Presence of Absence New Installations,
through Oct. 14.
■ The Machines of Leonardo da Vinci, through
Nov. 4
Palace Library
West Lobby Gallery:
Permanent collection from the Arts Library,
through Sept. 7.
Zoller Gallery
Shaughnessy-Greenberg, Installations, through

■ Reflects an international perspective

**Proposal packets
are now available**

Proposal packets for the Fall 1990 Faculty
Technology Initiative Program are now
available.

The program is one major avenue for
University faculty members to prototype or
pilot projects dealing with teaching and
learning technologies, such as software
packages that support learning, animated
lecture support materials, and hypertext
knowledge bases.

CBEL-Teaching and Learning

Technologies Group, a unit of the Center
for Academic Computing, invites faculty
members to submit a proposal for possible
support to the fall 1990 proposal review
cycle of this program.

CBEL also is offering for the first time
through this program simultaneous
submission to the Apple Computer
Academic Development Donation Program
for development projects in need of
computer equipment. (A similar program

for IBM equipment is in negotiation.)
Faculty members who are interested in
pilot projects for the implementation of
information technology need to complete a
proposal by Oct. 15. Two proposal
information seminars will be held in Room
141 of the Computer Building on Sept. 20,
9:30 to 11 a.m., and Sept. 21, 1:30 to 3
p.m. Registration is required. Copies of the
proposal packet can be obtained by calling
(814) 863-1654.

Penn Staters

Amar Bhatta, professor of solid state science and senior scientist at the Materials Research Laboratory, gave an invited lecture on "New Ferroelectric Phenomenon and Compositions and their Applications in 1-2, and 3-dimensional Sample Geometry" at the 1990 U.S. Korea Seminar on Recent Developments in Technical Ceramics in Seoul.

Robert E. Newham, Alcoa professor of solid state science, and **Richard E. Tressler**, professor of materials science and engineering, were guests of the Max Planck Gesellschaft and invited speakers in a week-long special symposium on "Contemporary Issues in Ceramics Science" held at Ringberg Castle near Munich, Germany.

H. Reginald Hardy Jr., director of the Rock Mechanics Laboratory, presented a plenary lecture, "Monitoring of Rock and Soil Slopes, and Landslide Areas using AEMs Techniques: A State-of-the-Art Review," at the International Conference on Monitoring, Surveillance and Predictive Maintenance of Plants and Structures in Taormina, Sicily.

Howard G. Knuttgen, director of the Center for Sports Medicine, served on the Scientific Program Committee of the 24th World Congress of Sports Medicine sponsored by the International Federation of Sports Medicine in Amsterdam.

James Moeser, dean of the College of Arts and Architecture, was elected president of the 22,000-member American Guild of Organists.

Ralph Smith, assistant professor of leisure studies, was appointed a member of the U.S. delegation to the world championships of wheelchair basketball to be held in Brugge, Belgium.

Richard E. Tressler, professor of materials science and engineering and director of the University's Center for Advanced Materials, was elected vice president by the American Ceramic Society. Dr. Tressler also was a visiting professor at Curtin University, Perth, Australia.

Jesse Barlow, associate professor of computer science in the Eberly College of Science, gave a talk titled "The Direct Solution of Weighted and Equality Constrained Least Squares Problems" at the University of Bristol and a talk titled "Computing Accurate Eigensystems of Scaled Diagonally Dominant Matrices" at the University of Manchester, the University of Reading, and Rutherford Appleton Laboratory, Didcot, England.

John C. Becker, associate professor of agricultural economics, was honored by

the Pennsylvania Bar Association for his contributions to the association's Pro Bono Program in 1989.

Jerry Bona, professor of mathematics in the Eberly College of Science and research professor in the Applied Research Laboratory, has been appointed chairman of the American Mathematical Society's Liaison Committee with the American Association for the Advancement of Science and chairman of the American Mathematical Society's ad hoc Committee on Applied Mathematics.

James G. Brasseur, assistant professor of mechanical engineering, presented a paper titled "Structural and statistical characteristics of intermittency in homogeneous turbulent shear flow" at the Third European Turbulence Conference in Stockholm, Sweden.

Jean Brechley, director of the Biotechnology Institute and professor of microbiology, organized the annual program for the Council of Biotechnology Centers and chaired a session on "A Center's Role in Increasing Public Understanding of Biotechnology" during the Association of Biotechnology Companies meeting in Toronto, Canada.

Richard Craig, professor of plant breeding, received the Alex Laurie Award for Education and Research from the Society of American Florists. Dr. Craig also has been selected for the Floriculture Hall of Fame.

Jeff Davidson, marketing manager for the Biotechnology Institute, presented a talk titled "New Initiatives at the Penn State Biotechnology Institute's Bioprocessing Resource Center" at a meeting of the Association of Biotechnology Companies in Toronto, Canada.

Robert M. Crasswell, associate professor of tree fruit, was elected business manager and treasurer for the American Pomological Society.

Joe F. Donaldson, associate professor of education, has been elected to the board of directors of the National University Continuing Education Association and as chair of NUCEA's Council for Continuing Education Management and Administration.

Alireza Haghighat, research associate in the Nuclear Engineering Department, has been elected secretary of the Mathematics and Computation Division of the American Nuclear Society. Dr. Haghighat also presented a paper at the International Conference on Supercomputing in Nuclear Applications in Japan.

Bruce Kendall, professor of physics, gave an invited paper titled "Levitron, Ion Traps, and Containerless Processing" at Curtin University, Perth, Australia. While in Australia, he visited several other universities to discuss new teaching techniques for advanced laboratory courses.

Iam-Choon Khoo, professor of electrical engineering, organized and chaired an international meeting on "Nonlinear Optics - Material, Phenomena and Devices" at Maui, Hawaii.

Arum Kilara, professor of food science, directed a Penn State Ice Cream Short Course in Australia for 70 food technologists from Southeast Asia.

Harvey B. Manbeck, professor of agricultural engineering, received the 1990 Henry Giese Structures and Environment Award from the American Society of Agricultural Engineers for distinguished service in advancing the knowledge and sciences of agricultural structures and environment, specifically for his work in design and analysis.

Archie J. McDonnell, professor of civil engineering and director of the Environmental Resources Research Institute, has received the 1990 Water Pollution Control Association of Pennsylvania research award in recognition of his outstanding research in water pollution control.

Charles T. Morrow, professor of agricultural engineering, spoke at the Robotics in Agriculture and the Food Industry Conference in Avignon, France.

Nancy L. Pedersen, research scientist; **Gerald E. McCleam**, Evan Pugh professor of health and human development; and **Robert Plomin**, professor of human development and director of the Center for Developmental and Health Genetics, gave an invited paper on "Importance of Genetic and Environmental Factors for Alcohol Consumption by Elderly Twins" at the First International Congress of Behavioral Medicine in Uppsala, Sweden.

Allan Pierce, Leonard professor of acoustics and mechanical engineering, has been elected to the Executive Council of the Acoustical Society of America.

Gary S. Settles, professor of mechanical engineering and director of the Gas Dynamics Laboratory, spoke on "The Flowfield Structure of Turbulent Swept Shock Interactions Generated by Fins" at the International Union of Theoretical and Applied Mechanics Symposium on Separated Flows and Jets in Novosibirsk, USSR.

Elizabeth J. Susman, professor of human development and nursing, gave an invited presentation on "Emotional and Cognitive Aspects of Reasoning About Illness: Implications for Reasoning About Surgery" at the First International Congress of Behavioral Medicine in Uppsala, Sweden.

Sam Y. Zamrick, professor of engineering mechanics, has been recognized by the American Society of Mechanical Engineers' Pressure Vessel and Piping Division for pioneering the division's Technical Tutorial Program and for his contributions as the division's professional development chairman.

Michael Akritas, associate professor of statistics in the Eberly College of Science, gave an invited talk titled "Nonparametric Statistical Inference for Heteroscedastic Regression" at a NATO Advanced Study Institute conference in Spetses, Greece.

Donald Bryant, associate professor of molecular and cell biology in the Eberly College of Science, served as a visiting professor at the Swiss Federal Technical University's Institute for Molecular Biology and Biophysics in Zurich, Switzerland. While in Europe, he delivered a lecture series at Glasgow University, Scotland, and research seminars at the University of Vienna, the University of Konstanz, Ludwig-Maximilians University, the Max-Planck-Institute for Biochemistry, the Ecole Normale Supérieure, and the University of Geneva.

Andreas C. Christoff, associate professor of business at Penn State Harrisburg, delivered a paper titled "An International Asset Pricing Model with Stochastic Consumption and Investment Opportunities" to the 12th Triennial Conference of the International Federation of Operational Research Societies, in Athens, Greece.

Paul Cutler, professor of physics, presented a series of lectures under the auspices of the Soviet Academy of Science at Leningrad's Surface Physics and Electronics Research Center, Leningrad Bonch-Bruyevich Institute of Telecommunications; the Soviet Academy of Sciences' Ioffe Physics-Technical Institute, Leningrad; Bashkir State University's Department of Experimental Physics, and the Soviet Academy of Sciences' Institute of Crystallography, Moscow.

Pius Egbelu, associate professor of industrial engineering, presented a paper titled "Cost Reduction in a Multi-stage Manufacturing System with Unit Load Handling" at the Society of Manufacturing Engineers International 90 Abokuta Conference on Signals and Systems in Lagos, Nigeria.

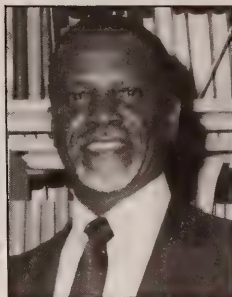

University faculty and staff members receive awards

Fayette Campus award

Howard E. Dantzer, assistant professor of sociology at the Penn State Fayette Campus, has received the 1990 Penn State Fayette Public Service Excellence Award. He received a \$1,000 cash award and a certificate. A permanent plaque will be placed on the Public Service Excellence Award plaque in the Eberly Building on the campus.

Professor Dantzer and his student have raised more than \$6,000 over the last several years for the American Heart Association and some \$2,000 for the American Red Cross. He also has been active in a number of community organizations.

A member of the Fayette faculty for 22 years, he is a full-time pastor at the Interphase Assembly for Christ Church, which he founded.

Howard E. Dantzer

this year, are supported by the Penn State Engineering Society (PSES), and recognizes individuals who offer service to the college beyond their job descriptions.

Alfred J. Engel, professor of chemical engineering, is the first recipient of the Faculty Service Award.

A 31-year veteran of the engineering faculty, Dr. Engel was cited for the development of the Chemical Engineering Education Program and for his activities in the recruitment of minority and women faculty members. He also is recognized as an outstanding teacher and researcher who has published 34 research papers.

Three engineering staff members shared the 1990 Support Staff Award.

Ray M. Dunkle, supervisor of the Manufacturing Systems Laboratories in the Department of Industrial and Management Systems Engineering, joined Penn State in 1961. In his current position since 1982, he has helped spearhead the development of laboratories in computer-aided manufacturing, robotics, automation, quality assurance and microcomputers. In addition, he has trained technicians and provided support for a greatly expanded research program.

Frederick C. Mensch, an experimental and maintenance mechanic in the Department of Chemical Engineering, joined the department in 1964 as a laboratory mechanic.

In his current position, he is in charge of the ordering, maintenance and repair of laboratory equipment and helps in the training of new graduate students. He also is building coordinator.

John Raiser, administrative aide for the Department of Mechanical Engineering, joined the department in 1982. He handles administrative activities for the department, including managing research budgets, departmental personnel procedures and coordinating laboratory and office space.

Penn College Award

E. Eugene Yaw, a partner in the Williamsport law firm of McNeerney, Page, Vandelin and Hall, has received the 1990 College Service Award, presented by the Board of Directors of Pennsylvania College of Technology.

Mr. Yaw became solicitor for the College in 1984. His efforts were vital in the creation of Penn College last July, when the former Williamsport Area Community College became Pennsylvania College of Technology, an affiliate of Penn State.

Mr. Yaw also played a key role in helping the College maintain local sponsorship in 1985, when local school districts opted not to continue their sponsorship of the former Community College. He assisted in finalizing the arrangement which provided short-term sponsorship by the City of Williamsport.

Distinguished Service Award

Fred C. Thompson, retired president of Locus Inc. and president of HVS Technologies, has received the College of Engineering's 1989 Distinguished Service Award.

The award, supported by the Penn State Engineering Society (PSES), recognizes individuals who have donated time and expertise to an engineering department.

Mr. Thompson has been a visiting industry adviser at Penn State since 1970 and a member of a judging committee for student presentations since 1975. He has been a member of the Electrical Engineering Industrial and Professional Advisory Council since 1975, serving as chairman of that body for one year.

He also has helped initiate joint industry and engineering projects through the Ben Franklin Program.

Mr. Thompson received a bachelor's degree from Penn State in 1950 and a master's in 1958, both in electrical engineering. He is a past president of PSES.

Senior reactor license

Candace Davison, senior reactor operator and nuclear education specialist, has become the first woman to hold a senior reactor operator's license at the Penn State Breazale Reactor.

Mrs. Davison joined the Department of Nuclear Engineering in 1983 as a senior research technologist. For the past five years, she has been the coordinator of the Nuclear Concepts summer institute for teachers.

She also has been instrumental in the department's radon training program.

Prior to joining Penn State, she was an engineer for Koppers in Pittsburgh. Mrs. Davison holds a bachelor's degree in chemical engineering from Grove City College.

Young Investigator award

Steven S. Segal, associate professor of applied physiology, has received the Travel Award for Outstanding Young Investigators from the Microcirculatory Society Inc.

The society is the national organization for scientists who specialize in studies of the smallest blood vessels in the body, such as capillaries, arterioles, and venules. The travel award is given annually to encourage a promising young investigator to visit other research laboratories and establish international contacts.

Dr. Segal will visit laboratories in England, Germany, the Netherlands, and Switzerland in the fall.

Outstanding teacher award

Priscilla F. Clement, associate professor of history, has been named the Outstanding Teacher of the Year at the Penn State Delaware County Campus.

Dr. Clement, a campus faculty member since 1967, was chosen in a detailed survey of students and campus alumni. It was the second time she has received the honor. She was a co-winner in 1972, the first year of the award.

Dr. Clement, a Phi Beta Kappa graduate cum laude from Stanford University and also received her master's degree there. She was awarded a Ph.D. from the University of Pennsylvania.

Among her many awards are two research development grants from the Penn State Commonwealth Educational System in 1988 and 1989 for research on women and welfare in Charleston and Philadelphia in the 19th century.

Her extensive writings include a 1985 book, *Whites and the Poor in the Nineteenth Century: The Philadelphia 1830-1854*, published by the Fairleigh Dickinson University Press.

Naval Research award

Kenneth Merz Jr., assistant professor of chemistry and molecular and cellular biology, has been selected as a 1990 Office of Naval Research (ONR) Young Investigator. He is one of 13 individuals nationwide chosen for this honor from a pool of nearly 300 applicants.

The awards, sponsored by the U.S. Department of the Navy, are designed to attract and support young scientists and engineers who show exceptional promise for doing creative research and teaching. Only researchers who received doctoral or equivalent degrees on or after Dec. 1, 1984, are eligible.

Dr. Merz's current research focuses on theoretical studies of antibiotics and solution-phase proton transfers and of the structure, function, and inhibition of the zinc metalloenzyme carbonic anhydrase. He also has been involved in the study of electrostatic properties of biomolecules.

While earning his bachelor's degree from Washington College, Chestertown, Md., Dr. Merz spent the summer of 1979 as a research assistant at TRW's Philadelphia laboratory developing a fiber-optic connector. In 1981, he won a Robert A. Welch Summer Research Fellowship and a Departmental Competitive Fellowship to pursue a doctoral degree at the University of Texas at Austin.

After earning his degree in 1985, as a Robert A. Welch Predoctoral Fellow, he held postdoctoral positions at Cornell University and the University of California, San Francisco. He joined the Penn State faculty in 1989.

He is a member of the American Chemical Society and the American Society for the Advancement of Science.

Physical Plant award

Three Office of Physical Plant employees have received the 1990 "Spirit of Physical Plant" award which recognizes employees for their loyalty and dedication.

James Wagner, vice president for business and operations, presented the awards to the individuals selected for the clerical, staff and technical-service categories.

They are: **Russell Spots** (technical-service), **Donald Appleby** (staff) and **Linda Stephens** (clerical), who, among other things, will receive a special parking space at the Physical Plant Building for the year and have their names permanently displayed on a plaque in the lobby of the building.

The Office of Physical Plant hosted a reception in honor of the 83 OPP employees who received a nomination from their fellow workers and a customer. There are hundreds of excellent employees in Physical Plant who perform their jobs in an exemplary way, but each of these nominees had been singled out by someone who felt he/she performed "a cut above."

Ms. Stephens started work at the University in 1974 immediately after graduation from Penns Valley High School, and all 16 years of her career have been spent in OPP.

Mr. Appleby graduated from Huntingdon High School and attended Williamsport Technical Institute for three years. He has worked in Physical Plant for 34 years in the Design Services Division, where he currently is the hardware specialist.

Mr. Spots graduated from Bald Eagle High School in 1960 and spent four years in the Navy. He has worked for Physical Plant for 16 years and has been the lead mason for two years.

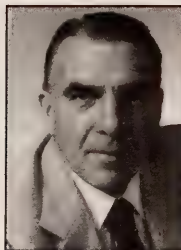

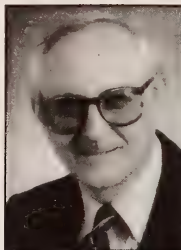

Together, the three winners have served the University and Physical Plant for 96 years.

Engineering service awards

Four individuals are recipients of 1990 College of Engineering Service Awards.

The awards, presented for the first time

25-year award recipients

Observing 25 years of service with the College of Agriculture are, from left, Melvin A. Brown, senior extension agent, Centre County; Samuel M. Curtis, professor and head of agricultural and extension education; Stanford M. Lembeck, associate professor of rural

sociology; William G. Yendol, professor of entomology; and Arian Zarkower, professor of veterinary science.

Carpooler

Janet needs a ride from Pleasant Hills. Pleasant Gap to University Park. Work hours are from 8 a.m. to 5 p.m. Call 805-4641.

Obituaries

Robert G. Kauffman, maintenance worker, Office of Physical Plant, from Jan. 1, 1960, until his retirement Jan. 1, 1980, died Aug. 11. He was 62.

Paul G. Matisko, group leader, maintenance worker, utilities, at the Penn State New Kensington Campus, from Nov. 15, 1976, until his retirement Jan. 1, 1988, died Aug. 19 at the age of 65.

Alice J. Meek, janitorial worker, Office of Physical Plant, from Dec. 1, 1968, until her retirement Dec. 1, 1978, died Aug. 21. She was 73.

Bookshelf

Thomas O. Beebe, assistant professor of comparative literature and German, is the author of *Classics on the Continent: Translation and Selection*, published by Penn State Press.

The book defines and explores two strategies of literary translation -- creative vs. preservative (or strong vs. weak) -- as they transform one of the most influential English novels, *Classics on the Continent*, by Samuel Richardson (1689-1761).

Dr. Beebe compares two opposing strategies that influence the French translation of *Classics* by the novelist Antoine François de Prevost and the German translation by the Göttingen Orientalist, Johann David Michaelis.

In so doing, he demonstrates that each translator found authority for his procedure within the text itself. Each translation also is examined in light of Richardson's other writings and placed in its literary and cultural context.

Staff Exempt

Janice A. Barnoff to manager, financial and payroll information system in Corporate Controller's Office.

James Blow to track supervisor in research and Graduate School.

Gwen Catchen to music specialist in Universities Libraries.

Patricia A. Corbett to administrative assistant in Science.

Alvin Davis to assistant extension agent in Agriculture.

Randall J. Dillman to manager, construction services in Office of Physical Plant.

Gary J. Dillon to president, Healthpass at Hershey.

Douglas A. Donovan to director, utilities in Office of Physical Plant.

Holly L. Gumke to director of Business Services at York Campus.

Connie A. Jones to supervisor, Service Center and HUB in Student Services.

Christine Kauffman to staff nurse at Hershey.

Richard M. Kipp to manager, agricultural communications services in Agriculture.

Betty L. Layton to administrative aide in C&S--Center for Academic Computing.

Jeffrey S. Mallory to senior manager, contract administration in Office of Physical Plant.

Phillip R. Melnick to manager, support operations and special programs in Office of Physical Plant.

Donald R. Moore to manager, parking enforcement, student auxiliary in University Safety.

Robert L. Oberheim to farm manager facilities coordinator in Agriculture.

William E. O'Donald to foreman, trades in Office of Physical Plant.

Louis Plank to manager, materials and OPP stores in Office of Physical Plant.

Joseph P. Portelli to electronic designer in engineering.

Joel S. Register to senior data base

Promotions

programmer in C&S - Management Services.

Kathryn E. Smith to supervisor, service desk in Office of Physical Plant.

Alston Turchetta to archives specialist in Universities Libraries.

Kathy L. Tyson to research support assistant at Hershey.

Scott C. Warrington to director of development in Division of Development and University Relations.

Wayne Weaver to police service supervisor in University Safety.

Clark G. Williams to senior manager, business and finance in Office of Physical Plant.

Staff Non-Exempt

Robert Brucklacher to senior research technician at Hershey.

Debra J. Forney to neurophysiology technician at Hershey.

Cynthia L. Nguyen to neurophysiology technician at Hershey.

Valerie J. Patrick to accounting aide in Science.

Tina R. Schock to administrative aide at Hershey.

Jeffrey L. Selvaige to estimator-inspector in Office of Physical Plant.

Anne M. Semanchick to research technician at Hershey.

Carol J. Stine to senior research technician at Hershey.

Dixi J. Weaver to research technician at Hershey.

Marvis E. Wine to neurophysiology technician at Hershey.

Clerical

Anna L. Bathurst to clerk B in Penn State Bookstore.

Doris F. Bennett to A/V material clerk in Commonwealth Educational System.

Lisa D. Faust to secretary C in University Art Services.

Shirley M. Foster to clerk A in Commonwealth Educational System.

Mary E. Gates to clerk, database maintenance in Division of Development and University Relations.

Darlene L. Getz to secretary B at Hershey.

Karen K. Kimberling to secretary B in C&S-Computation Center.

Linda M. Kinter to clerk A at Ogontz.

Mary Lou McMurtrie to billing clerk in University Press.

Linda M. Nelson to senior manuscript typist at Hershey.

Brenda M. Sanger to secretary B at Hershey.

Bradley J. Smith to secretary B in Agriculture.

Sandra Stauffer to secretary B in University Libraries.

Susan L. Taylor to telephone rental clerk in C&S-Telecommunications.

Tracy A. Wilson to receptionist typist in Engineering.

Annette H. Woytowich to clerk-typist A in Office of Human Resources.

Technical Service

Cheri L. Clay to escort service aide at Hershey.

Bruce C. Keen to boiler operator in Office of Physical Plant.

Lorraine L. Moore to storeroom clerk C at Hershey.

John C. Mutzbaugh to technician A in Liberal Arts.

Donna L. Shawley to press operator, offset duplicator in Office of Business Services.

Mark A. Woodring to water waste treatment plant operator in Office of Physical Plant.

Rosanna M. Zerphey to environmental health worker, group leader at Hershey.

Sandra L. Hoy to platemaker in Office of Business Services.

Daniel Rivera to preventive maintenance worker in Office of Physical Plant.

Patricia A. Robison to janitorial worker in Office of Physical Plant.

Theodore J. Sauer to maintenance worker, utility in Office of Physical Plant.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. **The brief statements for each vacancy are illustrative. They are not by calling the EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until Sept. 13. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (PS-3) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

***0091J, Counselor, Student Services, Counseling Services and Program Assessment, Career Development and Placement Services, University Park Campus** - Responsible to the assistant director for career counseling for providing career development and placement services at the University Park Campus. Requires a master's degree, or equivalent, in clinical or counseling psychology, counselor education, student personnel administration or related area, plus one to two years of effective experience. THIS IS A 10-MONTH POSITION. STAFF GRADE 7.

***0091J, Supervisor, Low Level Radiation Monitoring Lab, College of**

Engineering, Department of Nuclear Engineering, University Park Campus - Responsible to the director, Breazeale Nuclear Reactor, and the faculty member in charge of the LLRL, for ensuring quality control of the laboratory. Requires bachelor's degree in science or engineering, plus one to two years of effective experience, some of which is in laboratory procedures in chemical and radiochemical analytical techniques. Supervisory experience in analytical laboratory is desirable. Good oral and written communication skills are required. STAFF GRADE 6.

***0091J, Coordinator, Marketing and Advertising, Nittany Lion Inn, University Park Campus** - Responsible to the general manager, Nittany Lion Inn, for developing and implementing marketing plans and developing advertising materials. Schedule conferences and supervises assigned employees in the sales and catering department. Requires bachelor's degree, or equivalent, in marketing or related field and one to two years effective experience in hotel and sales catering. STAFF GRADE 6.

***0091A, Employment Specialist, Department of Human Resources, The Milton S. Hershey Medical Center** - Responsible to the associate director of human resources for assisting recruiting campaigns to include coordination of job announcement program, interviewing and screening applicants, conducting orientation programs, disseminating information on benefits, policies and procedural information and other

assigned projects. Requires bachelor's degree, or equivalent, in business or related field plus over one year up to and including two years of effective experience. STAFF GRADE 6.

***0091J, Administrative Head Nurse, Hershey Medical Center, Nursing & Medical Surgical, The Milton S. Hershey Medical Center** - Responsible to the nursing manager, assigned nursing unit, for assistance in handling the day-to-day administration of the assigned nursing unit, assume responsibility in manager's absence. Requires bachelor's degree in nursing from an accredited School of Nursing plus one to two years of effective experience and current license to practice as a registered nurse by the Pennsylvania State Board of Nursing. STAFF GRADE 6.

***0091B, Director of Development and University Relations, Development and University Relations, Penn State Harrisburg** - Responsible to the executive director of university development for all fund-raising programs and related activities for Penn State Harrisburg. Also responsible for supervising the public information and relations and alumni affairs programs. Requires bachelor's degree, or equivalent, in marketing, communications, or related field, plus four to five years of effective experience in fund-raising in a non-profit environment with a track record of successful major gift fund-raising. Evidence of skill in verbal and written communications and previous supervisory experience are essential. Travel required. STAFF GRADE 9.

***0091J, Director of Development and University Relations, Development and University Relations, Penn State Erie, The Behrend College** - Responsible to the executive director of university development for all fund-raising programs and related activities for the Behrend College. Also responsible for supervising the public information and relations and alumni affairs programs. Requires bachelor's degree or equivalent in marketing, communications, or related field, plus four to five years of effective experience in fund-raising in a non-profit environment with a track record of successful major gift fund-raising. Evidence of skill in verbal and written communications and previous supervisory experience are essential. Travel required. STAFF GRADE 9.

***0091B, Programmer, Pennsylvania State Data Center, Penn State Harrisburg** - Responsible to the designated project coordinator to participate in analysis, program design, coding, testing, documenting and other programming tasks required to produce reports, create logic statements, and maintain information files. Requires bachelor's degree, or equivalent, in computer science or related field, plus six to nine months of effective experience in computer programming. THIS IS A FIXED-TERM POSITION FUNDING THROUGH JUNE 30, 1991. STAFF GRADE 5.

***0091B, Economic Development Planner, Institute for State and Regional Affairs, Penn State Harrisburg** - Responsible to the director

Economic Development Center for activities related to economic development training, research and public service. Requires bachelor's degree or equivalent, in regional planning, public administration, or business administration plus over one year up to and including two years of effective experience in economic development activities to include business development and retention, international trade, marketing, project financing and other strategic planning. THIS IS A FIXED-TERM POSITION FUNDING THROUGH JUNE 30, 1991. STAFF GRADE 6.

***0092D, Systems Training Specialist, Penn State Great Valley** - Responsible to the supervisor, Computer and Information Systems, for design and delivery of training programs on data and voice systems. Provide day-to-day user support on data and voice systems. Requires bachelor's degree or equivalent in computer science or related field plus one to two years of effective experience in computersystems training or user support. STAFF GRADE 5.

***0092J, Library Assistant, Penn State Great Valley** - Responsible to the head librarian for coordinating and assisting in a variety of library processes to include circulation, reference, acquisitions, serials management, interlibrary loan, online searching, and/or functional areas as assigned. Requires bachelor's degree, or equivalent, plus nine to 12 months of effective experience in a library setting. STAFF GRADE 4.

Faculty Senate News

The University Faculty Senate will meet at 1:30 p.m. Tuesday, Sept. 11, in Room 112 Kern Graduate Building at University Park.

Items to be discussed at the meeting:
 -- Annual Report of the NCAA Representative
 -- Academic Requirements for the Big

Ten
 -- Summary of Student Petitions by College, Unit or Location
 -- Status of Construction Projects
 -- Awards and Scholarships
 -- Summary of Petitions for Waiver of the 10-Credit Limit for Nondegree Conditional Students (Student Policy 14-00)

opening of this fall's Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish.

The program will include Russell Howland's Quartet No. 1, Pierre's "Chanson de la Grand Maman," and Lennie Niehaus' "Jazz Mosaic."

HUB exhibit

"Alan S. Klein: an exhibit of photographs," a series of photographs from what Mr. Klein calls his "Water Series" is on display until Sept. 23 in the HUB Browsing Gallery at University Park.

The exhibit consists of prints made from color slides and negatives. The images shown are primarily from the streams in Pennsylvania and a few from the East Coast of Maine.

"Of the many artists I have met in my lifetime," Mr. Klein said, "most of them have some philosophical reasoning behind their work and are willing to tell you why they created it this way or that. This is fine, but as for myself, I just enjoy

-- Summary of Academic Renewal Petitions
 -- Blue Sheet of Aug. 17, 1990
 -- Status of the Pennsylvania College of Technology
 -- Joint Committee on Insurance and Benefits
 -- Presentation by the Office of Human Resources

stumbling onto a beautiful scene and capturing it on film. I don't believe I am creating art with my 'Water Series.' I am just finding it."

Symposium scheduled

A free symposium that explores the link between art, science and technology will be held from 9 a.m. to 5 p.m. Saturday, Sept. 15, in the Playhouse Theatre, located in the Arts Building at University Park.

The symposium, inspired by the creative genius of 15th-century artist Leonardo da Vinci and aptly titled "Today's Leonardos," will consist of four sep-ate presentations by artists who use computers to explore the link between art, science and technology.

The symposium is a cooperative program between the Palmer Museum of Art and the colleges of Engineering and Arts and Architecture. It is being held in conjunction with "The Machines of Leonardo da Vinci" exhibit on display at the Palmer Museum through Nov. 4.

Focus on the arts

Continued from page 6.

Columns and the Weakness of Theory." The lecture is sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

Dr. Onians currently is a William B. Fleming Distinguished Visiting Professor at Syracuse University. He is founder and editor of *Art History*, the journal of the British Association of Art Historians.

Odyssey on WPSU

New Zealand writer Janet Frame, one of the "exiles in their own lands" discussed on the next "Odyssey Through Literature," makes her point by using "nonsense" language -- by breaking the language itself up into new constituent sounds, and moving it around.

"The purpose," explains Murray Martin of Tufts University, "is to show that we have reached the edge of language as we

know it. Language, he tells host Leonard Rubinstein, has become encrusted with these platitudinous things. We've got to break it open, speak with a new language. Responding to the comment, the language that empowers us cripples us, Mr. Martin continues. In a sense this is one of the important things about all colonial languages. Nothing exists until it's named, and the colonies were named by someone else.

"Odyssey Through Literature" is produced by the Department of Comparative Literature, and airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Saxophone quartet

The Penn State Saxophone Quartet will perform in concert at 12:10 p.m. Thursday, Sept. 13, in the Eisenhower Chapel at University Park.

The 20-minute concert marks the

Engineering forms radiation center

The College of Engineering has formed the Radiation Science and Engineering Center to recognize the breadth of nuclear testing, instruction, measurement, and experimentation at University Park.

The new center will integrate facilities already in place, including the Penn State Breazeale Reactor, Low-Level Radiation Monitoring Laboratory, Neutron Beam Laboratory, Gamma Irradiation Laboratory, Nuclear Materials Engineering Laboratory and Fast Neutron Irradiator.

The center will be headed by Marcus H. Voith, associate professor of nuclear engineering and director, Breazeale Reactor.

"Nuclear science and engineering provide important tools across a broad spectrum of disciplines," John A. Brighton, dean of the College of Engineering, said. "With the establishment of this center, Penn State will be able to offer a menu of nuclear related testing and analysis facilities to the University community and statewide."

The center will offer neutron and gamma irradiation, neutron activation analysis, radionuclide supply, neutron radiography and environmental monitoring.

It also will provide a basis for undergraduate education and graduate research. Technical training programs are conducted at the Breazeale reactor for engineers, reactor operators, and safety personnel.

The center will continue participation in the Reactor Sharing Program funded by the U.S. Department of Energy to encourage the use of Penn State facilities by other institutions for research and instruction. Currently, there are only 33 universities operating research reactors in the country. Penn State's Breazeale Reactor is the longest operating university reactor in the country. The TRIGA Training Research Isotope production by General Atomic — core replaced the original core in 1965 and produces a maximum of 1,000 kilowatts. The reactor was relicensed for 20 years in 1986. A microprocessor-based reactor control system currently is being installed.

Dr. Voith has been director of the reactor since June 1980 and his duties have included responsibilities for the Center's nuclear related laboratories.

International television programming is added

The University has added SCOLA (Satellite Communications for Learning) network, a Nebraska consortium that provides international television programming, to its educational services for students and faculty.

SCOLA programming is available on the Campus Network, which connects selected classrooms, offices, laboratories, auditoriums and dormitories at University Park to 12 channels of educational programming.

The Creighton University-based satellite

service provides international news and educational broadcasts 24-hours a day. SCOLA programming currently originates from countries such as France, Spain, Germany, the Soviet Union, Mexico, Greece, China, Japan, Iran, Turkey, England, Argentina and Kenya. The majority of these programs are transmitted live.

Mary Lyman-Hager, assistant professor of French, and supervisor of the University Learning Centers, said that SCOLA's availability to Penn State students via the

Campus Network provides immediate access to the cultures of foreign countries. In addition to being an excellent teaching tool for foreign language study, she notes, "the pictures tell a story, too, even if you cannot understand the language."

In addition to news programs, SCOLA is expanding to offer more broad-based foreign telecasts, including entertainment and children's shows. SCOLA's programming is now available in about 1,000 colleges and universities, and to cable systems in 25 major cities.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

\$284,985,000 sought from state for 1991-92

Trustees approve appropriation request

The Board of Trustees at its meeting Sept. 7 at University Park approved an appropriation request for 1991-92 that reflects the legislative support for Penn State and public higher education as well as the need to change an environment of underfunding.

Penn State is seeking a 1991-92 appropriation totaling \$284,985,000 including the College of Medicine at Hershey and the Pennsylvania College of Technology in Williamsport.

"The University's appropriations request for 1991-92 reflects both what has been and what we would like to see in state support for public higher education in Pennsylvania," President Thomas said.

"The Commonwealth's public colleges and universities are underfunded. We

estimate that Pennsylvania now ranks 47th among the 50 states with regard to support for public higher education, and the budget plan we are proposing reflects that underfunding.

"However, I am aware of the fiscal outlook in Pennsylvania and very much appreciate how well Penn State did with its 1990-91 state appropriation, given the leanness of the overall state budget. This year's state funding is helping the University hold a steady course. But now, we must press on to secure more adequate state funding for Penn State," he said.

The proposed appropriation request is a modification of the six-year-plan brought forward two years ago by the University to move Pennsylvania closer to the national average of state funding for public higher

education.

The University budget plan for 1991-92 calls for projected expense increases of \$50,982,000. A total of \$17,903,000 will be available in new income from planned tuition rate increases as well as increases in the recovery of indirect cost recovery and investment income.

Therefore, the University is asking the state for an increase of \$33,079,000 over the current year's funding of \$251,906,000, or a 13.1 percent rise.

The University budget plan represents projected expense increases of \$42,752,000 for basic operating costs for general University operations. The increase includes provisions for salary adjustments—unavoidable employee benefits cost increases, funds for the maintenance and

operation of new facilities, and departmental operating support.

"The majority of these funds will be required for faculty and staff salary adjustments and related employee benefits," Dr. Thomas said.

"Keeping academic and staff salary levels competitive with those of other institutions and the marketplace in general is an important priority. Every effort will be made to prevent erosion of Penn State's relative position in the area of salaries."

The projected increase for departmental operating support reflects the fact that there have been no increases in departmental allotments to cover basic operating costs for five years. The increase also would include limited funding for the highest priority.

Please see 'Appropriation' on page 4.

Smeal College of Business Administration is dedicated

More than 300 people—including corporate executives, Penn State trustees, top University administrators, alumni, faculty, staff and students—took part Friday, Sept. 7, in the dedication of The Mary Jean and Frank P. Smeal College of Business Administration at University Park.

The naming of the college, approved on July 13 by the Board of Trustees, honors the Smeals, two Rumson, N.J., alumni, who last November donated \$10 million to support business education at Penn State. It was the largest individual gift in the University's 135-year history and will be used to create five new faculty chairs and add significantly to the college's general endowment.

Speaking at the dedication ceremony, President Thomas said, "Mary Jean and Frank Smeal have demonstrated in the most outstanding way their commitment to excellence in management education and research. It is most fitting, therefore, that Penn State's commitment to leadership in the area of business administration be carried out under the Smeal name.

"The naming of a college for its greatest benefactors signals the emergence of a new academic identity," he added. "In the case of business administration at Penn State, the dedication of The Smeal College proclaims the strong consensus for quality that exists not only among faculty, students and staff, but also among the college's alumni and friends."

President Emeritus Jordan, commenting on the Smeals' many contributions to Penn State, said, "Though the Smeal name graces the College of Business Administration—and very proudly so—the Smeal influence reaches into the institution's core. This University is very fortunate to have that kind of support. It is a great source of

strength and encouragement for all those who carry out Penn State's work."

The Smeals both received bachelor's degrees from Penn State in 1942—Mary Jean Smeal in arts and letters and Frank Smeal in economics. After a 38-year career on Wall Street, he currently is a limited partner with the investment firm of

Goldman, Sachs & Co. Mary Jean Smeal has had a longtime interest in poetry and creative writing. Among the Smeals' numerous gifts to Penn State are major endowments for literature as well as business.

Noting the diversity of the Smeals' support for Penn State as well as their dedication and commitment, J.D. Hammond, dean of The Smeal College, said, "Taken to heart, these qualities point out the need for us not only to teach young managers courses in business, but the humanities, language and the arts as well.

"If we learn that lesson the impact on the study of business will be path-breaking and major."

Calling the Smeals' \$10 million gift "a powerful competitive tool in an intensely competitive arena," Dean Hammond said the endowment "gives us the resources we need to secure and sustain a leadership position in business education. Students and faculty members here will benefit from this legacy for years to come."

Also of benefit to students and faculty of The Smeal College will be a special gift of \$32,000 made earlier in the day by the partners of Goldman, Sachs & Co. to honor the Smeals. Presenting the gift on behalf of Goldman, Sachs was Paul Pomfret, an associate in the Security Sales Division of the firm and a Penn State alumnus with an

Mary Jean and Frank P. Smeal are shown with the plaque honoring their \$10 million gift. (Photo: Greg Grieco)

Focus on Diversity

Minority scholars sought for summer program

The University invites nominations and applications from minority scholars interested in teaching at one of Penn State's 21 locations during the summer of 1991.

The Scholars in Residence Summer Program is intended to provide teaching opportunities for holders of doctorates from institutions other than Penn State. They are expected to have some teaching experience.

Faculty chosen will teach courses in their specialties to either graduates or undergraduates at one of the campus locations; meet with students; attend University functions; engage in research, using the many opportunities and facilities

of a major research University, and become part of the summer community at the University.

"This is the fourth year for this very successful program," Nancy M. Tischler, director of the Office of Summer Sessions, said.

"The program provides an opportunity for minority scholars to spend time at Penn State and to become familiar with our activities and programs. We have established excellent relationships with the scholars who participated in the program over the past summers."

Dr. Tischler pointed out that courses

range from introductory level for underclassmen to graduate level depending on the campus or college and the background of the scholars. The scholars may be appointed at a variety of college-level teaching ranks, and from a variety of disciplines.

Interested applicants should request an application from Dr. Nancy M. Tischler, director of Summer Sessions, Spruce Cottage, University Park, telephone (814) 863-4174. Applications will be reviewed as soon as they are received, with a deadline of Nov. 1 for appointments in summer 1991.

WISE Forum hosts program

The WISE Forum, a new activity at University Park, will hold its first program, a brown bag lunch with a panel discussion on "Women in Leadership Roles-The Life of a Scientific Department Head/Director" from noon to 1 p.m. Friday, Sept. 14, in Room 301 Hetzel Union Building.

The three panelists taking part in the discussion are Jean Brenchley, director of the Biotechnology Institute; France Cordova, head of the Department of Astronomy, and Linda Maxson, head of the Department of Biology.

The Women In the Sciences and Engineering Forum is for anyone interested in supporting and encouraging women in science, engineering, and technology. It offers an opportunity where people (especially women) in scientific/technical professions and majors can meet each other, network, discuss issues, and share ideas.

The WISE Forum is not a formal organization. It has no membership requirements or dues. A planning committee organizes programs that currently include three brown bag lunches a semester.

For more information on the forum, contact Sharon Jadmack Luck, director, Women in Engineering Program, phone 865-7138.

Proposal workshop

A workshop on writing proposals for funding by the Equal Opportunity Planning Committee is scheduled for Sept. 24 from 8 a.m. to noon, in 301 Hetzel Union Building at University Park.

EOPC is responsible for recommending and overseeing special funding for new and continuing equal opportunity programs and activities.

The workshop is open to all persons at all campuses interested in submitting funding proposals for the 1991-92 academic year.

For registration information, contact EOPC at 860-0405. Registration deadline is Sept. 20.

WPSX-TV highlights programs

"Every day we're having problems with water rights, fishing rights, land rights, hunting rights, flying in the face of Indian sovereignty," Sam Cagney of the Lumini nation has firsthand experience with the threats to Indian sovereignty that continue despite assurances from the United States government that each Indian nation within U.S. borders is a sovereign nation.

Winds of Change: A Matter of Choice, airing at 1:30 p.m. Saturday, Sept. 15, on WPSX-TV, examines the threats faced by the indigenous people of America as they struggle to maintain their identity and sovereignty. Host N. Scott Momaday,

Pulitzer Prize-winning author, narrates this intimate look at three Indian nations, the challenges they face and the unique solutions they have found to protect their cultures.

Fifty years of American musical showmanship are profiled when "Mr. Wonderful," the late Sammy Davis Jr., shares the stage with John Williams and the Boston Pops Orchestra at 9 p.m. Friday, Sept. 14, on *Evening at Pops*. Mr. Davis sings such great songs as "It Only Takes a Moment," Duke Ellington's "Satin Doll," "I've Got To Be Me," "Candy Man," Mr. Bojangles and many more.

Ulerichs donate \$1 million for eye research

A prominent Clearfield newspaper and radio station owner and his wife have donated \$1 million to the Hershey Medical Center to support a clinical research center dedicated to problems of the eye.

"I am honored to accept this gift from Bill and Lee Ulerich on behalf of the University," President Thomas said. "Mr. and Mrs. Ulerich are sterling examples of the dedicated and concerned support that Penn State must have if it is to continue its leadership in the field of higher education."

The William and Alethea Ulerich Ophthalmology Research Center will be part of the Biomedical Research Building now under construction next to University Hospital.

"This contribution reflects Bill's and Lee's awareness of the College of Medicine's growing reputation as a source of excellent eye care," C. McCollister Everts, senior vice president for health affairs and dean of the College of Medicine, said. "Their generous and timely gift will support a much needed expansion of the Medical Center's ophthalmology research facilities."

As chairman and chief executive officer of the Progressive Publishing Co., William K. Ulerich, a 1931 Penn State graduate in liberal arts, owns and publishes the daily *Clearfield Progress*. He also owns WCPA-AM and WQYX-FM in Clearfield. Previously,

William K. Ulerich

he owned nine stations in Pennsylvania and Florida, including WJMA and WBVN in State College, which he sold in 1988.

Lee and I are proud to be able to make this commitment, and we hope that it will inspire others to join in supporting this facility," he said.

Having suffered with an eye problem for the past 41 years, I can say that we are especially pleased to aid the eye research

development of the Ophthalmology Department at the Medical Center.

Mr. Ulerich is president emeritus of the University's Board of Trustees, on which he served for 26 years, beginning in 1951.

Reappointed by several governors, he served until 1985 when he declined further appointments.

A former editor of *The Daily Collegian*, he served as editor of the weekly *State College Times*. He co-founded the *Centre Daily Times* in 1934 and served as its first editor and associate publisher. He also was an instructor and assistant professor of journalism at Penn State for 14 years.

He is past president of the Associated Press of Pennsylvania and the Pennsylvania Newspaper Publishers Association, which honored him with its Distinguished Service Award in 1960. He is past member of the Pennsylvania State Board of Higher Education and was appointed to the Pennsylvania Appellate Court Nominating Commission in 1979.

In April 1989, George Blankenship, a nationally known ophthalmologist, was recruited as professor and chairman of the new Department of Ophthalmology at the Medical Center. Under his leadership, the department has doubled the number of patient visits and increased to eight full-time faculty.

Scholarship created

A scholarship in food science has been established at the University with a \$50,000 bequest from John H. Hetrick, a 1938 Penn State graduate in dairy science.

Mr. Hetrick, a native of Beaverstown, was a longtime resident of Rockford, Ill., where he died last year. He retired in 1981 as director of environmental control for Dean Foods Co. of Rockford, with whom he has been associated for nearly 30 years.

The John H. Hetrick Memorial Endowed Scholarship, named by his wife, Blanche, who survives, will assist undergraduate and graduate students enrolled or planning to enroll in the Food Science Department in the College of Agriculture.

After graduating from Penn State, Mr. Hetrick held several positions in the dairy industry in the Midwest before joining Dean Foods in 1945, and was instrumental in leading the company into ice cream manufacturing. He earned a master's degree from Ohio State University in 1919 and a Ph.D. from the University of Illinois in 1947. He took a leave from Dean Foods to serve as professor of dairy technology at the University of Illinois from 1967 to 1974.

He was a 1934 graduate of Bedford High School and salutatorian of his graduating class.

From the Trustee Docket

1991-92 capital budget

The Board of Trustees has approved a 1991-92 capital budget request totaling \$197,289,000 for physical plant improvement projects.

Nineteen proposed construction projects account for \$176,050,000 of the request, and \$21,239,000 is earmarked for original equipment for previously approved construction projects.

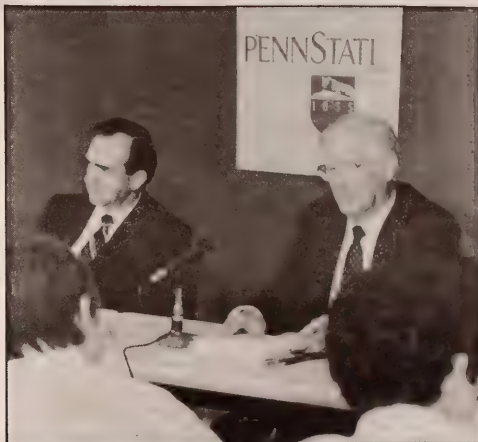

The University will submit its 1991-92 request to the Pennsylvania legislature and appropriate departments and offices of the Commonwealth.

President Thomas said the requests have been made in light of the most recent actions of the legislature, directions emerging from the University's strategic planning process and approved master plans for Penn State Erie, The Behrend College, and the Penn State Harrisburg and University Park campuses.

New construction includes nine projects at University Park, one at Penn State Behrend, one at Penn State Harrisburg, one at the Hershey Medical Center and seven at Commonwealth Campuses.

Projects to be funded and the amount requested for each are:

- Central Energy Production and Recovery Facilities, University Park, \$60,250,000. This project entails construction at two locations: the East Campus Heating, Chiller and Incinerator Plant and the West Campus Chiller Plant.
- Library and Classroom Building, Penn State Harrisburg, \$15,750,000. With

President Thomas (left) and H. Lloyd Huck answered questions at a press conference following the Board meeting Sept. 7. (Photo: Greg Grieco)

enrollment of more than 3,000 students, the Penn State Harrisburg campus is struggling to serve the instructional demands of the area in the original Olmsted Building with limited library

space.

-- Chemistry Building, University Park, \$22,500,000. This building is essential to the maintenance of bio-organic and synthetic research programs conducted by

faculty in the Department of Chemistry, now housed in Chandler Lab which is in need of complete renovation to remain serviceable.

- Paul Robeson Cultural Center, University Park, \$4,200,000. The cultural center currently is housed in a pre-World War II facility that was designed to be a temporary structure and is quite limited.
- Other projects include:
 - Renovations of Conklin Hall, Westling Building and General Studies Building, Mont Alto Campus, \$6,400,000.
 - Renovation of Research Buildings A, B, C, University Park, \$3,300,000.
 - Renovation of Weaver and Patterson buildings, University Park, \$5,250,000.
 - Administration Building, University Park, \$8,400,000.
 - Academic Building, Berks Campus, \$4,000,000.
 - Renovation of and addition to the Music Building, University Park, \$6,400,000.
 - Renovation of Sharon Hall and Sharon Hall Annex, Shenango Campus, \$6,200,000.
 - Renovation of Burrows Building, University Park, \$5,250,000.
 - Central Control System--Phase II, University Park, \$5,250,000.
 - Addition to Mitchell Building, University Park, \$4,400,000.
 - Classroom Building, Hazleton Campus, \$2,730,000.
 - Renovation of and addition to Ferguson Building, University Park, \$7,770,000.

Construction plans

The Board of Trustees has approved final plans and authorized the University to obtain bids for an addition that will double the size of the Palmer Museum of Art at University Park.

The \$5.6 million addition was designed by Charles W. Moore, a fellow of the American Institute of Architects, of Austin, Texas, and the firm of Arbones King and Associates, of Stony Creek, Conn. Among other features, the addition will provide nine galleries for display of the museum's permanent collection, a gallery for traveling exhibitions, a 150-seat auditorium and a new museum store.

The addition will reorient the museum to face Pattee Library across a plaza entry.

Approximately \$4.1 million has been raised toward the expansion's estimated \$5.6 million cost through an ongoing fund-raising campaign. In 1986, James R. and

Barbara R. Palmer of State College donated \$2 million and since then, another \$2.1 million has been contributed from private sources through The Campaign for Penn State.

Construction could begin as early as spring 1991, with a projected opening in early 1993.

In other action, Trustees:

-- Approved the sketch and preliminary plans for the new Master Building, which will accommodate the Hotel, Restaurant and Institutional Management Program in the College of Health and Human Development at University Park.

The building will be located directly east of the existing Keller Building and will be connected by two corridors.

The two-floor structure will have approximately 35,000 square feet, including production and research kitchens, a dining area, a computer laboratory, a technology

laboratory, classrooms and administrative, faculty and graduate offices.

It will be a steel structure with a brick-and-glass exterior. The total project budget is \$5.4 million. The majority of the project will be financed through private gifts.

-- Approved the final plans for several agricultural facilities to complement the Agricultural Science and Industries Building now under construction. The projects include a new poultry complex, a dairy complex and two greenhouses.

The poultry complex will be located north of the existing Headhouse No. 4 and will replace the existing poultry facilities next to the outdoor swimming pool.

The dairy complex, to be located with the existing dairy facilities off Park Avenue, will total 55,874 square feet.

The greenhouse complex will include 19,043 square feet of new construction featuring two greenhouses connected to the south side of the Agricultural Science and

Industries Building. A 5,300-square-foot Headhouse area already under construction will include a crop drying room and laboratory, office and storage space.

The total budget for the state-funded agricultural facilities project is \$13 million.

-- Approved the purchase of the Eastgate Office Building in downtown Harrisburg to permit expanded services to be offered to the community.

The unleased space in the two-year-old, three-story building at 1010 N. Seventh St. will be used primarily for Continuing Education programs and upper division-graduate courses. It also will provide flexibility for future growth of the Penn State Harrisburg Downtown Center at 234 N. Third St.

The Eastgate Building's 1.25-acre site includes 150 parking spaces. Much of the building's 56,000 square feet currently is rented and will continue to be rented.

Undergraduate programs

Trustees have reviewed a name change in an undergraduate option and the drop of an undergraduate major.

In the exercise and sport science major, the human performance and aging option will become the exercise gerontology option. The exercise and sport science major is offered in the College of Health and Human Development.

The transportation engineering technology major at Penn State Harrisburg has been dropped. Civil engineering technology faculty members had earlier determined that a need for such a program no longer existed.

The water resources engineering, technology and building construction technology programs offer a sufficient number of courses relevant to students interested in the transportation area.

Agriculture programs

The College of Agriculture's urban programming was the focus of a report by Dean Lamartine F. Hood to the Board of Trustees.

"The College of Agriculture is seen by most people as fairly narrowly focused on production agriculture," Dean Hood said. "Part of our mission as Pennsylvania's landgrant university is to serve the needs of

all 12 million state residents.

"What may be the college's best-kept secret is the breadth and depth of our urban programming. We have a wide diversity of urban programs available to Pennsylvanians residing in urban and metropolitan areas," he added.

Dean Hood discussed the college's urban programs and its efforts to aggressively recruit students from urban areas.

Please see 'Agriculture' on page 5.

Colleges of Agriculture, Education welcome alumni Three to receive Alumni Fellow award

Three graduates of the University will visit University Park beginning Sept. 19 to receive the Alumni Fellow award and meet with students and faculty members.

They are **John C. Datt**, executive director of the Washington, D.C., office of the American Farm Bureau Federation, who has been invited by the College of Agriculture to visit Sept. 19 to 22; and **John W. Moore**, president of California State University, Stanislaus, and **David Lawrence Tressler**, chairman and chief executive officer of Northeastern Bank of Pennsylvania, who have been invited by the College of Education to visit Sept. 19 to 23.

The Alumni Fellow award, presented by the Penn State Alumni Association, is one of the most prestigious of the association's awards. It is administered in cooperation with the colleges. The Board of Trustees has designated the title of Alumni Fellow as permanent and lifelong.

Mr. Datt is responsible for the American Farm Bureau Federation's activities in the nation's capital, including relations with Congress, the executive branch and regulatory agencies.

He will meet with agricultural economics students and faculty and will conduct a seminar on agricultural policy at 2:30 p.m. Sept. 20 in 301 Agricultural Administration Building.

Mr. Datt grew up on his family's dairy farm in western Pennsylvania and graduated from Mars High School in 1945. In 1949, he graduated from Muskingham College with a bachelor's degree in economics. He received his master's degree in agricultural economics from Penn State in 1951. In 1950, he joined AFBF's Washington staff as assistant director of the Fruit and Vegetable Commodity Department. He became executive director of the office in 1983.

A resident of Modesto, Calif., Dr. Moore received his bachelor's degree in social science and education from Rutgers University in 1961, his master's in counseling and personnel services from Indiana University in 1963, and his doctorate in higher education from Penn State in 1970.

As president of CSU, Stanislaus, since 1985, he has been instrumental in increasing the enrollment, visibility and

image of the university as a major institution in Central California. The former executive vice president of Old Dominion University, Dr. Moore also served as vice president for educational services and for policy and planning.

As vice chairman of the PNC Financial Group, director and treasurer of the Scranton Chamber of Commerce and second vice chairman of the Pennsylvania Bankers Association, Mr. Tressler has been recognized for his part in aiding the economic growth of Northeastern Pennsylvania and for his involvement in community and charitable activities.

Mr. Tressler was named a Penn State Distinguished Alumnus in 1984, the recipient of the College of Education's Outstanding Alumni Award in 1989 and is a life member of the Penn State Alumni Association.

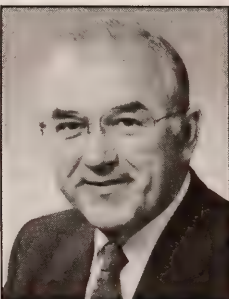

A resident of Clarks Summit, he received his bachelor's degree in education from Penn State in 1958, his master's degree in educational administration from the University of Pittsburgh in 1965 and graduated from the Rutgers' Stonier Graduate School of Banking in 1969.

John C. Datt

John W. Moore

David L. Tressler

Appropriation request

Continued from page 1.

program needs identified through the strategic planning and budgeting process.

In addition to the request for basic operating cost increases, Penn State is proposing special line item requests of \$7,500,000; deferred maintenance (\$3.2 million); the University Libraries (\$1.8 million); and scientific and engineering equipment (\$2.5 million).

For 1991-92, the debt service payment schedule for existing facilities at the Pennsylvania College of Technology approved by the Commonwealth calls for a payment of \$1,614,000. This will require an increase in the debt service line item of \$730,000.

Outlining projected income, the University is proposing a 4 percent increase

in tuition rates at all locations. That would mean an increase of \$119 per semester for resident University Park undergraduates. The increase will generate an additional \$15,528,000.

Other proposed income changes totaling \$2,375,000 are based on the recovery of indirect costs, investment income, and summer session tuition for a total income increase of \$17,903,000. The balance of \$33,079,000 requested from the state will cover the planned expense increases of \$50,982,000.

The University recognizes that students share in the increased costs of their education, but at the same time we are concerned about the critical problem of access," Dr. Thomas said.

Prior to 1989-90, tuition increases over

the previous 10-year period averaged about 10 percent annually. The last two years, with the assistance of the Tuition Challenge Grant Program, the University was able to moderate tuition increases for Pennsylvania undergraduate students.

We are requesting that the Tuition Challenge Grant dollars be folded into the Educational and General line item of the budget to insure the continuity of this funding. Were the Challenge Grant program to end, Penn State could face the prospect of extremely high tuition increases in the future.

It is the University's hope that the state government will continue and expand its commitment to the Commonwealth's public universities, and support the multi-year plan to move Pennsylvania public higher education forward.

Mike Reid stars in benefit concert

Altoona native Mike Reid -- football-player-turned-Grammy-Award-winning songwriter -- will return to Penn State for a concert Sept. 21.

The concert featuring Mr. Reid playing a concert grand piano will benefit the Ag Arena Complex and will be held at 8 p.m. in Eisenhower Auditorium at University Park.

Mr. Reid, a trained classical pianist who earned a degree in music from Penn State in 1969, quit an All-Pro career with the Cincinnati Bengals of the National Football League in 1975 to devote all of his time to music.

After five years of "paying his dues" in the music business, he moved to Nashville as a full-time songwriter. His song, "Inside," was recorded by country music star Ronnie Milsap in 1983 and quickly soared to the top of the country chart.

By 1984, Mr. Reid's songs were being performed by the biggest names in country music. He won a Grammy Award in 1983 for "Stranger in my House," and Mr. Milsap won another Grammy for his performance of Mr. Reid's "Lost in the Fifties Tonight." The song was on the American Society of Composers, Authors and Publishers' (ASCAP) list of most-performed songs of 1985, and earned Song of the Year honors from ASCAP, the Academy of Country Music and *Billboard Magazine*.

During his college years, his intensity and competitive drive on the football field earned him All-American honors and the Outland Trophy, an award for college football's best lineman.

Mr. Reid has returned before to help the University, including a performance at Penn State Harrisburg's 20th anniversary celebration to benefit the scholarship fund. For ticket information, call 863-0255.

Smeal College

Continued from page 1.

M.B.A. and a bachelor's degree in finance. The funds will be added to the college's general endowment.

The dedication ceremony featured the unveiling of a cast bronze plaque honoring Mary Jean and Frank Smeal to be installed in the Business Administration Building at University Park. The plaque was unveiled by Board of Trustees President J. Lloyd Huck, who officially dedicated the college. He was assisted by Jennifer Lewis, president of the Penn State MBA Association, and William Grenoble, representative of the Association of Business Doctoral Students.

A replica of the plaque was presented to the Smeals by President Jordan with the assistance of Carol L. Peters, president of The Smeal College's Undergraduate Student Council.

The ceremony was the second of its kind this year at Penn State. On May 12, The Eberly College of Science was formally dedicated in recognition of the generosity of the Eberly Family of Uniontown, Pa.

President Thomas addresses Board meeting

Following are remarks made by President Thomas to the Board of Trustees on Sept. 7:

I want first of all to say again how Marly and I appreciate the warm welcome that we have received at Penn State. We have literally been overwhelmed by all that the Penn State community has done to make us feel at home. We came knowing that this would be a memorable experience; we are now happy to say that it will be a satisfying experience. The support that you have already demonstrated is just marvelous.

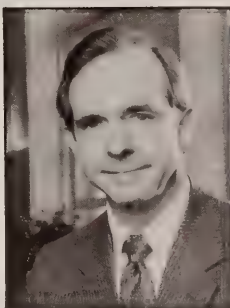

I tend to be brief in my oral presentations and hope that that fits comfortably with the Board's wishes in this regard.

There are just a few points that I would like to make, particularly observations based on my early knowledge of the University.

One deals with the management team. One of my first priorities was to meet each member of the Council of Academic Deans. I have now done this. Bryce Jordan had told me ahead of time that his group of deans was the strongest group of deans with whom he had ever worked. I concur in that observation from my first impression. This is a dedicated, committed group of deans - they're bright, they are energetic and they are certainly committed to improving each school and college. They have impressed upon me in very bold and, in some cases, strong terms the need for additional space. Working with this group is an exciting prospect, and I look forward to it.

I also agree with those who remind us that Penn State is now ranked among the very top public research universities of these United States and in the world at large. This is a fact and I am pleased to say that within that environment, I already have perceived a very strong commitment to continue to provide sensitive undergraduate education. I'm convinced that a major public research university does in fact provide a very, very compatible environment for undergraduate education. I'm pleased to see that commitment. And I am encouraged to find that undergraduates as well as graduate students at Penn State have access to a strong international program. Events of recent weeks - and certainly you will perceive from discussions we had yesterday afternoon - emphasize ever more strongly the need for an international approach and an international dimension to everything that we do in higher education. I hope to advocate further the importance of this with a committee assignment I have requested with the Association of American Universities.

Turning to a different, but related topic, I sent a letter just recently to the University community indicating that additional work needs to be done to take

President Thomas

advantage of the diversity that exists at Penn State. More funds will be required to meet fully the University's goals in this area. We need appropriate diversity in more than just our investment and endowment portfolios, obviously.

Penn State also is fortunate to have a very high quality student body. If the students I've met so far and I have had an opportunity to talk to several, are representative of the University at large, we do indeed have a very active, committed and intelligent group of students. They are aware of the world around them and they are, of course, the reason we work so hard. The talent on the non-academic side is equally impressive. The rapid, but thorough, budget preparations I've had have convinced me that the financial and budget controls are solid and that they are in place. The physical plant is clearly one of the most handsome anywhere in the country. Anyone can walk out and observe that very readily. The Division of Development and University Relations is a national leader. One only has to look at the recent success of the capital campaign to know that. The athletic program is vital, successful and - most important - respected for its integrity.

Looking to locations other than University Park, the University Medical Center is inspiring. It is ambitious and there is obviously a high quality faculty and staff at that location dedicated to providing to the people of Pennsylvania, and beyond, the very best in medical care and research. Penn State with its Commonwealth

Educational System, is the envy of many universities around the country. The presence in almost all of Pennsylvania is unique in its structure and, I think, a very strong organizational structure for higher education. I had the opportunity to visit the Hazleton Campus, and I have seen first-hand the commitment and promise which characterizes that campus, which I am convinced is representative of the campuses throughout the state.

The situation I've described for Penn State is a function of the fine leadership this University has had for several years. I have had leadership responsibilities in two other major universities, and I can tell you with certainty that it is much easier to advance an institution that is healthy, that has been well-managed, and is on the move, than to take one that has stagnated. I am very, very pleased to pick up the reins from the position that Bryce Jordan has left this University, and I can assure you that I plan to keep this University at a full gallop.

Standards will be a very important theme as we move forward. People who know me well know that this is a theme that I emphasize often. My recent experience in the classroom brought to my attention very vividly a disturbing decline in standards that we have experienced in our society - academic standards, ethical standards, productivity standards, even. A redefinition, a reassessment, of standards and how we apply these standards will obviously be a very important component that needs to be done by higher education in the next few years.

The challenge of managing your University, and may I now say our university, is a very meaningful one to me. Meeting that challenge, and being successful in that challenge, depends on an enormously complex set of relationships. As Lewis Thomas has said-and there is no personal relationship there. I would like to call him "Uncle Lewis," but he's not related so far as I know - in a quotation that is meaningful to me: "There is really no such creature as a single individual; he has no more life of his own than a cast-off cell marooned from the surface of your skin." This is a thought much more profound than the usual "We're-all in this together." But, indeed, we are all in it together, and we're bound together in a very tight and I believe, comprehensive and effective body here at Penn State.

I look forward to working with you. I appreciate more than I could state the warm welcome that you have given both to Marly and me.

Thank you.

Joab Thomas

Agriculture

Continued from page 3.

Noting that educational programming for adults, as well as youth, is available through extension offices in each county, Dean Hood said the Philadelphia extension office has 37 professionals and paraprofessionals and is the College's largest county extension operation. Penn State Cooperative Extension, the statewide, informal educational system of the College of Agriculture, employs 300 staff members in offices located in each of Pennsylvania's 67 counties.

"There is a pressing need for educational programming in the areas of leadership, environmental resource management and food safety," Dean Hood added.

PEDA grant establishes Anthracite Institute

A \$108,900 grant from the Pennsylvania Energy Development Authority and matching funds from the anthracite industry will establish the Anthracite Institute at the University under the auspices of the Combustion Laboratory.

"Penn State has traditionally maintained its coal research program at the cutting edge of coal technology," Peter L. Rozelle, director of the Anthracite Institute, said. "The creation of the Institute will ensure that anthracite remains a focus of attention."

PEDA, a part of the Pennsylvania Energy Office, funds research, development and demonstration projects that develop, promote or more efficiently use

Pennsylvania's energy resources. The grant is to establish an institute to serve as a technical extension service for the anthracite industry.

According to Mr. Rozelle, the main aims of the institute are to apply technical advances to creating new markets for anthracite coal and to maintain a technical extension service to ease anthracite into new markets and to help with existing markets.

"The extension office will be located at Penn State's Wilkes-Barre Campus to maintain a regular presence in the coal fields," he said. "The institute will have an advisory board consisting of representatives from the anthracite industry, independent

power producers and state government."

Anthracite coal is found in 11 counties in northeastern Pennsylvania where an area of 480 square miles is underlain with 7 billion tons of coal. Pennsylvania anthracite is a high-carbon, low volatile coal with 5 to 7 percent sulfur, making it a low-sulfur coal. The current market for anthracite is divided evenly among residential, commercial and industrial space heating; metallurgical uses; utilities; and cogeneration and miscellaneous uses. "Anthracite can lessen our dependence on imported oil for space heating and industrial uses," Mr. Rozelle said.

"Additionally, in many applications, it can compete directly with petroleum coke."

Focus on the arts

The arts on Channel 3

WPSA-TV's *Musica Musica Musica*, a new 60 minute documentary highlighting the 1980-90 activities and operation of the Altoona High School Music Department, will premiere at 10 p.m. Friday, Sept. 14. From full band practices, daily theory and harmony classes and choral rehearsals to the annual Christmas concert, spring musical and district band festival, *Musica Musica Musica* captures instructors and students rehearsing and performing as well as expressing personal feelings about their work and music.

Pianos dotted with nuts and bolts. Sonatas for conch shells. Music in which the notes are silent. The controversial musical ideas that spring from the unique mind of John Cage have influenced, outraged, intrigued and challenged audiences and fellow composers for more than 50 years.

The life and career of America's preeminent avant-garde composer are explored in "John Cage: I Have Nothing to Say and I Am Saying It," a one-hour documentary premiering as part of *American Masters* at 10 p.m. Monday, Sept. 17.

Behrend arts series

Cultural and performing arts series events for 1990-91 at Penn State Erie The Behrend College, include: Chautauqua Chamber Singers, Sept. 16; Sukay - Music of the Andes, Sept. 25; Michael Lane Trautman, mime-dance storyteller, Oct. 9; Four Guys Standing Around Singing, a capella group, Oct. 12; Elizabeth at 33, "one-woman drama, Oct. 24; Marylene Dosse professor of music and French pianist, Nov. 13; Penn State-Behrend Concert Choir, Nov. 20; Shiloh Baptist Choir, Jan. 21; Nicole Dreiske Performance Company, Jan. 31; Eric Bayfront Ballet, Feb. 15; Robert Howard, assistant professor of music, trumpet soloist, Feb. 21; Baltimore Consort, March 20; silent movie "Phantom of the Opera," April 9; Penn

State-Behrend Choir concert, April 21; and Jonathan Gilley jazz quartet, April 24.

Most events are free to the public. For more information, call (814) 898-0000.

Bracken Lecture Series

Peter Walker, principal of Peter Walker and Partners, Landscape Architecture of San Francisco, will open the Bracken Lecture Series, sponsored by the Department of Landscape Architecture.

His talk, "Landscape as Art," will be presented at 8 p.m. Tuesday, Sept. 18, in Room 112 Walker Building at University Park.

Mr. Walker is landscape architect with over 30 years of experience in the practice and the teaching of solutions to the problems of urban development and the physical environment.

In 1983 he formed his present office for the practice of landscape design, with a particular emphasis on personal service to a limited number of clients.

Peter Walker will give the Bracken Lecture at 8 p.m. Sept. 18 in 112 Walker Building.

He has been responsible for the conceptual and detailed designs of such projects as Foothill College, Los Altos, Calif.; Upjohn Headquarters, Kalamazoo, Mich.; and I.B.M. Research Center at Santa Teresa, Calif. He also has been involved in many other urban design projects across the country.

Museum film

"L. Leonardo: A Journey of the Mind" will be shown at 12:10 p.m. Thursday, Sept. 20, at the Palmer Museum of Art at University Park. The 54-minute film chronicles the creative genius of 15th-century Renaissance man Leonardo da Vinci, as told by his contemporaries who wrote about him.

The film is free and open to the public. For more information, contact the museum at 865-7672.

Brass Ensemble

The University Brass will perform in concert at 12:10 p.m. Thursday, Sept. 20, in the Eisenhower Chapel at University Park. The group consists of 23 brass players from the School of Music and is directed by Mark Lusk of the School of Music's faculty.

The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish. The program will include selections by Giovanni Gabrieli.

The audience is invited to bring a brown bag lunch to eat in the Informal Lounge after the performance. Coffee and tea will be provided.

Theatre Arts accredited

The Department of Theatre Arts recently received full accreditation from the National Association of Theatre (NAST).

NAST, recognized by the U.S. Department of Education as the accrediting agency covering the field of theatre, is comprised of less than 50 member institutions, including public and private colleges, universities, and independent

professional training institutions.

By means of accreditation, NAST can encourage those institutions that consistently give students a sound basis for significant future accomplishments in theater. Accreditation also imposes the responsibility for continued effort to strengthen theater education in general while providing a basis for public recognition of an institution's quality. For Penn State, the process took two full years, during which the theatre arts program underwent many changes.

According to Carole Brandt, head of the Department of Theatre Arts, "NAST provided a structure and also an impetus for us to revisit what we were, what we did, what we wanted to do. It then forced us to make some tough decisions."

Odyssey on WPSU

"To be sure, there are common features between the Easterner and the Westerner," says a character in TM's novel *The Pilgrim's Rules of Etiquette*, "but in the end their encounters remain barren... like the quince-orange tree."

On the next episode of "Odyssey Through Literature," Nasrin Rahimieh of the University of Alberta discusses with host Leonard Rubinstein M and other Iranian writers in exile.

Some, she says, have retained their language even though they have lost their readers. Others, in order to be read, embrace a new language and find their writing warped by the alien tongue. A third group, like M, write in Persian but translate their own works, publishing simultaneously in Persian (if the censors approve) and English.

It is in the act of translating their own works," says Ms. Rahimieh, "that they come across new ways of dealing with the double identity, the double perspective that they have."

Odyssey Through Literature is produced by the Department of Comparative Literature and airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

CES Libraries chief sought

The University Libraries have begun an internal search for the position of chief, Commonwealth Educational System Libraries. This academic administrator will provide leadership and direction for library services throughout the CES system. The chief will oversee the planning, organizing, developing, and directing of services, will facilitate the relationships between University Park operations and the campus libraries, and will have a major role in the recruitment and development of Libraries faculty at these locations.

The position requires an ALA accredited MLS, minimum of seven years' experience, preferably in an academic or research library system, including substantive administrative responsibilities; minimum

two years in Penn State system. Excellent analytical, planning, and communications skills, familiarity with the LIAS system, knowledge of collection development, resource sharing, and personnel management also are required. An additional advanced degree is desirable. Promotion and tenure potential will be considered.

Interested faculty should send a letter of application, resume, and list of three references to: Head, Search Committee, Chief, Commonwealth Educational System Libraries, The Pennsylvania State University, 1511 Pattee Library, University Park, Pa. 16802. Nominations are invited and may be sent to the same address. The deadline for applications is Oct. 8.

Obituaries

John Peter Hagen, professor emeritus of astronomy and a scientific pioneer in the fields of microwave electronics, radar, radio astronomy and rocketry, died Aug. 26 at the age of 82.

He was educated at Boston, (Phi Beta Kappa, valedictorian), Wesleyan, Yale and Georgetown universities. His career spanned five decades, beginning with microwave and radar work at the Naval Research Laboratory, where he was head of the Atmosphere and Astrophysics Department, before and during World War II.

While at the Naval Research Laboratory, he attended Georgetown University and earned the first doctorate in radio astronomy ever awarded.

He founded the Vanguard Division of NASA when NASA was formed. While at NASA, he was the director of the United Nations Conference.

In 1962 he moved from NASA to Penn State, where he was professor of astronomy and head of the Astronomy Department until his retirement in 1975. During his career he received honorary doctoral degrees from Boston, Adelphi, Loyola and Mount Allison universities.

Evelyn A. Jodon, residence hall worker B, Housing and Food Services, from July 6, 1959, until her retirement March 24, 1972, died Aug. 28. She was 83.

Thomas G. Shultz, maintenance worker, steam traps, Office of Physical Plant, from Aug. 10, 1970, until his retirement on disability July 27, died Aug. 28. He was 50.

University Park Calendar

September 13-- September 23

Special Events

Thursday, September 13
Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel.
■ Gallery Talk, 8 p.m., Palmer Museum of Art: Karen Jones Arbutman on "Debunking Rembrandt Myths."
■ Dept. of French, Commemorating the Bicentennial of the French Revolution, lecture, 8 p.m., 112 Kern: Lynn Hunt, Univ. of Pa., on "Family Images and Sexual Politics in the French Revolution."

Friday, September 14
Bloodmobile, noon-5 p.m., Natatorium.
Wise Forum, brown bag lunch and panel discussion, "Women in Leadership Roles-The Life of a Scientific Department Head/Doctor," noon-2 p.m., 301 HUB.
Geog. Coffee Hour, 4 p.m., 319 Walker: James Lynch on "Spatial and Temporal Trends in Acid Precipitation in Pennsylvania."
Center for the Performing Arts, 8 p.m., Schwab Aud. Jupiter Symphony.

Monday, September 17
■ German Dept., film, 8 p.m., 101 Chambers. *Edgar-Rott-Feld*.

Tuesday, September 18
John R. Bracken Lecture Series, Dept. of Landscape Architecture, 8 p.m., 112 Walker. Peter Walker on "Landscapes as Art."

Wednesday, September 19
Center for Women Students, Brown Bag Lunch Series, noon-1 p.m., 120 Bouck. Janet Swim on "Sexism and Racism - A Comparison."

Thursday, September 20
■ Brown Bag Lunch/film, 12:10-1:04 p.m., Palmer Museum of Art: *J. Leonardo da Vinci*.
Bach's Lunch Concert, 12:10-12:30 p.m., Eisenhower Chapel.

Friday, September 21
Commission for Women, meeting, 10 a.m.-noon, 101 Health & Human Dev. Bldg. East.
Geog. Coffee Hour 4 p.m., 319 Walker.
Norman Throver, UCLA, on "Maps and the Columbian Encounter."

Sunday, September 23
School of Music, 4 p.m., Recital Hall. Carl Blake, piano.

Public Radio

WPSU-FM 91.1
All Things Considered, Monday-Friday, 5:30-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m.; Odyssey Through Literature, 12:30 p.m.; Wednesdays, with S. Leonard Rubinstein. Perspectives, 6:30 p.m. Wednesdays.

Conferences

Continuing Education
Keller Building
Sept. 17-19, Acoustic Emission/Microseismic (AE) VSI Techniques and Their Applications in Mining and Geotechnical Engineering. H. Reginald Hardy Jr., professor of mining

The columns of Henderson Human Development Building at University Park were photographed by Greg Grieco.

engineering and chair, geomechanics section, director; Eric Loop, coordinator.
Sept. 18, Pennsylvania Bar Institute, Estate Practice Update, Shirley Hendrick, assistant dean for continuing education, Small College of Business Administration, chair; Jerri Milson, coordinator.

Sept. 18-21, Bioreactors for Cell Cultures, Jim Shiller, manager of training, Biotechnology Institute, chair; Eric Loop, coordinator.

Sept. 20-21, Pennsylvania Ceramics Association Guy Rindone, professor emeritus of ceramic science, chair; Barb Impellitteri, coordinator.

Sept. 22-23, Symposium on Sports Injuries in Young Athletes, Howard Knutigen, director, Center for Sports Medicine, chair; Norm Lathbury, coordinator.

Seminars

Thursday, September 13
Polymer Science, 9 a.m., 301 Steidle. Jan Bock, Exxon, on "Hydrophobically Associating Polymers."
Economics and Institute for Policy Research and Evaluation, 2-30 p.m., 203 Willard Dennis W. Carlton, Univ. of Chicago, on "The Theory of

Allocation and Its Implications for Markets and Industrial Structure."
Ecology, 3:45 p.m., 110 Warkh: Kimberlyn Nelson on "Genetic Structure of Hybridizing White-Footed Mice (*Peromyscus leucopus*)."
Friday, September 14
Special Physics/Math Colloquium, 4:30 p.m., 102 McAllister: Jerry Gollub, Harvard College and Univ. of Pa., on "Nonlinear Dynamics of Water Waves."

Tuesday, September 18
Chemical Engineering, 2:45 p.m., Paul Robeson Cultural Center Aud. Anthony J. McHugh, Univ. of Illinois, on "The Interplay of Mass Transfer and Thermodynamics in the Phase Inversion Process."

■ Geosciences Colloquium, 3:45 p.m., 301 Steidle: Marcus McNitt MIT on "The South Pacific Superswell."
Condensed Matter Physics, 4 p.m., 330 Davey Lab P. Persano Rensselaer Polytechnic Institute on "Optical Properties of Semiconductor Nanocrystals."

Wednesday, September 19
Accounting and MIS research colloquium, 3:30-5:30 p.m., 333 Beam. Terrence Shellv, Univ. of Washington.

Thursday, September 20
Proposal Information seminar, 9:30-11 a.m., 141

Computer Bldg. Sept. 21, 1:30-3 p.m., 141.
Computer Bldg. Registration, 8:30-10:45.
History Colloquium, 4 p.m., Memorial Lounge.
Eisenhower Chapel, Samuel C. Thalhiser on "Scholarly Publishing and the Penn State Press."
■ Gerontology Center Colloquia, 4:45 p.m., 106 Mitchell: Nana Y. L. Pedersen Ottosen, Karolinska Institute, Sweden, on "Personality in the Swedish Adoptive Twin Study of Aging."
Physics Colloquia, 4 p.m., 55 Osmond Lab: Mark Cardillo, AT&T Bell Labs, on "Surface Physics Viewed from Within."

Exhibits

Chambers Gallery
Chut Diao, paintings, through Oct. 5.
HUB Galleries
Browsing Gallery:
Alan Klein, photographs, through Sept. 23.
Art Alley Panels:
Rina Banerjee, oil paintings, through Sept. 23.
Art Alley Cases:
SCASD adult pottery class exhibit, through Sept. 23.

Formal Gallery:
■ Spectacular Vernacular: Traditional Desert Architecture from West Africa and Southwest Asia, through Sept. 23.
Palmer Museum of Art
Selections from the Permanent Collection, through Oct. 7.
The Presence of Absence: New Installations, through Oct. 14.
■ The Machines of Leonardo da Vinci, through Nov. 4.

Pattco Library
West Lobby Gallery:
Permanent collection from the Arts Library, through Sept. 7.

Zoller Gallery
Shagunessy/Greenberg Installations, through Sept. 30.

■ Reflects an international perspective

Bookshelf

Hoi K. Suen, associate professor of educational psychology, is the author of *Principles of Test Theories*. The text, published by Lawrence Erlbaum Associates, provides a comprehensive survey of reliability, validity and item analysis from the perspective of classical test-score models, generalizability theory, item response theory, criterion-referenced testing and behavioral assessment.

Atherton Hall Mentor position to assist University scholars

A search committee chaired by John Moore, assistant professor of English, has been formed to identify candidates for the position of Atherton Hall Mentor. The position is sponsored by the University Scholars Program in conjunction with Residence Hall Programs.

Purpose of the mentor position is to provide a faculty presence in Scholars House, located in Atherton Hall. Scholars House residents include 400 University Scholars and 100 independent students who form an academically oriented living community. Atherton Hall also houses 11 faculty apartments and two visitor apartments. The mentor will live in the hall in an apartment suitable to accommodate a small family.

The Atherton Hall Mentor will be

expected to promote intellectual exchange among Scholars House residents by assisting them to "network" with others in the House who share their interests, and by encouraging informal gathering to explore appropriate topics that extend beyond their formal coursework.

The mentor will be affiliated with the University Scholars Program and report to the program director. The appointment is for up to three years, with the possibility of renewal for a second term.

Review of applications will begin Oct. 8 and continue until the position is filled. Applications and nominations should be submitted to Atherton Mentor Search Committee, University Scholars Program, 214 Willard Building, University Park.

Bookshelf

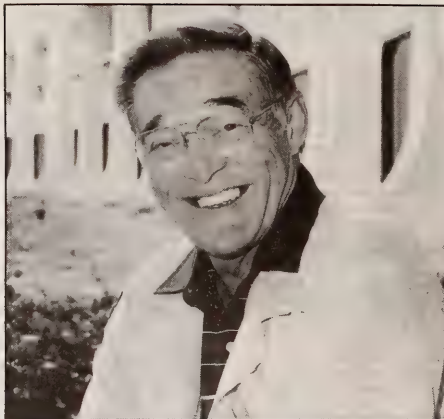

Tien Tsong, distinguished professor of physics in the Eberly College of Science, is the author of *Atom Probe Field Ion Microscopy: Field Ion Emission and Surface and Interface at Atomic Resolution*, published by Cambridge University Press.

The book is a sequel to the well-known 1969 edition of *Field Ion Microscopy: Principles and Applications*, written by the late Erwin Mueller, Evan Pugh professor of physics, and Dr. Tsong.

Dr. Tsong's new book details developments since 1969, emphasizing both the basic principles and scientific studies of atom-probe field ion microscopy.

James A. Bardi, instructor in hotel, restaurant and institutional management and director of the hospitality management program at the Penn State Berks Campus, is the author of *Hotel Front Office Management* (Van Nostrand Reinhold, New York).

The book explains how to develop the theoretical structure which future front office managers must have in order to effectively run the front desk department. It explores objectives, procedures, training programs, incentive plans, budgets, tracking systems, communication feedback and the front office's role as liaison between management and all other service departments.

Penn State People

Richard Holsberg

Hershey Medical Center volunteer tour guide Richard Holsberg is content with his job. "Everybody else does all the work, and I get to stand up in front of groups and brag about it," he says. Over the last 11 years, his face has become as familiar as the new buildings that have sprouted on the 550-acre campus. An optometrist in Harrisburg until health problems forced him to retire, he is on a first-name basis with most Hershey staffers. Although he receives no pay, he says, "There's no one I could explain how rewarding this work is." (Photo: Greg Grieco)

Worriers sought

Thomas D. Borkovec, professor of psychology, is looking for "anxious" people. Most people worry, but for some, worrying is excessive, unrealistic, or overwhelming.

The Stress and Anxiety Disorders Institute in the Department of Psychology is conducting an ongoing research study which is designed to help people with generalized anxiety disorder.

You may be experiencing GAD if: you worry excessively or unrealistically or are overly anxious much of the time; you have experienced this excessive worrying or anxiety for at least six months; when worried or anxious you also experience physical symptoms such as trembling, muscle tension, restlessness; these concerns are not about having panic attacks.

Subjects (ages 18-65) included in the study will receive 14 free sessions of individual psychotherapy as well as assessments before and after the therapy period. They also will be asked to complete various questionnaires throughout treatment.

If you believe that you are experiencing GAD and would like to be considered for this program, please call (814) 865-1725.

Staff Exempt

Vincent R. Geier to financial services support coordinator at Hershey.

Gregory D. Goldsmith to programmer/analyst B in Management and Systems Engineering.

Diane S. Greenfield to DUS writer/adviser in Undergraduate Programs.

Nancy J. Kurtz to administrative assistant in Health and Human Development.

Earl N. Martin to supervisor, trades in Office of Physical Plant.

William A. Masullo to producer-director in Commonwealth Educational System.

Daniel T. Monthley to athletic trainer II in Intercollegiate Athletics.

Maria Nyvak-Mooney to laboratory safety and waste disposal specialist in University Safety.

Donald Richards to interlibrary lending supervisor in University Libraries.

Joseph M. Sindoni to program coordinator, Limerick Community Education Program in Engineering.

Ruth Ann Witmer to manager, general stores in Office of Business Services.

Promotions

Staff Non-Exempt

April M. DeGeorge to assistant extension agent in Agriculture.

Virginia Gilman to research aide in Science.

Peggy A. Hitz to administrative aide at Hershey.

John R. Horn to senior psychiatric clinic coordinator at Hershey.

Julius Lorinc to surgical technician at Hershey.

Monica L. Morgan to research technician at Hershey.

Tracy L. White to cardiovascular technician at Hershey.

Clerical

Ginger L. Bloom to accounting clerk in Corporate Controller's Office.

Donna L. Doerr to secretary C in Science.

Carol G. Erley to secretary A in Agriculture.

Judith A. Fenush to secretary B in Intercollegiate Athletics.

Judy A. Fitzgerald to secretary B in Agriculture.

Constance J. Francis to clerk A at McKeesport Campus.

Karen S. Kerstetter to secretary B at Capital College.

June M. Kochan to accounting clerk in Housing and Food Services.

Patricia L. Murnyack to secretary C in Housing and Food Services.

Patricia Notaromas to senior clerk, lending in University Libraries.

Amy J. Olenick to clerk, service desk in Office of Physical Plant.

Linda C. Plozner to control clerk B in Division of Development and University Relations.

Amy L. Pyle to secretary C in Agriculture.

Thomas R. Sheaffer to receptionist typist in Earth and Mineral Sciences.

Sharon J. Smith to clerk A, interlibrary lending in University Libraries.

Nancy C. Thomas to control clerk A in Academic Services.

Patricia J. Yackley to secretary B in Research and Graduate School.

University faculty and staff members receive awards

Humboldt award

Peter J. Webster, professor of meteorology, has received a Humboldt Research Award for Senior United States Scientists.

The award is sponsored by the Alexander von Humboldt Foundation of the Federal Republic of Germany and promotes scientific cooperation among research institutions in the United States and Germany.

Dr. Webster will spend part of a sabbatical leave at the University of Munich, where he will continue his research into the dynamics of low-frequency phenomena with emphasis on low-frequency climate variability in the tropics at a time-scale of weeks to years.

Dr. Webster, who also is chairman of the Tropical Ocean Global Atmosphere program's Scientific Steering Group, co-chief scientist of TOGA Coupled Ocean-Atmosphere Response Experiment and co-chairman of the TOGA COARE Science Working Group, is the recipient of a National Science Foundation Special Creativity Award from the Division of Atmospheric Sciences, Climate Dynamics Program.

NSF Creativity Awards are made "to especially creative scientists who have made significant contributions to their fields of research and who have strong potential for further creative and productive science."

Fayette Campus award

Harriet L. Galida and Jamie A. Onesi, the Academic Affairs Support Team at the Penn State Fayette Campus, have received this year's Campus Support Service Excellence Award. Purpose of the award is to encourage excellence in campus services to faculty, staff and students.

Ms. Galida, who has been at the campus 15 years, and Ms. Onesi, who has been a campus staff member for 13 years, both report to Nancy J. Treat, acting director of academic affairs. They each received a \$500 cash award and their Academic Support Team name will be listed on the Support Service plaque in the Eberly Building on the campus.

Harriet L. Galida

Personnel award

Rosalie Villanova, secretary at Penn State Great Valley, has received the 1989-90 Outstanding Office Personnel Award from the Penn State Chapter of Educational Office Personnel (PSEOP).

Ms. Villanova received a U.S. savings bond, certificate of recognition, and a one-year membership in PSEOP.

Also honored as finalists were secretaries Sheri Coval, formerly of the College of Business Administration at University Park, and Sandra Shellenberger, of the Penn State York Campus. Each received a certificate of recognition and a one-year membership in PSEOP.

PSEOP, which is open to employees classified as faculty, staff, nonexempt, clerical and technical service, is working toward increased recognition of educational office personnel by developing an awareness, both from within and outside the University community, of the high professional level of office personnel at Penn State.

Officers of the organization are Sharon Rolley, president; Jenny King, secretary, and Donna Schroyer, treasurer.

Pharmakon award

Richard N. Barshinger, associate professor of mathematics at the Penn State Worthington Scranton Campus, has received the 1990 Pharmakon Laboratories Award for Excellence in Scholarship.

The award was instituted in 1988 by Richard and Sally Matthews to annually recognize a member of the campus faculty for scholarly and research activities.

Dr. Barshinger received a bachelor of physics degree from Lebanon Valley College, masters degree in mathematics from Penn State, and Ph.D. in mathematical sciences from the State University of New York at Binghamton.

An innovative teacher of mathematics, Dr. Barshinger has been a pioneer in using microcomputers in the instruction of matrix algebra. Since joining the Worthington Scranton Campus faculty in 1970, he has developed several new courses and has received grants from Computer Based

Jamie A. Onesi

The Penn State Chapter of Educational Office Personnel honored, from left, Sheri Coval, Rosalie Villanova and Sandra Shellenberger. See story on this page.

Educational Laboratories and Penn State for various projects.

Elected to the New York Academy of Science in 1985, he is listed in the second edition of *Who's Who in Frontiers of Science and Technology*.

Teaching/advising award

John D. Baldon, associate professor of mathematics at the Penn State Worthington Scranton Campus, has received the 1990 Advisory Board Award for Excellence in Teaching and Advising.

The award was instituted last year to recognize a faculty member who has demonstrated innovative and dedicated teaching and advising techniques.

Dr. Baldon received a bachelor of science degree in mathematics from Lafayette College and master of science degree in mathematics from Rutgers University. He was awarded a Ph.D., also in mathematics, from the State University of New York at Binghamton.

He joined the campus faculty in 1970 as an instructor, was named assistant professor in 1971 and associate professor in 1976. Previously, he served as instructor at the State University of New York at Binghamton and at Rutgers University.

At Worthington Scranton, he has been active on campus committees, including commencement, academic affairs, and faculty affairs. He currently serves as a member of the University Faculty Senate.

Hazleton Campus award

Joseph M. Boyle, assistant professor of accounting at the Penn State Hazleton Campus, has received the first annual George T. Bobby Excellence in Academic Advising Award. His name will appear on a plaque that will be placed in the campus advising center.

The award to recognize excellence in student academic counseling has been established in memory of George T. Bobby, who until his death in August 1989 had been a professor of physical education at the Hazleton Campus. Professor Bobby's career with Penn State included many years of outstanding student academic counseling activities.

Professor Boyle joined the faculty in 1967. In addition to his responsibilities at the campus, he has presented lectures to the Hazleton Area Management Club, and conducts income tax workshops, mini-computer workshops, and management information systems programs. He is a past president of the campus Faculty General Assembly, and has been faculty adviser to the Circle K student organization.

Professor Boyle received his B.S. degree in accounting from Penn State, and holds an M.B.S. degree from the University of Scranton. He is a certified public accountant and a member of the Pennsylvania Institute of Public Accountants.

DuBois Campus award

Susanne R. Delaney, instructor in English at the Penn State DuBois Campus, has received the "Educator of the Year Award" from the DuBois Educational Foundation (DEF) the campus advisory board.

The award is given to an instructor at the campus who meets not only the requirements of educational excellence in the classroom, but also extends the teaching relationship with students beyond the classroom.

Ms. Delaney has been an instructor in English since fall 1969. In that time, she has taught not only the basic composition courses, but also comparative literature, as well as technical writing and many special topics courses.

She was the editor of the DuBois Campus Title III grant from the U.S. Department of Education. Through these efforts the campus received a grant totalling \$300,000-part of the money to be used to establish a computer instructional classroom. She taught sections of technical writing both day and evening and was willing to learn a new word processing program so she could pass that knowledge on to her students.

Ms. Delaney coordinates the Writing Across the Curriculum program for the campus.

She received her B.A. degree from Penn State and her M.A. in English and American literature and medieval languages from Cornell University.

Appointments

LaVerne Gyant has been appointed interim director of the Black Studies Program. A graduate of Cheyney State University, she received M.S. and Ed.D. degrees from Penn State.

Dr. Gyant has taught in the Black Studies Program since August, 1987, and has been responsible for developing new courses for the program. Her research interests are African-American women's studies, and the history, participation, and contribution of African-Americans to adult education.

She is a member of the American Association of Adult and Continuing Education, Association for the Study of Afro-American Life and History, and the National Council of Black Studies.

At the University she has served on the Resource Committee for the President's Committee on Recruitment and Retention, the Curriculum Integration Conference Planning Committee, and the Science, Technology, and Society Program Review Committee.

LaVerne Gyant

Clare M. Kristofco has been appointed assistant to the dean in the College of Engineering.

In this position, she writes and edits reports, studies and planning documents as well as researching and analyzing information and data for operational, policy and planning purposes.

A 1982 Penn State journalism graduate, Ms. Kristofco had been the promotions, community service and research manager of the *Centre Daily Times* since 1987.

At the CDT, she was city editor from 1984-87, assistant city editor from 1983-84 and the community news editor from 1982-83.

She is active in the Center County Women's Resource Center where she serves as newsletter editor and on the board. She is a member of Kappa Tau Alpha, the national journalism scholarship society.

Clare M. Kristofco

David J. Lieb has been named development officer in the Smeal College of Business Administration.

He joins the college after having served as a regional coordinator with the University's Office of Development, recruiting, training and coordinating volunteer alumni fund-raising committees in major metropolitan areas. In his new position, he will assist in the development of financial support for the Smeal College.

Prior his experience at Penn State, Mr. Lieb was a district executive in fund raising for the Boy Scouts of America. He holds a bachelor's degree from Indiana University of Pennsylvania and is pursuing a master's degree in higher education at Penn State.

Barbara M. Merritt has been appointed administrative assistant to the dean of the College of Engineering.

Barbara M. Merritt

Ms. Merritt has worked in various positions at Penn State since 1977, including secretary to the senior vice president for administration and to the Board of Trustees. She joined the College of Engineering in 1988 as secretary to the dean.

She is a member of the Penn State Advisory Committee, the Alumni Association and the Penn State Credit Committee, serving as secretary to that group from 1988-89.

A native of Kentucky, Ms. Merritt attended Kentucky State University and Western Kentucky University. She received an associate degree in letters, arts and sciences in 1986 from Penn State and currently is working on a bachelor's degree in public service.

Faculty/Staff Alerts

Smoking policy to be evaluated

The University's no-smoking policy has been in effect for over a year. Last spring, a group of faculty and staff, led by the Center for Workplace Health Enhancement, was asked to evaluate the impact of the policy on the work environment and Penn State employees.

Recently, a random sample of one-third of the faculty and staff at all Penn State locations was sent a questionnaire which will measure changes in smoking behavior and absenteeism as well as attitudes toward the policy and the workplace, and the use of stop-smoking programs as a result of the policy. The information from this survey will help identify strengths and weaknesses of the policy and make recommendations for improvements, if necessary.

Faculty and staff members who receive the questionnaire are asked to complete and return it by Sept. 21. All cooperation with this project is greatly appreciated.

Vietnam/disabled veterans

The University is a government contractor subject to Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974, as amended. This regulation requires government contractors to take affirmative action to employ and advance in employment qualified disabled veterans and veterans of the Vietnam era.

A "disabled veteran" is a person entitled to disability compensation under laws administered by the Veterans Administration, for disability rated at 30 per centum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in the line of duty.

A veteran of the Vietnam era is defined as someone who served on active duty for at least 180 days during the Vietnam crisis (between Aug. 5, 1964, and May 7, 1975), and qualifies for coverage during the first four years following discharge from the service.

If you are a disabled veteran or Vietnam veteran covered by these definitions and would like to be considered under the affirmative action program, please contact The Affirmative Action Office (863-0471).

The information requested is voluntary and will not be used to adversely affect the terms and conditions of your employment. It will be kept confidential, except that (1) supervisors and managers may be informed regarding restrictions on work duties and necessary accommodations, and (2) first aid personnel may be informed, when and to the extent appropriate, if the condition might require emergency treatment.

Parking fee

Faculty and staff members who park at University Park are reminded that the parking registration fee for center core parking lots and certain other lots will rise from \$8 to \$12 per month, effective this month.

Those who are paid monthly will see the

\$12 deduction in their September paychecks. Those who are on wage payroll or the regular biweekly payroll will see the new fee reflected in their Oct. 5 paychecks.

The parking registration fee for lots outside the center core, open lots and part-time lots will remain at \$8 per month. Anyone who parks in a center core or other lot affected by the fee increase may opt to move to an open or part-time lot. This option is available at any time by contacting the college or department parking chairperson or the University Parking Office at 863-0321.

Carpooler

Tim Williams is looking for one or two riders from the Philipsburg area to University Park for a vanpool. Work hours are 8 a.m. to 5 p.m. Call him after 6:30 p.m. at 342-3827.

Penn Staters

Howard G. Knuttgen, director of the Center for Sports Medicine, has been appointed chairman of the Program Committee for the 2nd World Congress of Sport Sciences to be held in Barcelona prior to the next Summer Olympic Games.

Richard Devon, associate professor of engineering, has been elected chair of the Liberal Education Division and program chair of the Engineering and Public Policy Division of the American Society for Engineering Education.

Joseph Goldberg, associate professor of industrial engineering, presented a paper titled "Orientation Perception in Farm Tractor Overturn: A Modeling and Simulation Approach" at the annual International Industrial Ergonomics and Safety Conference in Montreal, Canada.

Harold Groff, assistant professor of engineering, has been elected to the board of directors of the National Association of Radio and Telecommunications Engineers.

Catherine Harmonicosky, assistant professor of industrial engineering, spoke on "Laboratory Development in Industrial Engineering at Penn State" at the American Society for Engineering Education Conference in Toronto, Canada.

J. Cordell Hatch, professor of agricultural communications, currently on assignment in Pakistan with USAID, has received the "International Service Award" from Agricultural Communications in Education, global society of development and information specialists.

Sanjay Joshi, assistant professor of industrial engineering, presented a paper titled "Intelligent Control of FMS" at the International Conference on Modern Production Concepts-Theory and Applications in Hagen, Germany.

Soundar R. Kumara, assistant professor of industrial engineering, presented papers at the Council of the International Institute of Production Engineering Research Workshop at the University of Twente in Enschede, The Netherlands, and at the Council's 40th General Assembly in Berlin, Germany. Dr. Kumara also gave an invited talk at the Austrian Institute of Artificial Intelligence in Vienna, Austria.

El-Amine Lehtihet, assistant professor of industrial engineering, presented a paper titled "Statistical Models for the Relationship Between Production Errors and the Position Tolerance of a Hole" at the 40th CIRP General Assembly in Berlin, Germany.

H. Leroy Marlow, professor emeritus of management development, has been honored by the U.S. Small Business Administration for his more than 25 years of serving the small business community throughout the Commonwealth.

Deborah Medeiros, associate professor of industrial engineering, co-authored a paper she presented at the 1990 Japan-USA Symposium on Flexible Automation in Kyoto, Japan. The paper was titled "Tolerance Estimation for Linear Features: A Statistical Approach."

Richard A. Queeney, professor of engineering mechanics, presented a paper titled "Mechanical Behavior of Ceramic Reinforced High Speed Tool Steels" at the 1990 World Congress of Powder Metallurgy in London, England.

John D. Sink, campus executive officer at the Penn State Fayette Campus, has received the Active Legion of Honor from the International Supreme Council, Order of DeMolay, for his leadership in higher education and dedicated service to DeMolay.

Joseph J. Trautlein, medical director of Healthpass PPA and associate professor of medicine at the Hershey Medical Center, has been elected second vice president of the American Board of Quality Assurance and Utilization Review Physicians. He also was board certified by the organization.

Richard E. Tressler, professor of materials science and engineering and director of the Center for Advanced Materials, presented the opening invited lecture in the symposium on "Advanced Structural Inorganic Composites" at the 7th CIMTEC World Congress on Ceramics in Montecatini Terme, Italy.

Stephen R. Turns, professor of mechanical engineering, presented a paper at the international 1990 Workshop on NOx Formation Mechanisms in Natural Gas Flames at the Chateau D'Esclmont, St. Symphonie-le-Chateau, France.

Stephen J. Benkovic, Evan Pugh professor of chemistry and holder of the Eberly Chair in Chemistry, has been selected as a Wellcome Visiting Professor in Biochemistry. The highly competitive award, sponsored by the Burroughs Wellcome Fund, allows medical schools, universities, and other scientific research institutions within the United States to host a Wellcome Visiting Professor at their institution.

Peter J. Dean, assistant professor at Penn State Great Valley, discussed the competencies of instructional and performance technology at the First

Australasian Regional Conference of the National Society for Performance and Instruction in Sydney, Australia.

Robert O. Herrmann, professor of agricultural economics, presented a paper, "The Involvement-Information Search Relationship under High and Low Time Pressure," at the 23rd International Conference of Applied Psychology in Kyoto, Japan.

Austin J. Jaffe, professor of business administration, presented a paper titled "Contracting for Housing, Mortgage Default and Mortgage Foreclosure Moratoria" at the International Housing Research Conference in Paris.

Robert LaPorte Jr., professor of public administration, spoke on "Agriculture Development in Pakistan: The Challenges in Establishing New Government-Business Relationships" at the Seminar on Agriculture Development in Pakistan. The seminar was sponsored by the Ministry of Industries, Government in Pakistan, and the U.S. Agency for International Development in Islamabad.

Donna S. Queeney, director of the Division of Planning Studies, has been invited to serve as one of six national resource persons for a two-year project of the U.S. Department of Education's Higher Education and Adult Learning Division/Office for Educational Research and Improvement.

Gerhard F. Strasser, associate professor of German and comparative literature, presented a paper on the "The 17th Century Emblematic Teaching Method" in the section on "The Emblem and Teaching" at the Glasgow International Emblem Conference at Glasgow, Scotland.

Joan S. Thomson, coordinator for staff development in the College of Agriculture and assistant professor of rural sociology, has been elected to the board of directors of the American Home Economics Association.

John E. Tyworth, associate professor of business logistics, and William L. Grenoble IV, doctoral candidate, are the authors of "Spreadsheet Modeling in Logistics: Advancing Today's Educational Tools," which has been selected as the E. Grosvener Plowman Award Winning Paper for the 1990 Transportation and Logistics Educators Conference.

Rami Zwick, assistant professor of marketing, presented a paper on "Response Mode and Payoff Effects on Probabilistic Judgments That a Statement is Correct" at the ninth annual meeting

of the Fuzzy Information Processing Society at the University of Toronto.

Michael Moore, associate professor of education, was one of four United States educators who gave keynote addresses at the International Congress on Managing Human Capacity in the 21st Century, at the University of Helsinki, Finland.

Jerry C. Olson, professor and chairman of marketing, presented a paper titled "The Relationship Between Means-End Chains and Product Involvement" at the annual conference of the European Marketing Academy in Innsbruck, Austria.

Terry Ebertson, professor of animal nutrition, has received the 1990 Research in Animal Growth and Development Award from the American Society of Animal Science for his development of a research program in endocrine regulation and animal growth as well as his research on the effects of porcine growth hormone on pigs.

Juan Fernandez-Jimenez, associate professor of Spanish at Penn State Erie, The Behrend College, presented a paper on "Trajectory y proyeccion futura de Cuadernos de ALDEEU" at the international meeting of the Association of Spanish Professionals in America in San Juan, Puerto Rico.

Edwin Masteller, professor of biology, and **Larry Eckroat**, associate professor of biology, both at Penn State Erie, The Behrend College, have been awarded a grant to gather baseline data on various characteristics of zebra mussels, the new scourge of the Great Lakes.

Robert E. Newnham, Alcoa professor of solid state science at the Materials Research Laboratory, was an invited speaker at an international conference on "The Chemistry of Electronic Ceramic Materials" sponsored by the National Institute of Standards of Technology and the Office of Naval Research.

Joe Schall, technical writing tutor for the College of Earth and Mineral Sciences, has won the 1990 Elmer Holmes Bobst Award in Fiction for his collection of short stories, "Indentation and Other Stories." The collection will be published by the New York University Press in early 1991.

Jim Seroka, professor of political science at Penn State Erie, The Behrend College, presented a paper on "Political Fragmentation, Legitimacy and Constitutional Reform in Yugoslavia" at the fourth World Congress of Soviet and East European Studies in Harrogate, England.

News in Brief

Merleau-Ponty conference

The 15th annual Conference of the Merleau-Ponty Circle is being held at the Keller Conference Center, University Park, today through Saturday.

Topics to be discussed include Merleau-Ponty and postmodernism, Lyotard, Derrida, Mead, causal representation theory, the unity of being, the behavior of structure and the phenomenology of risk.

Véronique M. Foti, assistant professor of philosophy, is program director of the conference, which is sponsored by the College of the Liberal Arts. Call the conference center at 863-2035 for more information.

Graduate study abroad grants

All graduate students and graduating seniors who are interested in applying for Fulbright and other grants for graduate study abroad in 1991-92, should see Elizabeth B. Smith, University Fulbright Program adviser, in the University Office of International Programs, 222 Boucke Building, or phone 865-7081. Campus deadline for applications is Sept. 28.

Hazleton panel discussion

A panel discussion on "Nationalism, Perestroika and Political Reform" will be held at 7:30 p.m. Wednesday, Sept. 26, in Room K-1 of the Kostos Classroom Building at the Penn State Hazleton Campus.

Panelists will include Trond Gilberg, head of the Department of Political Science; Eugene Miller, associate professor of history at the Hazleton Campus; Eugene S. Rubin, bilateral relations officer at the U.S. Department of State Office of Soviet Affairs, and a representative of the Soviet news agency Ivestia.

Institute receives grant

The Institute for the Study of Adult Literacy has received a \$25,000 grant from the Pennsylvania Department of Education to develop a model family literacy program. Project staff will develop the program in coordination with Mid-State Literacy Council and Schlow Library.

The model family literacy program will involve parents in a basic skills program designed both to increase their basic skills and to increase their involvement in their children's

education. Increased parent involvement is expected to improve their children's level of school success.

Basic movement skills

The College of Health and Human Development will offer a free program in basic movement skills and games for children ages 5 through 8, beginning Oct. 9.

The program will be held in Room 126 White Building at University Park from 3:45 to 4:30 p.m. Tuesdays, through Nov. 13. Registration is scheduled for 3:45 p.m. on Oct. 9 in Room 126 White Building.

NIH grants

The National Institutes of Health have granted \$335,000 to the College of Agriculture and the Eberly College of Science for the purchase of a transmission electron microscope to be used by investigators, postdoctoral researchers and students who are investigating the structure and function of isolated proteins and various aspects of cell biology.

The microscope will be computerized so researchers can store images and then reconstruct them in three dimensions. It

will be housed in the new electron microscope laboratory in South Frear Building, which is an intercollegiate effort to provide a first-class facility to serve life scientists.

Reactor gets grants

The U.S. Department of Energy has awarded \$72,800 to the Breazeale Reactor at University Park. The grant will be used to purchase a reactor bridge and neutron beam laboratory change to provide for the lateral and rotational positioning of the core and an additional power monitor to provide power monitoring and backup for the existing monitor.

A part of a DOE funding program for university research reactor equipment upgrades, the Penn State grant was the second largest award given and contributes to an on-going project to modernize the Breazeale Reactor.

Another major modernization activity at the reactor is the installation of a state-of-the-art reactor control and safety system through a \$300,000 Philadelphia Electric Co. grant and a Ben Franklin Partnering Program \$90,000 matching grant.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION 863-0304 NETWORK LINE 433-0044. Applications for these staff vacancies will be accepted until Sept. 20. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment practices (PS 1) and in compliance with the University's

Alternative Action Compliance Program without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

***00936. Division of Constituent Relations, Development and University Relations, Constituent Relations, University Park Campus** - Responsible to the executive director of constituent relations for the management and coordination of constituent relations programs including stewardship acknowledgements and donor relations. Requires bachelor's degree, or equivalent in communications, marketing, or a

related field, plus four to five years of effective experience. STAFF GRADE 6

***00937. Coordinator, Campus Residential Life, Residential Life, Hazleton Campus** - Responsible for carrying out specific responsibilities in the area of residential life and for assuming full responsibility for assigned residence hall areas in the absence of the supervisor. Requires bachelor's degree, or equivalent, plus at least one to two years of effective experience or a master's degree or equivalent in student personnel or related field with three to six months of residence hall experience.

THIS IS A CONTINUING, 10-MONTH LIVE-IN POSITION. STAFF GRADE 6

***00938. Program Specialist, Schuylkill Campus** - Responsible to the advising/counseling assistant for the implementation and coordination of the various functions specified within the TVT/Vocational Education Grant - Thinking Non-Traditionally: Advancing Opportunities. Requires bachelor's degree, or equivalent, plus over one and up to two years of effective experience in areas such as placement, admissions, education, etc. THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991. STAFF GRADE 5

***00939. Instructional Services and Telecommunications Assistant, Academic Affairs, Wilkes-Barre Campus** - Evaluate and diagnose telecommunications, audio-visual and computer terminal equipment problems and recommend appropriate repair facilities and actions, instruct and provide basic assistance to students, faculty and staff in the operation of equipment. Requires associate degree, or equivalent, in electronics, instructional media, telecommunications or related field plus one to two years of effective experience. STAFF GRADE 4

Renaissance Fund honors 'Mimi' Coppersmith Fredman

Advertising executive and community leader Marian 'Mimi' Coppersmith Fredman will be honored at the 14th annual Renaissance Scholarship Fund dinner at 7 p.m. Wednesday, Nov. 7, at the Elks Country Club in Boalsburg.

Proceeds from the dinner will benefit financially needy students who have outstanding academic potential.

"Mimi had the original idea of using proceeds of the Renaissance Dinner to endow scholarships," Barbara Palmer, president of the Renaissance Fund's board of directors, said. "Since 1976, the dinners have raised more than \$200,000. It's now Mimi's turn to receive recognition."

From its inception in 1967, the fund received more than \$16 million in gifts and has supported more than 700 different students. There currently are 131 Renaissance Scholars. Gifts received

through events such as the annual Renaissance Dinners are applied to an endowment fund.

"Of all the things I do, the Renaissance Fund is the one that has the most meaning," said Mrs. Coppersmith Fredman who also is a past president of the Renaissance Fund's board of directors. "It impacts on future generations and, in large part, is what Penn State is all about."

A native of Kingston, Marian Ungar was the fourth of five children of an immigrant couple who operated a grocery store in Wilkes-Barre. As an undergraduate at Penn State she was editorial director of *The Daily Collegian*, won a national debating championship, was elected to Ceres Mortar Board and other honoraries, and graduated in 1953 with honors.

She married Sy Barash in 1954 and became partners for four years in an

advertising business with State College businessman Sidney Friedman. In 1959 she and her husband opened their own ad agency and billboard company, The Barash Group, directed by Mrs. Coppersmith Fredman since Mr. Barash's death from cancer in 1975. Now employs 60 people and has offices in State College, Altoona, Johnstown and Philadelphia.

In cooperation with Beta Sigma Beta she helped to establish the Sy Barash Regatta to benefit the American Cancer Society and to honor her husband's memory. The Regatta is now the second-largest student fund raising event at Penn State.

She and her husband, W. Louis Coppersmith, were, until his death in 1980, active in Penn State's successful efforts to fund a chair in Jewish studies. In 1980 she married Samuel G. Fredman, a Penn State

United Way named major charitable fund-raising agency

United Way has again been designated as the one major voluntary community charitable fund-raising agency at University campuses.

As outlined in official University policy (AD-6) the president of the University annually authorizes one major voluntary fund-raising effort for which contributions may be made through direct giving or payroll deduction. This authorization also includes the use of University mail for information. It is estimated that more than 75 percent of employees who contribute to United Way do so through

payroll deduction.

In announcing United Way as the chosen charitable organization, President Thomas said, "United Way organizations support many agencies whose services

fit the needs of the communities in which they're located. When we consider that Penn State campuses are located in 22 areas around the state, it is fitting that we chose United Way. These agencies help Penn State employees and their neighbors."

Again, Dr. Thomas says, agencies seeking United Way support apply and are reviewed by volunteer citizens, many of whom are Penn State's in the community where they are located. Allocations to member agencies are made in the same manner.

Not all charitable organizations are

involved in United Way. For example, several of the larger and nationally operated fund raising drives solicit funds on their own. Your local United Way or campus chairperson can tell you the names of the agencies funded in your area and provide the names of persons serving on the allocations committees and agency boards.

United Way campaigns are traditionally conducted each fall. University campaigns are conducted in cooperation with local agencies and times may vary. Employees choosing

Please see 'United Way' on page 3.

President Thomas addresses University Faculty Senate

In his first address to the University Faculty Senate on Sept. 11, President Thomas declared his eagerness to begin a productive and close working relationship with the Senate.

Also on the Senate agenda were informational reports on employee benefits, changes to Senate policies relating to Big 10 requirements, and the history and current status of Pennsylvania College of Technology.

President Thomas discussed his previous experience with faculty senates, noting that he helped to form the senate at the University of Alabama and served as its second chairperson before being appointed a dean.

Among Penn State's strengths, he said, is "the extent to

which the faculty are involved in University affairs."

He commended the Senate for its efforts in revising the general education program and for its work on establishing a cultural diversity course requirement, as well as its demonstrated commitment to undergraduate teaching.

Teaching, he said, is a special concern of his.

"My experience in the classroom was both enjoyable and revealing. I found that it is much more difficult today to maintain standards in the classroom due to the decline of standards in society compared to 15 to 18 years ago."

He added that the quality of teaching will be a major issue in higher education, noting that the evaluation and rating of universities has remained tied to research,

resulting in some disquieting between teaching and research.

"I believe strongly that these two missions are compatible, that they can be compatible."

"I look forward to working with the Senate to realize the full benefits of this University," President Thomas said.

In other Senate action:

—George W. Franz, chair, Joint Committee on Insurance and Benefits, presented the committee's annual report.

As part of the presentation, Billie Willis, assistant vice president for human resources, discussed employee benefits.

Please see 'President Thomas' on page 3.

Focus on Diversity

Children's program

A World Summit for Children program will be held from 6 to 8 p.m. Sunday, Sept. 23, in the Hetzel Union Building Ballroom at University Park.

Sponsored in part by the University Office of International Programs, the summit will involve student groups, religious leaders and citizens in a candlelight vigil and program to urge world leaders to make children's needs a top priority and to participate in the World Summit for Children set for Sept. 29 and 30 at the United Nations.

Speakers for the program are Arnel Addison, State College mayor; Lynn Herman, state representative; and other local leaders. Activities include the opportunity for children and adults to write letters to George Bush, Robert Casey and other officials urging them to make children's needs a national priority; performances by the State College Children's Peace Choir, a local children's Bell Choir, and students from Park Forest Elementary School; and a 15-minute candlelight vigil.

For more information, contact Irène Halkias at 237-0872.

Thirteen high school students interested in journalism careers attended Penn State's High School Journalism Workshop for Minorities this summer at University Park. During the annual workshop, sponsored by the School of Communications, Dow Jones Newspaper Fund, and five Pennsylvania daily newspapers, the students produced a newspaper, "Inner Voice." Diversity Calendar

Thursday, Sept. 20

Office of Minority Faculty Development, 9 to 9 p.m., Paul Robeson Cultural Center. Informal faculty gathering for casual networking.

Saturday, Sept. 22

Office of Minority Faculty Development, 9 a.m. to noon, 101 Kern Graduate Building. Harold Cheatham will discuss promotion and tenure in the first in a series of minority faculty development workshops this semester. For reservations, contact Leah Witzig at 863-1003.

Tuesday, Sept. 25

Project Growth and Penn State International Dancers, 8 to 9 p.m., 133 White Building. "International Dance: A Celebration of Culture Around the World."

Wednesday, Sept. 26

Center for Women Studies, 8 p.m., HUB Gallery. Lucy Lippard on "Toward A Post-Columbian World: New Art in a Multi-Cultural World."

Professional Women at Penn State is new group

A new group, Professional Women at Penn State (PWPS) has been formed at the University. PWPS will hold a brown bag lunch meeting Tuesday, Sept. 25, in the Frizzell Room in Eisenhower Chapel at University Park.

The open-agenda meeting will begin at 11:45 a.m., and impromptu discussions will start at 12:10 p.m.

The group's statement of purpose is: "The purpose of Professional Women at Penn State is to provide a setting within the University community in which women at Penn State can develop and maintain a communications network with other Penn

State women across professional and occupational lines to supplement existing information and support networks; and serve as a resource for other Penn State women by discussing a variety of topics of mutual interest and by maintaining contacts to share information, advice and moral support."

PWPS meetings are held on the last working Tuesday of each month from 11:45 a.m. to 1 p.m. and feature informal networking and a presentation by a guest speaker. Every third meeting will be an open-agenda program consisting of

impromptu discussions on topics suggested by participants.

Activities of the group are organized by a Coordinating Council, made up of 10 people from various backgrounds. The Coordinating Council for 1990/91 is composed of Marcia Haluga, chair; Barbara Kennedy, chair-elect; Robin Anderson, Norma Bayler, Lisa Davis, Candace Davison, Ann Harpster, Donna Schroyer, Cheryl Stroud and Bridget Stemberger.

According to Ms. Haluga, the group will be addressing critical and timely issues of

interest to all women at Penn State, regardless of their classification.

"The information gained from these meetings and the opportunity to network with women holding similar jobs, or with women holding the types of jobs to which you may aspire, will be most beneficial," she said.

Details of monthly meetings will be published in the "News in Brief" and the "University Calendar" sections of the *Penn State Interim*. For more information on the group, call Ms. Haluga at 865-7659 or Ms. Kennedy at 863-4082 or contact any other member of the Coordinating Council.

Feminist scholar

Feminist scholar Lucy Lippard will lecture on "Toward a Post-Columbian World: New Art in a Multi-Cultural World" at 8 p.m. Wednesday, Sept. 26, in the Hetzel Union Building Gallery at University Park.

An artist critic and author of 14 books on contemporary art, she is a distinguished visiting professor at the University of Colorado Boulder and a member of the Alliance for Cultural Diversity and the National Committee for a Post-Columbian World.

Her visit is part of the Women's Studies Center Sex Feminist Scholars Lecture Series and is co-sponsored by the Center for Women Studies.

Ms. Lippard also will hold an informal question-and-answer session for faculty and students at 3:30 p.m. in Palmer Museum of Art.

WPSX-TV highlights programs

Jesse Jackson's Operation Push is demanding that Nike put millions of dollars into black business. But many blacks want to know how the money would be dispersed if Bush's boycott against the shoe manufacturer is successful. Find out more in "Push vs. Nike: Where's the Beef?" on *Time*

Weekend. Journal airing at 11:30 a.m. Sunday, Sept. 23, on WPSX-TV.

Part two of *Winds of Change* will air at 1:30 p.m. Saturday, Sept. 22. The program examines the tangible and intangible forces that threaten the sovereignty and identity of America's indigenous Indian nations.

Carpoolers

Sharon would like to carpool from Millheim to University Park. Her work hours are 8 a.m. to 5 p.m. Call 863-2083 or 349-8843.

Lisa would like to carpool from Lewistown to University Park. Her work hours are 7:30 a.m. to 4:30 p.m. Call 863-3250.

Eric wants to carpool with a nonsmoker from Bellwood to University Park. His work hours are 7:30 a.m. to 4:30 p.m. Monday through Friday. Call 865-3405.

Don Stewart is looking for riders for his vanpool from the Tyrone area. Work hours

are 8 a.m. to 5 p.m. Call 865-1040 or 084-4868.

Jay would like to carpool on Monday, Tuesday and Wednesday only from Philipsburg to University Park. His work hours are 8 a.m. to 4:30 p.m. Call 865-0800 or 342-2549.

Bookshelf

Thomas A. Hale, professor of African, French and comparative literature, is the author of *Scribe, Griot, and Novelist: Narrative Interpreters of the Songhay Empire*, published in April by the University of Florida Press.

Dr. Hale, a specialist in African literature, compares three kinds of narratives about West Africa's largest empire. Based in Gao, a city in eastern Mali, Songhay expanded rapidly in the late 15th century and reached its peak during Askia Mohammed's reign from 1493 to 1528 before going into decline in the 16th century. Information about the empire appears in two long chronicles written in Arabic by Africans from Timbuktu who served the rulers and their descendants.

Dr. Hale contrasts the detailed portrayal penned by these scribes with the shorter and more symbolic interpretation of the past recounted in an oral epic he recorded in Niger in 1980-81 from the Songhay griot, or bard, Nhouhou Malio. He then shows how the Malian author Yambo Ouologuem draws on these earlier narrative forms for *Bond to Violence*, a highly original novel that challenges the religious and social values displayed by the scribes and griots.

Penn State People

Barbara Rodrock

For the last 18 years, Barbara Rodrock has been secretary to the Penn State Berks Campus' campus executive office. She has served in this role during the tenures of Harold W. Perkins and, most recently, Frederick H. Gaige. Previously, she worked in the regional offices of Continuing Education and development of the campus, as well as with the resident instruction program. "My work is very interesting and very varied," she says. "I do a lot of work with the community, through the Berks Campus Advisory Board, and help with special events." She also handles correspondence and the budget. Next June, she plans to retire after 24 years of service at the campus. (Photo: Greg Grieco)

United Way

graduate and justice of the New York Supreme Court.

In 1970, she was elected to the Penn State Board of Trustees and is serving her third term as vice president. She was named 1981 Small Businessperson of the Year in Pennsylvania and will be honored in November by Gov. Robert Casey as a Distinguished Daughter of Pennsylvania.

She received the Service to Society award from the College of the Liberal Arts and Penn State's Lion's Paw Medal. A life member of the Alumni Association, she served on Penn State's Alumnae Days steering committee and is a member of the Alumni Communications Advisory Board, the Development Council and the National Campaign Committee of the Campaign for Penn State.

Her past board memberships include Pennsylvania Humanities Council,

Pennsylvania Commission for Women and the Centre County Community Foundation. She has been a member of the Board of the Pennsylvania Chamber of Business and Industry since 1975 and serves on the board of Pennsylvania Centre Stage and the Allegheny Highlands Regional Theatre.

For more information or reservations for the dinner, call the Office of Annual Giving at 814/41-2052 or stop by the office at 17 Old Main.

President Thomas

Continued from page 1.

Among the changes taking place on Jan. 1, 1991 are increases to employee contributions for health coverage, which were announced during the summer, the option of voluntary participation in health coverage and the addition of managed care.

Employee contributions for medical coverage, for example, will rise to \$9.25 for employee-only coverage, \$15.50 for employee and spouse or children, and \$22 for employee, spouse and children. These rates are scheduled to increase in 1992 and 1993, as well.

Healthcare costs are expected to increase by more than 20 percent a year, Dr. Willis said.

In January, additional benefits will become available, including an increase in maximum lifetime health coverage from \$400,000 to \$500,000, coverage for mammograms and improvements in dental and vision coverage.

The basic dental coverage will go up from \$500 to \$1,000, and orthodonture coverage will go up from \$1,000 to \$1,250.

There will be minimal improvements to the vision plan including increases for eye exams from \$30 to \$40, lenses from \$30-\$45 to \$35-\$50, frames from \$25-\$30 to \$30 and contacts, up to \$50 coverage.

Employees also will be able to choose what type of coverage they want beginning Jan. 1. The choices are: no coverage (proof of insurability is required), medical only, dental and vision only, or medical/dental/vision.

Managed care, which already is available to Healthpass participants, will become available to those with Plans A and B. This process involves calling an 800-telephone number to discuss nonemergency and emergency medical care involving hospital admission with a team of physicians and nurses.

In addition, employees will have the opportunity to join or change existing participation in the University's flexible benefits program. Three options permit an employee to shelter a portion of salary from federal taxes to pay for

IRS-approved expenses. The options are life insurance coverage, medical reimbursement and dependent care coverage.

People will have to educate themselves about these changes, Dr. Willis said. The Office of Human Resources will be providing information to all employees about upcoming changes and options.

John J. Coyle, NCAA faculty representative, presented his annual report on student-athletes and reported on a comparison of Penn State and Big 10 academic requirements. He noted that the University's standards are higher than the Big 10's minimum requirements. Some modifications to Senate rules governing academic requirements, however, will be needed to make the University's standards consistent with the Big 10's, he said.

Richard E. Grubb, senior vice president and dean for the Commonwealth Educational System, and C. Gregory Knight, vice provost and dean for undergraduate education, reported on the status of Pennsylvania College of Technology for the Committee on External Affairs.

Focus on the arts

Odyssey on WPSU

On "Jettison in Transylvania," the next episode of "Odyssey Through Literature," Eniko Molnar Bosa of the Library of Congress introduces host Leonard Rubinstein to the book *Jettison in North America* published in 1834 by the Hungarian writer Sandor Boloni Farkas. In 1984 Farkas's book was reprinted with the editor's comment that "it tends to be republished at crucial times."

Anyone writing a political history of Transylvania would have to take into account the impact of Farkas's book. Ms. Bosa says, "He quotes the Declaration of Independence in the book in its entirety," she explains, "and he says in his travel diary, that he feels that his book is really just a framework for the 'Declaration of Independence.'"

So he did have an ulterior motive. The sentiments were things he would like to see implemented - but he was only reporting. Hungary at the time suffered under an oppressive autocracy, and writing was strictly censored.

Odyssey Through Literature is produced by the Department of Comparative Literature and airs Wednesdays at 12:30 p.m. on WPSU. ☐ 1 FM

Rhetoric lecture

The Classical Rhetoric Lecture Series opens with "Science and Religion in 18th Century Theories of Rhetoric" by Lloyd F. Bitzer, past chair of the Department of Communication Arts at University of Wisconsin from 4:30 to 6 p.m. today in 111 Chambers.

The lecture is open to the public and will be followed by a public reception in 12 Sparks. The series is part of the Speech Communication Colloquium.

Dr. Bitzer is internationally recognized as an authority on 18th century rhetorical theory. He is author or co-author of three books and numerous book chapters and scholarly articles on the theory and practice of rhetoric.

Exhibit in Europe

A painting from the permanent collection of the Palmer Museum of Art currently is on display in Europe through Nov. 4. "Portrait of Madame de M..." by post-Impressionist painter Emile Bernard is the first painting from the museum's collection to be borrowed for an exhibition abroad.

It currently is on exhibit at the Van Gogh Museum in Amsterdam, part of a Bernad exhibition that includes 17 paintings, tapestries and wood carvings. The exhibition was shown this spring at Städtische Kunsthallen in Mannheim, Germany.

Saturday art school

The Saturday Morning Art School, sponsored by the School of Visual Arts, is now taking registration for fall classes to be held at University Park Campus.

Brochures including class listings and a registration form are available at the Art Education Office, 200 Arts Cottage. Registration also will be accepted by phone Monday through Friday from 9 a.m. to 4 p.m., at 865-6570.

Classes will start on Saturday, Oct. 6, and run through mid-December, meeting every Saturday, from 9 to 11 a.m.

Ten different courses are being offered, including drawing and painting, sculpture and ceramics, a class for creative young artists and museum and gallery instruction. Classes are designed for children age 5 and up, with additional classes for the parents of participating students.

Pattee exhibit

New works by Susan C. Struble currently are on display through Oct. 6 in the Lending Services Gallery of the Pattee Library at University Park. The show titled "The Figure: Recent Works on Paper" features watercolor paintings of various figures. Her works are based on realism, but incorporate abstract elements.

Ms. Struble received her formal art training from Carleton College and Penn State.

Faculty authors

On Sept. 21, the Penn State Bookstore on campus will host three faculty authors as a part of its Featured Authors Series for fall 1990.

Charles D. Ameringer, head of the Department of History, will conduct a booksigning from noon to 2 p.m. to introduce his new book *U.S. Foreign Intelligence: The Secret Side of American History* (Lexington Books, 1990).

Harold E. Cheatham, professor of education, and James B. Stewart, vice provost for underrepresented groups, will participate in a booksigning from 3 to 5 p.m. for their book *Black Families, Interdisciplinary Perspectives* (Transaction Publishers, 1990).

A 20-percent discount will be offered on both books during the booksignings.

Clarinetist to perform

Clarinetist Richard Stoltzman will appear in concert at 8 p.m. Friday Oct. 5 in Eisenhower Auditorium at University Park.

His program, "Rhapsodies, Fantasies and Songs," includes selections by Debussy, Gershwin, Leonard Bernstein, Stevie Wonder and others and is presented by the Center for Performing Arts. He will be accompanied by pianist Irma Valicchio and guest artist Nancy Allen, who plays harp. The program also will include the world premiere of "Nightpieces," a sonata for clarinet and piano written by Pennsylvania composer Timothy Greathatch.

Before the performance as part of the lecture series "Artistic Viewpoints," the audience is invited to a discussion with Composer Greathatch and Smith Toubson, clarinetist and associate professor of music at Penn State.

The arts on Channel 3

Pianist Andre Previn and clarinetist Eddie Daniels swing the night away when they share the stage with John Williams and the Boston Pops Orchestra on *Evening at Pops* airing at 9 p.m. Friday, Sept. 21.

Mr. Previn, equally adept at classical and jazz styles, takes the piano solo in the first movement of George Gershwin's jazz-influenced "Concerto in F." Veteran jazzman Daniels cooks through Benny Goodman's theme song "Let's Dance" and, dipping into the classical repertoire, spins out variations on C.P.E. Bach's *Solfeggietto*.

The Boston Pops Orchestra wraps up the evening with a tribute to the Broadway choreographer Jerome Robbins in a medley of songs from "West Side Story," "Fiddler on the Roof" and "Gypsy."

Chamber music

A chamber music recital featuring Carl Blake, piano; Barbara Hess, vocalist; and Evelynynn Ellis, clarinet, will be held at 4 p.m. Sunday, Sept. 23, in the Music Building Recital Hall at University Park.

The program will feature Robert Schumann's "Fantasy Pieces," Op. 73, for clarinet and piano, and "Liederkreis," for voice and piano, as well as "Piano Sonata" No. 30 in E major by Beethoven and Franz Schubert's "The Shepherd on the Rock" for voice, clarinet and piano.

Mr. Blake is assistant professor of music and assistant dean for recruitment and retention in the College of Arts and Architecture. Ms. Hess, originally from Austria, is a trained mezzo-soprano now living in State College. Ms. Ellis has a bachelor of music degree from Concordia College and a master of music from Penn State.

Lecture on Berlin

Eckart D. Strauchenschneid, head of the Film Department in the Berlin Press and Information Office, will present a lecture on the past, present and future of the former capital of imperial and Nazi Germany at 4 p.m. Monday, Sept. 24, in 101 Kern at University Park.

His lecture is sponsored by the Department of German.

Organ recital

Jane Miller, a faculty member in the School of Music, will give an organ recital at 8 p.m. Monday, Sept. 24, in the Music Building Recital Hall at University Park.

The recital will include selections by American, French and German composers and feature two suites written for the organ.

Lecture series

Natasha Staller of Harvard University will give the lecture titled "Babel: Hermetic Languages, Universal Languages and Anti-languages in fin-de-siecle Parisian Culture" at 8 p.m. Tuesday, Sept. 25, in Room 112 Walker Building at University Park.

The lecture is part of the "Art of Interpreting" lecture series, sponsored by the Department of Art History and the Institute for the Arts and Humanistic Studies.

'Emigre Voices'

Jonathan Brent, founding editor of *Formations*, a leading journal of emigre literature, will speak at 8 p.m. Tuesday, Sept. 25, in 112 Kern at University Park.

An English teacher at Northwestern University for the past 10 years, he will present an overview of emigre writing in the United States. He has been editor of the literary journal *TriQuarterly*.

Lecture in German

Armin Paul Frank, professor of English (American literature) at the University of Göttingen, Germany, and founding director of the Nationally Endowed Center for the Study of Literary Translation (Sonderforschungsbereich: "Die literarische Übersetzung") will present a lecture (in German) at 8 p.m. Tuesday, Sept. 25, in 124 Sparks Building at University Park.

He will talk about the birth and significance of anthologies of world literature which were very popular in 19th century Germany.

His lecture is sponsored by the Department of German.

See more arts stories on page 7.

The arts at...

Penn State Harrisburg

European artist Klaus Grotzka will exhibit his art works of the changing industrial landscapes in America in the Gallery Lounge at Penn State Harrisburg from Sept. 24 to Oct. 26. His paintings and drawings depict a wide variety of technical structures from towering blast furnaces to powerful diesel engines.

Born in Germany, the son of an artist, Mr. Grotzka attended art school in Keil, North Germany, where he developed an

absorbing interest in painting the intricate man-made world of industry and machinery.

In 1961 he moved to the United States and for the next 20 years he worked for industrial companies, painting on assignment in many parts of the country. He has had successful exhibits in New York, New Jersey and Pennsylvania and has taught at the Du Cret School of Art in New Jersey and the Hill School in Pottstown, Pa.

September 20--
September 30

Special Events

Thursday, September 20

■ Brown Bag Lunch/11:10-12:04 p.m.
Palmer Museum of Art, *L'Amour du Vin*.
Bach's Lunch Concert, 12:10-12:30 p.m.
Eisenhower Chapel, University Brass.
Classical Rhetoric Lecture Series, 4:30-5 p.m., 111
Chambers. Lloyd F. Bitzer, Univ. of Wisconsin
on "Science and Religion in 18th Century
Theories of Rhetoric."
Shaver's Creek, 7:30-8:30 p.m., Halloween Trail
meeting for volunteers. Call 863-2000

Friday, September 21

Commission for Women, meeting, 10 a.m.-noon
101 Health and Human Dev. Bldg. East.
Geog. Coffee Hour, 4 p.m., 319 Walker
Norman Thrower, UCLA, on "Maps and the
Columbian Encounter."
Shaver's Creek, 7:30 p.m., Owl Prowl. Call 863-
2000

Saturday, September 22

Horticulture Show, 9 a.m.-5 p.m., Ag Arena.
Also Sept. 23

Shaver's Creek, 1-4 p.m., View from the
Grasslands. Call 863-2000.

Sunday, September 23

School of Music, 4 p.m., Recital Hall. Carl Blake,
piano

Monday, September 24

Comp. Lit. Luncheon, 12:15 p.m., 101 Kern
Jonathan Brent, Northwestern Univ.
■ German Dept. lecture, 4 p.m., 101 Kern
Eckart D. Strauchschulte, Senat Berlin, on
"Berlin, Past, Present and Future."
School of Music, 8 p.m., Recital Hall. June
Miller, organ.
■ German Dept. film, 8 p.m., 112 Chambers
Soud. Hall

Tuesday, September 25

Professional Women at Penn State, meeting
11:45 a.m.-1 p.m., Frizzell Room, Eisenhower
Chapel

■ German Dept. lecture (in German), 8 p.m.,
124 Sparks. Armin Paul Frank, Universität
Göttingen, Germany, on "Anthologien Der
Weltliteratur: Eine Einführung Fur Neugierige."
Art History, 8 p.m., 112 Walker. Nakasha Staller
on "Melies' Fantastic Cinema and the Origins
of Cubism"

Emergent Voices series, 8 p.m., 112 Kern. Jonathan
Brent, Northwestern Univ., on emigre writing
in the U.S.

International Dance: A Celebration of Culture
Around the World, 8 p.m., 133 White Bldg.
Participant and demonstration dances, singing
panel discussion

Wednesday, September 26

Six Feminist Scholars Lecture Series, 8 p.m., HUB
Gallery. Lucy Lippard on "Toward a Post-
Columbian World: New Art in a Multi-
Cultural World."

Penn State Chapter of National Assoc. of Science
Writers, meeting, 11:45 a.m., 313 Kern.

■ Gallery Talk, 8 p.m., Palmer Museum of Art
Charles Dent, artist, art collector, on
"Leonardo's Horse That Never Was."
School of Music, 8 p.m., Recital Hall. Dan
Yoder, saxophone.

The Duquesne University Tamburitza ensemble will perform at 7:30 p.m. Sept. 30 in Eisenhower Auditorium.

Thursday, September 27

Careers in the Arts, 10:11:30 a.m., Palmer
Museum of Art. Ron Hand on "Designing
Museums Exhibitions with Computers."
Bach's Lunch, 12:10-12:30 p.m., Eisenhower
Chapel. Penn State Clarinet Quartet.

Friday, September 28

Geog. Coffee Hour, 4 p.m., 319 Walker. Sandra
Steltz on "Back to the World of Tomorrow:
The 1934-40 New York World's Fair."

Sunday, September 30

Shaver's Creek, afternoon, Spring Creek Walk.
Call 355-8007
■ Duquesne Univ. Tamburitza, folk dances,
7:30 p.m., Eisenhower Aud.

Public Radio

WPSU-FM 91.1

All Things Considered Monday-Friday, 5-6:30
p.m., Saturday and Sunday, 5-6 p.m.; Morning
Edition, Monday-Friday, 6-8 a.m.; Weekend
Edition, Saturday and Sunday, 11 a.m.-1 p.m.
Odyssey Through Literature Tuesday, 12:30 p.m.
Wednesdays with S. Leonard Rubenstein

Conferences

Continuing Education

Keller Building

Sept. 25, Pa. Bar Institute Inheritance Taxes.
Shirley Hendrick, assistant dean for continuing
education; Smell College of Business
Administration, chair; Jerri Milkom,
coordinator

Sept. 25-27, Maintenance of Commercial
Vehicles-Phase A. Eric Loop, coordinator

Sept. 26-28, Graduate Accounting Conference
Robert Koehler, associate professor of
accounting, chair; Chuck Heid, coordinator.

Sept. 27-29, VICA Advisors Workshop. Ken
Ruch, project assistant, chair; Jack Sinclair,
coordinator.

Sept. 28-30, Lifesaving, Lifeguarding, Robert
Ehrenbraun, assistant professor of exercise and
sports science, chair; Jerri Milkom, coordinator

Seminars

Thursday, September 20

Proposal Information seminar, 9:10-11 a.m., 141
Computer Bldg. Sept. 21, 11:30-3 p.m., 141
Computer Bldg. Registration, 8:03-10:54
History Colloquium, 4 p.m., Memorial Lounge
Eisenhower Chapel. Sanford G. Thatcher on
"Scholarly Publishing and the Penn State
Press."

■ Gerontology Center Colloquia, 4:5 p.m., 106
Mitchell Bldg. Nancy L. Petersen, Ottom-
Karolinska Institute, Sweden, on "Personality in
the Swedish Adoption/Twin Study of Aging
Physics Colloquium, 4 p.m., 55 Osmond Lab
Mark Cardillo, AT&T Bell Labs, on "Surface
Physics Viewed from Within"

Tuesday, September 25

Chemical Engineering, 2:45 p.m., Paul Robeson
Cultural Center. And. Morton M. Denn, Univ.
of Calif. on "Stress Induced Wall Effects and
Polymer Flow Instabilities"

Chemistry Colloquium, 3:30 p.m., 55 Osmond
Lab. John C. Tully, AT&T Bell Labs, on
"Chemistry at Metal Surfaces: Molecular
Dynamics with Electronic Transitions."

Geosciences Colloquium, 4:45 p.m., 301 Steidle
Lee Kump on "Strangelove Oceans."
Graduate Program in Nutrition, 4 p.m., S-204
Henderson Bldg. South Dr. Chester Berlin
Hershory on "Phenylketonuria and Maternal
Phenylketonuria."

Condensed Matter Physics, 4 p.m., 310 Davey
Lab. Neil Shrimpton on "A Molecular
Dynamics Study of Monolayer Argon."

Thursday, September 27

Polymer Science, 9 a.m., 301 Steidle. Greg
McKenna, NIST, on "Thermodynamics and
Mechanics in Rubber Elasticity."

Physics Colloquium, 3:30 p.m., 55 Osmond Lab.
John Schwarz, Calif. Institute of Technology
on "Superstrings."

Gerontology Center Colloquia, 4:5 p.m., 106
Mitchell Bldg. Steven H. Zarit on "Changes in
Memory in the Oldest Old."

■ Reflects an international perspective

Faculty meeting

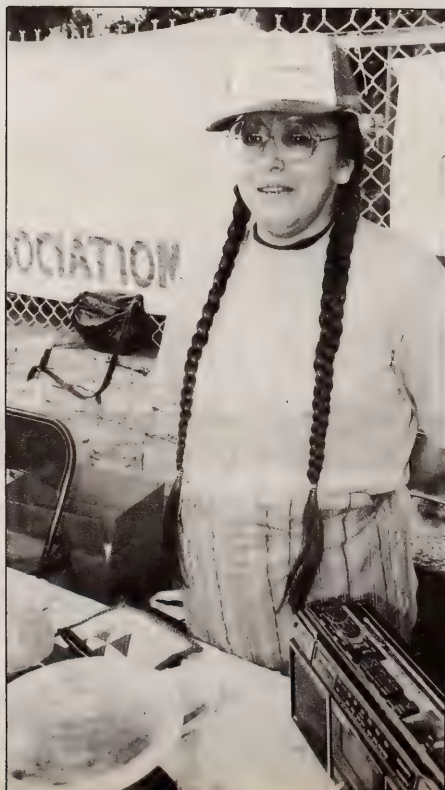

The annual meeting of the Graduate
Faculty will be held at 4 p.m.

Wednesday, Oct. 3 in Room 112 Kern
Graduate Building at University Park.

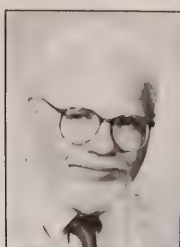

The principal item on the agenda is an
address by Charles L. Hosler Jr., acting
executive vice president and provost and
senior vice president for research and
dean of the Graduate School.

Festival of Cultures

The second annual Festival of Cultures, organized by the University, Centre Region Council of Governments and local residents, was held Saturday, Sept. 15, in State College's Central Parklet. At right, Mayor Arnold Addison and Grace Hampton, vice provost, speak to the crowd; bottom left, members of Sigma Gamma Rho sorority participate in the Step Show; bottom right, Frances Twin, a member of Women of Color, takes part in the Chili Challenge. (Photos: Greg Grieco).

25-year award recipients

Observing 25 years of service at the University are, from left, Melvin W. Johnson, associate professor of plant breeding; Paul C. Korsavage, assistant professor of wood science and technology; and Donald V. Waddington, professor of soil science, all of the

College of Agriculture; Chester D. Therrien, associate professor of biology in the Eberly College of Science; Joann M. Klinefelter, dining hall worker A. Findlay Dining Commons, Housing and Food Services.

Focus on the arts

Saxophone recital

Dan Yoder, associate professor of saxophone and director of jazz studies for the School of Music, will present a saxophone recital at 8 p.m. Wednesday, Sept. 26, in the Music Building Recital Hall at University Park.

The program will feature several duet performances, as well as a solo piece and some selections with a jazz quartet.

The recital is free and open to the public.

Museum talk

Charles Dent, retired airline pilot and art collector from Fogelsville, will discuss "Leonardo's Equestrian Statue" at 8 p.m. Wednesday, Sept. 26, in the Palmer Museum of Art at University Park.

His talk is being held in conjunction with "The Machines of Leonardo da Vinci"

exhibition, sponsored by the IBM Corp., on display at the museum through Nov. 4.

Clarinet Quartet

The Penn State Clarinet Quartet will perform in concert at 12:10 p.m. Thursday, Sept. 27, in Eisenhower Chapel at University Park. The 20-minute concert is part of the Bach's Lunch Concert Series sponsored by the School of Music and the University Lutheran Parish. The program will include quartets by 20th-century composers Damase and Hovhanness.

'Careers in the arts'

Ron Hand, exhibition designer at the Palmer Museum of Art, will discuss the role of computers in the layout and design of art exhibitions at 10 a.m. Thursday, Sept. 27, in the museum at University Park.

The talk is part of the "Careers in the Arts" series sponsored by the museum. Mr. Hand has been using computers in the design of Palmer exhibitions since 1982. Formally trained as an artist, he also has studied computer programming.

Folk dancers

The Duquesne University Tamburitzans folk ensemble will perform at 7:30 p.m. Sunday, Sept. 30, in Eisenhower Auditorium at University Park.

Penn Ag Industries Association of Ephrata and the Penn State International Dancers are co-hosting the event.

The Tamburitzans are folk artists dedicated to the preservation of East European folk culture and derive their name from the musical instrument played during each concert, the "tamburitza." Using more than 500 authentic costumes in

each performance, the "Tammies" sing in a dozen different European languages, as well as perform dances from as many countries.

For tickets, call the Eisenhower Box Office at 863-0255, 8:30 a.m. to 4:30 p.m., Monday through Saturday. General admission is \$10; admission for students and senior citizens is \$8.

Chinese architecture

Yuhuan Zhang, a visiting scholar from the Chinese Academy of Sciences (Academia Sinica) and a specialist in Chinese architecture and decoration, will give a lecture on "The Architecture of Chinese Buddhist Temples" at 4 p.m. Thursday, Sept. 27, in Room 230 Arts Building at University Park.

Professor Zhang's research specialties include the history of Chinese architecture

News in Brief

Horticulture Show

The 77th Horticulture Show will be held from 9 a.m. to 5 p.m. Saturday and Sunday, Sept. 22-23, at the Agricultural Arena at University Park. The theme of this year's show is "Horticulture in the 1990s."

The show is planned, designed and constructed by students in the College of Agriculture's Hort Club. Exhibits cover the inside of the Ag Arena.

Plants for sale include ornamental shrubs and flowering house plants. Students will sell tulip, lily, daffodil and hyacinth bulbs at reasonable prices. They also will sell pumpkins, apples, gourds, mushrooms, assorted vegetables, dried corn and cider.

The Agricultural Arena is located on Park Avenue across from Beaver Stadium at University Park. Admission is free.

Science writers

The Penn State Chapter of the National Association of Science Writers will meet to plan its agenda for the 1990-91 academic year at 11:45 a.m. Wednesday, Sept. 26, in Room 313 Kern Building at University Park.

The Chapter usually meets for lunch and a roundtable discussion on the last Wednesday of each month. The brown bag lunchtime roundtable series is open to anyone interested in science communication.

Public policy lecture series

John J. Cahir, professor of meteorology, will speak on "Policy Implications of Atmospheric Greenhouse Model Results" at 1:30 p.m. Wednesday, Sept. 26, at the Penn State Downtown Center, 234 N. Third St., Harrisburg.

Dr. Cahir will discuss atmospheric models used to estimate climate changes that develop from increased greenhouse gases — carbon dioxide, methane, ozone, chlorofluorocarbons and nitrous oxide.

The Penn State Downtown Center sponsors the lecture series on public policy issues. To register for the lecture call (717) 783-0433.

Help for cancer patients

CanSurmount, a program of the American Cancer Society in Centre County, now has a staff of 10 volunteer visitors who have completed 30 hours of training. They are certified to work with cancer patients and/or their families on a one-to-one basis.

All CanSurmount hospital visits require a physician's order. Non-hospital

visits do not require a physician's order and the counseling is free.

For more information, contact Katherine Young at 238-1350 or the American Cancer Society at 238-8908.

Volunteers needed

Volunteers in their 40s and 60s are needed for a research project involving learning and memory.

The goal of the project is to find out whether people of different ages differ in their ability to learn tests, and whether this is affected by their learning style or their attitude toward learning.

Participation in the study involves coming to University Park Campus for a two-hour session of reading.

For more information, contact Silvia Sorensen at 234-6008 or 865-1751.

SAT scores show continued increase at the University

While Scholastic Aptitude Test scores nationally have dropped for the third straight year, figures at Penn State continue to show an increase.

Overall SAT scores at University Park have increased steadily since 1980—a period of significant enrollment growth at the University. As well. Combined scores at University Park were 1071 in 1980 and that number rose to 1108 for 1989, the last year for which figures are available.

Because of the nature of the testing and

the differences in the numbers and kinds of students taking SATs, you are bound to see some kinds of fluctuations from year to year," according to Robert Dunham, vice president and vice provost.

"Looking at longer range trends is far more telling than trying to draw conclusions from one year's figures to the next," he said. "We think the long range statistics, at least for the 1980s, look very good for University Park."

There was only one year in the 1980s

when the SAT scores did not increase at University Park. There was an overall increase in both the verbal and math portions of the SAT at University Park throughout the 1980s.

Compared to its sister Big 10 institutions, Penn State ranks fourth in combined math and verbal SAT scores for both 1988 and 1989. Northwestern ranks number one in SAT scores for those two years and Iowa did not take part in the survey.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304). Applications for these staff vacancies will be accepted until Sept. 27. DO NOT CONTACT THE AREA THAT HAS THE VACANCY. Applications for staff vacancies are considered in accordance with Fair Employment Practices (FEP-1) and in compliance with the University's Affirmative Action Compliance Program without regard to race, color, religion, national origin, handicap or age, as provided by law, sex or status as a disabled or Vietnam era veteran.

***00949. Supervisor, Athletic and Recreation Operations, Physical Education, Ogeon Campus**—Responsible for providing instruction, intramural and recreational programs. Requires associate degree in recreation and parks or equivalent to two years of college-level training, plus one to two years of relevant experience. THIS IS A FIXED TERM POSITION FUNDED THROUGH LINE 2 to 1991 WITH A GOOD POSSIBILITY OF REFINANCING. STAFF GRADE 5.

***00950. Administrative Assistant, CEO's Office, Delaware County Campus**—Responsible to the campus executive officer for providing administrative support for a variety of

campus activities to include grant and proposal preparation, event coordination and research and report preparation. Requires associate degree or equivalent plus five to three years of effective experience, knowledge of grant and proposal preparation, and good oral and written communication skills also required. THIS IS A FIXED-TERM POSITION FUNDED FOR ONE YEAR WITH GOOD POSSIBILITY OF FUNDING FOR A SECOND YEAR. STAFF GRADE 5.

***00951. Area Representative, Continuing Education, Delaware County Campus**—Responsible to an assistant director or area director for providing the University's function of Continuing Education service in an assigned area. Requires a bachelor's degree or equivalent plus two to three years of effective experience in business, industry or education. STAFF GRADE 5.

***00952. Systems Programmer, The Milton S. HERSHEY Medical Center, Medical Computer Center**—Responsible to the manager, Computer Center Operations, for the generation and maintenance of programs which control the basic function of the computer. Requires bachelor's degree or equivalent in a multi-computer system engineering or business, information and two to four years of programming experience, preferably technical programming and a thorough knowledge of DOS VSI operating system VMI Operation Systems and system support software plus a proficiency in IBM Assembly Language and COBOL

programming languages. STAFF GRADE 5.

***00953. Computer Operator, Applied Research Laboratory, University Park Campus**—Responsible to the systems manager for operational procedures during assigned shift to include preparation and advising users on operation of equipment, overseeing system use and responding to equipment malfunctions. Requires associate degree or equivalent plus one to two years of effective experience in computer operations. U.S. citizenship required. STAFF GRADE 4.

***00954. Area Representative, Penn State Erie, The Behrend College**—Responsible for the development, organization, operation and administration of Continuing Education programs and services in an assigned service area. Requires bachelor's degree or equivalent plus two to three years of effective experience in business, industry or education. STAFF GRADE 5.

***00955. Project Manager, Applied Research Laboratory, ARL Systems Engineering, University Park Campus**—Responsible to the head, Systems Engineering Department for providing program support in the form of schedule and cost data generation within major Laboratory-wide programs. Requires bachelor's degree or equivalent plus over four years up to and including seven years of effective experience in management and coordination of major technical development programs. U.S. citizenship required. STAFF GRADE 5.

***00956. Manager, Safety and Security, College of Medicine, The Milton S. HERSHEY Medical Center, Safety and Security**—Responsible to the associate provost for administration for the organization, development, structure, operation, planning and coordination of the Department of Safety and Security. Requires bachelor's degree in police science, law enforcement or security or equivalent plus five to six years of effective experience. STAFF GRADE 8.

***00957. Project Manager, The Milton S. HERSHEY Medical Center, Department of Nursing Research**—Responsible to the project director for the implementation and effective day to day management of the RIVIE Plus Program Project. Requires master's degree in business administration, social systems science, health care administration or equivalent plus one to two years of effective experience in organizational planning and change. STAFF GRADE 7.

***00958. Medical Assistant, College of Medicine—University Hospital, Hershey, Outpatient Services-Medicine Specialties**—Responsible to the clinical head nurse or manager for providing assistance in health care services and for participation in administration functions. Requires associate degree or equivalent in related field, BLS certification and up to 12 months of effective experience. STAFF GRADE 3.

***00959. Assistant Director, Nursing-Medicine, University Hospital, Nursing Administration, Hershey**—Responsible to the director, Nursing for the overall

direction, administration and supervision of clinical practice education and research activities in the Division of Medicine Nursing. Requires a master's degree in nursing and a registered nurse currently licensed by the Pennsylvania State Board of Nursing, plus three to four years of effective experience in medicine nursing. A doctorate is preferred. STAFF GRADE 8.

***00960. Assistant Chef, Nittany Lion Inn, University Park Campus**—Responsible to the chef for assisting with the efficient operation of the kitchen and related areas. Assume total supervisory responsibility, during chef's absence instruct and train cooks and demonstrate methods of preparation of new menu items. Requires associate degree or equivalent from a culinary school or professional training in a hotel or restaurant plus three to four years of effective experience. STAFF GRADE 5.

***00960. Recreation and Athletics Specialist, Penn State Harrisburg**—Responsible to the coordinator, Recreation and Athletics, for providing developing and implementing portions of a recreation and athletics program with special emphasis on women's activities. Requires bachelor's degree or equivalent in physical education, recreation or related field plus over one year of effective experience, preferably in women's sports. Master's degree and or athletes training preferred. THIS IS A CONTINUING, 10 MONTH POSITION. STAFF GRADE 5.

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Construction begins on new classroom/office building

The Office of Physical Plant is beginning construction this month on a five-story, 95,000-square-foot classroom and office building at the intersection of Pollock and Shortlidge roads at University Park.

The \$11,200,000 classroom and office building authorized by the Board of Trustees in July will be located in the southwest corner of the site and is scheduled for completion in May, 1992.

The lower portion of Pollock fields will continue to be used as a playing fields.

The new classrooms and lecture halls will be a substantial improvement over a number of undesirable rooms that are now being used as classrooms. The new building with 1,600 classroom and lecture hall seats will be fully equipped with state-of-the-art computers and telecommunication systems. Once it's ready, we will be able to turn the old rooms to more appropriate uses."

Robert Allen, director of audio-visual services and chairman of the University-wide Classroom Improvement Committee, said.

The architect, IKM Inc. of Pittsburgh, has designed an L-shaped building with an imposing stairway to the second-floor classrooms that will blend well with existing buildings in central campus. The setbacks will align the building with the garden wall at McElwain Hall to the south and Ritenour Health Center to the west, leaving space to the north toward Eisenhower Auditorium for a second

Artist's rendering of new classroom/office building at University Park

classroom building not yet scheduled for construction.

The first floor will contain the main lobby and stairway, 12 classrooms, a lecture room for about 100 and a one-story wing with two large sloped-floor lecture halls, one for 200 students and one for 275 students. The second floor will be similar, but will not have the large lecture halls.

The third, fourth and fifth floors will

contain offices for the Eberly College of Science and its Department of Statistics.

"The new classroom building will be constructed on the edge of the play fields adjacent to Pollock Road, leaving most of Pollock field for play areas. The green space will be replaced when the poultry research facilities are relocated in new facilities to be constructed on the north portion of campus near Headhouse 4.

About 14 acres of open space adjacent to the outdoor pool will be gained as a result of the relocation of the poultry complex," James Wagner, vice president for business and operations, said.

Cumberland Construction has been contracted to begin the project, and the Office of Physical Plant will monitor and inspect the progress of the building.

Plans made for Homecoming celebration

Penn State Homecoming 1990 will take place Oct. 1-7 at University Park.

Actual festivities begin at 7 p.m. Wednesday, Oct. 3, south of Beaver Stadium with Greek and independent crazy band and banner competitions. Coronation of the Homecoming king and queen is scheduled for 8 p.m., followed by the traditional bonfire at 8:30 p.m. and fireworks at 9 p.m.

President Thomas will be the grand

marshal, for the annual homecoming parade at 5:30 p.m. Friday, Oct. 5. Student floats, the Blue Band, the Alumni Blue Band and the State College Area High School Band will march from the flower gardens near East Halls through campus to College Avenue and up Burrows Road to Recreation Building.

Friday's events continue with a Candlelight Vigil on the steps of Old Main

Please see 'Homecoming' on page 3.

Dean Petersen named chairperson of the 1990 United Way Campaign

Anne C. Petersen, dean of the College of Health and Human Development, is serving as chairperson for the University Park 1990 United Way Campaign. She served as vice chair in 1989 and assisted in seeing the campaign exceed its goal by more than \$40,000.

Named as vice chair for 1990 is James M. Wagner, vice president for business and operations. Mr. Wagner will serve as campus chair in 1991, continuing the campaign leadership tradition that has been established by providing consistent administrative support for United Way.

As chair of the University Park Campaign, Dean Petersen will be meeting with campus administrators to explain the United Way program and the importance of providing administrative support to the annual campaign which historically has

provided more than one-fourth of the total funds allocated to Centre County's 32 United Way agencies.

Dean Petersen, nationally prominent in the field of human development, headed the Department of Individual and Family Studies for five years prior to her appointment as dean. Before coming to Penn State, she was active in the development of health-related research and training programs at the MacArthur Foundation and Michael Reese Hospital and Medical Center in Chicago. She also was an associate professor in the Department of Psychiatry at the University of Chicago.

She is one of the nation's leading researchers in adolescence and has published extensively in the scientific literature and served on the editorial boards

Focus on Diversity

Gospel concert will benefit minority students

Renowned gospel group Gabriel Hardeman Delegation and State College area artists "Chiz" Rider and United Soul Ensemble will present a gospel concert fundraiser to benefit a new scholarship for minority students at 8 p.m. Sunday, Sept. 29, in Schwab Auditorium at University Park.

Tickets cost \$7.50 and are on sale at the Eisenhower Auditorium ticket center. The event is sponsored by the Delta Theta and State College Alumni Association chapters of Kappa Alpha Psi Fraternity Inc., Mid-State Bank and Trust Co. and Mellon Bank. The concert will raise funds for a new scholarship to benefit Black-American/

African-American students at Penn State.

"This is the first time for such an activity in State College," Earl Merritt, a Kappa Alpha Psi member and concert organizer, said. "We hope the community will support this worthy cause."

Led by award-winning songwriter Gabriel Hardeman, the Hardeman Delegation of Philadelphia has achieved notable popularity in mainstream as well as gospel circles. The group has performed back-up in concert appearances by the group "Foreigner" and musical vocalists Teddy Pendergrass and Patti LaBelle.

Now a junior in high school and

recording his second album, 16-year-old Mr. Rider of State College has been playing the trumpet for large audiences since elementary school. He has won numerous soloist awards, including a scholarship to Berklee College of Music, Mass., as winner of the Outstanding Soloist Award from the 12th Annual High School Jazz Festival.

The United Soul Ensemble is the University's student gospel choir, which has performed for such prestigious audiences as Eleanor Holmes Norton, Georgetown University law professor and former Equal Opportunity Commission chair, and Archbishop Desmond Tutu.

Women of Color

The Central Pennsylvania Women of Color is sponsoring its monthly luncheon at noon Thursday, Oct. 4, at Hotel State College. The speaker is Carolyn Brown, branch manager of Kelly Services in State College.

Current and new members are welcome. For reservations, call 865-1878 by Tuesday, Oct. 2; for more information, contact coordinator Vicki Fong at 865-7517.

WPSX-TV programs

Channel 3 is proud to present *The Nat King Cole Show* at 9:30 p.m. Saturdays.

The station has scheduled 26 original programs from the singer's hit 1957 NBC music and variety series. Mr. Cole, a jazz pianist who found international fame as a singer, became one of the first black performers to surmount the prejudice of the times.

New Orleans is known for its exciting nightlife, Mardi Gras, the Sugar Bowl and jazz. Mayor Sidney Barthelme was the first Americanized African elected to the Louisiana State Senate since Reconstruction and now serves as the first vice president of the National League of Cities. He tells of his plans to deal with the myriad of problems confronting urban areas on *Tony Brown's Journal* airing at 11:30 a.m. Sunday, Sept. 30.

Master's degree fellowships being offered

The University is offering master's degree fellowships for Native American Indian students interested in special education training.

"Students from various states, including North Dakota, Wisconsin, Arizona, New Mexico, New York and North Carolina, have graduated from the program that was established in 1983 through a U.S. Department of Education grant," Anna Gajar, associate professor of special education and program director, said.

The program is affiliated with Penn State's nationally recognized Native American Indian Leadership Program.

The American Indian Special Education Teacher Training Program is designed to prepare Native American Indian teachers to effectively work with mentally and physically handicapped Native American Indian children. Seminars focusing on Native American Indian education are conducted in conjunction with the Native American Indian Leadership Program.

Participants in the program will receive a monthly stipend of approximately \$650, a dependency allowance, remission of tuition and a textbook allowance. Graduates will receive a master's of education degree in special education. Depending upon

application qualifications, the course of study will involve at least a one-year commitment.

After graduation, participants will be qualified for several employment opportunities, including special education teacher, special education program coordinator and consultant, special education program developer and special education positions within the Bureau of Indian Affairs.

The deadline for submitting applications for Spring Semester is Nov. 15. The application deadline for Fall Semester 1991 is April 15, 1991.

Diversity Calendar

Saturday, Sept. 29

Muslim Student Association, 9 a.m. to 11 p.m., first floor HUB. "Third Annual Muslim World Fair" will feature a lecture on "Islam: Faith and Politics" by John Esposito, and exotic foods, oil painting, crafts, art, movies, slide shows, computer graphics and book displays.

Kappa Alpha Psi Fraternity, 8 p.m., Schwab Auditorium. Gospelmaera concert featuring Gabriel Hardeman Delegation, "Chiz" Rider and United Soul Ensemble.

Monday, Oct. 1

Women's Studies, 12:15 to 1 p.m., 12 Sparks Building. Women's Studies Student Affairs Committee discussion and planning meeting.

Paul Robeson Cultural Center and Office of Religious Affairs, 7:30 p.m., Paul Robeson Cultural Center. "Eyes on the Prize" film series, followed by discussion by Rev. Kenneth Clarke.

Thursday, Oct. 4

Office of Minority Faculty Development, 7 to 9 p.m., Paul Robeson Cultural Center. Informal faculty networking gathering.

On racial harassment

Teleconference set for Oct. 5

A teleconference on campus responses to racial harassment and intimidation will be presented from 1 to 3 p.m. Friday, Oct. 5, in Room 112 Kern Building at University Park.

The teleconference will examine a number of questions, including:

How does a college or university begin to build a sense of community for all of its citizens; what are "fighting words" and the first amendment questions; what are the implications for victims of this behavior;

what successful strategies and approaches have been used; how can your campus begin the dialogue?

The teleconference is being presented by the National Association of Student Personnel Administrators, in conjunction with Oklahoma State University and the National University Teleconference Network.

For additional information and registration, call the Human Resource Development Center at 865-3410.

News in Brief

Soviet visitor

Soviet Academician Boris V. Derjaguin of the Institute of Physical Chemistry will visit the Materials Research Laboratory at University Park, Oct. 1 and 2 as a guest of the Laboratory's Diamond and Related Materials Consortium.

Dr. Derjaguin and his colleagues, in the mid-seventies, made the key breakthrough discovery that the presence of atomic hydrogen made it possible to grow diamonds from the

vapor.

At 3:45 p.m. Oct. 1 in 112 Kern, Dr. Derjaguin will discuss his work on "cold fusion" via mechanical fracture of solids, published two years before the electrochemical claims at Ural. At 11 a.m. Oct. 2 in Room 189 MRH, he will discuss his work on CVD diamonds.

Returning adult students

The Returning Adult Student Center is sponsoring a program for returning adult students discussing "The Impact Your Studying Has on the Family" from 12:30 to 1:30 p.m. Wednesday, Oct. 3, in the

Robeson Cultural Center at University Park.

The program will focus on: identifying stressors and the adjustment process; managing multiple roles; discuss problem-solving skills, and application of skills to an example case.

If you are interested in attending or would like further information, contact the Returning Adult Student Center at 865-3887 or stop by 323 Boucke.

LIAS workbook

The LIAS Workbook, a self-guided workbook which has been used for five

years to train staff within the University Libraries on the use of LIAS, is now available to the general public. The workbook, which has been updated and modified, serves as a reference tool and provides easy, but detailed instructions on the use of LIAS.

LIAS is an on-line electronic catalog replacing the traditional card catalogs that have served Penn State for more than a century.

The workbook is available through the University Libraries' Accounting Office, ES06 Patten Library, University Park, Pa. 16802, for \$5.

Homecoming

Continued from page 1.

at 7:30 p.m., where Dr. Thomas will be joined by the Glee Club, Singing Lions and the United Soul Ensemble.

A reception for all alumni and current students will follow at 8 p.m. in Rec Hall. The annual "Guard the Lion Vigil" at the Nittany Lion shrine will take place from 10 p.m. to 2 a.m. The Penn State Nittany Lion football team takes on the Temple Owls at 1 p.m. Saturday, Oct. 5, in Beaver Stadium.

Homecoming activities continue with the 1990 Fun Run on Sunday, Oct. 7, starting at 9 a.m. in front of Rec Hall. Registration is being held in 203B HUB throughout the week, and the morning of the race at Rec Hall.

An award ceremony in the HUB fishbowl at 8 p.m. will bring the week of Homecoming celebrations to a close.

Carpooler

Jolene would like to carpool from Phillipsburg to University Park from 11:30 a.m. to 8:30 p.m. Call 865-4731 or 378-6267.

Four Alumni Fellows scheduled to visit

Four graduates will visit the University between Oct. 2 and 6 to receive the Alumni Fellow award.

They are **Robert Max Mangels**, president and chief executive officer of Mangels S.A., Sao Paulo, Brazil, who will visit Penn State Erie, The Behrend College, Oct. 3 and 4; **Richard L. Leshner**, president, U.S. Chamber of Commerce, and **Stanley Sporkin**, presiding judge, U.S. District Court, Washington, D.C., who will visit the Smeal College of Business Administration Oct. 4 to 6; and **Marvin L. Krasnansky**, vice president of corporate relations, McKesson Corp., who will visit the School of Communications Oct. 2 to 6.

The Alumni Fellow award, presented by the Penn State Alumni Association, is the most prestigious of the association's awards. It is administered in cooperation with the colleges. The Board of Trustees has designated the title of the Alumni Fellow as permanent and lifelong.

Born in Sao Paulo, Mr. Mangels studied engineering at Penn State-Behrend before completing his bachelor's degree at University Park. He holds an MBA from the Wharton School at the University of Pennsylvania.

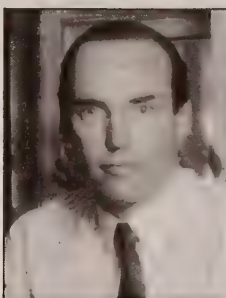

Mangels S.A. is a family-owned organization that was founded in 1928 by Mr. Mangels' grandfather. The company began as a producer of galvanized buckets in Brazil. Since then, it has become a world leader in the production of bottles for liquefied petroleum gas.

Mr. Mangels is a member of the Center for Socioeconomic Studies and Debates in Brazil, which is a think-tank involving businessmen and economists promoting the interest of free enterprise. He also is a member of the Advisory Board of the William Wurster Center for International Management Studies at the Wharton School.

Judge Sporkin, appointed to the federal bench in 1986, recently heard the Charles H. Keating Jr.-Lincoln Savings & Loan case, in which he ruled that federal regulators had not illegally taken over the failed thrift and would have been negligent if they had not.

Previously, Judge Sporkin held the post of general counsel to the Central Intelligence Agency. Before that, he capped a 20-year career with the Securities and Exchange Commission with seven years of service as director of enforcement.

In 1953, he received a bachelor's degree in commerce from Penn State and was named a Distinguished Alumnus of the University in 1979. He holds a law degree from Yale University. He is a member of Smeal College's Board of Visitors.

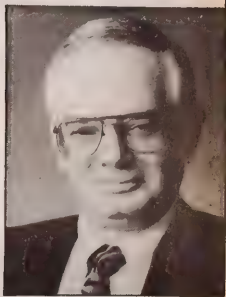

Robert Max Mangels

Richard L. Leshner

Stanley Sporkin

Marvin L. Krasnansky

Dr. Leshner has been president of the U.S. Chamber of Commerce since 1975. He is a writer and radio and television commentator with weekly appearances on "It's Your Business," a public-affairs debate program. He also writes a weekly syndicated column, "Voice of Business," which is carried in 670 U.S. newspapers.

From 1964 to 1969, he was employed by the National Aeronautics and Space Administration and was administrator for technological utilization at the time of the first moon landing. Subsequently, he was a business consultant and worked with the National Center for Resource Recovery.

In 1960, Dr. Leshner received a master of science degree in business administration from Penn State. He holds a bachelor's degree from the University of Pittsburgh

and a doctoral degree from Indiana University.

Once an editor of *The Daily Collegian*, Mr. Krasnansky graduated from the University with a B.A. in journalism in 1952.

He joined McKesson Corp., a San Francisco-based distribution company, in 1979. He had earlier worked with Becton, Dickinson and Co., and Batten, Barton, Durstine and Osborn International, as well as Paine, Webber, Jackson and Curtis Inc. and International Utilities Corp.

He also has worked in public relations with the New York Stock Exchange and in the newspaper industry with *The Wall Street Journal*, *Easton Express* and *Lancaster New Era*. In addition, he is a member of Penn State's Development Council and Libraries Development Advisory Board.

Faculty/Staff Alerts

IBIS open house

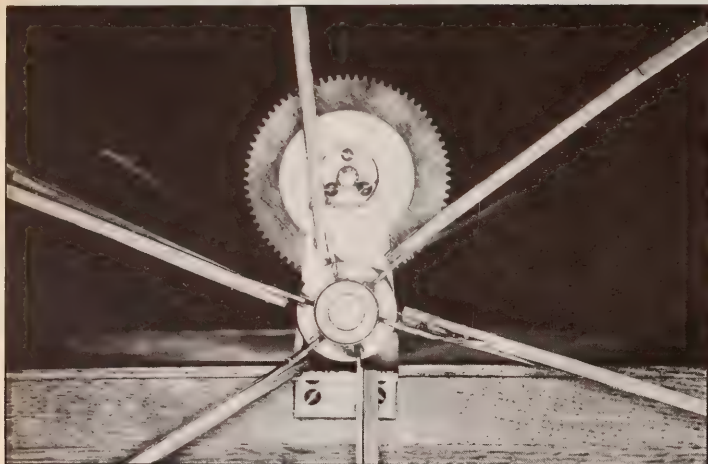

To help the University get up to speed on the IBIS Release 2.1 documents, IBIS Release 2.1 Open Houses, hosted by the College of Earth and Mineral Sciences, will be held from 10:30 a.m. to noon on Thursdays, Oct. 4 through Nov. 15, in 400 Walker Building.

Representatives from the Release 2 Pilot areas, the Central Offices, and the IBIS Training Office will be available to answer questions, to help with the data entry, and to discuss any other problems or concerns.

Terminals will be available for on-line help. Bring the necessary data if you need help creating forms.

Mail service

Due to the unrest in Iraq and Kuwait, the U.S. Postal Service has asked that we not send any mail to these countries until further notice. There are no alternatives to getting mail into these countries at this time. Mail Services will keep the University community advised of any further developments.

The Machines of Leonardo da Vinci

These two photos taken by Greg Grieco illustrate designs made in the 15th century by the famed artist and Renaissance man Leonardo da Vinci. An exhibit featuring 27 table-top scale replicas of inventions inspired by da Vinci's notebooks is on display at the Palmer Museum of Art at University Park, through Nov. 4.

Spring holiday to change in calendar

Beginning in 1992, the spring break holiday will fall after the eighth week of classes, according to **Robert E. Dunham**, vice president and vice provost.

"The change in scheduling for the 1992 spring holiday is in response to a recommendation to the president from the University Faculty Senate," Dr. Dunham said.

"Students and faculty members had expressed an interest in having the timing of the spring holiday moved from after the seventh week of the semester to the more natural mid-point after the eighth week."

The 1992 spring holiday is scheduled for Monday through Friday, March 9 to 13. There will be eight weeks of classes preceding the holiday break and seven weeks of classes and one week of final exams following the break.

The University Registrar has published a revised academic calendar for the 1991-92 academic year reflecting the change, Dr. Dunham said. The revised calendar is identical to the previously published calendar, except for the dates of the 1992 spring holiday. The academic calendar for Spring Semester 1991 remains unchanged, with the spring holiday scheduled for March 4 to 8.

Conference is set for University Park

Critical issues in continuing professional education will be addressed at the Second National Invitational Conference on Continuing Professional Education at University Park Oct. 4 and 5.

National leaders representing higher education, professional associations, business and industry will summarize their investigations of key issues identified at the first conference, "A Call to Action," held in 1986. Both conferences have been coordinated by the Division of Planning Studies' Office of Continuing Professional Education and sponsored by Penn State and the W.K. Kellogg Foundation.

"With increasing quantities of new and more sophisticated knowledge across professions, practitioners no longer can maintain competence on the basis of their initial education alone," Donna Queeney, director of planning studies, said.

The conference, "An Agenda for Action," will be based on seven small group reports by continuing professional educators from across the country. Participants expect to produce a set of recommendations for the future of continuing professional education.

A summary of the conference and copies of the individual reports will be available from the Office of Continuing Professional Education this fall.

Obituary

Patricia A. Long, clinical nurse specialist at the Hershey Medical Center since Jan. 5, 1976, died Aug. 23 at the age of 53.

Private Giving to Penn State

Gift establishes Weiss Professorship in Humanities

The Josephine Berry Weiss Professorship in Humanities has been established in the College of the Liberal Arts.

The professorship builds on the Josephine Berry Weiss faculty fellowship, endowed with a \$116,000 gift from alumni William L. and Josephine B. Weiss in 1984.

To endow the professorship, the Weisses are making an additional gift of \$67,000, which will be matched by other funds secured by the college.

"With a total endowment of \$250,000, the Weiss professorship will give greater

support to the faculty member who will be appointed to the position," Theodore Kiffer, interim dean, said. "Professorships also help us to retain our best teachers and researchers and recruit prominent scholars."

The Weisses' decision to create the professorship comes only two months after they gave the University \$1 million to endow a faculty chair in science, technology and society. The chair aims to bridge the gap between studies in engineering and the humanities.

"Jo and Bill Weiss have played an

important role in strengthening the humanities at Penn State, and we're grateful for their continuing support," Dr. Kiffer said.

Mrs. Weiss earned a bachelor's degree in liberal arts from the University in 1950. She is a trustee of Chicago's Alder Planetarium and a vice president and board member of the Chicago Child Care Society.

Mr. Weiss, a 1951 engineering graduate of Penn State, is chairman and chief executive officer of Chicago-based Ameritech, one of seven regional holding

companies formed in 1984 from the divestiture of AT&T. The University named him a Distinguished Alumnus in 1986.

Dr. Kiffer said that income from the endowed professorship could be used for such purposes as research support, scholarly travel, stipends for graduate assistants and salary supplements.

The College of the Liberal Arts has 20 endowed faculty positions.

Hershey Foods Corp. supports the Guthrie Chair in Nutrition

Hershey Foods Corp. has donated \$125,000 to the endowment of the Helen A. Guthrie Chair in Nutrition in the College of Health and Human Development.

The chair was established last year in honor of Dr. Guthrie, an internationally recognized authority on nutrition and health and a Penn State faculty member for 41 years. She also is the first holder of the chair.

"Hershey Foods' generous commitment is further evidence of the high esteem in which Dr. Guthrie is held by the food industry," Dean Anne C. Petersen said. "Her pioneering research into how people can attain nutritional balance from available foods has helped our program earn distinction worldwide."

Dr. Guthrie served as head of the Department of Nutrition for 15 years and directed the intercollegiate graduate program in nutrition from 1983 until 1989.

Endowed chairs are among the highest

forms of faculty recognition. Income from the endowment may be used for research, graduate assistants, equipment acquisitions and other purposes related to the scholarly activities of the chair holder.

"The Guthrie Chair is playing an important role in helping the Department of Nutrition achieve its goal of becoming the best in the nation," Dr. Petersen noted.

"We're grateful to Hershey Foods for its continuing support of our entire Nutrition Program."

In 1987, the company committed \$250,000 to establish an endowment that will be used to help purchase equipment and other resource materials for the Nutrition Department.

Hershey Foods and its subsidiaries employ about 250 Penn State alumni and manufacture a wide variety of chocolate, confectionery, pasta and other consumer food products.

Professorship endowed in Agriculture

Penn State alumnus John Franklin Styer has donated \$250,000 to endow a professorship in the College of Agriculture.

The J. Franklin Styer Professor of Horticultural Botany will study the interaction of hardy landscape plants and urban environmental factors.

"We need to identify and preserve plants with unique and superior traits, especially in stressful urban environments," Mr. Styer, a retired nurseryman from Concordville, said.

"Air pollution, crowded root zones," soil composed of urban debris, and unnatural extremes in available light and water are only a few of the stresses plants must withstand in metropolitan areas. The result is that trees that would live for a hundred years in the wild do well to survive 15 years on a city street.

"The quality of the lives of Pennsylvania's citizens is enriched by plants in the home, garden and landscape," Dean Lamarine F. Hood said. "This professorship will help us to attract and support an

outstanding scholar and deepen our commitment to horticulture and the preservation of the environment."

Mr. Styer, a Concordville native, graduated from Penn State in 1922 with a bachelor's degree in agricultural chemistry. He later received a doctorate from the University of Pennsylvania.

His father was the first in the United States to recognize the commercial potential of mushroom cultivation, pioneering what has become the \$294 million Pennsylvania mushroom industry, the largest in the nation.

J. Franklin Styer studied mushroom cultivation and production at Penn State and later at Penn before returning to Concordville and entering the mushroom business. In 1950, he started a nursery in Concordville and specialized in cut peonies. He retired in 1987 and moved with his wife, Agnes, to Bend, Ore.

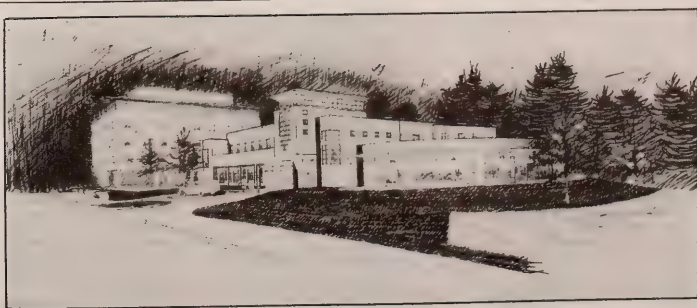

The Styers previously endowed a scholarship fund in the Department of Horticulture.

Scholarship aid

Students in the manufacturing option of Penn State's Master of Business Administration program will soon reap the benefits of four \$50,000 grants from major manufacturers.

The funds from Eastman Kodak, Corning Asahi, Hewlett Packard and GTE Products Corp. will support scholarships and other financial assistance, as well as research, the purchase of specialized computer software and supplemental printed material. The grants also will fund tours of manufacturing plants, visits to campus by company executives and annual conferences.

"These grants will result in a significantly richer educational environment for our students," said Michael P. Hottenstein, professor-in-charge of the manufacturing option. "Our goal is to educate engineers to manage amid the rapid changes and complexities in manufacturing, so that American firms will be more competitive internationally."

Preliminary plans have been approved for the new Mater Building, which will accommodate the Hotel, Restaurant and Institutional Management Program in the College of Health and Human Development at University Park. It will be located directly east of Keller Building. The majority of the \$5.4 million project will be financed through private gifts.

Focus on the arts

Turkish carpets

Turkish Carpets: Art and History, an exhibit by Mary Birdsong, is on display in the HUB Formal Gallery at University Park until Oct. 30.

The exhibit features a sampling of mostly 20th century Turkish carpets and flat-weave kilims, explaining the world that created them, the patterns found in them, and the techniques and materials used to create them.

Odyssey on WPSU

On "Betraying the Novel," the next episode of "Odyssey Through Literature," Lillian Furst of the University of North Carolina at Chapel Hill and host Leonard Rubinstein discuss how one should read -- and teach -- a novel.

"Odyssey Through Literature" is produced by the Department of Comparative Literature and airs Wednesdays at 12:30 p.m. on WPSU, 91.1 FM.

Metals artist to visit

Helen Shirk, a metals artist whose work is nationally and internationally known, will be a visiting artist in the School of Visual Arts from Sept. 28 to Oct. 4. She will give a public lecture at 1:30 p.m. Tuesday, Oct. 2, in the Palmer Museum of Art at University Park.

Ms. Shirk's work is inspired by the conflicting forces present in nature and is suggestive of ancient trees and the primeval forest. Her work underscores the uncertainty of life and the fragility of new growth existing beside nature in decay.

She received her bachelor's degree from Skidmore College and a master of fine arts from Indiana University. She currently is professor of art at San Diego State University.

The arts on Channel 3

Crystal clear voices blending the soft harmonies of yesteryear with the vibrant tones of today describes *Fred Waring's U.S. Chorus 1989: Moments in Time*. An encore presentation will air at 10 p.m. Monday, Oct. 1, during public television's Showcase Week.

When Zubin Mehta lifts his baton to begin the telecast of *Live from Lincoln Center's* 15th anniversary season, airing at 8 p.m. Wednesday, Oct. 3, Daniel Barenboim, a close friend and colleague of Mr. Mehta's will be there too, performing two major concerti from the piano repertoire: Beethoven's Piano Concerto no. 3 and Tchaikovsky's Piano Concerto no. 1. The famed pianist currently is music director designate of the Chicago Symphony Orchestra, succeeding Sir Georg Solti in September 1991.

Cezanne: The Riddle of the Bathers with host E.G. Marshall, a co-production of WPSU, TV/Penn State and Inter TV AG of Basel, Switzerland, in association with the Kunstmuseum in Basel, explores the obsession of artist Paul Cezanne with the

theme of male and female bathers.

The 60-minute program, airing at 10 p.m. Wednesday, Oct. 3, is based on the exhibition "Cezanne: The Riddle of the Bathers," conceived by art historian and faculty member Mary Lou Krumrine, and held last fall at the Kunstmuseum in Basel, Switzerland.

Oboe recital

Barry Kroeker, assistant professor of oboe, will perform in concert at 8 p.m. Monday, Oct. 1, in the Recital Hall of the Music Building at University Park.

The program titled "Trifles or Truffles" will offer a variety of works by lesser-known composers.

Mr. Kroeker will be joined by fellow faculty members Marylene Dose, piano; Smith Toulson, clarinet; and Daryl Durran, bassoon, in his performance of works by Jean Guy Ropartz, Alexander Hill, Jean-Michel Damase, Joseph Canteloube and Rene Monfauillard.

Dancer Vicky Beretta will assist the musicians in interpreting the "Five Ballet Exercises (for Andrea)" by Alexander Hill.

Sculpture discussion

A panel of art education graduate students will hold a discussion about public sculpture on the University campus and in State College at 12:10 p.m. Thursday, Oct. 4, in the Palmer Museum at University Park.

Robert W. Ott, professor of art education and coordinator of the museum education option, will head the panel. The discussors who will discuss the George Grey Barnard sculptures located in the lobby of the Eisenhower Auditorium; Isgal Tumarkin's sculpture of the falling soldier on the south end of the HUB lawn; George Tsutakawa's fountain located in the Walter Walters Courtyard, in front of the Arts Building; and Stephen Porter's "Colonnade" located at the corner of East College Avenue and Heister Street.

Bach's lunch

The HiLo's, a group of 14 singers from the Penn State Glee Club, will perform in

concert at 12:10 p.m. Thursday, Oct. 4, in the Eisenhower Chapel at University Park.

The 20-minute concert is part of the Bach's Lunch Concert series, sponsored by the School of Music and the University Lutheran Parish.

The group is directed by Bruce Trinkle of the School of Music faculty and performs a wide repertoire including madrigals and folk songs.

URTC season

The University Resident Theatre Company, made up of Penn State theatre students, faculty members and guest artists, will present five productions during the 1990-91 season at University Park.

"Crime on Goat Island," by Ugo Betti, directed by Carole Brandt, opens Oct. 5 at the Pavilion Theatre. An entry in the American College Theatre Festival, "Crime on Goat Island" is scheduled for performances Oct. 6, Oct. 8-13, and matinees Oct. 6 and 13. Special student previews will be Oct. 3 and 4. The play is intended for mature audiences.

Shakespeare's "The Merchant of Venice," directed by Richard Nichols, opens Oct. 26, in the Playhouse Theatre. It runs Oct. 27, Oct. 30-Nov. 3, with a matinee on Nov. 3. Student previews will be Oct. 24 and 25.

"The Butterflies Angel, Mary and Joseph, Herod the Nut and the Slaughter of 12 Hit Carols in a Pear Tree," by William Gibbons, directed by Helen Manfull, opens Nov. 16, in the Pavilion. The play is scheduled for performances Nov. 17, Nov. 19-20, Nov. 27-Dec. 1, with matinees on Nov. 17 and Dec. 1. Student previews will be shown on Nov. 14 and 15.

Gilbert and Sullivan's "The Pirates on Penzance," directed by Cary Libkin, opens Feb. 22 in the Playhouse. It is scheduled for performances Feb. 23, Feb. 25-March 1, with a matinee performance Feb. 23. Student previews will be held Feb. 20 and 21.

"The Children's Hour," Lillian Hellman's classic play will be directed by Manuel Duque. It opens April 10 in the Pavilion and is scheduled for performances April 20, April 22-27, with matinees on April 20 and 27. Student previews will be held on April

17 and 18.

All evening performances begin at 8 p.m. Matinees begin at 2 p.m. Student previews offer ticket discounts for Penn State students with a valid ID. For ticket information call (814) 863-0255.

Glee Club concert

The Penn State Glee Club will celebrate its 20th year under the leadership of Bruce Trinkle, associate professor of music, at the Homecoming Concert at 7:30 p.m. Saturday, Oct. 6, in Schwab Auditorium at University Park.

The program includes sacred music, Italian folk songs, British sea shanties and American folk songs and spirituals. Suzanne Murphy, a graduate of the School of Music, will be guest soprano, singing a selection from Verdi's "La Forza Del Destino" and "Here's that Rainy Day."

"The Glee Club has dedicated the concert to Anton Matesi, a member of the group who suffered a spinal stroke over the summer. The Glee Club will be asking for donations during the concert."

Donations also can be sent to: Anton Matesi Trust Fund, Honesdale National Bank, 733 Main Street, Honesdale, Pa.

Children's series

The Center for the Performing Arts has announced that its new children's series will be sponsored by Peoples National Bank.

The series, "Wide Eye Wonders," offers four different performances for families on Sunday afternoons at University Park. Dinosaur dinosaurs, flying machines, an amazing brass quintet and an enchanting prince are the stars.

The series opens with "Mammoth Follies," a musical revue by the Hudson Vagabond Puppets, on Oct. 7 in Eisenhower Auditorium. Telling the abbreviated story of evolution, the cast includes a 22-foot dinosaur named Bessie Brontosaurus, Smiley, a sabre-toothed tiger, and some singing vegetation.

Real people are the stars of "The Wright Brothers" being presented Nov. 11 in Eisenhower Auditorium. In this musical, Orville and Wilbur learn how to fly, but their trials, failures and determination are the real story.

On Feb. 3 in Schwab Auditorium, A. de Saint Exupery's classic book *The Little Prince* is retold. The production will have sets and costumes designed on the original drawings from the novel.

Combining music, fun and strange instruments in a special family concert is the Chestnut Brass Company. The music is classical, jazz and contemporary; the lessons are lively. "Hot Air: The Story of Brass Instruments" is scheduled for April 28 in Schwab Auditorium.

Tickets are priced at \$5 for adults and \$3 for students and children. They are available from Eisenhower Auditorium Ticket Center.

See more arts stories on page 11.

The arts at...

Penn State Harrisburg

The diverse cultural heritage that makes up our world will be the theme of an activities series for the 1990-91 year at Penn State Harrisburg. "The Heritage Series" will explore local heritage and celebrate diversity.

The series opens at noon Tuesday, Oct. 2, with a lecture, "The Ethics of Land Use: Preserving What We Cherish," by John Hostetter, professor of sociology and anthropology at Elizabethtown College. The discussion on land ethics and environmental policy, with reference to events in Lancaster, will be held at the

Penn State Downtown Center, 234 N. Third St., Harrisburg.

Ogontz Campus

Three award-winning area artists and their talented offspring will display a collection of their contemporary paintings, drawings and sculpture at Penn State Ogontz Campus' Woodland Library, through Friday, Oct. 5.

Artists include Jerry Smith and Rita Sieminski Smith, Elkins Park; George and Daniel Anthonisen, Solebury; and Sandra and Deborah Hoffman, Philadelphia.

University Park Calendar

September 27-- October 7

Special Events

Thursday, September 27

Careers in the Arts, 10-11:30 a.m., Palmer Museum of Art. Ron Hand on "Designing Museum Exhibitions with Computers." Back's Lunch, 12-10:12:30 p.m., Eisenhower Chapel. Penn State Clarinet Quartet.

■ International Lecture Series, 2:30-4 p.m. International Lounge, 222 Boucke. Charles Cantalupo, Schuylkill Campus, on "Multi-Cultural Performance and the Practice of Poetry."

Friday, September 28

Geog. Coffee Hour, 4 p.m., 319 Walker. Sandra Steth on "Back to the World of Tomorrow: The 1939-40 New York World's Fair."

Sunday, September 30

Shaver's Creek, afternoon, Spring Creek Walk. Call 355-8007. Carnegie Hall Film Series, 7 p.m., 203 Willard. Verige (1958): 9:15 p.m., *The 400 Blows* (1959), Free.

■ Duquesne Univ. Tambourines, folk dances, 7:30 p.m., Eisenhower Aud.

Monday, October 1

Shaver's Creek, Extra Junior Nature Explorers, 10-11:30 a.m.: Also Oct. 3: 5:30-6:30 p.m., 101 Kern. Joyce Neu on "Found Literature: An Analysis of Everyday Talk." Women's Studies meeting, 12:15-1 p.m., 12 Sparks. Women's Studies Student Affairs Committee. Faculty/staff, Gay/Lesbian Concerns Group, meeting, 7:30 p.m., Henderson South 25. School of Music, 8 p.m., Recital Hall. Barry Kroeker, oboe.

Wednesday, October 3

Campus Bloodmobile, 10 a.m.-4 p.m., Wagner Armory.

Graduate Faculty annual meeting, 4 p.m., 112 Kern. Charles L. Hosler Jr.

Center for Women Studies, Brown Bag Lunch Series, noon-1 p.m., CWS Lounge, 120 Boucke. Dorothy Blair on "Food Systems and Ecofeminism."

URTC, 8 p.m., student preview. *Crime on Goat Island*. Also Oct. 4.

School of Music, 8 p.m., Recital Hall. Penn State Symphonic Wind Ensemble.

Thursday, October 4

Earth and Mineral Sciences, IBIS open house, 10:30 a.m.-noon, Walker Bldg. Thursdays through Nov. 15.

Back's Lunch, 12-10 p.m., Eisenhower Chapel. Penn State Glee Club's H-Lo's.

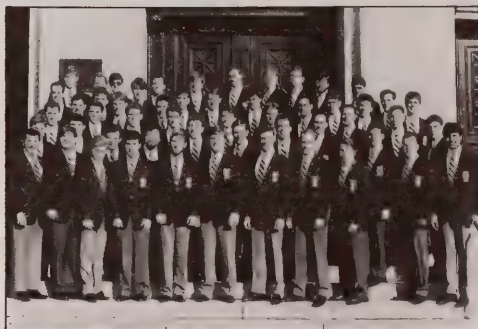

Brown Bag Lunch, lecture, 12-10:11 p.m., Palmer Museum of Art. Robert W. Ott on "Art in Public Places: Art Education Graduate Student Panel Presents Views' Guides for Town and gown Sculptures."

■ Lecture commemorating Bicentenary of French Revolution, 8 p.m., Kern Aud. Robert Darnon, Princeton Univ., on "The Forbidden Best-Sellers of Pre-Revolutionary France."

Friday, October 5

Homecoming Parade, 5:30 p.m., and Candlelight Vigil, 7:30 p.m. Old Main steps.

Geog. Coffee Hour, 4 p.m., 319 Walker. Irene Ferrara, recycling coordinator, on "The Centre County Solid Waste Authority Recycling Program."

Penn State Glee Club will perform during the Homecoming Concert at 7:30 p.m. Oct. 6 in Schwab Auditorium.

Center for the Performing Arts, 8 p.m., Eisenhower Aud. Richard Stoltzman, clarinet, with Irma Vallicello, piano. URTC, 8 p.m., Pavilion Theatre, through Oct. 13. *Crime on Goat Island*.

Saturday, October 6

Shaver's Creek, Nature Guiding Workshop, 10 a.m.-4 p.m. Call 863-2000.

School of Music, 7:30 p.m., Schwab Aud. Penn State Glee Club Homecoming Concert.

Sunday, October 7

Old Main tower open 9 a.m.-3 p.m. Shaver's Creek, Wildlife Hunters, 2-4 p.m. Call 863-2000.

Center for the Performing Arts, 8 p.m., Eisenhower Aud. Hudson Vagabond Puppets.

Public Radio

WPSU-FM 91.1

"All Things Considered," Monday-Friday, 5-6:30 p.m.; Saturday and Sunday, 5-6 p.m.; Morning Edition, Monday-Friday, 6-8 a.m.; Weekend Edition, Saturday and Sunday, 11 a.m.-1 p.m. "Odyssey Through Literature," 12:30 p.m. Wednesdays, with S. Leonard Rubinstein.

Conferences

Continuing Education

Keller Building

Oct. 1, Polymer Tutorial Workshop, James Runt, associate professor of polymer science, chair; Eric Loop, coordinator.

Oct. 1-3, Penn State Polymer Symposium. James Runt, associate professor of polymer science, chair; Eric Loop, coordinator.

Oct. 2-7a, Bar Institute. Shirley Hendrick, assistant dean for continuing education, Smeal College of Business Administration, chair; Jerri Milson, coordinator.

Oct. 2-5, Fermentation Methods and Scale Up Strategies, Jim Skellern, manager of training, Biotechnology Institute, chair; Eric Loop, coordinator.

Oct. 3-5, Continuing Professional Education. Donna Queeney, director, Division of Planning Studies, chair; Bill Steiner, coordinator.

Oct. 4-5, Conference on Special Education. James Tawney, professor of special education,

chair; Chuck Herd, coordinator.

Oct. 5, State Tax Seminar, Shirley Hendrick, assistant dean for continuing education, Smeal College of Business Administration, chair; Jerri Milson, coordinator.

Seminars

Thursday, September 27

Polymer Science, 9 a.m., 301 Steidle. Greg McKenna, NIST, on "Thermodynamics and Mechanics in Rubber Elasticity."

Physics Colloquium, 3:30 p.m., SS Osmond Lab. John Schwartz, Calif. Institute of Technology, on "Superstrings."

Gerontology Center Colloquia, 4-5 p.m., 100 Mitchell Bldg. Steven H. Zarit on "Changes in Memory in the Oldest Old."

Tuesday, October 2

Chemical Engineering, 2:45 p.m., Paul Robeson Cultural Center Aud. Janos H. Fendler, Syracuse Univ., on "Membrane Mimetic Chemistry."

Graduate Program in Nutrition, 4 p.m., S-209 Henderson Bldg. South. John F. Kavanaugh on "Current FSU Environment for Using Animals in Research."

Condensed Matter Physics, 4 p.m., 339 Davay Lab. Sushil Satija, National Institute of Standards and Technology, on "Neutron Reflection from Thin Films."

Wednesday, October 3

Chemistry Colloquium, 3:30 p.m., SS Osmond Lab. Kurt Walhovik, Eidgenossische Technische Hochschule, Zurich, on "NMR Studies of the Amy Homodomain and Other Proteins in Solution."

Accounting and MIS Research Colloquium, 3:30-5:30 p.m., 333 Beam, Victor Bernard.

Univ. of Michigan, on "Evidence that Stock Prices do not Fully Reflect the Implications of Current Earnings for Future Earnings."

Thursday, October 4

■ Economics/Policy Research, 2:30 p.m., 604 Willard. Robert J. Shiller, Yale, on "Popular Attitudes Towards Free Markets: The Soviet Union and the United States Compared."

Physics Colloquium, 3:30 p.m., SS Osmond Lab. John Collins on "Perturbative QCD."

Gerontology Colloquium, 4 p.m., 100 Mitchell Bldg. Tomasz Letowski on "Identification of Satisfied Hearing Aid Users."

Friday, October 5

Polymer Science, 9 a.m., 301 Steidle Pierre Lutz, Institut Charles Sadron, France, on "Synthesis and Solution Properties of Functional Star-Shaped Polymers."

Exhibits

Chambers Gallery

Chet Davis, paintings, through Oct. 5

HUB Galleries

Browsing Gallery, Art Alley Panels/Cases: ■ Biodiversity: Land and Water Management, Sept. 30-Oct. 27.

SCASD community education program, through Sept. 30.

Formal Gallery:

■ Turkish Carpets: Art and History, Sept. 30-Oct. 27.

Palmer Museum of Art

Selections from the Permanent Collection, through Oct. 7.

The Presence of Absence: New Installations, through Oct. 14.

■ The Machines of Leonardo da Vinci, through Nov. 4

Pattee Library

Rare Books Room:

■ Thomas Hardy, 1840-1928: a 150th anniversary exhibit, featuring photographs by Leslie Greenhall, through Oct. 12.

Zoiler Gallery

Shashnessy/Greenberg Installations, through Sept. 30.

Bookshelf

Richard L. Barton, associate professor of communications, is the author of *Ties That Bind in Canadian-American Relations*, published this summer by Lawrence Erlbaum Associates.

Dr. Barton, a past president of the Mid-Atlantic Conference of Canadian Studies, writes that the U.S. media do not treat

Canada as a serious player in world events. He calls this a major disservice to the American public and suggests methods for remedying the situation.

He also examines U.S. and foreign news coverage of Canadian-American affairs during much of the 1980s and critiques existing mass communications-foreign policy research.

Sexual harassment considered very serious offense

Sexual harassment -- persistent, annoying behavior based on gender -- is against University policy, as well as illegal, **Betty L. Moore** said.

"Whether subtle or overt, sexual harassment is unwarranted behavior. At its worst, this form of discrimination can result in the victim's changing career goals, dropping courses or a major, taking a job elsewhere or leaving school," Dr. Moore, assistant director of the Campus Life Assistance Center, Student Services, added.

Sexual harassment is characterized by inappropriate behaviors, such as touching or using physical force, telling crude jokes or making derogatory comments about a person or group, stereotyping people, asking for dates or demanding sex.

"The impact of sexual harassment can be devastating to the victim, as well as costly to an institution," Dr. Moore said. For example, the Federal Merit System Protection Board estimated that between 1978 and 1980 sexual harassment cost the government \$189 million in lost productivity, replacement and retraining costs, sick leave and court settlements.

"For these reasons alone, it is in an institution's best interests to ensure an environment free from sexual harassment," she said.

Since 1985, the University has had a policy prohibiting sexual harassment.

Carmen B. Borges, affirmative action specialist in the Affirmative Action Office, said, "Sexual harassment is considered a very serious offense by the University. We encourage faculty members, students and staff members who feel that they are experiencing sexual harassment to come forward."

The Affirmative Action Office investigates complaints of discrimination, including sexual harassment, and

These articles are the first in a series on the classroom and out-of-classroom environment at the University.

makes recommendations for remedies, she added.

Harassment does occur at the University, as shown in two studies conducted by a University sociologist in 1983 and 1985. The surveys found that 20 percent of the women undergraduate and graduate students surveyed and 31 percent of the women clerical workers interviewed had experienced sexual harassment.

Dr. Moore's contacts with students who have questions or complaints involving sexual harassment are increasing. In 1988-89, she had 196 contacts dealing with sexual harassment, compared to 291 in 1989-90. Such contacts include appointments with students, requests for information, program presentations and meetings.

Nationally, 96 percent of all victims of sexual harassment are female. Surveys report that few victims report the harassment.

"Power is often a key factor in situations involving sexual harassment. The harasser usually is in a position of higher status than the victim," Dr. Moore said, "although sexual harassment does occur between peers or colleagues, too.

This is true even in situations involving people in

the same age bracket, such as graduate students teaching undergraduates or postdoctoral students working with faculty members. In these cases, status is still a determining factor."

She noted that there have been instances where TAs have asked their students for dates, resulting in students dropping the course to avoid dealing with the situation.

People who encounter sexual harassment should document what is happening to them, being specific about the date, time, nature of the incident, witnesses, etc., so that it can be determined if a pattern of sexual harassment is taking place, Dr. Moore added.

It is effective to communicate to the perpetrator of the offending behavior that the behavior is not acceptable and that it must stop, she said. This can be done by talking to the harasser, by writing a letter to the offender or by talking to that person's supervisor.

She suggested that everyone keep in mind the potential for sexual harassment when work relationships develop into personal relationships, when faculty/student or supervisor/employee relationships become personal, and when sexist comments or behavior are exhibited in classroom or work settings.

"We all need to be aware of how others may be responding to our power, whether we are consciously using it or not," Dr. Moore said.

Assistance is available for those with questions or concerns about sexual harassment through the Affirmative Action Office, 201 Willard Building, University Park, 863-0471, and through the sexual harassment contact person in each unit, Ms. Borges said. Student concerns can be brought to the attention of Dr. Moore in Campus Life, 135 Bouck Building, University Park, 863-1809.

Inappropriate remarks can lead to 'chilly climate'

In a classroom where a faculty member tells a joke poking fun at ethnic group or calls on only male students, ignoring female students wanting to participate in discussions, a "chilly" climate is created for women, minorities and underrepresented groups.

The term "chilly climate" refers to actions, remarks and behaviors which impact negatively and unfairly on individuals or groups in the classroom or the University community. **Carol E. Chamberlain**, associate librarian and chief, Acquisitions Department, University Libraries, explains.

These incidents may occur in a classroom, workplace, residence hall or apartment, in advisers' offices and

during extracurricular activities, she said. Because such behaviors and incidents impede personal, academic and professional development, they are unwelcome in a university environment.

Ms. Chamberlain chairs the Senate's Coalition on Campus and Classroom Climate. The 14-member group is looking at classroom climate issues at the University in order to recommend changes to improve the environment Universitywide.

The coalition is comprised of members of the Senate committees on Faculty Affairs, Student Life and Undergraduate Instruction, as well as other University organizations, including the Commission for Women and the Commission on Racial and Ethnic Diversity. Established last March, the coalition recently submitted a progress report to the Senate outlining the steps it has taken and its plans for Fall Semester, Ms. Chamberlain said.

"The coalition is an outgrowth of a group within the Senate Committee on Student Life, which was studying classroom climate issues," she noted. "The Student Life representatives felt that the issues required broader-based input. The result was the creation of the coalition."

The coalition was asked to: identify the nature and extent of behaviors, actions and attitudes which cause and further the chilly climate within the classroom and overall University community; to determine strategies for change designed to alleviate the negative behaviors and improve the multi-climates; and to make

recommendations for implementing their strategies, including identifying specific offices or groups to assume responsibility for implementation.

"With its faculty perspective, the coalition provides the opportunity to bring together individuals and groups who are involved in campus environment issues, to share ideas and to develop recommendations for improving the climate in the classroom and throughout the University community," Ms. Chamberlain said.

The coalition's focus is on the attitudes and behaviors of faculty members, advisers, administrators, supervisors, staff members and students.

"Where there are successful programs in place, we want to recognize and promote those programs. There are many groups actively pursuing issues related to chilly climate," she said.

Currently, the coalition is gathering data from other institutions and formulating strategies to improve systems in place, as well as preparing recommendations for new initiatives to improve the climate in and out of the classroom, she added.

The coalition plans to submit its final report to Senate officers in December. Its recommendations will be acted upon by the full Senate.

Members of the coalition, in addition to Ms. Chamberlain, are: **Sabrina Chapman, Harold Cheatham, Victor Dupuis, Gary Fossite, David Gold, Lynne Goodstein, Valeria Harvell, Shirley Hendrick, Alfredo Jimenez, Robert Loeb, Christiane Makward, Betty Moore and Linda Shoop.**

Information sought

The Coalition on Campus and Classroom Climate is seeking information, studies and data on the campus and classroom environment at the University.

Members would like to talk with anyone involved in related research. The coalition is considering the feasibility of conducting a Universitywide survey on campus and classroom environment. Contact Carol Chamberlain at 865-1858 or any other member of the coalition.

Appointments

Gregory M. Grieco has been named photojournalist in the Department of Public Information.

Prior to his appointment, he was the commercial printing manager for the *Centre Daily Times*, and from 1982 to 1986, he was employed in the production department.

He holds a B.S. degree in graphic arts and photography from the Rochester Institute of Technology.

Melissande McCrae has been appointed electronic media specialist in the Department of Public Information.

In her new capacity, she will assist the manager of electronic communications in re-establishing Penn State's outreach programs to major city talk and news radio stations around the country.

She also will devote much of her time to help promote the research accomplishments of minority faculty through radio and television outlets.

For the past two years, Ms. McCrae served as project manager for the United Negro College Fund, where she coordinated the Philadelphia Lou Rawls Parade of Stars telethon which experienced its most successful telethon ever last year.

Previously, she was the senior producer for WDTV-AM, an all-talk station in Philadelphia.

She is a 1984 graduate of Temple University's School of Communications.

Louise E. Sandmeyer has been appointed manager of human resources development in the Office of Human Resources.

From 1986 to 1990, she was a consultant, counselor and trainer with Career Counseling, Consultation and Assessment Associates of State College.

She earned a bachelor of arts degree in English from Penn State in 1967 and a master of arts in student personnel administration from the University of

Melissande McCrae

Denver in 1969.

Her previous work experiences include serving as an instructor in counselor education at Western Maryland College in 1985-86 and as a counselor at the University of Utah in 1984-85. From 1974 to 1984, she was assistant director for career counseling and planning at Penn State.

Ms. Sandmeyer also was a counselor at the University of Alabama from 1971 to 1974 and head resident counselor at Jacksonville University from 1969 to 1971. Since 1986, she has been an instructor in the Women's Studies Program at the University. She is the co-author of the book *Skills in Life/Career Planning*, with K. Bartsch, published in 1979.

Jack H. Willenbrock has been named the first holder of the Bernard and Henrietta Hankin Chair in Residential Building Construction in the College of Engineering.

Louise E. Sandmeyer

A 1989 gift and commitment from the Hankins raised the Hankin professorship, endowed in 1984, to an endowed chair. The Hankin chair is designated for distinguished faculty members and supports instruction, research and public service activities in residential construction technology.

Dr. Willenbrock is the director of the National Association of Home Builders Housing Research Center (NAHB/NRC) Designated Housing Research Center at Penn State. Prior to this appointment, he was the Bernard Hankin Professor of Residential Building Construction.

A member of the Penn State faculty since 1968, Dr. Willenbrock directs the College's construction engineering and management programs. His areas of academic and research expertise include construction project control systems, residential building design and construction analysis, computer applications in

Jack H. Willenbrock

construction and construction engineering and management.

Dr. Willenbrock received the NAHB Home Builder Institute 1987 Outstanding University Associate Award; the 1984 Penn State Engineering Society Outstanding Teaching Award; and the 1983 Transportation Research Board K.B. Woods Award for transportation research.

Active in professional societies and activities, he is chairman of the board of directors of the NAHB/NRC Consortium of University Based Housing Research Centers and on the boards of the Research Foundation of the National Association of Home Builders and the Pennsylvania Advanced Technology Housing Consortium.

Dr. Willenbrock received his Ph.D. from Penn State in civil engineering. He received his master's from Lehigh University in 1962 and his bachelor's from The Cooper Union in 1960.

Penn Staters

Soundar R. Kumara, assistant professor of industrial engineering, served as visiting associate professor at the Research Center for Advanced Science and Technology at the University of Tokyo.

Stephen J. Benkovic, Evan Pugh professor of chemistry and holder of the Eberly Chair in Chemistry, has received the Bicentennial Scientific Achievement Award and Lectureship from the City College of the City University of New York. The achievements for which he was recognized include a landmark paper published in the December 1989 issue of *Science*.

Edwin L. Herr, distinguished professor of education and head, Department of Counselor Education, Counseling Psychology, and Rehabilitation Services

Education, was one of four invited theme speakers at the 14th World Congress of the International Association of Educational and Vocational Guidance in Montreal, Canada. He presented the keynote speech titled "Counseling for Personal Flexibility in a Global Economy."

Carlo G. Pantano, professor of materials science and engineering, presented an invited talk, "Chemical and Compositional Analyses of Glass Surfaces," at the Union Scientifique Continental du Verre in Fontainebleau, France.

Edward V. Williams, associate dean for research and graduate studies in the College of Arts and Architecture, has been appointed to a three-year term on the committee at the Institute of

International Education that will review applications of graduate students for study in Eastern Europe.

Donald J. Willower, distinguished professor of education, conducted a seminar on "Trends in Theory and Research on Educational Administration" for faculty and graduate students at the University of Ottawa, Ottawa, Canada.

Faisal Abbas, assistant professor of electrical engineering, Penn State Erie, The Behrend College, gave a paper on "Data Acquisition, Measurements and Control" to the International Society for Mini and Microcomputers in Montreal, Canada.

Allan Brawley, professor of social work and director of the social work program,

and **Emilia E. Martinez-Brawley**, professor of social work and director of the rural social services project, presented a paper on "The Contribution of Social Work to Integrated Rural Development" at the Biennial World Congress of the International Federation of Social Workers in Buenos Aires, Argentina.

Manfred Kroger, professor of food science, has been appointed a member of the board of trustees for the Drinking Water Research Foundation (DWRF).

Robert Lima, professor of Spanish and comparative literature and Fellow, Institute for the Arts and Humanistic Studies, presented an invited paper at the 12th Mediterranean Conference in Athens, Greece.

Progress made on staff position evaluation program

Considerable progress was made during the summer months on the University's Staff Position Evaluation and Compensation (SPEC) program.

From April through August, the project team worked with consultants from William M. Mercer Inc. to design the job evaluation plan and position information questionnaire (PIQ) that will be cornerstones of the new SPEC program. At its completion, the SPEC program will provide an integrated salary system for regular University employees currently classified as staff exempt, staff nonexempt and clerical.

Customized design

Completion of the PIQ's design marks the end of Phase One of the project's anticipated four phases. A primary objective of the University in the SPEC program is to design an evaluation method or plan that will effectively measure jobs in the complex Penn State organization. Rather than purchase a standard evaluation tool, the project team—comprised of members of the Office of Human Resources, the Classification/Evaluation System Review Committee (CESRC) and the Mercer consultants—has developed a customized evaluation plan to fit the University's unique needs and culture.

Complex design process

Design of the PIQ involved a number of specific activities.

First, the team studied the written ideas and suggestions concerning job evaluation submitted earlier this year from

staff and clerical employees. The staff and clerical comments focused the project team so it could define what to measure with the PIQ. This information helped to shape the evaluation factors that will be part of the job evaluation plan, and many of the written suggestions were incorporated into the PIQ.

Joan Lampman, College of Engineering, summarized the project team's reaction to the PIQ design process: "How we value jobs at Penn State is important to all of us. We can be sure that the new program is truly about our University's environment. It was challenging work, but I was glad to have the opportunity to participate in the process."

Initially, Mercer consultants provided instruction and information to the project team on the aspects and elements of jobs that generally give those jobs value.

"The collaborative effort between the committee and the Mercer consultants has created a plan that is sensitive to the uniqueness of all Penn State's locations and missions," John Luchini, project team member from the Penn State DuBois Campus, said.

The project team also reviewed the evaluation factors used at other colleges and universities and explored several nontraditional and innovative factors. Definitions of the selected evaluation factors and the varying degrees within each factor were discussed in detail and each was described in a number of different ways. Mercer consultant Charles F. Schanie directed the PIQ design process. Dr. Schanie observed that "input from employees and assistance from

the committee were critical in identifying the job evaluation factors that will work the best for the University."

The language of the PIQ also was tested to ensure that it was understandable. In all, six drafts of the PIQ were analyzed and discussed.

Kathy McCartney, College of Agriculture, said, "Designing a program from the ground up certainly gives you a good idea of how job evaluation works. I didn't realize how involved it was."

A document now has emerged that provides the University with an evaluation tool that will meet current and future needs.

Participation beyond the project team

The results of the project team's work have been reviewed by various personnel representatives, directors of business services and a number of random employees to ensure that PIQ is broadly applicable throughout the University. It also has been reviewed with key senior management groups, including members of the Council of Academic Deans and the President's Administrative Policy Council.

This week, a pilot test of the PIQ is being administered to about 200 employees. The results will provide important staff feedback as final revisions are made to the questionnaire and the administration process. It is anticipated that the PIQ will be administered to all affected University personnel in early November 1990.

Promotions

Staff Exempt

Joyce D. Bates to foreman at Hershey.
Delbert E. Boarts to sound technologist supervisor in Arts and Architecture.
Nancy M. Brown to research magazine editor in Research and Graduate School.
Anthony P. Decrappeo to associate director for grants administration in Research and Graduate School.
Anthony C. Domin to assistant university auditor in Controller's Office.
Toni Jo Duchi to coordinator, public relations and alumni activities in Education.
Gregory L. Fredericks to system program coordinator in Applied Research Lab.

Marilyn Fronheiser to educational assistant in Engineering.
Phil D. Hawkins to senior applications programmer/analyst in Purchasing Services.
Mary Jane Hovanec to associate research engineer in Applied Research Lab.
Montez King to costume supervisor in Arts and Architecture.
Linda E. Meashey to coordinator, academic development programs at Capital College.
William H. Meyer to assistant manager, administrative support services in Office of Business Services.
Diane L. Resides to counselor in Student Services.
Terrence L. Riley to assistant director of Continuing Education at York Campus.
Anna F. Tilberg to research support assistant at Hershey.
Maureen C. Volz to assistant manager,

food service in Housing and Food Services.
Delores Vonada to coordinator of student services in School of Communications.
Larry J. Watson to supervisor, physical facilities in Applied Research Lab.
Sandra K. Whisler to junior research technician at Hershey.
Thomas E. Wolfe to audit manager, computer systems in Controller's Office.
Harry M. Zimble to production general manager, theater in Arts and Architecture.

Staff Non-Exempt

Mary A. Aceti to pharmacy office coordinator at Hershey.
Lynne D. Curran to senior research technician at Hershey.
Richard E. Mauser to senior drafter, electromechanical in Applied Research Lab.

Obituaries

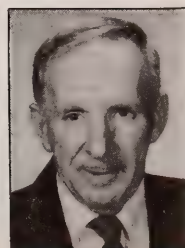

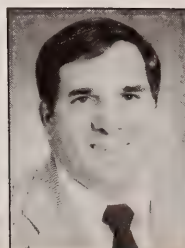

Dorothy B. Rote, counter attendant, Housing and Food Services, from Feb. 1, 1950, until May 4, 1974, died Sept. 8. She was 89.

Betsy H. Kepler, secretary in the former Office of Budget and Planning, from Dec. 1, 1965, until her retirement June 30, 1981, died Sept. 16. She was 71.

Carpooler

Joyce would like to share a ride from Loganston to University Park. Her work hours are 8 a.m. to 5 p.m. Call 863-1977 or (717) 725-3838 (after 6:15 p.m.)

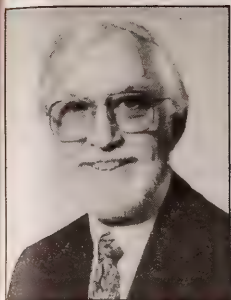

25-year award recipients

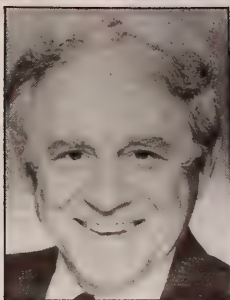

Observing 25 years of service at the University are, from left, Jacob B. Baumann, associate professor of chemistry at the Penn State Schuylkill campus; Wayne L. DeWiler, assistant professor of vocational education, and Robert F. Neuhard, coordinator, Office of Clinical Experiences, both in the College of Education; Mahlon E. Felzer, agronomy

technician, College of Agriculture; Duane W. Stiner, animal caretaker A, Laboratory Animal Resources Program, Senior Vice President for Research and Dean of the Graduate School.

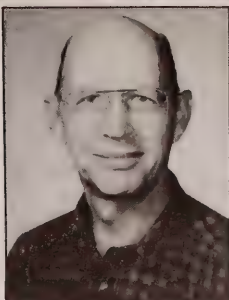

Partings

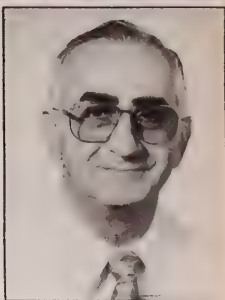

James Deeslie

Charles Dzubinski

David W. Stickell

Norman E. Weber

Helen Bublinc, laboratory attendant at the Dairy Breeding Research Center, has retired after 25 years service.

Ms. Bublinc joined the University staff in 1965 as a janitorial worker in the College of Human Development, where she worked for 14 years before moving to the position of mail courier with Business Services. She joined the Dairy Breeding Research Center in the College of Agriculture in 1980.

She says one of the biggest changes she witnessed over the years was the growth of the campus. She also was excited by the technological advances she saw in the lab.

Her duties at the center included evaluating bull semen, cleaning and sterilizing research materials, preparing solutions and organizing routine procedures in the lab. She assisted in many of the research projects at the center.

Ms. Bublinc lives in Bellefonte along Spring Creek. She has three children and four grandchildren. During her spare time she enjoys traveling and community activities. She currently is secretary of the Ladies Auxiliary of the American Legion in Pleasant Gap and a member of the Logan Grange.

James Deeslie, senior landscape architect for the Planning and Design Division of the Office of Physical Plant, has retired after 20 years service.

Mr. Deeslie was responsible for the landscape architectural planning of the University Park and Commonwealth Campus planting plans, roads and walkways, tennis courts, parking lots, bus stop areas and courtyards as well as for reviewing landscape/architectural plans by other professionals.

In addition to supervising staff and scheduling projects, he developed and supervised the annual campus flower and tree programs.

After graduating from Penn State in 1948 with a bachelor's degree in liberal arts, Mr. Deeslie returned at the age of 40 for a second degree in landscape architecture, which he received in 1968.

A community activist, he was involved in planning local parks and was co-designer of Spring Creek Park in Houserville. He currently is president of the Highlands Civic Association of residents who live between Beaver Avenue and Easterly Parkway and has represented the association on the recent neighborhood and downtown studies.

Mr. Deeslie plans to enjoy his retirement. "It's kind of like graduating," he says.

Charles Dzubinski, assistant professor of anatomy at the Penn State Ogonitz Campus, has retired after 31 years of service. He joined the Penn State faculty in 1959 as an anatomy instructor at Behrend and transferred to Ogonitz in 1967.

Mr. Dzubinski will now pursue his hobby, acting, on a full-time basis. A member of several acting unions, he has appeared in various films and television programs under the name of Charles Technam. He also has performed on stage in both Philadelphia and New York.

A 1956 graduate of Duquesne University with a bachelor's degree in biology, Mr. Dzubinski earned a master's degree from the University of Notre Dame in 1958.

David W. Stickell, research associate in Academic Services, has retired after 25 years service.

Mr. Stickell began working at the University in 1965 as supervisor of Exam Services. In 1979, he became head of University Testing Services, where his primary duties were administrative and

working on a computer program to generate tests and course evaluations.

He also worked with faculty members to help them improve their tests.

Mr. Stickell plans to keep busy during retirement. He will continue his volunteer work at the State Correctional Institute at Rockview and is teaching a class for DUI convicts on Oru Drugs Inc. His travel plans include a trip to Tampa, Fla., to visit his daughter, Ellen.

Norman E. Weber, supervisor of bakery production for Housing and Food Services, has retired after 31 years service.

Mr. Weber began working at the University in 1958 as a utility baker, then moved to the position of pastry mixer before his promotion to supervisor of all bakery productions in 1964.

He enjoyed his profession, especially the feeling of getting things done.

A resident of Pleasant Gap, he is planning a quiet and relaxing retirement.

Barry L. Myers, associate professor of Business Law, Business Administration, from July 1, 1972, until July 1

Jamie K. Zurasky, staff nurse at Hershey, from June 5, 1978, until Aug. 6,

Focus on the arts

STS speaker

Raimundo Panikkar of Barcelona, Spain, regarded by many as the world's leading scholar of interreligious relationships, will speak at University Park Oct. 7 and 8 under the auspices of the Science, Technology and Society Program.

Dr. Panikkar will speak on "The Dream of a Universal Theology," discussing his pioneering thinking on radical pluralist theology, at 7:30 p.m. Sunday, Oct. 7, in the Living Center of Henderson Human Development Building.

At noon Monday, Oct. 8, in Room 12 Sparks Building, Women's Studies Lounge, he will speak on "The Conflict of

Kosmologies," on how technology is changing all religious worldviews.

The 71-year-old ecumenist, now emeritus from the universities of California, Harvard, and Barcelona, has three earned doctorates in chemistry, philosophy and theology. He is conversant in 11 languages; he types in six. He has published 28 books, including *The Unknown Christ of Hinduism*, *The Inextricable Dialogue*, *The Vedic Experience*, *Worship and Secular Man*, *The Trinity and World Religions*. His most comprehensive book is *Myth, Faith and Hermeneutics*.

French literature

Robert Darnton, professor of history,

Princeton University, will lecture on "The Forbidden Best-Sellers of Pre-Revolutionary France" at 8 p.m. Thursday, Oct. 8, in 112 Kern at University Park.

He also will visit with faculty members and graduate students studying French history and Enlightenment studies.

A graduate of Harvard College and Oxford University, he is the author of the books *Motestrom and the End of Enlightenment*, *The Bureaucracy of the Enlightenment*, *The Publication History of the Encyclopédie*, *The Library Underground*, *Authors, Publishers and Book-sellers in the Old Regime* and *The Great Cat Mowat*.

His visit is sponsored by the departments of French and History, the Office of the Provost and the Core College Committee Commemorating the Bicentenary of the French Revolution.

Nutcracker auditions

On Oct. 10, the Center for the Performing Arts is holding open auditions for "The Nutcracker." Children chosen will dance with the Pittsburgh Ballet Theatre when the company performs on Dec. 7 and 8 at Eisenhower Auditorium at University Park.

Because various roles require children of specific heights, the initial Oct. 10 auditions are scheduled accordingly: auditions for children 4 feet to 4 feet 11 inches tall are from 5 to 9:30 p.m., with registration at 4:30 p.m.; auditions for children 5 feet to 5 feet 5 inches tall are from 9 to 10 p.m., with registration at 8:30 p.m.

For additional information, contact the Center for the Performing Arts at 863-0388 or your local dance school.

Senate to continue focus on undergraduate education

The quality of undergraduate education will continue to be a major focus of the 1990-91 University Faculty Senate, according to its chairperson, **Peter Deines**.

"This has been a long-standing concern of the University Faculty Senate and of mine for the last six years," Dr. Deines, professor of geochemistry in the Department of Geosciences, said.

"I became involved with the issue through my participation in the formulation of the general education component of the curriculum and its implementation. The Senate will continue to work on improving the quality of undergraduate education in the coming year."

Among the education issues the Senate will deal with are implementation of the cultural diversity requirement and writing-across-the-curriculum. The Senate also will look at the quality of instruction in general education courses.

In addition, a newly created Task Force on Undergraduate Education will examine the University's general education program and outline what it should include for the 1990s and beyond, Dr. Deines said. Jointly appointed by the Senate and the Office of the Vice Provost and Dean for Undergraduate Education, the task force will make its final report in the spring.

Two other special committees currently are at work on undergraduate education issues, he noted. They are the Task Force on Adult Student Life and Learning and

Peter Deines

the Coalition on Campus and Classroom Climate. Another major focus of the 1990-91 Senate will be establishing a constructive relationship with President Thomas.

"The administration has traditionally sought out and

listened to the ideas of members of the Senate. We want to make sure that we continue the very positive and productive relationship that we have enjoyed with the administration," Dr. Deines said.

"I hope that President Thomas will use the Senate and Senate Council as forums to express his concerns and ask our advice."

Among the faculty concerns that the Senate will address are improvements to the climate for faculty development and the upgrading of teaching. Senate committees will explore recommendations made last year by the Task Force on Faculty Development.

"We need to update our classroom facilities to meet the changing demands on these facilities as we move toward the use of more computers in the instructional setting," he said. "Our research facilities also need to be updated and renovated."

In the area of external relations, the Senate needs to look at how the University communicates to Pennsylvania residents about the challenges higher education faces and the opportunities it provides, Dr. Deines said.

"The way in which higher education is offered in Pennsylvania will continue to change in the future. We must provide the state legislators and the public with a better understanding of the changing opportunities, challenges and difficulties of higher education."

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The brief statements for each vacancy are illustrative. They are not complete position descriptions. **APPLY BY CALLING THE EMPLOYMENT DIVISION, 863-0304 (NETWORK LINE 433-0304).** Applications for these staff vacancies will be accepted until Oct. 4. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.** Applications for staff vacancies are considered in accordance with Fair Employment practices (FE-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap or age (as provided by law), sex, or status as a disabled or Vietnam era veteran.

***0094, Administrative Aide, Office of the President, Office of International**

Programs, University Park Campus - Responsible to the director of the Office of Education Abroad Programs (EAP) for general administrative support to include assistance in resolving student problems, enrollment and course scheduling activities, program budgeting, internal accounting/auditing, and coordination with all University offices involved in providing administrative support for EAP. Requires associate degree, or equivalent, plus one to two years of effective administrative experience. **STAFF GRADE 4.**

***0095, Systems Programmer/Coordinator, Applied Research Laboratory, University Park Campus** - Responsible for assisting the coordinator, Management Information Systems, in developing and installing a comprehensive administrative system. Requires bachelor's degree, or equivalent, in management information systems, computer science or related field, plus

one to two years of effective experience in database applications. A working knowledge of ORACLE, SQL, Visi hardware and VMS-based systems is preferred. U.S. citizenship required. **STAFF GRADE 6.**

***0096, Library Specialist, Applied Research Laboratory, University Park Campus** - Responsible to the supervisor, Library Services, for general operation of the ARL Library and for the circulation, reference and bibliographic functions involved in its operations. Requires high school graduate with two years of college, or equivalent, plus two to three years of effective experience. Experience with personal computers required. U.S. citizenship required. **STAFF GRADE 5.**

***0097, Nursing Education Instructor, University Hospital, Nursing Education, The Milton S. Hensley Medical Center** - Responsible to the clinical nurse educator for the general

orientation, instruction, and educational programs for the Department of Nursing for all levels of nursing personnel. Requires a bachelor's degree in nursing plus one to two years of effective clinical experience; and current licensure by Pennsylvania State Board of Nursing. Previous operating room experience necessary. Operating room certification desired. **STAFF GRADE 6.**

***0098, Senior Information Specialist, Institute of State and Regional Affairs, Penn State Harrisburg** - Responsible to the coordinator for performing a variety of activities including computer programming, statistical analysis, report writing and client training. Requires bachelor's degree, or equivalent, plus one to two years of effective experience. Master's degree in public administration or a related field preferred. Experience in microcomputer application and graphics programs (e.g., ATLAS/Graphics, Dbase), mainframe programming languages (i.e.,

FORTRAN, CENSAPAC), and statistical software packages (i.e., SAS, SPSS) required. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH A GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 5.**

***0099, Information Specialist, Institute of State and Regional Affairs, Penn State Harrisburg** - Responsible to the coordinator for performing a variety of activities, including technical assistance, data base management and collection, statistical analysis, and report writing. Requires high school degree, or equivalent, plus two to four years of effective experience. Experience in microcomputer applications is highly desirable. **THIS IS A FIXED-TERM POSITION FUNDED THROUGH JUNE 30, 1991, WITH A GOOD POSSIBILITY OF RE-FUNDING. STAFF GRADE 4.**

INTERCOM is published weekly during the academic year and every other week during the summer. It is an internal communications medium published for the faculty and staff of Penn State by the Office of Public Information, Room 312, Old Main, Phone 865-7517.

Advance gifts program launches United Way campaign

More than 300 University officials will launch the University Park United Way campaign with advance gifts contributions.

Anne C. Petersen, University Park United Way chairperson and dean of the College of Health and Human Development, said: "The advance gifts program for United Way, now in its 10th year, provides an opportunity for administrative and academic leaders at the University to learn more about the role United Way plays in Penn Staters' lives, agency functions, and the key role of the University Park campaign in the success of the county United Way campaign. Seeking understanding and commitment from

administrators lends credibility and impetus to the United Way program throughout the

It brings out the best in all of us.™

system."

The advance giving campaign includes

administrators from President Thomas to department heads. The personal solicitation campaign for the nearly 10,000 University Park employees is scheduled for Oct. 29 through Nov. 2.

The University Park campaign, which last year raised a record \$190,540, has as its goal this year \$189,750—a 15-percent increase over the 1989 goal. This coincides with the goal increase for the county, which also averages 15 percent. Traditionally, University Park employees contribute more than one-fourth of the county's United Way funds. The University is the county's largest employer.

Center gets contract for graduate studies in transportation

The U.S. Department of Transportation has awarded a \$1 million contract to the Mid-Atlantic Universities Transportation Center (MAUTC), based in the Penn State Pennsylvania Transportation Institute.

The grant will fund the Institute for Advanced Studies in Transportation Engineering and Management (TeaM) in the PTL, according to James Miller, MAUTC director.

MAUTC, which encompasses a five-state region, is one of 10 transportation centers

in the United States established to conduct long-term, applied transportation research and to train transportation professionals. Penn State is the lead university in the six-university MAUTC consortium.

The TeaM Institute program offers a blended graduate curriculum in transportation engineering and management. The program is a unique combination, encompassing the management of traffic, infrastructure and transportation organizations, according to

John Mason, director of TeaM and associate professor of civil engineering.

"What we are doing is offering students state-of-the-art engineering expertise and skills in business management practices. Transportation has become a highly technical field, faced with a failing infrastructure, capacity constraints and fiscal problems. It is important that students can function at the juncture of technology and resource management," he said.

Three Engineering graduates will visit as Alumni Fellows

Three College of Engineering graduates will visit University Park Oct. 10 to 14 to receive Alumni Fellow awards.

They are **Russell E. Horn**, chairman of the board, PACE Resources Inc.; **William L. Keefe**, corporate vice president-law and vice president and general counsel, AT&T Bell Laboratories (retired); and **Charles L. Miller**, executive vice president, occupant restraint systems, TRW Inc.

They are among 18 prominent graduates named Alumni Fellows this fall. The Alumni Fellow Award, presented by the Penn State Alumni Association, is given to outstanding alumni and carries a lifelong title. It is administered in cooperation with the colleges.

Mr. Horn, a 1933 civil engineering graduate, has devoted his professional life to architectural and engineering design. He began as a foreman for the Pennsylvania Department of Highways in York, Pa., then worked as a supervisor and designer in the C.S. Buchart architectural firm prior to World War II. An ROTC graduate, he

served in the U.S. Army Corps of Engineers, continuing in the reserves and retiring as a colonel in 1963.

In 1945, he was named executive vice president and chief engineer of Buchart Engineering Inc. He became president in 1959, and in 1961 helped establish Buchart-Horn Inc., an engineering consulting firm. There, he served as president and chief engineer, later becoming chairman of the board.

Mr. Horn formed PACE Resources Inc. in 1970 to consolidate his businesses. PACE Resources' architectural subsidiary, BASCO Associates, designed the Military, Air and Naval Sciences Building at University Park and a multipurpose classroom building at the Penn State York Campus. In 1987, he was named a Penn State Outstanding Engineering Alumnus.

Mr. Keefe, a 1948 electrical engineering graduate, interrupted his college career to serve in the Army Air Corps, returning to Penn State in 1946 to

Please see "Alumni" on page 3.

Presidential visit

President Thomas met with DuBois Campus faculty, staff and students on Thursday, Sept. 27, while on campus for the formal dedication of the Mary Smel Building.

Focus on Diversity

WPSX-TV presents 'Spike and Co.'

"Spike and Co.: Do It A Cappella," hosted by filmmaker Spike Lee and actress Debbie Allen, raises the curtain on *Great Performances'* 18th season on Channel 3 at 9 p.m. Friday, Oct. 5.

Featuring such superstars of unaccompanied close harmony as Grammy-winners Take 6 and Ladysmith Black Mambazo, east London's all-girl The Mint Joleps, the godfathers of a cappella the Persuations, and newcomers Rockapella and True Image, the show was filmed in Brooklyn, Mr. Lee's home turf, and climaxes at a rousing concert on stage at the Brooklyn Academy of Music's Majestic Theater.

"There are plenty of prominent artists out there—but there are also many talented people who we never hear about who should get exposure. That's why we're doing this show," says Mr. Lee, who along with Ms. Allen, opens the program searching back alleys, basements and hallways for "the perfect a cappella echo."

Debbie Allen and Spike Lee host an all a cappella special airing on 'Great Performances' at 9 p.m. Oct. 5 on WPSX-TV.

Office will conduct student workshops

The Office of International Students will conduct a workshop for academic department personnel involved with the admission and maintenance of international students. The workshop will be offered three times: 2 p.m. Wednesday, Oct. 24, and 10 a.m. and 2 p.m. Thursday, Oct. 25. All workshops will be in Room 305 Hetzel Union Building, University Park, and will last about two hours.

The workshop will focus on major issues concerning international students. It is designed for those who do the day-to-day work of admission, as well as for graduate admissions officers, department heads and others involved with international students.

Topics to be discussed include timing of offers of admission, new practical training regulations, new University health insurance policy, international students in crisis, academic progress standards and policies relating to employment.

Diversity Calendar

Tuesday, Oct. 9

Men of Color of Central Pennsylvania, noon, Nittany Lion Inn porch. Monthly luncheon meeting. For more information, call 863-7517.

Wednesday, Oct. 10

Jewish holiday Shemini Atzeret begins at sundown and ends at sundown Oct. 11.

Groove Phi Groove, 7 p.m., Paul Robeson Cultural Center. Film: "The Resurrection."

Thursday, Oct. 11

Women's Studies, 8 p.m., HUB Gallery. Deborah Gray White, Rutgers University,

on "The Cost of Club Work, The Price of Black Feminism."

Jewish holiday Simchat Torah begins at sundown and ends at sundown Oct. 12.

Campus Life Assistance Center, 7 p.m., HUB Assembly Room. Discussion: "Let's Talk: Disabilities and Penn State," and film: "My Left Foot."

Throughout October

Hindu and Jain Good over Evil holidays (exact dates dependent on lunar calendar).

October through November

Hindu and Jain Festival of Lights holidays (exact dates dependent on lunar calendar).

Black feminism

A discussion on Black feminism is scheduled at 8 p.m. Thursday, Oct. 11, in the HUB Gallery at University Park.

Deborah Gray White, associate professor of history at Rutgers University, will present "The Cost of Club Work, The Price of Black Feminism."

The program is part of the Six Feminist Scholars Lecture Series and co-sponsored by the Women's Studies Program, the Center for Women Students and other University units.

For more information, call the Women's Studies Program at 863-4025.

Proposal request made by committee

The Equal Opportunity Planning Committee has issued a request for proposals for 1991-92. Copies of the guidelines for proposals are available in 405 Old Main. Inquiries should be directed to Minora Sharpe or Lynn Ryan at 863-0405. The proposals must be submitted by Nov. 12 for summer programs and Dec. 12 for academic year programs.

Private Giving to Penn State

IBM funds microelectronics research

IBM Corp. has given \$248,000 to the College of Engineering to further microelectronics research.

The grant includes an IBM RISC System/6000 computer valued at \$148,000, and an additional \$100,000 for equipment for an undergraduate cleanroom facility in the Center for Electronic Materials and Processing. The cleanroom facility is part of a multi-million dollar engineering renovation project.

"We're delighted to have such substantial support from IBM for our undergraduate and research efforts," John A. Brighton, dean of engineering, said. "As a major supplier of the nation's engineers, our college must give our graduates hands-on, state-of-the-art experience in microelectronics, and IBM's participation

helps us to continue providing it."

The new IBM computer will control access to cleanrooms and facilities as well as monitor cleanroom equipment.

Cleanrooms, which filter air to 10,000 times cleaner than the normal atmosphere, are used for microelectronic experimentation. The filtered environment allows the use of such sophisticated processing equipment as a dual end-station ion implanter or a molecular beam epitaxy facility.

The \$100,000 equipment grant will be used to purchase processing equipment specifically dedicated to undergraduate teaching. This equipment, to be housed in the new undergraduate teaching cleanroom, will be used to fabricate devices and integrated circuit chips.

Honors James R. Keiser

HRIM alumni make building gift

Alumni of the School of Hotel, Restaurant, and Institutional Management have donated \$50,000 toward a new building planned for the school.

Their gift honors James R. Keiser, a retired associate professor of hotel and institutional administration and a mainstay of the program for 30 years. A classroom in the new building will be named in his honor.

"Jim Keiser was a pillar that held the program together through many changes," said Gary Budge, a 1972 graduate and now corporate director of food and beverage for Princess Hotels International. Mr. Budge is chairman of the fund-raising effort among alumni that resulted in the gift.

The proposed 31,000-square-foot building will be adjacent to Keller Building. It will house a dining room, production and research kitchens, classrooms, a multimedia resource center and administrative and faculty offices.

"We're delighted that Jim has been honored by those whose lives he touched," Anne C. Petersen, dean of the College of Health and Human Development, said.

Dr. Petersen said many people remember James Keiser as the person who helped them get started in the hospitality industry and in life. He taught 23 different courses and advised six student organizations, retiring in 1989 after 30 years with the school.

University wins awards for cost-savings programs

Penn State is receiving national attention for two cost-savings programs that have already saved the University hundreds of thousands of dollars.

"As colleges and universities are taking a hard look at ways to hold down operating costs, an in-house chalkboard resurfacing program at the Penn State Harrisburg campus and a freight management system are evidence of what innovation and ingenuity can accomplish," James Wagner, vice president for business and operations, said.

The programs have earned the University two of the 44 monetary awards in the 15th annual Cost Reduction Incentive Awards Program, sponsored jointly by the National Association of College and University Business Officers and the USX Foundation.

More than 250 colleges and universities participated in the 1990 program.

Chalk manufacturers often use a wax binder to cut down on dust, but the wax fills the pores of slate chalkboards preventing the chalk from adhering. Over time, the wax buildup becomes immune to commercial cleaning products, and the institution is faced with expensive and inconvenient refinishing or replacement.

Penn State Harrisburg Physical Plant developed an alternative that has saved 61 percent of the refinishing cost of commercial grinding and 91 percent of the cost of replacement. Staff devised a way of cleaning the blackboards with a floor stripper, a floor machine, a wet vacuum and a wet mop.

Addressing a more complex problem of

streamlining and controlling freight transportation costs, University Freight developed a freight management cost avoidance system that has saved Penn State \$280,000 in one year.

In the past, carrier selection was generally made by a vendor or supplier, and the University found it had little control or influence over carrier service. The new system, based on centralized control of carrier selection, revolves around a freight coordinator in purchasing who negotiates contracts and discounts directly with carriers.

The University also received honorable mention for two smaller-scale cost saving projects. When the Department of Architecture at University Park badly needed studios painted, but there were no

resources to do the job, the department hired University students to do the painting, and the Office of Physical Plant provided supervision and supplies. The cooperative program resulted in a substantial savings of \$7,500.

The University also was commended for a cost-saving program that removed residence and dining halls at the Harrisburg campus from a central heating plant several blocks away. A significant amount of heat was being lost in the transmission pipe. Individual gas boilers were installed at a cost of \$153,894, saving the campus \$40,000 in one year with a payback period of 3.8 years.

News in Brief

Sigma Xi seeks nominations

Sigma Xi, the Scientific Research Society, is now accepting nominations for new members and for those being promoted to full membership. Nomination forms are being mailed to all local members; additional forms may be obtained from Robert G. Melton, 233 Hammond Building, 865-1185. Deadline for nominations is Oct. 12.

Institute grant

A group of faculty at the Population Issues Research Center in the Institute for Policy Research and Evaluation has received a grant of \$499,274 from the National Institute on Aging for a five-year post-doctoral training program in "Population Biology, Generations, and Cohort Succession."

The grant will bring two post-doctoral

fellows in the demography of aging to the University in its first year, with the number increasing to four post-doctoral fellows annually in the second through fifth years.

The principal investigator and director of the post-doctoral training program is Dennis P. Hogan, professor of sociology and director of the Population Issues Research Center.

Nominations for teaching awards being accepted

Nominations currently are being accepted for two major University teaching awards—the George W. Atherton Award for Excellence in Teaching and the Christian R. and Mary T. Lindback Award.

The Atherton Award is designed to recognize excellence in teaching performance in the undergraduate program of the University. There are four awards to

be presented, with at least two of the awards to be made to faculty at campuses other than University Park.

The Lindback Award, funded by members of the Lindback family, is given in recognition of outstanding teaching at the University. Two awards will be presented.

Nomination forms for the Atherton and

Lindback awards are available from the Office of the Vice Provost and Dean for Undergraduate Education, 207 Old Main, University Park. All nominations must be received by Oct. 19.

Presentation of the awards will be made at the University Awards Convocation in April 1991.

Carpoolers

Amy would like to carpool from Philipsburg to University Park. Her work hours are 8:30 a.m. to 5:30 p.m. Call 865-4731 or 342-1486.

Sharon would like to carpool from the Penns Valley area to University Park. Her work hours are 8 a.m. to 5 p.m. Call 863-0618 or 349-8843.

Alumni

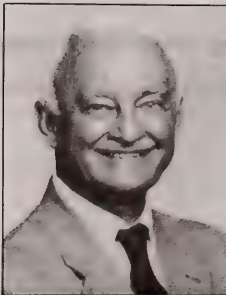

Continued from page 1.

finish his degree. In 1952, he graduated from New York University School of Law and then he joined the patent organization of Bell Telephone Laboratories, beginning a long and productive career in patent laws.

He became general patent attorney of Bell Labs in 1973. In 1980, he was elected vice president and general counsel of Bell Labs, and in 1984 was elected corporate vice president-law.

Since his retirement in 1989, Mr. Keefe serves as a consultant in intellectual property matter. He is a 1986 Outstanding Engineering Alumnus and currently is president of the College of Engineering Industrial and Professional Advisory Council.

A 1953 industrial engineering graduate, Mr. Miller has established a distinguished career in international entrepreneurship. He joined the U.S. Merchant Marine Academy, graduating in 1946. After two years as an engineering officer in the oil tanker fleet of

Russell E. Horn

Standard Oil Co., he entered the industrial engineering program at Penn State in 1950, graduating with honors.

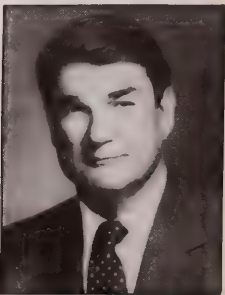

He has worked for General Motors,

William L. Keefe

Federal Mogul Corp., Weatherhead Co. and TRW, which he joined in 1969.

He was named managing director of the TRW Cam Gears Subsidiary and later general manager of TRW's European engine

Charles L. Miller

components operations. He was elected to his present position in 1987. In 1978, he was named a Penn State Outstanding Engineering Alumnus.

Focus on the arts

The arts on Channel 3

WPSX will present Alfred Hitchcock's 1935 comedy-thriller masterpiece *The Thirtynine Steps* at 11 tonight.

Starring Robert Donat and Madeleine Carroll this memorable story is the model for many subsequent spy yarns and one of the best films Alfred Hitchcock ever made.

Celebrating big band music, WPSX will air an encore presentation of *Fred Shuman Smith and the Chubmen Orchestra* with vocalist Rosemary Wagner at 10 p.m. Friday, Oct. 5. The program features tunes from the golden age of live music, when Tommy Dorsey, Benny Goodman and Glenn Miller ruled the dance floor.

Centre Dimensions

Centre Dimensions, an award winning student jazz ensemble from the School of Music, will perform in concert at 8 p.m. Monday, Oct. 8, in the Recital Hall of the Music Building at University Park.

The program features music from the big band era of Count Basie and Woody Herman, including "La Fiesta," "Nobody's Human," "Fried Bazzard," "What's New," "Willow Weep for Me" and "Please Don't Talk About Me When I'm Gone." The ensemble also will perform an original composition by pianist and graduate assistant Jeff Kunkle.

Zoller exhibit

An exhibition documenting an environmental art piece developed in Sri Lanka will open Monday, Oct. 8, in Zoller Gallery at University Park.

"Book of the Seven Lagoons" by internationally known environmental artists Helen Vayer Harrison and Newton Harrison will be on display through Nov. 4. The exhibition is a photographic documentation of work the Harrisons undertook with a species of crabs native to the island country off the coast of India.

This exhibition is the first of two of the Harrisons' work to be on display at University Park this fall. The second, "The Save River: A New History," will open at the Palmer Museum Nov. 21.

The Harrisons will be on campus Oct. 23 and Oct. 24. On Oct. 23, they will present a public lecture at 8 p.m. in Kern Graduate Commons. On Oct. 24, they will present a reading and performance of "Book of the Seven Lagoons" at 8 p.m. in Zoller Gallery.

The two exhibitions, the lecture and the performance are held in conjunction with the international conference Biodiversity and Landscapes: Human Challenges for Conservation in the Changing World being held at University Park Oct. 22-25.

Obscenity and the arts

A public forum exploring the controversy surrounding the National Endowment for the Arts (NEA) obscenity clause will be held at 7:30 p.m. Tuesday, Oct. 9, in Schwab Auditorium at University Park.

The forum, titled "Obscenity, censorship and the Arts," consists of a panel of

The Pennsylvania Quintet will premier a work by Steven Stucky at 8 p.m. Oct. 10 in the Recital Hall of the Music Building.

University faculty members and artists who will briefly present their own views on the NEA's obscenity clause before opening the discussion to the audience. The clause forces artists who accept grants to agree to exclude from their work anything the NEA may consider obscene.

Panel members are John Kissick, assistant professor of art; Bruce Murphy, professor of political science; Eliza Pennypacker, associate professor of landscape architecture; and Ken Foster, director of the Center for the Performing Arts. Charles Garoian, assistant director of the Palmer Museum of Art, will be moderator of the forum.

The forum is sponsored by the College of Arts and Architecture, the Center for Performing Arts and the Palmer Museum of Art. It is free and open to the public.

Penn State-Behrend

Penn State Erie. The Behrend College is hosting a speaker series on the theme "Shaping the Future: Taking Responsibility in the 1990s." The series is free to the public.

The schedule is: Frank C. Carlucci III, former secretary of defense and national security adviser during the Reagan administration, on "Peace in the East: Security in the West," 8 p.m. Oct. 13, Reed Lecture Hall.

William Raspberry, syndicated newspaper columnist, on "Perspectives on America," 8 p.m. Oct. 25, Reed.

Richard Lamm, former governor of Colorado, and Nat Hentoff, *Village Voice* writer, debate on the right to die, 8 p.m. Nov. 15, Erie Hall.

Rev. John F. Steinbrink, activist for the homeless, on "Homelessness in America," 8 p.m. Jan. 23, Reed.

Jack Anderson, syndicated newspaper

Wind ensemble

The faculty wind ensemble will perform the premiere of a work by one of America's leading young composers at its concert at 8 p.m. Wednesday, Oct. 10, in the Recital Hall of the School of Music at University Park.

The "Serenade for Wind Quartet" by Steven Stucky, composer-in-residence of the Los Angeles Philharmonic and professor of composition at Cornell University, was commissioned by the Pennsylvania Quintet through a private grant to further the composition and performance of contemporary music. The work is in five movements of contrasting character and extends the voices of the ensemble by adding scoring for English horn, alto flute and piccolo.

Dr. Stucky will be in residence in the School of Music to present seminars on composition Oct. 10 and will attend the premiere performance.

The concert also will include works from the traditional quintet repertoire by Ibert, Bozza and Nielsen.

Dr. Stucky, originally from Kansas, has become well known as a persuasive voice among the younger generation of American composers. His music has been performed throughout this country and abroad.

Members of the Pennsylvania Quintet are School of Music faculty members Eleanor Duncan Armstrong, flute; Barry Kroeker, oboe; Smith Toulson, clarinet; Daryl Duran, bassoon, and Lisa J. Bontrager, horn.

Odyssey on WPSU

The "highly talented and morally reprehensible" late nineteenth-century woman who wrote under the pseudonym "Gyp" is the topic of discussion on next week's "Odyssey Through Literature."

Clarinetist Richard Stoltzman will perform at 8 p.m. Oct. 5 in Eisenhower Auditorium.

"Gyp is a kind of vortex that draws in the whole of a period," says her biographer, Willa Silverman of Penn State's Department of French. A noted feminist and political activist, Gyp was a staunch conservative and a vehement anti-Semite in spite of the fact the publisher of her novels was Jewish—as well as a critical observer of that period in French history encompassing the Dreyfus Affair.

"Odyssey Through Literature" is produced by the Department of Comparative Literature, and airs Wednesday at 12:30 p.m. on WPSU, 91.1 FM.

New Decade Quartet

The New Decade Quartet, a group of graduate and undergraduate horn majors from the School of Music, will perform in

columnist, on "The News Behind the News," 8 p.m. Jan. 29, Erie.

Joe Clark, New Jersey principal, on "From Disgrace to Amazing Grace," 8 p.m. Feb. 19, Reed.

Rosemary Radford Ruether, feminist theologian, on "Ecofeminism: The Symbolic and Social Domination of Women and of Nature in the Christian Tradition," 8 p.m. March 11, Reed.

Judy Goldsmith, former NOW president, on "Women in America: The Invisible History," 8 p.m. March 19, Reed.

Richard Keeling, chair, American College Health Association Task Force on "AIDS and National AIDS Network, on AIDS in the 1990s: New Challenges and New Hopes," 8 p.m. April 2, Reed.

Henry Cisneros, former mayor of San Antonio, on "America's Challenge in a Changing World," 8 p.m. April 17, Reed.

A second series, the Penn State-Behrend Provost's Speaker Series, will feature Robert Marande on "Journey Through the Universe"

8 p.m. Oct. 30, Reed, and Daniel Frankforter on the history of Christianity through 17th century feminism, 8 p.m. March 27, Reed.

Penn State Great Valley

The AFZ (America's First Zoo) Camera Club traveling exhibit, featuring 33 examples of animal portraits, plants and zoos architecture by 15 photographers, is on display in the main recreation area until Nov. 2.

According to Bill Buchanan, AFZ Camera Club president, the photo exhibit presents "a fresh approach to seeing the zoo and nature through the eyes of people who spend long hours behind their lenses just waiting to catch the perfect moment."

America's First Zoo Camera Club has been a service organization to the Philadelphia Zoo for seven years, and members are both amateur and professional photographers.

University Park Calendar

October 4-- October 14

Special Events

Thursday, October 4

Earth and Mineral Sciences, IBIS open house, 10:30 a.m.-noon, Walker Bldg. Thursdays through Nov. 15.
